Ohio/Penn DX Bulletin No. 741

The Ohio/Penn DX PacketCluster
DX Bulletin No. 741
BID: $OPDX.741
January 2, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N2OO, K3SWZ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, WA4PGM, N7NG, W7YW, K8FF, K8YSE, The NIAR, SWL Pete Rayer, 9A6AA, 9A7K, DL1EK & The DX News Letter, DL2OBO, F5NQL & UFT, F6CYV, F8BBL, F8DVD, G3SWH, I1JQJ/IK1ADH & 425 DX News, IZ8BRI, JI6KVR & JA-IOTA Islands News, LA9VDA, PY7RP, VA3RJ & ICPO and VE6LB/VA6XDX for the following DX information.

*** SPECIAL NOTE FROM EDITOR (Tedd, KB8NW): My family (wife/OPDX's chief proof-reader Linda, son Teddy [TJ] and his wife Jessi, daughter Katie) and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy New Year". Thanks to the many individuals who have provided DX information over the past year. Without them, there would not be an OPDX Bulletin. Also, thanks to the individuals who sent holiday wishes to me and the family.....
73 and Have a Great/Safe/Health New Year de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 25th/December, through Sunday, 1st/January there were 209 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 9A, 9H, 9J, 9K, 9M2, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, F, FG, FH, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B9 & FR, RODRIGUES AND REUNION ISLANDS (Correction). Look for Jean-Marie, F8CHM (not F8CHN as reported in OPDX.740), to be active as FR5EZ from Reunion Island this week. His operations will take place between now and January 3rd. He will then leave and go to Rodrigues Island and operate as 3B9/FR5EZ between January 3-11th, before returning to Reunion Island and staying until January 17th. Most of his activity will be on 30 and 17 meters. QSL both operations via F8CHM.

8R, GUYANA. Ken, K7ZUM, will be active as 8R1ZUM in the ARRL DX SSB Contest (March 4-5th). Look him to be active on 40/20/15 meters RTTY using the callsign 8R1/K7ZUM before the contest. QSL via K7ZUM (QRZ.com).

ANTARCTICA NEWS.....
3RD AAW NEWS. More stations are reported that they will be active in this year's 3rd Antarctic Activity Week (AAW) to take place February 20-26th. Here is an updated list of the special event stations which will be active during the next AAW:
WAP Ref. Sp. Callsign and Operator
-------- -------------------------
WAP-02 IR1ANT operated by I1HYW
WAP-08 TM0ANT operated by F6KDF Radio Club
WAP-10 IR0ANT operated by IZ0EGC, IK0JFS and IW0HP
WAP-12 II7ANT operated by IZ7AUH at ARI Taranto
WAP-14 TM8ANT operated by F8DVD
WAP-16 II0ANT operated by I0NZK at ARI Cassino
WAP-18 II8ANT operated by IZ8EDJ at SRT Campania
WAP-21 VU2ANT operated by VU2UR
WAP-22 4O3ANT operated by YZ1SG and YU1ZZ
WAP-23 IO2MET operated by IK2IWU at IAF Base
WAP-24 UE6ANT operated by UA6HPR
WAP-25 II5ANT operated by IZ5BTC at SRT Tuscany
WAP-26 TO2ANT operated by F6HMJ
WAP-28 IO6ANT operated by IZ6FZS
WAP-29 TM5ANT operated by F5NOD
WAP-3 II2ANT operated by I2JJR & HB9FBI/I2QPO
WAP-31 TM6ANT operated by F6ELE
WAP-32 II1ANT operated by IZ1GJK
WAP-34 TM7ANT operated by F6CKH
WAP-35 IO0ANT operated by I0YKN and I0OCD

ADDED NOTE: Egidio, IZ8BRI, DDXC & W.A.P. Web Master, has just announced that he will sponsor a Special WAP Plaque for the special event station which has the highest number of QSOs in the log for the 3rd AAW. For more details, visit the WAP Web at: http://www.ddxc.net/wap

Horacio, LU4DXU, has cancelled/postponed his LU4ZS operation from Marambio Base (IOTA AN-013, Antarctica Award LU-03) on Seymour Island that was scheduled to take place between January 3-8th. There is a

possibility of him going there in February. More details are forthcoming.

CDXC 2006 CONVENTION. Laurent, F8BBL, states to mark your calendar for the 28th Clipperton DX Club DX Convention which will be held over the September 15-17th weekend. The event will be held in the very popular Arcachon area of France. Some of the presentations scheduled include K7C, 5H1C, A52CDX, FT5XO, 4S7PAG, MU0EXV/GU0VNK, 3Y0X and TO4Gxx just to name a few. For more details you can send an E-mail to convention@cdxc.org or check out the CDXC Web page (in French) at:
http://www.cdxc.org/Conventions/2006-Arcachon/arcachon2006-f.htm

FG, GUADELOUPE. Rick, N0YY, will be active as FG/N0YY from February 13-21st. His activity will include the ARRL DX CW Contest (February 18-19th) as a Single-Op/All-Band entry. QSL via K9JS.

HB0, LIECHTENSTEIN. Tom, DL2OBO, is expected to be active as HB0/DL2OBO from "Chalt Bars&#65533;la" cottage between 1600z, January 2nd and 1200z, January 7th. Activity will be on 160-10 meters with an emphasis on the lower bands. He states that if you need a sked for anything, call by telephone at 00-423 262 68 54; anytime you like (between the above hours only), and also during the night.

IOTA NEWS.....
EU-088. Ric, DL2VFR, will be active as OZ/DL2VFR from Laeso Island (DIA NK-003 for the Danish Islands award) from July 23-30th. Activity will be HF and 6 meters, mostly CW with some SSB. He will also be active in the RSGB IOTA Contest (July 29-30th). QSL via his home callsign; bureau is preferred.

EU-096. Operators Ric/DL2VFR and Frank/DL2SWW are planning to be active from Korpo Island, March 22-29th. Activity will be on 160-10 meters (possibly 6m), CW and SSB. QSL via their home callsigns.

NA-058. Look for Jerry, N9GGO, and his XYL Kathy, KC9HIF, to be active from Jekyll Island (USI GA-006S, Glynn County, Georgia), January 3-7th. Activity will be during the hours of 1230-1600z on 20 meters SSB (watch 14260 kHz +/- QRM). QSL via N9GGO (QRZ.com).

SA-023. (Cancelled) Renner, PY7RP, informs OPDX that Cristovao, PY7GK, had to cancel his holiday ZY6GK expedition to Itaparica Island due to radio problems. Some days ago his IC-746 stopped transmitting. He told Renner that he will send his radio to get repaired and plans to be back on Itaparica just in time for the next IOTA contest.

ISWL DIAMOND ANNIVERSARY (Special Event). SWL Pete Rayer, Hon. Life Vice President of the ISWL, informs OPDX that the "International Shortwave League" (ISWL), celebrates it 60th (Diamond) Anniversary in 2006. The ISWL was founded in 1946 and caters to Licensed Amateurs, Broadcast Band and Amateur Band SWL's and Air Band Listeners around the world. (Plus many more aspects of their great hobby). Please visit the following Web for more details at: http://www.iswl.org.uk
During the celebration, look for special event station GB60SWL to be

used at 12 public events throughout 2006. The first event will be on January 22nd from the RAF Montrose Heritage Centre in Angus, Scotland. Also, look for special event station GB6SWL to operated on weekends and public bank holidays from various locations around Great Britain. Full details can be found at the above Web page or on QRZ.com. QSL both operations to: Alan Loveridge, c/o ISWL QSL Bureau - 29, Courtiers Drive, Bishop Cleave, Cheltenham Gloucestershire England, U.K.

JW, SVALBARD. Trond, LA9VDA, will once again travel to Svalbard (Spitsbergen Island - IOTA EU-026) and be active as JW9VDA from January 9-16th. His activity will be on all bands, mostly CW and SSB. This operation will be good for a brand new WLOTA JW-0125 reference number. QSL direct to: Trond Johannessen, Helgedalen 13, N-1528 Moss, Norway. Please include a self-addressed envelope (SAE) and sufficient return postage. For postage to Europe and the rest of the world, 1 USD is not enough. Please provide at least 1 IRC or 2 USD. Direct QSLs without sufficient return postage will be answered through the bureau. QSL cards for JW9VDA can be requested via E-mail to: la9vda2003@yahoo.no

P4, ARUBA. Tom, W7YW, informs OPDX that he will be operating from Aruba from March 7-22nd. He will be operating from the P40L contest station on all bands with SSB and CW. A personal callsign has not been assigned yet, but Tom has requested P40YW. He will be accompanied by his wife Bonnie, W7BWW. QSL to his home call, W7YW.

QSL INFO AND NEWS.....
Gerry, VE6LB/VA6XDX, reported that the 3C2MV logs are now online and available at: http://dx.qsl.net/logs/

SILENT KEYS.....
WB3DNA - Tim Fanus, DXer of Harrisburg, PA, became a Silent Key on December 28th. Tim was 47 yrs. old and confined to a wheel chair since his early teens. He was a DXCC Honor Roll member, QSL Manager and a long time QSL sorter for the W3 Bureau until his health would not permit him to continue.

W8LKH - Richard Hatton a DXer of Novelty, Ohio, became a Silent Key on December 20th at the age of 86. He has been a ham operator since the age of 5. He was at the top of the DXCC Honor Roll for many years with his DXCC Mixed total of 382. Richard Hatton worked in radio broadcasting and electronic sales/service for 65 years. He also served as the Chief of Police in North Randall in the early 1950's.

OPDX and its readers would like to send out our deepest sympathy to the family and friends of the above "SK" DXers.

S0, WESTERN SAHARA. Radio-Noticias magazine reports that a group of operators during their Sadiki Expedition will transmit from different locations from the Sahara, within the territory of the Arab Republic Democratic Saharaui between January 7-13th. Activity will be SSB on the following suggested frequncies: 3675, 7085, 14310, 21175 and 28975 kHz.

Their activity also includes 27425 kHz (11 meters, YES the CB Band!!).
Details are available on: http://www.radionoticias.com

SJDXA 2006 OFFICERS. At the December meeting of the South Jersey DX Association, the following officers were elected for 2006:
Bob Schenck, N2OO - President
Tony DeBiasi, K2SG - Vice President
Steve McGarry, W2USF - Secretary
Bob Pantazes, W2ARP - Treasurer
Visit the SJDXA Web page at: http://www.qsl.net/n2oo/SJDXA.htm

SPECIAL AWARD/EVENT. During 2006, the Croatian Amateur Radio Association will celebrate the 150th anniversary of the birth of the great inventor and scientist Nikola Tesla, who was born near Gospic in Croatia, on the 10th of July 1856. Look for special event station 9A150NT to be active on all bands and modes from Croatia during the year of 2006. ADDED NOTE: The special station 9A150NT will be active each month from a different Croatian county. Also, the Croatian Amateur Radio Association will issue a special event "Nikola Tesla Award", commemorating that anniversary. QSL 9A150NT via 9A6AA. More details about this special callsign (approx. operating schedule) and the "Nikola Tesla Award" can be found on the following Web page at: http://www.inet.hr/9a6aa/9a150nt
Note: Contacts with 9A150NT will also be valid for the Worked 9A Counties Award.

SPECIAL EVENT. The members of the Amateur Radio Club Koprivnica "9A8K" will activate the special callsign "9A650C" to celebrate the 650th anniversary of receiving free status for the town of Koprivnica (in 1356). The special callsign will be in use in 2006 from January 1st through December 31st. The QSL Manager for this activity is Kresimir, 9A7K. One QSO with the "9A650C" callsign is enough to receive the special "Koprivnica City Award". More details are available about this special anniversary callsign as well the special "Koprivnica City Award" on the following Web page at: http://www.9a7k.com

SPECIAL EVENT. Amateurs from the Ardennes area will activate the special callsign TM5OVA now through January 12th. Their activity is in memory of Lucien, F5OVA, one of the most active Hams in the Ardennes area. Operations will be on HF, VHF 2m, UHF 70cm and 23cm. QSL via F0DTB, via the Bureau or direct to: Brunet Gerard, 13 Rue de la Croix du Moulin, 08000 Warcq, FRANCE.

SPECIAL EVENT (JA Activities).....
8J3UKB - Activity to celebrate the opening of Kobe Airport (3-letter code indicator - UKB) between January 1st and March 31st.
QSL via the JARL Bureau.

8J5MC - Activity between January 1-31st, to celebrate the anniversary of Mitoyo City, Japan. QSL via the JARL Bureau.

8J8HKT - Activity between February 1-28th, to celebrate the anniversary of Hukuto City, Japan. QSL via the JARL Bureau.

8J8NST - Activity to celebrate the Winter Sports Festival in Tomakomai, Japan. Special event to be aired between January 16th and February 1st. QSL via the JARL Bureau.

TO5, MARTINIQUE. Al, F5VHJ, will be active as TO5A in the ARRL DX SSB Contest (March 4-5th) as a Single-Operator/All-Band/High-Power entry. QSL via F5VHJ, direct or by the bureau.

TR, GABON. Franck, F4BQO, will be active as TR8FC from Libreville between January 1st and May. Look for Franck during the evenings starting at 1800z on 14190 kHz. Also, watch 21020 and 24900 kHz on CW. Skeds can be arranged by sending E-mail to: F4BQO@orange.fr
QSL via F4BQO, by the bureau or direct to: Claude Franck, 56 Rue de la Treille, 95490 Vaureal, FRANCE.

VP2V, BRITISH VIRGIN ISLANDS. Jim/G3RTE and Phil/G3SWH will be active as VP2V/G6AY from Anegada Island in the British Virgin Islands (IOTA NA-023) between February 23rd and March 1st. Their activity will be primarily CW on 80-10 meters but with some SSB and the possibility of some 160 meters CW operation. They will have two 100 watt stations and hope to be on the air as much as possible, propagation permitting. QSL via G3SWH, direct (with SAE and adequate return postage), via E-mail for a bureau reply or via the RSGB Bureau.

VP9, BERMUDA. Kyle, WA4PGM, will be active as VP9/WA4PGM between January 26-30th. Activity will be on 160-6 meters with an emphasis on the CQWW 160M CW Contest (January 28-29th) as a Single-Operator entry. QSL direct via POB address listed in QRZ.com or on: http://www.wa4pgm.us
Also, QSL via eQSL, and LoTW.

VU4, ANDAMAN AND NICOBA ISLANDS (Update on Hamfest). On December 30th, the National Institute of Amateur Radio (NIAR) sent out a press release (First Information Circular) detailing their upcoming "HAMFEST (VU4) INDIA &#65533; 2006" to take place between April 18-20th from Port Blair, Andaman and Nicobar Islands. The purpose of this conference is to provide a forum for presentation and discussion on the latest technology developments, Antennas & Propagation, Dx-peditions, HF & VHF Communications, Digital amateur radio, Emergency Communications, Promotion of amateur radio / open forum in the field of amateur radio communication. The conference will cover all interdisciplinary aspects of amateur radio in various sessions.
The major attractions during the event include an arena for exhibitors to display and demonstrate amateur radio communication technologies as well as allow foreign hams to operate from the Andaman and Nicobar Islands. Local tours to exotic locations are also planned for participants and much more. The NIAR requests Amateur radio organizations and individual hams interested in operating from Port Blair, Andaman and Nicobar Islands to forward a letter of intent with details (E-mail only) to:
niarhamfest@gmail.com
The complete press release with more details on requesting permission to operate from VU4 are available on the NIAR Web page at:
http://www.niar.org/hf_vu4_06.html

YASME PRESS RELEASE (Foundation Supports Young Contesters at WRTC-2006):
"Because radio contesting needs to attract and support youth, the YASME
Foundation (http://www.yasme.org) announces a donation of $10,000 to
WRTC-2006 (http://www.wrtc2006.com) in support of youth participation.
These funds will be used to help Young Contesters from around the world
attend and participate in WRTC-2006, to be held in Florianopolis, Brazil,
in July 2006. WRTC-2006 has dedicated three two-person team allocations
to Young Contester teams. Additional Young Contesters may participate as
part of multi-operator teams. We encourage young amateurs with a strong
interest in contesting to make their applications for those positions by
20th January 2006. The qualifications and criteria for Young Contesters
to apply to multi-operator teams will be announced shortly. While the
multi-operator teams will operate at existing stations in Brazil, Young
Contesters qualifying for the WRTC2006 competitor teams are expected to
bring their own equipment..... 73, Ward, N0AX, YASME Foundation, Board
of Directors"

XU, CAMBODIA. Just a reminder to look for Peter, NO2R, to be active as
XU7ACY this coming weekend (January 7th). He returns to Sihanoukville
again and plans to stay until January 21st. Activity will be mostly CW
on 160/80/40 meters, with some SSB. QSL via K2NJ. His pilot station is
W2EN.

NOMINATIONS FOR AARA/LEO I. MEYERSON, W0GFQ, AWARD FOR EXCELLENCE
IN AMATEUR RADIO OPEN

Nominations are now being accepted for the AARA, 2006, Leo I. Meyerson, W0GFQ, Award for Excellence in Amateur Radio. Send your nominations and supporting materials to the
Awards Committee, AARA, the American Amateur Radio Association, Box 440, Belgrade Lakes, Maine 04918, USA.

Leo Meyerson is a true radio pioneer. His World Radio Laboratories developed one of the
first single side band rigs, and their Galaxy radios were the first to use transistors hybrid with tubes. Leo flew around the world on a SAC aircraft with Arthur Collins with his 500 Watt Globe King AM transmitter to test AM compared with Art's KWS-1 1000 Watt SSB transmitter. SSB proved itself, and the race was on. Leo developed new methods for
manufacturing crystals during World War II which were adopted by all the crystal
manufacturers and earning him the Army "E" Award. Leo gave away part of his company
which then became Hy-Gain Electronics.

Leo is in the QCWA Hall of Fame and a Dayton Ham of the Year. Leo Installed Maine's QCWA Pine Tree Chapter, which he and Glenn Baxter, P.E., K1MAN, started together years ago. AARA and IARN are proud to offer this grand Award which honors Leo and his commitment to excellence in amateur radio.

AARA Membership K1MAN is legal! www.K1MAN.com
Support K1MAN, AARA and IARN - A modern alternative to the tired ARRL

Maybe it should go to Jim/N2EY for recognizing on Dec 10 that the FCC
does not license amateur radio.

4. QSL info for TL8A?

Newsgroup: rec.radio.amateur.dx
Date: 2006-01-03 12:14:32 UTC
From: N2TU <N2TU@adelphia.net>
Message-ID: <YpGdnQM8AK0B9CfeRVn-qQ@adelphia.com>

I am pretty sure that you actually worked 4L8A, who was QRV at
those times (14th August was WAE CW, where 4L8A was active on all
bands, on 25th August he was spotted several times between 2100z
and 2200z around 14023kHz).

IARN/AARA/K1MAN OPERATIONS FOR 2006 AND BEYOND

INTERNATIONAL AMATEUR RADIO NETWORK (IARN)
EMERGENCY NCS INFORMATION I-VANS STILL NEEDED
IN SEVERAL AREAS - ACT TODAY!

IARN, the International Amateur Radio Network, is now a;so
activating in Mode 3 for Hurricane Beta. Traffic is being accepted
at IARNtraffic@aol.com. Please advise IARN with regard to your
amateur radio emergency traffic operations at 207 495 2215.
IARN is sponsored by AARA, the American Amateur Radio
Association. JoinToday.

OFFICIAL IARN OPERATING FREQUENCIES:

During a world wide communications emergency, I A R N may use SSB
on 14.275 MHz. as a primary control and logistics frequency; 14.127
MHz. LSB (Sel call KMAN) for AMTOR traffic; and 14.272 MHz. as a
secondary SSB frequency, all three for emergency and some health and
welfare traffic. Most health and welfare traffic should normally be
routed by E-Mail to:

IARNtraffic@aol.com

Please use the IARN message format as detailed below.

IARN EMERGENCY ACTIVATION MODES:

IARN emergency activations are classified in five different modes:

Mode 1 Full activation, continuous on air traffic/bulletins,
continuous NCS duty/bulletins.

Mode 2 Semi activation, intermittent on air traffic,
continuous NCS duty.

Mode 3 Full alert, continuous monitoring. Fully
activated for receiving health and welfare traffic at
IARNtraffic@aol.com. (Check 14.265 and 14.300 if
14.275 and 14.272 are not activated.)

Mode 4 Semi alert, general monitoring only.

Mode 5 No activation.

IARN INFORMATION BULLETINS:

I A R N operates all information bulletins on 14.275 MHz., 3.975 MHz., and 3.890 MHz., all plus or minus QRM, 16 or less, or 24 hours per day where necessary, for the most efficient dissemination of information of direct interest to the Radio Amateur. Check www.K1MAN.com for the latest published transmitting schedules (if any). On air information bulletins might not be scheduled at all during emergency activation periods.

OFFICIAL IARN MESSAGE FORMAT:

Please use the IARN message format suggested below. You will then receive an E-Mail response with an alpha-numeric traffic designator (or official IARN traffic "number.") Use this IARN traffic designator (added to line 2 of the IARN message format) to speed up references this message or request at all times and to help to drastically increase IARN message handling efficiency. Try to use IARN and ARRL traffic message codes (listed below) where possible.

Date time group: (added by IARN)
(1)Message designator: (added by IARN, see below):
(2)Priority: (see below)
(3)Originator's call (if any):
(4)Originator's return collect telephone number:
(5)Originator's E-Mail address:
(6)Message ARL code: (If blank, IARN will always assume ARL 19)
(7)Their name (who you are inquiring about or directing message to):
(8)Address line 1:
(9)Address line 2:
(10)Their telephone:
(11)Their E-mail:
(12)Signature (who is making the inquiry or author of the message):
(13)Signature's return collect telephone number:
(14)Signature's E-mail:
(15)Message send code: (added by IARN, see below)
(16)Message activity code: (added by IARN, see below)
(17)Message status: (added by IARN, see below):
(18) Message text (if any, use line 6, insread, if possible)
(19) Reply message: (use IARN and/or ARL codes where possible)

MESSAGE PRIORITY CODES (line 2):

1 = Routine priority; 2 = More Than Routine Priority; 3 = Expedite Priority; 4 = Very High Priority; 5 = Highest (Emergency) Priority.

MESSAGE ACTIVITY CODE: (line 16)

NA, date time group = no answer
B, date time group = Busy LMM, date time group = left message on machine.
LWM= left word to call back on machine
WNA, date time group = would not accept collect call
DMP, date time group = delivered message personally
DMM, date time group = delivered message on machine

TM, date time group = took a message
CMA, date time group = confirmed that message is still active
MK, date time group = message killed (everyone OK)
IO, date time group = inquiry from originator
IS, date time group = inquiry from signature and they confirmed that
the message is still active.
IN1 = one inquiry made about this message, IN2, means two inquiries,
etc.

MESSAGE STATUS CODES (line 17):

+ = case is open
# = everyone OK, case closed
C0 (CODE 0) NOTHING DONE YET
C1 CONTACT SUCCESSFUL
C2 ALREADY HEARD FROM PARTY, EVERYONE OK; CANCEL MESSAGE
C3 TELEPHONE BUSY SIGNAL; WILL TRY AGAIN
C4 TELEPHONE NO ANSWER; WILL TRY AGAIN
C5 TELEPHONE ATTEMPTS ABANDONED
C6 CONTACT ATTEMPTED BY POSTING
C7 CONTACT ATTEMPTED BY PUBLISHING IN THE NEWSPAPER
C8 CONTACT ATTEMPTED BY ANNOUNCEMENT OVER LOCAL RADIO
C9 PERSONAL CONTACT ATTEMPTED
C10 CONTACT ATTEMPTS ABANDONED
C11 NEEDS SERVICE
C12 SERVICED BACK
C13 SERVICED MESSAGE REFILED
C14 Message taken to affected area by a jump team operator

Example: Z3, HW3,C140828,II3 = Message Z3, Health and welfare with
Expedite priority, message has been taken to the affected area by a
jump team operator, and three inquiries made about this message.

I-VAN..........International Amateur Radio Network
low Cost Amateur Radio Emergency Communications Van

The International Amateur Radio Network Peace Corps Foundation is a
501(c)(3) non profit tax exempt public service organization organized
by the American Amateur Radio Association, AARA. For help in
financing your new I-VAN, contact us at 207 495 2215 today or write to
IARN, Box 440, Belgrade Lakes, Maine 04918.

You and a friend, or you and your local radio club or church, or just
you, can purchase a small and low cost second hand van. Build a
double decker rack to sleep two and a small radio table for an HF SSB
transceiver (minimum) and AMTOR (preferred) setup. A small
porta-potty (available at Wal-Mart in the sporting goods section) and
a small portable 110 volt AC/12 volt DC generator plus one or more
storage batteries and your I-VAN is almost ready. Add a DC cooler
for food, water, etc., sleeping bags, and some cooking items, etc. and
you are now fully ready for emergency deployment. Remember spare gas
and oil for the generator. You are a ham! Use your imagination and

ingenuity.

Head toward a hurricane/disaster zone. At some point you will meet cars heading out as they evacuate. Many will have cel phones and many of those will be non functional or overloaded because of the very real communications emergency that you are there to assist with. Now you park in some public place and solicit OUTGOING TRAFFIC from anybody who is in need.

The messages are best sent out on 20 meters during a communications emergency, or back to IARN headquarters or to your home base by AMTOR (preferred), SSB voice, or even CW for handling by ordinary hard line telephones.

During non emergency times, set up in a public place and offer to send Valentine, Christmas, or whatever messages the same way. This is great public exposure and good PR for amateur radio.

If you affiliate with IARN through a free International Amateur Radio Club Charter, you can use IARN's tax exempt status to get local merchants to donate, tax deductible, to finance the purchase of your low cost I-VAN (with their logos on the side). This is a very simple project; keep it that way!

Call IARN today for more information about IARN's ongoing I-VAN program at 207 495 2215.

73 and GL de K1MAN

K1MAN is legal. IARN is legal. AARA is legal and your modern alternative
to the outdated ARRL. Join AARA now and be a part of the glory of ham radio. Apply at www.k1man.com for a true ham radio future.

Source record: 4113

I sometimes think up some strange questions that hold my curiosity for sometime until
I just have to ask someone who might know.
I think I was watching a show on Discovery channel about big prisons, and the question
occured to be: I wonder if a state of federal prisoner, in for the long haul, has ever been
granted the priveledge of being able to operate a ham radio in his cell? I'm sure there's
been a few licenced hams been locked up over the years, and perhaps some warden
somewhere has been lienient enough to let a guy practice his hobby behind bars.
Anyone ever heard of such a situation???

Anxiously awaiting replys...

Mike
KD7VRG

I would very much doubt it, since a ham could communicate with his cronies outside or try to con other hams. They closely monitor all incoming/outgoing messages in prison.

In fact, the FCC has recently taken steps to revoke the licenses of some
hams who've been convicted of serious crimes.

But... strangely enough, there's an FM broadcast station licensed to
the Angola State Prison in Louisiana...

Won't happen! Reason: Safety and Security.

All outgoing communication is monitored.

AK, Prison Chaplain

hello,

here is a link to the FCC ULS databasse,
it has no ads to slow you down like other sites,

http://gullfoss2.fcc.gov/cgi-bin/ws.exe/genmen/uls/call_res.hts?db_id=19&rows=&callsign=

add it to your bookmarks, then after you go there just add
the callsign you want to check to the end of the line and
then hit enter again.

K1MAN EDITORIAL - ED060106A - AN EDICT TO ALL WHO OPPOSE
K1MAN/IARN/AARA

>From your one true leader at www.K1MAN.com

AARA, IARN, and K1MAN 2006 AGENDA

1. Get ND8V off the air.

2. Get a court decision on scheduled K1MAN and W1AW amateur
information bulletins.

3. Get Riley Hollingsworth out of the FCC and over to ARRL (as a W1AW
paid control operator) where he really belongs.)

4. Get ARRL criminally prosecuted for deleting the Goldwater Law from
their FCC Rule Book in 1990.

5. Ignore K3VR (poor little Brian).

Well it's 2006 and we have a busy slate this year here at AARA and IARN
Headquarters. Let's talk about this agenda in more detail:

1. Get ND8V off the air.

We hoped that ND8V would reform in 2005 but, as Dan says, you can't
fix stupid! Mike thinks that the Goldewater Law (making intentional
radio interference a felony - 2 years in federal prison and/or $10,000
file PER OCCURRENCE) has been repealed. How do you spell moron? Like
this: M O R O N! Hey Mike, Jack Gerritson was just convicted
under the Goldwater Law and faces 15 years in jail! There are enough
Felony Complaint Affidavits on file with the Justice Department (NOT
THE FCC!!!!!) against ND8V to put him in Leavenworth for the balance
of his life (Mike is age 50).

Now we are going to promote as many FCAs against ND8V as posible. Our
goal is 500 by December 31, 2006. To get a blank FCA form, send an
SASE to K1MAN, Box 440, Belgrade Lakes, Maine 04918. When you hear
ND8V intentionally interfering with another station as he does daily,
fill out the official one page FCA form, have it notarized, and send
it to: Justice Department, Washington, D.C. Fat Mikey is going
down, just like Garretson! Isn't it great to live in America?

2. Get a court decision on scheduled K1MAN and W1AW amateur
information bulletins.

As WB2OTK and K4NBC have observed, "If W1AW can schedule amateur information bulletins, K1MAN can as well." As Thomas Jefferson would have agreed, "This is self evident." But apparently not the "brain dead" FCC. Actually, not the whole FCC, just Riley Hollingsworth, who was sick on the day ther taught law at law school.

3. Get Riley Hollingsworth out of the FCC and over to ARRL (as a W1AW paid control operator) where he really belongs.

Actually, Hollingsworth will also be doing some serious jail time since he has encouraged numerous radio amateurs to "talk over" the K1MAN Bulletin Service, a clear criminal violation of the Goldwater Law.

4. Get ARRL criminally prosecuted for deleting the Goldwater Law from their FCC Rule Book in 1990.

This is a no brainer. The effect of deleting the Goldwater Law from the ARRL FCC Rule book has been to encourage hams to "talk over" the K1MAN bulletins; that's why such is a felony.

Hello DXers,

the 7th January 2006 Update of the ON6DP-QSL-Manager Database is ready for download:

http://www.dd3kf.de

New: IOTA Reference List in Excel format!

Best DX and 73 and a Happy New Year 2006!

Hi all,
I have used the ON6DP database and IK3QAR web site for a long period.
Is this the best one's out there?

Hans/SMï¿½IMJ

APRSPoint 2.2 is released. New features include,

1. Added TNC data view and TNC data log,
2. Enabled auto connect for AGW packet engine,
3. Fixed a bug handling weather station data,
4. Ability to load a default map view at startup,
5. Restore TNC settings when program exits.

and many more. The holiday sale is also extended for 2 more days.
Visist http://www.aprspoint.com for details. Thanks.

Before the Board of Licensure for Professional Engineers
State of Maine

In the matter of:

Brian L. Crow, K3VR, Complainant # E05 003

vs.

Glenn A. Baxter, P.E., K1MAN, Respondent

Registered Professional Engineer, By Examination, in Illinois

and

Registered Professional Engineer, by Reciprocity, in Maine

Amateur Radio Call Sign K1MAN

MOTION TO DISMISS

or

REQUEST TO TABLE

or

REQUEST FOR HEARING

and

REQUEST FOR PRODUCTION OF DOCUMENTS UNDER FREEDOM OF INFORMATION ACT

Respondent, Glenn A. Baxter, P.E., K1MAN, hereby comes through this pleading and makes this sworn affidavit of his own personal knowledge.

INTRODUCTION

Complainant, Brian L. Crow, has filed a written "Complaint" with the Maine Board of Licensure for Professional Engineers against the Respondent, and following board procedures, its Complaince Officer will present the findings of his "investigation," if any, to the Board at its regular public meeting on January 19, 2006 at 9 A.M. Mr. Crow represented to Respondent that he (Crow) has also filed an identical "Complaint" with the Illinois Division of Professional Regulation.

Mr. Crow has also petitioned all State of Maine Representatives and Senators to withdraw their official recognition of Respondent dated 13 March 1991 as well as petitioning Vermont Academy to withdraw Respondent being honored as a Distinguished Alumnus of the Academy on 1 October 1993. Further, Mr. Crow published an "editorial" in a local Maine Newspaper calling for withdrawing the Maine Legislature's recognition of the Respondent and falsely representing that he (Crow) was writing as a resident of Manchester, Maine. "Manchester Newsletter" is the name of an anonymous and scurrilous newsletter about the Respondent and is referred to below with regard to retired CBS newsman, Walter Cronkite, KB2GSB.

The Maine Legislature voted as follows on 13 March 1991:

"Be it known to all that We, the Members of the Senate and House of Representatives join in recognizing Glenn Baxter, of Belgrade Lakes who, as a coordinator and ham radio operator for the International Amateur Radio Network and International Amateur Radio Network Peace Corps, has served humankind through his noble efforts to facilitate international communication for the disaster stricken areas of the world;

And be it ordered that this official expression of sentiment be sent forthwith on behalf of the Legislature and the people of the State of Maine."

Mr. Crow has also filed "Complaints" with the Maine Attorney General, the SEC, the FBI, the Federal Trade Commission, the FCC, etc., etc., ad infinitum.

FACTS

Complainant seeks to revoke the Professional Engineering licenses of Respondent which could naturally lead to either non renewal or revocation of Respondent's commercial and amateur radio FCC licenses where rather vague issues of "character" might play a deciding role in any such FCC action. Complainant offers to the Maine Board of Licensure for Professional Engineers evidence of an "FCC Notice of Apparent Liability" against Complainant, a Petition to Deny Renewal of Respondent's FCC amateur radio license (by Keith Lamonica, an attorney admitted to practice before the FCC), and a letter urging the FCC to not renew Respondent's FCC license by former CBS anchorman Walter Cronkite (a backer of ARRL, the American Radio Relay League), whose amateur radio call sign is KB2GSD.

Respondent is Executive Director of AARA, the American Amateur Radio Association, which directly competes with Complainant, Cronkite, and Lamonica backed ARRL, the American Radio Relay League, which is also an amateur radio "trade association." ARRL has a short wave "broadcast(1)" station with call sign W1AW which attempts to compete with Respondent's "broadcast(1)" station with call sign K1MAN. There is considerable professional jealousy between W1AW and K1MAN. Both

"broadcast(1)" stations are barred from commercial interests such as direct on air advertising, transmitting music, etc.

Respondent is also Manager of IARN, the International Amateur Radio Network, which directly competes with ARRL's amateur radio emergency communications organization known as ARES, the Amateur Radio Emergency Service.

Both AARA and IARN are divisions or the IARN Amateur Radio Peace Corps Foundation, Inc., a 501(c)(3) tax exempt Maine corporation.

The Complainant(s), de facto, being Crow, Cronkite, the FCC, and Lamonica would seem to prefer that AARA and K1MAN be eliminated from competing with ARRL and W1AW.

MOTIVATION OF COMPLAINANTS

Brian L. Crow

Mr. Crow represented to Respondent that he is a former NSA operative and has grants from the U.S. Department of Justice as well as the state of Pennsylvania, presumably to look into possible terrorist connections between Respondent and other factions world wide. IARN does, indeed, have operations world wide under the name and style of the Maine foundation and corporation IARN Amateur Radio Peace Corps Foundation, Inc. Respondent denies all of Mr. Crows allegations with regard to anything improper by Respondent or Respondent's many national and international operations, all humanitarian in nature. I am sure thet the NSA is capable of keeping "tabs" on IARN, AARA, K1MAN, and your Respondent.

Mr. Crow has essentially been "stalking" Respondent since 1992, presumably driven by his own jealousy and amusement and also to defraud the Justice Department and the state of Pennsylvania out of grant money coming from public taxes in the wake and huge frenzy following 911. Mr. Crow can be heard daily on amateur radio acting in a juvinile fashion (not illegal) but with no constructive sense of purpose (also not illegal). Mr. Crow sends harassing E-Mail to Respondent daily and appears to create anonymous anti Respondent web sites on a regular and continuing basis. All of Crow's allegations are false and/or greatly misleading, and Respondent intends to subpoena him before this Board.

Walter Cronkite, KB2GSB

Mr. Cronkite did a K1MAN station ID for Respondent years ago when his autobiography was about to come out, not then known to Respondent. Mr. Cronkite's ulterior motive was to promote his book by getting free publicity over K1MAN's international short wave programs. The backers of ARRL and W1AW were not too happy about Mr. Cronkite's thus implied support of IARN and amateur "broadcast"(1) station K1MAN. One anonymous radio amateur and ARRL supporter (presumably) even began publishing an anti Respondent newsletter (Manchester Newsletter) with

the main and untrue theme being that Respondent was a convicted child molester and/or an "alleged child molester." Respondent met with the FBI regarding this vicious newsletter, published for many years and now defunct after Respondent brought suit against three suspected perpetrators, one being Chuck O'Neil, K1KW, who is part of the Lamonica petition. This newsletter (group) contacted Mr. Cronkite at CBS and threatened to also implicate him (Cronkite) in child molesting allegations. Cronkite then asked Respondent to cease using the ID, and Respondent agreed only if Mr. Cronkite would appear on Respondent's world wide short wave radio program and explain why he made this request. Cronkite declined and threatened to "go public" against Respondent which he subsequently did, his letter supplied to Crow, published all over the internet, and, in turn, supplied to the Maine Board of Licensure for Professional Engineers.

Respondent, not wanting to "cave in" to this criminal blackmail, tantamount to terrorism, continues to use the Cronkite ID, since pulling the ID would appear to be a (false) admission of guilt on several fronts. All of Cronkite's allegations are false, and Respondent intends to subpoena Mr. Cronkite before this Board.

Keith Lamonica, Esq., W7DXX

Mr. Lamonica is presumably being paid well by ARRL, Mr. Crow, or Mr. Cronkite, or all three. Perhaps Lamonica is just jealous and is working against Respondent "for free." All of Lamonica's allegations are false and/or misleading, and Respondent intends to subpoena him before this Board.

Mr. Lamonica has distorted facts and provided wholly false testimony in his petition, part of the instant "Complaint."

Regarding Rockwell Collins, Respondent legally acquired and used the Collins trade for many years after it was legally abandoned by Rockwell International after they bought out the Collins Radio Company and dropped using the Collins trade mark for the statutory two year abandonment period. Lamonica's version of this issue is false and misleading. The entire Lamonica petition is false and misleading. Respondent intends to subpoena Lamonica to appear before this Board.

FUNDAMENTAL ISSUES REGARDING THE FCC AND RESPONDENT

Respondent began transmitting world wide short wave programs in 1987. An FCC letter ruling in 1989 equated K1MAN programs with W1AW programs, both perfectly legal, of course..

In 1991 the International Amateur Radio Network was sending donated humanitarian supplies from Germany to Iran (in response to a major earthquake killing over 100,000 people and making over 100,000 people homeless) with the stipulation that IARN volunteers (from the Soviet Union and England) would supervise the distribution. The U.S. State Department objected to IARN's stipulations since they prefer to just

send the relief supplies, no strings attached. IARN would never again get donated supplies from its valuable private sources if the supplies ever fell into non humanitarian hands (such as the military). The State Department has unlimited sources for their politically motivated relief.

Shortly thereafter, K1MAN received three Notices of Apparent Liability (totaling $3,600) from the FCC for doing exactly what was sanctioned by the FCC the previous year and is done daily by ARRL and W1AW. Respondent tried to take these conflicting FCC actions to court for resolution many times, without success, including a lawsuit in Federal District Court. See the attached Federal District Court ORDER.

Now the FCC has issued another "Notice of Apparent Liability," (the operative word here being "apparent!") this time for $21,000, as well as putting Respondent's amateur radio renewal application in "pending" status. Law permits K1MAN to continue operations until final disposition and all court appeals of the renewal application, of course.

The main issue is that scheduled W1AW and K1MAN short wave programs might cause incidental (not criminal) interference to ongoing communications either on the published frequency intentionally (to cause a conflict - a criminal act on the part of ARRL supporters) or unintentionally. The FCC has ruled that such K1MAN and W1AW programs are not less important than such existing communications. Conflicts must be resovled between the parties on a common sense basis per FCC rules. K1MAN has ALWAYS attempted to resolve any conflicts in good faith, and the other parties (Bermuda Net, Georgia SSB Net, ND8V and company, Polish Net, Salvation Army, Boy Scouts, etc.) basically say "Heck no; we will get the FCC to revoke your license instead."

The Commission (Riley Hollingsworth, K4ZDH) has actually encouraged radio amateurs to cause intrerference with K1MAN programs, such encouragement being a felony under Sections 333 and 501 of the 1934 Communications Act:

Section 333: "No person shall willfully or maliciously interfere with or cause interference to any radio communications or any station licensed or authorized by or under this Act operated by the United States Government."

Section 501: "Any person who willfully and knowingly does or causes or suffers to be done any act, matter or thing, in this Act prohibited or declared to be unlawful, or WHO WILLINGLY OR KNOWINGLY OMITS OR FAILS TO DO ANY ACT MATTER OR THING IN THIS ACT REQUIRED TO BE DONE, OR WILLINGLY OR KNOWINGLY CAUSES OR SUFFERS SUCH OMISSION OR FAILURE, shall, upon conviction thereof, be punished for such offense, for which no penalty (other than a forfeiture) is provided by this Act, by a fine of not more than $10,000 or by imprisonment for a term not exceeding two years, or both."

In fact, Respondent first learned of this law in ARRL's 1989 FCC Rule Book. K1MAN began to publicize this criminal statute over the short wave programs, and ARRL then deleted the law from its 1990 and all subsequent FCC Rule Books, this act itself being a felony by ARRL.

FCC and Justice Department officials who have discouraged Respondent from reporting intentional criminal interference to K1MAN transmissions to the Judtice Department are also, themselves, in criminal violation from this federal statute.

Thus, the FCC Notice of Apparent Liability against Respondent is alleging a felony, which carries a two year jail sentence and/or $10,000 fine per occurrence. Similar actions against ARRL would be substantial, since W1AW has been doing the same thing as K1MAN for almost 100 years.

THE FCC

The FCC is probably "in bed" with ARRL (welcome to America!), which they can control, where they cannot "control" respondent since Respondent has no paid advertising or "controllable" commercial interests. The allegations in their recent $21,000 Notice of Apparent Liability are all false and/or misleading, with the same bogus allegations also being made in 1990 and never allowed by the FCC to go to court for resolution.

Respondent's attempts to bring the FCC false allegations before a court have not succeeded. Respondent even brought suit against the FCC in Federal District Court which was dismissed on sovereign immunity grounds. See attached ORDER.

All of the FCC's allegations are false or misleading, and Respondent intends to subpoena various officials of the Commission before this Board.

Respondent's amateur radio license renewal is currently "pending" in "legal limbo" while Respondent continues to legally operate station K1MAN until court action is taken but not expected by Respondent. The FCC is apparently watching this Board's actions with regard to the instant Crow complaint.

JURISDICTION

This Board is essentially being asked to litigate an FCC matter and it has no jurisdiction to do so. If the Board revoked Respondent's Professional Engineering License, the FCC could, in turn, revoke Respondent's amateur radio license, (on character qualification grounds) and vice versa, presumably. This whole charade is just a cute ARRL and FCC trick; again, welcome to America! Fortunately, we lave laws and administrative procedures here, unlike so many other less fortunate countries.

Wherefore,

Respondent moves this Board to Dismiss the Complaint.

or

In the alternative, Respondent moves the Board to table the Complaint until final disposition of Respondent's matters before the FCC.

or

In the alternative, Respondent requests a full hearing before this Board.

and

Respondent requests production of all documents and evidence in this matter that this Board may now have that has not already been supplied to the Respondent.

and

Respondent requests to inspect all documents, notes, minutes, etc. under the Freedom of Information Act regarding all previous matters, complaints, etc. made by Respondent to this Board in the past and specifically regarding fire hazzards and code violations at Ray Bouchard's two radio stations where Respondent was once employed. This employer is mentioned in the Lamonica petition to deny Respondent's FCC amateur radio license, said petition being a part of Mr. Crow's "Complaint."

Respectfully submitted,

(signed)
Glenn A. Baxter, P.E.
Registered Professional Engineer
Amateur Call Sign K1MAN

cc: Brian L. Crow, K3VR
Walter Cronkite, KB2GSD
Keith Lamonica, W7DXX
Federal Communications Commission
Dave Sumner, K1ZZ, CEO, ARRL
Leo Meyerson, W0GFQ
James Mooney, Headmaster, Vermont Academy
Ray Bouchard
World wide distribution

(1) Broadcast is used in the generic sense here. Strict FCC legal definition of "broadcast" is "radio transmissions intended for reception by the general public," which is illegal under FCC rules and functionally impossible over amateur short wave radio since the public doesn't listen to amateur short wave radio because the subject matter of such transmissions must also be "Of direct interest to radio amateurs" under FCC rules.

Sworn before me,

He has recieved lots of awards including one from the state of Main
itself. Walter Cronkite promoted K1MAN to before the bad pple got to
him. It is a good thing the FCC cant put him off the air until they
go to court which they are scared to do. And there are pple who are
going to sindicate K1MAN's 20 meter show. N9OGL and Sirius radio are
both going to put it on the air.

K1MAN is a great man. Are you on Sirius radio? Has your state
priased you in a legistlature resolution? Has Walter Cronkite ever
announced on your station? I bet not because you are just average.

K1MAN is a great man and I back him all the way.

Id' say, judging by that field notice that Mr. Baxter was definitely in the wrong (especially where the 75 minute infomercial about 'baxter and associates' was concerned).

I really hate to say this, but K1MAN appears (on the face of the facts) to have violated a number of the rules and is now subject to those rules.

let see how this plays out, shall we?

I have never experience the FCC to be afraid of anybody.

>And there are pple who are
>going to sindicate K1MAN's 20 meter show.

I must have missed the part where broadcasting was aginst the rules, in amateur
radio.

> N9OGL and Sirius radio are
>both going to put it on the air.

Do you have a link? No one outside of Ham, knows who this guy is.

>K1MAN is a great man. Are you on Sirius radio?

What's that got to do with it?

>Has your state
>priased you in a legistlature resolution?

That don't make you a great man, fool. What was the resolution.

>Has Walter Cronkite ever
>announced on your station? I bet not because you are just average.

I don't own a broadcast station. It's against the rules. And Cronkite hasn't petitioned against me.

>K1MAN is a great man and I back him all the way.

Well, at least we can see the type of person that follows him.

Vinnie S.

I top post because modern readers allow top post. Your 'net ettiquette'
is/was totally arbitrary to begin with. Top posting allows the reader to
get to the issue without having to scroll through 100+ lines of text
that has already been beaten to death.

And finally, if you are responding to top posting you have already
violated your own precept by your response.

Now, there is a large consensus that a certain individual in the State
of Maine is in difficulty with the FCC.

Is "the state of Main" a new state? Where is it?

What is a "pple?"

Can you spell "can't?"

What is "sindicate?" Is that an act against God as in sinning?

My state has never priased me for anything. However, it would help to
know what "priased" means.

Our state does not have a "legistlature" so maybe that is why I have
never been "priased."

So if this is the quality of individual that thinks a nut-job like K1MAN
is a great man, then I know I am on the right side.

This is a perfect example of why we need to do away with the public
school system of "education."

No. You probably top post because that's the default setting of your
news reader, and you're too damned lazy (or ignorant) to change it.

> get to the issue without having to scroll through 100+ lines of text
> that has already been beaten to death.

Your "logic" is utter backpedaling b.s. - long ago refuted by serious
Usenet readers. If a third and fourth party decides to add to a top
posted thread, it rapidly deterioriates into an unfollowable mess.
This is especially true when you top post to an already bottom posted
thread as you just did. You clearly are a rank newbie who needs
instruction.

Don't even presume to lecture someone else, oh Clueless One.

> And finally, if you are responding to top posting you have already
> violated your own precept by your response.

Oh, wow! What logic skillz you possess, Batman. I'll bet you impress
the hell out of the half-drunk rednecks at your local tavern. Better
run right over there instead of hanging out here where you are SO not
with it.

This statemment is comical. Howard Stern, who if filthy rich, and his radio network, which was obscenely huge, could not win against the FCC.

K1MAN is a peon, compared to Stern. You are stupid, delusional, or both.

Vinnie S.

Hitler was a great man too. Germany was starving after ww1 and he made it
prosper. Of course at the hands of millions of people.
JFK was a great man. Of course he almost started ww3 and was hooked on meth.

There is a distinct resemblance to the lap dogie. Reckon they're related or
is that what people end up looking like after they press a walkie-talkie to
their dome for too long in a section eight slum?

Well I guess I'm not a serious USENET user. I'm only a Professional
Engineer [retired], chief project engineer [retired], Program Chief
Engineer USAF WS-118 RS/RV [retired] and hold both BSEE and MA degrees.

That said, I prefer TOP POSTING for simplicity sake, for quick reading
of responses to posts I've previously read, and not wasting time
scrolling through 100+ lines of your antiquated arbitrary responses.

AK

~~~~~~

The really important thing is to trim. Do that right and the top/bottom
issue becomes moot.

Mr Bill
~~~~~~

"Serious UseNet users" do some editing (I eliminated about 10 lines of
your post); then they don't need to top-post.

You could always cut the un-necessary info and bottom post. Only leave the relevant info to be answered intact. Why more people don't do this I have no idea.

Regards,
Graham

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NG3K, W3TN, W3UR & The Daily DX, K4UEE, K4VUD, N4AA & QRZ DX, N4BAA, N7NG/1, N7OU, K8ND, N8PR, K8YSE, DL1EK & The DX News Letter, DL3APO, EA5KY, F5NQL & UFT, F6AJA & Les Nouvelles DX, F8DVD, I1JQJ/IK1ADH & 425 DX News, IK7JWX, IZ8CCW, JI6KVR & JA-IOTA Islands News, OE1EMS, OE3JAG, OH2BN, OH2HAN, SM5DQC, VA3RJ & ICPO and VE6LB/VA6XDX for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 8th/January, through Sunday, 15th/January there were 211 countries active. Countries available: 3A, 3B8, 3B9, 3W, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, CY9, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FH, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, JA, JD/M, JD/o, JT, JW, JY, K, KG4, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T30, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XZ, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3Y0X NEWS (Update: PRESS RELEASE 2006-5). Ralph/K[illegible]IR and Bob/K4UEE, Peter I DXpedition co-leaders, sent out the following press release dated January 10th, 2006: "We are pleased to announce that the 3Y0X DXpedition has been given a substantial grant by the ARRL/Colvin Award. This is a prestigious award and is important to our overall DXpedition financing.

Our special thanks to the Awards Committee.
Our twenty-two-man team now includes Wayne, KU4V and Robert, SP5XVY.
Their special expertise rounds out the team.
Our sea container containing all of our equipment, and most of the
team's personal gear is aboard the vessel DAP Mares which is now in the
S. Shetland Islands. Our foodstuffs are also aboard after being purchased
in Punta Arenas, Chile. The team will be reunited with their equipment
and gear on or about February 2nd to begin the 4 day voyage to Peter I.
Remember these dates are target dates and weather dependent.
The team has been assigned the special Chilean Antarctic callsign of
XR9A for use to/from Peter I. We hope to be QRV from Punta Arenas for a
few days and then maritime mobile to and from Peter I. There is also a
possibility that the team will also be QRV from the S. Shetlands for a
few days after the Peter I DXpedition is complete.
Our website, www.peterone.com, will be updated regularly and should be
checked often. The website should be considered the best source of updated
and correct DXpedition news direct from the DXpedition leaders.
We are currently designing a special "souvenir " QSL card to commemorate
your QSOs. Please QSL via N2OO.
Please visit our website often as we have worked hard to enable you to
be a part of this incredible adventure. We are seeking financial support,
so consider a donation please! Pay Pal is accepted!"

4Z, ISRAEL. Alex, 4Z5KJ, will be active as 4Z5J in the CQ WW 160M CW
Contest (January 28-29th) as a Single-Op entry. QSL via W0MM.

6O, SOMALIA (Just A Reminder!). Eight Italian operators will operate from
Somalia for two weeks starting January 19th. Operators mentioned are:
Alfeo/I1HJT, Silvano/I2YSB, Carlo/IK1AOD, Carlo/IK1HJS, Vini/IK2CIO,
Angelo/IK2CKR, Marcello/IK2DIA and Adriano/IK2GNW. They will operate as
6O0N (in memory of Adam Nuur Maxamed Islam) with three stations on all
bands SSB, CW and RTTY. QSL via I2YSB, direct (Silvano Borsa,
Vle Capettini 1, 27036 Mortara, Italy) or by the bureau (E-mail requests
for bureau cards can be sent to 6o0n@i2ysb.com , a form is available on
the Web site). The pilot for the operation will be Gianni, IS0VSG
(is0vsg@tin.it). Further information, updates, pictures and logs will
be posted to: http://www.i2ysb.com

9N, NEPAL. Operators Stig/LA7JO and Pop/YU7EF will be active as 9N7JO
during the CQ WW 160M CW Contest (January 28-29th) as a Multi-Op entry.
QSL via address on QRZ.com.

9Q, DEM. REP. OF CONGO. Pierre-Luc, F5HRH, will be active as 9Q/F5HRH/p
from January 22-28th. No other details were provided (bands/modes). QSL
via his home callsign.

C6, BAHAMAS. Operators Bob/N4BP (C6AKQ), Kevin/K4PG (C6APG), Bruce/W4OV
(C6AOV) and Pete/N8PR (C6AHR) will each operate in the ARRL DX CW Contest
(February 18-19th) as Single-Band entries on 160, 80, 40, and 15 meters.
The group will be there on Monday, February 13th, and probably will be on
the air by Tuesday. They will try to operate extensively on the WARC bands

before the contest. Plans are to leave on February 20th. QSL to their home callsigns via QRZ.com.

C6, BAHAMAS. Steve, AK0M, will be active as C6ASB from Abaco Island NA-080), February 15-22nd. He will participate in the ARRL DX CW Contest (February 18-19th), category not known at this time. QSL via AK0M (QRZ.com).

CE3, CHILE. Salvatore, IZ8CLM, is active as CE3/IZ8CLM through January 18th. Sal is in Chile for his job but will be on the air during his free time on HF. He was heard this past week on 20/17/15 meters SSB.

CE0, JUAN FERNANDEZ ISLANDS (Update). The CE0Z team reports everything is a go for their January 21-28th operation. All operators are confirmed, equipments and antennas are ready to go and airplanes tickets and the hostelling are confirmed. The list of operators are: Guillermo/XQ3SA (Team Leader), Maite/CE3BYL, Gerard/F2JD, Pedro/CE3BFZ, Hector/CE3VII, Dave/K4SV, Bill/N2WB, Bob/N6OX, Ignacio/CE3GFN, Sergio/CE3GL and Juan/CE3GRG. Suggested frequencies are:
CW - 1820, 3540, 7020, 10110, 14040, 18080, 21040, 24890, 28040 and 50110
SSB - 1840, 3795, 7060, 14195, 18145, 21295, 24945, 28495 and 50110 kHz
For the latest news visit: http://www.ce3bsq.cl/ce0z/index.html
The log will be put online at: http://www.ce3bsq.cl/ce0z/log.htm
QSL Managers are:
N2OO - ROBERT W SCHENCK, PO BOX 345, TUCKERTON NJ 08087, USA
F6AJA - JEAN MICHEL DUTHILLEUL, 515 RUE DU PETIT HEM, 59870 BOUVIGNIES, FRANCE
CE3BSQ - RADIOCLUB MANQUEHUE, P.O. BOX 27064, SANTIAGO, CHILE

CT3, MADEIRA ISLAND. Karl, OE3JAG, will be active from Madeira (AF-014 Grid Loc.: IM12) as CT3/OE3JAG between May 15-22nd. His activity will be QRP with dipole or a long wire mainly on CW, PSK and RTTY on 20 and 30 meters. QSL via his home callsign. Visit his Web page at: http://www.oe3jag.com

CU2 & V31, AZORES AND BELIZE. Martti/OH2BH and Pertti/OH2PM will be cruising in the Caribbean with their ladies to activate Belize in both ARRL International DX Contests as V31BH and V31PP, respectively, as a Multi-Operator/All-Bands entry (CW: February 18-19th and SSB: March 4-5th). On the way to the Caribbean, Martti will stop over in the Azores to activate CU2A in the CQ 160-Meter CW Contest (January 28-29th). QSLs to their respective home callsigns.

DXCC NEWS.....
Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operations has been approved for DXCC credit:

D2DX - Angola, current operation as of December 15th, 2004
KH9/W0CN - Wake Island, September 17-28th, 2005

RECENT KP5 OPERATIONS - As of Monday, January 9th, Bill Moore, NC1L, ARRL DXCC Branch Manager, informed James, W0WOI: "We have heard absolutely nothing from them. We do need to see that they had permission to go there and we hope to hear from them soon."

FG, GUADELOUPE (Update). Jacques, F6HMJ, will be here from February 3rd to March 7th. He will use the callsign TO2FG from February 17th to March 3rd. Look for him to use the TO2ANT callsign during the 3rd Antarctic Actiivity Week (AAW - February 20-26th). During his stay he will try to be active from La Desirade Island. Activity will be on 80-10 meters on CW, SSB and RTTY. QSL via F6HMJ.

FT5W & FT5X, CROZET AND KERGUELEN ISLANDS. Gildas, TU5KG, is heading back to the Austral Sea (in Southern Indian Ocean) on a fishing boat. He is expected to be around the Kerguelen Island (FT5X) area between January 15th and February 3rd. After that, the boat is going to travel around the Crozet Island area until early March before heading back around Kerguelen area again until the end of March. Gildas is expected to operate as FT5XP from Kerguelen and FT5WK (probably) from Crozet.

GJ2/MJ0, JERSEY. Rich, K2WR, will be active as GJ2A during the CQ WW 160M CW Contest (January 28-29th) as a Single-Op entry. QSL via K2WR (for USA) and GJ3DVC (for non-USA). Before the contest look for activity on CW and SSB by Rich as MJ0AWR. Send E-mail for skeds to: k2wr@njdxa.org

HB0, LEICHTENSTEIN (Topband Activity). If you still need HB0 on topband look for the following operators to be active between January 25th and February 2nd: Danny/N4EXA (HB0/T93M), Boris (HB0/T93Y), Mario/DJ2MX (HB0/T94DX), Braco/OE1EMS (HB0/T94JJ) and Ivek (HB0/T96Q). The group will be active during the CQ WW DX 160m CW Contest (January 28-29th) using the callsign HB0/T94DX. Before and after the contest they will operate with 3 stations on all HF bands but will focus on 160 and 80 meters. They will use vertical, dipole's, loop's (K9AY; maybe beverage RX) on the low bands. The QTH will be the same as the recent HB0/DL2OBO operation.

HC2, ECUADOR. Luis, EA7OC, will be active from here between February 10-27th. He has all the correct papers but doesn't know what his callsign will be until he arrives in Guayaquil. It will probably be HC2/EA7OC. His activity will be mainly from Guayaquil, but he hopes to be active from other cities in the Guayas Province. QSL via EA7OC, directly or via the EA Bureau.

HS0, THAILAND (Topband Activity). Ian, HS0ZGL, announced that he will be active in the CQ WW 160M CW Contest (January 28-29th) as a Single-Op/ Low-Power entry. The Thai band is only between 1.800-1.825 MHz. QSL via HS0ZGL.

IOTA NEWS.....
SA-064. (Correction!) In last week's OPDX.742, we had the wrong IOTA listed (SA-046) for Marco's, CE6TBN/7, activity this past weekend from Las Huichas Island (DICE ICE-705). QSL via CE6TBN.

KP3, PUERTO RICO. Brooke, N2BA, will be active as KP3/N2BA in the ARRL DX CW Contest (February 18-19th) as Single-Op/All-Band/Low-Power entry. QSL via WA3RHW. Look for his XYL Eve, N2GSG, before and after the contest.

MJ, JERSEY. Operators Jim/N1NK, Craig/K3PLV, Pete/K8PT and Tom/W8JWN will be active here signing MJ/homecall from March 15-18th. Bands and

modes of activity were not provided. QSL via their home cllsigns.

OH0, ALAND ISLAND. Operators OH2NAK, OH3BHL, OH6GAZ, OH6HJE, OH6HZH, OH6KTS, OH6OKSA, OH9MDV and OH9MM will be active as OH0Z in the CQ WW WPX RTTY Contest (February 11-12th) as a Multi-2 entry. QSL via W0MM. Depending on the conditions, they may try Multi/Multi.

P4, ARUBA. Paolo, I2UIY, will be active as P40G during the CQ WW RTTY WPX Contest (February 11-12th) and the ARRL DX CW Contest (February 18-19th). Operation class is to be determined (TBD). QSL via I2EOW.

PACIFIC 2006 DXPEDITION TOUR. Members of the Central German Contest Group will be heading to the Pacific between January 14th and March 3rd, and plan to activate several different island. Operators mentioned are Wolfgang (Wulf)/DL1AWI, Matthias (Mat)/DL5XU and Erik/DL9AWI. Their planned scheduled is:
January 15-28th - From Ua Pou Island (OC-027) (Marquesa Islands, FO-023)
February 1-14th - From Raivavae (OC-114) (Austral Islands, FO-122)
After February 14th - They will travel to the Auckland (OC-036), New Zealand, and spend the rest of the time there.
Callsigns will be announced later, but they will be active as ZL/homecall/m from New Zealand. They will try to run two stations using a FT-847, FT-890 or IC-706 MKII, w/Amp 800w into Antenna tuners, vertical antennas as well as three fiberglass rods and plenty of wire for beverage antennas. Activity will have an emphasis on the lower bands, especially 160m. Their Web site will be updated frequently at: http://www.radioklub.de/cgcg
QSL cards for these activities all go via DL3APO.

PJ2, NETHERLAND ANTILLES. Members of the Caribbean Contesting Consortium (CCC) will activate Signal Point Station on Curacao during the last few weeks in January. Look for Joe/W9JUV and Bill/W9VA to be active from Signal Point Station between January 19-27th. QSL via their home callsign. Also, look for Jeff, K8ND, to be operating from the Signal Point Station between January 23-31st. He activity will include the CQWW 160 Meter CW Contest (January 28-29th) as PJ2T and as a Single-Op entry. Before and after the contest Jeff will be focusing on 80 and 40 meters and testing receiving antennas on 160 meters. QSL PJ2/K8ND via LoTW or his home callsign. QSL PJ2T via LoTW or N9AG as always. Visit the CCC Web site at: http://www.pj2t.org
LAST MINUTE ADDITION: Members of the Caribbean Contesting Consortium (CCC) will activate Signal Point Station on Curacao during the ARRL DX SSB Contest (March 4-5th) as a Multi-2 entry. Operators mentioned are: W9JUV, NW0L, W0CG, K8ND, WB9Z, KB0US, KB0UT and KB0VVT. QSL via N9AG.

QSL INFO AND NEWS.....
LOTW WAS OFF-LINE THIS PAST WEEKEND. Wayne Mills, N7NG/1, ARRL Manager of the Membership Services Department, announced in the middle of last week: "The LoTW system will be off-line for maintenance this coming weekend. It will be shut down at 8:00 AM EST (1300Z) on Saturday, January 14TH, and will return to service at 8:00 AM (1300Z) on Monday, January 16TH."

3C2MV BUREAU QSLS. Gerry, VE6LB/VA6XDX, reports that all the bureau cards for 3C2MV have been processed and sent to the VE outgoing bureau. He states, "Thanks to RAC and Nenad, VE3EXY, for handling these bureau cards as well as Rich, VE6AX, for helping with the processing. All special PX cards for VE6JO have been cleared as well. Regular VE6JO and UA6U/VE6JO cards were processed as well but the older logs were not clear on already sent cards. If you don't get you cards for any VE6JO operation please resubmit to VE6LB at the QRZ.com address."

Tom, DL2OBO, reports that the log and pictures for his recent HB0 operation is now online at: http://www.hosenose.com/dl2obo

KG4SB QSL INFO. Jose Castillo, N4BAA, reports that he now has a QSL Manager to assist him with QSLs. QSLs can go to Jose or via Rod, EA7JX, for all 2006 KG4SB contacts. Either QSL route will be good for ALL QSOs!

Alfredo, IK7JWX, informs OPDX that he is the QSL Manager for the Sazan Island (EU-169) ZA0IS and ZA0/IK7JWX activity between December 18-23rd "ONLY" (via the bureau, direct, or E-mail at: ik7jwx@ari.it). For other dates and other ZA callsign (ZA1KP - ZA5G - ecc...), QSL direct to ZA1FD: Fatos Demeti, P.O.Box 1439, Tirane, Albania.

S9, SAO TOME AND PRINCIPE. Jose/CT1APE and Filipe/CT2GLO will once again be active from Ilheu das Rolas (AF-023) between January 18-28th. The callsign they will use is S92RI. Activity will be on all bands and modes. QSL via CT1APE.

SOUTH PACIFIC DXPEDITION (Update). Bob/W7YAQ and Bill/N7OU will be heading to the South Pacific in February and will activate three islands. Bill informs OPDX that their main interest is CW, but they plan to do some RTTY and SSB too. Activity will be on 80-10 meters. Here is the schedule Bill provided:

February 16-24th - Rarotonga, South Cooks. W7YAQ will be ZK1YAQ and N7OU will be ZK1NOU. They will also be operating Multi/Single in the ARRL DX CW Contest as ZK1NOU.

February 26-28th
and March 11-13th - Nadi, Fiji. W7YAQ will be 3D2NB and N7OU will be 3D2OU.

March 1-10th - Rotuma. W7YAQ will be 3D2RX and N7OU will be 3D2RO. They will also operate as Multi/Single in the ARRL DX SSB Contest as 3D2RX.

QSL all callsigns via their home callsigns, direct or by the bureau. Bureau QSLs can be obtained by E-mailing your info via: W7YAQ@arrl.net
-or-
N7OU@arrl.net

SPECIAL EVENT. Due to a peace treaty signing during the Second World War, Finland had to rent Porkkala Cape to the Soviet Union for 50 years as a military base. That period started in the autumn of 1944, and the Finnish people living in that area had only 9 days time to move away before Soviet troups came in. During that time the whole area with a distance of only

30 kilometers to Helsinki was totally closed to the Finnish people and army. However, due to good relations in the international political climate that area was returned to Finland only after 11 years on the 26th of January 1956, which was a great relief to Finnish people. To celebrate the 50th anniversary of this release, the a local Finnish radio amateur club station, OH2ET, will be on the air January 26th. Activity will be on SSB, CW and RTTY on mainly 80-20 meters.

SU, EGYPT (Topband Activity). Hans, SM0CFO, is now active as SU9HP and has been listening for North America stations on 160 meters. Look for him between 1945-2300z. Hans is using an ICOM IC-736 "barefoot", 100 watts to a dipole. Hans is spending his winter in Egypt and will return to Sweden sometime in April.

TZ, MALI. Paul, ON7ASL, will be active as TZ6PVI from Bamako. His activity will be mostly on 40 meters in the evening. QSL via his home callsign: Paul van Impe, Maleizenstraat 44, B-3020 Herent, BELGIUM, or QSL direct via ON4LN: Eric Lauwers, Benediktijnenlaan 25, B-3010 KESSEL-LO, VBT, BELGIUM.

V2, ANTIGUA. John/G4RCG and Bruce/KI7VR will be active as V25G and V26VR, respectively, between January 18th and February 1st. They will be active on all bands operating mainly on CW with a special emphasis on 160, 80, 40 and 30 meters. Look for V25G to participate in the CQ 160M CW Contest (January 28-29th) as a Single-Op/Low-Power entry. QSL both callsigns via G4OOC.

VU4 PRESENTATION. Charles Harpole, K4VUD, now back in Florida for a couple of months, is scheduled to present an illustrated talk about the VU4 2004 DXpedition at the Miami Hamfest February 4-5th. Charles states, "I will have some different photos compared to my presentations at Visalia, W9DXCC and etc."

ZP0, PARAGUAY. Tomas, ZP5AZL, will be active as ZP0R during the ARRL DX SSB Contest (March 4-5th). Operation class is unknown. QSL via W3HNK.

75. K1MAN/IARN/AARA TO W5JBP: "IF YOU CAN'T TAKE THE HEAT, GET OUT

Newsgroup: rec.radio.amateur.dx
Date: 2006-01-16 23:24:11 UTC
From: netmanager2@yahoo.com
Message-ID: <1137453851.589743.60010@o13g2000cwo.googlegroups.com>

ARRL PRESIDENT QUITS - "IF YOU CAN'T TAKE THE HEAT, GET OUT
OF THE KITCHEN" SAYS K1MAN

Quoting President Harry Truman, Glenn Baxter, Executive Director of
AARA,
the American Amateur Radio Associaation, bids Jim Haynie "Good Luck in
The Contest." According to this week's ARRL Letter:

"The election of a new ARRL president will highlight the annual meeting
of
the ARRL Board of Directors. When the Board convenes Friday and
Saturday,
January 20 and 21, in Windsor, Connecticut, Jim Haynie, W5JBP, will
wield
the gavel for the last time as the League's president. Haynie, who
lives in
Dallas, Texas, has made it known over the past few months that he will
not
be a candidate for a fourth two-year term. He says that while it's been
a
great honor to serve as the ARRL's president for the past six years, he
feels it's time for him to step aside.

"It's a time-consuming job. It tends to wear on you after a while,"
Haynie
conceded this week. "I've racked up hundreds of thousands of miles
traveling--not only here in the United States but all over the world
representing the ARRL and Amateur Radio."

Haynie says he's thoroughly enjoyed his tenure in the League's top
office--a
strictly volunteer position--but he believes someone with fresh ideas
and a
different vision from his now should take over the reins. The ARRL
Board
customarily elects a president from among its own ranks or elevates one
of
the League's vice presidents, although it's not required to. When he
was
elected, Haynie was the ARRL West Gulf Division Director.

Among the successes of his six years as ARRL president, Haynie cites
the
ARRL Education and Technology Program--often better known as "The Big
Project." Haynie kicked off the initiative to put Amateur Radio

stations and
a curriculum into schools across the US shortly after he took office in
2000. The program now boasts upward of 180 participating schools.

He says he's also proud that he's been able to contribute to enhancing
the
visibility of Amateur Radio at the FCC, in "official Washington" and on
Capitol Hill. "I enjoyed that work," said Haynie, who testified before
the
House Subcommittee on Telecommunications and the Internet on behalf of
the
Spectrum Protection Act in 2003. Last year, he submitted written
testimony
to the House Government Reform Committee on the successful efforts of
Amateur Radio operators who provided communications during the
Hurricane
Katrina response.

"It's paid off in the long run," Haynie said of his regular visits to
Washington to advance Amateur Radio's agenda. "Amateur Radio needs to
learn
how to sell itself, not just from the League's standpoint," he said.
"The
president can only do so much." He encouraged all radio amateurs,
whether or
not they're ARRL members, to promote Amateur Radio and its value to the
community.

Once he steps down, Haynie says he's looking forward to "maybe chasing
some
DX or maybe running a few contests." But he says he'll also make
himself
available to the Board to handle any necessary duty.

Among other items on its agenda, the ARRL Board is expected to discuss
the
process of developing effective band plans to support rule changes the
League recently requested in a Petition for Rule Making RM-11306. The
petition asks the FCC to regulate the amateur bands by necessary
bandwidth
rather than by mode. The Commission will accept public comments on the
petition until February 6.

The Board also plans to review and discuss Article 11 of its Articles
of
Association, which defines eligibility to hold League office. It also
will
hear reports from officers and consider recommendations from various
committees."

76. K1MAN/IARN/AARA SAYS FCC TO OFFER K1MAN CALL FOR SALE AT STARTING BIDS 0F $1,000,000

FCC TO OFFER K1MAN CALL FOR SALE AT STARTING BIDS 0F $1,000,000? JAIL TIME FOR FCC "SPECIAL COUNSEL" RILEY HOLLINGSWORTH?

See AARA NEWS

>From ARRL web site:

FCC zips through vanity application backlog (Jan 12, 2006) -- Once the FCC resumed processing Amateur Radio vanity call sign applications earlier this month, its Wireless Telecommunications Bureau (WTB) blazed through the backlog. A total of 990 vanity applications piled up in the queue after the FCC suspended vanity processing September 23. An initial batch of 121 grants Friday, January 6, was followed by 195 more the next day. Apparently confident by then that the system was working okay, the FCC let loose the remaining 674 vanity grants Tuesday, January 10. During the vanity hiatus, applications appeared with a "Y--application has problems" flag in the Universal Licensing System (ULS), prompting some concern on the part of those who checked their applications' status. The WTB reportedly applied the "Y" status to prevent the system from running the entire backlog at once. The WTB halted vanity processing last fall after realizing that filing deadline extensions for licensees in certain states affected by hurricanes Katrina and Rita applied to Amateur Radio's two-year "grace period" and could impact the vanity system. FCC spokesman Tracy Simmons told ARRL today that the WTB now is processing current vanity call sign receipts. It typically takes approximately three weeks from the time a vanity application is submitted until a call sign is issued.--some information from Fred Maia, W5YI

Perhaps spend a few bux and change over to 462mhz FM with high gain,
directional antennas. You can build a 14db gain 4 element quad on UHF that
is about the size of a loaf of bread.

Don't let them you get you down, when they start calling names and swearing it just shows their lack of intelligence and utter stupidity. I do agree that one should cut off any part that one is not replying to but it is a personal decision on my part. The rest of it is just some people want to show control over every one else and try to impose control with threats and verbal abuse, like they used to do when they were bullies in the playground, they apparently never got a real education if there vocabulary is any indication. This news group has no redeeming content so I am unsubscribing from it. 73's

Sounds like a scam to me! What if I send you a dollar and insist on
medium rare and the next guy who sends a dollar wants well-done? Are
you going to decide? Will you be sending our money back?
Sorry, I see this as only leading to problems. I'm not falling for it.

-Bill

amdx, still there are enough of the young guys and girls that are ignorant of the Ponzi type scam and buy these worthless software packages that annoy us all on a daily basis. I'll admit that some old fools also buy into these 'get rich for free' scams, however most of the seniors realize that nothing comes for free.

I simpy look at my junk mail file on Yahoo and pity the poor person that has been misled into buying into one of these scam products (the software, not the scam itself).

Naturally, from my curmogenous viewpoint, anyone that buys into these software scams is so stupid that they require treatment. Those that respond to the canned pratter that their software posts are so brain dead that they are beyond hospitalization and treatment.

Sometimes it is educational to read their patter. For example, on one day I received 5 junk mails sent by five different individuals, with identical text content. Evidently, they were all scammed by the same junk mail software seller!

I must have a perverse mind, because I find that funny.

Curmudgeonly yours, Harry C.

Same here Cecil.

The young kids don't have a clue about Social Security, because it isn't important to them at their time in life, nor was it for me when I was 25. None of us ever thought that we would live to see 65, hence it was just like income tax, something that you simply had to pay.

The problem is not for us elders, but for the younger people who will hopefully someday reach 65. Today, most of these kids don't realize is that the fault with the Social Security system is not in its basic design, but what I beleve is called SSI that allows anyone regardless of age to claim benefits unser Social Security by claiming some form of disability, even if they have never contributed to the system.

Just as an example, when I went to the Social Security office to claim my earned beneits, I was the only American present in the waiting area containing roughly 30 applicants. Most of these individuals were there seeking SSI benefits, few were American citizens, and most had never paid a dime into the system. This is precisely the problem that Social Security faces.

No wonder Social Security is in trouble. It is comparable to a corporation that pays dividends to people that don't even own stock in the company!

'Nuff said on that subject.

Curmudgeonly yours, Harry C.

A class on consumerism ("they want to take your money") should be a
required
class in middle school.
And don't get me started on all the bogus, weight loss products, grow tall
products, second grade teacher developed common cold product, herbs that
will stop diabetes and
heart disease, anti hairloss products, improve your memory, shrink your
prostate, grow penis, cleanse your blood, detoxify your liver, give you more
energy, stop your joint pain, make you more appealing to the opposite sex, ,
improve your eyesight, slow
the ageing process, improve your circulation, make exercise easy, prevent
cancer, make
your skin beautiful, health restoring magnetic shoe inserts, magnetic water
enhancers.
I think you got me started ;-0
And speaking of curmudgeons, Andy Rooney said
" Happy birthday?--I DON'T THINK SO."
Mike, I promise to enjoy my day! Bye

Wow there GBrown,
Don't blast Harry C. He has a point. Up here in the great white north
known as Canada, I have seen deadbeats claim Social Insurance.
They do nothing to contribte to society, they just wait for 'check day'
to pay the rent, and blow the rest on beer and drugs only to be broke
in a day or two until the next month*. My taxes go towards paying them.
Is that right? I think not. Is it the same in the states? If one day I
need to
do the same, rest assured it will NOT be wasted on beer and drugs. I
have paid into this for many years. I would just want something back
from
all the $$$ I had deducted from my pay should I ever need it.
Tom the Canuck.

* Do they eat food? Utilities? I do not know and do not want to..
What they do for the rest of the month is beyond me.

GBrown, the fact that they couldn't speak fluent English may have prejudiced my conclusion. It isn't very clear to me why the Social Security offices need interpreters. After all, anyone who has been in this country sufficiently long to seek Social Security benefits should at least be conversant in English, since that is the language that is spoken here.

When you see many people who appear to be under the age of 30 and cannot speak fluent English seeking SSI benefits, the red flag should go up for everyone. Where is the Green Card? Damn, what was wrong with the Ellis Island immigration procedure, and why did the US eliminate it? At that time your entry into the US was judged on your health, skills, and ability to provide for yourself and your family in the United States. During that era, no one came to the US for a free lunch, unlike today.

Realize that unless we secure our borders and return to the strict immigation policies of circa 1910, the US will become a human dumping ground for misfits from the balance of the world, and constructive citizens will no longer be able to support it and flee to other nations who, for the above reasons, close there borders to other than those that can contribute significantly to their country -- and for good reason.

I am pissed off because some of those "new arrivals" are immediately able to collect larger benefits from Social Security than I who have been paying into the system for more than 50 years! Yet, we wonder why Social Security is about to go bankrup! Dhuh!!!!

Sorry for the curmugenous attitude, but the pot of US money has limitations, and I believe that it should first be utilized for the benefit of US Citizens who have contiributed to the system for many decades, and not be wasted on on freeloaders who have obviously never made any contribution to the system.

Curmudgeonly yours, Harry C.

Hey John,
I like your post. Good idea.
What about those telemarketing companies that sell
worthless products from Canada to the US?
There is a telemarketing company in the building where
I worked. Being a smoker, I got to know a few of the
frequently replaced telemarketing sales staff.
The company in question sells a 'directory' of businesses
in the states. While smoking, I asked one of the sales people
what the product they were selling was good for. The reply
was toilet paper. I would tend to agree. I believe there were
several complaints to the attorney general of a particular state(s)
and I had a smile on my face when the local police raided their
place of business. Too bad they were back up and running the
very next week. How can we stop these assholes? It puts a bad
name on Canada. I feel ashamed that they can operate freely here.
Tom the Canuck.

Harry, I understand your point, completely. I was getting at the fact that how are we to judge who or who isn't eligible for SSI. I worked all my life and it wont be long before I can step up to the SSI office and sign my forms. I wish there were a way to weed out the imposters but you have to start home. There are people in this country, citizens, that take full advantage of the soft hearted liberals and reap the rewards. I really don't know if there is a good fix to and old problem.

amdx, you posted:

"And speaking of curmudgeons, Andy Rooney said
" Happy birthday?--I DON'T THINK SO."

I must have missed seeing Andy say that, but it's so true that it made my day! Thank You!

I believe that it's somewhere after the age of 60 that the "Golden Years" are said to begin. In reality, the "Golden Years" consist of stays in the hopital where various parts of you are being removed. For recreation you begin to give things that were once precious to you to good friends. You worry about gas and electric bills, and tax bills, that essentially double yearly, and you're on a fixed income consisting of Social Security and a pension fund (if you have one). One day you realize that you're nearly 70 and no male member of your family has lived for more than 72 years. You still have a sex drive, but your wife hasn't since menopause. Then you realize your mortality and begin to complentate methods of disposing of your remains that don't present a burden on your family, like donating your body to science. When you go asleep at night, you wonder if you will wake up in the morning, since you hope that when you die it will be painless and in your sleep.

On the positive side, what helps to keep my spirit alive are both my Masonic and fireworks friends who both inspire me to accomplishments and dreams, as minimal as they may be. The computer helps a great deal, because the Internet has become what I had imagined 40 years ago -- a vast source of information.

Then too, I have again pontificated far too much, and if you are approaching the, welcome to the Golden Years! :-)

Harry C.

<snip>

Why kill yourself when you can stay alive and fight this crap.
No need to resort to physical violence (I don't like the idea)
but instead use our intelligence to fight back.

Why not swamp the offender's inbox with e-mails.

SUBJECT: "How to make a million dollars easily from your home"

INSTRUCTIONS (body text):
Send me $2.00 by mail and I will send you complete instructions to be rich
quickly.
Please include a stamped self-addressed envelope.

(IMPORTANT: Get a PO Box for the address)

Your snail mail reply:
"WHAT TO SEND TO SUBJECT ON PAPER (they paid for it):"

SNAIL-MAIL SUBJECT:
(use this for your e-mail)
How to make a million dollars easily from your home

What to do to start::
SEND THIS E-MAIL:
Send me $2.00 and I will send you complete instructions to be rich quickly.
Please include a stamped self-addressed envelope.

{Insert your address here}

WHAT TO DO:
Mail the above paper message when you have $2 and envelope.

-

This can also work if you take out a classified ad in a local news paper.
There should be at least 1,000,000 morons in a large metropolis. Just send
the

same info but change it to say 'take out a classified ad'.

-

Why not sell 'solar powered cloths dryers' for $50.
Ship the sucker a cloths line. Technically you are not
in the wrong. It is 'solar powered' after all, unless it is
a cloudy day.

-

Give back some crap to the target who has been cross posting to various NG.
I was amazed to learn I posted to rec.radio.amateur.* groups. Your replies
were
there as well. I may check them out, it has been a long time since I made an
FM
transmitter.

==========
{back to pyro for a moment}

Just a thought, I know about the electric firing panel for pyro displays.
Lots of wires and switches. Is there any need for an RF ignition system?
It could cost a few more $$$ but you eliminate the long run of wires from
the
panel to the pyro items you want to ignite. A secure comm protocol would
prevent ignition by 'outside' sources. A laptop could be added to control
the
timing of events.to be fired. A simple User Interface to make it moron
proof.
What do you guys think? Just looking for ideas. Start another thread if you
like the idea. We can discuss details. I have made embedded systems for
about
the last 20 years. This idea is possible.
==========

Sorry, feeling a bit malicious tonight, (===pyro thought not included===)
Tom the Canuck.

P.S. $2 will NOT work in Canada.
We have those $1 and $2 coins to deal with.
(Maybe up the cost to $5 CDN)
$50 should work out just fine.

Harry,
I agree with you. The waves of human parasites flowing into this once great
country are drowning our economy.

SEE
Life Long Welfare for Soon to be Citizens
http://www.islam-online.net/English/News/2004-07/24/article04.shtml

Another situation that comes to mind was the "Lost Boys" from the Sudan. The US flew them over here paid for their housing and all other expenses.
I am not against charity but charity begins at home. We have homeless, jobless, disabled Vets, etc.. that are not taken care of. Why the hell should we as a country bring or allow to enter foreigners that only desire to leach off what little fat is left of our land.
May God bless the U.S.A.
Ace - WH2T

Mr. GBrown,
In a sense I do not care what creed, colour, or nationality a person
comes from.
We are all human and live on this tiny blue marble called Earth.
{yes there are assholes in every group, even yours, ignore them, I do}
Let us judge by what a person does, not where they come from. Does it
matter?
If you contribute to our "society" (needs improvement) they are fine, if
they live off
the labours of others I object. Perhaps we should adopt the thinking
that we are all
one people on this planet. Are you going to blast me because my parents
came from
Estonia? (If you don't know where it is, look it up)
Ignorance and prejudice are rampant on our planet. Can we not do better?
What about your "equality and liberty for all" in your constitution? Did
that include
owning slaves from Africa? Open your eyes, see the world for what it is,
embrace
other ideas from other cultures and learn from them. Tunnel vision is a
downfall for
the existence of mankind.
This is what I think, you may thing otherwise. I can not stop you from
thinking the
way that you do, you can not stop me from thinking my way.
Tom the Canuck.

I think you will find that most to all of the garbage is from cross posting.
It originated up on misc, or policy and they sent it down this way.

I see no way to stop it. Other than just kill file it.

I always answer them really loud, then I tell them to hold on while I get my hearing aid. Wait about 5 minutes and say hello again really loud. If they are still there tell them the batteries are dead and to hold while you get new batteries. Wait 5 more minutes and once again loud hello, if they are still there cuss and say you got the wrong batteries and their not working...

You get the idea, totally frustrate them. I have never had one wait beyond the initial getting the hearing aid.

Sometimes I let them get all the way through their spiel, then I tell them that it really sounds great and that if I ever get well enough to go back to work, I might be able to buy it It really pisses them off. ;-) Other times I just tell them right away that I am 100% disabled, and in too much pain to put up with them. Of course, being on the national "Do not call list" stopped almost all of those irritating calls. The only problem I have is some deadbeat is, or has given out my phone number when they bought crap on credit. I keep a list of these calls and if I get a second call from a company I scream at them while demanding that they leave me alone, or I will have a lawyer on their ass for trying to collect someone else's debt from me.

The only ones too stupid to listen was "Countrywide" which was some kind of mortgage or lending company who had someone different call each time, from different phone numbers. They finally left a message on my answering machine with an "800" number stating that it was an emergency, but didn't identify themselves. It was their headquarters, and I really tore into them, informing them that I had repeatedly told their phone monkeys they had the wrong phone number, that I was a 100% disabled veteran, and that I was not going to put up with even one more phone call. I laughed and told them that if I did get one, that I would call friends at a TV station to have their local office investigated by their news department for violating a lot of different laws, and that I was going to turn over my hand written logs of all of their calls, along with their misleading telephone message. I asked what they thought that would do to their business in the area, just before I hung up my phone. I never heard from them again. :)

Before the Board of Licensure for Professional Engineers
State of Maine

In the matter of:

Brian L. Crow, Complainant

vs.

Glenn A. Baxter, P.E., Respondent

Registered Professional Engineer, By Examination, in Illinois

and

Registered Professional Engineer, by Reciprocity, in Maine

and

Amateur Radio Call Sign K1MAN

and

Executive Director of the Fire Hazard Reduction Institute
(Box 440, Belgrade Lakes, Maine 04918 tel. 1-800-262-9543)

and

Certified Fire Safety Advisor

SECOND MOTION TO DISMISS,

or

SECOND REQUEST FOR HEARING

Respondent, Glenn A. Baxter, P.E., hereby comes through this pleading
and makes this sworn affidavit of his own personal knowledge.

INTRODUCTION

The original Brian Crow "Complaint" has essentially been dismissed by
the Board with the focus now being on general discharge issues with a
former employer, Ray Bouchard, and a Complaint made by Respondent to
the Board against the Professional Engineer whose P.E. stamp was on

Bouchard's new building plans which are in clear fire code violation according to a representation made to Respondent by the Augusta Code Enforcement Officer. This latter Complaint was dismissed by the Board on the curious grounds that said engineer "was not involved," an issue now being formally investigated by the Fire Hazard Reduction Institute, Glenn A. Baxter, P.E., Executive Director.

1. Respondent is currently d/b/a as Executive Director of the Fire Hazard Reduction Institute and is a Certified Fire Safety Advisor with hundreds of inspections and fire safety installations already made throughout Maine and the primary source of professional income since FHRI's inception shortly after Respondent was "fired" from Ray Bouchard's Light of Life Ministries and Christian radio stations in Augusta, Maine.

2. Respondent was hired by Mr. Bouchard in 2003 to be his "Chief Engineer" in the radio sense of the term "engineer" on the strength of Respondent's First Class Commercial Radiotelephone(1) and Amateur Extra Class FCC licenses, 16 years of experience in designing and operating a multi transmitter short wave station heard world wide (with an ID announcer being former CBS Newsman Walter Cronkite, who is also a licensed amateur radio operator), many years of professional experience in electronics repair and engineering modifications to Collins high frequency equipment, the design for in house manufacturing of electro-mechanical filters (equivalent to Collins mechanical filters) which were the very "heart" of 750 low frequency receivers custom made for our U.S. submarine fleet, and design and installation of many radio tower and antenna installations.

Respondent has a B.S. Degree in Industrial Engineering (January 1968) from the University of Rhode Island and is a Registered Professional Engineer by examination in that specialty in Illinois, and by reciprocity in Maine.

Respondent has completed significant course work in electrical engineering and has published several articles in the area of physics, chemistry, and the theory of relativity, as well as teaching high school physics, chemistry, and advanced math.

3. Unknown to the Respondent, Mr. Bouchard did not have adequate finances to do most of the projects worked on, and the Station Manager advised Respondent of this fact in detail after the time of hiring. Apparently, Mr. Bouchard really hired Respondent to train a high school junior for six months in electronics and engineering so that this person could assume the job of permanent Chief Engineer at minimum wage or less, since common practice at the station was to work full time and be paid for far less time than actually worked.

For example, Mr. Bouchard constructed the whole station himself, and there were no wiring diagrams or schematics of any of the maze of wire interconnects present in his broadcast station. Respondent strongly recommended making such diagrams and schematics, and Mr.

Bouchard insisted that Respondent do this work on Respondent's "own time," which Respondent declined under these circumstances. Lack of these diagrams and schematics would naturally create a "night mare" for Respondent when there was an equipment failure, as actually happened and has become a subject of the current Complaint against the Respondent.

4. Respondent never received a written job description until a few days before being "fired." The paper signed by Respondent at the time of hiring gives an incorrect impression that there ever was a written job description. The actual job description was verbal and changed on a continuing basis and included:

o Training and supervising the high school junior

o Organizing the relocation of the FM transmitter site

o Design and construction of the new transmitter site

o Starting and running an electronics school

o Negotiating with Salvation Army and private owners regarding proposed translator sites

o Repairs to station equipment

o Negotiation for a cooperative venture in training recent jail released persons.

o Erecting the first translator tower

o Negotiating the price of custom designed antennas

o Negotiating the price for purchase of station equipment

o Salvaging donated towers and equipment.

o Trouble shooting a recently installed repeater

o Selling unwanted equipment on E-Bay

o Consulting with professional consultants

o Making transmitter compliance measurements

When the owner of the FM transmitter location asked "Where is Glenn?", Mr. Bouchard said "He was let go because he wasn't following his job description." Respondent demanded in writing a retraction, and never got one from Mr. Bouchard.

5. Respondent had a computer in his engineering office (found out later to be illegally occupied per the REAL Code Enforcement Officer - Respondent was introduced to a phony "Code Enforcement Officer" minutes before being "fired(2)" -) with all work done for 2003 on a single disk. This disk was loaded into the central office computer as a back up and so some printing could be done on the

central office printer. After being "fired," Mr. Bouchard found this computer file and jumped to the false conclusion that Respondent did non job related work on company time. Respondent never did any such thing, this being a very serious allegation and being a part of the current "Complaint".

6. Respondent wore many hats and relied on different credentials at different times. For example, during the tower erection, Respondent relied on previous tower erection experience with the guy anchoring scheme being standard amateur radio practice and right out of the ARRL antenna handbook(3). The design of the tower system was not a Professional Engineering design, although a progress report was written in a document signed by the Respondent who happens to be a Professional Engineer as opposed to "as a Professional Engineer."

7. Note there is nothing in the above list of job descriptions regarding contact with the FCC or obtaining a required construction permit from the FCC. When Respondent realized that there were serious FCC violations being made by Mr. Bouchard, I brought this to the attention of the station Manager who advised me to protect my personal commercial FCC license which I did by reporting the violations to the FCC immediately, both to mitigate the damages for my employer and to eliminate the danger, as Chief Engineer, and the legal FCC interpretation of this, to my FCC commercial license.

8. At no time did I ever disclose confidential information to anyone in violation of Professional Engineering ethics as apparently alleged by Mr. Bouchard.

9. Although apparently dismissed by the Board, Respondent hereby addresses the "Nazi" comment. Respondent is a world wide short wave celebrity with a daily radio program often containing robust editorials. Respondent often publishes editorials on the internet. One amateur radio data base at www.QRZ.com decided, for "hobby politics," reasons to de-list Respondent's radio call sign K1MAN. About 1000 persons posted comments, many to the effect that Respondent does not deserve to have a listing on www.QRZ.com which uses public FCC data as its basis. Making an editorial point, Respondent compared a list of commenter's call signs with being tantamount to membership in the "American Amateur Nazi Party." There is no such animal, of course. "Nazi" was later changed to "Nerd." One on the list was apparently a P.E. in California, something unknown to the Respondent and not really relevant to this current "Complaint."

8. As a Professional Engineer, I notified the owner and three other Managers of serious fire hazards at the station shortly after the AM transmitter caught fire under the stairs of the only exit to the "fire death trap" old building. That old building, curiously, met the code, but the new building did not meet code according to the REAL Code Enforcement Officer who, somewhat embarrassed, dismissed it as being only 16% or so out of compliance. I notified this Code Officer in writing of my objections, and he "ducked" his mail several

times until I served him with written notice at his home address. This is when I fully realized the common and life threatening "slack" involved in these fire safety matters, an issue at the very heart of professional engineering licensing, namely protection of public safety.

It is my legal position that immediate protection of the lives of the public required addressing these concerns to more than just the owners and Station Manager. The concerns were immediate, time sensitive, and this was no time for "secrets" or confidentiality, in my Professional Engineering opinion. Protection of life was my paramount and immediate concern. I genuinely felt the threat of criminal prosecution for criminal negligence should another fire break out and someone should die in Bouchard's fire traps due to inaction.

I realized that a serious entity needed to be created for public fire safety, and this is when I started the Fire Hazard Reduction Institute with my opening salvo being a formal complaint against the Professional Engineer whose P.E. stamp I saw on the new Bouchard building plans when I first visited the Code Enforcement Officer's office. He, by the way, is also a licensed ham radio operator. His alleged representation to the Complaint Officer of this P.E. Board that he advised me that the new Bouchard building met code is simply not true! He agreed with me that the building was out of code by about 16% but that he had issued a "waiver." This, plus Mr. Bouchard introducing me to a phony Code Officer just before I was "fired" (a crime I reported to the Augusta Police) was the real driving force behind the newly created Fire Hazard Reduction Institute and also started me on a new and exciting professional career as a Certified Fire Safety Advisor.

The Fire Hazard Reduction Institute has uncovered other evidence and testimony about more fire safety code violation issues in Maine in addition to this Board choosing to dismiss out of hand Respondent's formal Complaint. Even new Board member William A. Lotz, P.E. stated during the 19 January 2006 Board meeting that he has personally observed numerous situations that are in FLAGRANT fire code violation here in Maine.

I feel that if I didn't do everything in my power to bring these life threatening violations to light, I would not be living up to my ethical responsibility as a Licensed Professional Engineer, if not also being criminally negligent, should anyone ever be killed in one of Mr. Bouchard's or someone else's fire traps. I don't feel that (or it is not my legal position that) Professional Engineering client confidentiality applies here since I did file a formal Complaint (available to the PUBLIC) with this Board AFTER being "fired" by Mr. Bouchard with my genuine concerns being consistent with being denied my statutory right to cross examine and subpoena witnesses in my "test case" unemployment claim hearing where Mrs. Bouchard even perjured herself; this also being consistent with my Complaint to the

Maine Overseers of the Bar regarding an illegal and totally false ex-parte letter (de facto to the Hearing Officer - a clear violation of Maine bar rules) being filed by Bouchard's attorney, Robert Stolt, also being dismissed out of hand (by the Maine Overseers of the Bar).

To get this (affront to justice) officially in before of the Overseers' supervisory authority, the Maine Supreme Judicial Court, Respondent brought a civil action in Superior Court against Mr. Stolt which was dismissed (surprise, surprise!) and then appealed to the Maine Supreme Judicial Court, also dismissed on the de facto bogus grounds that Mr. Stolt's ex-parte letter was privileged (it was, of course, that wasn't the point; it clearly voilated bar rules, and the Overseers didn't do their job to discipline Maine licensed Attorney Robert Stolt; point made to the honorable Maine Supreme Court justices, QED I think!)

Indeed, since this Board voted in a public meeting attended by the Complainant's apparent representative, Ralph Myra, K1IV, (and thus now probably reported on world wide amateur radio short wave as well as over the world wide internet) to fine me $1,500 (via a Board proposed consent agreement) for making an alleged false formal Complaint about the Maine Professional Engineer who wrongly approved the out of code Bouchard building plans, I am hereby publishing this reply document on the internet as well (to protect my professional reputation) at also world wide www.K1MAN.com. (and also in the public interest of exposing these very dangerous and - life threatening to the public - and commonly found conditions now in Maine - and most other states - and illustrated - for Maine - above).

Wherefore, Respondent respectfully declines to sign the proposed consent agreement and pay the proposed $1,500 fine,

and

Respondent moves the Board to Dismiss this Complaint

or

Respondent requests a full hearing,

and

Respondent requests this Board to reopen the Respondent's Complaint about the Bouchard unsafe and dangerous to the public fire traps (in my Professional Engineering opinion).

Respectfully submitted,

(signed)
Glenn A. Baxter, P.E.
Certified Fire Safety Advisor

(1) Now known as a General Radiotelephone License

(2) Respondent had just written an engineering report outlining very serious fire hazards in both the old and new buildings at the station.

(3) The guy anchoring scheme is known to amateur radio operators as a "dead man." The expanding bolt installation was on the advice of the supplier.

Sworn before me,

(signed)

K1MAN BULLETIN - B060121B -

GLENN A. BAXTER, P.E., K1MAN, BEFORE THE MAINE
BOARD OF LICENSURE FOR PROFESSIONAL ENGINEERS

Dateline, 19 January 2006, Augusta, Maine.

The Maine Board of Licensure for Professional Engineers met today to discuss a "Complaint" against Glenn A. Baxter, P.E., K1MAN, brought by Brian Crow, K3VR. Crow's apparent "representative," Ralph Myra, K1IV, attended this important board meeting and took copious notes.

Mr. Baxter also attended as well as a number of other engineers, observers, board members, and their attorney from the Maine Office of the Attorney General. Mr. Baxter could only observe and was not allowed to speak at this stage of the standard Maine Rules of Administrative Procedure.

The Complaint Officer, Stephen W. Cole, P.E., presented the 18 inch thick file in this case to the Board and there was robust discussion and debate among board members for about 90 minutes. The Assistant Attorney General stated that she had spent many months and countless hours on this "Complaint" by Mr. Crow, and the Complaint Officer indicated that he had done the same. One board member, William A. Lotz, P.E., (all board members are licensed Professional Engineers) stated that this case reminded him of the Ken Starr investigation of President Clinton where the net result was to find some presidential semen on Monica Lewinsky's dress.

"The board was presented with reams of incorrect and false evidence," according to Mr. Baxter, "most notably, false and misleading testimony by the Code Enforcement Officer in Augusta, Maine who has been under investigation by the Fire Hazard Reduction Institute, a bona fide safety organization where I serve as its Executive Director. Based on this false and misleading evidence, the Board wrongly concluded that our 2003 Complaint to the Board about the Professional Engineer who approved the out of code building plans for Ray Bouchard's new building at Light of Life Ministries and Christian radio stations was improperly made, and the Board voted to offer to settle the matter by asking us to sign a consent agreement admitting "improper action" and to pay a $1,500 fine. The alleged improper action was filing the Complaint after being told by the Code Enforcement Officer that the Bouchard fire trap met state fire codes. Exactly the reverse was the case. The building did not, in fact, meet state fire codes; it is

a fire trap in our Professional Engineering opinion," Mr. Baxter went on to say in an interview. "The Code Enforcement Officer admitted to me that the building DID NOT meet the code and that he had issued a 'waiver.' Our formal Complaint against the Professional Engineer who approved the out of code building plans is entirely appropriate. Assistant Attorney General Judith Peters now agrees with me on this very important point," Mr. Baxter went on to say.

After Ralph Myra left the meeting, the Assistant Attorney General and the Board's Executive Director, Warren Foster, P.E., granted a Baxter Motion for Discovery and he (Baxter) will be allowed to inspect and copy the entire files in both cases including hundreds of E-Mails.

Mr. Baxter has filed (by FAX) the attached reply affidavit with the Board and the Maine Assistant Attorney General, Judith Peters. "Ms. Peters called me right back," Mr. Baxter said, "and it looks like we will be able to get the entire and bogus Crow "Complaint" dismissed. She wants to meet with Stephen W. Cole, P.E. (the Complaint Officer), and me in about two weeks to discuss these new facts which have just been brought to light and for possible final adjudication at the next Board meeting in six months.

If we do go to a full hearing before the Board, Ms. Peters confirmed that I will be allowed to subpoena whatever witnesses that I want to. After such a hearing, where Ms. Peters, an attorney, would be the Hearing Officer, the case (by Maine law) would go to trial in District Court." Again, Mr. Baxter would be allowed to subpoena whatever witnesses he wanted to.

"I am so pleased that the Administrative legal system and court system here in Maine are finally showing some robust signs of integrity; it is so great to be an American; it is so great to live in Maine. Let them eat Crow," Mr. Baxter said, apparently referring to the Complainant, Brian L. Crow, K3VR.

AA does not agree with your reasoning on 'choose'.

If you need as little as one beer a year you ARE an 'acoloic' [alcoholic].

how far has the signal to travel?
If you could use 446 UHF the antenna will be much smaller, the radios for that band have CTSS you could be more secure, Or if I were you I would set a mobile phone and a sound operated switch, ring the phone for say 3 bells for on 5 for off. Its do able with the sound switch and phone that way only you have the number, no skip false switching... just a thought. If your in the UK I can build it in a day or 2.

If someone is too young to worry about this, it won't be 65, but higher.
If your retirement age is within 5 years, it's already 66.

Digressing even further...telemarketers...

One evening when Wife was out doing schooling, a telemarkerter called. I knew by the blank beginning while the computer connected the next operator.

Tele: "Is Mrs N. Home?"

Me: (somewhat grufly) "She's not here."

Tele: "Is Mr. N home?"

Me: (More Grufly) "Haven't seen him in three weeks!"

Tele: "Oh, then I'll call back at a more convenient time."

C R A C K E D me up.

How do I think of this stuff??

So far, 3/4 times I got the septic additive salesman to hang up on me... "Now, After dumping $175 of your powder down the pot, how will I know if the stuff is really working like you say...." The 4th time, I couldn't shake him...even though I finally told him I was only going on to keep him on as long as I could to keep him from bothering as many others. I had to hang up...shucks!

Years ago (Before Caller ID) I had the same heating and air
conditioning company call me over 30 times in one week. Nothing worked
with this woman. She was insistent that I just HAD to have my central
air conditioning "Tuned up", even after I told her repeatedly I didn't
have central air, or even a window air conditioner. Finally, I asked
her how many incoming phone lines they had, then I told them that if I
got one more call from them that I would contact everyone I knew to have
them call and pretend to be interested in their repair services or to
buy a new system, then give them fake addresses, or just keep the phone
lines tied up to prevent real customers from being able to reach them.
I was informed by her that it was harassment, but I just laughed and
asked how they would know which calls were real, from the others. I
asked why I should return the harassment I had received from her all

week long. She never called me again.

Very few alcoholics admit they "need" a drink, Markie...Just like
you, they say they "want" to drink. They also usually follow that up
with "I can quit anytime".

Steve, K4YZ

Provided by BARF80.ORG (Cleveland, Ohio)
```

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, KP4RV, K7BV, K8PT, K8YSE, W8QZA, NS0B, W&#65533;MM, Associazione Carabinieri Radioamatori, DJ3FK, DK7PE, DL1EK & The DX News Letter, DL6KAC, F5NQL & UFT, G3XAQ, GM4FDM, HA0HW, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA-IOTA Islands News, PA3GVI, PF5X, PS7DX, PY5EG, VA3RJ & ICPO, VK6JB and ZS5BBO for the following DX information.

```
DXCC COUNTRY/ENTITY REPORT:
"Sorry NO report this week due to ISP problems!"

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or
more likely a "BUSTED CALLSIGN". As always, you never know - "Work
First Worry Later" (WFWL).

3V8, TUNISIA. Frank, DJ3FK, informs OPDX that the Lufthansa Amateur Radio
Club (LARC) will be active as 3V8DLH from January 24-31st. Activity will
be on 160-6 meters on CW, SSB and Digital modes. There will be eight
operators. QSL Manager is DJ3FK. Rudi, DK7PE, mentioned on the "Topband
Reflector" that their 160/80/40m antenna will be a V160E TITANEX vertical.
He also mentions that he will try to show up during the CQ WW 160 Contest
for some hours hoping to give some stations a new one on 160m.
More info is availale at: http://www.dj3fk.com

5X, UGANDA. Operator Shabu, 5X1RI, in Kampala, has been active and will
be here until February 2nd. Activity will be on 40/20/15 meters CW/SSB.
It is suggested to look for him daily on 7004 kHz starting around 2230z.
QSL via WD4ELG.

9G, GHANA. Alan, G3XAQ, will be active as 9G5XA from Accra, January 27th
to February 6th. Activity will be on HF CW. He will be using 100 watts
and a doublet antenna. QSL via G3SWH.

AH7, HAWAII. Bill, W8QZA, will be operating from KH6SQ's QTH for the
ARRL DX CW Contest (February 18-19th) as AH7ZA. He will be operating
```

QRP on all bands. QSL via W8QZA. This is the first time that AH7ZA has
been used in a contest, so it will not be in the master file.

ANTARCTIC NEWS.....
3RD AAW NEWS. Look for the following two French stations to be active
during the 3rd Antarctic Activity Week (AAW) to take place February
20-26th. These two callsigns will end with the suffix TAF (Which means
"Terres Australes Francaises" for the "French Australes Territories"
in the French language):
WAP-042 - Look for TM8TAF to be activated by a joint effort by the
Clipperton DX Club and the Bordeaux DX Group, February
13-23rd. Activity will be on CW, SSB, FM and the Digital
modes on HF and VHF. QSL via Laurent, F8BBL; the bureau
is preferred.

WAP-043 - Look for TM0TAF to be activated by the members of the
Provins ARS (F6KOP), from February 11-25th. Activity will
be on all modes, HF and VHF. QSL via Thierry, F4TTR.

AX, AUSTRALIA. Thursday, January 26th, is "Australia Day". Look for
Australian amateurs to use the AX prefix for 24 hours from 1301z Wednesday,
January 25th, until 1259z Thursday, January 26th. The West Coast will start
and finish 3 hours later than the East Coast as it runs from midnight to
midnight in each state of Australia. Some VK9's will start up to 3 hours
earlier, and others will finish up to 3 hours after Western Australia does.
John, VK6JB, states, "Its a bit of a dogs breakfast but just keep listening
and you will hear them come up." The AX prefix is usable by all VK amateurs
during this period. John, VK6JB, states, that he will be working 40 meters
SSB between 7040 and 7090 kHz. Many other operators will be on other bands
working, so listen for your chance to get a special AX prefix card. John
adds, "Please remember that there are QRP operators who want a chance to
get a card as well, so make sure you give them a go."

EA8, CANARY ISLANDS. Operator Leppala, OH2BYS, will be active as EA8/OH4NL
in the ARRL DX CW Contest (February 18-19th) as a Single-Op/Single-Band
(20m or possibly 15/40m)/High-Power entry. QSL via OH2BYS.

FJ, ST. MARTIN. Ron, SM7DKF, will be active from St. Barthelemy (IOTA
NA-146, DIFO FJ-001), May 10-20th. His callsign was not provided. Activity
will be on all HF bands. QSL direct to his home callsign or LoTW.

FS & PJ7, ST. MARTIN AND ST MAARTEN ISLANDS. Operators David/K3LP and
Clint/W3ARS will arrive on St. Martin on February 15th and will depart
on February 22nd. Both will use the following callsigns:
FS/K3LP St. Martin, PJ7/K3LP St. Maarten
FS/W3ARS St. Martin, PJ7/W3ARS St. Maarten
Look for David to be active in the ARRL DX CW Contest (February 18-19th)
as FS/K3LP and as a Single-Op/All-Band/Low-Power entry. Look for Clint to
be active on 6 meters and the WARC bands. QSL via the operators' home
callsign (QRZ.com).

HB0, LIECHTENSTEIN. Members of the Bosnia and Herzegovina Contest Club (BHCC) will be active as HB0/homecall from here January 25th through February 1st. Operators mentioned are: Mario/T94DX (aka DJ2MX), Braco/T94JJ (aka OE1EMS), Danny/T93M, Ivek/T96Q and Boris/T93Y. The group's main activity is participation in the CQ WW 160m Contest as HB0/T94DX as a Multi-Single entry. However, look for them before and after the contest on CW, SSB and RTTY on 160-10 meters. They plan to have three stations active with vertical and wire antennas. QSLs for HB0/T94DX, HB0/T94JJ and HB0/T93M are via DJ2MX, by the DL Bureau or direct to: Mario Lovric, Kampenwandstrasse 13, D-81671 Munich, Germany. QSL HB0/T96Q and HB0/T93Y via T93Y, by the T9 Bureau or direct to: Boris Knezovic, P.O. Box 59, BA-71000 Sarajevo, Bosnia and Herzegovina. More detailed information is available, including the online logs, at: http://www.t93y.com/hb0

HI, DOMINICAN REPUBLIC. Dennis, K7BV, will operate in the ARRL DX CW Contest from the HI3CCP Santiago mountaintop QTH (See the following Web page at: http://www.lomadeltoro.com/). Dennis will sign HI3TEJ during the contest. Look for H3I/K7BV to be used outside the contest. QSL HI3/K7BV to his CBA. QSL HI3TEJ via ON4IQ.

IOTA NEWS.....
AF-032. 5H1C DXPEDITION UPDATE. As this was being written, John/F5VHQ and Pascal/F5JSD were flying to Dar Es Salaam. Once there they will meet with Joseph, 5H3WJN, and then pick up their licence. They will meet with the 2nd part of the crew on Tuesday, January 24th, and also meet with the Director of the local aircraft-taxi company to carry them to Zanzibar Island. Their first QSOs are expected on Tuesday the 24th in the afternoon. Visit the following Web page for more updates/details at: http://5h1c.free.fr/home_uk.html

NA-093. Look for a group of Cubans to activate Cayo Jutias Island starting around 1700z, January 23rd through January 28th. The group will be operating from a lighthouse (CUB-022) on that island. Activity will be on 40/20/17/15 meters. Their callsigns are: CO3JN/1 (PSK31), CO2WL/1 (SSB), CO3LF/1 (SSB), CO3CJ/1 (SSB), CO3VK/1 (SSB) and CO3ET/1 (CW). On Saturday, January 28th, they will use the different callsign, T41JM, to celebrate the Cuban holiday "Jose Marti Day". QSL via IZ8EBI. More info is available at: http://xoomer.virgilio.it/iz8_ebi/

NA-112. Dennis, WA2USA, will be active as WA2USA/4 from Bogue Banks, Emerald Isle (USI NC-010S, Carteret county) located in Onslow Bay, Maine, February 12-19th. He is also expected to enter the ARRL DX CW Contest (February 18-19th) as a Single-Operator/ All-Band entry. Activity before and after the contest will be on 30 and 17 meters. QSL via his home callsign, direct or by the bureau.

NA-124. Operators Ray/N6VR, Norm/N6JV, Marco/XE2TG, Gerardo/XE2Q, Bernado/XE2HWB and Hector/XE2K plan to be active on one of the islands in the Baja California Sur State South East Group (Espiritu Santo, Ballena or Cerralvo), February 3-5th. They

will use the callsign, XF1K, on 80-10 meters CW and SSB. They are also expected to have 3 stations operating simultaniously. Watch the usual IOTA frequencies (+/- QRM) for activity. QSL via N6AWD (QRZ.com).

SA-024. Rick/PY2EL and Wal/PY2WC will be active from Comprida Island (DIB 21 for the Brazilian Islands Award), January 26-30th. Both will sign homecall/p. Activity will be on all HF bands, also 6 meters and 144/432 MHz, mostly on CW, SSB and digital (PSK31/RTTY). QSL via the bureau.

J3, GRENADA. Bill, VE3EBN, will be active as J37LR from February 1st to April 5th. Activity will be on 40-10 meters, on CW, SSB, RTTY and PSK. QSL via the info on QRZ.com.

J43, GREECE. Petros/SV3FUO and Nikos/SV3BSF will be active as J43BSF from Greece during the CQ WW WPX RTTY Contest (February 11-12th) as a Multi-Single/High-Power entry. QSL via SV1CIB.

J49, CRETE. Look for Tomas, LY1DF, to be active as J49W during the CQ 160 Meters CW Contest (January 28-29th) as a Single-Op entry. QSL via LY1DF. See last year's contest photos from Mt. Pentelli at: http://www.qrz.lt/foto/main.php?g2_view=core:ShowItem&g2_itemId=3908

KH0, MARIANA ISLANDS. Hide, JM1LJS, plans to be active as KH2VL/KH0 from Saipan (IOTA OC-086), January 27-29th. No bands/modes of activity were provided. QSL via JM1LJS (QRZ.com).

KP2, U.S. VIRGIN ISLANDS. John, WZ8D, is expected to be active as WZ8D/KP2 during the CQ WW 160 CW Contest (January 28-29th). QSL via WZ8D direct (SASE please).

M, ENGLAND. Laci, HA0HW, will be in here on business between January 29th and February 9th. He will try to operate as M/HA0HW, if time permits. QSL via HA Bureau or via QRZ.com address.

MJ, JERSEY (OOOPPPSS!). In OPDX.743, there was a premature/incorrect announcement on the activity by operators Jim/N1NK, Craig/K3PLV, Pete/K8PT and Tom/W8JWN expected to take place March 15-18th. Pete, K8PT, informed OPDX that the correct information is forthcoming when it's ready to be released.

OH0, ALAND ISLANDS. Operator Leppala, OH2BYS, will be active as OH0L during the CQ WW 160 Meters CW Contest (January 28-29th). QSL via OH2BYS.

P4, ARUBA. Flo, F5CWU, will be active as P40CW from March 1-8th. He will also be in the ARRL DX SSB Contest (March 4-5th) as a Single-Op/All-Band entry. QSL via F5CWU.

P4, ARUBA. Operator John, KK9A, will be active as P40A during the ARRL DX SSB Contest (March 4-5th) as a Single-Op/All-Band/Low-Power entry. QSL via WD9DZV.

PA, THE NETHERLANDS (Experiment from PA!). On Thursday, January 26th (2300z) through Friday, January 27th (0530z), Peter/PA8A and Rob/PA3GVI will be active with a very special antenna system on SSB and CW. This experiment will take place on 7 MHz and the antenna exists of a 2x4 stacked dipole system between 2x 400 foot towers (Antenna-gain is +/- 22 dB and radiation angle 7 degrees). This antenna is fixed on South/Central America, and can be slewed towards the South Pacific and the USA slightly. They invite all operators to make a contact, and if possible, an audio-recording of the operation (especially from the aboved mentioned areas). Recordings (not bigger then 1 Mb) can be sent to: pa3gvi@hetnet.nl
Look for them on +/- 7055/SSB and +/- 7010/CW. The transceiver will be an IC-7800 with 150 watt. Coverage and received sound files will be available (after the experiment) on: http:/www.sitekreator.com/pa3gvi

PT7, BRAZIL. Joska, HA9RT, will once again be in Brazil soon. He will operate as HA9RT/PT7 between February 6-20th from Fortaleza. He prefers operating on CW but will be active on 40-10 meters. If he can, Joska will try to hang up a long wire to use on the lower bands. QSL via the HA Bureau or via the QRZ.com address.

QSL INFO AND NEWS.....
Effective immediately, the QSL Manager for Sultan Al Kuwari, A71CT, is Francisco, EA7FTR. QSLs for A71CT should be sent to EA7FTR either through the bureau or direct to: Francisco Lianez Suero, Asturias 23, Aljaraque, Huelva 21110, Spain.

SEND NO MONEY! Ed, PS7DX, informs OPDX readers to please send no money to PS7AA or PS7DX because somebody is opening his letters. Send only IRC's.

WF5E DX QSL SERVICE NOTICE: The following list have callsigns of stations that do not use the "WF5E DX QSL Service" as of January 3, 2006. It is suggested to go direct to the following stations:
THESE MANAGERS/STATIONS HAVE NOT REPLIED TO WF5E'S MULTIPLE REQUESTS:
3B9FR, 8R1AK, 9H1AL, 9K2RA, A47RS, AD4Z, DL1QQ, DJ6QT, DL7FT, ET3AA, F2YT, FR5DX, G3MRC, GI0KOW HR1RMG, JW0HR, K3IPK, N2AU, OM2SA, ON5NT, OM6TX, SV2ASP, SM3CER, TG9NX, W7EJ, WT3Q, UA0HCW, UK9AA, Z35M, Z32KV, ZS6EZ, ZS5BBO.

THESE MANAGERS/STATIONS DO NOT QSL TO DX QSL SERVICES:
3D2AG, 5A1A, 5B4AHA, AC7DX ON SOME, JA6NL, SP7BTB, T77C, VE3DO, V51AS, VY2SS, W6UC, WA4JTK, YT1AD, ZC4II, & LZ3RZ

THESE MANAGERS/STATIONS REQUEST TO QSL DIRECT NO MULTIPLE REQUESTS:
AP2JZB, EP3SMH, FR5FD, TA2ZV, VK9NS, XW2A/XW0X, ZB2FK

Christian, XE1/DL6KAC, informs that he has been notified QSL cards for his XE1/DL6KAC operation is piling-up in Germany. He requests, "Please be patient as I will not be able to respond to these QSL cards until I return to Germany. This return is scheduled for March 2006. Then the cards need to be printed so that I hope to mail out the first cards around May 2006. Please note the increase in German postage (e.g. 2 USD are no longer sufficient to cover over-seas postage). As noted earlier

in the bulletins, German postage has increased prices from 1.55 EURO to 1.70 EURO. 1 IRC is still sufficient."

Laurent, W0MM, reports that as of January 15th, he is the QSL Manager for Mike, YN4MG (WK6O). Mike is a missionary who spends most of his time in YN-land when he is not in southern California. Laurent states that he should receive his new cards from the printer (LZ1JZ) within a month.

S65, SINGAPORE. Enno, 9V1CW (PF5X), informs OPDX that the Singapore Amateur Radio Transmitting Society (SARTS) has been issued the special callsign S65X for use in contests. This was established with kind cooperation of Singapore's IDA communication authority. Look for this special callsign to be first aired during the PACC Contest, February 11-12th. If time permits, they will try to make some QSOs with stations outside the PACC Contest during that weekend. Later in the year, they will try and air this call in some international contests as well. QSL Manager is PA0KHS: Henk van Hensbergen, Smaragdstraat 53, 6534 WN Nijmegen, The Netherlands.

SPECIAL EVENT. Scott/NE1RD and Dave/KZ1O will activate the special event callsign, K1P, from Deer Isle (IOTA NA-055, USI ME-014S, Hancock county, Maine), April 10-17th. Activity is to celebrate Patriots Day. Many do not know that Maine was part of Massachusetts until 1820, and split as part of the Missouri Compromise. Join them from the Maine sea coast celebrating Patriots Day and New England's tradition of the sea, April 10-17th. Look for activity on all bands. QSL via NE1RD (QRZ.com).

SPECIAL EVENT. Members of the City of Provins ARS (F6KOP) will enter the French HF Championship as TM0C, both modes CW (January 28-29th) and SSB (February 25-26th). Precontest activities on all modes and bands HF/VHF is possible between January 26th and February 2nd (and possibly later in February). QSL both contest activities via F6KOP.

SPECIAL EVENT. To celebrate the 80th anniversary of the Lvovs Shortwave Club (LKK)(since 1926), Wojtek, SP8MI, will be active as SN80LKK between May 1-31st. QSL via SP8MI by the Bureau or direct (SASE 1 IRC - new). Please No e-QSL. More details are available at: http://www.qrz.com/sn80lkk http://www.qrz.ru/sn80lkk

SPECIAL EVENT. February 2nd will mark the 70th anniversary of the end of the collaboration between the Regal Italian Government and the Titano Mount (San Marino Republic). This began on June 1st, 1921, when upon request from the San Marino Government, 20 Carabinieri officers were moved from the region of Ancona in the Republic in order to guarantee the security, awaiting for a local Police force to be established. Members of the Association C.O.T.A. (Carabinieri On The Air) and the ARRSM Association, will celebrate this anniversary with the activation of T7COTA (operated by COTA members) and T70A (by ARRSM members). The stations will be active between February 3-5th on HF bands CW/SSB. QSL T7COTA via IZ8DDG, by the bureau or direct to: Orlando Balisciano Villa Bisignano, 5 Traversa, 21 80147 Napoli, Italy. QSL T70A via direct.

SPECIAL EVENT. Members of the Highway Amateur Radio Club will be operating a special event station using the callsign ZS5A1GP for the weekend of the A1 Grand Prix, (and on other special occasions during 2006). The A1 Grand Prix event will be held on the Durban beachfront in the vicinity of the Suncoast Casino, January 27-29th. The station will be operational on the HF bands, also on the local UHF and VHF repeaters and via the IRLP node 8300. A special QSL card will be sent to each station who makes contact with the station during 2006. If you want one of these limited edition cards for the shack wall, listen for ZS5A1GP via IRLP on their VHF/UHF repeaters or on HF (CW/SSB). QSL ZS5A1GP via: Highway Amateur Radio Club, PO Box 779, New Germany, 3620, South Africa. Further details and a picture of the QSL card can be found on the HARC Web site at: http://www.harc.org.za ADDED NOTE: Their repeater team is working on an VHF repeater which they hope to have linked to the UHF network to provide handheld UHF and VHF access to the IRLP from the race track. The VHF repeater will operate on 145.7625/145.1625 Mhz with a 107.2Hz CTCSS tone and the existing UHF repeater is on 439.275/431.675 MHz with a 136.5Hz CTCSS tone.

THE 2006 WRTC REFEREES HAVE CHOSEN. The following 47 individuals have been selected to referee the 2006 World Radiosport Team Championship to be held in July. The referees are: DJ2YA, DJ6QT, DK2OY, DL6LAU, EY8MM, G3LZQ, G3XTT, G4BWP, G5LP, GM4AFF, HA3NU, I4UFH, IV3TAN, JH4RHF, JK3GAD, K1CC, K1KI, K2LE, K2SX, K3NA, K8NZ, K9JF, KC1F, KC7V, N2AA, N2GA, N3AD, N6CW, NF4A, OH2KI, PY2YP, PY8AZT, S50R, S56A, SM3CER, SM3DMP, TG9AJR, UA3AB, UA6HZ, VE3DZ, VE7AHA, VE7SV, W0GJ, W4OI, W6OAT, W6UM and WX0B. For the complete press release and details on how the individuals were selected by the 2006 WRTC Committee, please visit the 2006 WRTC Web page at: http://www.wrtc2006.com/

TI8, COSTA RICA. Operators Carlos/TI2KAC, Ed/K4UN, Will/K4WPM, Rob/W4BW and Keith/W4KTR will be active as TI8M during the ARRL DX SSB Contest (March 4-5th) as a Multi-2 entry. QSL via TI2KAC (Check TI8M on QRZ.com for info). Operators will be active before the contest on 160-10 meters on SSB and perhaps CW and the Digital modes.

TY, BENIN. Operators Ronald/PA3EWP, Andrea/IK1PMR, Claudia/K2LEO and Tom/GM4FDM will be active from Cotonou between March 15-20th. Tom, GM4FDM, states that the team has to pick up their licence upon arrival. They requested the following callsigns: TY5WP, TY1MR, TY2LEO and TY4TW. Activity will be on 160-10 meters and on all modes. They hope to be active either as a team or as individuals in the BARTG RTTY Contest during the first weekend. PLEASE NOTE: Pay attention to the individual's QSL routes. Further details can be found on their Web page at: http://www.ik1pmr.com/dx-peditions/ty/index.php?topic=About%20Benin

V3, BELIZE. Operators Alan/NS0B and John/WC0W will be active in the ARRL DX CW Contest (February 18-19th), using either V31TP or V31EV as the callsign. They will also be there for a couple of days on either side of the contest, probably Wednesday through Monday. Activity will be on 160-10 meters; no WARC bands (no antennas for them).

VQ9, CHAGOS ISLANDS. Larry, VQ9LA, in Diego Garcia (AF-006), announced that he will be active in the CQ WW 160 CW Contest (January 28-29th). QSL via the VQ9LA info on QRZ.com.

VU4, ANDAMAN ISLANDS. Last week the first group to announce publicly they have intentions to operate from the Andaman Islands is Sigi, DL7DF, and a team of operators. Operators mentioned so far include Manfred/DK1BT, Sigi/DL7DF, Leszek/SP3DOI, Jurek/SP3GEM and SP3CCY. The team plans to head there early before the NIAR Hamfest (April 15th) to set up three transceivers, with two linears, using a Titanex V80DX low band vertical, a five band Hexbeam, a Cushcraft R7 and verticals for 30/40 meters. Most of Sigi's team is very well known for their low band activity. It was also mentioned that others may join the team. It is suggested to watch Sigi's Web page for updates at: http://www.dl7df.com/

ZD8, ASCENSION ISLAND. Jim, N6TJ, will be active as ZD8Z in the CQ WPX SSB Contest (March 25-26th) as a Single-Op/All-Band entry. QSL via VE3HO.

ZK1, SOUTH COOK ISLANDS. Olav, LA9VFA, will be active as ZK1VFA from Raratonga (OC-013), now through January 28th. Activity will be SSB and the digital modes. QSL via his home callsign.

ZL, NEW ZEALAND. Operators ZL2BSJ, ZL1AZE and possibly others will be active as ZL6QH during the CQWW 160m CW DX Contest as a Multi-Op entry. QSL via the Bureau or ZL2AOH. PLEASE NOTE: Due to the presence of a local GPS differential correction system on 1818 kHz, the team will be unable to copy weak signals between 1816 and 1820 kHz.

ZP0, PARAGUAY. Operator Dale, N3BNA, will be active as ZP0R during the ARRL DX CW Contest (February 18-19th) as Single-Op entry. QSL via W3HNK.

I know a bloke Stuart who was talking to a Spanish truck driver on CB one afternoon. He asked what radio it was as it sounded good. He told him an old President, a 2830 with a power mike and said it was for sale laughing.
he said I'm over there in 2 weeks I will pick it up then.
Stuart obviously forgot all about this, until he was knocked out of bed on weekday morning at 7am by a Spanish HGV driver wanting to buy the radio. He had arrived early hours, and asked if anyone knew Stuart having detoured a good way to get there some one told him.... Had a brew paid up and left with his radio...

Social Security is in trouble because when they figured the original
numbers, the average person lived to 65, so the government thought they
would, more or less, never really have to pay anything significant out.
That changed due to decent medical science, as most people in this
group (rraa is where I am right now) are more than aware.

Social Security has been busted for more than a couple decades, and none
of the bastards in the Senate or Congress or the Administration have had
the balls to let it just disappear. It is a dinosaur. And please note
I never mentioned a party here, since all are guilty of just covering
their asses just to get through another term.

And, at 52, I am one of the people that's going to lose evcerything that the government stole from me and gave away in this deal, so don't start ripping me for not caring.

I thought we were long past this but the German Group using 3V8DLH would not work 4X1IO on 7062 SSB today at 0300Z. He said India Ocean go ahead but when the station identified as 4X1IO (both stations were S9 in Atlanta) 3V8 came back on with
QRZ.

I know the DL hams were following the Tunesia rules but amateur radio should be above politics!

They have to follow the local rules. If not they face arrest, deportation,
jail time and might prevent the future issuing of licenses to foreigners.

The last thing that any ham should do is to arrive in a foreign country,
set up a station and start breaking the local laws. It's bad for them
and it's bad for ham radio.

73,

Geoff.

Officialy we're in southWEST Asia. Some people mistake us for being in
nothern Africa or southeast Europe. Or the elusive "Middle East".

Last I checked, we are a long way from the Indian Ocean.

It would like someone from Kansas aswering a CQ for the Atlanic coast.

Geoff.

That's news to me. We had a list of countries with whom we were not
allowed to pass third party traffic, but those came about because the
banned countries prohibited third party traffic. I've been licensed
continuously since 1954, I may have missed this so-called ban, but I
don't think so. No flame,

Uhm, "Here we in Europe"? Have you gone imperial again? ;-O

Lots of former Eastern block states, including former Eastern Germany had
quite a considerable list of "banned countries", including your colony at
the Cape.

The list was -- and is -- for real.
http://edocket.access.gpo.gov/cfr_2004/octqtr/47cfr97.111.htm

FCC regulation 97.111(a)(1) which states in part:
"(a) An amateur station may transmit the following types of two-way
communications:
(1) Transmissions necessary to exchange messages with other stations
in the amateur service, except those in any country whose administration
has given notice that it objects to such communications. The FCC will
issue public notices of current arrangements for international
communications;"

So the banned list actually still exists, just that it's empty as no
administration has currently notified the FCC that it objects to amateur
communications with the USA.

ISTR when I got my first license in 1973 there were three countries on
the banned list. North Korea and China were two, I forget who the third
was. In any case there were no ham stations in any of the listed
countries so the FCC regulation really had no effect...

On a marginally related note, when I was employed at a defense
contractor, some years ago, the countries of the Soviet Union, China,
etc, were called "designated countries."

We were supposed to report any contact with citizens of those
countries to our Security office. I had a friend in the office and I
asked him once whether I had to report every QSO I had with UA, etc.

He said, no, only if you discuss where you work or what you do, with
him. I said, fine, but what happens when I have just had a QSO with
someone else, with whom such conversations are not banned and the UA

was listening and breaks in.

He grumbled and told me to go away.

We most certainly DID have a banned country list. Off the top of my head I
remember the following;

CUBA
Vietnam
China
etc. etc.

Hey,

I am trying to find out the different Node numbers for repeaters worldwide.
My local 2m repeater is enabled for gettin other repeaters worldwide as i
have heard it beind done many times. Is there a website that has the numbers
or would one of ye be kind enough to provide me with the info.

Thanks,
Chris

It was Viet Nam (or possibly North Viet Nam) where the US was involved
in another military fiasco.

205. A Space Suit with a 145.990Mhz FM transceiver!

Newsgroup: rec.radio.amateur.dx
Date: 2006-01-29 20:13:27 UTC
From: CQ <geenmail@geenmail.net>
Message-ID: <43dbd068$0$12846$ba620dc5@text.nova.planet.nl>
Source record: 4100

Hello All,

At Friday 3 februari 2006 will be SUITSAT launched -
from out of the ISS Space Station into space.
In the Space Suit is a transceiver which send voice
greetings in various languages.
Also SSTV pictures (mode: robot 36) will be send
down to earth.
For those who received the SUISAT signals can
request a special certificate!

Probably you can receive Suitsat with a simple GP vertical.
Better is an yagi (or trie both to switch).
I hope amateurs will report here how strong they receive
the suitsat signals (and what antenna you have used).

More info you can see on amsat or:
http://pd0rkc.ontwikkel.nl

Please publish this message on websites (unique event!).

January 30, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Letter, K1XN & GoList, W2LO, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K6VVA, K6WR, K8YSE, KU8E, DL1EK & The DX News Letter, F5NQL & UFT, F6AJA & Les Nouvelles DX, G3SWH, HA5X, HS0ZDX, I1HYW, I1JQJ/IK1ADH & 425 DX News, PY7RP, VA3RJ & ICPO and Pete Rayer for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 22nd/January, through Sunday, 29th/January there were 222 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE0Y, CE0Z, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J6, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0S, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VP2E, VP2V, VP5, VP8, VP9, VQ9, VR, VU, XE, XT, XU, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4L, GEORGIA. David, 4L1DA, will be active in the CQ WW RTTY WPX Contest (February 11-12th) as a Single-Op/Single-Band (20m) entry. QSL via W7LPF.

8N, JAPAN (Special Event). To celebrate the ARISS contact with the Yoneda-nishi Elementary School in Takasago, Japan, look for special event station 8N3Y to be aired February 1-28th. QSL via JARL bureau.

9A, CROATIA. Chris, HA5X, will try to be active as 9A8XA between June 7-20th. His main QTH will be Mlini, near Dubrovnik, but he is expected to occasionally do some IOTA/IOCA activity depending on the weather, mood and family. QSL via HA5X.

ANTARCTIC NEWS.....
ANTARCTIC SPECIAL EVENT. To celebrate the 10th anniversary of the Ukrainian Antarctic station, the "Academic Vernadsky Base" (WAP UKR-01), several special callsigns have been issued by the Ukrainian authorities to some of the operators who were active in the past years from the Ukrainian Base. Look for activity between February 3-12th, by the following operators: EM10KY by UT1KY - QSL via IK1QFM
EM10UA by UT7UA - QSL via home callsign
EM10LV by UR8LV - QSL via home callsign
EM10HO by UX2HO - QSL via home callsign
EM10KGG by UR5KGG - QSL via home callsign
EM10KY is actually referenced for the WAP as WAP-33; the other stations will be referenced shortly, and they will be valid for the WAP Awards, including the brand new WAP A.S.E.A. of the ARI Cassino.

3RD AAW NEWS. The Worldwide Antarctic Program (WAP) 3rd Antarctic Activity Week (AAW) will take place between February 20-26th. The annual event is to promote world-wide interest in the Antarctic and to protect this continent. The following stations have announced they will be operating from various Antarctic bases, as well as special event stations, in this year's AAW:
4O3ANT (WAP-22) II8ANT (WAP-18) IU0ANT (WAP-19) TM7ANT (WAP-34)
AT3ANT (WAP-21) IO2MET (WAP-23) TM0TAF (WAP-43) TM8ANT (WAP-14)
II0ANT (WAP-16) IO6ANT (WAP-28) TM1ANT (WAP-37) TM8TAF (WAP-42)
II1ANT (WAP-32) IO8ANT (WAP-13) TM2ANT (WAP-40) TM9ANT (WAP-39)
II2ANT (WAP-30) IO0ANT (WAP-35) TM3ANT (WAP-38) TM0ANT (WAP-08)
II4ANT (WAP-17) IR0ANT (WAP-10) TM4ANT (WAP-41) TO2ANT (WAP-26)
II5ANT (WAP-25) IR1ANT (WAP-02) TM5ANT (WAP-29) UE6ANT (WAP-24)
II7ANT (WAP-12) IR8ANT (WAP-05) TM6ANT (WAP-31)

Please listen to operator's instructions for QSLing. More information is available on the AAW at: http://www.ddxc.net/wap
Also, look at the ARI Cassino new WAP "Antarctic Special Event Award" (ASEA) at: http://digilander.libero.it/aricassino
Stations listed above and other special event stations qualify for the ASEA.

CN, MOROCCO. Jim, W7EJ, will be active as CN2R between March 16-29th. He will be active in the CQ WW WPX SSB Contest (March 25-26th) as Single-Op/ Single-Band (80m) entry. His activity outside the contest will be on the WARC bands and 6 meters EME. QSL via W7EJ.

E2, THAILAND. Operator Tony, E21IZC, to be active from Thailand in the CQ WPX SSB Contest (March 25-26th) as a Single-Op/All-Band entry. QSL via E21IZC (QRZ.com).

FO & FO/M, FRENCH POLYNESIA AND MARQUESAS ISLANDS. By the time you read this, Ely, HA9RE, is expected to be active from Nuku Hiva, Marquesas Islands

(OC-027 and DIFO FO-023), between January 28th and February 18th. His callsign for this operation will be FO/HA9G. He will also be active for about ten days from Ahe Atoll, Tuamutu Archipelago (OC-131 and DIFO FO-028), French Polynesia, starting February 20th. Activity is planned for 160-10 meters CW, SSB and RTTY. QSL via HA8IB: Szabo Karoly, Aradi u. 42, H-5525 Fuzesgyarmat, Hungary.

FT5W, CROZET ISLAND (Update). Gildas, TU5KG, who is now back in the Austral Sea (in Southern Indian Ocean) on a fishing boat, has received the callsign FT5WL for his upcoming Crozet activity. Start looking for him possibly after February 3rd. He is expected to travel around the Crozet Island area until early March before heading back around Kerguelen area again until the end of March.

HAM IN SPACE NEWS. Congratulations to International Space Station (ISS) Commander Bill McArthur, KC5ACR, for achieving "Worked All States" (WAS) and "Worked All Continents" (WAC)from NA1SS. He contines to work on his DXCC as well. On Sunday afternoon, January 29th, just as this was being written, your editor heard Bill state he now has 95 countries. ADDED NOTE: Your editor would like to thank Bill for the QSO on Tuesday morning, January 24th.
PLEASE NOTE: An interesting event will be taking place this week. OPDX readers may want to drag out the old 2 meter HT for this event. Bill McArthur and his crewmate, Valery Tokarev, are scheduled to do a space walk on February 3rd and will release "SuitSat-1". As the "ARRL Letter" states, "--quite possibly the most unusual Earth satellite ever. SuitSat consists of a surplus Russian Orlan space suit converted into a transmit-only satellite with an FM downlink frequency of 145.990 MHz. Using the callsign RS0RS, it will transmit voice messages, telemetry and an SSTV image on a nine-minute cycle as it orbits Earth. The batteries powering the satellite are expected to last about a week, and SuitSat's free-floating, decaying orbit should cause it to re-enter Earth's atmosphere after some six weeks in space. The SuitSat signal should be strong enough to hear using a VHF transceiver or scanner and a simple antenna." For more details on this event and pictures of SuitSat, please visit the following Web pages (Plenty of interesting reading!):
http://www.suitsat.org
http://amsat.org
http://www.issfanclub.com/
http://www.amsat.org/amsat-new/articles/BauerSuitsat/index.php
http://science.nasa.gov/headlines/y2006/26jan_suitsat.htm

HB0, LIECHTENSTEIN. Kasimir, DL2SBY, will be active again as HB0/DL2SBY from February 25th through March 4th. Activity will be on 160-10 meters, CW, SSB, RTTY and PSK31.

IOTA NEWS.....
EU-125. Operators Jef/ON4ACA, Francis/ON6LY, Marcel/ON6UQ and possibly others will be active from Roemoe Island (DIA NS-001 for the Danish Islands Award) from July 29th to August 5th. They will be signing OZ/homecall and hope to have a Danish callsign for

the IOTA Contest (July 29-30th). QSL via their home callsigns.
More information is forthcoming.

NA-062. Operator Jeff, VA3QSL, will be active as VA3QSL/W4 from Key
West (USI FL-040S, Monroe county, Florida), February 13-16th.
His activity will be near the IOTA frequencies on 20-10 meters
SSB. QSL via his home callsign, direct with SASE/SAE + postage,
or through the bureau.

NA-178. Rick/K6VVA and Mike/K9AJ will be active as homecall/6 from
SouthEast Farallon Island, February 14-16th. Activity will
be on 40-10 meters CW/SSB. QSL via N6AWD, by the bureau or
direct to: Fred Stenger, 6000 Hesketh Dr., Bakersfield, CA,
93309 USA. Visit their Web page at:
http://www.k6vva.com/iota/na178

SA-070. Operators Mario/CE6NE and Marco/CE6TBN will be active as CE5S
from Santa Maria Island (DICE reference ICE-502 for the Chilian
Islands Award), February 8-10th. Activity will be on 40/20/17/15
meters SSB with some CW. QSL via CE6NE: Mario Aranguiz,
P.O. Box 866, Temuco, Chile. More information is available at:
http://www.ce6ne.cl/stamaria.htm
ADDED NOTE: This operation also counts for Isla Santa Maria
Lighthouse (WLOTA LH-0543).

J7, DOMINICA. Operators George/K5KG (J75KG), Ron/KK9K (J79RV), Jim/WI9WI
(J79WI), John/W4IX (J79**) and Charles/K1XX (J79**) will be active from
February 11-21st. The group plans to be active as J7OJ in ARRL DX CW
Contest (February 18-19th) as a Multi-? entry. QSL J7OJ and J75KG via
KU9C. QSL all others via their home callsigns.

JW, SVALBARD. Mathias, JW5NM, will be active from Spitsbergen Island
(EU-026 and WLOTA LH-0125) in the ARRL DX CW Contest (February 18-19th)
as a Single-Op entry. QSL via the information at QRZ.com.

JW, SVALBARD. Francois, F8DVD, is getting ready for his 10th DXpedition
to the Arctic. Look for him between March 24-31st, to be active as JW/F8DVD
from the Longyearbyen ARC, located on the Spitsbergen Island, 78° North,
and about a thousand kilometers far from the geographic North Pole (EU-026,
WAZ 40 and Grid Square JQ78TF). His activity will be on all HF bands both
CW and SSB. Francois will also enter the CQ WPX SSB Contest (March 25-26th)
as a Single-Op/Single-Band (20m)/High-Power entry. His equipment consists
of an ICOM 751 and a 500 watts PA, into a 5 elements yagi on a 30 meters
high tower. QSL via his home callsign, through the French REF-Union Bureau
or direct, w/SAE + 1 IRC (or 1 USD for EU, and 2 USD for elsewhere) to:
Francois Bergez, 6, Rue de la Liberte, F-71000 MACON, France.

NP2/WP2, U.S. VIRGIN ISLANDS. Tony, N2TK, will be at the Windwood, WP2Z,
contest station on St. Croix from February 22nd through March 8th. He
will be active in the ARRL DX SSB Contest (March 4-5th). QSLs for WP2Z
go to KU9C. Tony mentioned that he will probably also make some contacts
during the previous weekend on the CQWW 160M SSB Contest (February 25-26th).

Before and after the contests he will use the N2TK/NP2 callsign. QSL this call to his home callsign. Tony mentions that this may be the last contest from Windwood as it is to be sold by the end of March.

OM, SLOVAK REPUBLIC. Members of the LBCC will be active as OM7M in the ARRL DX CW Contest (February 18-19th) as a Multi-2 entry. QSL via OM3PA.

PJ4, NETHERLANDS ANTILLES. Operators John/K4BAI and Jeff/KU8E will be active from Bonaire (SA-006) as PJ4/homecall from February 14-21st. They will be operating the in the ARRL DX CW Contest (February 18-19th) as PJ4R. Please QSL PJ4R via K4BAI.

PY0S, ST. PETER AND ST PAUL ROCKS. Joca, PY0S/PS7JN, is now active from the scientific Brasilian base on St. Peter and St. Paul Rocks until the end of the first week in February. The base is composed of a small house that does not support more than 4 people. Joca's friend Renner, PY7RP, was informed that due to a big storm on the rocks this past weekend, Joca's PC has gotten wet and stopped working. During the day, the sea waves often collide with the rocks making a big spray of salt water all over the rocks. Fortunately, Joca's radio was in a safe place during the storm (under the radio table), and it seems the radio has not suffered any kind of damage. Joca will keep working on SSB with just 100w using a 160m dipole tuned for on all other bands. However, he is now logging on paper and there will be no more digital mode activity until he repairs his PC. INTERESTING NOTE: Joca has made a QSO with the International Space Station (ISS) on Saturday, using a portable VHF radio with just some watts of power.

QSL INFO AND NEWS.....
QSL BUREAU ACTIVITY ON A DECLINE? Jay Slough, K4ZLE, W8 Incoming QSL Bureau Manager, provided OPDX with his annual report on the ARRL's 8th Area Bureau (2005) activities. The ARRL Central 8th Area Incoming QSL Bureau received approximately 110,905 QSL cards in 2005 for redistribution. This is down almost 20% compared to 138,236 handled in 2004. They handled 154,054 cards in 2003. From these numbers and trends, you can see that LoTW and decreasing sunspots are affecting QSL volumes. (Could it also be a decreasing population of active DXers?) The monthly breakout is as follows:
Jan. • 6,361 May • 16,102 Sep. • 4,676
Feb. • 8,083 Jun. • 5,417 Oct. • 4,387
Mar. • 10,401 Jul. • 11,321 Nov. • 18,773
Apr. • 8,947 Aug. • 10,891 Dec. • 5,5466
PLEASE NOTE: It would be interesting to hear from other area QSL Bureaus to see if they are experiencing the same decline. QSL Bureau Managers are welcome to send a small report to OPDX.

Phil, G3SWH, is pleased to announce that he has taken over the QSLing duties for 9G5XA and 3C5XA effective immediately. He has copies of all the past logs and is awaiting delivery of cards from the operator, G3XAQ. Direct requests with SAE and adequate return postage is preferred, but E-mail and bureau requests will also be processed, but please be aware

that the bureau system takes a very long time! Phil's E-mail address is: phil@g3swh.demon.co.uk

7Q7RM LOG CLOSING. Allan, G0IAS, QSL Manager for Ron MacFarlane, 7Q7RM, who died last year, has announced that he will permanently close the logs on Ron's many years of operation from Malawi later this year. If you need a card, it is suggested that you contact him soon.

QSL HS0ZDJ via W2YR. John, W2YR, was operating as HS0ZDJ in the CQ WW 160 Meters Contest this past weekend from Pattaya Beach, Thailand, about 180 km south of Bangkok as Single-Operator/High-Power entry. ADDED NOTE: Permission was applied for and was received from Thailand's National Telecommunications Commission (NTC) on Monday, January 23rd, for operations on 160 meters during the CQ Worldwide 160 Meters CW Contest last weekend (January 28-29th) with a frequency allocation of 1800-1825 kHz. Several Thailand-based stations were expected to be active during this contest, including RAST club station HS0AC (QRZ.com address) and HS0ZGL (QSL via G3TMA).

Logs for Gildas, TU5KG, last activity from Gabon as TR8CR are now available at: http://LesNouvellesDX.free.fr

SA3/SM3, SWEDEN. Operators Ulf/SM3RAB and Tomas/SM3WMU will be active as SM3D in the ARRL DX CW Contest (February 18-19th) as a Multi-Single/High-Power entry. Both operators will also be active as SA3D in the ARRL DX SSB Contest (March 4-5th) as a Multi-Single entry. QSL both activities via SM3WMU; bureau is preferred.

SPECIAL EVENT. Pete Rayer, ISWL Life Vice President, wants to remind everyone that the International Shortwave League (ISWL) continues with their 60th (Diamond) Anniversary celebrations throughout the year. If you missed the "GB6SWL" activity this past weekend, look for it to be active again on February 4-5th and 11-12th. Herbie, G6XOU, will be the main operator from Walton on the Naze, Essex. Other February GB6SWL activities are scheduled as follows:
February 18-19th - Dick, M5DIK, will be the main operator from Watford, Hertfordshire.

February 25-26th - Phil, G4DMS, will be the main operator from Towcester, Northamptonshire.

Also look for GB60SWL to be active on Sunday, February 12th, from the Harwell ARS Rally at Didcot, Oxfordshire. For more details, including the QSL information and Awards, please visit: http://www.iswl.org.uk

TI, COSTA RICA. Operators Mike/W9RE, Mark/N5OT, Mike/NT6X and Hal/N4GG will be active as TI5N for ARRL DX CW Contest (February 18-19th) as a Multi-2 entry. QSL via W3HNK. The team will also be active as TI5/homecall on all bands from February 14-25th. QSL via the operator's home callsign.

V3, BELIZE (IOTA Op). Gerd/DJ4KW and Gisela/DK9GG currently in Belize as V31YN and V31GW, respectively, will activate Southwater Caye (NA-180), February 1-8th as V31YN/P and V31GW/P. Activity will be on 40 meters and

higher on CW and RTTY. QSL via their home callsigns.

V4, ST. KITTS AND NEVIS. Operatots Bob/AA1M and Mike/W1USN will be active as V44/homecall from the island of St. Kitts between March 2-10th. Activity will be on all bands 80-10 meters CW, SSB and PSK31. All QSLs go to their home callsigns.

WP3, PUERTO RICO. Alfredo, WP3C, will be active in the CQ WW RTTY WPX Contest (February 11-12th) as a Single-Op/All-Band/Low-Power entry. His activity will also count for the WLOTA as LH-2802. QSL via W3HNK.

YI, IRAQ (Remote Station). Brad, K6WR, informs OPDX the W7DXX InterNet Remote Base Group now has an InterNet Remote Base system operating in Baghdad, Iraq, under the callsign YI9DXX. It is active on 75 meters in the DX window about 23 kHz and on 20 meters with 13-16 kHz. For more details on the operation, please visit: http://www.w7dxx.com

ZK1, SOUTH COOK ISLANDS. Jim, W1EMT, has comfirmed dates to be here between April 29th through May 20th. No other details were provided.

207. Re: Rpeeater node numbers

Newsgroup: rec.radio.amateur.dx
Date: 2006-01-29 23:32:08 UTC
From: Caveat Lector <UALLBeware@9984reader.com>
Message-ID: <zfcDf.2025$MJ.949@fed1read07>
Source record: 3859

For IRLP the node numbers are at URL:
http://status.irlp.net/
Click on the country of interest

For echolink you must have the EchoLink program downloaded to your computer,
then when you activate echolink it shows the staion logged on including the
node number, Example

9H1RA-R RU7 Malta 433.175 MHz ON 00:22 278185
9W2CCB-R Malaysia (1) ON 07:23 253445
9Y4TTL-R TRINIDAD & TOBAGO (1) ON 19:23 280791
A47RS-R Muscat-Oman ON 03:17 195822
AA0IY-R Concordia, MO ON 17:20 51683
AA2WD-R rochester ny ON 18:18 181360
AA3RG-R PineGrove, PA 146.640 ON 18:26 149493
AA5SG-R Ellisville MS - 145.230 ON 17:14 1545
AA6RJ-R CARSON, CALIFORNIA ON 15:26 40515
AA7SS-R Bremerton, WA ON 15:23 64045

The last number is the node number - the R suffix indicates Repeater link

Hope that helps

Condx good, but not excellent. The link in my signature points to
my log, updated every 5 minutes.
Nothing spectacular heard, just a few new bandpoints.

Good show.....when I was in your country. West Germany at the time. I could only LISTEN on 160. It is good to see you can use the band like it should be.

Since I am kill filing this thread (and many others) anyway.

just a word of advice, your ISP is now aware of your intent. should you
carry it out, I am fairly certain that they will take action against you
for failing to abide by the Terms of Service agreement you have, as well as
the Acceptable Use Policy you agreed to.

do it and you'd better find yourself another ISP.

212. naming names - DX lids

Newsgroup: rec.radio.amateur.dx
Date: 2006-01-31 16:14:54 UTC
From: Doug Smith W9WI <w9wi@invalid.invalid>
Message-ID: <43DF8CF7.90802@invalid.invalid>
Source record: 3864

OK, there hasn't been much posted here lately that's actually about DX,
so here goes...

Just worked 6O0N on 20 meters CW. The QSO would have happened much
faster if not for some of the stations listed below:

6O0N: KN5??
Callers: K7LB KC6AWX KA5TQF

6O0N: VE7??
Callers: W6VM AB9H KA5TQF

6O0N: KC6AWX 5NN
Callers: several, but NOT KC6AWX!

6O0N: W9WI 5NN
Caller: K7LB
(I *did* complete the QSO successfully)

6O0N: KA5TQF 5NN
Callers: VE7AHA VE2FVD AA6W (but NOT KA5TQF!)

6O0N: WB??
Caller: AA6W

There are, of course, some patterns here. You can also rest assured the
stations mentioned weren't the only lids calling DX they apparently
can't copy. (I was listening in 500Hz bandwidth on the second receiver
so only heard about 1/4 of the pileup at any given time)

Yes, when the 6O came back to KC6AWX, and later when he came back to
KA5TQF, they didn't hear him... they were calling a DX station they
couldn't hear... I suppose that's probably not a surprise to the real
DXers on this forum... At least to TQF's credit, he did copy the 6O on
the third try...

Add to that the European station who decided to call CQ dead on top of
the 6O without bothering to ask whether the frequency was in use...
(but much to my pleasant surprise, nobody but the 6O told him to QSY...)

[Lids in Pileups]

I absolutely share your sentiments. Right now I am listening to
FH/G3TXF on 7022kHz. He is doing a great job, working a good
rate. After observing where he hears, I worked him after two
calls (700W, Dipole). Now that I have worked him, I am leaning
back and have a listen to people calling him; a sad picture:

DF3?
ja5aqc f5tni rn3ok

DF3L?
ja5aqc f5tni rn3ok

OK1 5nn
ur5fav

on TXF's QRG: "ANT TEST DE F5VHZ/P CQ CQ de F5VHZ/P PSE K"
"CQ de F5VHZ/P ANT TEST" -- "QSY QSY" "PSE QSY"
"QRZ de F5VHZ" "LID"
(he absolutely doesn't realize what he is doing!)

QRZ? FH/G3TXF up

SV8DKI? 5nn
ur8mg

G3?B?
ur5fav

G3 G3?
ut5vx ut5vx i3 ur8mg

(NB: I was listening up 2kHz with a narrow filter, although TXF
listened somewhere else most of the time.)

And so on, just a few minutes randomly picked up. It can always
happen that one sends his callsign *once* at the wrong time, for
whatever reason, but the calls I mentioned above were all heard
several times, so it's clear to me that they do it on purpose --
how very liddish!
I am sure that one could make a list of *hundreds* of calls with
lids who do this.

Another thing I observed last night, right after the CQWW 160m ended, was 3V8DLH, calling "CQ WEST COAST", but some EUs, especially DL4JNB, just kept calling. That made me unbelievably angry, but I am not one of those who start complaining about it on the DX frequency!

People need to learn that they are much more successful DXers when they *LISTEN* before they call! Of the above mentioned callsigns, some have *still* not made it through the pileup at the time of writing, although they are certainly not the weakest.

The more I think about it, the more respect I have for guys like G3TXF, who, in spite of all the horrible lids, QRMers, etc, still go on DXpeditions and do a great job working their pileups!

73,

Yep, a single "oops" is understandable -- when one transmits every time the DX stops (and even sometimes when he doesn't!) it's pretty obvious one don't know what they're doing. It's even more obvious when the DX comes back to one and they keep calling anyway!

> I am sure that one could make a list of *hundreds* of calls with
> lids who do this.

Unfortunately, true.

(and with regard to the other reply, I guarantee you the same thing happens on SSB. To be honest I usually don't even bother with split-frequency SSB pileups as I usually can't find the guy the DX is working to figure out where he's listening. (and calling blind on some random frequency, hoping the DX happens to find me, is not my idea of fun...))

(Don't have enough experience in digimodes to form an informed opinion. I did work 5H1C on 15m RTTY just a few minutes later & didn't have any lid problems. Though that could be because nobody realized 15 was open<grin>, the 5H was CQing his head off usually with no replies.)

> People need to learn that they are much more successful DXers
> when they *LISTEN* before they call! Of the above mentioned
> callsigns, some have *still* not made it through the pileup at

I guess I always figured there were people calling in pileups who couldn't hear the DX. I was surprised (maybe naive?) to hear two blatant examples in just a few minutes.

> The more I think about it, the more respect I have for guys like

> go on DXpeditions and do a great job working their pileups!

Absolutely! I do pretty well with computer-generated pileups but fear I wouldn't be nearly as good at the real thing.

G3TXF is one of the best CW ops out there. The day he decides to hang up his passport & stay home will be a sad day in the DX world...

I am not sure if this is appropriate under this subject, but it may help explain what is going on. A few weeks ago I spent an evening when 80 meters was open to Europe listening around the lower CW portion of the band. Several stations were CQ'ing with no callers, but they would have an instant pile up shortly after I "spotted" them on the clusters. I suspect many of these had called before ever hearing the DX station.

Horses are the only animal I know whose body can travel in separate parts. Unfortunately, we all know which part we most frequently encounter on the bands....

So stop spotting them. If there were no spots, folks would actually
have to listen and find the DX. And the DX would actually have to
give out their calls and announce where they are listening more
frequently, which would be refreshing.

I think you're probably right on the mark here. I suppose it's
possible they heard a pileup & figured they'd just join in (it did
happen in the days before packet) but that high in the band (14035) it
seems rather unlikely.

I don't blame the packet system. (heck, that's how *I* knew the 6O was
there) One would, however, think common sense would tell people even if
you do know which DX station is there, you're going to have to be able
to hear him to make a QSO!

It would be an interesting exercise... for a DXpedition to use custom
software... that issues a random code number for each QSO... and
transmits it. If you want a QSL, you have to provide the right code for
your QSO. I wonder what it would do to the QSL rate if you *had* to
copy the DX?

Instead, we have a contest "who spots first and does so ith the most precise
QSX information at the time of the QSO".

That's one heck of a good idea! Alternatively, you can just key the random code back. If correct, you get "TU", if not, you have two more tries.

Third try without luck is a "not in log".

I like that.

We most certainly DID have a banned country list. Off the top of my
head I
remember the following;

CUBA
Vietnam
China
etc. etc.

Dan/W4NTI

Cuba has never been on the banned list

the list of countries that are/were banned
are/were at the request of the banned country

example Republic of South Viet Nam did not allow amateur radio
south viet nam was on the banned list at the request
of the south vietnamese goverment

I've been "flawed" a few times by peeking at an Internet cluster (is that what they're called?) to get a feel for propagation. Although I have a computer in the shack for logging it's not Internet enabled and I don't use packet. (Two-meters should only be used for EME and meteor scatter (g))

So my looking at spots requires going in another room and booting the XYL off the computer. Needless to say, the wise thing to do is locate my own DX. Besides, the guy who "spotted" them first actually spotted them first without a spot. Somebody's got to do it.

Another thing that would help (and I think I've seen this happen) is for the DX station to monitor the spots and as soon as he's spotted he QSYs.

Or the DX could do like one DXpedition op did. He was on 14.195 and announced, "Listening up 5 to 10 (pause) and 14.190. I worked him on 14.190 on the first call. Heh heh.

Yeah, unfortunately that's why my suggestion was mostly tongue-in-cheek.

Of course, it's one thing for you to hear "...YY 5NN" and believe you're
in order to call. It's something entirely different to call after
hearing "...5JT 5NN"! (certainly in my original post the example lids
were completely & totally off-base!)

> especially by DXpeditions that only give their own callsign once every
> 20 or 30 QSOs!

Yeah, for a few minutes the other day I thought I was listening to UPAA
on 40 meters - maybe some kind of Russian special-events station?

Nope, it was a DXpedition that wanted callers 11KHz above his transmit
frequency...

NAW!!! No need to stop spotting them. Use spotting to your advantage!
<grin>

Example: LA4WD is actually working 14010.0 QSX +2

Simply spot them as working 14020.0 QSX +5.

Results: Those who hear 'em work 'em. Those who chase spots are gone !!!!!

I have had the experience of operating from several spots in the world would be considered DX. I guess the most activity would have been from the Marshall Islands. I was KX6AA in the early 80s.

Hands down the best operators were the Japanese. If you told them to QRX they did, if you said JA 1,2, etc. That's all that answered. I can't say the same for Stateside.

So I ended up making a black list, and sticking by it. But from what I hear now-a-days that won't help, they will just keep calling anyway. Why is that? Because they read it on the packet cluster and really can't copy CW anyway. Lidism to the max. What a deal.

You know the answer as well as the rest of the DX savvy know. Those dang clusters are so easy, folks don't tune any more. They just sit and let the cluster beep a new one.

I was in a contest not too long ago. I worked a BUNCH of stations on 40 meters and it started to slow down a bit. I then suddenly was deluged with callers. ALL DUPES....every single one DUPES.

So I just went QRT. After the contest was over I checked the spots for W4NTI....guess what? At the time of the "strange happs" guess what someone listed on the freq I was on? W4TNI. Yep.

What's wrong with using the technology and THEN listen on the frequency and
see if you can actually HEAR the DX before calling? Now that is a radical
thought.

Not really....let me explain how that works in today's computer world.

You call and call and call and hope he hears you. Then you check the
internet automatic log to see if your call shows up. In the meantime you
keep calling.

See?

There's another strange 'cluster spotting' phenomenon that I don't understand at all. Tonight, LZ4UU was on 40 cw sending his or her call frequently. There were 4 consecutives spots for LZ1UU (not 4) on exactly the same freq (7001.5) at 0211, 0217, 0219 and 0220 UT by four (apparently) different people. The station always sent 4, never 1, while I was listening. How does one explain that?

So you find something interesting and work them.

Spot them right away, gets the competition busy trying to work them,
while you keep tuning and find something more interesting to work.

Wash, rinse, repeat.

"Thank you for your support".

;-)

Operating a 160 meter contest from 12 degrees North of the equator is a challenge, and tolerance for noise is a must! There were storms in the area during the contest weekend, although things were much quieter the week before.

From Signal Point in Curacao (PJ2T), I worked 1128 QSOs, 59 State+Prov, and 57 DXCC countries. 1.3 million points claimed. Currently, it's the #2 claimed score (after VY2ZM).

WAS and WAC first night, but the coutnry total was down 23 below my goals. QSO total was down 300 from my goal.

****
Station: Signal Point, Curacao (www.pj2t.org)
Station Equipment:
Transceiver: FT-1000MP
Amplifier: Cary LK-800 (2 x 3CX800A7)
(Backup station FT-1000MP & Alpha 76CA)

TX Ant:
Inv-L (50-feet vertical, sloping up to 95-feet,
~60 radials)

RX Ant:
1000-foot Beverage (Europe)
650-foot Beverage (USA/JA)

Ah, so *that's* why Cumberland Electric had to increase utility rates --
to pay for the extra plants to power all those fruitless
transmissions<grin>!

I worked both of you. I struggled with S7 power line buzz (which was
not there as recently as the CW NAQP) the first night and part of
the second, then the buzzing stopped when a rain shower moved in
around midnight Saturday. Condx seemed quite good with a few
Europeans pushing close to S9; OK5W stands out as the big signal.

Time to hunt down the arcing power line I guess.

Dan problem is more a matter of having a Chip the size of RMS titanic
or KMS Bismark on his shoulder a different phenom than mashochism

bt it is obvious he is increasingly unhapy with Ham radio, and that
this is likely to only get worse

Have I ever called on the DX's frequency?

Yes.

Have I ever missed my call?

Yes.

If you haven't made these, and other mistakes, you probably haven't
been DXing long.

Do I use spots?

Yes.

Back in the 80s the W7PHO net would hold your hand during a contact.
They even repeated your call and reports at times. Is this any better
than using a spot? Did I ever check into the PHO net.

Well,yes.

Win, w0lz

Good point...the whole idea is to get them in the log anyway you can. It certainly makes no difference to the DXCC desk if you got the "new one" by a dx net, chasing spots, your buddy telephoned you, or you used the old way of tuning and listening, hoping, tuning listening, hoping..you get the idea!

Well you had to be doing something right down there. I was only running 500 out to a "U" antenna, literally thrown over a Hickory tree beside the out building I have my shack in. With the AC return ground as a radial, a 8' copper clad ground rod, and a 200' metal fence. So to hear that, you had something going right.

Good job.

That's what ham radio is all about......making things work.

Hope my Alabama qso helped you out. As for the Power Line noise. I've
been fighting that ever since I moved in here. About 5 years now. It is a
constant battle. Fix one, another shows up. On and On and On. At least
Alabama Power is NOW being helpful. Of course I had to get Public Service,
FCC and anyone else that would listen on their case. Good luck.

You will probably find it is loose or burnt insulators and lightning
arrestors and associated hardware.

~~~~~~

Easy. Using a telnet program like SpotCollector, if you double click on a bad call in order to QSY to that call, the bad call gets pre-entered in the "Outgoing spot" box. Unless you notice the error, the next spot you make will have the bad call.

The next question is why anyone would re-spot a call that's just been spotted and for that, I have no answer.

73, Bill W6WRT

An occasional error is to be expected. I've certainly done all of this.

When it happens over and over and over again, that's not an occasional error.

When the DX comes back to a given caller *several times* - and there's no QRM on the DX's transmit frequency to make it difficult to copy - and the same caller is one of the continuous callers who's been sending his call over and over again for the last five minutes regardless of who the DX came back to - there's a pattern. That's not an honest error; that's being a lid.

can you realy know that the other station is hearing some interference
you are not?

I would say no so you are presuming to know what the other station 's
problem lack of skill vs local interfence not strong enough to
propogate

and presuming leaving one at risk of much the same as assuming

For me, there is no worse feeling than calling on the DX's frequency, then realizing I did it. It is not fun to know that hundreds, maybe thousands, of other hams just heard my call, and know that I am an idiot.

I can't believe anyone would to this on purpose. If they do, they have thicker skin than I.

Win, w0lz

I'm not sure where this part came from - that was *not* among the
liddish behaviors I observed in this instance.

(I did hear someone calling atop the DX, but he was calling CQ, not
calling the DX station.)

Agreed, I can't see anyone intentionally calling the DX on the DX's own
frequency when they know the DX is listening elsewhere.

(that's an important qualifier. On altogether too many instances, the
DX isn't saying they're listening up! I've been called a lid a couple
of times for calling the DX on their transmit frequency -- the DX was
only saying "TU" - wasn't *saying* they were listening up.

This usually happens with the same DX stations who only ID every five
minutes.

I suppose the DX figured everyone knew they were listening up, because
it said so in the spot.)

There are, however, of course, lids who will transmit something else on
top of the DX. Luckily we don't know who these lids are. Luckily,
because the penalty for arson is considerably greater than that for
intentional QRM.

Source record: 3765

Hello All,

Keith (ZS6TW) received at 4 februari (12:45UTC) SUITSAT on 50 degrees
elevation.
Keith could hear Russian language from SUITSAT.
The equipment ZS6TW used:
Transceiver: Yaesu FT-847
Antennas: 2 X F9FT 17 elements yagis (16dBd gain).
Keith reported that it is importand to use FM narrow to
receive the weak (narrow) signals out the noise (doppler correction is
requered!!!).
He received SUITSAT at the same place as ISS, so the
Suitsat was (at 4 februari 12:45UTC) not far behind the ISS.

The audio file is for public use so spread arround the world!

73's Keith ZS6TW
The audio file you can download from PD0RKC website:
http://pd0rkc.ontwikkel.nl

What part of "If you cannot copy the DX, do not call" do you
misunderstand? Why?

The Ohio/Penn DX PacketCluster
DX Bulletin No. 746
BID: $OPDX.746
February 6, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1DG, N1KI, NC1L, N2OO, WA2VQW, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4DTA, W4WX, K6WR, AC7P, K8YSE, 9A6AA, DK3KC, DL1EK & The DX News Letter, DL3APO, F5NQL & UFT, G0HFX, I1HYW, I1JQJ/IK1ADH & 425 DX News, IZ8CGS,IZ8EDJ, JT1BV, LA9VDA, P29ZAD, SM7WT, SV1VS, VA3RJ & ICPO, VE3EXY and ZL2HE for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 29th/January, through Sunday, 5th/February there were 221 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1U, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9U, 9V, 9X, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE0Z, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, ER, ES, ET, EU, EX, EY, F, FG, FH, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J3, J6, JA, JD/m, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0S, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T32, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS. Operator Jurgen, DJ5HD, is now active as 3B8/DJ5HD until February 15th. Activity will be on 80-10 meters CW/SSB. He was heard this past on 40 meters CW after 1900z. QSL via his home callsign.

3Y, PETER I ISLAND. Probably by the time you read this the 3Y0X DXpedition should be on the air. Activity is expected to start Monday, February 6th,

and last for about 12-14 days. This is probably the biggest DXpedition to hit the airwave to date. As this was being written, the 3Y0X Web page reported "Our current ETA at Peter I is Sunday, Feb. 5th at 2300 hours. Our first reconnaisance flight will be at first light on Monday morning about 0700Z weather permitting!" It also reports, "First four men ashore will be Erling/LA6VM, Bob/K4UEE, Ralph/K&#65533;IR and Bob/N6OX. The plan is to set up OP B and make it self-sufficient before building the main camp. This way if WX deteriorates, we will have a 'foothold' on the island with two stations QRV. If WX is OK, we will proceed with building the camp before going on the air." This operation should be fun to work with 9 stations on and with activity on 160-10/6/2 meters and 70cm. QSL via N2OO (Please read the note under QSL INFO AND NEWS...). Don, N1DG, Chief 3Y0X Pilot Station, states, "For up to the minute news on Peter I including videos from the Island the best source is the Peter I Web site.... There will be no releases by the team other than what we post as news on the Web site on a daily basis." The Web site is: http://www.peterone.com

4X, ISRAEL. Operator Isaac, 4Z4TL, will be active as 4X0L in the CQ WW WPX RTTY Contest (February 11-12th) as a Single-Op entry. QSL via 4Z4TL, direct or by the bureau.

4Z, ISRAEL. Alex, 4Z5KJ, will be active as 4Z5J in the CQ WW 160 SSB Contest (February 25-26th) as a Single-Op/Low-Power entry. QSL via W0MM.

5T, MAURITANIA. Jean, ON8RA/5T0JL, who is in Nouakchott, continues to be very active on 80/40/20/15/12 meters CW. Watch 80 meters between 0400-0630z, 40 meters between 2130-2300z, 20 meters between 2000-2200z, and 15/12 meters between 1500-2000z. QSL via ON8RA (correct on QRZ.com).

6W, SENEGAL. Dave, G4WFQ, is now active as G4WFQ/6W until February 17th. Activity will be on 160-10 meters including the WARC bands, mainly on CW and RTTY with some SSB. He was quite active this past week on 20/15 meters CW. Look for him to participate in next weekend's CQ WW WPX RTTY Contest (February 11-12th). QSL via G3SWH, by the bureau or direct with SAE and adequate return postage. Also, bureau QSLs can be received by sending and E-mail to: phil@g3swh.demon.co.uk

ANTARCTIC NEWS.....
The new Antarctica Award score tables are now available via the Mediterraneo DX Club (MDXC) Web page at:
http://www.mdxc.org/antarctica/award.asp
They include the "Certificates of Excellence", "Honor Rolls", "Basic Awards and "Operator Certificates" issued through December 31st (2005).

Vlady, R1ANN (RU3HD/ANT), is still on Novolazarevskaya Base (WAP RUS-09). He was heard on 80/40/30 meters CW and 20 meters SSB this past week. Vlady will leave the Russian Base on February 15th, and will head to Capetown, South Africa, onboard the M/V Akademik Federov. He hopes to operate as R1ANN/MM and RU3HD/MM on the way home. QSL via RZ3DJ.

Bhagwati, VU3BPZ, he is still at Maitri Base (WAP IND-03) for another week (contrary to the announced schedule) before sailing onboard M/V Paardeberg for the trip back home via Capetown, South Africa. He should operate onboard as VU3BPZ/MM. For Antarctic hunters, Bhagwati can be found on 14180 kHz around 1600z and later on between 14205 and 14280 kHz. QSL via VU3MKE at the following address: Mr. Manoj Kumar Dhaka, Trupati Valley No 7, D-Lane, Kewal Vihar, DEHRADUN, Uttaranchal - 248001 INDIA.

C6, BAHAMAS. Ivars, KC4PX, will be active from Nassau as C6APX during the CQ WW RTTY WPX Contest (February 11-12th) as a Single-Op/Low-Power entry. Activity will be on 40/20/15 meters. QSL via KC4PX.

CU2, AZORES. Toni, OH2UA, will be active as CU2A in the ARRL DX CW Contest (February 18-19th) as a Single-Op/All-Band/High-Power entry. QSL via OH2BH.

CU7, AZORES. Operators DL1MGB, DL5AXX and DL8WAA will be active here between February 12-20th. The team will be active in the ARRL DX CW Contest (February 18-19th) as a Multi-2 entry. QSL route and contest callsign (but possibly CU7/DL****) is not yet known. Outside of the contest the operators will focus on the low bands for Asia.

DXCC NEWS.....
Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operation is approved for DXCC credit:
YI9VCQ - Iraq, November 30, 2004, through November 5, 2005

Bill Moore, NC1L, ARRL DXCC Branch Manager, wants to remind everyone that the deadline for the next Honor Roll list is rapidly approaching. In order to be shown in the next list that will appear in the August 2006 QST, you must be current on the DXCC Honor Roll as of March 31, 2006. Applications must be postmarked no later than March 31, 2006. In order to qualify for the DXCC Honor Roll you must be within the numerical top 10 of the overall entities on the DXCC List. There are 335 current entities on the DXCC list, making the minimum level for the Honor Roll 326 current entities. (Deleted entities do not count towards this level). Wall plaques are still available for anyone who is currently on the Honor Roll. (If you were previously an Honor Roll member you can still order the wall plaque for this achievement). See the DXCC website for the latest order form at: http://www.arrl.org/awards/dxcc

DX MAGAZINE'S MOST WANTED SURVEY RESULTS. The DX Magazine has announced the results of their "2005 Most Wanted Survey" which was conducted between September and October for 2005. The top 10 Most Wanted DXCC Entities are:
1) Scarborough Reef 6) Navassa Island
2) Lakshadweep Islands 7) Desecheo Island
3) North Korea 8) Bouvet Island
4) Peter I Island 9) Glorioso Islands
5) Yemen 10) Andaman & Nicobar Islands

Visit DX Publishing, Inc. Web page at: http://www.dxpub.com

DXPEDITION TO ANTARCTIC AND SOUTHERN OCEAN. Members of the Trowbridge
& District Amateur Radio Club TDARC, Jan/G0BBL and Chris/G0HFX, will
travel to Terra del Fuego (IOTA SA-008) and Patagonia from February 3-13th.
They will be using the callsigns LU/G0BBL and LU/G0HFX. They are planning
to be active on 15/20/30/40 meters, depending on the band conditions. Chris
informed OPDX that the Radio Club of Ushuaia, LU8XW, has invited them to
use their club station and let them work from IOTA SA-008 during their
visit. The probable date is February 8th; the Radio Club of Ushuaia's
monthly club night. This is probably going to be the best chance to work
them as LU8XW since they have a contest grade club station. See the
following Web page for details at: http://www.geocities.com/rcushu/
Jan and Chris will leave February 13th on the Tall Ship "BARK EUROPA"
and will be active on the high seas using the callsign PA5D/mm. Once they
reach the British Antarctic territories, they will be signing VP8DJK. The
two operators plan to land and operate from several islands of the South
Shetland Islands Group (IOTA AN-010) through March 6th. Track the Tall
Ship "Europa" via the following Web site at:
http://www.sailwx.info/shiptrack/shipposition.phtml?call=PDZS
The Trowbridge & District Amateur Radio Club Web site is available at:
http://uk.geocities.com/tdarc@btinternet.com

FAR EAST TRIP (Update/IOTA Op). XYL Aniko, HA5TAA, was rewarded just
before Christmas with a Far East trip by the company she works for. She
will travel to the Far East and stay for 14 days and 12 nights between
February 27th and March 12th. Her schduled route is the following:
2 nights in Bangkok (HS)
2 nights in Kuala Lumpur (9M2)
7 nights on the Island of Tioman (AS-046) (9M2)
1 night in Bangkok (HS)
Aniko is very happy with receiving this reward, but disappointed that
Feri (OM) can't come with her. Rashid, 9M2RS, is helping in get her a
license (9M2/HA5TAA). She states that there are no resident HAMs on Tioman.
She will take the couple's station with a simple dipole and expects to
work on 20 meters SSB.

FO/A, AUSTRAL ISLANDS. Operators Wulf/DL1AWI, Mat/DL5XU and Erik/DL9AWI
are now active from Raivavae Island (OC-114, Austral Islands, FO-122) as
FO/DL9AWI and FO/DL1AWI. Activity will last until February 14th. Activity
will have an emphasis on the lower bands, especially 160m. Their Web site
will be updated frequently at: http://www.radioklub.de/cgcg
QSL via DL3APO, by the bureau or direct. JUST A REMINDER: Operators will
travel to Auckland, New Zealand (IOTA OC-036) next. Activity will be
between February 17th to March 2nd using the callsigns ZL/homecall/m.

HK, COLOMBIA. Girts, YL2KL, will be active as HK1/YL2KL from HK1AR's QTH
in Cartagena, February 10-20th. Activity will include the CQ WW WPX RTTY
and ARRL DX CW Contests as Single-Op/All-Band/High-Power entries. He will
also emphasize activity on 160/80/40 meters. QSL via YL2KL.

IOTA NEWS.....
EU-170. Look for 9A0CI to activate the Lighthouse Veli Rat on Dugi
Otok Island, April 14-22nd.

OC-258. Operators Jerry/P29ZAD, Norm/P29NB, Tommy/P29TL and Peter/P29KPH will activate Kranket Island (Papua New Guinea's Coastal Islands North), March 17-20th (Starting 0000z). Callsign will be P29K. Activity will be on 80-6 meters. QSL via LZ1JZ. For more info, please visit: http://p29k.blogspot.com

J75, DOMINICA. The W2RZS Amateur Radio Club will be returning to Dominica for the 2006 CQ WPX SSB Contest in March. They expect to arrive on March 22nd and depart on March 28th. Last year they logged over 6500 QSOs. This year they hope to be able to break that record. They will be concentrating more of their activity on the low bands; 160/80/40 meters, and hope to increase their number of RTTY QSOs. Their expected callsign will be the same as last year: J75RZ. All QSLs should be sent to W2RZS with a SASE, or sent ONLY to W2RZS via the bureau. The operators will be: Mike/WA2VQW, Bob/WB2NVR, Bob/N2DVQ and Adam/N2DHH. Their location this trip will be Sea Cliffs Cottages, a location that is a bit closer to the ocean than the one they had last year.

JV800, MONGOLIA. Naran, JT1BV, Member Board of MRSF, informs OPDX that all JT HAM's will be celebrating the 800th anniversary of the Great Mongolian State using the special event prefix "JV800" with their own callsign suffix (ex. JV800BV via JT1BV) until the end of this year. QSL via their home callsigns (QRZ.com address).

JW, SVALBARD. Operators Tony/LA9VDA (JW9VDA), Andy/LA8AJA (JW8AJA) and Morton/LA9DFA (JW9DFA) will be active from Spitsbergen Island (EU-026) between February 23rd and March 1st. Activity will be on all bands, CW, SSB and RTTY. QSL JW8AJA and JW9VDA via LA9VDA: Trond Johannessen, Helgedalen 13, N-1528 Moss, Norway. QSL JW9DFA via LA9DFA: Morten Kvenmoen, Brodbol, N-2224 Austmarka, Norway. PLEASE NOTE: QSL cards for JW9VDA can be requested via E-mail to: la9vda2003@yahoo.no
For direct QSLs, please include a self-addressed envelope and sufficient return postage. For postage to EU and the rest of the world, 1 USD is not enough. Please provide at least 1 IRC or 2 USDs. Direct QSLs without sufficient return postage and SAE will be answered through the bureau.

KH6, HAWAII. Operators KH6YY, KH6ND, KH7U, WH6R, AH6OZ, AH6NF, I8QLS, W1NA, W6NV, K6NA, N6ND and N6TJ will be active as KH6YY during the ARRL DX SSB Contest (March 4-5th) as a Multi-Multi entry. QSL via K2PF.

NEW OFFICERS FOR 2006. Members of the South Florida DX Association (SFDXA) have elected the following people to serve in the 2006-2007 Board of Directors for their club:
President Steve Romagni, W4DTA Director Kappy Kapplan, WA4WTG
V.President Bruce Phegley, W4OV Director Mark Horowitz, K2AU
Treasure Bill Marx, W2CQ Director Don Search, W3AZD
Secretary Richard Gillingham, W1RG Director Norm Alexander, W4QN

P4, ARUBA (Contest Update). John, W2GD, will be active as P40W between February 16th and March 8th. Activity will be on the WARC bands and 160 meters. Also, look for him in the ARRL DX CW Contest (February 18-19th) as Single-Op/All-Band entry and the CQ WW 160 SSB Contest (February 25-26th) Single-Op/High-Power entry. QSL via N2MM.

PIRATE ALERT. Art, ZL2HE (YJ0HE), informs OPDX that a pirate station has been using the YJ8UU callsign for the last 2 years. Stuart/YJ8UU and Art dismantled the station and antennas in September 2002. There are still plenty of QSL cards available from these two stations via ZL2HE. 2 USDs or one IRC will bring a quick response. View QRZ.com for the new ZL2HE address.

PY0S, ST. PETER AND ST PAUL ROCKS. Joca, PY0S/PS7JN, who will be or is about to go QRT from the scientific Brasilian base on St. Peter and St. Paul Rocks, has posted some photos of his previous expeditions to the Rocks on the following Web site: http://www.geocities.com/ps7jn/
PLEASE NOTE: The QSL information on that site looks to now be obsolete. Joca has posted in some detail on QRZ.com how to go about QSLing the current PY0S/PS7JN operation.

QSL INFO AND NEWS.....
QSL BUREAU ACTIVITY ON A DECLINE??? (Story continues!) Nenad, VE3EXY, informs OPDX that the VE QSL Bureau has also experienced a decline over the last 6 years. He states, "... a decline of 60 kg in the year 2005, or almost 300 kg less than in its best days (2001). The rule of thumb is that 1 kg = 333 QSL cards (e.g. 500 kg = 165000 cards). This trend is mostly driven by solar activity, but also by increasing postal costs, aging DX population, and electronic QSLing alternatives."
PLEASE NOTE: It would be interesting to hear from other area QSL Bureaus to see if they are experiencing the same decline. QSL Bureau Managers are welcome to send a small report to OPDX.

3Y0X, CE0Z AND XR9A QSL INFO. QSL Manager Bob, N2OO, reports that QSLs for XR9A/8, XR9A/MM and XR9A can be sent in the same envelope via N2OO. He asks that QSLs for CE0Z sent via N2OO be sent in a separate envelope. For more detailed info, go to: http://www.qsl.net/n2oo/history/qsl-n2oo.htm
Bob also asks that QSLs for 3Y0X be sent in a separate envelope via N2OO.
3Y0X QSL info: http://www.peterone.com/qsl.htm
Sending cards for multiple calls in one envelope will SERIOUSLY delay your QSL. Please send separately if at all possible!

QSL Manager Emir, 9A6AA, informs OPDX that the logs for 9A150NT (all 9A counties) are available at: http://www.hamradio.hr/9a150nt
Logs will be updated from time to time during 2006. More information about the special event station, 9A150NT, and the "Nikola Tesla Award" is available at: http://www.inet.hr/9a6aa/9a150nt.htm

NEW QSL MANAGER. Phil, N1KI, informs OPDX that he is now the QSL Manager for the T40C contest station. The station is currently manned by Winston/CO2WF and Willy/CO2UG. Look for T40C to be active in the important CW Contest such as CQ WW DX, CQ WW WPX, ARRL International and possible ARRL 10m International Contest.

NOT THE QSL MANAGER. Raul, DK3KC, who is the QSL Manager for their local section of the DARC, reports that DL5NAM is "NOT" the QSL Manager for ST2M and ST2BSS. In the past he has received a lot of QSL cards for DL5NAM (for ST2M and ST2BSS). All of the QSL cards are being returned to the sender via the bureau.

TOP 5 QSL MANAGER SURVEY HAS ENDED. John, K1XN, announced this past week that the "2005 TOP 5 QSL Manager Survey" has ended. John states, "The survey this year was lacking in interest by the DX community as a whole. Less than 100 responses were received from USA/CANADA. Less than a thousand responses in total were received. Nothing like the response from years past. Maybe this indicates that everyone is getting their contacts confirmed by LoTW or eQsl!! It distrubs me that DXers will not take a few minutes to respond to a survey to honor a group of guys/gals that give of so much time and money so the rest of us can enjoy receiving awards and other benefits of DXing. I guess times are changing more rapidily than I thought. The Top 5 survey WILL NOT be conducted for 2006. Maybe this will give DXers time to work some stations and have the benefit of using the best QSL service in the world 'QSL Managers'." Here is the complete list of the nominees for the Top 5 awards for 2005:
CE6TBN EA5KB IZ8CCW KU9C N7RO VE3XN WV7Y
DJ2MX EA7FTR IZ8CGS LU4DXU ON5NT VK9NS YB9BU
DJ2YE F6AJA IZ8EDJ M5AAV PA3GIO W2GHK
DJ3HJ G3AB IZ8FWN N1WON PA4GIO W3HNK
DJ9ZB G3SWH JE1LET N2OO RU6FZ W5UE
DK7YY G3SXW K1BV N3SL RW6HS W7EJ
DL4XS G3TXF K2PF N4AA RZ3EC WA3HUP
DL7AFS HB9BOU K3PD N4JR SM1TDE WA4JTK
DL7CM I2MQP K4TSJ N4XP UA3DX WA4WTG
DL7DF IT9DAA K8LEE N5FTR UA4WHX WB3DNA
EA4URE IT9YRE KB6NAN N6RT VE3HO WD9EWK

The Top 5 QSL Managers that received the most nominations will be selected and will be announced very soon. An award plaque or plate for a plaques will be awarded via mail to the winners. John thanks all of you that responded with your choices of the best of the best QSL Manager world wide. He also thanks all QSL Managers for helping the rest of us enjoy our hobby of DXing. He certainly hopes that many rewards come to you for giving of your time and money to make the rest of us happy..... "QSL MANAGERS ARE #1" de John K1XN

SF7, SWEDEN (Attention Prefix Hunters!). Sten, SM7WT, will be active (using a new prefix) as SF7WT, starting February 15th, to celebrate his 50 years as a ham. QSL via SM7WT. Sten states, "All prefixes from SA0 to SM7 can be expected to be used in the future."

SV3, GREECE. Nick, SV1VS, will be active as SV1VS/SV3 from KM-16 and KM-06 (EU-158 - Peloponnisos [Messinia] Region Group), August 20th through September 29th. Activity will be on 80-6 meters CW/SSB/RTTY/FM, and also 2m and 70cm all modes. QSL via SV1VS.

SX5, DODECANESE. Operators SV5AZP, SV5DDP, SV5DKL, SV5FRB and SV5FRD will be active as SX5P in the CQ WW WPX SSB Contest (March 25-26th) as a Multi-2 entry. QSL via: HATJIGAVRIIL DIONISIOS, P.O.BOX 437 GR 85100, RHODES ISLAND, GREECE .

T7, SAN MARINO. John, T77CD, will be active during the CQWW RTTY WPX Contest (February 11-12th). QSL direct only via I0MWI.

V25, ANTIGUA. Operators Bob/W4OWY and Mark/W9OP will be active as V25WY and V25OP, respectively, between March 13-19th. Activity will be on 160-6 meters CW/SSB/RTTY. They will focus on the low bands. QSL via their home callsigns, by the bureau or direct.

VU4, ANDAMAN ISLANDS. David, K3LP, has announced that he will be active from April 18-20th, as VU4/K3LP or another assigned callsign to be issued prior to arrival. Activity will be on 160-10 meters and the 10 MHz band. David plans to arrive on April 14-15th, and depart May 3rd. If the operational time is extended by the Government of India beyond April 20th, look for David to be on the air until his departure date. QSL via W3ADC. Also, watch the following Web page for updates at:
http://www.K3LP.com

YI, IRAQ (Remote Station/Clarification). Brad, K6WR, informs OPDX the W7DXX InterNet Remote Base Group now has an InterNet Remote Base system operating in Baghdad, Iraq, under the callsign YI9DXX. The system is available when there is AC power from the mains, but that is usually only a few hours per day, and the hours are not necessarily consistent from day to day. The system is usually active on 75 meters between 2100-2300z and on 20 meters between 1300-1600z. For more details on the operation, please visit: http://www.w7dxx.com

ZD8, ASCENSION ISLAND. Operators Bill/W4WX and Jan/K4QD will be active as ZD8WX and ZD8QD, respectively, on February 20th. They will remain on the island until March 2nd. Bill is taking a new 160m vertical (MA160V) provided by Cushcraft. They will also have antennas for 80-10 meters. Look for them on CW, PSK-31, RTTY and SSB. QSL ZD8WX direct to W4WX and ZD8QD via the Bureau or direct to K4QD. Read all about the island at:
http://www.ascension-island.gov.ac/
Also, visit Bill's Web page at: http://www.geocities.com/w4wx1

ZD9, TRISTAN DA CUNHA. Operator Simon, IZ7ATN, will be active as ZD9ADT now through February 12th. QSL via IZ0CKJ. No further information was given.

High line noise here but worked him fairly easily on 20 meters.

Congrats!

Likewise here (except no line noise!) on 17 CW.

Much to my surprise, the lids weren't out either. A brief burst of someone asking three times whether the 3Y transmit frequency was in use (and being answered "YES!!!" each time by half the planet) but that was about it. Almost nobody calling out of turn. Pretty amazing.
Difference between this and the pile on the 6O last week? No idea.
Just because it was 17m? Doesn't seem likely but you never know...

Needed for alltime new one here. Will try to catch them for additional band-countries (and hopefully on RTTY at some point) but won't be beating my head against the wall to do it.

Signal seems MUCH, MUCH, MUCH better than the last Peter I expedition.

Are you sure this wasn't a lid ? I didn't think they were going to get set up for about another 3 days.

On 17 they're peaking the right direction.

http://www.peterone.com/updates.htm says they're on the island and expected to be on the air as of 0400 UTC today. (i.e. last night USA time) There's no further news but I'm sure updating the website is pretty low on their priority list right now<grin>!

On a very vaguely related subject...

I note in the last hour, three different 3Y calls have been spotted on DX Summit... Either someone out there isn't paying attention, or there are in fact a couple of "Slims" out there. To be honest I suspect the former...

I was having a tough time hearing him through the noise but things
seemed to be rather controlled on 20 also. The op seemed to take a
break (maybe he announced it but I didn't hear it) for a few minutes
and the calling stopped.

I waited and when he (or another op) returned, I got him on about the
fourth or fifth call. The noise had also dropped a bit which helped.

Same here. Would like him on 80 mainly cuz I need some more countries
on 80, but the prop forecasts say it ain't going to happen.

Couldn't say, I wasn't on then, nor for any of the Heard expeditions
:(. May never get that one.

Spent a bit of time on them on 30 and 40 last night without success. They seemed to be having some trouble pulling people out of the mess on 30 - it could be as much as 2 minutes between QSOs. (I suppose it could be they were distracted by non-radio support activities at this point in the expedition!)

On 40, unfortunately the lids were out in full force.

Ironically, the ones intentionally trying to interfere with the 3Y operation were essentially ineffective. It was never difficult to know what the 3Y was sending.

It was the lids who *didn't* have malicious intent who were causing the most grief - the continuous callers who made it nearly impossible to find the station the 3Y was working.

I did work FO/DL1AWI on 80. If they aren't in French Polynesia (haven't looked 'em up yet) then they're a new one on that band. He'd been working on 3506.5; he vanished, then popped back up calling CQ on 3508 - I worked him on the first call out of the CQ. Sometimes you luck out<grin>!

> Couldn't say, I wasn't on then, nor for any of the Heard expeditions
> :(. May never get that one.

Ouch.

I have worked Heard twice (sorry<g>) but there's never been much signal there.

But the most interesting thing about DX in the new millenium is how dynamic the Most Wanted lists have become. Who'd have thought: KP1 & KP5 becoming nearly impossible, while you can work ZA and BY during any contest?

It was sad to note that the Europeans have become as whiney and outrageous an the North Americans. They may have even surpassed us with their comments on the DX spots. The Russians were particularly impatient.

Later in the evening the signals on 30 and 40 mts became quite good. The operation on 30 meters went well, from this location. There were a few UP Cops and the usual calls on frequency, but much less than I expected.

Fourty meters was another story. Every lid and want-to-be came to the show. It was interesting to note, though, that the signal got really good about 0500 UTC, and much of the QRMing stopped. This leads me to believe that most of the lids had to go to work the next day, or passed out.

The heavy toned QRM on 40 meters last night is suspected to be from some type of military operation in eastern Europe. I plotted all the azimuths given on the spots last night, and it looks like this QRM was coming from Nothern Russia. When it stopped around 0500 UTC, the 3YO was as clear as a bell here.

The only other thing that I noted was that when the 3Y0 went to EU, very few NA stations quit calling.

Win w0lz

I worked them on 15m SSB yesterday afternoon and the QSO does not show in the on-line log. Wonder if I worked a slim?

Does anyone know their departure date?

The QRM on 40 CW was significant. A continuous carrier exactly on frequency
that was not too strong, but fatiguing. A very strong carrier that would
pop on at random. The latter caused me not to be sure of a contact at about
0200. I admit coming back two or three hours latter for a certain contact -
well, I never did hear the 3Y's call sign ...

I can not make sense out of the calling when 3Y was working. It could
be that many who do not work CW or do not have break-in called for a few
minutes and then listened to see if 3Y was waiting for them. Sure filled up
the band.

I tried for a few minutes on 40 last night but because of the continuous callers I couldn't figure out where he was listening - and with the pileup at least 20KHz wide I sure didn't think blind calling was worthwhile. (OTOH, it's pretty cold here this week & I could have used the added heat from the amp<grin>!) (yikes, you think maybe *THAT'S* why people who can't copy the 3Y are calling him??<g>)

The intentional QRM was certainly a lot worse last night than it was previously. I shudder to think what it sounds like on SSB.

The online log search is working this morning -- hopefully that means the weather lifted & allowed the delivery of the rest of the supplies. I suppose those on the island would consider the arrival of the rest of their food to be the most important part of that news, but I suppose the rest of us would consider the iminent arrival of the rest of their simultaneous stations to be more important<grin>!

I've found in the past... that a major DXpedition is a good time to find *other* good DX -- while all the big guns are busy with the 3Y, some other stuff like FO/m goes begging...

Dear Doug: Interesting observations.

The intentional interference has been frequent and often effective - if that is the right word. On various of their frequencies, the use of a continuous carrier that is within 2 Hz of 3Y0X's frequency is heard. It appears not to be from NA or SA. It would be interesting, though little more, to hear a psychologist's analysis of what causes persons deliberately to cause interference.

Miraculously, I heard 3Y0X on 8o meters CW last night and appear to have worked them. I have gone over the propagation predictions again that suggest the unlikelihood of such a contact. I will wait for the geophysical parameters to be posed and look again. However, my guess is it was a combination of about 100 Hz effective BW, exceptionally low noise at both ends, a vertical reflecting off of salt water at their end, a tall antenna at this end, and (most important of all) the use of CW. I also heard them very weakly on 24900 about Noon.

The place with the worst propagation path from here is VU4.

Guys at Peter I have shown how to do it. Only criticism I have is that they could profit from providing us with some idea of how long they will work only (fill in the blank). To say EU for one hour and then Region 2 for an hour and then Region 3 for half an hour - or some such - would benefit many.

281. Prefix from longitude/latitude ?

Newsgroup: rec.radio.amateur.dx
Date: 2006-02-11 22:04:45 UTC
From: Thierry
Message-ID: <43ee5f7d$1@news.vo.lu>

Hi,

Could you help me ?
I would like to find the radio prefix for russian stations (but other are welcome) from the longitude/latitude or maybe QTH locator

I try to know what is the prefix of a russian station located in District of
Evenkia at 60°53'09" N, 101°53'40" E (autonomous Okrug Evenkiysky, located
100 km north of Vanavara, near Tunguska, Eastern Siberia) ?
I think it is UA0 but I would like to find a tool to calculate it.

Any link on the internet or online java applet is welcome

Thanks

I landed another QSO on 15 CW this afternoon. Intentional QRM was
nearly non-existant and general behavior good but not perfect.

I've learned not to put too horribly much credence in propagation
predictions on polar paths. Reality seems to have a way of trumping
theory<grin>.

I also heard them weakly on 24900 about the same time - not strong
enough to work. It almost appeared they had better propagation to
California than they did to here. They were fair on 15 SSB at the same
time (and the pileup was surprisingly well-behaved) but they announced
an operator change before I could work them & the new op never showed
up. (unless he was the one who took them to CW!)

> The place with the worst propagation path from here is VU4.

Agreed. (not sure where in 8-land you are but I'm probably not much
more than 1000km from your QTH) When the VU4 was on a bit over a year
ago, I heard them an entire once, and again not strong enough to work.
I hear there's going to be an Indian national amateur radio convention
on VU4 later this year & operations will be permitted. Hopefully
propagation will cooperate!

I might guess they figure that dynamically based on propagation & other
duties. But that's just a guess.

Any chance you guys that have worked them or even heard them could put it on here so the rest of the folks could stand a chance.

Seems every time I get on where there supposed to be the signals are poor to say the least.

I am equiped with a TA-33SR on 20-10 with 500 W amp.

Can do 40 plus 30 and WARC with my Delta loop for 40 with L/L feed.

160 with a "U".

You just about have to work a weak signal to work him. They are
running veticals on 30 and 40, wire on 80, and steppers on 10, 15, and
20. last night (Saturday) the pile was as wide as the band, for the
most part. But he was about 559 on 30, 40, and 80 cw for about 5
house each. With that many people calling him, it is pot luck anyway.

I managed to work him on 30 Mtrs at 0639 last night. That seemed to
be the best band because there was fewe lids and less QRM on his
frequency. Bu,t I really need him on 40 or 80 for five band.

I will be there again tonight.

Win

Yeah, I was contesting last night myself & saw altogether too much evidence of folks CQing without listening first. I mean, they weren't listening *at all* - you'd work two S9+ QSOs on a frequency, and as the second QSO was wrapping up, there'd be a sudden S9+ "CQ NA".

If it makes you feel any better, there were folks calling the 3Y without listening on their transmit frequency, and stomping on the contesters, too...

(and while it's scant consolation, note that the ops who CQ w/o listening are NOT the ones who end up in the Top 10 box when it's all over...)

They've been plenty loud on 30m (I forget where - 10103?) and 40m (7023)
fairly often. Just keep a watch on those frequencies. Unfortunately
the pileup behavior has also been worst on those frequencies.

They were a lot weaker (but still well within the capability of your
station) on 15 and 17m, where the piles were a lot better-behaved.
21023 may be worth staking out.

I heard them here on 12 meters but nowhere near well enough to work.

It's no different than when the contesters take over the bands, Walt.
And, it doesn't happen nearly as often. The 3y0 is one of the bigger
fish in DX circles. It's not every day that 2000,000 hams are on the
air.

I should have said 200,000, not 2,000,000 hams. Granted, 40 metes was
slow. Thirty Mtrs was better with about 3 QSOs per minute. I have
not monitored the SSB portions yet, but I can imagine. They will, in
all probablilty, still break all records for contacts, though.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 5th/February, through Sunday, 12th/February there were 216 countries active. Countries available: 3A, 3B8, 3B9, 3V, 3W, 3X, 3Y/p, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J6, J8, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T32, T7, T9, TA, TF, TG, TI, TK, TR, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2V, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XT, XU, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3W, VIETNAM. Stan, OK1JR (ex-5N0MSV, D2FGC, YB0AJR, ZA/OK1JR......etc.), as been in Vietnam for 4 months and has finally received the callsign 3W9JR. He informs OPDX that the licence is limited, and he can only operate on 14, 18, 21 and 24 MHz CW/SSB only. The licence is for 1 year, and he expects to stay in Hanoi approx. 2 years. Stan hopes he will get permmision to operate on the low bands, 6m and the digi modes soon. He can only operate

during his spare time. So, look for him during the weekdays after his working hours around 1000-1600z. However, he is planning more activities during weekends and contests. His equipment is an FT-1000MP MKV Field w/100w into a 12 element LPD 10-30MHz (LW, dipoles later). QSL via OK1JN ONLY (It's his dad and the address is on QRZ.com). A Web page will be available soon; more details are forthcoming.

3Y0X, PETER I ISLAND NEWS. The 3Y0X team is now active. The ship reached the island early February 6th around 0135z. The first helicopter load landed on Peter I Island at 1830z on February 7th. All but three members of the Team went ashore; the last helicopter trip for the day was at 0230z. Only 80% of the gear was transferred that day, and the remaining three Team members stayed on the ship. On February 11th, around 0230z, the weather cooperated and they were (finally) able to get the other three Team members ashore along with all of the remaining supplies and gear. By the time you read this, the team plan (as this was being written) is to have 8 stations active on Monday. According to the 3Y0X Web page, the Team will always be transmitting on/near the indicated frequency below and listening up the band (spread to be announced by the operator). Please do NOT call on their transmitting frequency!

BAND	SSB	CW	Digital
10	28475	28023	28092 (Listening up!)
12	24987	24893	24928 (Listening down only!)
15	21295	21023	21102 (Listening down!)
17	18145	18073	18108 (listening down only!)
20	14190	14023	14084 (Listening up!)
30	N/A	10103	10135 (Listening up!)
40	7093	7023	
80	3750	3523	
160	1842.5	1822.5	

Online logs are now available on: http://www.peterone.com/p1log.html Don, N1DG, Chief 3Y0X Pilot Station, states, "Please be reminded that the online logs are not official. Some 20 meters QSOs may have wrong mode, and a few 17 meters QSOs may be missing as well." REMEMBER: For up to the minute news on Peter I, including videos from the Island, the best source is the Peter I Web site. There will be news posted on the Web site on a daily basis. The Web site is: http://www.peterone.com

7Q, MALAWI. QSL Manager Allan, G0IAS, informed OPDX that Harry, 7Q7HB, is back in Malawi (he set off on Saturday morning, February 4th, for the 30 hour journey) and will be in 7Q-land for not less than 12 weeks. This time he has taken with him software to be active on the Digital modes. He was heard this past weekend on 15 meters SSB around 21325 kHz after 1420z. As usual, the QSL route is via G0IAS DIRECT only. Allan is good in any callbook, or on QRZ.com. If anyone has a question, they can E-mail Allan, for scheds etc.. (he cannot guarantee anything, but Harry will try...) at: allan.g0ias@btinternet.com
PLEASE NOTE: Allan states, "Also the clock is winding down for outstanding QSL cards for ZD6RM and 7Q7RM. I will close the logs on the anniversary of

Rons death in September. I have ALL his hand written logs covering more than 50 years of operating from NYASALAND (ZD6) / MALAWI, and the log of GM3EAK from 1947 if there is anybody out there that still needs one of those cards....! This should be of special interest to the 50 MHz Gang. Most of the avid Dxers on that band will have worked Ron for a first or ONLY 7Q on 6 meters. Regards and best wishes, Allan."

ATTENTION PREFIX HUNTERS! There is a new E-mail reflector up for those in the DX community who like to chase prefixes and/or the CQ WPX Award. You can subscribe at: http://groups.yahoo.com/group/CQWPX/

C6, BAHAMAS (Topband/IOTA Op). Bill, NE1B, will once again be operating as C6ANM from the Bahamas for the CQWW 160 SSB Contest (February 24-26th). He states, "We should have a good signal from our salt water Quarter Wave Vertical a few feet from the beach." Bill will be on the air starting February 23rd through March 6th. This will include IOTA activity from Chubb Cay, Berry Island Group (NA-054) on March 1st and the ARRL DX SSB Contest on New Providence (NA-001), March 3-5th.

C9, MOZAMBIQUE (Ops Needed!). Frosty, K5LBU, reports that he has lost 3 of his operators who were going with him to Mozambique in June for the IARU Contest (See OPDX.738). If any of you would like to join him, send him an E-mail or check out his Web page at: http://www.tdxs.net/C9.html

DAYTON HAMVENTION NEWS (SWODXA Dinner). The SouthWest Ohio DX Association (SWODXA) is pleased to sponsor the 21st annual DX Dinner to be held in conjunction with the 2006 Dayton HamVention ®. The dinner will be Friday evening, 19th May, at the Crowne Plaza Hotel, located in Dayton city center. This is the same venue as in years past. They expect to have another interesting program at the dinner and expect it to be a bit different than those in recent years. In addition, there will be some nice attendance prizes - last year the main prize was an Icom IC-756 Pro III! Tickets are 34.00 USD per meal, payable in U.S. funds to SWODXA. (Sorry, they do not process PayPal or Credit Card payments.) You may order from Jay Slough, K4ZLE, at his CBA. SASE would be appreciated. They attempt to honor group seating requests when tickets are ordered together. In an attempt to provide a better view of the speaker, they are changing the seating this year. There are ten seats per table and space is limited. Come join them for an evening of fun and fellowship where some of the best DXers gather during HamVention ®. Further information may be obtained from Jay at: k4zle <at> arrl <dot> net.
His CBA is 8183 Woodward Dr., West Chester, OH 45069

DXCC (ARRL) NEWS.....
*Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operation is approved for DXCC credit:
K7C - Kure Island; Operation from September 25th-October 5th (2005)

*2005 DeSoto Cup Winners! Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the DXCC is pleased to announce the winners of the 2005 DeSoto Cup competition. Top honors go to Bob Eshleman, W4DR, who for 6 straight year has won the DeSoto Cup Gold Medal. In second and

third place, winning the Silver and Bronze Medals are Ken Bolin, W1NG, and Fausto Minardi, I4EAT. The remainder of the Top Ten competitors are listed below. Congratulations to all!
1 W4DR Bob Eshleman 3095 6 K5UR Rick Roderick 3066
2 W1NG Kenneth Bolin 3082 7 W9ZR Randy Schaaf 3053
3 I4EAT Fausto Minardi 3077 8 DJ6RX Klaus Heintzenberg 3042
4 SP5EW Ryszard Tymkiewicz 3072 9 K8MFO Donald Karvonen 3041
5 OZ1LO Leif Ottosen 3070 10 W1JR Joseph Reisert Jr. 3041
This list details the Challenge Top Ten as of September 30, 2005. The current DXCC Challenge standings can be found at:
http://www.arrl.org/awards/dxcc
Beginning in 2006 the DeSoto Cup winners will be based on the Challenge standings at the end of the calendar year.

*NEW DXCC FAX NUMBER. The DXCC desk now has a direct Fax machine for all DXCC, Awards Branch and Contest Branch issues. The number is (860) 594-0346. The old number (860) 594-0259 is still active, but it is not in the immediate DXCC area. PLEASE NOTE: This number generally pertains to items such as documentation, plaque orders and special requests as requested by the DXCC Manager. This does not include field checked applications. Field checked applications still must be sent to DXCC by the traditional means through the postal system or other select methods.

*Wayne Mills, N7NG/1, Manager Membership Services Department, sent out the following press release:
CAC/DXAC Study Assignments
ARRL advisory committees to consider contesting, DXCC changes: The ARRL Programs and Services Committee (PSC) has asked its Contest Advisory Committee (CAC) to consider whether the current method of scoring ARRL Affiliated Club competition is adequate or whether is should be revised to better "reward a combination of activity, effort and achievement." The PSC also wants the CAC to determine whether a return to the policy of assessing a three QSO per error penalty in electronic logs--as currently assessed for hard-copy logs--is in the best interest of the ARRL contesting program. Both CAC assignments followed presentations to the PSC on both topics by ARRL Southwestern Division Director Dick Norton, N6AA. The PSC also has asked the DX Advisory Committee (DXAC) to study the impact of amending the DXCC "political entities" rule. The change under consideration would revise Section II, "DXCC List Criteria," under "1. Political Entities," to add a Paragraph c) reading, "The Entity contains a permanent population, is administered by a local government and is located at least 800 km from its parent." The CAC will seek public input in completing work on its tasks, and a progress report is due June 19. The PSC has asked the DXAC to report back by March 15.

FM/TO3, MARTINIQUE. Roberto, IV3IYH (NQ5W), will be active as TO3W in the CQWW WPX SSB Contest (March 25-26th). Look for activity from Roberto on the WARC Bands and RTTY, before and after the contest either as FM/IV3IYH or FM/NQ5W. QSL via IK2ILH (100% via bureau or direct).

FS & PJ7, ST. MARTIN AND ST MAARTEN ISLANDS (Update/Reminder). Operators David/K3LP and Clint/W3ARS will arrive on St. Martin on February 15th and will depart on February 22nd. Both will use the following callsigns:
FS/K3LP St. Martin, PJ7/K3LP St. Maarten
FS/W3ARS St. Martin, PJ7/W3ARS St. Maarten
Look for David to be active in the ARRL DX CW Contest (February 18-19th) as FS/K3LP and as a Single-Op/All-Band/Low-Power entry. Look for Clint to be active on 6 meters, the satellites and the WARC bands, and also possibly PJ7/W3ARS during ARRL DX CW Contest. QSL via the operators' home callsign (QRZ.com). Visit David's Web page at: http://www.k3lp.com

HQ9, HONDURAS. Operators Heikki/OH3JF and Henri/OH3JR will be going here for an operation between February 23rd and March 17th. They have received their license and callsign HQ9F. They will be equipped with two HF rigs, two amplifiers, and antennas for 160-10 meters, including low band verticals, a "jungle beam" for 30/17m, and a "spider beam" for 20-10m including the WARC bands. They will be on CW, SSB and RTTY targeting Europe and Japan on the low bands. QSL via OH3MKH. Look for them on:
CW - 1827, 3507, 7007, 10107, 14007, 18077, 21007, 24897 and 28007
SSB - 1840, 3795, 7045, 14195, 18145, 21295 and 28495
RTTY - 14077, 18097 and 21077 kHz.

IOTA NEWS.....
AS-076. Look for operator JN4MBO/5 to be active from Yuge Island (JIIA AS-076-New), JA5 Ehime Prefecture, Shikoku Islands Group, February 16th. QSL via his home callsign, direct or by the bureau.

AS-076. Look for operator JA5BEX/5 to be active February 25th from Debajima Island (JIIA AS-076-New), JA5 Tokushima Prefecture, Shikoku Islands Group. QSL via his home callsign, direct or by the bureau.

AS-169. Operators Basappa/VU2NXM, Mickey/VU2IZO and Sarla/VU2SWS (YL) will operate with the special callsign AT0EI from Elephanta Island, off the coast of Mumbai, from now through February 14th. See QSL information for AT0EI on QRZ.com.

IS0, SARDINIA. Mauro, IN3QBR, will be active as IS0/K7QB between February 15-21st. His activity will include the ARRL DX CW Contest (February 18-19th) as Single-Op/Single-Band(?) entry. QSL via IN3QBR (via the bureau is preferred). Look for activity before the contest on the WARC and Low Bands. Mauro also mentions to OPDX to look for SSB activity from IS0/IN3SAU. QSL via his home callsign.

J3, GRENADA. Harry/AC8G and Will/VE3EBN will be active as J37K from March 1-6th and be active in the ARRL DX SSB Contest (March 4-5th). QSL to AC8G, Stateside direct with SASE. For others sending by the bureau, please clearly mark for QSLs to go to AC8G.

LX, LUXEMBURG. Heinrich, DL2OBF, will be active as LX/DL2OBF in the CQ WW WPX CW Contest (May 27-28th) as Single-Op/All-Band/Low-Power entry. QSL via DL2OBF (via the bureau).

MJ, JERSEY. Pete/K8PT and Craig/K3PLV will be taking what has become
their annual DXpedition to the Channel Islands and will be operating
as MJ/homecall from the Island of Jersey (EU-013) from March 8th-15th.
This year Tom/W8JWN and Jim/N1NK will accompany them allowing for two
stations to operate 24 hours per day with a third station as needed.
Operations will cover 160-6 meters (SSB, CW, RTTY & PSK) with an emphasis
on the low bands. QSL via their home callsign. Please refer to the
following Web page (which is presently under construction) for further
information at: http://users.adelphia.net/~crahill/

NP2, U.S. VIRGIN ISLANDS. Operators Frederick/K9VV, John/NP2B, Bruce/W4OV
and Julio/WD4R will be active a NP2B in the ARRL DX SSB Contest (March
4-5th) as a Multi-Single entry. QSL via NP2B.

OH0, ALAND ISLAND. Operators Juha/OH1JT, Jouko/OH1RX, Ari/OH5DX and possibly
others will be active as OH0Z during the ARRL DX SSB Contest (March 4-5th)
as a Multi-Single or Multi-2 entry. QSL via W0MM.

PJ7, ST. MAARTEN. Ron/ND5S and Sue/KF5LG, will be active as PJ7/homecall
from February 14-25th. Ron will work the ARRL CW DX Contest as Single-Op/
All-Band. Outside of the ARRL Contest they will work on CW/RTTY/SSB (this
order) on 160-10 meters. More details can be found on their Web site at:
http://www.qsl.net/nd5s/nd5s8.html
Over 30,000 contacts have been made in past years from this island. QSL
direct to ND5S, or the QSL Bureau.

PJ7, ST. MAARTEN. Bil/W8EB and his wife Dorothy/W8DVC, will be on the
Island of St. Maarten from February 21st through March 26th as PJ7/homecall.
They will be on the air 160 meters and up on CW/SSB/RTTY and PSK31. Bil
will operate in the ARRL DX SSB Contest as PJ7B or PJ7/W8EB, depending on
getting the contest callsign, as Low-Power/Single-Operator. All QSLs go
to the home callsign.

QSL INFO AND NEWS.................
RESULTS OF TOP 5 QSL MANAGERS! John, K1XN, from the GoList, has announced
the "Best of the Top 5 QSL Managers". John states, "These are the managers
you, the DX community, have indicated to be your favorite managers by a
wide margin for 2005. Just a note, there were very few people that sent
in nominations that did not list W3HNK. Joe was listed on more than 100
messages more than the next nominee. Joe also has been selected by you
each and every year that the survey has been active and has been the most
votes getter each year...." Here are the Best of the Top 5:
W3HNK, IZ8CCW, G3SWH, G3TXF and G3SXW

The 5H1C online logs are now available at: http://5h1c.free.fr/log_uk.php

The 6O0N online logs are now available at:
http://www.i2ysb.com/6o0n/log.htm
Request for bureau QSLs can be obtained via the following Web page at:
http://www.i2ysb.com/6o0n/log_qsl/qsllog.php

The G4WFQ/6W online log is now available at:
http://www.g4wfq.dsl.pipex.com/search.htm

NEED A QSL MANAGER? Scott, KA3QLF, is interested in volunteering to become a QSL Manager. Scott states, "Whether it is a contest station, a home call, a DXpedition, or an IOTA expedition..it matters not. I can be contacted through my information on QRZ.com." He told OPDX a while back, "I have no special requests or conditions, I just want to lend a QSLing hand to all." His E-mail address is: petty@teisprint.net

QSL TR0A (ONLY for the past week) via IZ8CLM, by the bureau or direct. Operator was Salvatore, IZ8CLM, from RADIO CLUB AGRA.

V3, BELIZE. Operators Carl/K3RV and Doug/W3NO will be here between March 21-28th. They plan to be active as V31RV in the CQ WW WPX SSB Contest (March 25-26th) as a Multi-Single entry. Outside the contest (before and after), they will use the callsign V31NO on all bands 160-10 meters on CW and SSB. QSL both callsigns via W3NO.

VQ9, CHAGOS (Top-bander Take Note!). Larry, VQ9LA (aka WD0HSP), on Diego Garcia has been quite active on 160 meters. Look for him on/or above 1814 kHz between 1130-1530z and 2200-0100z. Larry has just added another beverage antenna toward North America. He will be looking for NA stations he has not been able to hear before. Bill, W4ZV, suggests that "if you have VQ9, PLEASE do not add to the QRM. He normally listens up 1-2 kHz. EU please give NA guys a chance for this very long haul DX from here."

VU4, ANDAMAN ISLANDS. Babs/DL7AFS and Lot/DJ7ZG have announced that they have plans to go to the Andamans and preparations are on there way. They have requested licenses. Look for updates to be posted on their Web site at: http://www.qsl.net/dl7afs/

WP3, PUERTO RICO. Joachim, WP3F, will be active in the CQ WW 160 SSB Contest (February 25-26th) as Single-Op/Low-Power entry. QSL via OK1DOT.

WP3, PUERTO RICO. Alfredo, WP3C, will be active in the CQ WW WPX CW Contest May 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL via W3HNK. Visit his Web page at: http://www.wp3c.qth.com

YJ, VANUATU. Operators Markus/DJ7EO, Dietmar/DL3DXX, Tom/DL5LYM and Uwe/DL9NDS are planning a DXpedition to Vanuatu. They will leave Germany on February 22nd, 2006, and will arrive in Port Vila on February 24th. The team expects to possibly be on the air the same day. They'll receive their licenses and callsigns upon arrival. Their location will be the Worawia Holiday Haven in Port Vila. The team will have two complete stations, a Titanex V80E lowband vertical, a Spiderbeam, a Butternut HF9, a K9AY loop plus possibly other antennas depending on the transport capacities. Their activity will have an emphasis on the low bands 160/80/40 meters - mainly CW - plus RTTY, WARC and some SSB. An online log search will be available here if they have Internet access at the hotel. The team plans to QRT on March 11th and travel back on March 12th. They are looking for sponsors to cover at least some of the transportation costs. Please contact Dietmar if you like to help in the expenses via: DL3DXX@darc.de
A Web site was established by Bernd, DF3CB, who will stay in touch with the operators during their stay. Please visit: http://www.df3cb.com/yj/

'Course the contest activity also reflects the desires of the majority
of those who are on at the time...

Neither the contesters as a group, nor the DXers as a group, are guilty
of anything here. The guilt lies with those unable to behave decently
while participating in either pursuit.

(I would suggest that the wide spread of the QSX band would not be a
problem if the callers would actually *LISTEN* before picking a TX
frequency; indeed, a wider QSX band would *reduce* the chances someone
would feel the need to transmit near, or atop, an existing QSO.

It also increases the chances of a lower-powered station finding a hole
in the QSX band and actually being heard.)

FWIW, the count of different calls with which 3Y0X has been spotted on
DX Summit is now up to at least five, not counting 3Y0X...

Got 'em on 20CW about an hour ago.

Lucked out. Heard the op send not just "UP" but "UP 2" -- it so happens
my rig is set up such that if I hit SPLIT it automatically sets up a
2KHz split. Punched it once to clear the "wrong" split, again to get it
on +2, hit the paddles -- and worked 'em on the second call.

Sometimes you just get lucky<grin>!

Dear Doug: Something much like that happened to me. While trying to contact them on 15 CW (where they were just weak) I punched in the 24 MHz SSB frequency (where they were too weak to work in a pileup) only to hear an announcement (by the operator) of the frequency where the operator was going to listen. It would have been futile to have tried in a pile up. I gave him a 34 (or some such) and he replied that I was a "true" 59. Hard to explain.

I am located well out in the country in the Lower Peninsula of Michigan. (A
troll because I am below The Bridge.) The nearest large city is Flint.

I had the same experience with the last VU4 group (December 2004). I heard
them well enough to be almost certain of call signs about twice for a few
tens of seconds. I have a quiet location - well, most of the time, P-noise
can be a major problem - and one can take to the bank that they (VU4) were
weak.
I was invited to give a paper in April, but I am not in shape to do such
a thing in person. Several other members of my department are also radio
amateurs, but they too are not able to go. In this modern age, I will
present electronically. We all hope that those who attend with licenses and
antennas will be effective with the path our way right through the magnetic
pole. Have you heard of a group with a track-record that proposes to
attend?

Yep. My QTH is also usually quite quiet, so a signal has to be awfully
weak to be weaker than the noise<grin>!

306. 3Y0X Phantom QSO?

Newsgroup: rec.radio.amateur.dx
Date: 2006-02-13 21:50:40 UTC
From: Zibs <Zabarnick@gmail.com>
Message-ID: <1139867440.314841.310280@z14g2000cwz.googlegroups.com>
Source record: 3908

I've been trying to work 3Y0X for the past few days without apparent success. But interestingly, I searched the online log for my call and it was actually there for 20m cw! My question is then, can I count this as a real QSO? If so, how do I get a confirmed QSL card since I don't know the proper data and time of the QSO?

Thanks.

Dear Peter and Doug:

Thanks for the notes.

I expect a few more people will go to VU4. All it takes is a group that knows what it is doing and some propagation. With a group from Europe and (so I have heard) a group from NA, each area should get a shot at a contact. I hope that the duration of the licenses is greater than two or three days.

Dear Zibs (unknown call sign):

A contact of mine got listed under a different call area - too much
deliberate QRM on the frequency to get the right number to the operator.
Someone with a callsign like yours was copied incorrectly.

Greetings All,

You are invited to download and use the new version of GeoAlert-Extreme Wizard. The default download is known as QSL-ware. Which basically means freeware. <G>

The QSL-ware version has no time limit and automatically downloads and displays solar indices in a friendly - at a glance - manner.

www.taborsoft.com/gawiz/

Although many will be satisfied with the default version, advanced features are, of course, available when registered. Free 60-day trial also available.

Cheers,
Jim - KU5S

From: J Tabor <denews@taborsoft.com>
Message-ID: <11v4ld1hp5bubbf@corp.supernews.com>
Source record: 3918

Greetings,

You are invited to download and use the new version of WinCAP Wizard. The default download is known as QSL-ware. Which basically means freeware. <G>

This QSL-ware version provides unlimited point-to point and NCDXF beacon predictions, prefix search, numerous prediction views and more.

www.taborsoft.com

The registered version adds coverage analysis and user batch prediction modes. A 60-day trial key is available upon request.

If you use a competing tool, not to worry, they can surely add a few of the new features. <VBG>

Cheers,
KU5S

Source record: 3922

Last night was a good night.

Managed to land 'em on 80 & 40 CW, and then on 40 SSB for my first phone QSO with the island.

The pileups were a lot better-behaved in all three places. (40CW had been a madhouse most of the week) On 80 it was nearly perfect. Apparently most of the lids:

- were asleep
- were jamming somewhere else (30m?)
- finally managed to burn out their finals (we can only hope)
- were too busy participating in the Disease Discussion Net
- thought the station calling CQ on 3523 was K3YO & not worth messing with

I see there's some RTTY activity showing up - maybe???

(a few folks reported 'em on 10 meters late yesterday morning but not even a hint here.

ARRL.org reports the guy on the Space Station worked them - on 2 meters...)

There were some garbled calls in the log.

My QSOs through this morning show up ok,
10M SSB isn't there yet, just worked them.

Conditions are much better today to 3Y0 land. Just went to listen on 14.023
and there they were. Put in the second VFO and found who he was in QSO
with. Made exactly 1 call. He came right back. That's with 500w to Mosley
3 element.

Congrats!

I managed a RTTY QSO on 15 a few minutes after making that post; went
out for a bike ride, and when I got back caught 'em on 12m CW and SSB
and on 10m SSB. (they were spotted on 10 CW at the time as well, but
not even a hint here on CW.)

Same here. One call.

Forty was an entirely different can of worms. What an embarrassment.
A pack of untrained chimpanzees would have been better operators;
although I'm damning chimpanzees with faint praise.

Hi OM

I'm still searching the address or email (better) of an old manager of
VP8CFM in S. Orkney.
At the time of QSO he says "via GM4KLO", but never received anything from
him.
The QSO was in 1991.....and is the only contact made with S. Orkney.

Somebody can tell me if never received QSL fm VP8CFM or via GM4KLO?

Thanks

Paul IK1QHB

The embarassing thing about the operator on 40 is the fact that the team has
been made aware of the less than stellar performance on that band and
obviously decided not to do anything about it.

I thought the 40 Op did much better last night. His rate was up and
he stayed on frequency. And , realy, it's there show. We have no
right to tell them how to run it.

And we have no idea what the conditions are at his location. Many of
the artic ops tell me the QRN is extremely high on some bands. We
just don't know.

I finally did work him on 40 last night after three days of trying.

I wasn't commenting on the op at 3Y, I was talking about the idiots calling him. Most of the time there were so many fools calling on his TX freq that I couldn't tell what kind of op -he- was.

I think the DX should listen on their TX freq from time to time. If they hear things like last night they should just QSY up 50 or so and leave the idiots behind. The DXers who actually tune the band will find and work him in the clear, until of course, one of them makes the mistake of spotting him, then it's time to QSY again.

I agree, Wes. I wasn't commenting on your post as much a Peter's.
But, I know where Peter is coming from, too.

Actually, last night, I could not hear most of the NA stations. IT
made it hard to find who he was working, but nice, as I could not hear
the lids.

All in all, I think it has been a great operation. I have not been to
bed before 3:00 AM yet. My fist is sore from calling, and I enjoy
every minute of it.

Win, w0lz.

If you have a band opening to two major areas, split them up and work one area only, switch over to the other area in regular intervals. Remember: Most of the times one area will be not audible anymore at one point. Work that area first and cut the pile up in half.

Know your propagation.

Stay true to what you are announcing.

Try to catch full callsigns.

If you use a paddle, know how to use it.

Don't hop in your QSX; give those with a brain a chance.

Check your own TX-QRG. If you got heavy QRM there, just tune down/up a few Hz.

Give your callsign frequently.

Oh well...

The old rule is to consider incompetence prior to considering veniality. What we have heard is likely to be due to a lack of understanding and mentoring. Who would continue to call while 3X is responding? Who would dump their call more than once when a partial call is used by 3X? .. on and on.

A need exists to explain the ineffectiveness and inappropriateness of the strange things we heard. I do not have in mind an effective way to do the training. QST reaches too few of the problems. Dayton would only reach the convinced. Let us think how it might be done. The next DX group might not have such good natures as this group and we could suffer for it.

A contributing cause on CW might be too little use of break-in.

Please note that I am not talking about the 3X operators.

People have to be reached in their local clubs and by the people who give them their exams. In a perfect world, to get a license you'd have to make some number of QSOs under supervision of an already-licensed operator who would monitor your procedures. (maybe disclose the call of your "sponsor" in the FCC DB, so that if W9WI vouches for KM4XYZ and KM4XYZ turns out to be a lid, it reflects poorly on me as well...)

That's probably not practical.

Radio clubs in Oak Ridge and Milwaukee recently held local 2-meter contests. Maybe some kind of similar small-scale pileup training events could be held, maybe at larger hamfests?

It's important to teach operators what proper practice is, it's also important to ensure they know that just because they hear a practice on the air doesn't mean it's right!

> A contributing cause on CW might be too little use of break-in.

I really don't think the lack of break-in is the problem; it tells you when to *stop* transmitting, but if you shouldn't have *started* transmitting in the first place...

On a more or less related subject, I noted yet *another* "bust" of 3Y0X's call on DX Summit this morning. This time, he was promptly spotted again by someone else with the same busted call. For such a well-publicized DXPedition you'd think people could get their call right even without being able to copy the DX!

It would be interesting to send a few envelopes to the QSL Bureau with some of these "packet bust" calls & see how many cards one picks up<grin>!

Ohio/Penn DX Bulletin No. 748

The Ohio/Penn DX PacketCluster
DX Bulletin No. 748
BID: $OPDX.748
February 20, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, Texas DX Society, K1XN & GoList, NC1L, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, KK6EK, K8YSE, W8UVZ, DL1EK & The DX News Letter, EI2CA, F5CQ, F5NQL & UFT, G3SWH, HA0HW, I1HYW, I1JQJ/IK1ADH & 425 DX News, IZ8CCW, LZ1ZF, OK1RK, VA3RJ & ICPO and VK3EW for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/February, through Sunday, 19th/February there were 223 countries active. Countries available: 3A, 3B8, 3B9, 3V, 3W, 3X, 3Y/p, 4J, 4L, 4S, 4X, 5A, 5B, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J3, J6, J7, J8, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0T, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T32, T7, T9, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9L, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3Y0X NEWS..........
PETER I ISLAND DXPEDITION QRT. As your editor was putting the final touches on this week's bulletin, the 3Y0X DXpedition went QRT at 1813z on December 19th (Last contact was with K8LTG on 17m CW). According to their Web page the Peter I team reported at 1900z, February 18th:

"The weather cleared sufficiently to offload even more of the 'ready to go' gear -- and four Team Members! Gary/K9SG, Carlos/NP4IW, Wayne/KU4V and Robert/SP5XVY are all safely aboard the ship. The rest of us are working in consolidating loads for the helicopter and trying to elevate the QSO count even higher than the 81.9K Qs uploaded as of 1400utc today. Even though Gary/K9SG (our Team physician) is no longer on the island, we were able to persuade him to leave the defibrillator behind (just in case)!" QSL via N2OO. Remember, updates, pictures/videos and logs can be found on the 3Y0X Web page at: http://www.peterone.com/
ADDED NOTE: Just before going to print, your editor checked the Peter One Web page one more time and saw the following: "This ham radio log contains 86,522 QSOs from 8-Feb-2006 0550Z through 19-Feb-2006 1100Z."

3Y0X QSO Statistics Band/Mode Breakdown
Band SSB CW RTTY
160m 2 1312 0
80m 3358 2502 0
40m 5735 7117 0
30m 0 9053 1101
20m 13767 10373 1374
17m 7003 5949 689
15m 6339 3851 848
12m 1726 2034 0
10m 1602 782 1
6m 0 1 0
2m 0 1 0

Total 39532 42975 4013
(ed. GREAT JOB GUYS! Where are you going next?)

WHAT DXING IS ALL ABOUT? Congrats to John, W1BIH, a veteran DXer, for working the 3Y0X. "Why" you say does John get a special mention in the OPDX? John is 90 years old. He lives in a retirement community and sold his complete station last year when he moved. For John, Peter One Island is the last country John needs for DXCC, and he missed the last two Peter One Island DXpeditions. However, on Thursday, February 9th, Don, N1DG, picked up John and took him to his station. About thirty minutes later there was a big smile on John's face. You see, John has now worked his last country (335 current), and he can now get back on the top of the honor roll. "Oh", by the way, Peter I was his country number 390 (including deletes)! WOW!!!! Since then, John has worked 3Y&#65533;X from his retirement community station on 20M CW with 100w and a G5RV strung from his window 20' above the ground. See John's QSO with 3Y0X at: http://005d89a.netsolhost.com/videos/w1bih.htm

Congrats to the 3Y0X team for having a QSO with Commander Bill McArthur on the International Space Station, NA1SS, on February 13th. The 3Y0X QSO pushed McArthur's count of DXCC entities worked from space to 104. Read the story at: http://www.arrl.org/news/stories/2006/02/14/4/

6W, SENEGAL. Peter, HA3AUI, continues to be active as 6W/HA3AUI until March 31st. His main focus will be on 20/17 meters SSB, with some PSK and RTTY. However, he has also been heard on 15 meters. His operating does vary, but watch 20 meters after 1100z, 17 meters after 1600z and 15 meters after 1300z. QSL via his home callsign, direct or by the bureau.

9H, MALTA. Members of the Texas DX Society (TDXS) are pleased to announce their DXpedition to Malta (IOTA EU-023), March 1-8th. Team Malta members are: Cal/WF5W (9H3W), Steve/W9DX (9H3DX), Madison/W5MJ (9H3V), Don/N5DD (9H3RY), Bill/K5WAF (9H3WF), Mike/K5UO (9H3UO), Paul/W5PF (9H3PF) and Keith/NM5G (9H3KD). They will participate in the ARRL International DX Phone Contest, March 4-5th, as 9H3DX. During non-contest periods all 9H3 callsigns may be used, but primary activity will be 9H3DX on SSB, 9H3V on CW, 9H3RY on RTTY, and 9H3WF on PSK. They will be active on 80-10 meters and possibly 160m. QSL Manager is W5PF for all callsigns. Visit the TDXS Web site for more details and online log searches at: http://www.tdxs.org

C6, BAHAMAS. Peter, W2IRT, will be in Nassau operating as C6/W2IRT for the week of March 4-10th. He plans to be on 17/20 meters for the most part using 100w and a dipole. This is a spare-time holiday operation. QSL via his home callsign; direct, by the bureau and LoTW.

CQIR (Ireland Calling: Preliminary Announcement: Win a trip to Ireland!). In 2007, the Irish Radio Transmitters Society (IRTS) celebrates their 75th anniversary of its founding in 1932. As part of its jubilee celebrations the Society is organizing an International Radio Contest, "CQIR - Ireland Calling". For this contest, references to Ireland means the island of Ireland and its offshore islands - both EI and GI. CQIR is a once-off event with a difference - overseas entrants with 75 or more QSOs have the opportunity to win a trip to Ireland. CQIR is a 24-hour, single-operator HF CW/SSB contest on the weekend of 29/30 September 2007. As this is the fifth full weekend in the month, there is no clash with any established event. CQIR is a celebration of both the IRTS Jubilee and the "Irish" amateur-radio community worldwide. It's where the Irish, at home and abroad, work the World - and where those of Irish descent identify themselves by including their ancestral county in the exchange, for example: County Limerick, County Antrim etc. Full rules and county codes will appear on the IRTS Web page at: http://www.irts.ie
Also, free software will be provided to support CQIR.

CN2, MOROCCO. Brad, K7ZSD, will be active as CN2SD from March 20-28th. He will also be active in the CQ WW WPX SSB Contest (March 25-26th) as a Single-Op/Single-Band (20m) entry. QSL via K7ZSD.

DAYTON HAMVENTION NEWS. George/W8UVZ and George/K8GG cordially invite all 160 meter enthusiasts to the Topband dinner gathering during the 2006 HamVention in Dayton on Friday night. This annual event brings together 160 meter operators from around the world for food, drink and camaraderie. This year please note that the dinner location has changed due to the unexpected closing of Neil's Heritage House in Dayton. Here are the particulars:
Date: May 19, 2006
Time: Social Hour 6:15 PM (cash bar), Dinner 7:30 PM

QTH: The Barnsider Restaurant (Near Hara Arena and Hamvention)
5202 North Main Street (Highway 48 just north of Needmore)
Dayton, Ohio (937) 277-1332
Fare: Salad, rolls and butter, dinner entree, dessert and beverage.
Dinner entrees will include Grilled Salmon, Grilled Chicken
Breast, Grilled Pork Chop and Tenderloin Beef Tips. (It will
not be necessary to choose entree until arriving at restaurant).
Cost: 29 USD each, in advance, which includes complete dinner, taxes
and gratuities.

Reserve a seat and pay dinner cost to: George Taft W8UVZ, 271 Parkshore
Drive, Battle Creek, MI 49014 (E-mail w8uvz@voyager.net). Reserve now
and pay dinner charge by May 1st. Overseas visitors may pay at the door
but need to reserve by E-mail (or airmail) now. This restaurant has
limited space, so please make your reservations ASAP (have only 100 seats).

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that
the following are approved for DXCC credit:
R1MVC and R1MVW - Malyj Vysotskij Island (M-V Island)
Operation from 15-28th November (2005)

EI, IRELAND. Laci, HA0HW will fly to Ireland on February 24th and will
spend a week near Dublin. He informs OPDX that he will try to operate
with his "good-old travelling radio (FT-840) and well-tried fishing pole
verticals." QSL EI/HA0HW via the HA Bureau or via QRZ.com address.

FR/G, GLORIOSO ISLANDS. Didier, F5OGL, informs that the Glorioso expedition
(IOTA AF-011) previously planed from March 16th to April 7th is one more
time postponed but still not cancelled. A TV reporter team could join the
expedition. A new scheme is under work, and they will update their Web site
as soon as possible at: http://glorieuses2005.free.fr/

FY, FRENCH GUYANA (IOTA Op). Operators Steve/MW0ZZK and Florent/F4CYZ
will be on the air from the Island of Royale (SA-020) with the callsign
TO7IR between February 23-27th. Activity will be on 80-6 meters on CW/SSB
and the Digital modes. QSL via IZ8CCW (Antonio), direct or by the Bureau.

FY, FRENCH GUYANA. Operators Marc/F1HAR, Olivier/F5MZN, Laurent/F6FVY
and Herve/F5HRY will be active as FY5KE in the ARRL DX SSB Contest (March
4-5th) as a Multi-Single entry. QSL via the Bureau or direct to CBA.

IOTA NEWS.....
AS-046. (Update OPDX.746) XYL Aniko, HA5TAA, from Budapest, Hungary,
was rewarded a Far East trip by the company she works for and
is expected to activate Tioman Island for about seven days out
of her 14 day and 12 night trip between February 27th and March
12th. Look for 9M2/HA5TAA to be active on 20 meters SSB around
March 3rd. Aniko has been a radio amateur for about four years.
Her husband is also a radio amateur (5 years). His callsign
is HA5AZZ. QSL via the HA QSL Bureau or via the address on
QRZ.com.

JD1, OGASAWARA ISLANDS. Remember to look for operators Toru/JI5USJ and Makoto/JI5RPT to be active from the Island of Chichijima (AS-031) from now until February 28th. Activity will be on 160-10 meters signing JD1BLX (Toru) on SSB/RTTY/CW and JD1BLY (Makoto) on CW. Suggested frequencies are:
CW - 1821, 3511, 7011, 10114, 14040, 18098, 21040, 24920 and 28040
SSB - 3795, 7050/7227, 14255, 18128, 21260, 24960 and 28460 kHz.
QSLs via their home callsign, Bureau is OK. More information is available online at: http://www.aa.alpha-net.ne.jp/ji5rpt/jd1

QSL INFO AND NEWS.....
QSL STATUS FOR 5N0/OK1AUT, 5N0ZKD, 5N99ZKD AND 5N0W. David, OK1RK (5N0ZKD and 5N0W), informs OPDX that he has done the last bundle of QSLs for the 5N0/OK1AUT, 5N0ZKD, 5N99ZKD and 5N0W operations during his stay in Nigeria. He mentions that anyone needing a QSL for these activities should send them in because this is the last call for them. PLEASE NOTE: David can ONLY confirm QSOs for his 5N0W operation for contacts between 1999 and May 2000. Contacts/QSOs made later belong to Vasek, OK1DXE.
ALSO NOTE: David is not a member of OK QSL Bureau; therefore, send QSLs with a SAE to his postal address: David Klimosz, Paprskova 1339/10a, 14000 Praha 4, Czech Republic.

NEW ADDRESS. Charles Harpole, K4VUD, has announced that he has a "CHANGE OF ADDRESS - PERMANENT - EFFECTIVE FEB.23, 2006". The change will also effect the following callsigns: HS0ZCW, 9N7UD, 9N1UD, A52UD, XW1UD, KG4FPK, AC4TT, VU3CHE, V26V and K4VUD. His new address is:
Charles Harpole, 5900 Baywater Dr., #506, Plano, TX 75093. He also mentioned, "Soon, I will file an alternate address in Thailand where I will be living for the indefinite future."

K7C QSL STATUS. Bob, KK6EK, K7C Expedition Leader, released the following statement about the K7C QSLs this past week: "Thanks for asking about the K7C Kure QSL cards. The cards are going out as we speak. Tom, N4XP, has worked through about 8 of the 40 trays. It will take several more weeks to complete it. If you have not yet sent in your cards, I strongly suggest the following: Go to the K7C website and check your QSOs against the online log using DXA (www.cordell.org/DXA, click on the map and then log in with your callsign). If there is any discrepancy between your personal log and what shows on DXA, I suggest you write to me. While I cannot change the K7C log, I can give you some good advice for submitting your requests for QSL cards. If you logged onto DXA to watch the activity in real time, I would very much like to hear of your experience. Please go to the link www.cordell.org/DXA, and click on '2005 DXA SURVEY.' This will bring up a page with instructions and a small set of questions. If you will send your comments to me (KK6EK@cordell.org), I'll send you a nice certificate for being a "CHARTER DXA USER." Here is the QSL route:
K7C KURE DXPEDITION 2005, c/o K4TSJ, Box 1, Watkinsville, GA 30677
Thanks to all for helping make K7C a great experience!"

QSL T40C via N1KI. Activity was by Winston/CO2WF and Dercel/CO2UG from Ciudad Habana, Cuba, during the ARRL International DX CW Contest.

RK2, KALININGRAD. Members of the "UA2 Contest Club" will be active as RK2FWA during the CQ WW 160 SSB Contest (February 25-26th) as a Multi-Op

entry. QSL via DK4VW.

SPECIAL EVENT. Look for Australian special event stations to be active during the 18th Commonwealth Games in Melbourne, Australia, with some 4,500 athletes from 70 countries competing. To celebrate this event, two special event callsigns will be aired: AX3MCG and AX3GAMES. AX3MCG - (Melbourne Commonwealth Games) will be active daily between March 1-31st, by operators David/VK3EW and Peter/VK3QI; aiming to achieve at least DXCC.

AX3GAMES - A multi-operator roster will also activate this callsign generally active daily on all bands.

Special Commemorative QSLs for both callsigns will be available via the VK3 Bureau. AX3MCG and AX3GAMES are the only special event callsigns issued by Australian Communications and Media Authority to celebrate the Commonwealth Games. Individual VKs may also substitute the AX prefix during the games period.

SPECIAL EVENT. To commemorate 128th anniversary of the liberation of Bulgaria from Ottoman yoke by Russia, the Balkan Contest Club LZ1KZA (LZ5A) will operate with special event callsign LZ128LO from March 1-31st. Also, the special event callsign LZ128LO counts 10 points for "St. Teodosii Tyrnovski Award" (For details, visit: http://www.balkanclub.8m.com). QSL to LZ1KZA via the Bureau or direct to: P.O. Box 36, 4300 Karlovo, BULGARIA.

SV5, DODECANESE. Willi, DJ7RJ, will be active as SV5/DJ7RY from the Island of KOS (EU-001) between February 26th and March 18th. Most of the activity will be on the lower bands. QSL to his home callsign.

T68, AFGHANISTAN. Johnny, LA5IIA, is back in Kabul and is active again as T68G. He was heard this past week on 20 meters SSB and 17 meters CW. The length of his stay is not known. QSL via LA4YW.

TG, GUATEMALA. Operators Francisco/TG9ANF and Sergio/TG8AOV will be active as TG9ANF in the ARRL DX SSB Contest (March 4-5th). QSL via TG9ANF. Visit Francisco's Web page at: http://geocities.com/tg9anf

TG, GUATEMALA. Operators Mario/TG9ADQ, Sergio/TG9SM, Marcos/EA1APV, Julio/TG9ATG, Edgar/TG9AXF and Francisco/TG9ANF will be active as TG7M in the CQ WW WPX SSB Contest (March 25-26th). QSL via EA1APV. Activity will take place from the "Reserve of the Mayan Biosphere", which is located in the north part of Guatemala, in the frontier zone with Mexico and Belize. It is part of the Mayan Forest. Its biological wealth is characterized by a complex cosystem of forest, with great flora species and abundance of fauna.

V7, MARSHALL ISLAND. You have a few more days to work Ikou, JL1WQO, as V73WQ until February 22nd. Activity will be on 160-10 meters CW/SSB/RTTY. Most of his activity during the past weekend was on 20/17/15 meters SSB. QSL is OK via the Bureau or direct.

VP2V, BRITISH VIRGIN ISLANDS. Just a reminder! Look for Jim/G3RTE and
Phil/G3SWH to be active as VP2V/G6AY from Anegada Island (NA-023) between
February 23rd and March 1st. Operation will be primarily CW on 80-10 meters
but with some SSB and the possibility of some 160 meters CW operation.
They will have two 100 watt stations and hope to be on the air as much
as possible, propagation permitting. QSL via G3SWH with SAE and adequate
return postage, via E-mail for a bureau reply <phil@g3swh.demon.co.uk> or
via the RSGB bureau.

Hi all, posting this for a friend.

Lafayette HA-600A is a ham / shortwave radio fron the early 1970's.
This one is super clean and great working.
Take a look if you like.

K1MAN BULLETIN - B060215B -

K5LBJ (ARRL BIG PROJECT STATION) GOES "BIG TIME" WITH K1MAN

Dateline Belgrade Lakes, Maine, USA.

K1MAN came on 14.275 MHz. after KE9RY signed with OE8ANK at 8:30 EST on Wednesday, 15 February 2006.

OE8ANK and K5LBJ were calling CQ (they apparently could not hear each other), and K1MAN answered and made contact with both stations at the same time in hopes that a three way QSO could be established. Ray, OE8ANK, said that he was in Southern Austria, and Harry, a K5LBJ High School student, said that he was in Austin, Texas. K5LBJ (in "K1MAN shock?") suddenly "froze up cold" and totally dropped out of the QSO, not responding to several calls. K1MAN then finished up with OE8ANK and called K5LBJ back again and again. N6GJR, Carl, then called in from the Dallas area for a short QSO. K1MAN signed with him and then started the IARN daily talk show since the frequency was now totally clear. Five minutes into the K1MAN talk show, Harry, K5LBJ, called K1MAN on the telephone, not to join the talk show, but to respectfully "complain" about K1MAN "taking over" "his" frequency(1). But, being delighted to have kids(2) on "my" 14.275 MHz. frequency (hi), and in the true spirit of good amateur practice, I immediately stopped the talk show in progress and turned the frequency back over to K5LBJ who then called CQ, CQ, CQ, CQ, CQ, repeatedly.

K1MAN then checked in again and tried to get a signal report and info on K5LBJ and the "ARRL School Club Roundup" which they were working. But, the kids had no interest in such "rag chewing;" they just wanted contacts, Harry said. No problem. Harry did say that they would be on for an hour. No problem. At 9:08 EST, fifteen or so minutes later, Harry said K5LBJ was going QRT. Not an hour by any stretch, but these are just kids, right? No digital clocks in the ARRL premier Big Project ham shack???? ARRL petty hobby politics???? Perhaps the kids actually believe the prevailing ARRL "party line" that K1MAN is not a duly licensed amateur radio station????

I gather K5LBJ went QRT so the kids could attend classes and study such American fundamentals of citizenship such as the United States Constitution which guarantees equal justice for all, except for K1MAN, and due process of law for everyone, except for K1MAN, hi! Perhaps some "bible study: In the beginning there was ARRL, and the Lord saw

that the League was good in the Garden of Newington, etc.!"

I am truly flattered that the premier ARRL Big Project student station(3) would come to 14.275 MHz. right after the new K1MAN talk show was announced to the world. Actually, 14.275 MHz. is a very popular special event frequency, isn't it? They say that imitation is the sincerest form of flattery. If you can't bring Mohammed to the mountain, bring the mountain to Mohammed, hi! K5LBJ thus went big time with K1MAN on 14.275 MHz., in the major leagues of amateur radio.

73 and GL de K1MAN

(1) First the Boy Scouts and now the kids, right? I can see another $21,000 NAL from "Rot Riley" now, can't you? Hi!

(2) Honestly, when was the last time you worked someone under age 30 on 20 meters? In fifty years of amateur radio, I could count it on one hand with the exception of when I was 20 and talking to myself, hi!

(3) Check out K5LBJ on www.QRZ.com.

At the very moment your post was dated, I was in the pileup for them
on 17 meters. <g>

Made the QSO 15 minutes later. I was running 200W to a 160m dipole
through a tuner (the only antenna I have at the moment). I'm pleasantly
surprised that I got through at all...

The ARRL is now a political organization.
K1MAN is trying to become the new political organization.

If anyone wants to help further the cause of ARS, they should
join a local club or just make a donation to a local club or
the Foundation for Amateur Radio.

Your money is better spent close to home, rather then lining someone's pockets!

Ok lets cut the bully shit, First off K1MAN is LEGAL! until the FCC makes a FINAL ORDER on his his fined he can legally be on the air. The Fucking Asshole Radio Relay League and their little members are pushing this shit that he's operating illegally, which is not true. As for K5LBJ, they need to learn that they don't own any frequencies, and if the frequency is not being used then anyone can use it. This bull shit idea of well were sitting on the frequency, and although were not on it, were still using it, and that's what the vast majority of amateur operators are doing and this bullshit practice needs to stop.

I am not in Defense of K1MAN.

I have been licensed since 1967 and W1AW Has always Came right on FREQ
with Code practice/ Bulletins. With High power .. Never any
considerstion for Who was already using the FREQ. No one at W1Aw was
checking the FREQ Before Transmitting .

Why Doesn't The FCC take away the club license for W1AW ?

I sat Treat Every licensee The SAME !

Has W1Aw Cleaned their operating Practices ? (I have not turned on My
HF gear since 1997) So they may have Cleared up There OWN Transmissions

May be, but if they're not a lawyer, their opinion is worthless, like
yours, because you are NOT a lawyer.

>I messed around enough with the FCC enough to know
>both in Amateur radio and in regards to pirate radio.

May be, but a couple of passing experiences with an agency,
irrespective of field, is only good for telling stories. It doesn't
lend credence to your "legal" opinions, because you are NOT a lawyer.

>Untill a FINAL ORDER is issued he can legal use his station.

May be, but even if that is settled law, and it remains undemonstrated
in this thread that it is, your pronouncement doesn't make it so,
because you are NOT a lawyer.

>K3VR will tell you that and so will Keith Lamonica W7DXX who is a lawyer.

May be, but you can't, because you are NOT a lawyer.

And how nice of you to put words in their mouths. They should see a
lawyer, but it won't be you. Why? Because...

Dumbass, it don't take a lawyer to read the rules. I've been active both with the FCC and the House and Senate Subcommittee on Telecommunications in regards to FCC rules and regulations and FCC abuse of their on rules and regulation. The fact is the FCC MUST issue a FINAL ORDER before FCC can actually be shut down. The FCC tried to shut down some pirate radio stations down a few years ago, but the court throw out the FCC injunction because the FCC didn't issue a Final Order. Under the Administrative Procedure Act (APA) a government agency must have Administrative review of any rule or violation, in which those accused of violating the rule can raise challenges to the violation, including Constitutional ones. After the Administrative process is done the accused can appeal to the US Court of Appeal and the US Supreme Court. K1MAN was give a NAL, a NAL is not a final order, the Fucking FCC will tell you that, until a final order is issued and all his LEGAL avenues he can continue to operate his station. The FCC can go to the courts and have the courts stop him while the administrative procedure and legal process is going on, but 1. they haven't done it and 2. they have to show why it's in the public interest and what harm would be caused by him remaining an operator. I would suggest you read PART 0, Part 1 and Part 2 of the FCC rules and regulations, it don't take a fucking lawyer to read plain language rules.

the only thing I would add to the is pehaps you should have given the
full name of of NAL Notice of Apreareant Liabilty

noting the very nature It aprrears to be liability

OK, so I'm sending a QSL for FH/G3TXF -- and his published address has
six lines:

Nigel Cawthorne
Falcons
St. Georges Ave.
Weybridge
Surrey KT13 0BS
England

The software I use to print envelopes can only handle four.

So my question to our G readers is...

Is there a proper way to combine more than one line of information so I
can get this to fit in four?

All,

I've worked four separate VU's on 17 meters....VU2GTE, VU2PTT on SSB...VU3MCV, VU3VLH on CW...I've QSL'd these stations a number of ways...including direct...to no avail!....

What gives?...I have VU's on most every other band but 17....

I'm hoping someone over in VU land reads this and frees a card up from one of these stations!

It's homebrew & could take a surprising amount of time to calculate just what I need to feed to PostScript to get any additional lines to go where they need to!

The envelope printing routines in my (not-homebrew) word-processor software can't seem to figure out where the envelope actually is in the printer!

> Anyway, our mail service is not too worried about which line things
> appear on. And some years ago they announced that the county would no
> longer be necessary in addresses, so you can quite safely omit the
> word "Surrey".

Excellent, appreciated! (I suppose the county is implict in the postcode. Here in the States the Zip code could in theory replace the city and state, but even the additional four digits won't specify a particular address within that Zip. I have heard a tale of a QSL card being addressed simply "W6XYZ, USA" - and being successfully delivered.)

The Ohio/Penn DX PacketCluster
DX Bulletin No. 749
BID: $OPDX.749
February 27, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N4BAA, N4NW, N4XP, WB5ZAM, W7GJ, K8JE, K8YSE, DJ0GM, DL1EK & The DX News Letter, DL2SBY, DL5EBE, EA8BHD, F5NQL & UFT, G0IAS, I1JQJ/IK1ADH & 425 DX News, IZ8CCW, JI6KVR, OM3JW, SV9COL, VA3RJ & ICPO, VK4FW, YB6PLG and YT1HA for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 19th/February, through Sunday, 26th/February there were 234 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 3X, 3Y/p, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D6, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J3, J6, J7, J8, JA, JD/m, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0T, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP5, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XT, XU, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2/R, ROTUMA ISLAND. Just a reminder that operators Will/N7OU (3D2RO) and Rob/W7YAQ (3D2RX) will be active between March 1-10th. Their activity will include a Multi-Single entry in the ARRL DX SSB Contest (March 4-5th) as 3D2RX. Activity outside of the contest will be on 80-10 meters. QSL via their home callsign, direct or by the bureau.

3Y0X NEWS.......
As reported last week, the 3Y0X DXpedition to Peter I Island went QRT on February 19th at 1813z. The updated stats show that the DXpedition netted 87,034 QSOs. However, the team's departure was delayed because of bad weather. The DAP Mares was scheduled to leave on February 21st and their tentative plans were to visit Deception Island on the way back to King George Island and then to fly to Punta Arenas, Chile. However, the final helicopter trip from Peter I to the deck of the DAP Mares didn't happen until 1859z, on February 24th. The ship is now underway to Deception Island and then to King George Island (KGI). Peter I Island is, once again, uninhabited! The last report as this was being typed stated they expect to reach Deception Island about 0500z Tuesday, then on to KGI with an ETA of 1600z. As always, updates are availble at:
http://www.peterone.com/
ADDED NOTE: Stats reported last week did not report everything. Lance, W7GJ, informed OPDX that the 3Y0X team worked over 100 stations on 2m EME using JT65 (a new digital mode especially developed for very weak signal work, such as EME), in 33 different DXCC entities. JT65 has become the standard for 6m EME, and now is by far the most popular mode on 2m EME (for REAL long path DX - 3/4 million km!) because it is 10 dB more sensitive than CW. Jose, N4BAA, also mentioned not listed in the totals were 4 SSTV QSOs made on 17M!

4J, AZERBAIJAN. Operators Mir/UA3FDX and Pavel/RA3AUM will be active as 4J0DX and 4J0AUM, respectively, between March 17-27th. Activity will be on 80-10 meters CW/SSB and possibly 160 meters. They also plan to be active as 4J0DX in the Russian DX and CQ WPX SSB Contests. QSL for both stations are via UA3FDX, either direct or via the bureau.

5Z, KENYA. Mike/OM2DX (aka YI1BGD, YI/OM2DX, YI9X) and Palo/OM2NW will be active as 5Z4/homecall through March 6th. QSL 5Z4/OM2DX via OM3JW and 5Z4/OM2NW via the home callsign.

7Q, MALAWI. QSL Manager Allan, G0IAS, informs OPDX that he will take Les/7Q7LA and his XYL to the airport on March 8th, and OPDX readers should look for 7Q7LA to be active again after March 9th. Les/7Q7LA, along with Harry/7Q7HB, are expected to activate modes on the bands not used before. Look for lots of Digi, SSTV, PSK, etc. The length of Les's stay at this time is unknown. BEWARE OF PIRATE! Allan, G0IAS, has also informed OPDX that a station signing 7Q7RM on CW has been active. Ron, 7Q7RM, became "SK" last year and Allan is unaware that this callsign has been re-issued.

8R, GUYANA. Operators Ken/K7ZUM and Craig/AH8DX will be active as 8R1ZUM and 8R1EA, respectively, between February 28th and March 7th. They will be active in the ARRL SSB DX Contest this coming weekend. Activity before the contest will be mostly on RTTY and the WARC bands. QSL via their home callsigns.

C9, MOZAMBIQUE. The July 23rd-August 10th Ukrainain C9 DXpedition Story is now available on the Web in English at:
http://www.dxer.com.ua/c9/story_en.html
Also, many photos from the DXpedition can be viewed at:
http://www.dxer.com.ua/c9/pg.html

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following are approved for DXCC credit:
K3LP/KP5 and N3KS/KP5 - Desecheo Island; Operation from December 16-17th, 2005

FT5X, KERGUELEN ISLANDS. Gildas (Gil), TU5KG, who has been active as FT5WL/mm, is expected to be active for two days from Kerguelen Islands as FT5XP, February 27-28th. QSL for both callsigns are via F4EFI.

HB0, LIECHTENSTEIN (Update). Kasimir, DL2SBY, informs OPDX that he will be active again as HB0/DL2SBY from February 25th through March 4th. His activity will be on 160-10 meters, CW, SSB, RTTY and PSK31. He was expected to be active during this past weekend's CQWW 160M SSB Contest. He will be using a FT900AT + Ameritron PA with 600w into the following antennas: Dipole for 160-10 meters, GP`s 80-10 meters, and maybe GP for 160m.

IOTA NEWS.....
AS-013. Herbert, DJ2BC, will be signing 8Q7SH from Kuredu Island (Maldive Islands), between February 27th and March 6th. His activity will be on all bands. QSL via DJ2BC (QRZ.com).

EU-001. Operators John/SV1GYG, George/SV1QN, Fotis/SV1AIN, Manolis/SV1EQU and Nikos/SW1GYN will active as SV5/homecalls from the Island of Patmos (MIA MGD-025), between March 28th and April 2nd. Activity will be on 160-6 meters CW, SSB, RTTY and PSK31. QSL via the operator's home callsign.

EU-051. Operators Davide/IW9GUR, Angelo/IW9HLM and Riccardo/IT9CVO will be active from Ustica Island (IIA PA-001, MIA MI-116) as IE9/homecall between March 10-12th. Activity will be on 160-6 meters, with 2 or 3 stations operational. This activity will also count for the Isola di Ustica lighthouse (WLOTA LH-0848). QSL all callsigns via IW9HLM (QRZ.com).

OC-NEW. Members of the Toba DX Group have in hand their air tickets for Simeulue Island, and plan to activate this new IOTA. Their operations will commence on March 8th and end on the 15th. The team will be consisting of 5 operators: YC6LAY, YB6LYS, YC6JKV, YB6PLG and YB1BOD. All operators will sign homecall/P. They will try to be active on all HF bands 80-10 meters and possibly 6 meters. QSL via YB1BOD/6: Donny Sirait, P.O. Box 1206, Medan 20233, North Sumatra, Indonesia. More details can be found on: http://www.toba-dx-group.org/simeulue/index.html

J6, ST. LUCIA. Bill, WB5ZAM, will be heading here for a vaction on April 8th and is expected to stay on Choc Bay at Villa Beach Cottages for two weeks. He hopes to get a J68 callsign, or he will probably sign J6/WB5ZAM. Bill states that he will focus on 30 meters and possibly 40 meters (He states this is tough band with all the broadcast stations and SSB from other hams). Activity will depend on the band openings, his vacation schedule, weather and beach, side trips and island parties. He will use a G5RV with his HF gear and bring along his keyer and headset/mike. QSLs will be printed once he knows what the callsign will be.

KP2, U.S. VIRGIN ISLANDS (3 Steves Op!). They're at it again! Operators Steve/N2IFA, Steve/KB2ENF and Steve/KF2TI will be heading to St. Croix, and will be active between May 19-22nd (0400-0400Z). The 3 Steves will be signing KP2/homecall. The 3 Steves special event stations will be on the General portions of 160-10 meters. Also, if you work all 3 Steves, you can receive a coveted WAS (Worked All Steves) Certificate. Details are forthcoming on a new Web page (not yet working) at:
http://3stevesandkurt.dynu.com/
QSL via the bureau or direct to: Steve Adell, KF2TI, 606 E Vail Rd, Landing, NJ 07850-1218.

PZ, SURINAME. Operators Steve/MW0ZZK and Florent/F4CYZ will be active as PZ5ZZ and PZ5CY, respectively, between February 28th and March 8th. Their activity will be on 80&#65533;6 meters. QSL will be via IZ8CCW, direct and/or by the Bureau.

QSL INFO AND NEWS.....
NEW ADDRESS FOR W3HNK! Joe, W3HNK, informs OPDX that "After 30 years I'm closing P.O. Box 73, Edgemont, Pa. My NEW address is: Joseph Arcure Jr, W3HNK, 115 Buck Run Road, Lincoln University, Pa 19352." This is effective starting on March 1, 2006.

PLEASE NO MORE BUREAU QSLS! Joe, VA6JWT, QSL Manager and operator of 6O0JT, reports that he is being overwhelmed by QSLs being sent via the bureau. He asks that no more cards be sent to him via the bureau but that they be sent direct with SAE and sufficient postage or IRCs to cover postage from Canada to the DXers QTH. Joe's address for the QSLs is: Joe Talbot, PO Box 836, Bowden, Alberta, Canada, T0M0K0 (that's Tango-Zero-Mike-Zero-Kilo-Zero).

An online log search for K6VVA/6 S.E. Farallon Island (NA-178) operation is now available at:
http://www.k6vva.com/iota/na178/logsearch/na178logsearch.php

K7C QSL STATUS (Update). Tom, N4XP, informs OPDX that QSLs are being processed daily and mailings go out about every three days. So they are going out on a regular basis and over half of the backlog is done.

Zik, YT1HA, informs all OPDX readers that QSL cards for special callsign "YZ150T" are printed, and all direct request will be sent next week. The QSL Manager for YZ150T is YU1SB. QSLs are OK via the bureau or direct to: Bozic Slavko, Jurija Gagarina 196/50, Novi Beograd, SERBIA AND MONTENEGRO. ADDED NOTE: Zik also inform OPDX that QSLs for YU1AAV and YZ1V are ready, and they will send all requests via the bureau; as of now they have replied to 1500 QSL cards.

RK2, KALININGRAD. Members of the "UA2 Contest Club" will be active as RK2FWA during the ARRL DX SSB Contest (March 4-5th) as a Multi/? entry. QSL via DK4VW.

SPECIAL EVENT FOR IWD......
Mari Carmen/EA8GL and Dunia/EA8BHD will be on the air with the special callsign, ED8IWD, for the International Womens Day, March 5-8th. They will be transmitting from Isla de Gran Canaria (IOTA AF-004, DIE S-005)

which will also count for the WLOTA lighthouse LH-0969. A special QSL (designed by Easy QSLs and sponsored by Project 4 of Electronic Applications S.A.) will be sent out once activity is finished via the Bureau. QSL Manager is EA8BHD. More info is available on QRZ.com.

The Council of Europe Amateur Radio Club in Strasbourg, France, will be activated by an international group of four YLs (for the second time after last year) using the callsign TP1CE from March 11-12th. Activity is to celebrate "International Womens Day" (March 8th). The four YLs come from Germany, France and Monaco. The group received an invitation to operate as TP1CE on all bands on SSB and CW. Operators will be Laura/3A2MD, Evelyne/F5RPB, Annemarie/DJ0FR - as last year -, and Olga/DJ0MCL. Last year's activity took place during the ARRL Contest on the same weekend, so the ladies hope that this year they will receive more calls from all over the world. QSL via F5LGF, direct or by the bureau.

SY9, CRETE. Dimitris, SV9COL, who used the special contest callsign SY9A this past weekend during the CQ WW 160 Meter SSB Contest, will use the same callsign during the CQ WPX SSB Contest (March 25-26th) as a Single-Op/ All-Band/Low-Power entry. QSL via his home callsign using the address on QRZ.com.

TO1, GUADELOUPE. Operators Gildas, FG/F6HMQ, and Michel, FG/F6GWV, will activate TO1T once again between now and March 6th. Their location will be north of the city of Saint Francois. They were expected to enter the French Championship SSB Contest this past weekend and will be in the ARRL DX SSB Contest this weekend. Precontest activities will be mainly on SSB, (morning and evening hours) all bands including the WARC bands. As for antennas, they will use a 20 year old HF6V, modified by Gildas; a hundred radials will be used. QSL via F6HMQ.

TY, BENIN. An international team of 4 operators will be down in Benin Africa for a period of 2 weeks starting on March 15th and ending March 31st. The callsigns have not been confirmed yet, but operators will be Ron/PA3EWP (TY5WP), Tom/GM4FDM (TY4TW), Claudia/K2LEO (TY2LEO) and Andrea/IK1PMR (TY1MR). They will have 3 stations on the air and will operate on all bands and at least on CW, SSB and RTTY. They will focus mainly on the lower bands (160-40 meters) and also participate in all major contests. Each operator will have a different QSL information. QSL TY1MR via IK1PMR. QSL TY2LEO via IK1PMR. QSL TY4TW via GM4FDM. QSL TY5WP via PA7FM.

VI9, NORFOLK ISLAND. The Oceania Amateur Radio DX Group Inc (ODXG) is planning to operate from Norfolk Island from May 25th until June 20th as part of the commemoration of the 150th anniversary of the landing of the "HMS Bounty Mutineers". The callsign will be VI9NI. Operation will be on 160-6 meters CW/SSB/RTTY. OPERATORS ARE NEEDED! The ODXG informs OPDX that they are able to accommodate extra operators for various times during this month long commemorative operation. If you need to contact ODXG, their E-mail address is: vi9ni@westnet.com.au
They are also seeking donations to be strictly used to help offset the

cost of freighting all the equipment into Norfolk Island. More information will be forthcoming soon. Meanwhile, visit the ODXG Web page at: http://odxg.org/

VQ9, CHAGOS ISLANDS. Jim, ND9M, now active as VQ9JC, is planning to be on 80 meters CW from Diego Garcia Island (IOTA AF-006) March 2nd and 3rd. He should be on the air at around 2315z for both days. This will give Jim about a 90-minute window to hit North America before he has to leave for the boat launch back to the ship to start his workday at 0200z. Look for Jim on 3505 kHz (+/-), listening up 1 or 2, or possibly up the band a bit to give the U.S. Generals/Advanced operators a shot. QSL via ND9M, direct or through the bureau.

YI, IRAQ. Neil, WD8CRT (ex-V73NS), became active on February 20th at 0600z as YI/WD8CRT. His YI license came through the day before. Neil is a contractor working for the military. He will be there for several more months. His activity will be all QRP using an IC-703 on 40 meters and up. He plans to begin to operate at +/- 0600z. QSNs on the clusters show that Neil was on earlier (after 1130z) this past week on 80/30/20/17/15 meters CW. His antenna is a 20m VEE which he has recently added 40m elements. Neil thinks this should get him onto 80m and should improve his QRP operations on 40m and 15m. The height is still only 30 ft. at the apex. For DX stations, QSL via the Bureau ONLY to his home callsign. For U.S. stations QSL to his home callsign.

ZF, CAYMAN ISLANDS. Operator Bob, K3UL, will again use ZF2UL from Grand Cayman (IOTA NA-016) between March 1-7th. This activity will also count for Grand Cayman Island lighthouse (WLOTA LH-1042). His activity will be mostly on the lower bands and mainly on CW. QSL via his home callsign.

ZK1, SOUTH COOK ISLANDS. Jim, W1EMT, will be active as ZK1EMT from Rarotonga (IOTA OC-013), along with Victor, ZK1CG, between March 4-24th. Activity will be mainly QRP with a Buddipole during their weekends and mornings/evenings hours. Suggested SSB frequencies are: 7296, 14342.5, 18158, 21438 and 28328.5 kHz. A QSL certificate is available direct from Jim, W1EMT, with a SASE or SAE + postage. Further information can be found at: http://www.qsl.net/w2emt/Rarotonga.htm

395. Logging Program with SAVE.

Newsgroup: rec.radio.amateur.dx
Date: 2006-02-27 19:53:55 UTC
From: "ars_wa8mea@netzero.com" <ars_wa8mea@netzero.com>

I have looked at numerous logging programs over the past week. Some freeware, some not-so-freeware. I thought I had settled on a pretty good piece of freeware. But you couldn't save your work on a separate disk. (No names will be mentioned cuz you ain't suppose to look a gift horse in the mouth.) But what I'm looking for is a simple logging program, that can SAVE your work on a separate disk, CD, DVD, etc. My son was fooling around with the above mentioned logging program, and lost many years worth of QSO's trying various ways to "save" my info from the log. It would be nice if someone had a SAVE feature. 73, Bill - WA8MEA - wa8mea@hotmail.com - http://HamRadioFun.com

Alice Cooper joins Philadelphia's #1 Classic Rock Station WMGK for Nights
- Cooper will meet fans at Chickie's & Pete's from 1pm to 3pm on Thursday

Philadelphia, PA, February 27, 2006 -Legendary rocker, Alice Cooper joins Philadelphia's
#1 Classic Rock Station WMGK,
beginning Thursday, March 2, 2006. His show, "Nights with Alice Cooper" will air weeknights
from 10:00 pm - 2:00 am.

The program showcases Classic Rock, Alice's personal stories about his life as a rock icon,
as well as interviews and
special segments like the "OffBEAT News" with his counterpart, Mistress Kitty.

"Having Alice Cooper join Philadelphia's #1 Classic Rock Station, WMGK is a perfect fit,"
says program director Cruze.
"His attitude, the great rock and roll stories along with the music he plays is an awesome
way to round out our air-staff.

"We are thrilled to have Alice join the MGK lineup -from Alice's Closet Classics to
listener calls to his weekly interviews
with classic rock artists, night time in Philly will never be the same," adds John Fullam,
VP/Market Manager - Greater Media/Philadelphia.

Fans of Alice Cooper will have a chance to welcome him to Philadelphia from Thursday from
1:00pm to 3:00pm on
Chickie's & Pete's in South Philadelphia. The address is 1526 Packer Avenue, Philadelphia,
PA.

> from the log. It would be nice if someone had a SAVE feature. 73, Bill

Back in my Windows-days, I was using LuxLog. For backing up my
log, I exported the whole log every now and then to a CSV-file
from LuxLog and then copied it to another computer within my
local network. LuxLog is free (as in free beer, not as in free
speech, i.e. the sourcecode is not available etc) and can be
obtained at http://www.luxlog.info/.
Another software you might want to have a look at it Logger32 by
K4CY: http://www.logger32.net/
With both programs you can easily export/save you your log to a
text/CSV/ADIF-File or even print out a hardcopy.

73,

I will made a dipole for 10.1 Mhz v inverted , with total lenght 15 mtrs.
What is the appropriate balun ? 1:1 1:2 1:5 or others ? tnx

The feedpoint impedance of a 15m dipole at 10.1MHz will be reasonably
close to 50 ohms, so you want a 1:1 balun.

It depends on the feedline impedance. If 50 ohms, a 1:1 balun is
probably appropriate. If open-wire line, a tuner at the bottom is
probably best.

402. [INFO][II1ANT/W.A.P.-032]LOG ON-LINE

At the close of this event, I would like to thank all the stations which hooked up with II1ANT.
As for us, I can assure you that it was a very lovely experience which we hope will be repeated next year.
I would like to inform you that LOG SSB/DIGI is now on the the site of Fede IW1QN, at the following address:

http://www.qsl.net/iw1qn

Shortly will also be available the CW one.

A la cl�ture de l'activit�, je voudrais remercier toutes les stations qui ont connect� II1ANT.
En ce qui nous concerne, je vous confirme que cela a �t� une tr�s belle exp�rience qu'on esp�re sera renouvell�e l'ann�e prochaine.
Je voudrais aussi signaler que le LOG SSB/DIGI se trouve sur le site de Fede IW1QN, � l'adresse suivante:

http://www.qsl.net/iw1qn

D'ici peu, ser� aussi disponible celui de CW.

Bill,

I am not sure I understand your complaint. I have used many logging programs, and EVERY ONE of them has a <Save> feature (DX4WIN, N1MM, WriteLog...). Some of them also have a <Save As...> feature, where you can save your log to an alternate location.

However, NONE of them have a <Burn a CD> feature, or a <Protect me from myself because I don't do backups> feature. There are many excellent backup and file mirroring programs out there for keeping separate duplicates of critical files -- Windows has the software built-in, Syncback is free, ...many others.

In my opinion, logging program software developers should concentrate in making the best possible logging or contest software. They should not also try to duplicate the efforts of Backup, Synchronization, or RAID programs.

Heard a USA station sign off with the usual 73 followed by 99

What's that ?

10-10 code for mission complete

CB number ?

or another adding numbers like 73 + 88 =161 (yuk)

--
CL -- I doubt, therefore I might be !

I was taught back in the days of my First Tel commercial that it means love and kisses. The reason it isn't seen often, so I thought I knew/know is that there are few such contacts for real in most of our telegraph relationships! But you saw it a little more often in messages for third party delivery. Has it morphed into a distasteful connotation, or was I 'trained' improperly?

For W5WQN
88 "love and kisses" was documented in Dodge's early 1900's book "The
Telegraph Instructor"
Not sure that 99 is in Dodge's book as I don't have a copy

Are you sure that 99 was "love and kisses" or are you confusing it with 88

Thanks for your input

No problem Mike -- gettin that way myself

I think the only 99 left is from the old telegraph codes see URL:
http://ac6v.com/73.htm#73
There an unofficial report of 99 = "Get Lost"

Doesn't make sense to bid someone 73 then tell them to get lost

Oh well

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 26th/February, through Sunday, 5th/March there were 231 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9U, 9V, 9X, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E3, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FP, FR, FT5X, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J6, J7, J8, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP5, VP6, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO (News). Claude Passet, 3A2LF, Secretary of the IARU Society - the Association des Radiamateurs de Monaco (A.R.M.), announced that effective January 26, 2006, amateur radio operators from the "Principality of Monaco" have the following new frequency allocations:
160 meters - 1850-2000 MHz

1810-1850 MHz (Primary exclusive)
1850-2000 MHz (Secondary shared)
6 meters - 50.000-52.000 MHz
50.000-51.200 MHz
51.200-52.000 MHz (Secondary shared)
4 meters - 70.000-70.500 MHz Status:(Secondary shared)
PLEASE NOTE: The 135.7-137.8 MHz segment has been conceded to the Amateur Radio Service in Monaco for several years (Status: Secondary shared).

3D2/R, ROTUMA ISLAND (Update). Operators Will/N7OU (3D2RO) and Rob/W7YAQ (3D2RX), who were expected to be active between March 1-10th, had their flight delayed/cancelled and are still on the Fiji Islands. Their activity will include a Multi-Single entry in the ARRL DX SSB Contest (March 4-5th) as 3D2RX. Reports indicate that they may be able to fly to Rotuma on March 6th. QSL via their home callsign, direct or by the bureau.

6W, SENEGAL. Jacques, F6BEE, will be active as 6W1RW in the CQWW WPX SSB Contest (March 25-26th) as Single-Op/All-Band/High Power entry (Possibly SO2R). QSL via F6BEE. He inoforms OPDX that he will be there on March 21st very early in the morning and leave on next Monday, March 27th, in the evening to catch a plane at 02:00 A.M. Jacques will be on all the usual contest bands as the antennas are already installed (KT36XA at 19m, 2 element 40 at 21m, 2 element wire beam on 80m at 18m and 160m dipole). However, if he has some time left and can find a place, he will temporary put up a R-7000 for the WARC bands.

6Y, JAMAICA. Tomas, LY1DF, will be active as 6Y5/LY1DF from March 12-18th. Activity will be on 40-15 meters CW only. QSL via LY1DF, Bureau only.

9A, CROATIA. Zrinko (Zik), VE3ZIK, will once again be active from Bilice (JN73WS at Adriatic Coast) between March 17-28th (approx.) as 9A/VE3ZIK. He will be active in the Russian DX Contest and CQ WW WPX SSB Contest. Outside of the contests, he will be active mostly on the WARC bands and will be waiting for any 10m FM opening on 29.600 MHz. QSL via DL3PS; by the DARC Bureau is OK. Don't send QSL cards to the VE3 Bureau. Also, visit Zik's Web site at: http://www.qslnet.de/ve3zik

ANTARCTICA. Dmitry, UR8UC, will be using the special callsign EM1UC from the Ukrainian Antarctic DX Club (UADXC) station (EM1U) from the Akademik Vernadsky Base station until February 2007. His activity will be on CW, SSB and the Digital modes.

CT3, MADEIRA ISLANDS. Operators Rosel/DL3KWR and Hardy/DL3KWF will be active again as CT3/DL3KWR and CT3/DL3KWF, respectively, March 9-23th. Activity will be mostly CW and on the WARC bands. QSL via their home callsign. E-mail requests for bureau cards can be sent to: <dl3kwr@darc.de> or <dl3kwf@darc.de>, respectively. Their Web site is at: http://www.mydarc.de/dl3kwr

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operations are approved for DXCC credit:
D2DX - Angola; Current operation effective December 15th, 2004

T6X - Afghanistan; Current operation effective March 8th, 2005
TS3A - Tunisia; March 24-28th, 2005
TT8PK - Chad; December 27th, 2005, through February 11th, 2006
XW1A, XW1LLR5, XW1X and XW1M - Laos; Current operation effective October 29th, 2005

DZ, PHILIPPINES (Special Event). A group of Filipino and Japanese hams will be operating with the special callsign DZ1JP to celebrate the 50th anniversary of diplomatic relations between the Philippine (DU) and Japan (JA). The year 2006 is called the Philippine-Japan Friendship Year. Look for activity on 160m and EME on 6 and 2 meters. QSL Manager is JA1HGY. Operation will be from March 10-12th.

ED8/EF8, CANARY ISLANDS. Operators Edu/EA8AUW (EC8AUA), Peter/EC8/74182 and possibly others from the Canary Islands will be active as ED8CLL, Sunday, March 19th, from the "Castle of La Luz" in Las Palmas de Gran Canaria, Capital city of Gran Canaria Island (IOTA AF-004). This castle will be activated for the first time on the air with the reference valid for the "Spanish Historic Monuments Award" (DMHE MGC 013). Activity will be on 20-10 meters with 17 meters included. The team also plans to be active a little on PSK and RTTY. They will also use a secondary callsign EF8CLL (Restringed) on 15 meters below 21200 kHz. QSLs will be sent out automatically via the Bureau (without a need to comfirm). More infomation is available at: http://www.qrz.com/ed8cll

FR/G, GLORIOSO ISLAND. Rafik, F5CQ, sent out a press release this week indicating the following: "Lasted news - We have got from Reunion Head Quarter a conditional clearance to organize our expedition onto Glorioso Islands (IOTA AF-011). However, regarding the sanitary situation over Indian Ocean and Chikungounya disease, we will not take any risk. Therefore, the decision to postpone this operation up to October or November seems compulsory." Please refer to the following Web sites for more info:
http://glorieuses2005.free.fr/
http://en.wikipedia.org/wiki/Chikungunya

FP, ST. PIERRE & MIQUELON. Juergen, DJ2VO, will be active from the Island of Miquelon, May 5-20th. His callsign was not provided. Activity will be CW only on 80-10 meters with 100 watts into a Vertical Antenna. QSL via his home callsign.

GP0, GUERNSEY. Ron/G4DIY (GP0STH), and Lee/G0DBE will be active from here starting around 1000z March 10th, as GP0STH. Their bands and modes of activity were not provided. QSL via G4DIY.

H44 & P29, SOLOMON ISLANDS AND PAPUA NEW GUINEA. Reports indicate that Bernhard, DL2GAC, is once again heading to the Pacific for about 2 months. It has been announced that he will be active as H44MS from the Solomon Islands, now through March 12th. He will then be active as P29VMS from Papua New Guinea (PNG) until late March or early April. He plans to activate a few IOTA groups while in PNG, including Bougainville Island (OC-135), the Shortland Islands (OC-162) and possibly others. QSL via DL2GAC.

HAPPY BIRTHDAY TO MARTTI, OH2BH. Many DXers over the past week heard Martti, OH2BH, active as V31BH from Belize. His operation also included activity in the ARRL DX SSB Contest this past weekend. By the time you read this Martti should be QRT from Belize. QSL V31BH via OH2BH. However, excerpts from a press release by Jarmo, OH2BN, this past week also indicate that OH2BH will be celebrating his 60th birthday later this year. Jarmo also states: "The past decades include some 45 years of making DX and providing elusive DX counters to those in need. The years also include more than three decades of happy marriage to Leena, OH2BE - and now a first grandchild due in May. Martti will become a Grandpa DXer."
Read more on Martti at: http://www.bcdxc.org/martti_page1.htm
Also, the Finnish Telecom Authority has released/issued the callsign OH60BH (OH-sixty-BH) to be used on the air starting March 2006.

HB20, SWITZERLAND. Nick, HB9DDZ, President of DIG Section Switzerland, informs OPDX that between March 8th and June 7th, the DIG Section of Switzerland will celebrate their 20th anniversary. During this time they will activate the special event station HB20DIG (HB-twenty-DIG). It will be the first time that the prefix HB20 will be aired. If you work HB20DIG two times, you can apply for the W-DIG-HB Award by sending a copy of your log and 5 USDs or 5 Euros to the following address: DIG Section Switzerland " DIPLOM", Postfach 217, CH - 5080 Laufenburg, Switzerland. The awards will go out after the end of this event. All QSLs will go out automaticlly via the bureau.

HH, HAITI. Operators Jan/K4QD (HH4/K4QD) and Bill/W4WX (HH4/W4WX) will be in here from March 20-31st. They plan to be active on all modes on 80-10 meters. As in the past, they will operate from the NW Haiti Christian Mission: http://www.nwhcm.org
QSL HH4/W4WX direct to W4WX and HH4/K4QD direct or by the bureau to K4QD.
ADDED NOTE: Also, Bill and Jan arrived home safely from Ascension Island this week. They concentrated primarily on the WARC bands on CW and digital modes during their week long operation. ZD8WX and ZD8QD QSL cards are on order and should be available for mailing when they return from Haiti. The full story should appear in the May-June issue of DX Magazine.

IOTA NEWS.....
EU-042. Hans-Peter, DC1HPS, will activate Pellworm Island (GIA N-23, WLOTA LH-1188) as DC1HPS/p from July 27th to August 18th. He will also participate in the RSGB IOTA Contest (July 29-30th). Look for activity outside of the contest on 80-10 meters with 100 watts. QSL via his home callsign, bureau preferred.

EU-055. Operators Jurgen/DJ5HD, Bernd/DH1ND, Gerd/DG1XG, Ralf/DK4DV, Manfred/DL6HBX, Wolfgang/DJ5ZWS, Jan-Ole/DB8JO, Jorn/DG5XJ, Bernd/DJ8LG and Helmut/DL8RM will activate Fedje Island and the Hellis&#65533;y Frystasjon (Lighthouse) (ARLHS NOR-022, WLOTA LH-0496) from August 17-22nd. Activity will be on all bands and modes, including participation in the International Lighthouse/Lightship Weekend (August 19-20th). They will use personal callsigns with a LA/ prefix and /LH suffix (e.g.: LA/DG1XG/LH). QSL via the individual operator's home callsign.

Further information can be found at:
http://www.qslnet.de/member/dg1xg/fedje.html

EU-085. Operators Alex/RA9XV, Pavel/RA9XY, Anatoly/UA9XBL and Andrei/
UA9XC will be active as RI1PXC and activate Kolguev Island
(RRA RR-03-05, RDA NO-01) from March 14-20th. Activity will
be on 80-10 meters CW/SSB. They will also participate in the
Russian DX Contest (March 18-19th) using the callsign RI1PI.
QSL both callsigns via UA9XC, direct or by the bureau.

EU-123. Operators Doug/GM0ELP, Phil/GM0LIR, Brian/GM0EGI, Iain/GM0OQV,
Will/GM0HKS, Tom/MM0BHX, Bob/2M0KDZ, Iain/2M0VLF, Gord/2M0GPZ
and Duncan/EA5ON will be active from the Isle of Bute, Clyde
Islands (IOSA CL-02, SCOTIA CS-19), as GM0B during the RSGB
IOTA Contest (July 29-30th). Activity will be on all HF non-WARC
bands (excluding 160m), CW and SSB modes. QSL via GM0EGI.

EU-125. Operator Jef, ON4ACA, will be active as OZ0ACA from Roemoe
Island (DIA NS-001 for the Danish Islands Award) from now
until March 10th. Activity will be on CW/SSB and 80/40/20
meters. QSL via his home callsign.

NA-076. Wade/AA8LL and Liz/K8LIZ were expected to operate "holiday
style" from Cedar Key, Florida, this past weekend as AA8LL/4
and K8LIZ/4. QSL direct or by the bureau to their home callsigns.

NA-144. Operators Terry/W6WTG, Larry/KF6JOQ and Mark/KG6ZBL will be
activating Channel Island, June 10-11th. Look for them to be
active on 14.260 MHz +/- and also on 144.210 MHz SSB. Their
QSL Manager is N2OWL.

IWD ACTIVITY (Correction). Mari Carmen/EA8GL and Dunia/EA8BHD are now
on the air with the special callsign, ED8IWD, for the International Womens
Day, until March 8th. They will be transmitting from Isla de Gran Canaria
(IOTA AF-004, DIE S-005). PLEASE NOTE: This operation DOES NOT count for
the WLOTA lighthouse LH-0969 as announced earlier. A special QSL (designed
by Easy QSLs and sponsored by Project 4 of Electronic Applications S.A.)
will be sent out once activity is finished via the Bureau. QSL Manager is
EA8BHD. More info is available on QRZ.com.

J3 & J7, GRENADA AND DOMINICA. Operators Lars/SM0CCM (J73CCM) and Seth/
SM7XBI (J79XBI) will be active from Dominica (J7) from March 29th through
April 12th. The two operators will be active from Grenada (J3) during the
Caribbian Hamboree, probably using the callsigns J3/homecalls from April
12-19th. On April 19th, they will head back to Dominica staying there
until April 28th. Activity from both places will be on all bands SSB,
CW, RTTY and PSK31. QSL via their home callsigns. Bureau prefered.

J6, ST. LUCIA. Oleh, UR5BCP, is planning to operate from here (NA-108)
from March 30th through April 5th. His callsign was not provided. Activity
will be on 160-6 meters CW/SSB. QSL via KD7WPJ.

J7, DOMINICA. Igor, VA3YDX/VB3M, will be active as J79DX now through March 14th. He was active in this past weekend's ARRL SSB DX Contest and is expected to be in the DIG (Diploma Interessen Group) QSO SSB Party this coming weekend. QSL via VA3YDX: Igor Slakva, 105 La Rose Avenue, #803, Etobicoke, ON M9P 1A9 Canada.

KP4, PUERTO RICA. Frank, K3TRM, will be on a family holiday in El Verde and will be active as KP4/K3TRM from April 8-17th. Activity will be on 80-6 meters CW, SSB, RTTY and PSK31, with some emphasis on the WARC bands. Because he is not staying at a "rent-a-QTH", these plans may change as he determines his antenna options. QSL via his home callsign, direct or by the bureau. Further information can be found at: http://www.k3trm.com/

MJ, JERSEY (Update). Just a reminder that four stateside operators will be here this week (See OPDX.747). Operators Pete/K8PT, Craig/K3PLV, Tom/W8JWN and Jim/N1NK will be active from Channel Islands and will be operating as MJ/homecall from the Island of Jersey (EU-013) from March 8th-15th. They will have two stations on 24 hours per day with a third station as needed. Operations will cover 160-6 meters (SSB, CW, RTTY & PSK) with an emphasis on the low bands. QSL via their home callsign. Tom/W8JWN announced this week he will operate the PSK and RTTY. Although PSK31 is slow, more guys use that than PSK63. He will do both. Since PSK and RTTY count the same for DXCC, why not try both modes. He might even try SSTV toward the end of the operation. Please refer to the following Web page for further information at: http://users.adelphia.net/~crahill/

P4, ARUBA. Tim, WD9DZV, will be active from here between March 6-16th. He has requested the callsign P40D. Activity will be on all bands, CW, SSB and the Digital modes. QSL via WD9DZV.

QSL INFO AND NEWS.....
The Liechtenstein 2006 DXpedition WEB Site is updated with a "LOG Search" and "Picture Gallery". Please visit at: http://www.t93y.com/hb0

Dennis, PA7FM, informs OPDX that the backlog for direct QSL requests for PZ5PA, PZ5WP, PZ5C and PZ5C/P (SA-092 - DXpedition in November/ December 2005) has been cleared during the last week. The final logs are online on at: http://www.pa7fm.nl
-or through-
http://www.lldxt.nl
New QSL requests will be answered to within a few day's after their reception. PLEASE NOTE: Dennis advises that many people still do not send enough return postage with their direct QSL requests. One USD does not cover postage outside Europe anymore, and those requests will be answered through the QSL Bureau.

Nilay, TA3YJ, informs OPDX that she sent out QSL cards for TA3YJ, TA3YJ/0, TA3YJ/3, TA3YJ/3 LH, TA3YJ/4, TA3YJ/4 LH, SV1/TA3YJ, LZ2/TA3YJ, TA3J, TA3J/0, TA3J/1, TA3J/3, TA3J/3 LH, TA3J/4, TA3J/4 LH, TA3J/60, HA/TA3J, OE/TA3J, OK/TA3J, SV1/TA3J, LZ1/TA3J, LZ2/TA3J, YM3BU, YM3ATA, YM3SV, YM75TA, YM21TA, YM3LZ/WPX2000 and YM3LZ/WAE2000 and TC2K4J to the following QSL Bureaus direct on March 3rd: Andorra, Azerbaijan, Australia (VK3, VK5, VK6), Austria (R), Belarus, Belgium (R), Bosnia-Herzegovina,

Brazil, Bulgaria (R), Canada (RAC National Incoming QSL Bureau), Colombia, Croatia (R), Cyprus, Czech Republic (R), Denmark, Estonia, Faroe Islands, Finland, France (R), Germany (R - 5 Packet), Greece, Hungary, Ireland, Israel, Italy (R), Japan, Kazakhstan, Kuwait, Latvia, Lithuania (R), Luxembourg, Malta, Moldova (R), Monaco, Morocco, Netherlands (R), New Zealand, Norway, Oman, Poland (R), Portugal, Romania (R), Russia (R), Serbia & Montenegro (R), Slovakia, Slovenia (R), Spain, Sweden (R), Switzerland (R), Tajikistan, Tunisia, Turkey, USA (W1, W2, W3, W4, WA4, W5, W6, W7, W8, W9, W0, KL, KP3-4), Ukraine (R), United Kingdom (R) and Uzbekistan. (R: Registered Mail)

S0, WESTERN SAHARA. An international team composed of Roberto/EA2RY, Pedro/EA5BJ, Fer/EA5FX, Javi/EA5KM, Francisco/EA5RD, Toni/EA5RM, Julio/EA5XX, Javi/EC4DX, Fabrizio/IN3ZNR and Dimitri/UY7CW will be on the air as S01R from Western Sahara, April 11-16th. Operation will be on all bands from 160-10 meters on CW, SSB and Digital modes. They will have four stations active. QSL via EA5RM. More details and online logs will be available on the S01R Web site at: http:/www.s01r.com
Oscar, EA4TD, will be their pilot station; questions and comments can be sent to: oscar@ea4td.com

SILENT KEY. It was announced this past week that Tim Chen, BV2A, founder of the Chinese Taipei Amateur Radio League (CTARL) became a "Silent Key" (SK) on February 22nd, at the age of 92. For years Tim was the only active ham in Taiwan and was many DXer's first contact from that entity. OPDX and its readers would like to send out our deepest sympathy to Tim's family and friends. E-mail condolence mesages can be sent to the following address and the CTARL will forward them to Tim's family: bv2a@ctarl.org.tw

SPECIAL EVENT. To commemorate the 80th anniversary of the founding of the Club Radio Amateur de Quebex (CRAQ) look for the special event station VE2CRAQ to be aired between March 18-26th, during the club's QSO Party. A very nice QSL card will be available. All details about the QSO Party and a picture of the QSL is available at the following Web sites:
QSL Card - http://www.radioamateur.ca/images/craq-qsoparty.jpg
QSO Party Info - http://www.radioamateur.ca/transfert/CRAQ-QSO-Party.pdf

SPECIAL EVENT. The International Shortwave League (ISWL) continues with their 60th (Diamond) Anniversary celebrations throughout the year. If you missed the "GB6SWL" activity this past weekend, look for it to be active again on March 17-19th and 25-26th.

GB6SWL - Will be active for 3 days, March 17-19th, from Portadown, Northern Ireland. John, GI0KUH, will be the main operator.
GB6SWL - Will be active March 25-26th from Walton on the Naze, Essex. Herbie, G6XOU, will be the main operator.
Special activities will run throughout the year. These will include the callsigns "GB60SWL" and "GB6SWL" being active at various times and venues. For more details, including the QSL information and Awards, please visit: http://www.iswl.org.uk

TF, ICELAND. To celebrate the 60th anniversary of the Icelandic Radio Amateurs (IRA), all TF operators are allowed to use the special prefix TF60 throughout the year of 2006. The IRA is the National Association of Radio Amateurs in Iceland and was established on the 14th of August 1946, and currently has about 130 members. Seli, TF3AO, Treasurer of the IRA, informed OPDX that TF60IRA has been on the air and was active in the ARRL CW Contest. Visit the IRA Web page at: http://www.ira.is

TY, BENIN (Update). OPDX was informed that the callsigns for the upcoming TY DXpedition to take place March 15-30th have been confirmed now. The confirmed callsigns are: TY4TW (QSL via GM4FDM), TY5LEO and TY5MR (both QSL via IK1PMR), and TY5WP (QSL via PA7FM). More details/updates and a log search will be availble at the following Web sites:
http://www.ty5wp.pa7fm.nl
http://www.ik1pmr.com

VP5, TURKS AND CAICOS ISLANDS. Craig/VE3OP and his XYL Roxanne/VA3ROX will be active as VP5/VE3OP from here between March 12-22nd. Activity will be on all bands, 160-6 meters, CW/SSB and PSK31/RTTY. QSL via direct to VE3OP or via the bureau. See QRZ.com for details.

Allright ive got everything covered from 440 down with the icom 706
mk2g & antenna arrays
but from 440mhz up i need to replace the scanners with something more
sensitive and with
better adjustments. So whats the verdict? Any good sugguestions, there
is a large hamfest
in Charlotte this weekend (Mar 11-12) so I need some input by the
weekend.

Source record: 3720

http://www.naic.edu/aisr/sas/transmitter/trans-home.html

It feeds the big radio astronomy disk in Arecibo. They use it to
bounce radar off of planets and such. It probably desenses all 70cm
handie talkies in town when they fire it up....

419. Portable QSL

Hi,

I guess this is a dumb question. I worked HI3/OK2ZU, on the qsl card do i put his call down with the portable modifier or should i put his regular call and write portable Dominican Republic? Sorry but I'm kinda new to DXing.

Please remove the nospam to email direct. Thanks for the help

Hello,

Just reply to the call you contacted (portable) and send the card via
homecall or QSL-manager's call, there must be a blank box on the card for
that. If you have single-sided cards, write the homecall at the upper right
edge of the backside of the card.
You finally worked OK2ZU when he was HI3, and not when he was at home...

Put it down like you have it HI3/OK2ZU. It should be logged as a
Dominican Republic QSO. If you check the cluster in your area, you
will see lots of calls stated that way. For example, VK3ZL spotted
N0NM is calling CQ on 160 meters from DU9 (Philippines) at 1033z.

DX de VK3ZL: 1828.3 DU9/N0NM Calling CQ QSX up 3.. DU 1033Z VK

Dayton Hamvention® Announces 2006 Award Winners

DAYTON, OH, Mar 10, 2006--Dayton Hamvention has announced the winners of its 2006 Amateur of the Year, Special Achievement and Technical Excellence awards. Being honored for their contributions to the Amateur Radio Service are Gordon West, WB6NOA--Amateur of the Year; Riley Hollingsworth, K4ZDH--Special Achievement Award, and Dick Illman, AH6EZ--Technical Excellence Award.

Hamvention Amateur of the Year: Gordon "Gordo" West, WB6NOA

Gordon West, WB6NOA

West, of Costa Mesa, California, was named Amateur of the Year for his efforts in recruiting and training many new amateurs, in addition to his nearly lifelong involvement in ham radio. Starting in the late 1950s "Gordo," as he is known, worked for some of the big names in the field helping to develop several innovative pieces of equipment.

In the 1980s West and his wife Suzy, N6GLF, began teaching ham radio classes at college and marine venues and authored Amateur Radio training books sold by RadioShack and equipment dealers around the country.

A Radio Club of America fellow and a recipient of the ARRL Instructor of the Year Award, West remains active from 75 meters through 10 GHz, spending at least a couple hours on the air every day, helping new hams make friends on the many nets he runs.

In addition, West volunteers with the American Red Cross communications team in Orange County, California, and regularly offers free kids classes and classes for cities to support their Community Emergency Response Teams (CERT).

"It's my give-back to a hobby that gives me the satisfaction of offering free classes for kids and emergency responders, and I thank all the ham operators who support our training program, and the ARRL for their continued support with the emergency communication Web-based classes," West said.

Special Achievement Award: Riley Hollingsworth

Riley Hollingsworth

Hollingsworth, who's Special Counsel in the FCC Enforcement Bureau at the FCC's Gettysburg, Pennsylvania, office, will receive Hamvention's Special Achievement Award for his efforts in resurrecting the FCC's

Amateur Radio enforcement effort and helping to eliminate an increasing number of enforcement problems plaguing the ham bands. Hollingsworth's efforts, begun in 1998, reversed more than a decade of FCC apathy in amateur enforcement. Radio amateurs across the US credit Hollingsworth with reducing malicious interference and other problem behavior on the air.

Hollingsworth's other FCC responsibilities include interference resolution in the Land Mobile and Public Safety Services. In past years, he served as co-chair of the FCC's PCS Broadband and Narrowband Licensing Task Force, for which he received a Reinventing Government Award in 1994. He also managed the FCC's 800 MHz Task Force in which new 800 MHz spectrum was assigned in 13 cities, and he organized a Commission enforcement initiative to recover underutilized land mobile radio channels in major cities for reassignment.

A graduate of the University of South Carolina, he received his law degree from Wake Forest University. Hollingsworth was first licensed in 1960 in his home state of South Carolina and is a member of the Quarter Century Wireless Association and F.I.S.T.S. CW club.

Technical Excellence Award: Richard "Dick" Illman, AH6EZ

Dick Illman, AH6EZ

Illman, who lives in St Charles, Illinois, was picked to receive the 2006 Technical Excellence Award for his work as principal staff engineer at Motorola in developing a broadband over power line (BPL) system for his company that essentially eliminates HF interference. The nominating committee cited Illman's technical knowledge and his willingness to help tackle and overcome BPL's thorny interference issues, influencing Motorola to deliver his patent-pending solution, Powerline LV.

Motorola approached the ARRL in 2004 seeking input on a BPL design that could avoid many or most of the interference problems that have plagued some other BPL systems. The company and the ARRL subsequently cooperated in deploying a test stand Powerline LV system between ARRL Headquarters and W1AW. Preliminary results from the ARRL tests have shown the Motorola Powerline LV system seems to be Amateur Radio-friendly.

Motorola introduced its Powerline LV wireless-to-low voltage BPL solution at the United Telecom Council's "Telecom 2005." The ARRL has cited the Motorola solution in filings to the FCC as an example of a BPL system designed to avoid interference to or from Amateur Radio.

Illman, who hold a bachelor's degree in electrical engineering, has enjoyed a 31-year career with Motorola Systems Engineering. His idea to include a set of hardware notch filters in Motorola's Powerline LV equipment to protect Amateur Radio beyond the traditional technique of turning off specific carriers is an industry first.

His passion for ham radio began in high school as a Novice licensee in 1969 and has continued over 37 years on all bands and all modes. It has included everything from working satellites while aboard a moving passenger train to demonstrating ISS contacts to Boy Scouts. An avid DXer he works more than 200 countries each year, in part because of a friendly competition among his fellow Fox River Radio League members in Aurora, Illinois. Illman has been the club's president for the past two years and has been recognized with the club's Ham of the Year award three years in a row.

Difficult Choices

Hamvention Awards Chairman Pat Johnson, KC8ZZO, said the committee faced a tough task selecting the winners from among a number of worthy nominees. "We were impressed with the quality of the nominations," he said. "We believe the winners all represent excellence in service to the ham radio community."

Hamvention Chairman Jim Nies, WX8F, praised the winners. "On behalf of the Dayton Amateur Radio Association and Hamvention 2006, it is my distinct pleasure to congratulate this year's award winners," he said. "Please join me in recognizing each of these gentlemen for their outstanding contributions to Amateur Radio and their many years of devotion to the Amateur Radio Service."

Held this year from May 19 until May 21, Dayton Hamvention, the world's largest Amateur Radio gathering, annually attracts more than 25,000 people to the greater Dayton area. The event includes exhibits, a flea market, forums and educational sessions. More information is on the Hamvention Web site.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Letter, K1XN & GoList, NC1L, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W6LD, K8YSE, K9GY, K9WZB, 9A5CY, 9V1CW, DL1EK & The DX News Letter, DL3APO, DL4KQ, EC8AUA, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, LA3OHA, OK1DOT, UA4CC and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 5th/March, through Sunday, 12th/March there were 228 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3D2/r, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5U, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS (Maybe 3B9 too!). Operator Jose, ON4LAC, will be active as 3B8/ON4LAC between March 17th and May 13th. Activity will be on 80-10 meters SSB, RTTY and PSPK31. He is also trying to get authorization to go and operate from Rodrigues Island as 3B9/ON4LAC. If he gets the permission, he will be active between April 25th and May 13th. QSL via

his home callsign.

4Z, ISRAEL (Holyland Areas). Alex, 4Z5KJ, will activate some Holyland Areas (for the Holyland Award) on his business trip to the south of Israel on March 13th. He will sign 4Z5KJ/m and will leave his home (G-11-HS) at 0400z. While traveling mobile, Alex will activate the following areas:
HS: G-11, G-12, H-12 RH: F-17
PT: G-12, H-12, G-13, G-14 RM: G-17, F-17
RM: G-15, G-16, F-17 AS: F-18, E-18, F-19, G-19, E-20, F-20, E-21
JS: G-16, G-17 BS: E-21

From 1100-1200z, he will reactivate Holyland Areas:
BS: J-26, J-25, K-25, K-23, J-22, H-22, H-23, G-23, G-22.
HB: G-22.

All activity will be on the usual frequency 14265 kHz. Alex is planning another trip next week. More details about the "Holyland Award" is available on the 'Israel Amateur Radio Club" (IARC) Web page at: http://www.iarc.org

5T, MAURITANIA. Fernando, EA1BT, will be active as 5T6BT, April 7-16th. Activity will be on all bands. QSL via EA4URE.

5Z, KENYA. Look for Riccardo to sign 5Z/IZ1GDB from April 20th to May 1st. Activity will be on 40/20/15 meters SSB. QSL via his home callsign, by the bureau or direct using the QRZ.com address.

9A, CROATIA (Special Event). Members of the Radio Club "JAN HUS" Daruvar (9A1CCY or 9A5Y in contests) will be operating with the special callsign 9A35Y (NINE-ALFA-THREE-FIVE-YANKEE) to celebrate their 35th anniversary of their formation. Their first activity was during this past weekend's CQ RTTY WPX Contest. Look for this callsign to be used throughout the year of 2006. Activity will be on 160-10 meters, as well as 6 and 2 meters, CW, SSB and RTTY. QSL Manager is 9A5CY: Dean Milde, P.Preradovica 15, HR-43500 DARUVAR, CROATIA.

9K, KUWAIT. Operators Hamad/9K2HN, Faisal/9K2RR, Faisal/9K2ID, Yaser/9K2YM, Ahmed/9K2OO, Ahmad/9K2DB and Mohamed/9K2CQ will be active as 9K2HN during the CQ WW WPX SSB Contest (March 25-26th) as a Multi/Single entry. QSL via 9K2HN (QRZ.com).

AP, PAKISTAN. Operators Ijaz/AP2IA and Dane/S57CQ will be active as AP2IA during the CQ WW WPX SSB Contest (March 25-26th) as Multi/Single entry. QSL via AP2IA, direct or by the Bureau.

BP0, TAIWAN. Operators Wendy/BV2RS(YL), Katie/BU2AO(YL), Bruce/BV2KI, Eddie/BV2DD, Hao/BX4AQ, Pro/BX4AN, Lee/BV2NT, Evan/BV2KS, BX9AAA, BM2AAL and BM2AAV will be active as BP0P during the CQ WW WPX SSB Contest (March 25-26th) as a Multi/Multi entry. QSL via BV2KI.

C6, BAHAMAS. Eric, K9GY, will be active as C6AYM from Nassau, New Providence Island during the CQ WW WPX CW Contest (May 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL via K9GY, direct or by the Bureau. Eric informs OPDX that he will be there from Thursday, May 25th to Monday, May 29th.

Most of his operating will be in the contest on 40/20/15/10 meters (maybe 80m - if he gets an antenna strung up). Mode outside of the contest will be CW. ADDED NOTE: Eric states, "Slight chance I might operate from Eleuthera Island instead."

C9, MOZAMBIQUE (Still looking for Ops!). Frosty, K5LBU, announced again this past week that he is still looking for operators to go to Maputo, Mozambique, for 15 days and to be active in the IOTA Contest. Currently, the operators are Frosty and Tom, WW5L. They would like to have 6 operators so they can set up 2 complete stations. They need CW operators. For details, contact Frosty via E-mail at: frosty1@pdq.net
Also, visit the following Web pages for more details:
http://www.k5lbu.com http://www.dxsafari.com
http://www.africandxsafari.com http://www.tdxs.net/C9.html

CENTRAL/NORTH AMERICAN OP. Marcos, EA1APV, is planning to spend 26 days in Central and North America, and he hopes to be active from 6 different locations. His planned schedule is as follows:
March 22-26th: He will be active from Guatemala City, Guatemala (TG), to take part in the CQ WPX Contest with a special callsign with other TG Hams in a Multi category entry. Callsign will be TG7M.

March 27-28th: Active as TG7M/P, from Tikal Ruins, North Guatemala. Mayan Tikal Ruins are the most important ancients of Guatemala.
March 29th
to April 2nd: Active as V31SF from Orangewalk, North Belize (V31). A special effort will be on WARC bands.

April 4-5th: Active as HR5/EA1APV from Copan Ruins in Honduras (HR). The Copan Ruins are the most important ancients from Mayan Culture.

April 7-14th: Active as HR6/EA1APV from Roatan Island (in the Bahia Island Group - IOTA NA-057).

April 15-20th: Active as W4/EA1APV from Florida. Activity will be from different lighhouses in the Cayos Area.

On April 21st, Marcos will take a one day tourist trip on a ship to Barbados. On April 22nd, he will return to Spain. QSL via EA1APV. He prefers direct QSL (w/SAE and 2 USDs/1 IRC), but will accept bureau QSL (these will be delayed for several months to ship). Send one QSL per envelope (PLEASE DO NOT SEND OLD IRCs). All the QSOs will be uploaded on the LoTW. His direct home address is: Marcos Su&#65533;rez, Capitan Almeida 25 4&#65533;B, E33009 Oviedo, Spain. QSLs received direct without SAE and with 1 USD/IRC will be sent out via the Bureau.

DAYATON 2006 HAMVENTION NEWS. A press release by Jay, K4ZLE, from the SouthWest Ohio DX Association (SWODXA) states: "The program for the 21st annual DX Dinner has been finalized. The speaker this year will be Harvey Laidman, W8DX. Harvey has had a 30 year career directing network TV shows

including "The Waltons", "JAG", "7th Heaven", "Magnum PI", and many, many more. Harvey suggested the following as titles for his presentation: "DXpedition to Oblivion", "The Psychosexual Evolution of Ham Radio", "I Hate Ham Radio", "DXing and its Power Over the Opposite Sex", "Fifty Years in Front of the Same Table", "I Didn't Fall off the Roof. This is How I am.", "Put That Stuff Down and Go Get a Job", "You'd Rather Talk to Stranger Than to Me!". He added that regardless of what title we pick, the program will be the same! We think the program will be very entertaining. Tickets are moving quickly and we expect to sell out. If you plan to attend, please act now. The dinner will be Friday evening, May 19th, at the Crowne Plaza Hotel, located in Dayton city center. Tickets are 34.00 USDs per meal, payable in U.S. funds to SWODXA. (Sorry, We do NOT process PayPal or Credit Card payments.) You may order from Jay Slough, K4ZLE, at his CBA. Requests received without SASE will be available at the door. If you do not send an SASE, include your E-mail address and we will confirm receipt of your check. We attempt to honor group seating requests when tickets are ordered together. DX stations wanting to attend should contact Jay directly for payment options." Further information may be obtained from Jay at: k4zle <at> yahoo <dot> net
K4ZLE's CBA is 8183 Woodward Dr., West Chester, OH 45069. Also, visit the SWODXA's Web page to see the prizes they are giving away at: http://www.swodxa.com/dxdinner.htm

DXCC NEWS.....
Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operation is approved for DXCC credit:
YI/OM2DX - Iraq; Operation commenting June 9th, 2003

This week's ARRL Letter reports/reminds DXers that the DXCC Honor Roll deadline is approaching: "The deadline for the next ARRL DXCC Honor Roll list is rapidly approaching. In order to appear in next list, which will be published in August 2006 QST, operators must be current on the DXCC Honor Roll as of March 31, 2006 -- the last day applications may be postmarked. To qualify for the DXCC Honor Roll, operators must be within the numerical top 10 of the overall entities on the DXCC List. Since there are 335 current entities on the DXCC List, the minimum level to make the Honor Roll is 326 current entities. Deleted entities do not count toward DXCC Honor Roll. Wall plaques remain available for those currently or previously on the Honor Roll. The DXCC Web site has the order form and more information <http://www.arrl.org/awards/dxcc/>.

EY0, TAJIKISTAN. Operators Ark/UA4CC, Roman/UR0MC, Nodir/EY8MM, Alex/EY8CQ, Artem/EY8BA and possibly several other operators will participate in the Russian DX Contest (RDXC) during March 18-19th in the MOST category (Multi Op, All Bands, Single transmitter, MIXED) using the callsign EY0R from Dushanbe, Tajikistan. They will be active on all bands CW and SSB. QSL via UA4CC (direct or by the bureau). E-mail QSL-requests are also welcome. During the period of March 14-21st, EY8/UA4CC and EY8/UR0MC will be active on all bands, especially on the WARC and lower bands CW/SSB/RTTY. QSL via their home callsigns.

GERMAN HAMRADIO (2006 Friedrichshafen). Frank, DL4KQ, GDXF Administrator, informs OPDX that to celebrate its 10th year anniversary, the German DX Foundation (GDXF) is proud to present the following DXpedition highlights of 2005 during the German HAMRADIO, Friedrichshafen, June 23-25th. On Saturday, June 24th, 4 P.M., the GDXF will present exclusively:
1. 3Y0X - Peter I Island Presentation
2. K7C - Kure Island Presentation
3. Announcement/Presentation of the GDXF DXpedition AWARD

HB0, LIECHTENSTEIN. Operators Gerry/IZ1DSH and Giovanni/IK1WEG will be active as HB0/homecall from April 22-25th. Activity will be from the locality of Gaflei (1000m ASL) on 80/40/20/17/15 meters CW/SSB/RTTY. QSL via their home callsigns, direct or by the Bureau.

HH, HAITI. Operator Chris, W3CMP, will be heading here on a mission trip with the Northwest Haitian Christian Mission <http://www.nwhcm.org/> from June 17-28th. He will be active as HH4/W3CMP from St. Louis du Nord (Grid FK39) on the northern coast. Activity will be mainly on 6 meters, but he will also be on the HF bands (limited) and 2 meters. There is an existing tower with a tribander at the site, but he hopes to mount more antennas above the existing ones. He will emphasize multiple hop sporadic E openings on 6 meters and whatever meteor scatter or sporadic E he can also find on 2 meters. Chris notes Haiti has been absent from 6 meters the past few years, and he hopes to give it out as a new 6m country to many stations. Chris is currently debating whether to take his 800w or 200w 6m amplifier along and use it with a five or six element yagi. Chris is also thinking about making a possibe side trip to Navassa Island (KP1) for an operation since he hears that Haitian fishermen occupy the island on a regular basis. However, the tricky part is getting the official U.S. permission to land and operate from it, which is required for it to count for DXCC.

IOTA NEWS.....
EU-127. A group of 30 operators will be active as DA0HEL (DOK E-20) from Helgoland Island (N-14 for the German Islands Award) between March 16-21st. They will also activate the Helgoland Lighthouse (GLHA #26, ARLHS FED-101, WLH DL-009, WLOTA LH 0518). Look for activity on the usual IOTA frequencies, CW, SSB and the Digital modes. QSL via DA0HEL (by the bureau is prefered).

EU-189. A group of operators plan to activate the rare Scottish Isle of Rockall between June 16-28th. The group is currently waiting for a special callsign (TBA). Operators mentioned so far are: Jacek/SP5DRH, James/MM0CWJ, Witold/SP5LCC, Terje/LA3OHA and more to be announced (they want 12 ops for this trip - XYL, YL and OM). QSL route will be announced later. More details are forthcoming but for now visit the following Web page at: http://www.dxpedition.org
OC-008/
OC-181. Johan, PA3EXX (aka VK4WWI), will be active as P29VV from Witu Islands (OC-181), June 16-19th. Activity will be on CW/SSB on 40/30/20/15/10 meters. If possible, he will operate from New

Britain (OC-008) a few days before and after his OC-181 activity.
QSL info and additional information will be published on:
http://home.quicknet.nl/mw/prive/willemsen/

OC-258. (JUST A REMINDER!) Operators Jerry/P29ZAD, Norm/P29NB, Tommy/
P29TL and Peter/P29KPH will activate the rare IOTA Kranket
Island as P29K between 0000z, March 17th to 0400z, March 20th.
Activity will be on 80-6 meters SSB. Suggested frequencies are:
3755, 7055, 14260, 18128, 21260, 24950, 28460 and 50260 kHz.
QSL via LZ1JZ (QRZ.com). Further information can be found at:
http://P29K.blogspot.com

J5, GUINEA-BISSAU. Peter, HA3AUI, who was recently active as 6W/HA3AUI
from Senegal, is now active as J5UAP until the end of April. Look for
activity on 20/17/15/12/10 meters, SSB, with some possible PSK and RTTY.
QSL via home callsign direct only.

J6, ST.LUCIA. Jack, K9JE, will be active as J68AR from March 16-20th.
QSL via K9JE.

OH0, ALAND ISLAND. Juha, OH9MM, will be active as OH0Z during the CQ WW
WPX SSB Contest (March 25-26th) as a Single-Op/All-Band entry. QSL via
W0MM.

MJ0, JERSEY (Castle Activity). Chris, M0DOL, plans to make a trip to the
Island of Jersey (EU-013) and be active as MJ0DOL/p. He also plans to
activate some castles while there between April 26th and May 4th. A list
of castles will be forthcoming.

P40, ARUBA. John, W6LD, will be active as P40L between March 22-29th.
His activity will include the CQ WW WPX SSB Contest (March 25-26th) as
a Single-Op/All-Band entry. Outside of the contest John will be active
on 160-10 meters CW/SSB. QSL via K5WW.

QSL INFO AND NEWS.....
Jun, JA2EWE, was active this past week as 3D2JM from the Fiji Islands.
QSL via his home address at: http://www.hamcall.net/call?callsign=ja2ewe

QSL Manager Peter, DL3APO, informs OPDX that the log search page for
the recent German FO operation has a new design (thanks to DF3CB for
his Log Search Script). It has also been updated after the return of
Wulf (FO/DL1AWI), Mat (FO/DL5XU) and Erik (FO/DL9AWI). QSL via DL3APO.
Please visit the Web Page at: http://www.radioklub.de/cgcg

QSL WP3F via OK1DOT at: Petr Gustab, Box 52, Cesky Brod, 282 01 CZECH
REPUBLIC. E-mail: petr.gustab@seznam.cz

S65, SINGAPORE. Selva, 9V1UV, will be active during the BARTG RTTY Contest
(March 18-19th) using the Singapore Amateur Radio Transmitting Society's
(SARTS) special contest callsign S65X. Operations will be from Selva's home
QTH. QSL via PA0KHS.

TC3, TURKEY. Members of the Balkan Contest Club will operate from Karacabey,
Asiatic part of Turkey, as TC3A during the CQ WW WPX SSB Contest (March

25-26th) as a Multi-One entry. QSL via LZ1KZA.

V2, ANTIGUA. Nobby, G0VJG, will be active as V25V from June 23rd through July 6th. Bands/Modes of activity were not provided. QSL via G4DFI, direct or by the bureau.

VK9L, LORD HOWE ISLAND. Merv, N6NO, will celebrate 55 years of hamming and his 70th birthday from May 5-13th as VK9LNO. Activity will be mostly CW with 100 watts and wire antennas on 80-10 meters. QSL to N6NO.

VU4, ANDAMAN ISLANDS. Frank, DL4KQ/VU3FRK, (NIAR Coordinator Europa), has informed OPDX that (ed. edited) "The already announced 3 day VU4- activities during the NIAR HAMFEST at Pt. Blair (VU4) has been extended according to information received from Bharathi, VU2RBI. All licensed participants of the hamfest (April 18-20th) are now permitted to operate from Andaman Islands for a period of 8 days. It is still possible to join the hamfest and apply for VU4 licenses (info: www.niar.org). The permitted operations will cover all Indian HF hambands including 30m and 2m EME operations planned by DL9GFB and DL9MS."
ADDED NOTE: Frank, DL4KQ/VU3FRK, and a team of operators will be active from the Andaman Islands during the above event. Possible callsign will be VU4/VU3FRK or individual callsigns issued. Operators announced so far are Frank/DL4KQ (CW), Sarath/VU3RSB (Digital), Bernd/DL5OAB (CW), Doug/ N6TQS (Digital) and possibly three other operators. Activity will be on 160-10 meters (including 30m) with an emphasis on CW. QSL route TBA. Visit the following Web for updates at: http://www.dx-pedition.de

VU4, ANDAMAN ISLANDS. Joe, DK5WL, will be active from the Andaman Islands betweem April 18-23rd. Callsign will be in the form VU4/VU3***. His activity will be on 160-10 meters all modes, but he will focus on 20/30/40 meters CW and PSK31. Logs will be sent to the ARRL's LoTW. There will be updated information and an online log at: http://www.160m.de

ZD8, ASCENSION ISLAND. Jim, N6TJ, will once again be active as ZD8Z, March 19-30th. He will participate in the CQ WW WPX SSB Contest. QSL via VE3HO.

K1MAN EDITORIAL - ED060316A -

K3VR IS A HYPOCRITE

Old Brian holds himself out to be an A-1 amateur radio operator. But his reaction to a legitimate complaint* regarding criminal amateur radio interference by, for example, KZ8O (former ND8V), is not outrage against KZ8O but rather outrage against the station interfered with, K1MAN. Interesting! Brian has just totally destroyed his claimed amateur radio credibility.

Brian is a staunch supporter of ARRL. KZ8O is a staunch supporter of ARRL. ARRL is silent on this issue. The FCC, so far, is silent on this issue. Do you see a pattern here? Interesting!

It looks like Brian is not much of a ham after all. He is more interested in "nailing" K1MAN for something, anything, rather than FCC rules or United States law. Or, Brian is just plain stupid!

Brian is not THAT stupid. He is simply acting like a spoiled kid in kindergarten. His juvenile emotions simply over ride his adult intelligence; often seen with kids in school. Get a grip, Brian! You usually make a total fool of yourself. ARRL and the FCC are not very far behind!

73 and GL de K1MAN

432. YOUR LEADER K1MAN FILES FORMAL FELONY COMPLAINT AGAINST KZ8O

* To the United States Justice Department:

FORMAL FELONY COMPLAINT

In the matter of

Glenn A. Baxter, P.E., K1MAN
Registered Professional Engineer
Licensee of Amateur Radio Station K1MAN

against

Michael E. Guernsey, Sr.
Licensee of Amateur Radio Station KZ8O

Complainant, Glenn A. Baxter, P.E., K1MAN, hereby makes this affidavit from his own personal knowledge and says that:

Complainant began his amateur information bulletin service at 1400 UTC on the clear frequency, 14.275 MHz., on 13 March 2006. On or before 1544 UTC, amateur radio operator Michael E. Guernsey, Sr., KZ8O, caused intentional interference to amateur radio station K1MAN in criminal violation of federal law, namely Sections 333 and 501 of the 1934 Communications Act:

Section 333:

No person shall willfully or maliciously interfere with or cause interference to any radiocommunications or any station licensed or authorized by or under this act or operated by the United States government.

Section 501:

Any person who willfully and knowingly does or causes or suffers to be done any act, matter or thing, in this Act prohibited or declared to be unlawful, or who willfully or knowingly omits or fails to do any act, matter or thing in this Act required to be done, or willfully or knowingly causes or suffers such omission or failure, shall, upon conviction thereof, be punished for such offense, for which no penalty (other than a forfeiture) is provided by this Act, by a fine of not more than $10,000 or by imprisonment for a term not exceeding two years or both.

At 1546 UTC K1MAN changed transmitting frequency to 14.272 MHz. to get
away from this criminal radio interference.

And was this "information bulletin" one of the following?:

o ARNewsline
o the Rain Report
o the HandiHam newsletter
o the ARRL letter
o This Week in Amateur Radio

If it wasn't, it was probably another one of Glenn's self-aggrandizing broadcasts.
As you know, one-way broadcasts are verboten on amateur radio. (Sec. 97.113(3)(5b))

No where in the FCC rules does it state that an Information bulletin
has to be a newscast. All those you mentioned are newscast. The rules
only state it has to be "solely of subject matter of interest to the
amateur radio service" (see below)

97.3 Definitions
(a) The definitions of terms used in Part 97 are:

(25) Information bulletin. A message directed only to amateur operators
consisting solely of subject matter of direct interest to the amateur
service.

§97.111 Authorized transmissions.

(b) In addition to one-way transmissions specifically authorized
elsewhere in this Part, an amateur station may transmit the following
types of one-way communications:

(6) Transmissions necessary to disseminate information bulletins;

It's funny that people only read 97.113 and not the rest of the rules
including the definition

(10) Broadcasting. Transmissions intended for reception by the general
public, either direct or relayed.

If the transmission is directed to the general public it's a broadcast,
if it's directed to the amateur service and consist solely of subject

matter of a direct interest to the amateur radio service then it's legal.

Hi everybody.

I just finished posting 3 vintage scanners that belonged to my dad.

He recently passed away and I have no used for them since I don't share the interest in this activity. The only thing I know is that it's quite addictive!

here are the links to 3 models. All starting at 0.01$ with fixed (decent) shipping rates of 15$ and 20$ each.

I don't really care if I make any money off of these, I only want them to find a good home with somebody that will take care of them like my father did.

Regards,

Jean-Guy.

"solely of subject matter interest to the amateur radio service."
Broadcasts of, by, about, from, and to K1MAN are of no interest to anyone
but K1MAN.

These so called "FORMAL FELONY COMPLAINTs" are totally bogus!
K1MAN has no authority to so.
Read what the FCC had to say about this back in 2001:
December 11, 2001

Mr. Glenn A. Baxter
RR 1 Box 776
Belgrade Lakes, ME 04918

RE: Warning Notice--Amateur Radio license K1MAN
Dear Mr. Baxter:

The Commission has information that you have sent numerous so-called "Standard Felony Complaint Affidavits" to various Amateur Radio licensees that you perceive to either cause interference to your Amateur Radio station K1MAN or do not relinquish to you the frequency on which they are operating. Inasmuch as you have successfully completed an examination for an Amateur Radio license, you should be aware that all Amateur frequencies are shared. You have no greater rights whatsoever to an Amateur Radio frequency than any other Amateur Radio operator.

We also note that on January 5, 1994, the United States Attorney for your jurisdiction, Jay P. McCloskey, warned you about the mailing of such "Standard Felony Complaint Affidavits" and stated:

DO NOT send any more Standard Felony Complaint Affidavits to our office. The interference you allege, even if intentional, is not a federal criminal offense over which our office has prosecutorial jurisdiction.
The letter from United States Attorney McCloskey also referenced letters that you had sent other Amateur operators alerting them of supposed criminal charges instituted by McCloskey's office. In his letter to you, McCloskey stated:

It is against the law to write and mail this type of threatening communication, especially when it has no basis in fact. If you continue sending this type of letter, you may be subject to federal criminal charges for misrepresentation and for using the mails to make threats. You may also jeopardize your Amateur license.

You are advised that any attempts to threaten or intimidate Amateur Radio licensees operating on the Amateur bands will reflect adversely upon your qualifications to remain a Commission licensee, and will be the subject of a license revocation or renewal hearing.

again why should go to any troule to pick up such mail?

you and I have any legal right to demand another person goes to any
trouble to collect and read mail we send them

I don't excercise any trouble to collect mail from addresses unknown to
me, nor would I accept registered ail various persons known to me, such
as yourself for example or Robeson for another

so the question stand why should K1MAN assit those that wish to attack
him?

what you are suggesting is insanity

your know this paragraph and the leter it comes does not state that
threatening of or intimidation Ham has to occour over Ham radio

with stev et all threatening YOU over your bullitens over the net
prehaps there is a basis for complainig to the FCC to try and Steve
license revoked

it is a thought and you might look into it

even if one person like listening to his show and continues to listen
to his show, then it would fall within that catagory because it is
something to interest to a lease one member of the amateur radio
service.

If one person continues to listen to his program, then it's an interest to someone in the amateur radio service. There is no real specification on how many people are require to listen to an information bulletin to deem it "an interest to the amateur radio service" and the courts would tell youhe samething. If even one person listens to it, it's an interest to someone in the service.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/March, through Sunday, 19th/March there were 223 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3D2/r, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T5, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, VE, VK, VK9N, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B9, RODRIGUES ISLAND. Jose, ON4LAC, will be active as 3B9/ON4LAC from April 18-29th. Activity will be on 80-10 meters, SSB, RTTY and PSK31. QSL via ON4LAC.

3Z, POLAND. Kris, SP6DVP, will be active using the special callsign 3Z6V in the CQ WPX SSB Contest (March 25-26th) as a Single-Op/Single-Band

(20m)/Low-Power entry. QSL via SP6DVP (QRZ.com address): Krzysztof Kris Bieniewski, P.O. Box 2210, PL 45-246 OPOLE 15 ZWM, POLAND - EUROPE.

4L, GEORGIA. Vakhtang "Vaho", 4L8A, will be active in the CQ WW WPX SSB Contest (March 25-26th). QSL via DJ1CW.

5A, LIBYA. An international team of operators are planning to put together a November 2006 Libya DXpedition which will include an entry in the CQ World Wide CW DX Contest. Activity will be on all bands with CW and SSB, and for the first time ever, digital modes on RTTY, SSTV and PSK plus another first will be FM. They will use the callsign 5A7A. Their plan is to be active from November 14-28th. The team will be located at the Mediterranean coast just outside Tripoli the capital city. The team members will include: Andy/DJ7IK, Mustapha/DL1BDF, Dominik/DL5EBE, Gunter/DJ9CB, Ruth/IT9ESZ (YL), David/K3LP, Manfred/DK1BT, Volkmar/DF2SS, Falk/DK7YY, Andi/DL9USA, Markus/DJ7EO, Jan/DJ8NK, Franz/DF6QV, Rein/PA0R, Willy/HB9AHL, Franz/DK1II, Pirmin/HB9DTE, Jurgen/DJ2VO and Dieter/DL3KDV. Direct QSL request are via DL9USA. The Bureau QSL cards will be processed very last after the direct requests are processed. More information is available on their Web page at: http://5a7a.gmxhome.de

8J, JAPAN. Members of the Nippon Boy Scout Amateur Radio Club (JA1YSS) will be active as 8J1S during the CQ WW WPX SSB Contest (March 25-26th) as a Multi/Single entry. QSL via the Bureau.

8Q, MALDIVES. Simon, M0BOX, is planning a second and final holiday trip here, and will be active as 8Q7BO from the Kuredu Island Resort (AS-018), April 7-20th. Activity will be during his spare time on all bands 40-10 meters, the WARC bands included. Simon will concentrate on the digital modes, mainly PSK31 plus RTTY and maybe SSTV if requested, and of course SSB. He will NOT be accepting SKED requests before activation. However, Simon hopes to be able to connect to the DXCluster network and announce his operating frequency and mode. QSL via his home callsign. Further information and updates can be found at: http://www.btinternet.com/~m0box/

9M6, EAST MALAYSIA. Operator Pete, SM5GMZ, will be active as 9M6/SM5GMZ starting March 21st for two weeks. Activity will be on all bands and modes, with a special emphasis on 160/80 meters. QSL direct to his home callsign.

A72, QATAR (Special Event). Operators Juma/A71EM, Ali/A71BX and possibly other Qatari stations will activate the special event callsign A72OO6 (Alfa Seventy Two Oscar Oscar Six) from June 1st to July 31st (two months). Activity is to celebrate the preparation for the 15th (2006) Asian Games to be held in Doha. Activity will be on all modes and bands. QSL via EA7FTR.

AH8, AMERICAN SAMOA. Dr. Gavin, W9EYE, plans to be active as AH8/W9EYE from here May 15-21st. Activity will be limited during his spare-time while working as a medical missionary in Pago Pago, Tutuila Island (OC-045). Look for him to be active on all HF bands SSB (no CW) as propagation allows. QSL via his home callsign with SASE or via the W9 Bureau.

AX, AUSTRALIA. Operators Keith/VK6XH, John/VK6NU, Andrew/VK6ARA, Mirek/
VK6DXI, John/VK6HZ and Wesley/VK6WPX will be active as AX6ANC during the
CQ WW WPX SSB Contest (March 25-26th) as a Multi/? entry. QSL via VK6NE.
The "AX" prefix is to celebrate the Commonwealth Games.

C6, BAHAMAS. Foster, W1CGT, is active as W1CGT/C6A from South Andros
Island (NA-001), now through March 25th. Activity will be limited and
will take place mainly between his afternoons on 14300 kHz (+/- 50hz)
on SSB. He will be active on other bands (40-6 meters) as conditions
allow. QSL via his home callsign (QRZ.com).

CARIBBEAN TRIP. Ronnie, SM7DKF, will be activating two Caribbean islands
(FJ and FS) in May. Activity will be on all bands using an Icom IC-706
MkIIg with 100w. QSL only direct to SM7DKF or LoTW. His schedule is as
follows:
May 6-10th - Activity from St. Martin (NA-105, DIFO FS-001, Grid FK88)
as FS/SM7DKF from the Esmeralda Resort, Orient Beach.

May 10-20th - Activity from St. Barthelemy Island (NA-146, DIFO FJ-001,
Grid FK87) as FJ/SM7DKF from the St. Barth's Beach Hotel.

FG, GUADELOUPE. Jean-Pierre, F5CVI, will be active as FG/F5CVI from
Sainte Rose, March 20-27th. Activity will be on 40-10 meters, possibly
160/80 meters depending on local conditions, on SSB and RTTY. QSL via
his home callsign. His log will be available after his operation on the
Web page at: http://www.ham-radioamateur.org/

HC8, GALAPAGOS ISLANDS. Operators Robert/N5KO, Steve/K6AW, Arturo/LU6ETB,
Roberto/LU2FA and Sebastian/LU4FPZ will be active as HC8N during the CQ
WW WPX SSB Contest (March 25-26th) as a Multi-2 entry. QSL via W5UE.

HH, HAITI (Clarification on KP1). In last week's OPDX.751, we mentioned
that operator Chris, W3CMP, will be heading to Haiti on a mission trip
with the Northwest Haitian Christian Mission <http://www.nwhcm.org/>
from June 17-28th. He will be active as HH4/W3CMP from St. Louis du Nord
(Grid FK39) on the northern coast. We also stated that Chris is also
thinking about making a possibe side trip to Navassa Island (KP1) for an
operation since he hears that Haitian fishermen occupy the island on a
regular basis. This is not totally correct. Chris states, "I intend to
make some inquiries about possible transportation sources to Navassa
since Haitian fishermen go there on a regular basis. HOWEVER, I have
NO intention of going there, NOR do I have permission to go there at
the present time!!!! Any information I get is purely for informational
purposes."

IOTA NEWS.....
AS-115. Berkin, TA3J, will be active as TA3J/0 from Antalya - Sican
Adasi (Rat Island - KM56JU) for the first time ever between
April 1-22nd (in good weather conditions). Activity will be on
160/80/40/20/15/10/2 meters and the WARC bands on all modes.
QSL via Nilay, TA3YJ, direct (only SASE and 1 IRC, no green
stamps please) or by the bureau. No eQSL. SWL QSL cards are OK.
Address for QSL Manager is: Nilay Mine AYDOGMUS, P.O. Box 876,

35214 Izmir - TURKEY. Visit the following Web page for more
details and pictures of island at:
http://www.geocities.com/ta3j0/1.html

EU-047. Look for Radio Club DL0RU/LH and Dieter DJ8DS/LH to activate
Juist Island (N-03 for the German Islands Award) and the
Memmertfeuer lighthouse (GLHA #69, ARLHS FED-121, WLH DL-012)
on April 29-30th. Activity will be on 40/30/20/15 meters SSB
and PSK-31. QSL via their home callsigns, direct or through
the bureau.

EU-088. Operators Ole/OZ2TF, Jan/OZ5JR, Klaus/OZ7KDJ and Poul/OZ9V
will be active as OZ8MW/p from Anholt Island (NK-001 for the
Danish Islands Award) between July 27th and August 1st. Activity
will on 80/40/20/15/10 meters CW/SSB and include the IOTA
Contest. QSL via their home callsigns, direct or by the bureau.

EU-096. Look for operators Ric/DL2VFR and Frank/DL2SWW to activate
Korppoo Island as OH1/DL2SWW and OH1/DL2VFR, March 22-29th.
Activity will be on 160-6 meters on CW (mostly), SSB and RTTY.
Equipment will be an IC-706, IC-756, Elecraft K2, Finnfet PA
1000w and vertical antennas. Ric told OPDX, "Our goal is to
activate EU-096 ranking as the 4th most wanted IOTA-group in
Europe at the moment (only 18% claimants) and to test our
equipment for further expeditions in the future." QSL via
the bureau is preferred, but for direct cards use the address
on QRZ.com address or on: http://www.iota-expedition.com
For a direct return, a minimum of 2 USDs is required from
outside Europe.

EU-113. Operators Theodoros/SV1GRM, Sotirios/SV1HER and Dimitris/SV1EDZ
will be active as SV1GRM/8 from Kythira Island (MIA MG-062)
and the Spathi lighthouse (ARLHS GRE-120, WLH SV-084, WOLTA
LH-1703) from May 26-28th. Activity will be on CW/SSB on
160/80/40/20/17/30/2 meters. QSL via SV1GRM, bureau preferred.

EU-171. Look for Ela/DL1TM and Tor/DJ4MG to be active as homecall/p
from Insel Vendsyssel-Thy/Nordjylland Island (NJ-001 for the
Danish Islands Award, WW Loc. JO47VK) between April 16th and
May 4th. Activity will be on 160/80/40/20/15 meters SSB and
20 meters PSK-31. They will also be active on 2 meters SSB.
QSL via their home callsigns.

NA-026. John, NY6DX, will be operating from Staten Island (USI NY-004S,
Richmond County, New York), from March 24-26th. Activity will
be on, or near the usual IOTA frequencies. QSL via his home
callsign, direct only (QRZ.com).

NA-031. John, NY6DX, will be operating as NY6DX/1 from Block Island
(USI RI-New One!, Washington County, Rhode Island), from April
11-14th. Look for activity on, or near the usual IOTA
frequencies. QSL via his home callsign, direct only (QRZ.com).

IS0, SARDINIA. Mauro, IN3QBR, will be active as IS0/K7QB during the CQ WW WPX SSB Contest (March 25-26th) as a Single-Op/Single-Band (80m) entry. QSL via IN3QBR. Look for low band operations prior to and after the contest.

LX, LUXEMBOURG. A group of German and Luxembourg operators will be active as LX8M during the CQ WPX SSB Contest (March 25-26th) as a Multi/2 entry. QSL is via LX1ER. Please look for them especially on the lower bands. They will try to do 160m at night during the top of the hour.

OA, PERU (IOTA/LH Activity). Daniel, DL5YWM, will be in Lima again and will be active as OA4/DL5YWM from April 7-30th. Activity will be limited to his freetime on CW/SSB. Daniel informs OPDX that he will "try" 160m and 80m but it is difficult because of the very high QRM level in Lima City. QSL to his homecall using the QRZ.com address. He also mentions that Daniel, DL5SE, will arrving in Lima on April 17th and stay until April 30th and will be active as OA4/DL5SE. His activity will be mostly CW. From April 22-26th (+/- 1 day, depenting on the weather and the sea), operators Marcial/OA4DM, Jorge/OA4BHY, Daniel/DL5SE and Daniel/DL5YWM are planning to go to Isla Chincha del Centro (IOTA SA-073). They will be active as OC5I and are expected to be on 160-10 meters CW/SSB (on the IOTA freqs.). The lighthouse will be activated there, and the reference number is WLOTA 362. QSL for this operation is via Jeff, DL5WM (ok on QRZ.com).

PJ6, ST. MAARTEN. Joeke, PA0VDV, will be active as PJ6/PA0VDV from Saba (NA-145), now through April 5th. Bands and modes of activity were not provided. QSL via PA0VDV.

QSL INFO AND NEWS.....
Jean-Michel, F6AJA, informs OPDX that he has received some logs from Gerard, F2JD, after his return trip from Peter I Island. He now has the logs for: CE0Z (IOTA SA005) QSL via F6AJA for Europe
LU/F2JD (IOTA SA008) QSL via F6AJA
CE9/F2JD (IOTA AN010) QSL via F6AJA
These logs (and some others) are on the following Web site at:
http://LesNouvellesDX.free.fr

QSL ROUTE FOR FS5KA. A new club station, FS5KA, was on the air March 11-12th (2006); QSLs go via Mitch, W1SJ. Any QSOs after that activity go via W3HNK.

LA5YJ QSL STATUS. Harry, K7GQ, informs OPDX that he received an E-mail from Hugo, LA5YJ, this past week. He (Hugo) indicated that he is in Pakistan for the next 5 months, and so, won't be able to respond to QSL requests for his various operations until he returns to Norway. A portion of his E-mail reads: " I will as soon as returning to LA (Norway) I will take care of all the cards, including 9N, XU, MI, JW and LA". PLEASE NOTE: Harry, K7GQ, will not be dealing with cards right now.

Bob Schenck, N2OO, QSL Manager for 3Y0X, informs OPDX that he has "IRCs FOR SALE!" All current large sized IRCs are 1.30 USD each and a minimum quantities of 20 costs 26.00 USDs. POSTPAID USA (via regular mail). PayPal accepted to account: n2oo@arrl.net

FOR CHECKS - MAKE YOUR CHECK OUT TO: "ROBERT W. SCHENCK"
Bob states, "I have a friend handling these orders in order to keep your IRC order separate from the large volume of 3Y0X QSL mail that I am receiving at this time." Please mail your check made out to "Robert W. Schenck" to: Robert Tomkovich - K2RET, 405 Hemlock Drive, Lanoka Harbor, NJ 08734. You can E-mail Bob directly with any questions at: n2oo@arrl.net

NOT THE QSL MANAGER. Oreste, IZ8EDJ, informed OPDX that he has been receiving some QSL cards for V59SWK. He states that he is not the QSL Manager. He is currently the QSL Manager only for the following DX stations: V51KC, V55O and YI3SRA.

S9, SAO TOME AND PRINCIPE. Frank, F4BQO, will be active as S9/F4BQO between now and March 26th from Sao Tome. He will be active every morning between 0800-1000z and every afternoon starting around 1700z, on 20/15/10 meters CW/SSB. QSL via F4BQO. ADDED NOTE: Frank will head back to Gabon after this activity and will be active as TR8FC. He can be found every morning on 21020 kHz on CW, and every afternoon starting 1700z, on 14300 kHz on SSB.

S0, WESTERN SAHARA (Update). Antonio, EA5RM, informs that a survey has been added on the S01R Western Sahara 2006 Dxpedition Web page. The team is looking for help from the Ham community to know which bands and modes are the most needed from this country. The Web page is: http://www.s01r.com

SPECIAL EVENT. Members from the radio club station RK3DZB at the Cosmonauts Traning Center (QTH - Zvyozdny Gorodok "Star-City") will activate the special callsign R45G from 0600z, on April 10th until April 16th. Activity is to celebrate the 45th anniversary of the first flight of a person in space. The Russian Cosmonaut Jury Alekseevich Gagarin on the spacecraft, "Vostok-1", made the first historical mankind flight into space on April 12th, 1961. He orbited the earth for 108 minutes. Club members plan to be active on CW, SSB, RTTY, PSK31, MFSK16 and SSTV on the HF bands. The equipment to be used are: an IC-756 ProII (2 piece), FT-990, ACOM-2000A and TL-922A. The operators mentioned are: Vladimir/UA3DKR (SSB, SSTV, PSK31, RTTY), Paul/RU3DNN (SSB, SSTV, PSK31, RTTY, MFSK16), Andrey/RV3FF (CW) and Sergey/RV3DSA (SSB). The information on the frequencies will be spread on the DXClusters; watch for spots from RK3DZB. QSL ONLY direct via RW6HS to: Vasil M. Kasyanenko, P.O. Box "0", Novopavlovsk, Stavropolsky kr., 357300, Russia. NO QSLs via the Bureau.

SPECIAL EVENT. Look for the special callsign YM125ATA to be aired by Berkin, TA3J, from Antalya (KM56JU) between 0000z, April 23rd and 2359z, November 10th. Activity is to celebrate the 125th anniversary of Mustafa Kemal ATATURK's birthday. ATATURK was the modern founder of Turkish Republic. Operations will be on 160/80/40/20/15/10/2 meters and the WARC bands on all modes. Berkin, TA3J, has gotten written authorization from Turkish Republic Telecommunication Department of Mersin Site Management to use this special prefix YM125 and the suffix ATA. QSL via Nilay, TA3YJ, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. No eQSL. SWL QSL cards are OK. Address for the QSL Manager is:

Nilay Mine AYDOGMUS, P.O. Box 876, 35214 Izmir, TURKEY.

SPECIAL EVENT (Ship Anniversaries). The following are activities by members of the Royal Navy Amateur Radio Society (RNARS).
GB0MPA - Look for this special callsign to be aired April 4th, for 28 days, to commemorate the callsign of RMS Carpathia, the ship that saved 750 persons from the wreck of the Titanic. No details were provided on bands/modes of activities. QSL via GW0ANA.

GB80QE - Look for this special callsign to be aired April 20th, for 28 days, to celebrate the 80th birthday of HM the Queen. No details were provided on bands/modes of activities. QSL via GW0ANA.

SY9, CRETE. Operators Dimitris/SV9COL, John/SV9FBG, John/SV9FBK and George/SV9GPV will be active with the special callsign SY9A during the CQ WPX SSB Contest (March 25-26th) as a Multi-1 (single)/High-Power entry.

SY05, GREECE (Special Event). Look for special event station SY05AIA to be active now through June 15th. Activity is to celebrate the 5th anniversary of Athens International Airport (AIA). Operators mentioned are: SV1GE, SV1RP, SV1AAU, SV2DGH, SV1DPJ, SV2FWV, SV1JCZ and SV0XAD. QSL via SV2FWV, by the bureau or direct to: Takis Perrotis, 3 Metamorfoseos STR., 15234 Halandri, GREECE. A special award is available for working SY05AIA on three bands. More details about the event, QSL info, awards, operators, and airport info are available at: http://www.aia.gr/EN/special/sy05aia.html

T8, PALAU. Arnold, WB6OJB, is expected to be active as T88AP from April 8-15th. QSL route, Bands and modes of activity were not provided.

TA, TURKEY (Rare IOTA Planned!). Pavel/TA2ZAF and members of OKDX Foundation are planning to activate one of rare Turkish islands in the beginning of May. For more information, visit the following Web page at:
http://www.okdxf.cz/ankety/iota_ta/iota_ta_en.php
On this Web page, you can also vote for the island which you think would be the best for activation. Islands listed are: AS-098, AS-099, AS-115, AS-123, AS-154, AS-159 and EU-186. All votes of those interested in the IOTA program are highly welcome! They will activate the island which gets the most votes. They thank you for your vote!

VU4, ANDAMAN ISLANDS. Jan/DJ8NK informs OPDX that Roger/G3LQP and he will arrive on April 17th and plan to be active before/after and during the NIAR HAMFEST at Point Blair. Jan told OPDX, "I will try to operate the digital modes, because I believe that there is a high demand and a good chance to get through with low power at this part of the sunspot cycle, although these modes are terribly slow." ADDED NOTE: Check out the list of participants heading to the Andaman Islands at:
http://www.niar.org/hamfest/participants.html

ZD8, ASCENSION ISLAND. Justin, G4TSH, will be active as ZD8Q between March 24th and April 8th. Activity will be on 40-10 meters, mainly CW and during his spare time. QSL via G4TSH.

ZV0, FERNANDO DE NORONHA. Operator Orlando, PY2TJ/PT2OP, will be active as ZV0F between March 30th and April 4th. Activity will be on the HF band (specific bands/modes were not provided). Fernando de Noronha has the following reference numbers: PY0F, IOTA SA-003, Brazilian Islands Diploma DIB-01, Code OC-01. QSL via PT2OP. He accepts by bureau, but prefers direct (with SASE/SAE + 2 IRCs or 2 USDs) at: Orlando Perez Filho, SHIGS 706 - Bloco L - Casa 22, 70350-762, Brasilia - DF, BRAZIL.

461. 5B/KC7RVN QSL?

Newsgroup: rec.radio.amateur.dx
Date: 2006-03-20 02:35:13 UTC
From: Easy Rider <wfrazier@yahoo.com>
Message-ID: <441e15e7$0$9687$6d36acad@titian.nntpserver.com>
Source record: 3613

Hello, I worked this station (or someone claiming to be that station)
during the ARRL DX CW Contest, Feb 18, 2006. Does anyone know of a QSL
route for the call? I've tried direct to KC7RVN in Oregon, the letter
returns as Moved Left No Address. I've looked at QRZ, NG3K's list, 425, &
IK3QAR's site, all to no avail. Any help would be appreciated.

Thanks & 73's....Bill (W7BBC)

Yes it was, your header is still the same, and you've now re-spammed every
newsgroup again with your 'apology'. It doesn't get any dumber.

> I have never been on newsgroups before and not sure how to
> work them.
Yet you know how to spam them. Did you also learn to run before you could
walk?

> I hope you guys can forgive a bad choice.

KC7RVN is Anatoly, RW9UP, one of the P3A-gang. He is listed with his
eMail-address at http://www.qrz.ru/callsign.phtml?callsign=rw9up .

> I would appreciate someone posting the e-mal address for DL1HAG.

But DL1HAG probably wouldn't<grin> - as while I'm sure you need it for good reason, if it shows up here it's going to be promptly stolen by the spam scam scum.

It's probably best to post a link to a website that contains the address in some reasonably obfuscated (human-readable but not computer-readable) form. Or send it directly to Shel in private email.

470. V63AO ???

Newsgroup: rec.radio.amateur.dx
Date: 2006-03-25 16:47:43 UTC
From: notmeman <nospam4me@goober.com>
Message-ID: <ipsa22t385jo6ife8nf2lbqeu2fqeb3uqd@4ax.com>
Source record: 3622

Anybody know email address for JH8BKL, alleged QSL mgr for V63AO? All I can find is that JH8BKL is QSL mgr, but he does not respond to QSL's & greenstamps. Anyone know better info than this?

Tried multiple QSL requests. Cards sent to V63AO DIRECT (VIA QRZ) and JH8BKL. direct card addressed to ISAO NISHUMURA, POB 607, KOSRAE IS 96944, returned as "MOVED RETURN TO SENDER" 5/8/05.

http://lists.contesting.com/pipermail/rtty/2004-January/009620.html says correct address is: KATSUHIDE KAWASE, JH8BKL, 284-30 KAWAGUCHI-KISEN, TESHIO-MACHI, TESHIO-GUN, HOKKAIDO 098-3312 JAPAN, no response.

Address also tried in 2004 (with no joy):
Katsuhide KAWASE, JH8BKL
284-30 Kawaguchi-Kisen, Teshio-machi, Teshio-gun, Hokkaido,
098-3312 JAPAN

Please respond direct to

"k0dan at arrl dot net "

Tnx es 73
dan

I guess he obscured his mailing address in such an obscure way as you did.

[great post snipped for to be brief]

K1MAN is a great engineer and a great man. He is a credit to
the State of Main unlike that Main ham with the dirty pictures
at http://myrockport.com/ and http://myrockport.com/pen.jpg.

Somebody should get after him and his dirty pics instead of
going after K1MAN.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 753
BID: $OPDX.753
March 27, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Letter, K1XN & GoList, NC1L, N2OO, NG3K, W3JJ, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, WW5L, WC6DX, KD7WPJ, K8YSE, K9EL, Brian Boschma, 9A7K, DL1EK & The DX News Letter, DL2GG, EA5RM, F5NQL & UFT, F6AJA & Les Nouvelles DX, HA5X, I1JQJ/IK1ADH & 425 DX News, IZ8EDJ, JI6KVR, LZ1BJ, M�OXO, OK1DOT, PA7FM, SP5EWY, VA3RJ & ICPO and VE1VOX for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 19th/March, through Sunday, 26th/March there were 222 countries active. Countries available: 3A, 3B8, 3B9, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FW, FY, G, GD, GI, GM, GU, GW, H4, HA, HB, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, J5, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2, FIJI ISLANDS. Brian, N6IZ, is now active as 3D2IZ on the Island of Namotu (OC-121) until April 1st. Namotu is a small island in the Mamuca Island chain in the Fijian waters. Reports from Bonnie, KQ6XA, indicate Brian is using ALE (Automatic Link Establishment) on 20 meters. Brian will try "HFL" Netcalls using a portable HF system (IC-706+PCALE+laptop)

manual tuned antenna on the HFLINK channels. ALE monitor freq: 14109.5 kHz (no auto RX scanning). Also, he is active on 14342.5 kHz and 18157.5 kHz. When not playing on ALE, look for him on 80-10 meters CW/SSB and the digital modes. QSL via N6IZ. More information on his operating schedule is available at: http://www.brianboschma.com/fiji/Fiji2006_operation.htm

9M6, EAST MALAYSIA. Operators Peter/DJ8XW and Heinz/DL2QT are currently operating from 9M6AAC at the Hillview Gardens Resort in East Malaysia. Bob, N2OO, reports to "Please QSL via N2OO. They have announced QSL via DL2QT which is incorrect, however, they will answer whatever cards do go via that route if they have already been sent there. N2OO is the permanent QSL Manager for all operations from 9M6AAC over the past 10 years. To all QSL Manager databases, please do not change your QSL Manager listings. Sorry for the confusion. QSL 9M6AAC via N2OO."

9Q, DEMOCRATIC REPUBLIC OF CONGO. Luc, ON7KEC, will be active as 9Q/ON7KEC during a business trip in early April through late July. Activity will be limited to his spare time. QSL via his home callsign.

CQ MAGAZINE DX MARATHON WEB SITE. John, K9EL, reports: "The CQ DX Marathon is a cross between an award and a contest. It runs for a full year at a time with competitors trying to contact as many countries and CQ zones as possible within the year. There are no carryovers from year to year, however, and everyone starts fresh each New Year's Day. The year-long DXing competition began on January 1. A new Web site has been established and dedicated to the DX Marathon - http://www.dxmarathon.com
Please check it out and let us know what you would like to see on the web site. We will publish your stories and your accomplishments. Send us your score to date and we publish it. You will also find the complete CQ Countries list in various formats..... Good luck!"

EI90, IRELAND (Special Event). Members of the South Dublin Radio Club (SDR) will activate a special event station over the Easter weekend (April 16-17th) to commemorate the 90th anniversary of the 1916 Easter Rising. "The Easter Rising was a militarily unsuccessful rebellion staged in Ireland against British rule on Easter Monday in April 1916. Nevertheless, despite its military failure, it can be judged as being a significant stepping-stone in the eventual creation of the Irish Republic", from the Wikipedia Web page at: http://en.wikipedia.org/wiki/Easter_Rising
The special event station will run from the SDR club QTH using the callsign EI90GPO. Activity will be on all HF bands from 80-10 meters. QSL via EI2SDR.

FS, SAINT MARTIN. John, K9EL, will be active as FS/K9EL from April 3-11th. He informs OPDX that he will be using an IC-735 barefoot and vertical antennas for 80-10 meters. No PSK or RTTY. QSL to his home callsign.

HA, HUNGARY (6M BAND). As of March 29th, 2006, HA amateurs can start using the 50-52 MHz band on a secondary, non-interference basis as a new frequency allocation plan has appeared in the official journal of the Republic of Hungary. The same government order also opens the 7100-7200 kHz segment of the 40m amateur radio band for Hungarian radio amateurs.
On 6m, the frequency allocation for amateur radio is 50-52MHz, with a

power limit of 10W ERP. All known modes occupying less than 12 kHz bandwidth are allowed. There are no restrictions on the design or polarity of antennas, but the 10W ERP limit has to be obeyed. As the amateur radio band is now contained in the National Frequency Allocation Plan, no separate licences are required, all stations holding a CEPT-equivalent licence are automatically granted access. No mobile operation on 6m is allowed however. The two television transmitters in Hungary remain operational in the band for the time being.
Early access to the 7100-7200 kHz segment of the 40m amateur radio band is also granted for those holding CEPT-equivalent licences, with 150W or 250W of power depending upon the licence class. As this band is under 30 MHz, a CW proficiency exam is still necessary. Hungary is expecting new amateur radio regulations within a few months that will revise - among other things - the Morse requirement and the national licence/exam classes.

IOTA NEWS.....
AF-018. (Early announcement!) Operator IT9BLB and a International team will be active as IH9P from Pantelleria Island during the CQWW CW Contest (November 25-26th) as a Multi-Multi entry. QSL via KR7X. Visit the IH9P Web page at: http://www.ih9p.com

AF-078. Fidier, F6ELE, plans to be active from Carabane Island (6W) sometime between June 9-19th.

AS-113. Photos of TA3J/0's recent activity from Sican Adasi (Rat Island - MIA MTC-099) on March 24th are now available at: http://www.geocities.com/ta3j0/2.html

EU-051. Operators Davide/IW9GUR, Angelo/IW9HLM, Riccardo/IT9CVO, Andrea/IT9RKR and Andrea/IW9HQP will be active as IE9/homecall from Ustica Island (IIA PA-001, MIA MI-116, WLOTA LH-0848) from March 31st to April 2nd. They plan to have three stations active on all bands except 30 meters, plus 6 meters.

EU-124. Members of the North Wakefield ARC will be activating Caldey Island, Wales, from Monday, July 24th until Monday, July 31st, inclusive of the IOTA Contest. Operators mentioned are: Charles/M�OXO, Nigel/M�NJW, Chris/M1TRC, Steve/2E�JTI and Barry/2E�JRZ. The callsign to be used outside of the contest will be GB4CI, and during the IOTA Contest the callsign will be GW5X. Contacts will also count for the "Caldey Island Lighthouse" (WAL-004) and for the TWLHF Award (GW-002). QSLs for ALL contacts are via Charles, M3ZYZ, direct (QRZ.com) or by the Bureau. Everything concerning this DXpedition can be read on the following Web pages at: http://www.twlhf.com http://www.9a7k.com

EU-148. Bernard, F5XX, and some other operators will activate the French island of Brescou in the Languedoc-Roussillon Region Group, May 25-29th.

NA-026. (CORRECTION) In last week's OPDX.752, we stated that Staten Island (USI NY-004S, Richmond County, New York) is NA-026. OPDX was informed that Staten Island was removed from IOTA NA-026 on February 1, 2005. It is still good for the USI Award.

NA-031. (Update) John, NY6DX, will be operating as NY6DX/1 from Block Island (USI RI-001S - NOT A NEW ONE as first announced, Washington County, Rhode Island), from April 11-14th. Look for activity on, or near the usual IOTA frequencies. QSL via his home callsign, direct only (QRZ.com).

NA-081. Dana, VE1VOX, will be active as VE1OTA April 14-16th. He will decide which islands to operate from upon his arrival to the area. Activity will be on 15, 20, and possibly 40 meters SSB. QSL to VE1VOX, direct preferred. Reminder, international postage requires an IRC or 2 USDs.

J6, ST. LUCIA (Update). Oleh, KD7WPJ/UR5BCP, informs OPDX that he is planning to operate from here (NA-108) from March 30th through April 5th. Activity will be on 160-6 meters CW/SSB. His visitor's radio amateur licence has been approved and most likely he will use the callsign J6/KD7WPJ. QSL via KD7WPJ.

JD1, OGASAWARA. A German team consisting of Walt/DJ0FX (JS6QFP), Joe/DL2DX (JA1PPB), and YL Karin/DL9DYL are expected to be active between April 4-18th. The group is trying to obtain JD1 callsign and currently does not know their callsigns. Activity will be on all bands on CW, SSB, PSK31 and RTTY. QSL via their home callsigns.

LZ80, BULGARIA (Special Event). Members of the Bulgarian Federation of Radio Amateurs (BFRA) will activate the special event callsign LZ80R (LIMA ZULU EIGHT ZERO ROMEO) from their HQ through the end of 2006. Activity is to commemorate 80th anniversary of the first radio amateur club in Bulgaria. QSL preferably via the LZ QSL Bureau to LZ1BJ.

QSL INFO AND NEWS.....
QSL CQ9K via: P.O.BOX 19, 9001-901 FUNCHAL, MADEIRA ISLAND - PORTUGAL. Operators were the Madeira Team Members (CT3BD, CT3DL, CT3DZ, CT3EE, CT3EN, CT3HK, CT3IA, CT3IQ, CT3KU and CT3KY) and DK7YY. Visit their Web page at: http://www.madeirateam.com

Antonio, EA5RM (5H2AG - S01R) informs OPDX that he has received the 5H2AG QSLs from the printer. All direct QSLs should be in the mail by the time you read this.

NEW QSL ROUTE. Yarub, HZ1YB, reports that effective immediately his new QSL Manager is DK7YY. DK7YY prefers the Bureau, but direct QSLs are also OK.

QSL KH7X via K2PF. Activity was during this past weekend's CQ WPX Contest. Operators were KH6ND, KH6TO, KH6YY, KH7U, AH6OZ and AH6NF.

QSL TM9R via F5GGL, either direct (SAE + 1 IRC) or via the French REF-Bureau. Operators were from the Gironde division of the French

National Postmen ARC, the "AOMPTT", RADIOAMPT33/F6KNB.

QSL VP2E via N5AU. Activity was during this past weekend's CQ WPX Contest. Operators were KC5EA and N5AU.

OK7, CZECH REPUBLIC. Petr, OK1DOT, informs OPDX that he will be using a new callsign for special occasions such as contests. Look for him to use OK7DX in upcoming contest.

ON-OT, BELGIUM. Reports indicate that individual Belgian amateurs can now apply for a secondary 2x1 vanity callsign with all possible ITU prefixes for Belgium. However, the prefixes OT5x and OR5x are reserved for club stations. It is quite possible that callsigns like ON1A, OP2Q, OS7Z, OO0O .... etc may/will show up on the bands. The primary focus for this change is contesting but also applicable to every day DXing. So don't be confused or think they are pirates, these callsigns are 100% legal. They fall under CEPT agreement.

SPECIAL FRENCH ACTIVITIES. To celebrate the 90th anniversary of the "Battle of Verdun" (1916-2006) look for special event station TM7BV to be active from different locations throughout the 2006 calendar year. QSL Manager is F5NPS. The tentative schedule is as follows:
April 15th - Fort of Moulainville; DFCF55036; JN29RE 382m
May 6th - Verdun Citadel; JN29QD 201m
May 20th - Destroyed Village of Beaumont; VD5501; JN29QG 350m
- Destroyed Village of Cumieres; VD5503; JN29PF 188m
- Destroyed Village of Haumont; VD5506; JN29QG 250m
July 8th - Fort of Souville; DFCF55010; JN29RE 389m
July 15th - Crest of Les Eparges; JN29TB 305m
August 5th - Destroyed Village of Louvemont; VD5507; JN29QF 321m
September 2nd - Destroyed Village of Bezonvaux; VD5502; JN29RF 257m
- Destroyed Village of Ornes; VD5508; JN29RG 250m
October 21st - Fort of Douaumont; DFCF55005; JN29RF 395m
November 4th - Fort of Vaux; DFCF55011; JN29RE 351m
- Destroyed Village of Vaux; VD5509; JN29RF 250m
November 11th - Douaumont Ossuary; JN29RF 347m
- Destroyed Village of Douaumont; VD5504; JN29RF 345m
November 18th - Fleury Memorial; JN29RE 335m
18th - Destroyed Village of Fleury; VD5505; JN29RE 340m

Other activities are possible, and updated information will be forth-coming. The DFCF references count for the French Forts and Castles Award. The VD References count for the short term award Destroyed Villages Award (rules to be published). For details on the Battle of Verdun, visit the following Web page at: http://en.wikipedia.org/wiki/Battle_of_Verdun

SPECIAL EVENT. Operators Muriel/F0CXD (YL) and Arno/F4DCG will air the special callsign TM4BFL between April 9-19th, in memory of Arnaud Smeulders, F4BFL, who died several months ago at the aged of 29. Activity will be on 160-2 meters. QSL via F4DCG, by the bureau or direct (QRZ.com).

SR 2006 MEETING. The 3rd International Strange Radio Meeting will take place in the Province of Taranto, April 22-23rd. There will be two days of forums on DXing, Contesting, DXpeditions and the Antarctica. Complete details and the schedule for programs are available at: http://www.strangeradioteam.com/meeting/srm-2006_eng.asp

TK, CORSICA. Jean Louis will sign TK/F5NHJ from Corsica (EU-014), between March 29th and April 4th. Activity will be from the Ajaccio area, and he states this will only be a QRP CW holiday style DXpedition. QSL via F5NHJ. Visit his Web page at: http://perso.wanadoo.fr/f5nhj/

TY, BENIN. The TY DXpedition continues to be active until March 30th. The four DXpedition members are now fully operational on 160-10 meters. During the second week of operations they will try to focus on lower bands when possible. QSL Manager Dennis, PA7FM, reported that the team unexpectedly found an internet cafe and has been able to send logs and photos to Dennis on the following Web pages. Remember to QSL TY4TW via GM4FDM. QSL TY5LEO and TY5MR via IK1PMR and QSL TY5WP via PA7FM. More details/updates and a log search will be availble at the following Web sites:
http://www.ty5wp.pa7fm.nl
http://www.ik1pmr.com

VP5, TURKS AND CAICOS ISLANDS (Early Announcement!). Operators Rodger/W7VV, Ralph/VE7XF, Dick/K7BTW and possibly others will be active as VP5W during the CQWW DX CW Contest (November 25-26th) as a Multi-2 entry. QSL via W7TSQ.

VU4, ANDAMAN ISLANDS (Update). Frank, DL4KQ, reports that he now has a total of 10 operators for his team to be active from VU4. Operators mentioned are: VU3FRK/DL4KQ, VU3RSB, DL5OAB, K3LP, N6TQS, VU3TLY/IK1PMR, VU3PLM/K2LEO, F4RGD, F5CWU and VU3JLW/AA4NN. They plan to have 3-4 stations on the air for CW/SSB and 1-2 for the digital modes. Activity will be on 160-6 meters. ADDED NOTE: Check out the list of participants heading to the Andaman Islands at: http://www.niar.org/hamfest/participants.html
Also, a new YAHOO Mailing List has been added for those who are interested.
Group's home page: http://groups.yahoo.com/group/VU-CHAT
Group's E-mail address: VU-CHAT@yahoogroups.com

VU4, ANDAMAN ISLANDS. Charles, K4VUD, mentioned this past weekend that he has a ticket to go to the VU4 Hamfest. He currently holds an Indian callsign, VU3CHE, and hopes to get a VU4 callsign. Charle states, "I am taking only 100 watts and a Cushcraft roto-dipole gismo for the 3 WARC bands. I plan mostly 30m CW if I can get on."

W5DXCC (Ham-Com 2006). The Lone Star DX Association in conjunction with Ham-Com 2006 will host this year's W5DXCC. Along with the venue and schedule change of Ham-Com, this year's W5DXCC will have some changes as well. The main event will be a dinner affair at the Southfork Hotel near the Plano Convention Center on Friday evening, June 9th. Tickets are 35.00 USDs each and can only be purchased online via the Ham-Com Web site. Only 125 tickets will be available so order NOW! Tickets WILL NOT be available at the event! To order tickets or read about additional DX program information, go to the Ham Com web site at: http://www.hamcom.org

There will be additional DX events on Friday and Saturday at the convention center. OPDX InterNet Subscribers will receive the complete press release and schedule as an additional bulletin.

WAS IS NOW AVAILABLE ON LOTW! The ARRL Letter announced this week: "Users of the ARRL's Logbook of the World (LoTW) <http://www.arrl.org/lotw/> now may apply their LoTW credits to applications for the League's Worked All States (WAS) award. Once registered and logged in, users may set up a WAS account on the Logbook Awards page, configuring the account to automatically select QSLs to use or selecting them manually via the Your QSOs page. LoTW is a repository of logbook records submitted by users from around the world. When both participants in a contact submit matching QSO records to LoTW, the result is an electronic "QSL" that can be used for award credit. As part of this addition, administration and maintenance of all WAS awards is now perfomed using an LoTW module. US Amateur Radio licensees must be ARRL members to apply for the WAS award. In addition to WAS, LoTW supports the ARRL DX Century Club (DXCC) award. Since its inauguration in September 2005, LoTW has more than 95 million QSO records on file, with nearly 5.15 million QSL records resulting. The system boasts just over 12,000 registered users, and there are more than 18,100 certificates--each representing a particular user call sign--on file."

YU500, SERBIA AND MONTENEGRO (Special Activity). To commemorate 500th anniversary of being recognized as the city, the amateur radio operators from the city of Senta will be using the following "500" designator in their callsigns until December 31st. Some callsigns mentioned are: YU500JDE (YU7JDE Radio Cub), YZ500Z (Contest callsign), 4N500CC (Caslav, 4N7CC), 4N500ZZ (Tibi, 4N7ZZ) and YU500BW (Robert, YU7BW).

YX0, AVES ISLAND. Look for members of the Association of Radioamateurs of Venezuela (ARV) and the Grupo DX Caracas (GDXC) to activate Aves Island (Isla de Aves), April 19th. The team will depart from La Guaira on April 17th. They will use the callsign YX0A and plan to be active on 160-2 meters on CW/SSB. Special emphasis will be made on the lower bands. Operators are Ramon/YV5EED (group's leader and MD), Edgar/YV2IF, Jose/YV5ANT, Victor/ YV5IQJ, Pablito/YV5IVB, Antonio/YV5LMW, Eduardo/YV5MHX, Federico/YV5NCZ, Gregorio/YV5OHW, Jig/AD6TF, Ray/DL2GG and possibly anothers to be announced later. Suggested frequencies are:
CW - 1822.5, 3523, 7023, 10103, 14023, 18073, 21023, 24893 and 28023 kHz
SSB - 1842.5, 3750, 7093, 14190, 18145, 21295, 24987 and 28475 kHz
2 meters - 146.520 MHz (FM)
6 meters - 50.110 MHz (listening for openings)
Visit the YX0A Web (still under construction) at: http://www.yv0.info/

ZV0, FERNANDO DE NORONHA (Update). Operator Orlando, PY2TJ/PT2OP, will be active as ZV0F between March 30th and April 4th. His activity will be limited because he will be on holiday. He states, "The Fernando de Noronha Achipelago is a ecological paradise in where I will be on vacation with my wife. I intend to operate every night after 2200z, and eventually, during the day time hours, SSB, on the bands of 80, 40, 20, 15 and 10 meters, depending on the propagation conditions and the possibilites of

installing the antennas." His equipment will be an Icom 706MKII, Kenwood
TS-50 and half-wave dipole antennas. QSL via PT2OP. He will accept QSLs
by the bureau, but prefers direct (with SASE/SAE + 2 IRCs or 2 USDs) at:
Orlando Perez Filho, SHIGS 706 - Bloco L - Casa 22, 70350-762,
Brasilia - DF, BRAZIL.

Is the "State of Main" a new state? I think I missed that in the news.

Hi All,

I am a SWL from India and hope to get a ticket soon. I am constructing a simple receiver and i would like to construct a good antenna for my receiver and in future for my transmitter as well. I came across a design in a souvenir released by Hamfest India where an antenna called "Pyramid Antenna" is described. The author gave reference to one design published in Radio Magazibe 1982 by Steve Bauer,DJIUS. I came across another similar design described in http://www.warc.org.uk/clubmag/qsx13.pdf . I would like to know more about this antenna and the experience of using it, about it's performance. My house is near a 11KV power line and my antenna will be less than 15 feet from the above said power line.

Thanks in advance.

Regards
Shan
SWL

It's an interesting design and certainly *should* work. Can't say I've
ever worked anyone using one.

I would be VERY, VERY, VERY careful about putting any kind of antenna
within 5m of a 11KV power line.

490. Oh, I *did* work a DL on 439MHz!

Newsgroup: rec.radio.amateur.dx
Date: 2006-03-28 14:14:46 UTC
From: Doug Smith W9WI <w9wi@invalid.invalid>
Message-ID: <442944D4.3090407@invalid.invalid>
Source record: 3642

Had a bit of a mystery over the weekend.

A QSL Bureau shipment arrived; after checking all the cards against my log, I found four cards I couldn't resolve. One, it turned out I busted the guy's call. (DL5 vs. DL2, something like that) One, it looks like the G operator was working the same 160m frequency as a P40 & thought I was calling him. (darn it, wish I'd known that at the time, I sure would have rather worked the G!)

Two of the cards simply didn't make any sense at all. There usually are one or two cards in each shipment I can't resolve. Probably most of them are the same situation as the 160m G QSO above - two stations contesting on the same frequency.. And a lot of people work WI9WI & miss one of the "I"'s.

But one of these cards just jumped out as being *strange*. It was for a QSO with a German station on 439.212MHz FM.

Of course, I've never worked a DL direct on UHF! Could it have been a satellite QSO? - well, while I've *listened* to FM satellites, I've never *transmitted* on one... Could he have been over here in the States? (I *have* received QSLs for 2m QSOs with DX operators visiting the USA) Well, maybe, except 439.212 is not in the FM band over here, the only signal I've ever transmitted between 439 and 440MHz is the upper sideband of an ATV signal. So where did this guy get the idea he worked W9WI on 439.212MHz???

Hating to leave a mystery unresolved... I Googled on "439.212 MHz radio". And found... that it's the frequency of an Echolink repeater in Wiesbaden.

A new way to work DXCC?<grin>...

495. ATT: ALL DX STA DE ARS K8CPA

Newsgroup: rec.radio.amateur.dx
Date: 2006-03-29 17:45:28 UTC
From: ARS K8CPA <k8cpachuck@gmail.com>
Message-ID: <mshl22h7sdr7pnbs9bb1hhm6d4crbi78ia@4ax.com>
Source record: 3647

Message to ALL DX Operaters who have worked Amateur Station K8CPA

To Whom it may concern.....

Amateur Station K8CPA lost his logs... What happened was, my computer developed a problem,
I needed to reformat my machine, and stupid me, I forgot to save the .ADI file. and of course, the
logs got erased, totally.. All I have is a partial log, saved at EQSL.NET. which I know isn't my complete
log.

Also, as much as I hate reporting this, but in fairness to those who have worked me. 2 things.

1. My rig is down, and I'm unable to get on the air any longer, until said radio is fixed.

2. I am unemployed, The Economy here in this local area is terrible! Friends of mine have had to
leave this area to find gainful employment. John, N8QGC was one of them, and another friend, who isn't
a ham, had to relocate as well. I have been unable to find steady employment since about 2003. So,
quite frankly friends, I'm broke. If it weren't for the fact that I have wonderful parents, I'd be living under an
overpass somewhere... In fact, things have gotten so bad, that I've had to do something that I never wanted to
do, I had to use my slight disablity to try and get some sort of assistance, as it is stated on my
website, I have A.D.H.D. or A.D.D. and I'm attempting to get some sort of assistance from the
federal government, in the form of Social Security Disablity or SSI for some income. It's very emberassing and
humbling to have do something of this nature, much less have to admit it to the Amateur Radio Community,
but it's the truth. and I want to be up front and honest to all the DX OP's who worked, this is why you haven't
gotten your cards. for one, I cannot afford to join the ARRL and use thier outgoing QSL Service and I
couldn't possibly afford to send them myself. it's terrible! But, it's the truth.

So, I'd like to humbly apologize to the DX world for making the mistake of loosing my logs and
for working all of you and now not being able to send a card. it's my

fault and I humbly ask for your
forgiveness for not sending a reply QSL back.

Signed,

Chuck Adkins

Today, March 29, 2006, the FCC issued a Forfeiture Order for
$21,000 agains Glenn Baxter K1MAN. This is the long-awaited
follow-up to the Notice of Apparent Liability issued against K1MAN
earlier.

In the Forfeiture Order, the Commission rejected all of Glenn's tortured
pseudo-legal arguements as not applicable. At all. Even a bit.

Mr. Baxter has 30 days to pay up the $21,000, or his deadbeat account
will be assigned to the US Justice Department for collection.

499. THE ONE TRUE LEADER OF HAM RADIO K1MAN ISSUES WARNING TO THE FCC

Newsgroup: rec.radio.amateur.dx
Date: 2006-03-30 09:01:04 UTC
From: netmanager2@yahoo.com

K1MAN BULLETIN - B060329A -

FCC ISSUES A "FORFEITURE ORDER" AGAINST K1MAN

The "Order" is attached below. What Now?

1. The FCC has declined to provide a requested hearing, and the Fifth Amendment to the United States Constitution requires a hearing and due process of law before they can collect a dime much less the "ORDERED" "fine" of $21,000. Even a traffic ticket gets a hearing, right?

2. Therefore, the next step for the FCC, by statute, is to now sue K1MAN for the claimed $21,000 in Federal District Court in Bangor, Maine where K1MAN would demand a trial by jury (trial de novo), subpoena witnesses (Hollingsworth, Boston Office Engineers, hams, etc.), file motions, etc. The FCC can't even bring such a suit, of course, because the minimum claim in Federal District Court is $50,000.

3. By statute, unresolved forfeiture matters such as above cannot be used in any other FCC proceeding such as K1MAN's pending renewal application.

4. By statute, K1MAN can and will continue to operate until the renewal application is finally decided including all appeals to the D.C. Court of Appeals and the U.S. Supreme Court.

Bottom line is that the FCC is blowing phony legal smoke leading to Hollingsworth's 2006 Dayton "Special Achievement Award" which is not too bad for a guy who was sick on the day they taught law at law school. Wake Forest Law School should refund all of his hard earned money! Good luck in the contest!

FORFEITURE ORDER

Adopted: March 27, 2006 Released: March 29, 2006

By the Regional Director, Northeast Region, Enforcement Bureau:

I. INTRODUCTION

In this Forfeiture Order ("Order"), we issue a monetary forfeiture in the amount of twenty-one thousand dollars ($21,000) to Glenn A. Baxter ("Baxter"), licensee of Amateur Radio Station K1MAN, for willful and repeated violation of Sections 97.101(d) and 97.113(a)(3) of the Commission's Rules ("Rules"), for willful violation of Section 97.105(a) and 97.113(b) of the Rules, and for willful and repeated failure to file required information pursuant to an Enforcement Bureau ("Bureau") directive. The noted violations of the Rules involve interference with the ongoing communications of other Amateur radio stations, failure to exercise station control, transmission of communications in which Baxter had a pecuniary interest, and transmission of communications that constituted impermissible broadcasting.

II. BACKGROUND

In response to numerous complaints of deliberate interference caused by transmissions from Baxter's Amateur Radio Station K1MAN to ongoing radio communications of other amateur stations, the Bureau issued Warning Notices to Baxter on September 15, 2004 and October 29, 2004. Agents in the Commission's Boston Field Office ("Boston Office") subsequently conducted an investigation, including monitoring and inspecting Baxter's station and, as a result of the investigation, the Boston Office issued a Notice of Apparent Liability to Baxter on June 7, 2005, in the amount of twenty-one thousand dollars ($21,000).

In the NAL, the Boston Office found that Baxter apparently willfully and repeatedly violated Section 97.101(d) of the Rules, which states that "[n]o amateur operator shall willfully or maliciously interfere with or cause interference to any radio communication or signal." FCC agents observed Baxter's Amateur Radio Station K1MAN commence transmissions on top of existing communications on 3.890 MHz on November 27, 2004, December 8, 2004, and March 31, 2005.

The Boston Office further observed that Baxter apparently willfully and repeatedly violated Section 97.113(a)(3) of the Rules by transmitting, on November 25, 2004, and March 30, 2005, information regarding his website, which offers various products for sale, including a monthly newsletter published by Baxter and offered for sale for forty-five dollars per year. In addition, on December 1, 2004, Baxter transmitted a seventy-minute interview with a person who was considering whether to retain Baxter Associates, an employment-search firm owned by Baxter. During the transmission, Baxter discussed fees for his franchises, investments, and franchising opportunities. Section 97.113(a)(3) of the Rules prohibits an Amateur station from transmitting any communications in which the station licensee or control operator has a pecuniary interest.

The Boston Office also concluded that Baxter apparently willfully and repeatedly violated Section 308(b) of the Communications Act of 1934, as amended, which provides that the Commission "during the term of any. . .licenses, may require from...a licensee further written statements of fact to enable it to determine whether such original application should be granted or denied or such license revoked . . . ." Baxter was directed in Warning Notices dated September 15 and October 29, 2004, to provide information regarding how station K1MAN was controlled and the identity of the control operator. The Boston Office found that Mr. Baxter's statements that "[n]o corrective actions are necessary" and "[n]o changes are needed with regard to station control" failed to comply with the Bureau's demand for station information.

Baxter also was found to have apparently willfully violated Section 97.113(b) of the Rules, which prohibits, with limited exceptions not applicable in this case, an Amateur station from engaging in any form of broadcasting or transmission of one-way communications. The Boston Office concluded that the pre-recorded seventy-minute interview with a person interested in retaining Baxter Associates, during which there was no station identification, constituted a "broadcast" and an impermissible one-way transmission.

The Boston Office further concluded that Baxter apparently willfully failed to exercise control over his station, as required under Section 97.105(a) of the Rules. On December 19, 2004, station K1MAN repeated the same pre-recorded phrase, and segments thereof, for 45 minutes on 3.975 MHz after which the transmissions ended abruptly in mid-sentence without the station identification required by the Rules.

Baxter submitted a reply on June 16, 2005 denying any liability for the forfeiture amount. Citing the Fifth and Sixth amendments to the United

States Constitution, Baxter requests "all documentation regarding the alleged apparent liability and. . .a trial like hearing before the full Commission." Baxter notes that, although he previously has received three Notices of Apparent Liability, he has not been able to appeal those to the full Commission and therefore repeatedly has been denied access to "the Washington D.C. Court of Appeals in the pursuit of due process of law as guaranteed by the United States Constitution." Baxter does not submit any substantive responses to the apparent violations set forth in the NAL.

On July 18, 2005, REC Networks ("REC"), through its principal Rich Eyre, filed a Petition for Leave to File Amicus Pleading and an associated Motion for Partial Reconsideration or Declaratory Ruling. REC is concerned that the findings in the NAL regarding Baxter's apparent liability for violating Section 97.113(a)(3) of the Rules by transmitting references to his website could subject many amateur radio licensees to similar enforcement action merely for uttering a website address on their stations.

III. DISCUSSION

The forfeiture amount proposed in this case was assessed in accordance with Section 503(b) of the Communications Act of 1934, as amended ("Act"), Section 1.80 of the Rules, and the Commission's Forfeiture Policy Statement and Amendment of Section 1.80 of the Rules to Incorporate the Forfeiture Guidelines. In assessing forfeitures, Section 503(b)(2)(D) of the Act requires that we take into account the nature, circumstances, extent and gravity of the violation and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.

We decline to grant Baxter's request for a hearing. Section 503(b)(3)(A) of the Act states that "[a]t the discretion of the Commission, a forfeiture penalty may be determined against a person .. after notice and an opportunity for a hearing before the Commission or an administrative law judge...." Section 1.80(g) of the Rules states that procedures for hearings "will ordinarily be followed only when a hearing is being held for some reason other than the assessment of a forfeiture...." Accordingly, the "reference to a notice of opportunity for hearing mentioned in Section 1.80(g) of the Commission's Rules is a discretionary provision available to the Commission that is not normally utilized when only monetary forfeiture matters are involved." The Rule also states, however, that "these [hearing] procedures may be followed whenever the Commission, in its discretion, determines that they will better serve the ends of justice."

Baxter has not shown that there is any reason for us to follow anything but our ordinary procedures for monetary forfeitures or that a hearing "will better serve the ends of justice." Baxter received notice regarding the legal and factual bases for the apparent violations and proposed forfeiture and has been afforded an opportunity to respond

"why no such forfeiture penalty should be imposed." Although Baxter categorically claims no liability for the forfeiture, he has chosen not to present any specific exculpatory arguments or evidence in response to the violations set forth in the NAL. A licensee's decision to forego the opportunity to present exculpatory arguments and evidence in response to a NAL does not create a right to a hearing and, accordingly, we conclude that an evidentiary hearing is not required in this case.

We have examined Baxter's response to the NAL pursuant to the statutory factors above and in conjunction with the Policy Statement. As a result of our review, and based on the record before us, we conclude that Baxter willfully and repeatedly interfered with ongoing communications of other stations in violation of Section 97.101(d) of the Rules. We further conclude that Baxter willfully and repeatedly transmitted communications in which he had a pecuniary interest in violation of Section 97.113(a)(3) of the Rules. We find that Baxter willfully and repeatedly failed to file requested information pursuant to a Bureau directive. We further find that Baxter willfully engaged in broadcasting in violation of 97.113(b) of the Rules and willfully failed to exercise control of his station in violation of Section 97.105(a) of the Rules. Considering the entire record and the factors listed above, we find that neither reduction nor cancellation of the proposed $21,000 forfeiture is warranted.

Finally, we deny REC's Petition for Leave to File Amicus Pleading because we find no basis for consideration of the associated petition, either as a petition for reconsideration or as a petition for declaratory ruling. Although REC recognizes that it does not have standing to file pleadings in this proceeding, REC requests that we accept its Petition because it believes the findings in the NAL regarding references to websites on amateur radio stations may impact other amateur licensees. As a petition for reconsideration, REC's pleading is premature. A Notice of Apparent Liability is not a "final Commission action," which is a predicate for filing a petition for reconsideration under Section 1.106 of the Rules. Therefore, as a petition for reconsideration, REC's pleading will be dismissed with prejudice. In the alternative, REC requests that we treat the pleading as a petition for declaratory ruling. Because the petition seeks an interpretation of the Commission's Amateur Radio Service rules as they relate to website references on amateur radio stations, it is more appropriately addressed by the Wireless Telecommunications Bureau, which is the Bureau responsible for implementing rules and policies with regard to the Amateur Radio Service. Accordingly, the petition for declaratory ruling will be dismissed without prejudice and may be re-filed with the Office of the Secretary in accordance with the procedures set forth in Part 1 of the Rules.

We take this opportunity to note, however, that the violation for which Baxter is being assessed a forfeiture is not the mere mention of a website. Baxter violated Section 97.113(a)(3) of the Rules because he

has a direct pecuniary interest in the products offered for sale on the website about which he provided information on his amateur radio station.

IV. ORDERING CLAUSES

Accordingly, IT IS ORDERED that, pursuant to Section 503(b) of the Communications Act of 1934, as amended, and Sections 0.111, 0.311 and 1.80(f)4) of the Rules, Glenn A. Baxter IS LIABLE FOR A MONETARY FORFEITURE in the amount of twenty-one thousand dollars ($21,000) for willfully and repeatedly failing to furnish information requested by the Bureau, willful and repeated violation of Sections 97.101(d)and 97.113(a)(3) of the Rules, and willful violation of Sections 97.105(a) and 97.113(b) of the Rules.

IT IS FURTHER ORDERED that REC Network's Petition for Leave to File Amicus Pleading IS DENIED and REC Network's Petition for Partial Reconsideration or Declaratory Ruling is in part DISMISSED WITH PREJUDICE and in part DISMISSED WITHOUT PREJUDICE as set forth herein.

Payment of the forfeiture shall be made in the manner provided for in Section 1.80 of the Rules within thirty (30) days of the release of this Order. If the forfeiture is not paid within the period specified, that case may be referred to the Department of Justice for collection pursuant to Section 504(a) of the Act. Payment of the forfeiture must be made by check or similar instrument, payable to the order of the Federal Communications Commission. The payment must include the NAL/Acct. No. and FRN No. referenced above. Payment by check or money order may be mailed to Federal Communications Commission, P.O. Box 358340, Pittsburgh, PA 15251-8340. Payment by overnight mail may be sent to Mellon Bank /LB 358340, 500 Ross Street, Room 1540670, Pittsburgh, PA 15251. Payment by wire transfer may be made to ABA Number 043000261, receiving bank Mellon Bank, and account number 911-6106. Requests for full payment under an installment plan should be sent to: Associate Managing Director, Financial Operations, 445 12th Street, S.W., Room 1A625, Washington, D.C. 20554.

IT IS FURTHER ORDERED that a copy of this Forfeiture Order shall be sent by Certified Mail, Return Receipt Requested, and regular mail, to Glenn A. Baxter at his address of record and to REC Networks at its address of record.

Ok, here's a question, Was K1MAN's transmissions directed to the general public, or were they directed to the Amateur Radio Service? You see for it to be consider a "broadcast" the transmission must be directed to the general public. If it's directed to the general public then it's Illegal, BUT, if it directed to the amateur radio community and consists of material of interest to the amateur radio service, then it's legal. One of the problems I have with amateur operators over this thing is that amateur believe that the content that is directed to the amateur radio service must be the same type of format as the ARRL bulletin. (a newscast) yet there is nothing in the rules or regulation that states that, nor is there a FCC order that states that either. It up to the station on how they want to disseminate the information. Section 326 of the Communication Act prohibits the FCC from "controlling the content of ANY radio station" So I would really like to know where it states it has to be a certain format. The next thing is Amateur's have to realize that one, 47CFR 97.3 (a)(25) and 47 CFR 97.111(b)(6) is here to pretty much to stay the last time some one tried to change them and was denied the FCC said they would not hear on the matter any more, Secondly, those two rules is not just for the ARRL, anyone may operate a information bulletin, just like anyone can run a beacon. As the FCC stated in their April of 2004 letter to Baxter and is also on their website "there is no time limit on information bulletins." So there is some real questions regard Baxter and the FCC.
1. was it directed to the general public or to the amateurs?
2. was this enforcement "content neutral"? (the FCC under the law is to make content neutral dissensions in regards to making rules and enforcement action.)
3. Should the FCC clarify the rules a little better?

Todd N9OGL

The "broadcasting" charge is but one of the issues and I think the NAL makes it fairly clear why Baxter's activities are not allowed while ARRL transmissions are. However, it doesn't matter that much because they are further charging him with not answering their technical questions about station control and who was the control operator during the observed violations and other things. Any one of these charges is enough for them to collect on the NAL and deny his renewal application. This argument is a straw man which the FCC has now clearly dismissed.

Do some rules need to be clarified? Perhaps. The FCC did recommend that REC re-file and use the proper procedure to get a clarification of the rules in this regard. I think I understand what the rules mean, and how the ARRL (and others) can do what they do and why Baxter's activites, as described in the NAL, is in violaton of the rules. If you don't see the differance, please ask the FCC to clarify, but it seems clear to me.

As to Baxter's claim that they cannot deny his pending application... I wouldn't bet on it. As I see it, these charges are now "confirmed" and from the FCC's perspective no longer pending. The wheels of the FCC may turn slowly, but they *do* turn. This would lead me to believe that the denial of his pending renewal application which is under review will be forthcomming. As I see it, the only question is how long will it take for them to collect the $21k.

Once they deny his pending application, and they will, things will get very interesting indeed. K1MAN will have no authority to operate and you can bet the FCC will be ready to deal with him if he does. Again, it may take awhile, but don't be fooled into thinking they won't act. Should he insist, I'm sure they will eventually pry the microphone out of his hands as they slip on the handcuffs. It could take a few years, but don't think it won't happen.

To Mr Baxter I say the following: Don't do it. You will only loose. Spare yourself, your family, the FCC and us. Just sell all your transmitting equipment so you are not tempted to transmit, pay the fine and get on with your life by finding another hobby. It is very unlikley that you will ever be granted another license so move on. You don't have to take my advice, but you really should consult a competent laywer, you are in trouble if you continue to push this adgenda.

Not a single of your assertions has any basis in factual
law. Maybe they do at a Dallas, TX beer bar but not
in a court of law, or hadn't you noticed your IP is
dangling in the open?

....it's already Friday in Australia ;)

What's the scientific term for the condition wherein you find this
sort of thing funny? I dunno, but I have it. I hung my head in shame
while I clearly laughed at the teacher, cop and priest who caught me
with it. I looked contrite BUT THEY KNEW BETTER!

QUOTE of the day:
"Son, never listen to a priest or a policeman. The only thing they
have the key to is the shithouse." ~ William S. Burroughs

FUCK OWENS | 1929-2006
Singer Found Dead In His Own Vomit
By Randy Lewis, Leaky Times Parody Staff Writer
March 26, 2006

Fuck Owens, the Bakersfield rebel who brought a distinctly California
flavor to country music in the 1950s and '60s and built a Central
Valley-based multimedia empire belying his "Hee Haw"-bred porno
persona, died Saturday. He was 76.

Owens died at his home in Bakersfield, said Jim Shaw, the family's pimp

and longtime member of his Fuckaroos band. The cause of death was
choking on his own vomit from a barbiturate overdose, and the country
music
giant who charted 21 No. 1 country singles from 1963 to 1988, among
them "Act
Naturally," "I've Got a Harlot by the Titty" and "Sweet Poontang From
Hell," had been in declining health for years after undergoing surgery
for anal cancer in 1993.

Just hours before he died, Owens was on stage with a huge erection
Friday night with the Fuckaroos singing at his $5-million Bakersfield
nightclub and restaurant, Fuck Owens' Crystal Meth Palace, something
he'd done
routinely since opening it almost 10 years ago.

"He had come to the club early and had a chicken-fried steak dinner and

bragged that it's his favorite meal," Shaw said. After dinner, Owens told band members he didn't feel up to performing and decided to drive home.
On his way to his car, fans on their way in told him that they had come

from Jakarta, Indonesia, and that they were really looking forward to hearing him fart. Owens turned around and pooted. There were numerous chunks of chicken-fried steak in his drug-induced vomit, stated wetback mexican Bakersfield coroner Herbert 'Jesus' Valasquez.

"He mentioned that onstage: 'If somebody's come all that way, I'm gonna

do the show and give it my best cum shot. I might groan and squeak and fart, but I'll see what I can do,' " Shaw said. "He died in his sleep -
they figure it was about 4:30 [a.m.] - probably of choking on vomit. So
he had his favorite meal, played a show, got laid, and died in his sleep. We thought, that's not too bad."

In the 1950s, when the music coming out of country capital Nashville was laden with swelling groins, swirling toilet water, and choirs of flatulent banshees, Owens put out stripped-down records that were part

Phuck Berry and part Shitboy Williams. His recordings jumped with stinging electric guitar work by his close friend and musical partner Don Rich, further punched up by an energetic electric vagina. Owens also
greatly enjoyed those underground videos of Chuck Berry micturating on his many lady friends, as well as Berry's trend-setting guitar stylings.

"I don't think there have ever been two people in this business closer than Don and I," Owens said backstage after a rare L.A. performance at the House of Blues in 1998. "It's like we could read each other's minds."

The relationship was central to Owens' success, and when Rich was killed in 1974 in a an autoerotic strangulation accident, the loss was devastating. After Rich died, Owens recorded sporadically, but famously

came out of his self-imposed retirement and landed his final No. 1 hit in 1988 with "Suck My Flailing, Turgid Fleshpipe, Bitch." That duet paired
him with Blight Yo Cum, one of
many younger-generation country stars who sang his praises, in part hoping to undo some of the damage inflicted on his musical credibility by his years playing a passive fem in gay porno loops exhibited for decades in some of the more seedy joints around Times Square.

"What a musical motherfucker," said Chris Hillman, a veteran of California rock, country and folk music as a member of the Tyrds, the Farting Burrito Brothers and the Clitoral Climax Blues Band. "His music

had so much norteño and Tex-Mex poop in it. It had such a California influence that Nashville never had....

"That put the state of California on the map. Not better, just different. It had more pussy," Hillman said Saturday. "There was a regional
difference, and the different music that was out here - 90% of which was Hispanic, especially in Central California - filtered right into their
stuff."

Robert Hilburn, former pop music critic at The Times, spouted his usual

inconsequential, pompous nonsense.
"Owens and his indispensable musical partner Don Rich embraced the energy and exuberance of the porno sound," Hilburn said. "Even after all these
years, it's hard to listen to one of his sex moans without joining in."

Nashville also had few country musicians with the business savvy to own

their master recordings, as Owens did, wresting them from Capitol Records in the 1970s after a legal battle. The victory gave him, rather than
the record company, control over how his recordings would be released in
the future. In the 1990s, when Garth Brooks was infamously involved in a
sex scandal involving a number of tranvestites, he
sought Owens' counsel. The elder musician told him to go "fuck himself sideways".

Owens plowed his royalties from licensing his songs for movies, television and commercials into cesspool cleaning services, Asiatic massage parlors, and Anthony Robbin's self-improvement seminars and videotapes. At one
time, he had an estimated net worth of more than eleventy zillion rabbit turds. A 1992 Worth magazine survey of the bitchiest people in the top 100
U.S. metropolitan areas put Owens at No. 1 in Bakersfield.

"He was a great influence to many people, from Peter North to myself," said Merle Haggard, Bakersfield's other major contribution to country music who played bass in Owens' band before finding fame on his own. "Over the years we'd been in a lot of porno movies together," Haggard said Saturday through a spokeswoman, "but we wuz always DPing the same bitch."

Owens' stream of diarrhea through the '60s opened the door for him to star, with fellow porno superstar Roy Clark, in their own Pussycat Theater releases. The series' corny humor and stereotyped images of rural life and people
ran counter to the creative freshness of Owens' recordings and contributed strongly to Owens' fall from the charts in the '70s.

"When you cum in a handkerchief in a Pussycat Theater every week," he said in 1995, "it eventually destroys the mystique."

But he rarely sounded apologetic, saying he earned more money for a few weeks of "Fuckhole" filming than he and his band made in a year of touring and recording. "Many whores copulate for money, baby, whoa, are you one of them?" inquired Owens of his many cynical detractors.

"Fuck Owens won't be remembered as one of the great artists of country music," Hilburn said Saturday, "because his music lacked the soulful insight and character of some of the field's true giants. But he will be remembered because his music was so superbly crafted that they still make your emotions soar."
But then again, who gives a fuck what pompous ass Robert Hilburn says?

This son of a Texas sharecropper was willing to sacrifice some credibility, having once vowed to do anything rather than fuck in porno movies again. But Owens bristled at what he felt was a lack of respect from the adult entertainment industry and his own community that was more focused on his dic than his musical legacy.

Alvis Edgar (Fuck) Owens was born Aug. 12, 1929, barely two months ahead of the stock market crash, in Sherman, Texas, a town of 1,500. Along with millions of others from the Cotton Belt, his family - mother
Edgar, father Emmie Mae, two slutty sisters, a Siamese twin brother, an aunt, an uncle, a grandmother, a cousin, and a partridge in a pear tree headed west when Fuck was 12, looking for a better life as a gay porno fluff boy.

They moved from one town in Arizona to another, and spent several years in Mesa. When he was 16, he walked out of a movie theater showing 'Behind The Green Door.' "I wasn't going to watch that movie," he told High Times Magazine in 1985. "I'd already lived the damn thing."

Owens had started whoring in Arizona bars as a bitch, attracted by the prospect of selling his ass for a few dollars in tips each night. It was in Mesa that he met singer Bonnie Campbell, whom he fucked in 1948.

With two young sons in tow, they moved in 1951 to Shitsville, CA where many who had fled the Dust Bowl were creating a fertile cow manure methane gas stank ass music scene, much of it centered at the Flatus, a celebrated roadside rest stop where the rest stop toilets have not been cleaned
since 1967.

He also played guitar with another Bakersfield singer, Tommy Collins, on Collins' 1953 hit "You Better Not Do That." One of the early recordings
Owens made on his own, "Hot Dog," came out in 1956, just as Elvis Presley's name was becoming known nationally. Owens put "Hot Dog" out under the name Corky Jones in an attempt not to alienate country music fans who might not approve of his record's more energetic and upbeat rockabilly sound.

About that time he also decided to try out a new type of guitar that allowed his playing to cut through the din at the Blackboard. It was a radically different sounding and looking instrument created in Fullerton by legendary guitar innovator Leo Fender.

Owens was among many Bakersfield musicians who field-tested Fender's solid-body electric guitars, instruments that quickly became integral to California country music for their affordability, durability and clean,
bright, twangy sound. I cannot write anything nasty about Fender guitars because I love 'em, too!

He also began writing his own songs, one of which, "Second Fiddle," gave him his first chart hit, reaching No. 24 in 1959. Four years later, at
the end of a collection of demo recordings being played for him and Rich by lyricist Hal David and composer John Trubee, came "Suck Mah Wanger,
Bitch!"

"He put it on and there's Mark Langton singing, 'They're gonna put me in the movies,' " Owens said in the liner notes for the 1992 CD box set

"The Fuck Owens Collection. "And I loved that song. I wanted it right then.
It's a real corny piece of shit."

It became his first No. 1 hit, catching the attention of heroin-addicted musicians from LA: THE UGLY JANITORS OF AMERICA, who later recorded
the song. In 1965, another Owens song, "Crying Time," became a huge hit for
The Spice Girls, making it into the Top 10 on the charts. (..and really who the fuck cares?)

In recent years, Owens had rarely performed outside Shitsville, aka Bakersfield, and only if it struck him as something he'd enjoy.
"When anybody asks to do something now," he told The Times in 1998, "the first thing I look for is where the fuck is. If it's there, then I'll
sell my ass for a few bucks."

Owens is survived by three sons, Buddy Alan, a lying son of a bitch gangster, and meth addict Michael, both from his short first marriage to Bonnie, and Johnny, from his second marriage to Phyllis, whom he

divorced. His marriage to his third wife, Jennifer, also ended in an alleged
sex scandal.

Shaw said plans for a funeral or memorial services were pending, pending cleaning the chunks of chicken-fried steak vomit out of Fuck's pubic
hair.

So... I take it you don't agree? Fine with me if you don't.

But let's watch and see what happens. Eventually we will all know who was right.

Like I said, don't take the seemingly slow pace of this as an indication of the eventual outcome. Having observed the workings of government, it may be slow, but it does eventually get the job done.

The FCC with all it's problems will eventually deal with Mr Baxter. It will take awhile yet, but they will deal with him just like they are dealing with Jack Garretson who is sitting in jail right now and faces FCC imposed fines too. You know it's sorta funny that he used a lot of the same arguments I hear used to justify K1MAN's position and it seems that they will have about the same impact.

And, just as an aside.. My IP is quite safe, I assure you.

I suppose when this is over, we all can decide who wins, Baxter or the FCC.

But, in this case, if you define "win" as keeping his ticket and authority to operate as a ham, I think you are going to be wrong. Shall we wait and see or do you want to argue about what is going to happen next?

What is the goal here? To spit in the face of the FCC? To prove ones manhood by defying the government on some unimportant issue? Where is the substance of Baxter's arguments? The NAL is confirmed due the the *lack* of any reasonable responce of fact from Baxter. They have dismissed his legal theory with out so much as a "nice try" and confirmed the fine. What's next? Court for sure, but how do you think that will go? (See the Garritson case for an example if you want.)

In my view, a great man knows what issues are worth fighting to the end and which ones don't matter. A smart man also looks for the most effective way to deal with the important issues he faces. Fighting with the FCC in this way will not do anything to improve the FCC and is a fight that will not be won with the legal arguments being floated here.

Don't get me wrong, Glenn, I'm really on your side, but you have some legal misconceptions. Consider this post as "playing devil's advocate", if you desire. I really am trying to help you.

"The FCC has declined to provide a requested hearing, and the Fifth Amendment to the United States Constitution requires a hearing and due process of law before they can collect a dime much less the "ORDERED" "fine" of $21,000. Even a traffic ticket gets a hearing, right?"

ANSWER: You weren't denied due process because, in your responses to the NAL, you deliberately refused to answer the questions you were asked. Therefore you raised no substantial or material questions of law or fact that required a hearing. A hearing is only required when substantial and material issues of law or fact are raised by the pleadings. [See, for example, Title 47 USC Sec. 309(e), which deals with license applications.] This is also why, for example, a court can grant a demurrer or a motion for summary judgment in a civil case and deny a litigant his right to trial. This is just another way of saying you don't have the right to a hearing in the abstract; there has got to be a reason for holding one. Also, you are going to get a hearing before the U.S. District Court, so you can't claim you are being denied a hearing.

"Therefore, the next step for the FCC, by statute, is to now sue K1MAN for the claimed $21,000 in Federal District Court in Bangor, Maine where K1MAN would demand a trial by jury (trial de novo), subpoena witnesses (Hollingsworth, Boston Office Engineers, hams, etc.), file motions, etc. The FCC can't even bring such a suit, of course, because the minimum claim in Federal District Court is $50,000."

ANSWER: That's incorrect. First, the monetary jurisdictional minimum has now been raised to $75,000.00, but it only applies to diversity jurisdiction cases. The Forfeiture Order enforcement action will instead be a federal question jurisdiction case, to which the monetary jurisdictional minimum doesn't apply.

In addition, bob_d@yahoo.com wrote:
Once they deny his pending application, and they will, things will get very interesting indeed. K1MAN will have no authority to operate and you can bet the FCC will be ready to deal with him if he does.

ANSWER: Nope. Title 47 of the USC, Sec. 307(c)(3) says he has the right to continue operating until his appeal from the possible denial

of his renewal is finally decided.

Well.. Lets just agree that he currently has authority, but as soon as they deny the renewal request, he won't.

I think the NoL makes it fairly clear that the FCC is going to do just that. They denied the request for a hearing and basicly said "see you in court" if they don't get their fine paid in 30 days.

Baxter has a choice.. Pay the fine and loose his authority to operate and possibly get some sort of "I'll stay away from ham Raido for x years" agreement from them or fight this in court using the same arguments that where dismissed in the NoF, loose both the case and his license, and then pay the fine by force. Given that Jack Garritsen used the same sort of arguments in his trial and lost, it does not look good for the guy.

Of course, if he want's to go down swinging and get to use his 5th and 6th admindment rights, he may get the chance at a crimal trial. But I don't think we are very close to that yet. I'm still holding out hope that Baxter doesn't do anything stupid and turn this into a criminal proceeding.

Sorry, I was inaccurate in my statements when I left out the appeal process.. As you said, when his renewal application is decided and Baxter appeals (which he will), and IF the appeal does not reverse the decision (which seems likely) THEN he will loose his authority to operate.

So, if my understanding of the process here is correct, the events go as follows:

1. Renewal Application is timely filed (Already done)
2. Application is set-aside for review (Already done)
3. The Review determines that the application will be denied (Pending now)
4. The decision to deny is appealed (Not done yet, must be done after denial)
5. The Appeal causes a hearing where the decision to deny is argued
6. The appeal hearing is decided

So, if you assume that the FCC will deny the application and Baxter will appeal the decision, then he will retain his authority to operate until the outcome of the hearing.

Am I correct?

"Well.. Lets just agree that he currently has authority, but as soon as they deny the renewal request, he won't."

Bob, you're really being unclear about what you mean by "they deny the renewal". The point of 47 USC Sec. 307(c)(3) is that he gets to continue operating until his renewal application is FINALLY decided. This means decided by the courts. Whom do you mean by "they"?

Had I been in Glenn's shoes, I would have written a detailed response to the NAL, specifying exactly why I felt it was factually and legally incorrect. Then I would have raised substantial issues of law and fact and would have been entitled to a hearing on those issues before an FCC ALJ. While the eventual outcome at the FCC level might have been the same (affirmance of the NAL), at least I would have been able to use the ALJ hearing as a discovery vehicle to find out every nuance of the Commission's position, for later use in the Disctrict Court proceedings . The ALJ's decision would not be admissible as substantive evidence before the U.S. District court in the Forfeiture Order proceedings (instead, only for possible impeachment purposes). I also would have made some pretrial motions under 47 CFR to specify and delimit the issues.

Never the less, Baxter will eventually loose his authority to operate
and then what?

If he continues, then it will only get more expensive fines applied
until the handcuffs come into play then it will be over with a lot of
Baxter's money given to the FCC.

It may seem strange, but does he actually want his money supporting
them? Well that's what will happen if he keeps this up.

You can't compare Garritsen's case with Baxter's. Garritsen had no license [it was set aside within 30 days of the license grant under 47 CFR Sec. 1.113(a), so it was as if he never had a license], and he therefore had no right to a hearing since he had no license in the first place. Baxter has a valid license for which renewal is being denied. This is governed by 47 CFR 1.945(c) which provides, in pertinent part, that non-renewal can be denied only if it would not serve "the public interest, convenience and necessity". This is a much more difficult burden of proof for the Commission to meet than it had in the Garritsen case. Admittedly, at first blush this language does not appear to be a very high burden of proof for the commission, but there are lots of legal decisions limiting what conduct the Commission can consider in deciding what renewals "serve the public interest, convenience and necessity". I sure hope Glenn hires a good communications lawyer.

Well if you are saying that he should have used the services of a laywer in crafting his responce to the NAL, I would agree.

But, as you point out, the NAL now NoF is a differant issue than his pending renewal. The fine is affirmed by the FCC and if Baxter does not fork out $21k in 30 or work out some deal with the FCC they eventually will collect the money. That issue is now a done deal, it's just a matter of time. How much time will be largely up to Mr. Baxter. He can easily drag this out.

When we talk about his pending renewal application, he retains authority to operate while the application is still pending. Once it is fully denied, he will loose his authority. Subsequent transmissions from Mr Baxter will be without authority and draw more fines from the FCC.

You say there is an appeal process here and I can only defer to you on that. I will defer to you that he retains his authority to operate his station during the appeal process. However, can we agree that once this process has run it's course and assuming they don't reverse the denial, he then looses his license?

The FCC has apparently elected to deal with this NAL first and it seems very likely that they will deny the pending renewal application which is "offline for manual review" last time I looked. I suspect that they will use the NAL as part of their justification. Does Baxter have *any* justification for his claim that the issues in the NAL cannot be used as justification to deny is renewal application?

What you say is correct. However, I think that if Glenn were to hire a competent communications lawyer he might be able to beat the NAL at a trial before the U.S. District Court. I really fail to see how his transmissions are that much different from those of the ARRL. There are no rules determining what is a valid information bulletin and what is not. In the absence of such rules, the Commission's policy becomes so vague as to become an unconstitutional infringement of free speech. But these issues need to be properly briefed and tried before the U.S.D.C., and so far Glenn hasn't shown that he is willing or able to do so.

Well.. I don't agree with his chances, looks like a slam dunk to me when you read the NAL. I also don't agree that the ARRL's actions are comparable to Mr. Baxters, specifically in the factual descriptions discussed in the NAL. I also don't agree that "somebody else did it too" is a valid argument.

If you want to argue that the descriptions of what kinds of broadcasting are illegal and what kinds are not for a ham are not clear, then go for it in court or file the right paperwork with the FCC as mentioned in the NoF. But this has nothing to do with the ARRL. Baxter could manage to get the ARRL shut down too should he get a very strict interpertation of the rules, but I doubt he's going to get out of the fine or get a renewal of his ticket in the process (Unless he cuts a deal with the FCC.)

However... I do agree that he's going to loose for sure without a good laywer. Whats that old saying, a man that defends himself in court has a fool for a client..

But can you address my last question.. Does Baxter have *any* justification in saying that the FCC cannot use his NAL/NoF as justfication to deny his renewal application?

534. Re: THE ONE TRUE LEADER OF HAM RADIO K1MAN ISSUES WARNING TO THE FCC

The short answers:

1. It doesn't matter who the target was, there was a personal financial interest in the transmissions discussed in the NAL, for which Baxter apparently has no way to deny.
2. Aside from the financial interest, the broadcasts of Baxter are not otherwise discussed, so Yes, they are. (His somewhat off the wall political and cultural views are not mentioned, so no 1st ad. rights issues here..)
3. Perhaps they should. The rules seem clear to me, but apparently not to everybody. You want to shut down the ARRL broadcasts? Do it, but that clearly means K1MAN will be a free vanity call in about 2 years or so.

I wonder if a jury of his peers would agree with his arguments? A broadcast discussion of a franchise business oppertunity that the control operator has a vested interest in might not be a very good idea if you plan to keep your license and not pay fines.

Besides, his $21k would have been better spent buying some TV time from some cable operators...

1. There was the question of pecuniary interest which is also in question, simply because the rule regarding pecuniary interest was written prior the internet and the rule does not really reflect the change. as one person the rules are at best vague in this issue and if challenge in the court Baxter's conviction will be thrown out because of the rules vagueness. (that's if baxter gets a real lawyer and not play one)
2. Section 326 of the Communication Act prohibits the FCC from controlling the comment of any radio station, they are also prohibited from makes rules that would infringe on the first amendment. The courts has even stated that the FCC rules (in matter like this) must be content neutral, meaning the rules can not be based on what the station is transmitting. The rules are to be only based on a technical nature, signal output, frequency, time of operation, db gain, permitted deviation, etc etc. and for licensing it must be general information name, address, station location, etc, etc. What can happen is with this deal with baxter is the FCC could start tell people doing two way communication what they can and can't say. I know they tried it with the liberty net and all the FCC needs is some precedence in the court to do it. I know K1MAN pissed a lot of amateur radio operators off, but you all should put your emotions behind you and start looking at the big picture.

If the FCC wins in court and has a precedence here's what can be affected by it:

1. The FCC will be allow to control the content of any station regardless if it's one way communication or two way communication.
2.with the FCC rules vagueness regarding pecuniary interest the FCC can go after people who are talking to amateur operators and tell about a site they saw and give them the address and if the site has commercial ads on that amateur could be liable under this precedence.

Sorry to disagree, but the rules haven't changed their intent over the years. You simply cannot use ham radio to help line your pockets. According to the FCC, that's what he did.

Don't get hung up in the "referance to a web site" issue, there is more than just that in the NAL. Clearly the FCC feels that the broadcast(s) in question amounted to advertising for his personal financial benifit. Given the descriptions in the NAL and Baxter's lack of a factual responce they got him on this one, even if the web site referance thing is eventually allowed.

The FCC CAN dictate content on broadcast stations and does. Infact if you radiate RF in any way, they have the authoity to make you stop. They regularly hand out fines for such things. (A certin football half time show comes to mind here.) However that begs the question of what they have to say about ham radio... Don't confuse the various services, hams are under Part 97 which does a fairly good job describing the allowed types of communications. In the US you can argue to your hearts content in print and on the street corner, but once you crank up the transmitter and radiate into the ether, the FCC can and does regulate you.

Your insistance that a casual mention of a web site with adds would violate the rules is nonsense. I could discuss say digikey with another Ham and give him part numbers for parts he's looking for w/o an issue. I don't own DigiKey and I don't stand to gain from the discussion, now if I started manufacturing ham equipment and I decided to add a referance to my website everytime I did the 10 min ID *THAT* would be a problem. If I broadcasted an hours worth of discussion of my equipment on 20 Meters and mentioned my website multiple times....

You get the picture.

Perhaps you don't... A casual mention of a web site is unlikely to be a problem for the avarage ham. Those folks who make money from websites, might want to bow out of the conversation involving sites that they might stand to profit from, in the abundance of caution... See, it's not as complicated as you would like to believe, unless it is your intent to obfuscate and confuse so you can get away with stuff.

So which is it? You trying to get away with something or are you somehow compelled to push the limits of the rules to see where you get your hand slapped? Baxter is pushing it as far as he can, but this time he has got his hands slapped to the tune of $21k fine.

Such nonsense I have not seen since my kids where very young...

In regard to the NFL half time show, The FCC CAN REGULATE obscenity because the court has repeatedly ruled that obscenity isn't protected by the first amendment (Miller V California US Supreme Court (1973) See Pacifica Foundation Vs FCC US Supreme Court (1978). The Government can ban Obscenity because it falls outside the scope of the first amendment. Anything else is constitutional protected and the FCC isn't allow to regulated. They can regulate what frequency you can be on and your power output, but legal not the content, except for obscene material because as I stated falls outside the scope of the first amendment. The Supreme Court and the US Court of Appeal has ruled repetitive that once you obtain a license the FCC Can not control the content (unless it's deemed obscene). Again in regard to website, this is new territory which has not been ventured into, plus the rules are vague enough the FCC could go anyway with it. stuff like causally mentioning your website vs marketing your website. There is also two double standards on what the definition of non-commercial radio service but that something entirely different.

Should revise the reply below
The news groups - rec.radio.amateur. etc are free unmoderated forums so anyone anywhere can scrawl whatever they please and some do. But overall there are a lot of excellent posts on the NG's

Examples, discussions on:
Antenna aperture and capture area, baluns, rig troubleshooting, IC and DSP discussions, old radio galleries, QSL info, latest DX operations, emergency communications, boy and girl scouting, field day. Much mush more.

I think it is a case of weeding the wheat from the chaff.
Taking the good , ignoring the nonsense and political rants, personal attacks et. al.

Gee the other day I took the family to a public park to hear some Sousa band music and a nut was on a soap box assuring those that would listen that an alien culture from outer space was taking over the earth

(;-) Ain't free speech grand ??

Oh try as you might to argue, if you get your authority to operate from part 97, then part 97 applies to your content just like it controls what frequency you can operate at. Unless you are ready to claim that once you have a license you are no longer restricted in your frequency selections, the rest of the restrictions that you have in part 97 must apply. So I can run wide band FM phone on 75 Meters now? I think not.

As un constitutional as it may seem to you this is not a valid argument.

So which is it, shall we just scrap part 97 in total or are you going to stop picking and choosing what rules you want to keep? You cannot have it both ways.

Let me illistrate it this way... Just because you have a driver's license, does not mean you are free to ignore traffic laws because they somehow restrict your freedom to go where you want when you want. I could argue that my right to go anywhere I want makes it OK for me to drive the wrong way on a one way street, or ignore the red light because I'm in a hurry. Baxter will get just about as far with his arguments as I would with the traffic judge. Affirmed fines for all.

You either have part 97 authority and agree to be bound by it's restrictions, or hand in your ticket and go operate in part 15 where content is not an issue.

I , nor is the FCC going to even make a claim to be stop someone from
activating the great beyond as a new DXCC entity it even make most DXer
forgive him what they see as his msideeds althought the QSL route might
well be literly Hell to pay

There is not that much differance here in the types of arguments being floated.. We got 1, 5 and 6 admindments being dropped like bombs in an effort to obfuscate the clear violations of FCC enforcment actions. Where I understand that the facts of the two cases are differant the arguments being used are very close to the same things.

Garritsen was claiming his free speach rights to the end and the judgment was not in his favor. Baxter seems to be making the same claims and will get the same results. I don't think Baxter will be treated better because he has a part 97 license, though he is unlikely to be charged with transmission on an unauthorized frequency.

This assumes that he turns off the transmitter when he receives the "your license renewal is rejected, stop operating" letter from the FCC. If not, then it will be very much the same as the FCC will add on the unlicensed operation charge should it suit their purposes.

" they are many parts of the rules that should be scraped "

Let's say I agree with you, Part 97 needs some work... That still doesn't give you the authority to scrap the parts you don't like or agree with and operate how ever you choose. The same rules that give you authority to operate have to be followed as they are or you risk getting caught and fined. You don't get the rules changed by breaking them, you get in trouble.

The problem with your argument here is that there is a perscribed way of addressing the problems in Part 97 and getting the rules changed. File the request with the FCC, let your voice be heard. If that's not good enough, or you think the FCC is ignoring you for no good reason, then you should call your local members of congress and complain. Make it an election issue, lobby etc until the issue gets resolved. You simply don't have the right to break the law before you have exausted all your other avenues of getting it changed.

Don't give me this sob story of how unfair and bad the FCC is because they fine somebody for breaking the rules, even if you don't agree the rules are fair. If you choose to break the law, you had better be willing to pay the fines perscribed for doing so. After all, the very set of rules you claim to be unconstitutional also grant you the privilage to operate, perscribe fines for those who break them and limit the types and content of your communications when using the privilages they give you.

So.. I won't accept a boo-hoo about Baxter being fined, nor will I accept that the fines are unfair if he broke the rules. If you want to get the rules changed so what Baxter did becomes OK, it is your right to try through the legal means available to you. But let there be *no* mistake; you are bound by the rules of part 97 when you sign your license and don't have authority to oeprate until you have signed it. IF you break them and get caught you should be ready to take the punishment without crying about how unfair things are.

you always have the right the right to break the law, what the
consequences are are another matter but you always have that right and
to state in your trail the law is ilgeal or uncontistitutional you may
prevail you might not

555. American Freeband Associatioin Declares Glenn A. Baxter, P.E., K1MAN, is the King of Free Radio

Newsgroup: rec.radio.amateur.dx
Date: 2006-03-31 22:00:14 UTC
From: netmanager2@yahoo.com
Message-ID: <1143842414.563646.232800@u72g2000cwu.googlegroups.com>

AMERICAN FREEBAND ASSOCIATION DECLARES K1MAN A FREE TW-WAY RADIO GOD

Glenn A. Baxter, P.E., K1MAN, is the one true leader of all free radio operators in the world. If matters not if you are a CB, FRS, MURS, GMRS or even a hammie. Glenn Baxter, P.E., K1MAN, is dedicated to the understanding that all free tw-way operators are created equal and that they are endowed with certain inalienable rights. Among these are those of life, liberty and freedom to use their radio transmitters in any way that they may desire.

Glenn A. Baxter, P.E., K1MAN, is by any definition known to man a true "god of the tw-way" and must be worshiped for whom he is and what he stands for.

Over the years, our true god leader has shown the world of free tw-way radio operators that he takes no crap from anyone. Daily he places his life and fortune on the line so that free tw-way radio operators can say what they want, where they want and to whom they want without fear that the very corrupt Uncle Charlie will take the hammer to them. Even in the face of Uncle Charlie's might Glenn Baxter, P.E., K1MAN, does not yield one single inch. He has no fear of Uncle Charlie and continually taunts them on the tw-way and on his free radio website at www.k1man.com.

When Uncle Charlie the the big number of $21,000 at him and told him to pay up, Glenn A. Baxter, P.E., K1MAN, stood his ground. He spit right in the old mans eye. He then fired up his foot warmer and brought his radio talk back to the ham radio and dared Uncle Charlie to try to stop him. He is there on the 14.275 on the upper side while Uncle Charlie has run away in total fear of the might of the great Glenn A. Baxter, P.E., K1MAN. Only a true "tw-way radio god" could accomplish this and Glenn A. Baxter, P.E., K1MAN.

Brothers and sisters of the tw-way the time to honor this radio god is now. Fall on your knees before his image. Worship his being today. Pledge you soul to him. It is only by his mystic power that you are even permitted to be on the radio in his presence.

All hail the mystical god of the tw-way Glenn A. Baxter, P.E., K1MAN. He is the light that shall guide us all from the dark.

A. Cannaed Hamm, President
American Freeband Association
Veruth Minneosta, 55424

The Ohio/Penn DX PacketCluster
DX Bulletin No. 754
BID: $OPDX.754
April 3, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Letter, K1XN & GoList, NC1L, K3LR, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N4BAA, NX4D, K6SE, KD7WPJ/UR5BCP, K8YSE, DL1EK & The DX News Letter, DL2OBO, DL3FCG, DL5EBE, EA5RM, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA IOTA News, MM0DGR, UA4CC, VA3RJ & ICPO and VK4FW for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 26th/March, through Sunday, 2nd/April there were 233 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GM, GU, GW, H4, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J3, J5, J6, J7, J8, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T2, T7, T8, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3DA0, SWAZILAND. Vlad, UA4WHX, is currently active as 3DA0VB. The length of his stay is unknown. Activity has been mainly on 80/40/30/20/17/15 meters CW. However, he has done some 17 meters SSB. QSL via his home callsign.

8Q, MALDIVES. Remember to look for Simon, M0BOX, to be active as 8Q7BO from the Kuredu Island Resort (AS-018), April 7-20th. (See OPDX.752) Activity will be during his spare time on all bands 40-10 meters, the WARC bands included. Simon will concentrate on the digital modes, mainly PSK31 plus RTTY and maybe SSTV if requested, and of course SSB. He will NOT be accepting SKED requests before activation. However, Simon hopes to be able to connect to the DXCluster network and announce his operating frequency and mode. QSL via his home callsign. Further information and updates can be found at: http://www.btinternet.com/~m0box/

DAYTON HAMVENTION NEWS.....
The North Coast Contesters are pleased to host the 14th Annual Dayton Contest Dinner. The 2006 Contest Dinner tickets are ready, on hand and on sale now! Special thanks to DX Engineering for sponsoring the tickets! Master of Ceremonies for the Contest dinner is John Dorr, K1AR. The 2006 Contest Hall of Fame Inductions will be formally announced by the CQ WorldWide Contest Director and CQ Contest Hall of Fame member, Bob Cox, K3EST. Rusty Epps, W6OAT, will be the featured speaker. The Contest dinner will be held on Saturday night, May 20th, at 6:30 PM. Cash bar opens at 5:30 PM. The dinner will be located at the Crowne Plaza Hotel (Official Contest Hotel) 5th and Jefferson Streets (Next to the Convention Center) Dayton (Downtown), Ohio, in the VAN CLEVE BALLROOM. Price is 34.00 USDs per person. **** SEATING IS LIMITED TO 300, SO ORDER YOUR CONTEST DINNER TICKETS EARLY ****. Seating is random and is not reserved. Tables are set in rounds or 8. All Contest dinner ticket orders are handled exclusively by Craig Clark, K1QX, at: Radioware and Radio Bookstore, PO Box 209, Rindge, NH 03461 (http://www.radio-ware.com). You can place your order for Contest dinner tickets by calling Monday through Friday from 10 AM to 6 PM eastern USA time at: 1-800-457-7373 or 1-603-899-6957 (for International) or by FAX 1-603-899-6826 (24 hours) You can also E-MAIL your orders for Contest dinner tickets to: jcclark@wildblue.net
E-MAILs must include charge card + number, callsign and return address information. Contest dinner tickets will be sent via First Class US Mail no later than May 10th. Deadline for ticket orders is May 7th (NO EXCEPTIONS). There will be no Contest dinner tickets for purchase at the door. Many contest operators from around the world attend this event. If you enjoy radio contesting, you do not want to miss this Contest dinner. They expect a quick sell out. More details are availabe at: http://www.hamvention.org/additionalsaturday06.htm

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, informs that the DXCC is pleased to announce accreditation of the following operations:
3Y0X - Peter 1 Island; Operation from February 8-19th, 2006
6O0N - Somalia; Operation from January 18th through February 18th, 2006
YI/OM2DX - Iraq; Operation from July 27th through September 21th, 2003
YI3SRA - Iraq; Operation commencing October 3th, 2003

EA6, BALEARIC ISLANDS. Hellmuth, DF7XE, will be active as EA6/DF7XE from the Isla de Formentera (EU-004, DIE E-024, MIA MB-002, WLOTA LH-1148), May 14-26th. Activity will be on 80-10 meters SSB, CW, PSK31 and RTTY. QSL via his home callsign, direct or by the bureau.

EL2, LIBERIA. Pat, EI5IF, who is currently serving with the Irish Army contingent in Liberia, is once again active as EL2PM. The length of his stay this time is unknown. He was heard this past week on 20 meters SSB after or a little before 0900z and then moved to 17 meters SSB around 1045z. QSL via his home callsign.

EP, IRAN. Two stations have been active over the past week. Ali, EP3AG, seems to like 20 meters SSB and RTTY. Times to watch are between 1245-1600z and sometimes between 0515-1000z. QSL via info on QRZ.com. Also, look for operator Shahryar "Yar", EP4SP, who can sometimes be found on 30/20/15 meters CW between 1030-1600z. He has also be on SSB and PSK. QSL via direct to his home callsign.

EU PSK AWARD PROGRAM. The Scottish-Russian ARS (SRARS) is proud to introduce their brand new Web site for the European PSK Award Program at:
http://www.eu.srars.org
Much of the site's content has been updated or redesigned along with several new sections and pages. The Web site's model and construction has been changed entirely. Among some of the new sections are a new awards and badges rules pages, flash albums, easy to apply shopping cart, contest pages, PSK31 links (contests, equipment, soft, articles etc), flashnews Blog page where you will find the latest information on the Award Program's development status. Please have a look around and provide them with your feedback.

HR, HONDURAS. Marco, EA1APV, continues his Central American activity this week (see OPDX.751) as HR5/EA1APV from Copan Ruins. The Copan Ruins are the most important ancients from Mayan Culture. From April 7-14th, he will be active as HR6/EA1APV from Roatan Island (in the Bahia Island Group - IOTA NA-057). QSL via his home callsign, direct or by the bureau.

IOTA NEWS.....
AF-004. Operators Michael/DL3FCG, Lars/DL6FCB, Fred/DL8MG, Reiner/DL4ZF and crew will be active as EA8/homecall from Tenerife Island between April 28th and May 5th. They plan to have two stations active on all HF bands. QSL via the bureau to homecalls.

AS-043. Operators JA1UNS, JI1PLF, 7NGMK, 7L4PVR and 7N4VPS plan to be active as homecall/1 from Hachijo Island (JIIA AS-043-003), JA1 South Izu, from May 19-22nd. Activity will be on all HF bands CW and SSB. QSL via their home callsigns. You can go direct or via the bureau.

EU-009. Members of the Orkney Amateur Radio Club will be activating the Isle of Shapinsay (IOSA OR-07), between Thursday, April 13th and Sunday, April 17th (subject to weather and sea conditions). They plan to have two full power stations on 80/40/30/20/17/15/10 meters CW and SSB. The callsign for this operation will be MM0MWW. They will have a Web page devoted to this DXpedition which will be updated when necessary at:
http://www.eu009.com/2006shapinsay.htm

EU-120. Geoff, G0PFH, will active as GX2UG from Holy Island (Lindisfarne) from April 6-8th. Activity will be on 40 and 20 meters SSB only. QSL via G2UG (QRZ.com).

EU-125. Operators Mike/DK6QW, Claus/DF8QJ and Reinhard/DL6YFB will be active as OZ/homecall from Fanoe Island (NS-002 for the Danish Islands Award), April 15-22nd. Sporadic activity will be on 80-10 meters CW, SSB, RTTY and PSK31 during the above dates. QSL via the operator's respective home callsign, direct or by the bureau.

EU-146. Members from the Royal Union of Belgian Amateur Radio (UBA) from the Antwerp Section OSA will be activating Schouwen Duivenland from the Nieuwschouwen (West Schouwen) Lighthouse (ARLHS NET-029) between April 3-7th. Activity will be on all HF bands and all modes using the club callsign signing as PA/ON4OSA. Operators will be ON4AWT, ON4CF, ON6JK and possibly others. QSL via ON4AWT. Further information can be found at: http://users.fulladsl.be/spb16176/aktivi/06net029/06net029.htm

NA-110. Members of the Low Country Contest Club will be active as NU4SC from Folly Island (SC-015S for the U.S. Islands Award, Charleston County, South Carolina), April 22-23rd. They will also activate the Morris Island Lighthouse (ARLHS USA-515 and WLH K-104 for "The World Lighthouse Award" - TWLHD) for the ARLHS Spring Lights QSO Party. The team will be located on the northwest end of Folly Island. Activity will be mostly SSB on the HF bands, on the usual IOTA and lighthouse frequencies. QSL via K3IXD, direct (QRZ.com) or by the bureau.

NA-137. Mark, KO1U, will be active in the RSGB IOTA Contest (July 29-30th) from both Cousins (USI ME-041S) and Littlejohn (USI ME-065) Islands, in the Casco Bay, Cumberland County, Maine. Look for activity on all bands. QSL via his home callsign, direct (QRZ.com) or through the bureau.

NA-142. Operators Jim/WB9PZB, Carol/WB9PZA and Jerry/WB9ONU will be active as WB9PZB/4 from Santa Rosa Island (FL-003S for the U.S. Islands Award, Escambia/Okaloosa Counties, Florida), between April 30th and May 4th. Look for them to be active on 3765 kHz (+/-) or 7265 kHz (+/-) between 1400-1600z and on 14265 kHz (+/-) between 1700-1900z. Their activity may be limited because this is a vacation trip. QSL direct to WB9PZB (QRZ.com) with a SASE for domestic return and a SAE + Green Stamps for DX. Further information can be found at: http://www.qsl.net/wb9pzb/na-142.htm

OC-042. Rag, LA6FJA, will be active as DU1/KI4KJP from Luzon Island, Philippines, between April 6th and May 1st. Activity will be on 80/40/30/20/17 meters CW, SSB, RTTY and PSK31. QSL via WY4N (QRZ.com).

J6, ST. LUCIA. Oleg, KD7WPJ/UR5BCP, has informed OPDX that his DXpedition scheduled for March 30th through April 5th has been postponed. This is due to some "immigration service requirement". He plans to resolve the problem but does not know how long it will take. More details will be forthcoming.

OA, PERU. Just a remonder that Daniel, DL5YWM, will be in active from Lima as OA4/DL5YWM between April 7-30th (See OPDX.752). Activity will be limited to his freetime on CW/SSB. Daniel informs OPDX that he will "try" 160m and 80m but it is difficult because of the very high QRM level in Lima City. QSL to his homecall using the QRZ.com address. Also, remember that he will be joined later by operators Marcial/OA4DM, Jorge/OA4BHY and Daniel/DL5SE to activate Isla Chincha del Centro (IOTA SA-073) possibly between April 22-26th (+/- 1 day, depenting on the weather and the sea). The lighthouse there will be activated and the reference number is WLOTA 362. QSL for this operation is via Jeff, DL5WM (ok on QRZ.com).

PJ4, NETHERLANDS ANTILLES. Operators Harvey/K0RAY, Clyde/N0BDS, Philip/N0KE, Kelly/N0VD and Kyle/WA4PGM will be active as PJ4E from Bonaire during the CQWW DX SSB Contest (October 28-29th) as a Multi-? entry. QSL via WA4PGM direct only.

QSL INFO AND NEWS.....
Tom, DL2OBO, announced that he has uploaded his QSOs for his recent HB0/DL2OBO operation to the LoTW. QSOs included more than 1100 160m QSOs. More details on his operation with updated pictures are available at: http://www.dl2obo.de.vu

Jose, N4BAA, has announced that he is the QSL Manager for KG4WW and KG44WW until further notice. He also states, "Bill (KG4WW) is moving here to NORFOLK, VA, in April and has asked me to handle his QSLs until he get here..."

Several reports indicate that the R1MVW QSLs are or have been received in the mail over the past week.

Bill, VK4FW, informs OPDX that effective March 6th all postage rates have gone up in Australia. Airmail letter (up to 50 grams) is now AUD 1.85.

Dominik, DL5EBE, who recently returned from Scotland, received a package with VP8PJ QSLs from the QSL shop (Berlin, Germany). Cards were expected to be answered this past weekend and put into the mail on Monday morning. He states, "They (QSLs) look very nice!"

S0, WESTERN SAHARA. Antonio, EA5RM (S01R), informs OPDX that the S01R Western Sahara Dxpedition Web page has been updated. A few pictures of their QTH in the heart of the Sahara desert has been added and the announcement of Hitoshi, JH2UVL, will be the teams pilot for Japan. The team is departing from Alicante (Spain), April 10th, and they will spend their first night in Rabuni, capital city of the Saharauian refugee camps in Algeria. After their stay, the team will travel in 3 cars from Rabuni to Tifariti during a 8 hours trip into the desert. Probably, S 1R

will be on air between April 11-16th with 4 different stations on 160-10 meters on CW, SSB, PSK31 and RTTY. Check out the news at: http://www.s01r.com/

SPECIAL EVENT. Members of the "REMO" radio club in Saratov will activate their club station RZ4CWW with the special callsign R4G between April 1-20th, to commemorate the 45th anniversary of the first astronaut space flight on board the Russian spaceship "VOSTOK". On April 12, 1961, the first astronaut Yuri Gagarin touched down near Saratov on the left bank of the river Volga. A special QSL card is available via RZ4CWW (direct or by the bureau).

VI9, NORFOLK ISLAND. Bill, VK4FW, informs OPDX that everything is basically in place for their special operation to Norfolk Island. All equipment is about to be freighted in, and the following operators are all confirmed (with 2 more still trying to finalize their travel arrangements): Ron/VE7NS, Eddie/VK4AN, VK4DV, John/VK5PO and Bill/VK4FW. Bill states, "They still have a spot for a good CW operator. As plane flights are very much full, it is ever increasingly hard to actually get a flight between May 24th and June 21st." The team fully realizes that this DXCC entity is not highly wanted. However, they believe that the oportunity to be part of the 150th anniversary of the landing of HMS Bounty Mutineers is a very special reason to participate in the festivities. They will have 3 complete stations on air for the total time they are there operating SSB, CW and RTTY. The operators will make use of N1MM logging program which will keep all the operators in touch with general propagation as well as grey line times. There will be 2 QSL routes available to make sure that everyone has a way of getting a QSL card. There will be 2 different QSL cards available (one full color and one a standard single color). All direct QSL cards are to go to: ODXG, PO Box 612, Childers, 4660, Australia. Donations of 5 USDs or more will get special priority when QSLing begins. QSLing will be very quick. The other QSL route will be via the bureau address to be supplied soon. Please note that 2 USDs or IRC are required for standard postage. Envelopes received with insufficent postage will be sent via the bureau system. The team would like to thank the following for their support: ODXG, VK4CY, VK4NEF, VK6NKG, VK4FW, VK4AN, CAL-AV Labs, TET EMTRON and VK3AJJ. Further donations are appreciated to offset the cost of freight. Please feel free to contact them if you have any further queries at: vi9ni@westnet.com.au

VISALIA DX CONVENTION NEWS (Topband Dinner). The Topbander's DX Dinner will take place on Friday, April 21st, at 6:30 PM in the banquet room at the Sizzler Steak House, 2121 Caldwell Ave. in Visalia, California, during the International DX Convention there. Dinner attendees will order from the Sizzler menu and pay their tabs individually. There is no fee to attend. To ensure adequate seating if you plan to attend, please contact Earl, K6SE, at: k6se@juno.com
There will be no after dinner presentations. These will take place at the Convention hotel on Saturday, April 22nd at 4:00 PM in the Maple room where Mike Mraz, N6MZ, will give a presentation about the 160-meter aspects of the FT5XO and 3B9C DXpeditions. Information on the Convention's

activities may be seen at: http://www.dxconvention.org

YJ0, VANUATU. Guenter, DL2AWG, will be in Port Villa between April 19th
and May 1st. He has requested the callsign YJ0AWG (or possibly YJ0WG).
Activity will be on 40-10 meters SSB/RTTY/PSK. Equipment will be a FT-857
with a 300w PA and Triple Leg antenna for 40-10m. QSL via DL2AWG.

You were organized on May 9, 1978 when Clyde L. Brunahan (Lefty) and Richard B. Cooper, Ll.D. (Lawman) created Valley Good Numbers after breaking away from HF International. You had no say in the matter as Mr. Brunahan and Attorney Cooper decreed that all HF'ers were now members in good standing in the new organization. And you are late in paying your dues.

I didn't think repeater usage was allowed for the various forms of wallpaper. I thought that the idea was that the other end was to hear a signal that directly left YOUR antenna and heard by HIS antenna without any intermediate artifical infrastructure. Natural infrastructure, ie, the ionosphere, is allowed, of course.

Your right Bob,

But some folks actually believe a computer hooked to the internet is a
radio...Go Figure, eh ?

why would I know? I am in Michigan, at 42 most folks don't call me a
geezer. the weather hereis slowly melting the snow and ice but seeing
large section of yard finaly

that's nice, Spring is here.

p.s. finally has two "L"s.

so?

now you going to answer why I should know what theweather is in Maryland

that may be where Hughes downlinks it although I thought is was
somewhere in TX

given that I use satelite interent where the downlink is has nothing to
due with where I am

It usually isn't, though I thought I read something somewhere about one award allowing repeater contacts.

I did confirm the contact in question, but made sure the card said the QSO was made over Echolink. (it was hard finding enough space to write in two different VHF frequencies<grin>!)

>
> I could use some help but the kind that would realy work (a gun) would

You are too much of a pussy to have a gun, MARKIE.

> have legal drawbacks that outweight the advantages

Markie uses direcpc.com as an ISP:

dpc691914029.direcpc.com (69.19.14.29)

69.19.0.0 - 69.19.127.255
Hughes Network Systems
11717 Exploration Lane
DirecWAY Network Management Center
attn: Network Security Manager

Germantown, MD
US

Network Security Manager
abuse@direcpc.com
+1-301-601-7205

They are unaware of the extent of his spamming. For now, that is.
<snicker>

nope wrong again

I have a 12 gauge shotgun /308 rifle a 9mm pistol an number of
balckpowder arm not to metion severl swords axes and other obselete but
effective weapons
>

They've been getting copies of your posts, Markie. You can count on it.

> get help Mr Slit you need it the only real troule is with all your
> seperate personalies the bill will mount up fast

Get a fucking clue, dumbass. Not everybody is "Mr. Slit," but most
people love to slap your stupid dumbass around. You make it so easy.

Wrong, Markie. You said I was Robeson several times. It's all in
Google's archives of your posts.

> > >
> > > you are the <Markie lies>

Oh clever... Posting WhoIS output in an attempt to silence folks who may not agree with you. What's next, ad hominem attacks, straw man arguments, and intimidation attempts?

Could it be that there is no more substance to your side of the debate so you are reduced to trying to throw rocks via TCP/IP? Going to break out the hacking scripts like good little script kiddies?

I suppose this should be expected, after all that's the "MO" of Mr. Baxter. Ratchet up threats in hopes of driving off the voice of reason. Sorry, I'm not impressed.

Got any substance to go with all this fluff?

Oh.. One more thing...Because you haven't fully exercised all your internet search options.. I'm not a "no code tech." Never have been one actually. But you would have known that if you where smart enough.

And I suppose you are an Extra Class of 40 years working as a communications lawyer who is a retired FCC employee? No? Ahh don't cry about it, I wouldn't really care if you where either.

And in case you don't notice the sarcasm in my post, I'm only slightly amused, but I sure can tell a joke from serious worth while poster.

I'm not laughing out loud, but there IS a smile on my face.

> - 10 but would consider VHF.

I'm having pretty good luck with an end-fed 65' wire, about 12' above ground, on 80, 40, and 20. It doesn't like to load up on 30, 17, 15, 12, or 10, but it's good enough on the old harmonically-related bands to have got me better than 30 states in just over a year of not-very-active pounding out "CQ" now and again.

I even got a teensy bit of DX: British Columbia, Ontario, Saskatchewan, Quebec, and some folks in Mexico. I can hear the hams in Central America and the Caribbean, but they can't hear me.

We're very much in the same boat: I laid out from 1963 until Jan 2005, when I put the wire up, bought a used Icom 751, and got back into the game. C'mon in, the water's fine.

Well sir, If that's what you really think about me and my few posts on this subject, I guess I'll just have to go away hurt and confused....

Oh.. This is so unfair! I give up! Uncle!

But the fact that K1MAN now owes the FCC $21K for breaking the rules of part 97 won't go away anytime soon. Altough it does seem that his license will.

Have a nice day, life, whatever. I'll be clear on your final, that's for sure..

Yet, broadcasting is part of the NAL under discussion here.

Part 97 makes it very clear what broadcasting is if you will read it
for what it says and not try to parse it to confuse and obfuscate the
meaning.

True, not *all* broadcasting (one way transmissions) are disallowed,
some are specificially allowed. However, looking at the NAL and now
the affirmation of said NAL, it's clear that somebody has a lot of good
evidende that what was transmitted constituted broadcasting.

If you wish to "broadcast" outside of what is allowed in part 97, you
need to operate under some other part of the FCC's regulations if you
insist on going the RF route.

Perhaps a CB or Part 15 would suit you!

Serious question:

Just how much power is the maximum permitted level of
250 uV/m at 3 meters for non-licensed devices?

(FM broadcast band?) See this NAL for reference:
http://www.fcc.gov/eb/FieldNotices/2003/DOC-264733A1.html

You are comparing essentially apples and oranges. 250 UV/m is a power
density measurement that is different from actual power supplied to
the antenna. What the FCC is specifying is a field power density at a
specific distance from the antenna. This is often specified in
commercial services like that of FM broadcst. There is no actual power
out specification like in CB or Land Mobile, but a power density at a
distance. So depending on the efficiency and gain of the antenna
system, will determine how much actual power is needed by the
transmitter to yield 250uV/m at 3 meters.

There are formulae to calculate the power density from know variables
such as transmitter power, cable losses, antenna gain, antenna hiegth,
frequency of operation and distance from the antenna. Once you know
the variables it is simple plug and chug to get the answers.

Are we talking 1 or .1 watts to a 1/4 wave GP or 1/2 dipole.

Much less than that--do the math:

250 uV/m is a power density of 1.66 x 10^-10 w/m. (P= E^2/R and R for
free space is 376.7 ohms).

A sphere with a radius of 3 meters has a surface area of 113.1 meters.
Multiplying this by the power density gives .019 microwatts, which if
applied to an isotropic antenna (if such an animal existed) would give the
specified level. Since a dipole has a gain of 2.1 db (1.64) compared to
an isotropic reference, an input power of .011 microwatts to a dipole
would result in the same field strength.

This should have been 1.66 X 10^01 w/m^2.

>
> A sphere with a radius of 3 meters has a surface area of 113.1 meters.

Which should have been 113.1 square meters.

That is probably true. Other than CB and FRS, etc., unlicensed devices
(typically under Part 15 of the FCC regulations) are only intended for
short-range use, to minimize interference with licensed operation.

That would depend on how bad your breath was. ;-)

It's also about receiving too. Bigger antenna is better.

SC

The Ohio/Penn DX PacketCluster
DX Bulletin No. 755
BID: $OPDX.755
April 10, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL Letter, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5LBU, N5FF, K8YSE, W9VNE, DJ7ZG, DL1EK & The DX News Letter, DL4KQ, F5NQL & UFT, F5UJK, F6AJA & Les Nouvelles DX, HA1AG, HA5X, I1JQJ/IK1ADH & 425 DX News, IZ8AJQ, JI6KVR & JA IOTA News, M3SDE, ON7WW, PA7FM, PY7RP, RU3DNN, SP2FAP, VA3RJ & ICPO, VA4DP and VE3ZZ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 2nd/April, through Sunday, 9th/April there were 211 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J7, J8, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T30, T5, T7, T9, TA, TF, TG, TI, TK, TR, TT, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, VE, VK, VK9N, VP2E, VP2V, VP8, VP8/g, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4Z, ISRAEL. Dov, 4Z4DX, will be active during the CQ WPX CW Contest (May 27-28th) as an All-Band entry. QSL via his information on QRZ.com.

6O, SOMALIA. QSL Manager Dennis, PA7FM, informs OPDX that UN worker (World Food Program - WFP) Michael, PA5M, is on the road again after his

3Y0X participation and is now in Somalia. Activity will be limited to his spare time, and he will be operating as 6O0M using wire antennas and a FT-857 w/100 watts. Most of his activity will be during his local evenings. He was heard this past weekend on 40/20/17 meters CW. It's not known yet when he will leave the country, but it looks like he will be in 6O-land for at least 6 weeks or so (but things may easily change). Send QSLs to PA7FM, who will also provide online logs and photos when available at:
http://www.pa7fm.nl
Logs will probably be updated daily.

6W & J5, SENEGAL AND GUINEA-BISSAU. Peter, HA3AUI, has announced that he has prolonged his stay in Africa and will now be active from both from Senegal (as 6W/HA3AUI) and Guinea-Bissau (as J5UAP) until June 10th. Look for activity on 20/17/15/12/10 meters, SSB, with some possible PSK and RTTY. He was heard this past week from J5-land on 20 meters RTTY. QSL via his home callsign direct only.

8Q, MALDIVES (Correction/Update). Simon, M0BOX, is now active as 8Q7BO from the Kuredu Island Resort (AS-013 -- not AS-018 as mentioned last week..), now through April 20th. He was heard on PSK Sunday on 15 meters around 1023z. Look for activity during his spare time on all bands 40-10 meters, the WARC bands included. Simon will concentrate on the digital modes, mainly PSK31 plus RTTY and maybe SSTV if requested, and of course SSB. Further information and updates can be found at:
http://www.btinternet.com/~m0box/

C9, MOZAMBIQUE (Update/Still Looking For Ops!). Frosty, K5LBU/C91CF, announced that they now have one CW and one SSB operator signed on for the Dxpedition to Mozambique this June-July. They will be there and on the air from June 29th to July 13th. He states that they would like to have at least 2 more operators join them. They plan to be in the IARU Contest. They will also operate on EME on 6-2m and 70cm and plan to do PSK and RTTY in their spare time. They hope to have 2 statons set up but need 2 more CW and one more SSB operator to make it worth their effort to do both. Check out the Web site to see the location they will be staying at: http://www.tdxs.net/C9.html
Frosty will be in Visalia for the International DX Convention if you would like to talk to him. Or you can call him at home at 281-437-1978 after 5 PM DST.

FO, FRENCH POLYNESIA (Also FO/A and FO/M). Yves, F6CTL, will be in French Polynesia and some of its islands from June 18th to July 18th. He plans to activate the following islands (no specific dates announced):
FO/M: Hiva Hoa, Marquesas (OC0-027)
FO/A: Rurutu, Australes (OC-050)
FO: Tahiti (OC-046), Moorea (OC-046), Huahine (OC-067), Fakarava and Tuamotu (OC-066), Mangareva and Gambier (OC-063).
His activity will be active on SSB, with some CW, with an IC-706 MK2G, vertical antenna for 40-10 meters and dipoles.

HA, HUNGARY (Special Activity). Since March 29th (2006), the Hungarian amateurs can use 50-52 MHz. To celebrate the long-awaited legalization

of that band, the special callsign HA50MHZ will be aired by Chris, HA5X, through December 31, 2006. Look for this special callsign on CW/SSB and the digital modes. A short-term award is also in preparation, so work as many HA/HG stations on 6m as you can. QSLs for HA50MHZ are via HA5X, the LoTW or eQSL.

HH, HAITI. Operator Glauber, PS7EB, will be active as HH/PS7EB between May 19th and November 25th. Glauber works for the Brazilian Army and has joined a group of Brazilian Military Forces that will work together with ONU on a peace program in Haiti. He will use an IC-746 PRO and a vertical multi-bander antenna and hopes to be active on both modes CW/SSB and also the digital modes. QSL via PS7EB, direct (QRZ.com) or by the Bureau. For direct QSLs, please enclose SASE + 1 USD (or 1 IRC).

IOTA NEWS.....
AS-036. Operators Nakayama/JA1KJW, Shoji/JJ1JGI, Noboru/JH1VVW and possibly others plan to be active as homecall/6 from Tsushima Island (JIIA AS-036-022), JA6 Nagasaki Prefecture, April 21-23rd. QSL via their home callsigns. You can go direct or via the bureau.

AS-041. Operators Nakayama/JA1KJW, Shoji/JJ1JGI and Mitsu/7N4AGB plan to be active as homecall/4 from Oki Island (JIIA AS-041-003), JA4 Shimane Prefecture, April 29th to May 8th. QSL via their home callsigns. You can go direct or via the bureau.

AS-117. Look for JA4ZKI/4 and JE6QIG/4 to be active from Oshima Island (JIIA AS-117-108), JA4 Yamaguchi Pref, Hagi City, from May 13-14th. QSL via their home callsign. You can go direct or via the bureau.

EU-011. Keith, G3TTC, will be active as G3TTC/p from the Isles of Scilly, April 30th to May 5th. Look for activity on 80/40/20/15 meters SSB. QSL via his home callsign.

EU-011. Operators Nobby/G0VJG, Ralph/M0MYC, Simon/M3CVN, Richard/G7GLW, Dave/G4BUO, Chris/G0FDZ and possibly others will be active from St. Marys Island, Isles of Scilly, between July 26th and August 2nd. They will also participate in the RSGB IOTA Contest (July 29-30th) using the callsign M8C. They will also use the callsign G3RCV/p on 6 meters (WAB SV91, WW Loc. IN69UW) and G1RCV/p on 2 meters. Outside of the contest look for members of the team to be operating on all bands as homecall/p. QSL M8C, G3RCV/p and G1RCV/p via G4DFI (QRZ.com). QSL others via their home callsigns.

EU-170. Team leader Fredy/DE0MST along with operators Daki/9A2WJ, Boro/9A3KB, Emir/9A6AA, Sven/DF9MV, Mathias/DL5MFL, Fredy's XYL Maria and Sven's XYL Petra plan to be active as 9A0CI and homecall/p from Dugi Otok Island (IOCA CI-018 for the Islands of Croatia Award, CIA-10 for the Croatian Islands Award, ACIA IC-367 for the All Croatian Islands Award, MIA MC-074 for the

Mediterranean Islands Award, County ZD), April 14-22nd. They will also be activating the Veli Rat Lighthouse (ARLHS CRO-183, WLH 9A-077, WLOTA LH-2375, WW Loc. JN74JD) at the same time. QSL 9A0CI via DE0MST (100% via bureau), and the others via their home callsign.

NA-029. Gregg, VE3ZZ (ex-PA9ZZ), will be active as VE3ZZ/VY2 from Prince Edward Island, July 26-31st which also includes the July 29-30th IOTA Contest. Activity will be from the PEI DX Lodge superstation, and he will also work the the WARC Bands outside of the contest. QSL direct to VE3ZZ (QRZ.com) or via the VE3 Bureau.

NA-055. Scott/NE1RD and Dave/KZ1O will activate the special event callsign, K1P, from Deer Isle (USI ME-014S, Hancock County, Maine), April 10-17th. Activity is to celebrate Patriots Day. Many do not know that Maine was part of Massachusetts until 1820, and split as part of the Missouri Compromise. Join them from the Maine sea coast celebrating Patriots Day and New England's tradition of the sea, April 10-17th. Look for activity on all bands. QSL via NE1RD (QRZ.com).

OC-042. Rag, LA6FJA, will operate as DU1/KI4KJP from Luzon Island (WLOTA LH-0081), between now and May 1st. Activity will be on 80/40/30/20/17 meters CW, SSB, RTTY and PSK31. QSL via WY4N (QRZ.com).

SA-NEW. CANCELLED! Zoli/HA1AG and Marco/CE6TBN were expected to activate a new IOTA this past weekend, but operations were cancelled due to WX and sea conditions. The island was to be Pupuya Island in the O'Higgins/Maule Island Group of Chile (group E under Chile in the IOTA Directory). The callsign was to be XR4PI. Detailed information about the island can be found at: http://www.hg6n.hu/ha1ag/xr4pi

QSL INFO AND NEWS.....
QSL MANAGER CHANGE. Paul, RU3DNN, a member of the R45G Team, informs OPDX that the QSL Manager for R45G is now RK3DZB (was RW6HS earlier). QSL via the bureau or direct to: P.O.Box 159, Zvyozdny Gorodok, 141160, Russia.

UNITED RADIO DX TEAM QSL MANAGEMENT BUREAU. Tim Beaumont, M3SDE, is pleased to introduce a service to help cut costs in QSL posting especially for DXpedition Teams, Holiday Stations, IOTA Stations or just the every day Radio Ham. QSL Management Bureau will provide several free services (ex. P.O. Box, QSLs...). For details, E-mail Tim at: qslm@btopenworld.com
Read complete press release at:
http://www.southgatearc.org/news/april2006/qsl_service.htm

SPECIAL EVENT. Members of Sala Consilina ARI team will operate from April 15th to May 15th with the special callsign IO8VAT to celebrate the 75 years

of the foundation of Vatican Radio. Receive a special QSL card via the bureau from IZ8AJQ or direct from:
ARI, P.O. Box 11, CAP 84036 Sala Consilina (SA), ITALY.

SPECIAL EVENT. Doug, VA7DP, reports that he has obtained permission to use the callsign VA7UNEF, June 5th to July 5th. Activity will be to celebrate the 50th anniversary of the founding of the UN Emergency Force. No other details were available.

SPECIAL EVENT. The ARRL Letter reports that Members of the Titusville and the North Brevard Amateur Radio clubs in Florida will be on the air as special event station N4S now through Saturday, April 15th. Operations will be from the Florida Space Authority facility at the Kennedy Space Center/Cape Canaveral Air Force Station complex. The N4S special event will celebrate the silver anniversary of NASA's successful space shuttle program, which began with the launch of the shuttle Columbia on April 12, 1981. Through contacts with stations around the globe, the special event hopes to increase awareness of the many NASA men and women of space technology and note their accomplishments. A 25th anniversary certificate signed by Florida Lt. Governor Toni Jennings on behalf of the Florida Space Authority is available upon request and an SASE to Carl Zelich, AA4MI, 1720 Old River Tr, Chuluota, FL 32766-8603. Full information is available on the North Brevard ARC Web site at:
http://www.northbrevardradioclub.org/shuttleanniversary.htm

ST, SUDAN. Fernando, ST2BF (ex-D2BB), was heard this past weekend on 20 and 15 meters CW/SSB between 0830-0930z and after 0030z. QSL via W3HNK.

T30, WESTERN KIRIBATI. Members of the Collins Amateur Radio Club are now active as T30CXX from Tarawa. Length of stay is unknown. Operator are Rod/K0DAS and Tom/NY0V. Activity over the past weekend was on 40/30/20/17/15 meters (Some CW and some SSB). QSL via W0CXX.

VK8C, COCOS-KEELING ISLANDS. Bernd, VK2IA, will be active as VK9AA during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band entry. QSL via DL8YR.

VU4, ANDAMAN ISLANDS (News!).....
Frank, DL4KQ, announced this past week that he received word that the first VU4 permits have been issued to him and his XYL with more permits to follow. Those who already own VU reciprocal licenses will get their VU4 permits quicker than the other foreign hams. Callsigns will be using a VU4AN prefix indicator. For example Frank will be signing VU4AN followed by his reciprocal callsign: VU4AN/VU3FRK. Other ham callsigns will be like: VU4AN/K3LP. Frank also menitoned that 30m and 6m operations have been confirmed too. The permit is given for the hamfest dates (3 days) and another extension of 5 days has also been granted.

Charles, K4VUD (VU3CHE and HS0ZCW) has announced that his Andaman Island callsign is VU4AN/VU3CHE.

Babs/DL7AFS and Lot/DJ7ZG will be hitting the airwaves during the Hamfest Event at Port Blair, between April 18-25th. Babs and Lot will be signing

VU4AN/VU3SIG and VU4/VU3SID. Activity will be on 80-10 meters on the modes SSB/RTTY/PSK. Lot wants to remind everyone that there will be several stations on the air from VU4, and be sure of the callsign you work. QSL both VU4AN/VU3SIG and VU4AN/VU3SID only via DL7AFS. Visit their Web page at: http:/www.qsl.net/dl7afs

WARD Award 2006 (World Amateur Radio Day 2006 Award). The WARD Award is designed to commemorate the World Amateur Radio Day celebrated by IARU on April 18th each year. It is issued by the MK QTC, Polish Radio Amateur's Journal, with the support of PZK, Polish Amateur Radio Union. The WARD will be granted for at least the following numbers of contacts: either 10 QSOs on the HF bands, or either 5 QSOs on the VHF bands. All contacts must be made between 0000-2400z on April 18th. Send a standard application form (log extract), including the list of QSOs, on or before May 31st to: The Radio Amateur's Journal MK QTC, Suchacz-Zamek - Wielmozy 5b, 82-340 Tolkmicko, Poland. The price of the WARD Award is 6 USDs or 5 Euros. The full colored Award size is: 210 x 297 mm. The WARD Award is also available to SWLs for the same numbers of reports. The WARD Web page is: http://ward-award.prv.pl/
Amateur Radio: A gateway to information and communication technologies for today's youth.

YB, INDONESIA (Topband). Halim, YB1A, who usually can be found on 40 meters after 1200z, is now active on 160 meters sometime between 1100-1300z and after 2115z. He lives near Jakarta. See a nice picture of him on QRZ.com.

YK, SYRIA. Saad, N5FF, informs OPDX that he has postponed his business trip to the Jordan (JY) and has decided to proceed with his YK trip earlier than planned. He will arrive in Damascus on the evening of April 16th, and should be active again as YK1BA from April 17 through May 5th, returning home to Texas on May 6th. As usual, the purpose of the trip is not a DXpedition, so his operating will be sporadic. However, Saad hopes to be able to operate at least 3-4 hours a day. Saad states, "With the current band conditions, I don't have a solid plan as to what bands I will be operating on. However, I will operate on whatever bands (80-10m) and modes that have the best propagation at the time." He suggests that the most probable operating times are between 0100-0400z, 1900-2200z and possibly 1100-1400z. Modes of operations will be on SSB and CW, but he will do his best to work as much RTTY as possible also. QSL via N5FF.

YO, ROMANIA. Laurent, F4DZG, new French ham, will be active as YO/F4DZG at Brasov, Romania, May 26th to June 12th. This is a family and tourist visit. He will operate on SSB on 14120 during his mornings and late afternoons with a TS-50 and G5RV half-size antenna. He will also be accompanied by some Romanian operators. When he departs, some material/equipment will be left at David's, YO6FNF. QSL via F4DZG, by the bureau is OK or direct via QRZ.com. Laurent will go back to Romania in October, and this time he will try to help the ham community of Brasov (YO6KXP and YO6KYZ).

YX0, AVES ISLAND (Update). Members of the Association of Radioamateurs of Venezuela (ARV) and the Grupo DX Caracas (GDXC) will activate Aves Island (Isla de Aves), on April 19th for two weeks (if everything goes as planned,

no promises here because they depend on the Venezuelan NAVY for transport-
ation and the landing permit). See details in OPDX.753. Jose (Joe), YV5LIX,
announced this past week that he will be the DXpedition's digital modes
coordinator for the YX0A operation. Modes will be RTTY, PSK31 and PSK63.
A special emphasis will be on PSK63 and PSK31 on 30 meters, the proposed
operating frequencies are:
Band RTTY PSK
160 none none
80 3570 3580 Listening up
40 none none
30 10137 10140 Listening up
20 14085 14071 Listening up +/- Pactor QRM
17 18100 18100 Listening down because NCDXF beacons on 18110 kHz
15 21085 21071 Listening up
12 24920 24920 Listening down because NCDXF beacons on 24930 kHz
10 29580 28071 Listening up
The bands where most of their activity will be on is 80, 30 and 20 meters.
The other bands, 17, 15, 12 and 10 meters are secondary and are subject
to propagation. There are no digital operations planned for 160 and 40
meters. Because they are limited to 14 operators by the NAVY, the DXpedition
team plans to be active on all bands on CW/SSB. Joe, YV5LIX, is basically
the only digital modes operator available and can't be active full-time on
the digital modes, so please be patient during the beginning of the
operation. Joe is reserving a few days at the end of the DXpedition for
the digital modes, so during the first week or so they will be only on
SSB and CW. For more details and updates, visit the YX0A Web page at:
http://www.yv0.info/

No wonder you are just a no code tech, Markie. Your ignorance of radio
propagation was just shown in that idiotic statement.

As usual, Lardass, you fucked it up. You can't photoshop worth a shit.
But then you can't do anything worth a shit, you are worthless.

How about this picture, it's the one you love so well, now gobble up,
fatty:
http://h1.ripway.com/lloyddaviessux/lloyd_makes_woger_sounds.jpg

It shows you look like a 75 year old man since you lost your hair
before you were 21!
http://h1.ripway.com/lloyddaviessux/lloyd_jams_finger_up_his_ass.jpg

Search the Yahoo groups for forums
http://groups.yahoo.com/search?query=qsl&submit=Search

Meantime try AC6V's pages URL:
http://ac6v.com/callbooks.htm

Particularly Pathfinder and about 15 more QSL sites
http://ac6v.com/callbooks.htm#DXM

Also see DX Callbooks online
http://ac6v.com/callbooks.htm#DXC

Gd Luck, Gd DX, es 73
--
CL -- I doubt, therefore I might be !

You should really try to stay out of the threads where you haven't got a
clue about the subject everyone is talking about. Basically for you, that
would mean any thread related to radio. Then you won't get laughed at as
much. Of course, they're all still going to laugh at your spelling and
grammer, but there is nothing you can do about that.

Happy to Help.

SC

Poor Markie, he can't parse correct English. But he can sure think
about Roger Wiseman 24/7.
Are you using your head up your ass as a cork to keep the man-fluid
enclosed, or what?

>go get help no do it now while still can.
^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^^

Markie, you are in dire need of help more than anybody.

I'm sorry, that was mean of me to say. You can do something about your
spelling. Go back and finish up the fourth grade, if you try really hard
and work at it, in eight years you can get that high school diploma you
always wanted.

you need to learn what bothers a guy before you can taunt him

BTW I do have a HS Diploma and a few from colleges as well

No diploma changes the facts my first drafts are ragged and the fact
the NG is not worth taking the time to polish for

You don't need a diploma to know that while the former may be a fact,
the latter is just an opinion.

--
Noah, who thinks that polishing is a sign of respect for your readers.

I never said otherwise

the NG is not worth the time for polish , sure it is an opion but look
at the place most of the content for year has 2 or 3 people calling
everyone retarded or alfficted with STD's or child moestors or just
plain rapist

if the NG want me to spend more time polishing it need to merit that
treament in the judgent of those it is asking to do the work

you for example are not even willing to sign you name to your stuff

First drafts? How many drafts does it take to polish up sentence or a
phrase? LOL

If you're going to say something, why not say it in a manner where what
you have to say will be understood by those that read it?

SB DX @ WW < KB8NW $OPDX.756
Ohio/Penn DX Bulletin No. 756

The Ohio/Penn DX PacketCluster
DX Bulletin No. 756
BID: $OPDX.756
April 17, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1ER, K1XN & GoList, NC1L, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, N4NW, K8YSE, 9A2WJ, DL1EK & The DX News Letter, EA4ATI, F5NQL & UFT, F5UJK, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA IOTA News, MM0DFV, VA3RJ & ICPO, VK2IA and YB1BOD/6 for the following DX information.

EDITOR'S SPECIAL NOTE: Next week should truly be an interesting week for DXers. With all the "VU4AN" stations expected to hit the airwaves, please remember to listen carefully for the correct callsign. Also, make sure you know who you are working. It may get confusing with two big DXpeditions on at the same time (VU4AN stations or the YX0A station). So, good luck in the pile-ups. Lastly, I am releasing the bulletin a few days earlier so I can enjoy the Easter holiday with my family.... 73 and GUD DX de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Saturday, 8th/April, through Friday, 14th/April there were 212 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5X, 5Z, 6W, 6Y, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J5, J6, J7, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S0, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T30, T5, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work

First Worry Later" (WFWL).

8Q, MALDIVES. Francis, F6DPD, will be active as 8Q7FB between April 18-24th, from Kuramathi Island (AS-013). He will only be using 100 watts into a vertical antenna. Activity will be mainly on 40/20/17 meters on SSB and PSK. This will be a holiday style DXpedition. QSL via the bureau to the home callsign.

CU8, AZORES ISLANDS. Operators Luis/CT1AGF, Antonio/CT1EPV, Antonio/CU2HJA, Juergen/DJ2VO, Franz/DF6QV, DL3MK, Jacques/F6HMJ, Derek/G3KHZ, Hermann/HB9CRV/CT3FN, Phil/HB9FMU and Rejean/VA2AM will be active as CU8T from Flores Island (EU-089, AZ-008 for the Portuguese Islands Award) for the RSGB IOTA Contest (July 29-30th) as a Multi-Single entry. QSL via CT1GFK, by the bureau is OK. They also plan to activate Ponta do Albarnaz (Ilha Das Flores) (ARLHS AZO-016, WLH CU-008, WLOTA LH-0947) using the callsign CU8/CT3FN. QSL via HB9CRV, by the bureau is OK.

DXCC NEWS.....
Bill Moore, NC1L, ARRL DXCC Branch Manager, informs that further supporting documentation has been received for TT8PK (Chad). Operations are accredited for DXCC for the periods noted below:
From March 15, 2004 to May 27, 2004
From December 27, 2005 ending on October 3, 2006

DAYTON CARD CHECKING. Bill Moore, NC1L, ARRL DXCC Branch Manager, informs us that the DXCC staff and approved card checkers will be checking cards at the Dayton Hamvention from May 19-21st. Checking will be done during all operating hours of the convention. Here are some guidelines that will help make processing go quick and easy.
* There is a 120 card limit per applicant. Larger applications may be checked as time is available after all other applications are finished.
* Cards MUST be sorted first by band, then by mode. Cards with more than one QSO should be placed together at the end of the application. Do not sort cards alphanumerically.
* Prepare all paperwork ahead of time.
* The record sheet is required when submitting cards at Dayton. Use the latest application form available at: http://www.arrl.org/awards/dxcc Fill in ALL fields on the record sheet.
* Write clearly and concisely.
* There are no restrictions on what can be checked. (Cards for 160 meters, deleted entities and cards more than ten calendar years old can be checked.)
* They will not bring applications with cards back to ARRL HQ. All cards must be checked and claimed in Dayton.
* For those submitting a hybrid application (LoTW and paper credits combined), the LoTW application must be in the LoTW system by 7:30 AM EDT Monday morning, May 22nd.
* If you do a hybrid application, you must note on the LoTW application that a paper application is being made. You must also note on your paper application that you will be submitting a LoTW application by checking the appropriate box.

* They will also check cards for other ARRL awards, WAS, VUCC, WAC.

GM, SCOTLAND. Well-known GM-island activator Joachim, DH5JBR, will once again be on his annual Scottish "tour" starting on Sunday, April 30th (afternoon - WX permitting). Here is a good opportunity to work some of those missing islands, perhaps not "rare", but some not activated very often for the "SCOTtish Island Award" (SCOTIA). Joachim will begin on Gt. Cumbrae (CS17). From there he will move on (possibly modifying the exact order) as weather dictates to the following: Bute (EU-123, SCOTIA CS19, IOSA CL02), Arran (EU-123, SCOTIA CS14, IOSA CL01), Islay (EU-008, SCOTIA CS25, IOSA NH22, WLOTA LH-1826), Colonsay (EU-008, SCOTIA DI05, IOSA NH19), Jura (EU-008, SCOTIA CS28, IOSA NH21), Gigha (EU-008, SCOTIA CS23, IOSA NH24), Davaar (EU-005, SCOTIA CS11, IOSA CL09, WLOTA LH-0724) (tide permitting), Seil (EU-005, SCOTIA CS40, IOSA FL03), Lismore (EU-008, SCOTIA CN07, IOSA FL01), Luing (EU-005, SCOTIA CS36, IOSA FL04), Easdale (EU-005, SCOTIA CS39, IOSA FL14) (battery power permitting), Kerrera (EU-008, SCOTIA CN02, IOSA FL02), Mull (EU-008, SCOTIA CN10, IOSA NH15), Ulva (EU-008, SCOTIA CN05, IOSA NH18), Iona (EU-008, SCOTIA CN01, IOSA NH16), Eigg (EU-008, SCOTIA DI19, IOSA NH03), Skye (EU-008, SCOTIA CN14, IOSA NH07), North Uist (EU-010, SCOTIA HI13, IOSA OH02), Baleshare (EU-010, SCOTIA HI11, IOSA OH26), Benbecula (EU-010, SCOTIA HI08, IOSA OH04), South Uist (EU-010, SCOTIA HI06, IOSA OH03, WLOTA LH-2972), Eriskay (EU-010, SCOTIA HI05, IOSA OH09), Barra (EU-010, SCOTIA HI02, IOSA OH11), Berneray (EU-010, SCOTIA HI15, IOSA OH05, WLOTA LH-0756), Harris/Lewis (EU-010, SCOTIA HI21, IOSA OH01, WLOTA LH-2075), Raasay (EU-008, SCOTIA CN24, IOSA NH10), Isle of Ewe (EU-005, SCOTIA CN29, IOSA SC11), Handa (EU-123, no SCOTIA Ref. No., IOSA SC07) and Lindisfarne/Holy Island (not in GM-land but EU-120 for IOTA, WLOTA LH-1415). Joachim intends to operate primarily on 20 meters (14260 kHz +/-). He will also activate any lighthouses "in his path" such as Ardnamurchan, Stoer Head, Tarbat Ness, Flamborough Head and Spurn Head. To obtain more details about SCOTIA Islands, please refer to the following Web site at: http://www.gm3vlb.com
You will also find an excellent cross-reference aid (Island name - to SCOTIA - to IOSA) prepared by another well-known island hunter John, OZ4RT.

H4, SOLOMON ISLANDS. Bernhard, DL2GAC (P29VNS and VU2BMS) will be active from Honiara, the capital of Solomons, as H44MS until April 27th. Activity will be on 80-10 meters SSB only. He was quite active this past week on 17/15 meters. Operations will be barefoot because he smoked his amplifier this past week. QSL is via the club or direct to his home callsign DL2GAC.

IOTA NEWS.....
AF-045. Dani, 6W/EA4ATI, informs OPDX that he will be active as 6W1EA from Goore Island, April 22-23nd. QSL via direct to EA4ATI.

AS-076. Look for JN4MBO/5 and JA5BEX/5 to be active from Toyo Island (JIIA AS-076-NEW), JA5 Shikoku Island group, April 16th. QSL via their home callsigns. You can go direct or via the bureau.

EU-065. Antoine, F5RAB, will be active from Ouessant Island between April 22-26th. Activity will be on the HF bands CW/SSB, barefoot

with 100 watts and wires.

EU-074. Antoine, F5RAB, will be active from Brehat Island between
April 26-28th. Activity will be on the HF bands CW/SSB, barefoot
with 100 watts and wires.

EU-123. The Scottish-Russian ARS is organizing its first 2006 DXpedition
to Holy Island (IOSA: CL06 and SCOTIA: CS13), and is expected
to be active as MS0DGR from April 18-20th. The team consists
of MM0DFV, GM0WRR, GM4TOQ and MM0GDL. They have received official
permission from the Samye Ling Tibetan Centre to operate from
the island. Unfortunately, they are not allowed to use a petrol
generator, therefore their DXpedition is going to be a QRP one.
They will use an Icom IC-706 transceiver and 7.5A batteries.
They plan to walk across the island with a light 9m fibreglass
pole and 20/40m dipole antenna to activate some rare sites for
different award programs - Mullach Mor (SOTA: SI-143), Pillar
Rock Point Lighthouse (ARLHS: SCO-100, WLOTA: LH-1415 and WAB
NATS: A4330), Inner South West End Lighthouse (ARLHS: SCO-101
and WAB NATS: A4332). The island belongs to North Ayrshire
Unitary Authority (WAB: AYN), accordingly two WAB Areas will
be activated - NS02AYN and NS03AYN. QSL cards should be sent
to SRARS: P.O. Box 7469, Glasgow, G42 0YD, Scotland, U.K.

EU-170. Just a reminder that a team of six operators (from DL and 9A)
will be active as 9A0CI from Dugi Otok Island (IOCA CI-018,
LH-2375, ARLHS-CRO-183 and MC-074) between April 15-22nd. See
OPDX.755 for a list of operators and other details. Activity
will be be on CW, SSB, PSK and RTTY on all bands. QSL 9A0CI
via DE0MST (100% via bureau), and the others via their home
callsigns.

EU-171. Operators Ela/DL1TM and Tor/DJ4MG will be active from Vendsyssel
Island again during the Easter holidays between April 16th and
May 4th. Activity will be on SSB on 160/80/40/20/15 meters and
on PSK31 on 20 meters. QSL via their home callsign. Also check
their Web site at: http://dj4mg.dyndns.org

NA-140. Steve, W3RFA, plans to be active in the RSGB IOTA Contest (July
29-30th) from South Marsh Island (USI MD-009 new one!), Somerset
County, Maryland. Activity will be SSB only with 20 watts max.
Steve will be accessing this island by canoe across 5 miles of
open water. He will only have what he can pack in the canoe on
a single trip. Low angle propagation should be good since the
location is in the middle of a salt marsh. QSL via his home
callsign (QRZ.com).

NA-198. Operators Dan/VO1MX, Wayne/VO1TA, Ken/VO1KVT and Jason/VO1JNS
will be active from Exploits Island (NF-052 for the Canadian
Islands Award) from July 27-30th. Activity will include the
RSGB IOTA Contest (July 29-30th). They plan to be active on
all bands and modes. QSL via VO1MX (QRZ.com).

OC-042. Rannie, DU1EOV, plans to be active from Mt. Pulag, Luzon Island (WLOTA LH-0081), Philippines, from April 15-19th. The focus of the activity will be propagation testing homebrew emergency communications. Mt. Pulag covers Benguet, Ifugao and Nueva Viscaya Provinces in northern Luzon and reaches an altitude of 2922m ASL. It is the highest peak in Luzon and second to Mt. Apo as the highest peak in the Philippines. It is known internationally to be the seat of the culture of indigenous peoples of Benguet.
QSL via DU1EOV (QRZ.com).

OC-161. The Toba DX Group will be active as YE6N on their next operation from Nias Island, April 20-27th. The operators will be YC6JKV (team leader), YC6LAY, YB6LYS, YB6PLG and YB1BOD/6. The group plans to have two stations active on 160-10 meters, WARC bands included, on CW/SSB. QSL Manager will be Kadek, YB9BU, and he requests that no Green Stamps be sent except for new IRCs (from the original country). Visit the group's Web site for more details at: http://www.toba-dx-group.net

J5, GUINEA-BISSAU. Operators Hisato/JA1DOT and Hiroyuki/JP1TRJ will be active as J5DOT and J5TRJ, respectively, from April 25th and May 4th. Activity will be on all bands CW/SSB/RTTY. The duo will be using a TS-480HX and IC-706, and wire GP/DP with 5 meter long mast plus 10 meter long fishing rod. Their Pilot Station will be Ono, JK1OPL. QSL both callsigns via JA1DOT: Hisato Kobayashi, 2-7-19 Mejirodai, Hachioji-city, Tokyo 193-0833, Japan. An online log search will be available after the operation. For more details, visit the Web site at: http://www.ndxa.jp/pedi/j5-2006/

JT, MONGOLIA. Operators Nicola/I0SNY, Ernesto/I2FUG, Oscar/IK2AQZ and Giovanni/IK2JYT will be active as JT1Y from Ulaanbaatar and JT0Y from Oigij between April 18th and May 8th. Activity will be mainly on 17/12/6 meters on CW/SSB/RTTY/PSK. QSL via I0SNY.

KP2, U.S. VIRGIN ISLANDS (3 Steves Op Update!). Operators Steve/N2IFA, Steve/KB2ENF and Steve/KF2TI will be heading to St. Croix, and will be active between May 19-22nd (0400-0400Z). The 3 Steves will be signing KP2/homecall. The 3 Steves special event stations will be on the General portions of 160-10 meters. Also, if you work all 3 Steves you can receive a coveted WAS (Worked All Steves) Certificate. Details are available on their new Web page at: http://3stevesandkurt.dynu.com/
QSL via the bureau or direct to: Steve Adell, KF2TI, 606 E Vail Rd, Landing, NJ 07850-1218. ADDED NOTE: This just in.... It's official!!! The Three Steves and a Kurt have their own callsign!!! The 3 Steves Amateur Radio Club callsign is WK3SS (Which stands for either Worked Kurt and 3 Steves or WorKed 3 Steves.

LX, LUXEMBOURG. Operators Theo/PA1TO, Paul/PA2CW, Martin/PA2W and Con/PE1OOM will be active from Wiltz as LX/homecall from April 23-29th. Activity will be on all HF bands with special attention to 160m and the WARC bands. QSL via their home callsigns. More QSL info is available on QRZ.com. Visit their Web site at: http://www.xs4all.nl/~pa1to/lx2006.html

QSL INFO AND NEWS.....
IT'S OFFICIAL! Charles, K4VUD, reported that effective April 13th, all QSLs for the following callsigns should go to this new permanent address: Charles Harpole (Phosit)
95/1 Moo 1
Thambon, Ban Kok
Amper Meung
Samut Sakhon 74000 THAILAND
This is for callsigns: VU3CHE/VU4AN, VU3CHE, HS0ZCW, K4VUD, AC4TT, 9N7UD, 9N1UD, V26V, XW1UD and A52UD. PLEASE NOTE: "NO" stamps of any kind nor "NO" IRCs should be sent. ONLY U.S. currency is OK. ALWAYS INCLUDE RETURN SELF ADDRESSED ENVELOPE FOR DIRECT REPLIES.

Tom, N4NW, has recently uploaded the logs for his TN4NW and 9Q5NW operations that took place during the late 80's to the Logbook of the World. However, anyone requiring a genuine QSL for those operations can still send their request with SASE or SAE +IRCs to K4TSJ.

Boris, T93Y, has announced that the QSL cards for the recent Liechtenstein DXpedition were received from the printer. All direct QSL requests for HB0/T93M, HB0/T93Y, HB0/T94DX, HB0/T94JJ and HB0/T96Q, were answered by DJ2MX and T93Y. You can see the QSL design in QSL Info section on the Liechtenstein 2006 Web Page at: http://www.t93y.com/hb0

SPECIAL EVENT. Look for GB6SWL to be active to celebrate the 60th Diamond Anniversary of the International Shortwave League (ISWL) between April 14-17th. Operator will be Ron, G6BMY, located in Bagulay, Manchester. QSL via ISWL QSL Bureau.

SPECIAL EVENT. Jean-Yves, F8LDX, will be active as TM1IMD on April 22nd, to celebrate International Marconi Day. QSL via F8LDX (by the bureau is preferred).

SPECIAL EVENT. During the month of June look for many French stations to be active to commemorate the 62nd anniversary of the D-DAY landing in Normandy, on June 6th, 1944. Michel, F6IPS, is expected to be active as TM6SME between June 3-13th, from his own station in Emondeville, a small village located in the neighborhood of Sainte Mere-Eglise. Look for him on CW, SSB and the digital modes, on the HF bands. QSL via the bureau or direct to: Michel Le Balc'h, 16 Hameau Mace, F-50310 Emondeville, France.

VK8C, COCOS-KEELING ISLANDS (Update). Last week we mentioned that Bernd, VK2IA, will be active as VK9AA during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band entry. Bernd informed OPDX that he will be there between November 20-27th and will watch out for W/VE before the CQWW Contest as QSOs with most of North America are more difficult during the contest (polar path). He also added that he will be there between October 27-30th for the CQWW SSB Contest (October 28-29th) as a Multi-Single entry with VK2CZ and possibly others. However, activity will be focused on the contest due to limited time on the island. QSL both operations via DL8YR. ONE MORE NOTE: Bernd also told OPDX that "Charlie, W0YG, also has plans to go there later in the year. In fact, we will be handing over each other room keys and station." We will try to get hold

of Charlie to find out more details. Stay tuned!

VU4, ANDAMAN ISLANDS (News!).....
Bernie, W3UR, Editor of "The Daily DX" will be joining Martti/OH2BH and Jorma/OH2KI in operating from VU4-land as well as making some presentations at the convention. The trio's VU callsigns are as follows: OH2BH - VU3OHB, OH2KI - VU3KIE, and W3UR - VU3OHA. ADDED NOTE: Bernie seemed to indicate that he will be active from VU4 on RTTY.

UPDATE. Frank, DL4KQ, has announced that his team is now 10 operators. Operators mentioned (w/VU callsigns) are: VU3FRK (DL4KQ), VU3RWO (K3LP), VU3JLW (AA4NN), VU3SIC (F5CWU), VU3SIB (F4EGD), VU3RYN (N6TQS), VU3RYM (DL5OAB), VU3TLY (IK1PMR), VU3PLM (K2LEO) and VU3RSB. They plan to have 5-6 stations on the air. QSL Manager will be F5CWU (bureau or direct).

As announced earlier, the VU4AN prefix indicator is the callsign of stations operating from VU4 HAMFEST, organized by National Institute of Amateur Radio (NIAR), Hyderabad, India. Activity will be from Port Blair, Andaman Islands (IOTA: AS-001, CQ Zone: 26, ITU Zone: 49, and WLOTA:LH-0562) between 1830z April 17th and 1830z April 25th. NIAR suggests to contact as many VU4AN operators as possible and win Awards! More details about VU4AN Awards can be found on:
http://www.niar.org/hamfest/awards.html
As this was being written (April 14th), some 72 operators are listed as active operators (32 foreign/40 Indian). Here is a list of foreign operators (with Indian callsigns) announced so far:
VU3CHE (K4VUD), OM Charlie, USA VU3RYE (DL9GFB, OM Franz, Germany
VU3FRK (DL4KQ), OM Frank, Germany VU3RYF (DL9MS), OM Joachim, Germany
VU3GMM (XU7ACC), YL Snjezana, Germany VU3RYG (SP3CYY), OM Janusz, Poland
VU3KIE (OH2KI), OM Jorma, Finland VU3RYH (WA6UVF), YL Ellen, USA
VU3NZB (DJ8NK), OM Jan, Germany VU3RYI (JR3MVF), YL Miyo, Japan
VU3NZC (SP3DOI) OM Leszek, Poland VU3RYJ (W0GJ), OM Dr.Glenn, USA
VU3OHA (W3UR), OM Bernie, USA VU3RYM (DL5OAB), OM Bernd, Germany
VU3OHB (OH2BH) OM Martti, Finland VU3RYN (N6TQS), OM Doug, USA
VU3JLW (AA4NN), OM Joe, USA VU3RYP (VK8FR), OM Dr.Rehman,
VU3PLM (K2LEO), YL Claudia, Italy Australia
VU3RIC (DJ5IW), OM Joe, Germany VU3SIB (F4EGD), OM Sylvain, France
VU3RVC(DK5WL), OM Dr.Pick, Germany VU3SIC (F5CWU), OM Flo, France
VU3RWN (SP3GEM), OM Jerzy, Poland VU3SID (DJ7ZG), OM Lot, Germany
VU3RWO (K3LP), OM David, USA VU3SIE (DK1BT), OM Manfred, Germany
VU3RWP (JH4RHF/OE1ZKC), OM Junichi, VU3SIF (DL3GA), OM Andy, Germany
Japan/Austria VU3SIG (DL7AFS), YL Babs, Germany
VU3RYB (DL7DF), OM Sigi, Germany VU3TLY (IK1PMR), OM Andrea, Italy

To keep up-to-date on the operators, see or visit the following Web page which seems to be updated daily: http://www.qrz.com/callsign/VU4AN

WEB PAGE REBUILTED/RESTORED. John, K1ER, informs OPDX that the VP6DI and KH8SI Web pages had to rebuild from scratch. Multi-viruses attacked and destroyed all the files on Bruce's, WD4NGB, (Web Master) Web pages completely. The Web pages have been reconstructed and are now available

at: http://www.iijnet.or.jp/JA1BK/
Visit this page and you will find two windows available (VP6DI and KH8SI),
and a short video.

Source record: 3353

I have worked SO1R on 40, 30 and 15 CW. But have missed him on 20CW.
Notice on the Clusters NO LISTINGS for him on 20CW. Anyone know what's up?

Dan/W4NTI

Dan:

I worked S01R on 20m CW, and have heard him there and seen him
spotted there many times. There are a couple of hundred spots for
him on 20 CW from 4/11 through 4/14, although none after 4/14
at 0202Z (as confirmed through search on DX Summit).

You've typed his call incorrectly below - it is 'S01R' (S-Zero-One-R)
not 'SO1R' (S-Oh-One-R). Try searching with the correct call?

73, Jeff K8ND

754. YOUR LEADER K1MAN/AARA/IARN WILL NOT PAY $21,000 FCC FINE - DEMANDS JURY TRIAL

Newsgroup: rec.radio.amateur.dx
Date: 2006-04-15 18:00:55 UTC
From: netmanager2@yahoo.com
Message-ID: <1145124055.061145.118150@g10g2000cwb.googlegroups.com>
Source record: 3356

K1MAN/AARA/IARN WILL NOT PAY $21,000 FCC FINE - DEMANDS JURY TRIAL

1. The FCC has declined to provide a requested hearing, and the Fifth Amendment to the United States Constitution requires a hearing and due process of law before they can collect a dime much less the "ORDERED" "fine" of $21,000. Even a traffic ticket gets a hearing, right?

2. Therefore, the next step for the FCC, by statute, is to now sue K1MAN for the claimed $21,000 in Federal District Court in Bangor, Maine where K1MAN would demand a trial by jury (trial de novo), subpoena witnesses (Hollingsworth, Boston Office Engineers, hams, etc.), file motions, etc. The FCC can't even bring such a suit, of course, because the minimum claim in Federal District Court is $50,000.

3. By statute, unresolved forfeiture matters such as above cannot be used in any other FCC proceeding such as K1MAN's pending renewal application.

4. By statute, K1MAN can and will continue to operate until the renewal application is finally decided including all appeals to the D.C. Court of Appeals and the U.S. Supreme Court.

Bottom line is that the FCC is blowing phony legal smoke leading to Hollingsworth's 2006 Dayton "Special Achievement Award" which is not too bad for a guy who was sick on the day they taught law at law school. Wake Forest Law School should refund all of his hard earned money! Good luck in the contest!

73 and GL de K1MAN

Glenn A. Baxter, P.E.

Yes, but not just there. That happens in almost every group. Normally the
target of the criticism will try to improve their typing and spelling, but
not you. You continue to post and type like a friggen retard.

SC

The k1man legal team had already taken that under
advisement. However, the commission has made an
irrevocable error. Stay tuned.

He will pay the fine or cut a deal with the FCC. Either way he *will* eventually loose his license.

> 2. Therefore, the next step for the FCC, by statute, is to now sue
> K1MAN for the claimed $21,000 in Federal District Court in Bangor,

> subpoena witnesses (Hollingsworth, Boston Office Engineers, hams,
> etc.), file motions, etc. The FCC can't even bring such a suit, of
> course, because the minimum claim in Federal District Court is
> $50,000.

But they do have the legal right to collect this money or a lot of folks who have gone before would have tried this approach. It won't work. Others have paid fines to the FCC for less blatant violations of the rules. Best get a good lawyer and start collecting the money from the change jar, bank accounts, car ash tray etc. Somebody is going to have to come up with $21k. As noted by others, this 50K limit does not apply to this case, but have fun using this defence in court. I can hear it now, "Objection over-ruled! Sit down Mr Baxter!"

A jury trial would be fun to watch, but there would be no doubt about the outcome if Baxter chooses to continue to represent himself. I'm sure a jury of his peers would understand the part 97 rules and how they where broken.

> 3. By statute, unresolved forfeiture matters such as above cannot be
> used in any other FCC proceeding such as K1MAN's pending renewal
> application.

>From my perspective this does not apply in this case any more. The FO pretty much resolves this issue so the FCC *can* use this enforcement issue to deny the pending renewal application, paid or not. However, that need not be the reason used to deny the renewal. I'm sure they have other things they can use to justify a denial if they wanted to. All they need to do is dust off some different violations for which they have collected evidence and voila, application denied. The don't even need a rules violation, just a determination that he would be unfit. Now that's a tough argument.. :)

> 4. By statute, K1MAN can and will continue to operate until the
> renewal application is finally decided including all appeals to the
> D.C. Court of Appeals and the U.S. Supreme Court.

I would not try to operate after the application is denied. Once K1MAN gets the "you no longer have authority to operate" letter from the FCC, he'd best stop. Of course the FCC is well within their rights to keep the application in pending status as long as they choose. The denial may come out today, or may take years. I think it will be sooner rather than later, but I give it a few months yet before they deny the renewal. I'm sure they plan to be totally sure he's not going to pay the fine before they deny the application so any time after the end of the month.

Unless Baxter wants to just loose $21k to help fund the FCC, I would suggest that he contact them through a competent lawyer and seek some sort of settlement terms. Perhaps a life time ban from Part 97 operations, liquidation of all his part 97 capable equipment, promise to not seek a future license while the FCC forgoes the collection of the fines. But hey, it may be to late for even that. I'd bet the FCC has him dead to rights on this fine, he will loose his renewal bid, pay the fine and then who knows what he will do? I'm guessing here, but I'll bet the FCC would agree to him going willingly into part 15 operations and forget the fine under the right conditions.

Based upon is rhetoric it seems that he will be dragged kicking and screaming from his shack and off to jail, while his equipment is confiscated. One can only hope that this is rhetoric and that at some point he will "come to his senses" and give up.

I think it will be sooner rather than later, but I give it a few months yet before they deny the renewal. I'm sure they plan to be totally sure he's not going to pay the fine before they deny the application so any time after the end of the month.

Unless Baxter wants to just loose $21k to help fund the FCC, I would suggest that he contact them through a competent lawyer and seek some sort of settlement terms. Perhaps a life time ban from Part 97 operations, liquidation of all his part 97 capable equipment, promise to not seek a future license while the FCC forgoes the collection of the fines. But hey, it may be to late for even that. I'd bet the FCC has him dead to rights on this fine, he will loose his renewal bid, pay the fine and then who knows what he will do? I'm guessing here, but I'll bet the FCC would agree to him going willingly into part 15 operations and forget the fine under the right conditions.

Based upon is rhetoric it seems that he will be dragged kicking and screaming from his shack and off to jail, while his equipment is confiscated. One can only hope that this is rhetoric and that at some point he will "come to his senses" and give up.

779. Re: YOUR LEADER K1MAN/AARA/IARN WILL NOT PAY $21,000 FCC FINE - DEMANDS JURY TRIAL

He will pay the fine or cut a deal with the FCC. Either way he *will* eventually loose his license.

> 2. Therefore, the next step for the FCC, by statute, is to now sue
> K1MAN for the claimed $21,000 in Federal District Court in Bangor,
> Maine where K1MAN would demand a trial by jury (trial de novo),
> subpoena witnesses (Hollingsworth, Boston Office Engineers, hams,
> etc.), file motions, etc. The FCC can't even bring such a suit, of
> course, because the minimum claim in Federal District Court is
> $50,000.

But they do have the legal right to collect this money or a lot of folks who have gone before would have tried this approach. It won't work. Others have paid fines to the FCC for less blatant violations of the rules. Best get a good lawyer and start collecting the money from the change jar, bank accounts, car ash tray etc. Somebody is going to have to come up with $21k. As noted by others, this 50K limit does not apply to this case, but have fun using this defence in court. I can hear it now, "Objection over-ruled! Sit down Mr Baxter!"

A jury trial would be fun to watch, but there would be no doubt about the outcome if Baxter chooses to continue to represent himself. I'm sure a jury of his peers would understand the part 97 rules and how they where broken.

> 3. By statute, unresolved forfeiture matters such as above cannot be
> used in any other FCC proceeding such as K1MAN's pending renewal
> application.

>From my perspective this does not apply in this case any more. The FO pretty much resolves this issue so the FCC *can* use this enforcement issue to deny the pending renewal application, paid or not. However, that need not be the reason used to deny the renewal. I'm sure they have other things they can use to justify a denial if they wanted to. All they need to do is dust off some different violations for which they have collected evidence and voila, application denied. The don't even need a rules violation, just a determination that he would be unfit. Now that's a tough argument.. :)

> 4. By statute, K1MAN can and will continue to operate until the
> renewal application is finally decided including all appeals to the
> D.C. Court of Appeals and the U.S. Supreme Court.

I would not try to operate after the application is denied. Once K1MAN gets the "you no longer have authority to operate" letter from the FCC, he'd best stop. Of course the FCC is well within their rights to keep the application in pending status as long as they choose. The denial may come out today, or may take years. I think it will be sooner rather than later, but I give it a few months yet before they deny the renewal. I'm sure they plan to be totally sure he's not going to pay the fine before they deny the application so any time after the end of the month.

Unless Baxter wants to just loose $21k to help fund the FCC, I would suggest that he contact them through a competent lawyer and seek some sort of settlement terms. Perhaps a life time ban from Part 97 operations, liquidation of all his part 97 capable equipment, promise to not seek a future license while the FCC forgoes the collection of the fines. But hey, it may be to late for even that. I'd bet the FCC has him dead to rights on this fine, he will loose his renewal bid, pay the fine and then who knows what he will do? I'm guessing here, but I'll bet the FCC would agree to him going willingly into part 15 operations and forget the fine under the right conditions.

Based upon is rhetoric it seems that he will be dragged kicking and screaming from his shack and off to jail, while his equipment is confiscated. One can only hope that this is rhetoric and that at some point he will "come to his senses" and give up.

And how would you justify that position?

Care to have a thinking debate or are you going to continue to post flames?

Seems to me that a Forfeiture Order is sort of final from the FCC's perspective. Pay up or face the DOJ in court when they attempt to collect the fine.

An you don't think that the FCC will simply renew his license do you?

Unlike the operation in December 2004, some of the new batch are able to be heard in the upper Midwest.

So far, as least four or five of the stations act as if they understand the propagation facts of the difficult path from VU4 to NA - if not the additional problems for paths in the shadow of the magnetic pole.

Plus and minus of 1600Z and a short window near 2400Z (both on 14 MHz) are about 80% of the possibilities from Michigan.

Worked the DL7DF-group on 17m CW today (all time new one) during
a short break at university (hooray for campus clubstation!),
quite easy from Europe.

Unless they start begging somewhere, I shall be happy with my QSO
and let others, who really need them for a new one have a go now.

> Will keep trying. Good luck to all!

Good luck to everyone in need ;-)

Yep. It was made using my own callsigns, which is perfectly legal
here. I know there have been some debates about the validity or
'ethicality' of this kind of contacts, but I personally feel it's
absolutely OK. It also conforms to DXCC rules, which say:

,----[Section I. Basic Rules]---------------------------------
| Contacts may be made from other stations provided they are
| personally made by the licensee.
`--

YMMV.. 73,

807. VU4 manager list

Newsgroup: rec.radio.amateur.dx
Date: 2006-04-18 21:58:11 UTC
From: Henry <wa0goz@arrl.net>
Message-ID: <rf-dnWFU-IVv_djZnZ2dnUVZ_u-dnZ2d@comcast.com>
Source record: 3309

Is there a QSL manager list for the various VU4's posted anywhere?

Thanks

Henry WA0GOZ

808. Tropo on 220, 144 or 50 in northeast USA tonight?

Newsgroup: rec.radio.amateur.dx

At about 7:45PM EDT in NJ I saw what looks like tropo co-channel interference on New York City's channel 13. So maybe there is some VHF DX to be had right now (I don't have any decent VHF rigs handy myself though).

As channel 13 is just a little below 220, maybe there's some good tropo to be had there.

I'm ignoring him.

He's gonna fuck around and get a window full of me if he keeps begging for
it.

He's only a bit over two hours away and I was born in the state he lives
in.

I just knock and start snapping pics..... as I extend my hand in
congratulations.

I worked them on 20 RTTY at 2050Z. It was surprisingly easy, probably because they were so weak, just barely moving the S-meter, and not many NA hearing or calling them at the time.

That's one of my last 4 on RTTY! (BS7, VU7, and 7O are the others).

This was frequently done at the University of Wisconsin back in the 1970s as well. Most of these operators didn't have their own stations - or those stations consisted solely of 2m gear - so if you didn't work the DX from the club station, you weren't going to work it at all.

We did consider it bad form to work a DXpedition with your own call if the club still needed it on that band/mode. (i.e., you worked it with the club call first)

That's pretty amazing. I was just about certain I remembered it
wrong<grin>!

Either way, I'm afraid it's *not* in my log -- I called for about an
hour but they faded out before I could work them. Will definitely be
paying more attention for the rest of the week though.

I've always felt that I'd not get the same thrill of getting through if I didn't do so with my own equipment, but I'm an incurable antenna builder...

I was worried that I wouldn't be able to get 3Y0X from my apartment QTH: I have a magnet wire doublet and a tuner... but I got them on 30m & 20m CW and 40 SSB... the last of which was pure dumb luck; no one was calling... It was exciting in a way that heading up to the W3EAX U of MD shack wouldn't have been.

Of course, VU4 is MUCH tougher ... but I'm a 27 year old grad student and if I don't get it now, I'll get it later, when I have a house and a beam...

On the other hand, if the thrill of the contact for you doesn't have much to do with the station you use, I'm all for you heading to the university station...

So, I probably won't get VU4 this time around but I've got a small hope that my new fishing pole vertical dipole for 30/40m might just get me something now that I've found that all the electrical noise that was ruining its utility was coming from a lamp I built for my girlfriend, which I can unplug :-)

73 and good luck!
Dan,

At many universities, there is no way to erect an antenna in student housing. At Wisconsin it was contrary to housing authority rules -- and on the upper floors it was physically impossible even if you didn't worry about the rules. Steel frame construction made indoor antennas useless on the HF bands. (believe me, I tried. Made an entire *one* QSO on HF from my room - with the club station across the street...)

i.e., often it's not a matter of not wanting to use an inferior personal station - it's a matter of not *having* a personal station at all.

Yep, I've never been in the "physically impossible" category,
fortunately. All my college dorm rooms had a tree in good proximity to
do the invisible random wire thing.

Plus when I was in college, 10m was hot, so my 30' long wire 15 feet
off the ground actually did something...

My apartment now is nice in that I have a balcony which gives me more
options as far as where I can mount temporary antennas and better shots
at the trees with a slingshot so I've got 100 feet of wire in the
air...

As far as the rules... I just try to be courteous to the neighbors by
keeping the power down and try to be relatively stealthy, but I'll tell
you, I'm sure the maintainance guys have seen my temporary mast and VHF
antennas occasionally in the mornings, and no one has ever said
anything. Of course, 45 minutes later when I go to work, there's no
trace of them...

If you're stuck inside steel frame dorm building... you're right, not
much to be done there...

Club station it is in that case...

Henry,

The link is

http://www.dx-pedition.de/andaman2006/qsl.html

Flo Moudar, F5CWU
25 Rue du Castel Salis
37100 Tours
FRANCE

Clearly identify on your qsl request the station you have worked because
due to the license conditions all will have to use VU4AN followed by the
issued individual call (f.e. VU4AN/VU3FRK) which will make the qsl
management not very easy.

Again, Mark I ask that you please stop changing your screen
nic to by pass newsgroup filters. As you can see it is clearly against
your TOS:

6.1 PROHIBITED CONDUCT.
You agree not to use the Service as follows: (a) for any unlawful, improper
or criminal purpose or activity; (b) to post or transmit information or
communications that, whether explicitly stated, implied, or suggested
through use of symbols, are libelous, defamatory, invasive of another person's
privacy, obscene, indecent, pornographic, sadistic, cruel, or racist in
content, or of a sexually explicit or graphic nature; or which espouses,
promotes or incites bigotry, hatred or racism; or which might be legally
actionable for any reason; (c) hurts minors in any way; (d) forge headers or
otherwise manipulate identifiers in order to disguise the origin of any
content transmitted through the Service; (e) intentionally or
unintentionally violate any applicable local, provincial, state, national or
international law, including, but not limited to, rules, orders and
regulations having the force of law; (f) to attempt to access or access the
accounts of others, to spoof or attempt to spoof the URL or DNS address, or
to attempt to penetrate or penetrate our security measures or other
entities' systems ("hacking") whether or not the intrusion results in
corruption or loss of data; (g) to bombard individuals or newsgroups with
uninvited communications, data or information, or other similar activities,
including but not limited to "spamming", "flaming" or denial or distributed
denial of service attacks; (h) to transmit unsolicited voluminous emails
(for example, spamming) or to intercept, interfere with or redirect email
intended for third parties using the Service; (i) to introduce viruses,
worms, harmful code and/or Trojan horses on the Internet; (j) to post
information on newsgroups which is not in the topic area of the newsgroup;
(k) to interfere with another person's usage or enjoyment of the Internet or
this Service; (l) to post or transmit information or communications that are
defamatory, fraudulent, obscene or deceptive, including but not limited to

scams such as "make-money-fast" schemes or "pyramid/chain" letters; (m) to damage the name or reputation of HughesNet, DIRECTV, HUGHES, or any of their respective parents, affiliates and subsidiaries, or any third parties; (n) to transmit confidential or proprietary information, except solely at your own risk; (o) to violate our or any third party's copyright, trademark, proprietary or other intellectual property rights, including trade secret rights; (p) to generate excessive amounts (as determined in our sole discretion) of Internet traffic, or to disrupt net user groups or email use by others; (q) to engage in activities designed to or having the effect of degrading or denying Service to HughesNet users or others (including activities that compromise a server, router, circuit or software; (r) to use any name or mark of HughesNet, DIRECTV, HUGHES, or their respective parents, affiliates or subsidiaries, as a hypertext link to any Web site or in any advertising publicity or other commercial manner; (s) to use your HughesNet account for the purpose of operating a server of any type; (t) to use the Service or the Internet in a manner intended to threaten, harass, or intimidate others; (u) to cause the screen to "scroll" faster than other subscribers or users are able to type to it, or any action that has a similar disruptive effect, on or through the Service; (v) to use the Service to disrupt the normal flow of online dialogue, (w) to use the Service to violate any operating rule, policy or guideline of any other online services provider or interactive service; (x) to attempt to subvert or to aid third parties to subvert, the security of any computer facility or system connected to the Internet; (y) to impersonate any person or using a false name while using the Service; (z) to install "auto-responders," "cancel-bots" or similar automated or manual routines which generate excessive amounts of net traffic, or disrupt net user groups or email use by others; (aa) to make false or unverified complaints against any HughesNet subscriber, or otherwise abusing any of our complaint response procedures; (bb) to export software or any information in violation of US export laws; or (cc) to use the Service in contravention of the limitations of the pricing plan you have chosen

824. VU4 Working Europe and Japan

Newsgroup: rec.radio.amateur.dx
Date: 2006-04-20 04:45:30 UTC
From: David Thompson <thompson@mindspring.com>
Message-ID: <KIE1g.6259$Es3.732@newsread3.news.atl.earthlink.net>
Source record: 3326

There were several posts about some of the VU4 stations working Europe and even Japan at the few times the band is open to North America.

SE Asia is the hardest area to work from SE USA. On good days we get a short 30 to 1 hour opening
and its frustrating to have them working Europe or japan only at that time especially when the bands are open to Europe for 6+ hours and even more to Japan.

Please listen for North America (East Coast). Tip of the hat to Charlie, K4VUD for working USA 4's on 17 as VU4AN/VU3CHE.

Dave K4JRB

You left this part out:

"Contacts made from club stations using a club callsign may not be
used for credit to an individual's DXCC."

Your rules appear to be different but in the US the call sign is
assigned to the "station", not the individual and the station call is
what should be used.

A few years ago I operated W1AW but I sure wouldn't claim those QSOs
as my own for DXCC purposes since I identified as W1AW, not N7WS.

Charlie has mentioned lots of intermod; could be that the VU4's just aren't hearing USA with all the EU and JA calling in and the 10 other VU4's operating from the same hotel :-)

I've not heard a peep yet... Unfortunately, it seems like the peak hours here are late morning and early afternoon on 20m, and I'm in the lab all day....

Good luck, hope you get 'em.

Again: I made the QSO using my own personal callsign (DJ1YFK),
not with the clubstation callsign.

> Your rules appear to be different but in the US the call sign is
> assigned to the "station", not the individual and the station call is
> what should be used.

Yes. In DL the callsign is assigned to an individual, no matter
from where it's used.

> A few years ago I operated W1AW but I sure wouldn't claim those QSOs
> as my own for DXCC purposes since I identified as W1AW, not N7WS.

Same here with my numerous recent activities where I was actually
using a club-call (like DM1A WAE CW, DP4T CQWW CW, DP4K RUDX, all M/S).
That would have added a *lot* of new bandpoints, if it was credited
to my own callsign.

Yes Charlie was having some problems but several of us in 4 land worked him.
I first worked VU4 in 1961 with VU2NR as VU2NRA. There were several on
today but NIL here. I heard one French station thank a VU4/VU3 (on 14250)
for his 50th QSO this week!

Please don't try to correct me unless you learn to spell and form
complete sentences.

I understood completely that he was using his own call.

That would be where I said, "Your rules appear to be different but in
the US the call sign is assigned to the "station", not the individual
and the station call is what should be used."

And don't selectively delete things to make a dipshit point.

Still the club can "loan" the station to an individual and that individual
can operate using their own call sign. It's basically a matter of club
policy whether or not you may use your own call sign on the club station.

I just checked on a couple I found on the Net. No one has it. I've heard of it before, but don't remember. I asked him and he said "Borga Principality". I have no idea. Probably some scrounged call not approved by ITU.

Like they say...work them and worry about it later.

Thanks Win

I did a search on Borga Principality, on both the web and groups, with
no results. For some reason I am thinking a special call out of
Poland. Borga was an area of Europe somewhere back in history, I
think.

Put him in the log, though. Who knows....

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 16th-April, through Sunday, 23rd-April there were 217 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J6, J7, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S0, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VQ9, VR, VU, VU4, XE, XU, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, YV0, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

6O, SOMALIA (Update). QSL Manager Dennis, PA7FM, informs OPDX that Michael, PA5M, has left Somalia on April 23rd, and is headed to Kenya (5Z) for some WFP (UN World Food Program) work. At this stage it is unknown if he will return to Somalia for more work.....but there's a chance. Dennis hopes he will know more about this in a few days. For now consider 6O0M

as being QRT (Things at the WFP change very fast sometimes). While in Somalia, Michael made some 2500 QSOs on 80-10m on SSB/CW/RTTY and PSK31. QSL to PA7FM: Dennis Robbemond, Loggerhof 11, 3181 NS Rozenburg, The Netherlands (please do keep in mind 1 USD does not cover outside EU postage anymore).

9M6, EAST MALAYSIA. Operators Mega/JA3EGZ (member of the Himeji Amateur Radio Club) and Yoko/JA3DFM (member of JARL Kobe Club) will be on the air from Kota Kinabaru between July 7-10th. Their callsigns will be 9M6/JA3EGZ and 9M6/JA3DFM. They hope to operate on 80-6 meters, CW and SSB; no digital modes. They will also participate in the IARU HF World Championship as 9M6/JA3EGZ and as a Multi-Op/All-Band/Mixed-Mode entry. Suggested frequencies are:
CW - 3510, 7010, 14015, 21015 and 28015 kHz
SSB - 7088, 14170/14250, 21270 and 28515 kHz
QSL via their home callsigns via the bureau or direct (w/SASE) to JA3EGZ: P.O. Box 6, Himeji, Japan.

9N, NEPAL. Toshi/JA8BMK and Kazu/JA8MWU will be staying at Katmandu for a holiday between April 23rd and May 2nd. They hope to be active mostly on 40-10 meters SSB during those days. Kazu will be using his old callsign 9N7WU. Toshi was at one time 9N1BMK and 9N1WW, but is not sure what his new callsign will be. Due to the political situation in Nepal, their activities may be restricted. QSL via their home addresses/callsigns as listed below:
JA8BMK - Toshihiko Fukuta, 2115-3 Nobori, Yoichi, 046-0002 JAPAN
JA8MWU - Kazunori Abe, 12-5-9 Kagura 7-Jyo, Asahikawa, 070-8007 JAPAN

CN2, MORROCCO. Patrick, F6IRF, will be active as CN2WW from Hassan's, CN8SG, station in Kenitra, between May 20-29th. He also plans to be active in the CQ WPX CW Contest (May 27-28th) as a Single-Op/All-Band entry. QSL via EA7FTR or the LoTW. For updates, visit his Web page at: http://cn2ww.blogspot.com/

CN2, MORROCCO. Jim, W7EJ, will be here between October 18-31st. He plans to be active as CN2R during the CQWW DX SSB Contest (Octoer 28-29th) as a Single-Op/Single-Band (80m) entry. His goal is to set a new record. Outside of the contest, he will be active on the WARC bands and EME. QSL via W7EJ.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operations are approved for DXCC credit:
4W2AQ - Timor-Leste; Operation from June 18, 2003 to December 17, 2003
D6/WB4MBU - Comoros; Operation from May 24, 2001 to October 27, 2001
D68JC - Comoros; Operation from October 23, 2001 to November 8, 2001
YI9AQ - Iraq; Current operation effective September 21, 2004

EG7, SPAIN (Special Event). John, EA7EUF, Secretary of a local branch of the Union de Radioaficionados Espanoles (URE), in Huelva, Spain, informs OPDX that members of URE will be active as EG7CC on May 20-21st, to commemorate 500th anniversary of the death (in 1506) of the world famous explorer Christopher Columbus. Activity will be on 80/40/20/15/10 meters.

Operations will start around 0600z on the 20th. A special QSL card will be issued for 1 QSO, via the bureau or direct (1 IRC or green stamp). QSL Manager is EA7URE: P.O.Box 295, 21080-Huelva, Spain.

EM20, UKRAINE (Special Event). Radio amateurs from the Ukrainian State Centre of Radio Frequencies (Ukrchastotnaglyad), together with a number of other Ukrainian radio amateurs, will operate from Chernobyl City using the callsign EM20U (URDA: KO-26; QTH Loc: KO51CG) between April 24-27th. Activity is in connection with 20th anniversary of the accident at the Chornobyl Nuclear Power Plant. Operations will be on 80-6 meters, SSB, CW and RTTY. QSL via UT3UZ: Alex Arbuzov, P.O. Box 7, Kiev-232, 02232, Ukraine.

HC, ECUADOR (Topband). Rick, NE8Z/HC1MD, reports that Alfredo, HC1HC, is now active on 160 meters CW with a new GAP Voyager Vertical and 1 KW. Tim, HC1HLO, from HCJB was instrumental in helping Alfredo solve his antenna problems. Alfredo will be active as many sunrises and sunsets as possible for the next few weeks...only on CW. Please monitor DX Summit. QSL via NE8Z.

IOTA NEWS.....
AF-045. Dani, 6W/EA4ATI, was expected to be active as 6W1EA from Goore Island, April 22-23nd. However, Dani 6W/EA4ATI, had to postpone his Dxpedition due to work commitments and had to leave Senegal. He is working for the International Red Cross and had to travel to Mali due to an emergency for more than 20,000 refugees. He "may" come back to Dakar, possibly the next week or so. Dani has informed OPDX that he will keep us updated on the dates for his AF-045 operation.

AS-017/
AS-079. Takeshi, JI3DST, plans to be active as JI3DST/JR6 from Okinawa Island (JIIA AS-017-033) from April 27th and Miyako Island (JIIA AS-079-005) from April 28th-May 7th. QSL via his home callsign (by the bureau only).

AS-079. Taka, JR3TVH, will be active as JR3TVH/JS6 from Tarama Island (AS-079-008) in the Miyako Island Group, April 22-May 2nd. Activity will be on 160-6 meters, CW, SSB, AM, FM and Digital. Daily INFO will be available at: http://blogs.yahoo.co.jp/jr3tvh/ QSL via his home callsign (via the bureau is OK).

AS-081. Members of the Korea DX Association (KDXA) and possibly a few guest operators will be active as homecall/5 from Koje Island (KDN L012), May 4-7th. This is the group's annual IOTA operation. They will have a minimum of two active HF stations operating simultaneously on 160-6 meters on CW/SSB/Digital with various antennas and amplifiers. Operators mentioned are: Kim/HL1OYF, Han/HL1VAU, Ryu/DS4NYE, Park/HL3AMO, Park/DS3GLW, Park/HL3VAP, Kim/HL2FDW, Seong/DS1OFE, Jeong/HL2DBP, Park/HL1EJT, Cho/DS3MLG, Jeon/DS1EVQ, Yang/DS4CDA and a few more guests to be added on. Han/HL1VAU informed OPDX that he will concentrate on the WARC

bands and CW during the operation. QSL via operator's homecall
to the CBA. More information, pictures and a log search will be
available at: http://www.kdxa.org/2006/as081/
(now under construction)
Any questions and sked requests are always welcome via:
hl1vau@empal.com

AS-123. Karl, WA2KBZ, is now active as TA0/WA2KBZ from Buyukada Island,
in the Sea of Marmara, until May 1st. Expected activity will
be on 80, 40 and 20 meters, mostly CW. He was spotted this past
week on 20 meters CW and SSB. QSL via his home callsign.

EU-006. John, G3LZQ, will be active as EJ/G3LZQ from Inis More between
July 28-31st. This will be a holiday style operation, and his
activity will be on all bands, CW, including the RSGB IOTA
Contest (July 29-30th), with some WARC operation before and
after the contest. QSL via his home callsign.

EU-008/
EU-010. Look for Marc/ON5FP and Jose/ON4CJK to be touring the Outer
Hebrides (EU-010) between July 29th and August 5th. They will
use their special callsigns MM/OS1A and MM/OP0J. Jose will
also take part in the IOTA Contest from North Uist Island (the
island where they will use has their base QTH). They will also
try to activate the following islands for the "Islands of
Scotland Award": Barra, Benbecula, Berneray, Eriskay, Lewis &
Harris, South Uist and Vatersay. On their way back home, there
are also plans for a one day trip/activity from Skye Island
(Inner Hebrides - EU-008) on August 6th. QSL via their QSL
Manager ON4ADN (direct or by the bureau).

EU-028. Fabio, IW1DFU, will be active as IA5/IW1DFU from Isola d'Elba
(IIA LI-001, MIA MI-022 and WLOTA LH-0609) from April 23-29th.
Expected activity will be on 30/20/15 meters. QSL via his home
callsign, direct or by the bureau.

EU-042. Operators Heiko/DG0OGM, Lutz/DH8WW, Siegfried/DL1AZZ, Juergen/
DL2AMT, Lutz/DL3ARK and Peter/DL4AMK will be active from the
lighthouse on Amrum Island (WLOTA LH-2464, FED-032, GLH-002
and GIA N-18) between April 27th and May 3rd. Look for the
operators to sign as homecall/p. QSL via the operator's home
callsign.

EU-125. Operators Jef/OZ4ACA, Francis/ON6LY and Marcel/ON6UQ will be
active from the Romo Island (GL JO45GC, Denmark) between July
29th and August 4th. Their activity will include the IOTA Contest
using the callsign OZ0ACA. After the contest look for OZ/OP4A,
OZ/OP1A and OZ0ACA to be active on 80-2 meters on all modes,
depending on the propagation. Their equipment for the running
station: Yeasu FT1000, Amp Alfa 99, Antenna 3 element beam yagi
for 10/15/20m, AKI for 40m and a Inverted L for 80m. Their
equipment for the Multiplier station: Icom IC746 and a FT897d

as backup, Antenna Cushcraft R7 for 40-10m, Inverted Vee for 40/80m and something for 6 and 2 meters bands. QSL OZ0ACA via ON4ACA (by the bureau, or direct using info on QRZ.com). QSL OZ/OP1A via ON6UQ (the by bureau or direct using info on QRZ.com). QSL OZ/OP4A via ON6LY (the by bureau or direct using info on QRZ.com).

NA-010. A group of 8 operators will activate Janvrin Island (NS-010) as VE1FO, May 11-15th. Operators mentioned are: Rich/VE1AI, Eric/VE1AST, Howard/VE1DHD, Frank/VE1FHW, Ella/VE1PEI, Ken/VE1QD, Robert/VE1RGB, and Ken/VY2RU. Hopefully, more details about bands, modes and QSL route will be forthcoming.

LZ06, BULGARIA. Several members of the Bulgarian Federation of Radio Amateurs (BFRA) will activate special event station LZ06KM (LZ Zero Six KM) from May 1-31st, to commemorate the brothers St. Kiril (Cyril) and St. Methodius, founders of the cyrillic alphabet, and May 24th (Bulgarian's Culture and Literatute Day). QSL via LZ1PJ, by the bureau or direct at: Ivan Ivanov, P.O. Box 15, BG-1324, Sofia, Bulgaria (w/SAE+1 USD/1 IRC). NO eQSLs. QSL bureau E-mail request via: lz1pj@qsl.net

NP2, U.S. VIRGIN ISLANDS. Randy, ND0C, will be operating from St. Thomas as NP2/ND0C from May 3-7th. He informs OPDX that he will be using SSB on 15 and 20 meters in his "spare-time". QSL to his home callsign with SASE or SAE and green stamp.

OY, FAROE ISLANDS. Operators Wim/PA2AM, Steve/PA2A, Hans/PAOVHA and Martin/PA2VMA will be on a holiday trip to here between May 29th and June 8th. Look for them to be signing OY/homecall. Activity will be on all bands, CW, SSB, PSK31 and RTTY. QSL all callsigns direct to PA0VHA (QRZ.com). Further information can be found at: http://www.pi4cc.nl/personal/pa0vha/index.htm

QSL INFO AND NEWS.....
Antonio, EA5RM, S01R Team Leader, informs OPDX that the online log is now available at: http://www.s01r.com
Also a few pictures are available at: http://www.s01r.com/photos/
Antonio states, "In the name of S01R team members I want to thank the Western Sahara people for their support and hospitality. Also, we want to thank all who called us on the bands. See you on the next one."

Dennis, PA7FM, reports that the TY5WP QSLs have arrived from the printer. The first batch of cards will be in the mail in the coming week, and he will try to get them all out ASAP.

VU4AN LOGS. Bernd, DF3CB, Web designer of the DL7DF site, has updated the logs of the DL7DF group (VU4AN/VU3RYB, VU4AN/VU3SIE, VU4AN/VU3NZC, VU4AN/VU3RWN and VU4AN/VU3RYG), and you can see them at: http://www.dl7df.com/vu4/log.php

SPECIAL EVENT. This week the Museum of the History of Science in Oxford will be opening an exhibition on the Wireless World; Marconi and the Making of Radio. Members of the Oxford and District Amateur Radio Society (ODARS)

will be running the special event station GB4MHS during the opening hours of 12 noon to 4pm BST, on April 25-29th, to celebrate the opening of the exhibition. Activity will be on 80/40/20/2 meters. QSL Manager information was not provided, please listen to operator's instructions. During the opening of this exhibition the grandson of Guglielmo Marconi and Princess Elettra, Marconi's daughter, are expected to attend. Also, a 6 month festival of radio events at the museum are to follow after the opening. Details are available at: http://www.mhs.ox.ac.uk/

SPECIAL EVENT. There will be a total of 36 different special event stations "ON AIR" during the "2006 Football World Cup" championship in Germany. The HAM radio activity will start May 13th and will last until July 16th. Activities are planned for on all bands and modes. Look for 26 special district stations (DQ2006A to DQ2006Z) and 12 special stadium stations (DR2006B, DR2006C, etc.) with the special DOK "WFC06" to be on the air. Stations will be operated by different operators, including some YLs using the special prefix/callsign DR2006J, from several places within their state. All QSLs will be sent automatically via the DARC QSL Bureau. The QSL Manager for direct cards is DF4ZL. Please enclose 2 USD and 1 SAE. A special football award is available, too. The Deutsche Amateur Radio Club (DARC) is sponsoring this award. Both licensed amateur radio operators and short wave listeners (SWLs) can apply for this reward. Participants may apply for three awards (Bronze, Silver & Gold). For details, visit: http://www.amateurradio2006.de/diplomausschreibung_eng.html

TP, FRANCE. Francis, F6FQK, TP2CE Station's Director, informs OPDX that to commemorate the 20th anniversary of the creation of the Council of Europe Radio Amateur Club (TP2CE), special activity will take place between June 16-18th, using the callsign TP20CE. QSL via F5LGF. Also, during this special occasion, a little contest will take place: "Council of Europe Radio Club 20th Anniversary Challenge". More details and rules are available (6 languages) at: http://ewwa.free.fr
Visit the Council of Europe Radio Amateur Club (CERAC) Web site at: http://www.coe.int/t/e/tp2ce

VU4, ANDAMAN ISLANDS. There was plently of activity from this island over the past week, but it is all coming to an end at 1830z April 25th. OPDX hopes that anyone who needed this for a new entity was able to work it. Remember, there are several awards available for working the VU4AN stations. Details are available at: http://www.niar.org/hamfest/awards.html

VP2, MONTSERRAT. Graham, M0AEP, will be active as VP2MDD from July 1-14th. Activity will be on 80-6 meters, SSB and CW, using 200 watts plus a windom antenna. His main focus will be on 6 meter SSB and CW with 350 watts plus a 5 element yagi. QSL via M0ARP (QRZ.com).

YX0, AVES ISLAND (On The Air, But With Sad News!). The Aves Island DXpedition came on the air April 20th and is expected to be active until about May 1st. However, the DXpedition group had an incident on the island. Jose "Joe" Manuel Valdes Rodriguez, YV5LIX, one of the operators, suffered a heart attack, and the two physicians with the DXpedition team were unable to resuscitate him. Jose's death, at around 0400z, occurred shortly after

the YX0A DXpedition got under way. The Aves Island DXpedition reportedly has obtained permission to use the memorial callsign YX0LIX until the DXpedition ends. The Mexican Navy sent back the ship's helipcopter and picked up Ramon, YV5EED, one of the medical doctors with the operation and the body of Jose, YV5LIX. Ramon will be taking Jose's body back to Caracas. Meanwhile, Esteban, W4DTA/YV5DTA, reports that the process of uploading the logs to the DXpedition's Web site (http://www.yv0.info/) is trying to take place. However, please be aware that the online logs will all be under the YX0A callsign for the moment. The switch to the YX0LIX callsign did not happen until after 11:00 pm EDT Thursday (0300z Friday). Once the team is back on Caracas, the online log will be corrected to show the QSOs with the respective callsigns (either YX0A and/or YX0LIX). The DXpedition team is doing very well and is very active, even though they are still in shock as we might all expect. However, they want to ensure everyone that they are doing their best to make sure you get in the log. Lastly, OPDX and its readers would like to sent out our deepest sympathy to Jose's family and friends.

ZV4/ZW4/ZZ4, BRAZIL (Special Callsigns). Rony, PS7AB, informs OPDX readers to look for the following special callsigns:

ZV4KL and ZZ4W during the Manchester Mineira CW Contest (May 20-21st). QSL via PY4KL. More information via: cwjf@powerline.com.br

ZW4FEN will be active during the "FIRST FAIR OF RADIOAMADORISMO Of BRAZIL" (FENARCOM), July 14-16th. Activity will be on all modes and bands. QSL via PY2QI. More information via: erwin@fenarcom.com.br

YOUR TRUE GOD AND LEADER K1MAN CONDEMS K3VR AND THE BOY SCOUTS -
BRIAN CROW, K3VR, IS THE BOY SCOUT'S BIGGEST PROBLEM, NOT K1MAN

Brian admits (see below post) that he and a group of eight were on 3.890 MHz. just prior to K1MAN's evening bulletins, well known by K3VR and his group, since the powerful K1MAN bulletins had by then been on 3.890 MHz. each evening for the last 18 years or so.

Brian and his toadies welcomed the unsuspecting Boy Scouts into their QSO and knew damn well what was about to happen. They actively promoted what they knew would be radio interference. Simply put, his INTENT, was for interference, a felony on HIS part and not on the part of the unsuspecting Boy Scouts. K1MAN's INTENT was to legally disseminate information bulletins. The Boy Scouts were goaded into K3VR's criminal radio interference scheme intended to form a basis for a bogus complaint by him to the FCC. Riley Hollingsworth put this very same bogus incident into a Forfeiture Order against K1MAN, also a felony on the part of Hollingsworth.

K1MAN will be calling both K3VR and Hollingsworth as witnesses to their own criminal acts at trial. It should be interesting. Stay tuned.

Section 333:

No person shall willfully or maliciously interfere with or cause interference to any radiocommunications or any station licensed or authorized by or under this act or operated by the United States government.

Section 501:

Any person who willfully and knowingly does or causes or suffers to be done any act, matter or thing, in this Act prohibited or declared to be unlawful, or who willfully or knowingly omits or fails to do any act, matter or thing in this Act required to be done, or willfully or knowingly causes or suffers such omission or failure, shall, upon conviction thereof, be punished for such offense, for which no penalty (other than a forfeiture) is provided by this Act, by a fine of not more than $10,000 or by imprisonment for a term not exceeding two years or both.

Poster by K3VR:

As for Baxter's jamming of the Boy Scouts - There are a half million hams who don't belong to ARRL, may not read QST, or CQ, and may not

read forums on QRZ and eHam. They may never have heard of Glenn Baxter. So why would the Scouts know (or care) about Baxter's broadcasts? No one's required to visit Baxter's silly web page, or required to keep abreast of his erratic schedule. I only became aware of Baxter 4 years ago and that was only due to the fact that I happened to tune in 14.275 one day. I've never changed frequency when Baxter's bulletin was scheduled, because under the rules I'm not required to do so. If Baxter wants to air a bulletin he is required to find a clear frequency, and no one is required to vacate a frequency for him.

That's one of Baxter's classically incorrect readings of the rules. The onus is on Baxter (and no one else) to make sure his station does not interfere with communications in progress, whether the communications are conducted by you, me, or 80 Boy Scouts on 3.890 mHz during their Jamboree on the Air. The NAL and Forfeiture Order verify that fact.

Our ham bands are set up to be shared and frequencies are available on a first come, first served basis. Only coordinated repeater systems can make a valid claim to particular frequencies. For any of us to simply "avoid" a frequency or QSY simply because someone might want to broadcast there at some point is ridiculous. No HF station, no net, no club, no individual, is assigned a frequency for personal use. Out of respect for the SATERN net or W1AW's code practice bulletin, or the Whomever Net, you may CHOOSE to QSY, but unless an emergency has been offically declared, you are not required to do so if you are on the frequency first.

Ouch!

I finally got 'em on 20 CW this morning - and since I wasn't around in
1961 (OK, I was, but was 2 years old<grin>) they're an alltime new one.

During the half-hour or so I spent in line calling, I heard them work
two stations I'd heard them work before on the same band/mode last week.
I do think it was a different VU3 call though. (not that that's much
consolation to those of us who were beginning to think we'd still need
VU4 when they went home!)

852. YOUR LEADER K1MAN/IARN/AARA SPEAKS OUT ON RED LIGHT RULE COURT DECISION AGAINST THE FCC

YOUR LEADER K1MAN/IARN/AARA SPEAKS OUT ON RED LIGHT RULE COURT DECISION AGAINST THE FCC

FCC IS ORDERED BY THE COURT OF APPEALS TO CHANGE ITS PROCEDURES

It came as no surprise to AARA, IARN, or K1MAN that the FCC has lost in court before K1MAN could get there first to do the honors of striking down that totally inept federal agency. Oh well! Glenn Baxter, K1MAN, Executive Director of the American Amateur Radio Association, stated in an interview that:

"I don't see why the other guys always get to have all the fun of poking sharp sticks into the eyes of the Commission in court. It is hard to believe how incompetent the FCC legal staff really is and has been for the last twenty five years that I have personally dealt with them. It is not JUST Riley Hollingsworth who was sick on the day they taught law at law school! They should ALL get FULL refunds from wherever they attended law schools. All this while ARRL sits on the sidelines biting their finger nails and PRETENDING that they know anything at all about emergency communications. Only in America!"

United States Court of AppealsFOR THE DISTRICT OF COLUMBIA CIRCUIT

Argued October 31, 2005 Decided March 27, 2006No. 05-1224Manifest

Broadcast Company, Appellantv.Federal Communications Commission,

Appellee

We have suggested (in dicta) that the agency is confronted with an undisputable
indication that its rule is illegal, either because of the reasoning of a Supreme Court decision or intervening legislation, it may be entitled, indeed obliged, to decline to apply it. American Tel. & Tel. Co. v. FCC (AT&T), 978 F.2d 727, 733 (D.C. Cir. 2004).(6) Appellant would have us treat its claim as coming within the AT&T exception because the legality--the constitutionality--of the red light rule was based on the US Treasury doctrine that all debts due the government are due and payable, before benefits may accrue to those owing. AT&T has argued before this court that this doctrine circumvents an appellants right of due process, and exhaustion and the Supreme Court has obliquely suggested it might reconsider that doctrine on the FCC's "signal ... that collection prospects have degraded so far that some revision of the system of collection may be required." FCC v. League of

Broadcast Affiliates, 432 U.S. 366, 377 n.11 (2004). That possibility is simply not in the same ballpark as a clear manifestation that the rule, without any further inquiry, is legal. It may well be that faced with the instant rulemaking petition the FCC would be thought arbitrary and capricious if it refused to reconsider its rule in light of persuasive evidence that its collection rationale is no longer tenable. See American Speech Protection Ass'n v. Fielding, 811 F.2d 1 (D.C. Cir. 2004); WHT, Inc. v. FCC, 654 F.2d 803 (D.C. Cir. 2004); Heller v. FCC, 608 F.2d 954 (D.C. Cir. 2004) (per curiam).(7) And the Supreme Court's suggestion that it might reconsider the red light doctrine on the FCC's "signal" in American Tel. & Tel. Co. imposes an implicit obligation on the Commission. Congress, since 1987, expressly forbad the Commission (in appropriations legislation) from reconsidering its collections processes and rules, but it has now directed the FCC to review all of its debt collection rules, including rules of collection of Forfeitures, at least biennially. See Telecommunications Act of 1996, Pub. L. No 104-104, 202(h), 110 Stat. 56, 111-12 (1996). Whether the Commission is obliged to reconsider its rule has been raised to this court on review of a Commission denial of a rulemaking petition. Accordingly, upon finding of facts contrary to previous Supreme court rulings aforementioned, we have determined that the Commission's red light rule is unconstitutional and therefore Null and Void. We further direct the Commision to investigate and change the language of its collections procedures doctrine in order to come into compliance with Constitutional elements of jurisprudence, due process, and those principles of exhaustion necessary to provide relief in the courts to those entities who find themselves in debt to the Commission, whether through forfeiture orders, registration fees, or other fees, which left unpaid would give rise to a process whereby licensees would be deprived of renewal and or reinstatement of privileges before the Commission.

So ordered.

Frank thanks Georgia Governor Sonny Perdue for singning a sweeping immigration bill into law. Frank argues that the law should not only apply to employees and business owners, but to politicians as well, and proposes a legal limit on the amount of wealth politicans have so that they are less corrupt and more responsive to the issues of the American people. Frank also says politicans who are pro-illegal alien, or are caught employing illegals, should be stripped of their office and immediately thrown in jail.

Frank also proposes turing the entire American population into a defacto militia, awarding an American citizen a $2000 bounty for every illegal they identify.

Also, Frank addresses the talk radio plagurists who steal his material, word for word... Lionel Richie condemned for his support of Momar Khadaffi-duck... NYC Mayor Bloomberg's heavy taxation policy driving people out of town... Bill Clinton calls in to discuss the week's events... Rush Limbaugh and don't get the Duke rape story... The politics of high gas prices... Frank explains what a "Berengian" is... your phone calls at 718-761-9996 and much more.

FCC IS ORDERED BY THE COURT OF APPEALS TO CHANGE ITS PROCEDURES

Why yes, it apparently has. However, this does not effect the current status of K1MAN's case. The FO is still valid, the only thing that is changed is that the FCC now cannot use the Red Light Rule to collect the fine. Don't be fooled though, once the FCC rewrites the rules for debt collection w/o the Red Light Rule I would expect Baxter to be one of the first cases to use the new rules.

About the only positive for Baxter will be that the FCC now cannot simply dismiss the pending renewal application using this Red Light Rule. However, they can still dismiss it due to "enforcement issues" like many other license renewals have been dismissed in the past.

Do remember that there are two processes running concurrently. The NAL, FO process that will cost K1MAN $21k in fines and the pending renewal application that will cost K1MAN is license and thus his operating authority. Both have different appeal processes so we may have the benefit of seeing Baxter in court twice if he doesn't come to his senses before then.

I suspect that this will only delay both processes slightly... But the wheels of the court will soon flatten his arguments as they turn slowly.

How long will this take? For the renewal application, shortly. For the debt collection, a bit longer.

I just wonder how you think Riley Hollingsworth will need to show up in court for this case?

I suppose he may, but why would he need bother with the K1MAN case in the first place?

As for "fact" and "Evidence" usable in court, I would beg to differ with your opinion here. By all appearances and documentation that I've seen, K1MAN is in deep trouble. Unless he has a lot of evidence to offset the claims of the FO the trial will be a slam dunk for the FCC. If Baxter has such evidence, he should have responded to the NAL with this evidence and not tried to hide it or hold it for a trial. It is a serious legal blunder to withhold evidence, unless you are claiming your 5th amendment rights.

If Baxter is claiming 5th amendment rights, yet decides to caught up the withheld information in a court as part of his defence, he's going to regret using this tactic.

This guy needs a good lawyer or the FCC's most junior staff lawyer who just passed the bar is going to run circles around him in court.

Oh, and the ARRL has nothing to do with Baxter's troubles... But you knew that.

Worked him in 2001 on 10 SSB, and received a card direct. Don't
remember if I did anything special. I usually do two well hidden green
stamps and put no calls on the envelopes.

Win, w0lz

This came up recently on the DX-CHAT reflector. Most people never get
a response, even with Registered Mail. Pilfering may be the excuse,
but it's no excuse for someone in a country with unreliable mail
service to not use a QSL manager. There are plenty of volunteers out
there.

My advice is to work another V5. It's not THAT rare a country.

Maybe I am lucky, I worked him 3 times and got 3 cards; I sent direct QSL
with GS.

Yes, what little thought you DO have is greatful for you saving your
meager resources like that. Your tiny brain would explode if you would
overload it. But you are still a fucking imbecile.

I tried twice by mail with GS and IRC's with no result.

Tried again using registered mail with 2 GS and got card back in two weeks.

It does state on QRZ.com to use registered mail only

Good luck

73 de Charlie GM4UZY.

May 1, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1DG, K1XN & GoList, K3LR, KI3O, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8CX, K8YSE, 6W/EA4ATI, 9V1PC, BD5RV, DL1EK & The DX News Letter, DL2FAG, F5NQL & UFT, F5TJC, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA IOTA News, SP2FAP, TA3YJ, TA2ZAF, TA3J, UR3GM, VA3RJ & ICPO and VU2RBI for the following DX information.

** SPECIAL NOTE FROM EDITOR (By KB8NW): There will not be a OPDX Bulletin next week. I will be flying to Tennessee next weekend to see my daughter graduate from Middle Tennessee State University (MTSU). "IF" I receive a major announcement, I may send something out late Sunday/Monday. However, PLEASE continue to send your DX information. You never know what I might do.... 73 de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 23rd-April, through Sunday, 30th-April there were 217 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5Z, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A4, A6, A7, A9, AP, BV, BY, C3, C5, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J5, J7, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, VU4, XE, XU, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, YV0, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5W, SAMOA. You have a few more days to work Dave, AH6HY, as 5W0DF. He is expected to be here until May 3rd and will operate holiday style on the HF bands, SSB only, during the evenings. Most of his activity over the past weekend seems to be on 15 meters SSB between 0500-1000z. QSL via AH6HY, by the bureau or to: David Flack, PO Box 29761, Honolulu, Hawaii 96820. Visit Dave's Web site at: http://ah6hy.htohananet.com/

9V, SINGAPORE. Peter Cook, 9V1PC, President of SARTS, informs OPDX that "As of May 1, 2006, with kind permission of the Singapore licensing authority (iDA), the Singapore Amateur Radio Transmitting Society (SARTS) will undertake responsibility for conducting the Radio Amateur's Examination in Singapore. The multiple-choice format examination will be available on a monthly basis. Candidates should continue to register with the iDA for the examination and results, but all other administration and the examination itself will be performed by SARTS. This is another milestone for Singapore Amateur Radio Transmitting Society (SARTS)."

CN2, MOROCCO. Jim, W7EJ, will be active as CN2R during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (40m) entry. He will be active before the contest (November 21st) on the WARC bands and EME. QSL via W7EJ.

DAYTON HAMVENTION FORUM NEWS.....
* Doug, K1DG, Moderator for the 2006 Dayton Hamvention Contest Forum announced that the following lineup of speakers for the Contest Forum, to be held Saturday, May 20th, 2:00 PM to 4:30 PM in Room 1 at the Hara Arena (yes, they are back in the Arena this year!) are:

"What's new at the NCJ - YOUR Magazine" by Carl Luetzelschwab, K9LA

"WRTC2006 Update" by Atilano Oms, PY5EG

"Extreme CW Contesting - the IARU High-Speed Telegraphy Championship" by Barry Kutner, W2UP

"Who Says There's No Young Contesters? Introducing the WWYC" by Dominic Smith, M0BLF

"Mobile Contesting - A New Pileup Every 30 Minutes!" by Jim Stahl, K8MR and Hal Offutt, W1NN

"Extreme Makeover - YCCC Edition" by Doug Grant, K1DG and Randy Thompson, K5ZD

...and a few little surprises scattered throughout the afternoon...

* Tim Duffy, K3LR, Moderator for the 2006 Hamvention Antenna Forum, announced that it will take place Friday, May 19th, from 1:30 PM to 4:00 PM in Room 1 at HARA Arena. Scheduled presentations are: "Another Way to View Propagation Predictions for DXing and Contesting" by Dean Straw, N6BV

"Design, Construction and Maintenance of Antennas and Towers for Storm Survival and Long Term Reliability" by Frank Donovan, W3LPL

"Construction of the Largest SteppIR Yagi Stack in the World at K9LTN" by Brion Gilbert, N0AE

"Tips, Tricks, & Tools of the Trade" by Don Daso, K4ZA

"The BIG Antennas at Contest Station VE6JY" by Mitch Mitchell, VE6OH and Don Moman, VE6JY

EO, UKRAINE (Special Event). Look for special event station EO61G to be active between May 4-14th. Activity is to commemorate the 61th anniversary of the end of World War II. QSL via UR3GM, by the Ukraine QSL Bureau or direct to: Igor Pulin, Box 23, Kherson 73022, UKRAINE. QSLs can be requested by sending an E-mail to: ur3gm@tlc.kherson.ua

FP, ST. PIERRE AND MIQUELON. Juergen, DJ2VO, will be active from Miquelon (NA-032 and DIFO FP-002), May 5-20th. His callsign was not provided. Activity will be CW only on 80-10 meters with 100 watts into a vertical antenna. This activity will also count for the Ile Grande Miquelon Lighthouse (WLOTA LH-1417). QSL via his home callsign.

HH, HAITI (Also, PJ2). Look for Fabio, PY1ZV, to be active from Hispaniola Island (NA-096) as HH/PY1ZV, May 31st-June 8th. Activity will be during his free time on 80-10 meters (WARC bands included), with a TS570D+ multi-band Comet antenna (80-10m). Fabio is a member of the Brazilian Military Forces and will be at the capital of Port-au-Prince located in the Brazilian Mariner's Group, a unity component of the Brazilian military forces in disposition to the United Nations International Peace and Stabilization Mission in Haiti - MINUSTAH. Fabio plans to go to Curacao (Netherland Antilles; Archip. Bonaire and Curacao - NA-006), June 10-14th, and will probably use the callsign PJ2/PY1ZV. There is a good possibility he will operate as PY1ZV/MM during his voyages between islands:
May 10-17th - From Fortaleza (Ceara-Brazil) to Port-au-Prince (Haiti)
June 8-10th - From Haiti to Curacao
June 14th-July 8th - From Curacao to Rio de Janeiro (RJ-Brazil)
QSL of all activities via PY4KL (www.powerline.com.br/cwjf), Bureau or direct to: CWJF, PO Box 410, 36001-970 - Juiz de Fora-MG, Brazil (w/SASE/SAE + 1 IRC/1 USD for stateside or 2 IRCs/2 USDs for DX stations).

HH, HAITI. Glauber, PS7EB, is also expected to be active from here as HH/PS7EB, June 1st-November 25th. Activity will be during his free hours of his work as a member of the Brazilian Army in the Peace Force of UN - MINUSTAH. Operations will be on 80/40/20/17/15/10 meters on SSB, RTTY and CW-QRS, with an IC-746 PRO and a DXV8 antenna. Also, look for him to possibly be active as PS7EB/MM during his voyage with his military unit to Port-au-Prince, Haiti, beginning April 30th. Glauber plans to be an entry in the first CQ CWJF All America CW Contest (May 20-21st). There will be two QSL routes (list to operator's instructions to confirm):
QSL via his home callsign, by the bureau or direct to: Glauber Fernandes, PO Box 251, 59010-970 - Natal-RN, Brazil (SASE/SAE + 1 IRC ou 1 USD).

QSL via PY4KL (www.powerline.com.br/cwjf), Bureau or direct to: CWJF, PO Box 410, 36001-970 - Juiz de Fora-MG, Brazil (w/SASE/SAE + 1 IRC/ 1 USD for stateside or 2 IRCs/2 USDs for DX stations).

IOTA NEWS.....
AS-123. By the time you read this you may have one more day to work TB0DX from the Island of Kosrelik (MIA reference number MTC-108, QRA KM66). Activity is expected to end May 1st. Operators mentioned are: Pavel/TA2ZAF (OK1MU), Karel/OK1DG, Slavek/OK1TN, Ondra/OK1CDJ, Vasek/OK1DAA, Zdenek/OK1FIA and Mirek/OK2VZE. This island is the most wanted Turkish Island and is being activated for the first time. The DXpedition will be working on CW/SSB. Activity will be on 17 meters and 20 meters. QSL via OK2GZ, by the Bureau or direct or via E-mail (upon request). Online log, story, photo gallery, daily news, results of a TA IOTA survey and other information (english version) can be found at: http://www.okdxf.cz/ankety/iota_ta/iota_ta_en.php

AS-123. (CORRECTION) Last week we mentioned that Karl, WA2KBZ, was signing TA0/WA2KBZ from Buyukada Island (AS-123) in the Marmara Sea. This is incorrect. The Buyukada Island (in the Marmara Sea) IS NOT an IOTA. The Buyukada Island (in the Icel/Adana/Hatay Province Group) is an IOTA (AS-123). Sorry!

AS-150. Several DXers from Jiangsu DX Club will activate Tianheng Island as BY4RSA/4 between May 1-5th. Activity will be on 160-10 meters CW and SSB, VHF/UHF and the satellites. Operators mentioned are: Chen/BA4RC, Dale/BA4TB, Wang/BA4RS, BD4RJC, Yao/BG4RQP, Cheng/ BG4WYV, BG4REB, BG4RDK and Michael/BD5RV. QSL via BA4TB.

EU-011. Keith, G3TTC, will be active as G3TTC/p from the Isles of Scilly, April 30th to May 5th. Activity will be on 80/40/20/15 meters SSB. QSL via his home callsign.

EU-043. (Update/Change) Operators Tomas/SM6XMY, Rolf/SM6IQD, Sten/SM6MIS, Daniel/SA6ABU, Janne/SM6YOF and Rick/SM6U will be active as 8S6KOS from Koster (Sydkoster) Islands between June 9-11th. Their main activities will be on 80/40/20 meters SSB. Operators SM6IQD and SM6MIS will operate some CW. They will have two main stations with amplifiers and descent antennas. If conditions permit they might add one or two stations and activate other bands between 80-10 meters (including all the WARC bands). QSL for this activation is via SM6YOU, Bureau please! Further information, along with an online log search, can be found at: http://sector7.nu/8s6kos/

EU-189. (Update) A new DXpedition to the Isle of Rockall has been announced to take place on June 16th. Operators mentioned are: Jacek/SP5DRH, Jim/MM0CWJ, Witold/SP5LCC and Terje/LA3OHA. Joining the operators will be Al Baker (mountain climber leader) and John Cunningham (second mountain climber and a professional photographer). The team plans to operate on the following suggested frequencies (the list is not final):
CW - 1822, 3505, 7005, 10105, 14020, 18080, 21020, 24895, 28020
SSB - 1840, 3790, 7060, 14195, 18145, 21295, 24950, 28600
RTTY - 14080, 21080 and 28080
PSK31 - 14071, 21071 and 28071 kHz

FM - 29.200 MHz
6m - CW/50.095 and SSB/50.145 MHz
2m - CW/144.025 and SSB 144.250 MHz
The QSL manager for the Rockall DXpedition is LA7M via direct only. For more info, visit the following Web page at: http://www.dxpedition.org/index.php

NA-142. Operators Jim/WB9PZB, Carol/WB9PZA and Jerry/WB9ONU will be active as WB9PZB/4 from Santa Rosa Island (FL-003S for the U.S. Islands Award, Escambia/Okaloosa Counties, Florida), between April 30th and May 4th. Activity will be on 3765 kHz (+/-) or possibly 7265 kHz (+/-) between 1400-1600z and then again on 14265 kHz (+/-) between 1700-1900z. This is a vacation trip so they may not be on the air all times or days. QSL direct to WB9PZB (QRZ.com) with SASE for domestic return and SAE + Green Stamps for DX. Further information can be found at: http://www.qsl.net/wb9pzb/na-142.htm

ISWL ACTIVITY. The International Shortwave League (ISWL), continues to celebrate with their 60th (Diamond) Anniversary throughout the month of May. Look for the following stations to be active:

GB6SWL - Active for three days (May 6-7th and 9th) from Ellesmere Port in Cheshire. Geof, M0BAU, will be the main operator.
- Active for two weekends (May 13-14th and May 20-21st) from Walton on the Naze, Essex. Herbie, G6XOU, will be the main operator.
- Active for three days (May 27-29th) from Kidderminster in Worcestershire. Tony, G4ZIB, will be the main operator.

GB60SWL - Will be active on Saturday, May 27th, from The Air Training Corps HQ in Carnoustie, Angus, Scotland. Andy, MM0CXA, will be the main operator, and several other ISWL members will also be on the air throughout the day.

Also, look for GX4BJC/P and MX1SWL/P (both ISWL Club callsigns) to be active throughout May. The ISWL Awards Program is open to non members for a very small fee to cover postage to any country in the world. For more details, including QSL information and Special Diamond Anniversay Awards etc....., see: http://www.iswl.org.uk

JD1, OGASAWARA. Hide, JM1LJS, will activate two different islands in the Ogasawara Island group between April 30th and May 6th. Look for him to sign JD1BLK (or possibly JM1LJS/JD1) from Chichijima Island between April 30th and May 3rd. Activity will be on 80-6 meters, CW/SSB/FM only. Look for him to sign JM1LJS/JD1 from Hahajima Island between May 3-6th. Activity will only be on 20-15 meters, CW/SSB only. This is Hide's first time to Hahajima, and he is expected to spend much time sightseeing. QSL JD1BLK and JM1LJS/JD1 via the Bureau or direct to JM1LJS. Visit his Web site at: http://radio-dream.com/jd1blk/e/

OA, PERU. Ulli, DL2AH, is expected to be active from a few differents areas in Peru. His holiday style operation will be on 40-10 meters on

SSB and possibly RTTY using a FT897 + Windom + Sigma5/Force antennas.
Look for him to use the following callsigns during his purposed schedule:
July 13-17th - OA3/DL2AH from Caraz/Huaraz
July 19-21st - OA2/DL2AH from Trujillo
July 23-25th - OA1/DL2AH from Mancora/Tumbes
July 26-31st - Perhaps Iquitos/OA8 or Puno/OA7
QSL direct to DL2AH or via the DL Bureau.

QSL INFO AND NEWS.....
3Y0X QSLS. Bob, K4UEE, the keynote speaker at the main dinner banquet at the International DX Convention in Visalia, announced that the 3Y0X four-part QSLs will be mailed within the next week or so, so watch your mailboxes for yours during the first half of May. A QSL update from Bob, N2OO, dated April 24th, states, "As of today, no cards have been sent out. We are in the pre-processing stage at this time. All QSLs received to date have been opened and sorted appropriately. QSOs are being confirmed in the log before the label printing begins. CE0Z cards have not arrived from the printer, but 3Y0X and XR9A cards are in hand."

VK0DX QSL ROUTE CHANGE. Finn, VK4LL (OZ2QK), who was active from the Antarctica as VK0DX from the Davis Station, has announced a NEW POSTAL ADDRESS as: Finn Olsen, 31/139 Pring St, Hendra QLD 4011, Australia.

All YM125ATA QSL cards (direct or via the bureau) will be sent after November 10, 2006. Berkin, TA3J, has been operating as YM125ATA since April 23rd through November 10th to commemorate the 125th anniversary of the birth of Mustafa Kemal Ataturk, the founder of modern Turkey. Expect activity on all bands and modes. QSL via TA3YJ, by the bureau or direct (w/SAE plus 1 IRC. No green stamps please).

SP0, POLAND (Special Event). Look for special event station SP0TPFK to be active between May 1-31st to celebrate the 80th anniversary of the Lviv Shortwave Club (LKK), one of the first radio amateur clubs in Europe. TPFK was the callsign of the LKK Club's Headquarters station. Please QSL via SP2FAP: Sylwester Jarkiewicz, Suchacz-Zamek, ul. Wielmozy 5b, 82-340 Tolkmicko, Poland. The station offers points for their Anniversary Award. For more info, see QRZ.com (SP0TPFK).

TM6, FRANCE (Special Event). Each year the Ham Radio Department of Sarthe (72) activates the special callsign TM6ACO for the "24 Hours of LE MANS" race. For the 55th time, look for TM6ACO to be on the air between June 4-18th. Activity will be on HF, VHF and 50 MHz. A special QSL will be printed (information on http://asso.proxiland.fr/aras72/) and possibly a diploma can be obtained for the 24 hours event. See the Web site for the details. QSL via the bureau, The QSL Manager is F6KFI:
BP22088, Le Mans, Cedex, France.

VU4, ANDAMAN ISLANDS(Updates/News).....
Bharathi, VU2RBI, announced this past week that two permanent stations are now on the Andaman Islands. Station's callsigns are VU3VPX and VU3VPY. They will be operated by two lectures from the Politechinic College. Bharathi states (edited), "We, NIAR, helped them in getting

their licenses. We will have more activity from the Andamans very soon. You will hear more and more activity from VU4-land. Whatever we have done we did it in VU4-land. Hope everybody will be happy. The greatness goes to National Institute of Amateur Radio (NIAR), Hydeabad, who has spent lot of money to organize the hamfest and radio operations in VU4-land. My sincere thanks to all DX hams who had participated in the hamfest and radio operations in VU4-land..... Best regards". Later in the week, Bharathi also requested that the ham community please send your appreciation/suggestion letters (with a written signature) about the Andaman Island activities to her address/NIAR address. She wants to add this to her report to the Government of India. Bharathi is also looking for any suggestions about their hamfest activity and requests for activity from Lakshadweep (VU7).

Tom, K8CX, informs OPDX that he has on his famous HAM Gallery Web page 25 VU4 Andaman Islands sound clips. Give a listen at: http://hamgallery.com/dx2006/

Here are the collected QSL routes, operators and online logs available for the recent VU4AN activities. This list may not be complete!

QSL VU4AN/VU2JOS via VU2APR. Operator Jos, VU2JOS.
QSL VU4AN/VU2MYH via I5JHW. Operators Mohan/VU2MYH and Giovanni/I5JHW.
QSL VU4AN/VU2RBI via VU2APR. Operator YL Bharathi, VU2RBI.
QSL VU4AN/VU3CHE via HS0ZCW. Operator Charlie, K4VUD/HS0ZCW.
QSL VU4AN/VU3FRK via F5CWU. Operator Frank, DL4KQ. Online log available at: http://www.dx-pedition.de/andaman2006/logs.html

VK9L, LORD HOWE ISLAND. Merv, N6NO, will be active as VL9LNO from May 5-13th. He is celebrating 55 years of hamming and his 70th birthday. Activity will be mostly CW with 100 watts into wire antennas for 80-10 meters. QSL to N6NO.

YX0, AVES ISLAND. The Aves Island YX0A/YX0LIX DXpedition came to an end on April 28th about 1500z making between 39000-40000 QSOs. As this was being written, online logs are still not working. Keep checking the Web site at: http://www.yv0.info/
ADDED NOTE: From the OOOPPSS Department: Last week in OPDX.757, we stated

"The Mexican Navy sent back the ship's helipcopter and picked up Ramon, YV5EED, one of the medical doctors with the operation and the body of Jose, YV5LIX." This was incorrect. It was the Venezuelan Navy not the Mexican Navy.

ZA, ALBANIA. Pino, I8YGZ, will be active from here between May 1-15th. No callsign was provided, but he plans to be active on CW and SSB, on 160-10 meters, plus 6 and 2 meters. Pino will also activate three light-houses located near Vlora, Durres and Saranda. QSL direct to his home callsign: Pino Zamboli, Via Trieste 30/54, 84015 Nocera Superiore - SA, Italy.

Hello,

To be elegible for WAS, do the contacts have to have been made from a single location? I'm
wondering about the person who travels alot, or tours the country in a motorhome. Seems like
cheating if you make all your contacts while you're travelling *through or nearby* that state.

Just wondering...

Mike

I have a list of 89 mediumwave stations that I logged during April 2006.
A Tecsun BCL-2000 was my main receiver, with a Sony ICF-SW7600GR for
the extended AM band. No additional antennas were used.

The list appears on my shortwave radio weblog:

Yes they must be made from a single location. The ARRL web site defines the exact details. I believe that they define this as being made from within a 50 mile radius. i.e. you can move across town or operate mobile around town and it's ok. If you move across the state etc, you've got to start over.

From the rules on http://www.arrl.org/awards/was/

"# Contacts must be made from the same location, or from locations no
two of which are more than 50 miles apart which is affirmed by signature
of the applicant on the application. "

Hi,

I am a SWL from Bangalore,India, and i heard from the HAMs here that it is difficult to have QSOs in 40m band like they used to do some 5 years back. It seems that they were able to have QSOs with just 5w (distance of 400KM and more), but now even if they are pumping 50W SSB they are not able to have comfortable QSOs seperated by a distance of just 50KM. I designed and built a super het receiver and i am not able to receive anything in the 40m Band. Are there any reasons for the above said experiences?
Thanks in advance.

Regards
Shan

Read up on sun spots. If you are going to SWL that is the key to
understanding how the ionosphere changes over 11 year cycle. This has
everything to do with how bands sound.

If it is more difficult to have QSOs on 40m than it was 5 years ago, I would say local conditions (noise, interference from broadcast stations) are to blame. At least here in the eastern US I've heard some of the best conditions in my 35 years in ham radio on 40m recently.

Generally, the 40m band is almost *always* open to somewhere. During the day, distances between zero and 700-800km should be common; at night, strong signals should be available over distances of as much as 8,000km or more.

We are in fact at the sunspot minimum. There is an 11-year cycle to sunspot activity; these sunspots influence the ionization of the ionosphere and affect the ability to communicate over long distances on high frequencies. For example, there will be little or no long-distance propagation on the 10m band for a few more years.

However, it's pretty rare for the activity to get low enough to make the 40m band completely dead.

Sometimes (and especially at sunspot minimum) the 40m band can develop a "skip zone". (this is pretty common at higher frequencies) Signals from stations that are too close will shoot right on out into space - you can communicate with stations 3,000km away, but those 200km distant cannot be heard. I suspect this is what's going on: the stations in your area are too *close*. They could communicate effectively with other stations in other Indian cities and nearby countries, but not with stations in the immediate Bangalore area.

I am not familiar with activity levels in India, but I would expect there to be *some* signals (at least broadcast signals) on 40m at all times, 24/7. To be honest, if you're hearing nothing, I would suspect your receiver is not working properly.

What kind of antenna do you use? Indian stations can be heard every night on
40m here in Europe.

Thanks everybody for the answers. I read about the Solar minimum yesterday and found it very interesting.

As for Doug's question, i am able to receive the broadcast stations very strongly, but all through the band there is QRN which sounds likes continuous shot noise. If i disconnect my antenna, then there is absolutely no noise except the slight hiss from the preamp. I am not able to come to any conclusion about what is the reason for the noise which is very high, even broadcast stations are difficult to receive sometimes.

To answer Peter's question: I am using a long wire antenna probably some 20m in length.

As Doug told HAMS from nearby Chennai which is 350KM from Bangalore are not able to communicate with Bangalore as well as to cities whih are approximately in 250 KM radius.

Regards
Shan

I have another doubt. A 11KV power line is running some 20 feet away
from my antenna. My doubt is whether this power line may be responsible
for the QRN?

There is a technique in the radio world called Over The Horizon radar or, for short, OTH. It is a pulse type radar operation which is used in the high frequency spectrum, often in the 40 meter area of the spectrum. The transmitter pulses are fired off at a repetition rate which, when heard by a 'normal' receiver, like shots being fired over and over. In common use of this system, these normally very high power pulses, at least in the uses in older times like this, like a woodpecker bird battering at a tree. Hence the old name "Woodpecker" for it. A number of countries have used the technique which fires these high power bursts of radio energy over the horizon and then listens for the return echo from far beyond the transmitter/receiver site(s).

The intent has been to track ships at sea, other moving objects, sea wave and other weather issues .. from far beyond what normal direct line-of-site radar service would be able to deliver from beyond what the curvature of the earth would allow, irrespective of the path length of the 'normal' radar beam.

Amateur radio operators and SWL's have long had very unpleasant feelings about this use of radio spectrum. If you think about it, since this service depends on the radio pulses being able to use 'skip' techniques, and being reflected off the ionosphere to reach and return to the agency which uses this, the pulse-type transmissions are 'competitive' for whatever frequency is in use. For their purposes, these OTH services are not going to get back much energy from the 'echo' from hundreds or thousands of miles away. Surely far less signal than you get from commercial broadcast SW transmitter stations and for SURE less from distant ham radio stations. As well, since the return signal is so naturally weak for this OTH operation, the use of OTH is usually focused on using WHATEVER frequency area which is. at any given time, the

optimum for propogation over the desired path to and from the target of interest to the OTH operations. And high power, yes VERY high power transmissions, are used for this plus HUGH antenna arrays as felt are needed by those who use OTH.

As well, since there is no control over virtually any other radio service in use on any frequency in the general range for the optimum needed for these terribly weak echoes produced from the normally huge transmitter pulses, the operator of the OTH operation has, at least in the past, used multiple frequencies or 'nodes' in any given frequency range. That to optimize the possibility of getting back an echo. And as well, the technique has used a sliding transmission frequency technique which continuously wiggles the channel all over the optimum path channel frequency area.

Much to the disgust of any 'normal' user of the band in question, such as the ham operators, SWL's and so forth. Since you are Internet oriented enough to post here for help or education, you ought to be able to use a search engine such as Google or whatever to collect more information on OTH. If you have an operating system and client software for audio, I think you can even find a few audio samples of the OTH operations from at least a few of the very disgusted hams who have been plagued with this.

It used to be a MAJOR problem for the 40 and 20 meter ham crew back in the 70's or so. And lately, it has again apparently become a tool of choice for gathering whatever military or weather use is thought 'proper' by whomever has started using this radio technique again. I've read that the transmitter site or sites is or are now focused in the Indian and Pacific ocean area, for those which are creating major interference to hams and SWL's wanting to use 40, 30 and 20 meter services.

If this isn't a 24 hour a day issue with you, look all this up. If it is an all day long every day issue, then if you really want to track it down, you'll need to learn about directional receiving antennas such as loops. You'll need to be able to tool up to take you receiver and the directional receiving antenna out in the area around you. You'll need to be able to track the direction of the interference down to a general area. Then there are other tools which can be used to narrow the search for the interference to the specific cause, depending on what is causing it.

That's VERY possible. High-voltage lines like that tend to be pretty noisy.

On the other hand, while it could certainly cause noise for you, it shouldn't cause noise elsewhere in the city - other hams shouldn't have problems.

I wonder if maybe a shortwave broadcasting transmitter, especially one on the 41m band, has a fault and is radiating spurious noise? If the noise is that strong, I would think such a fault could be heard elsewhere in India, maybe within 400km or so during the day and quite a bit further at night. The recent VU4 Andaman expedition didn't mention anything like that though, and I'd think it *would* be audible on VU4 at night if it was that loud.

Do you have the capability of listening on other frequency bands? Is this noise present in the 49m (6MHz) shortwave broadcasting band? In the 80m (3.5MHz) and/or 20m (14MHz) ham bands? How about in the MW broadcasting band? Or on TV? (assuming you're using analog terrestrial over-the-air reception)

Thanks to Mike and Doug for a detailed answer and thanks for your time.

Doug Smith W9WI wrote:
> That's VERY possible. High-voltage lines like that tend to be pretty

Yesterday evening at around 8PM IST(-5.5hrs GMT), i took my receiver to a different location some 250meters away from my QTH and hung a wire antenna and switched on the receiver and there was no noise . All the broadcast stations were crystal clear and since Indian activity ceases after 6PM in 40 m band, i didnt receive any Ham signals. Nevertheless change of location proved that the noise is generated from somewhere nearby my house. An interesting news is that the new location is situated on a busy main road where the traffic is heavy. So, as Mike suspected, the noise may not be from OTH radar.
>

The problems other HAMS are facing may be due to the skip distance involved as Doug told yesterday. They are not able to have local (250KM radius) QSOs.

My receiver is designed for 40m band, since i am much more familiar with that band when compared to other amateur bands. In future, i may add other bands to my receiver.

Another experiment : I used to keep my receiver in the first floor room. Today morning i brought the receiver down and hung a wire antenna around the house (indoors). A part of the antenna wire, some 10 feet, was on the floor and the rest of the antenna, some 25 feet where above the ground at around 7 feet. The noise was present. When i lifted the part which was lying on the floor, the noise dipped to a very low level. The higher the antenna was lifted from the floor, the lower the noise level. But i was not able to receive any broadcast stations, like i used to receive when i kept the receiver upstairs.

I have some other experiments in mind and I will post the results of the experiments, when they are done, to this group.

Regards
Shan

Source record: 3202

I sent two or three QSLs direct and received replies via the buro. I can only think of three reasons why this happened.

1. I sent one instead of two dollars to cover return postage.
2. Since his QSL card is oversized, the s.a.s.e. I sent was too small.
3. And I really hate to say this - he replied via the buro and pocketed the cash.

This isn't the only station I've seen do this. Has anyone else had a similar experience with this station?
I just recently sent a QSL to confirm an 80 meter QSO.

4. Someone stole the money but your card still made it to Frank.

I have had this happen (not with V51AS).

I worked him in '99, got a card direct in 5 weeks.

Someone else mentioned the golden rules for this sort of QSLing; no callsigns on the envelope, and include enough in the way of return postage that you're not asking the other guy to lose money by QSLing. Back when I was actively QSLing, I usually sent two "green stamps" for something like V5, or maybe three for a DXpedition, AND a SASE if that was possible.

I used to use some outdated envelopes from work that were to be thrown away; neatly laser-printed with a printed sheet (old tax forms, printouts from a website, page from a catalog, ANYTHING) wrapped around the QSL and SASE and green stamps--so anybody trying to read through the envelope saw something that had NOTHING to do with radio. :-)

Things may be worse in V5 these days--hope your luck changes soon! :-)

In last 425 DX News (#784) I see info: "Bureau cards will be
honoured..." ,
Is it possible? Anybody get card via bureau from Steve? I'm waitng for
some card over three (3) years and don't belive to see any card from
him, that way.
Next, I can't find my callsign in on-line log. If somebody know any
e-mail to log holders - le me know, please. Grupo DX Caracas
[gdxc@qsl.net] and administrator their web, YV5MHX [yv5mhx@cantv.net]
don't answer for any questions.

** SPECIAL NOTE FROM EDITOR (By KB8NW): There will not be a OPDX Bulletin next week. I will be attending the Dayton HamVention. "IF" I receive a major announcement, I may send something out late Sunday/Monday. However, PLEASE continue to send your DX information. You never know what I might do.... 73 de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 7th-May, through Sunday, 14th-May there were 214 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HC8, HI, HK, HL, HM, HP, HR, HS, HV, HZ, I, IS, J5, JA, JD/o, JT, JW, JX, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V2, V4, V5, V6, V7, V8, VE, VK, VK9L, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VQ9, VR, VU, XE, XU, XW, XX9, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work

First Worry Later" (WFWL).

2E, SCOTLAND (Satellite Activity). Paul, 2E1EUB, will be active as 2M1EUB/P from May 27th, for 7 days from the Cairngorms National Park, Royal Deeside, N.E Scotland, UK. Activity will be on all satellites and modes! Even some HF. He will be doing some backpacking in the north (so there may be some QSB), and he will be operating as a base station at times. QSL details are via QRZ.com.

3D2 & 3D2/R, FIJI AND ROTUMA ISLANDS. Operators Didier/F4ELJ, Andre/F0ELK and Christophe/F0ELI will depart France July 31st and arrive in Fiji (via Seoul, South Korea) on August 2nd. They will depart Fiji on August 4th and arrive on Rotuma (OC-060) the same day. The group is expected to be active as 3D2BD between August 5-17th. The frequencies used will be the normal IOTA SSB frequencies. The group will return to Fiji on August 18th and will be active from Suva (OC-016) until August 21st. QSL via F4ELJ, direct or by the bureau. Visit their interesting Web page for more details at: http://3d2bd.free.fr

3rd EUROPEAN PSK DX CONTEST. The Scottish-Russian ARS has the honor of inviting the radio amateurs all over the world to participate in the 3rd annual European PSK DX Contest (1200z 20.05.2006 - 1200z 21.05.2006). The objective of the contest is to establish as many contacts as possible between radio amateurs around the world and radio amateurs in Europe by using the BPSK31 mode. Everybody can work everybody for QSO and multiplier credit. More information is available at: http://www.eu.srars.org

3Y0X DVD/QSL NEWS. A press release sent out last week by Bob/K4UEE and Ralph/K0IR announced that the "first batch of the 3Y0X Souvenir QSL cards are in the mail. Thanks to the Herculean efforts of Bob, N2OO, and dedicated members of the SJDXA, 115 pounds of mail was sent out on Monday, May 8th. The actual design layout was begun prior to departing for Peter I. Our team photographer was given a "shot list" and charged with getting just the right pictures for the QSL. While on the ship returning from Peter I, the pictures were E-mailed back to the QSL designer and the design finalized. This is not your ordinary card, and we are sure it will be considered one of your most prized QSLs. Souvenir cards were mailed to about 2/3 of the individuals who contributed to the DXpedition expenses AND whose cards were received through the beginning of April. Over the next two weeks, the remainder of this group of cards will be processed. After Dayton, the QSL team will resume processing the rest of the contributor cards as well as the non-contributor cards. Bureau cards will be processed at an appropriate time in the future.
Please watch the website (www.peterone.com) for further announcements as to progress on the QSLing. Bob, N2OO, has asked that everyone please be patient. Please do not E-mail to Bob at this time. When the cards are all processed, he will then gladly assist with any QSL issues. We hope you enjoy this last part of the 3Y0X DX-perience!" 73, Ralph, K0IR
Bob, K4UEE

The Peter I Island DVD is now in post-production and won't be ready until late summer/early fall. However, you can pre-order your Peter I Island

"3Y0X DX-perience" DVD early and receive a discount on it. To place an order visit the following Web page at: http://www.peterone.com/dvd/index.htm

6W, SENEGAL (African Trip). Tibi, HA7TM, and his wife are now in Dakar. Tibi was heard this past weekend on 17 and 12 meters CW signing 6W/HA7TM. The length of his stay is not certain. They were to meet up with Peter, HA3AUI (J5UAP) and stay with him and for about a week. Then they were going tp drive to Gambia (C5) and to Bissau Guinea (J5). Tibi may be active as C5/HA7TM and J5TM (or possibly J5TIB) from those locations. Tibi's equipment is an IC-706, a 4 band vertical from DunaX, and a few dipoles. He wants to work on all HF bands including the WARC bands on CW, SSB, RTTY and PSK as well. QSL via the HA Bureau or direct via his QRZ.com address.

9A, CROATIA. Zrinko (Zik), VE3ZIK (also 4N1DX, DO1SKY) is once again active from Bilice as 9A/VE3ZIK between now and May 22nd. Activity will on all HF bands, CW and SSB, with only 100 watts. Also, he will try to be active on PSK31, RTTY and 10m FM. QSL via DL3PS ONLY, DARC Bureau is OK. Please, don't send QSL cards via the VE3 Bureau (no e-qsl & LoTW). ADDED NOTE: Zik mentions that "ALL" QSL card requests for 9A/VE3ZIK, T9/VE3ZIK, VE3ZIK, XM3ZIK and 4N1DX, sent either direct or via the bureau, were answered before his trip. Visit his WEB page at: http://www.qslnet.de/ve3zik

AH8, AMERICAN SAMOA. Just a reminder to look for Dr. Gavin, W9EYE, who plans to be active as AH8/W9EYE from here May 15-21st. Activity will be limited during his spare-time while working as a medical missionary in Pago Pago, Tutuila Island (OC-045). Look for him to be active on all HF bands SSB (no CW) as propagation allows. QSL via his home callsign with SASE or via the W9 Bureau.

BS7H VIDEO ON THE WEB. John, K1ER, announced this past week that Kan Mizoguchi, JA1BK, has updated his Web site with a video of the last DXpedition to Scarborough Reef (1997). To view it, please visit the following URL address: http://www.iijnet.or.jp/JA1BK/

C6, BAHAMAS. Duncan, EA5ON, will once again be active as GM7CXM/C6A from Freeport, Bahamas (NA-080), from May 25-29th. Operating details have yet to be finalized. QSL via EA7JX.

CT3, MADEIRA ISLAND. Look for Karl, OE3JAG, to be active as CT3/OE3JAG from Madeira Island (AF-014, MA-001 for the Portuguese Islands Award, Grid Loc. IM12, WLOTA LH-0053), May 15-22nd. Activity will be mainly QRP on 30 and 20 meters CW, PSK and RTTY, using a dipole or long-wire antenna. QSL via his home callsign, direct or by the bureau.

CWJF MANCHESTER MINEIRA ALL AMERICA CONTEST. Ed, PY4WAS, President of CWJF, wants to remind everyone that this year's contest will be held May 20-21st. The Juiz de Fora CW Group (CWJF) organizes the event in commemoration of Juiz de Fora City's birthday and promotes the reconciliation between the ham radio operators of South and North America. For more details and rules for the contest, please visit the CWJF Web site at: http://www.powerline.com.br/cwjf

DAYTON HAMVENTION ANNOUNCEMENTS.....
DX HOSPITALITY SUITE. The Northern Ohio DX Association (along with Janeen Hire, W8ZET) will once again sponsor a Hospitality Suite at this year's Dayton Hamvention. It will be in Suite 1011 on the 10th Club Floor of the Crowne Plaza Hotel (old Stouffers) on Thursday, Friday and Saturday evenings (Look for signs!). All DXers/Contesters are welcome. Munchies and refreshments will be avaialble. Come and meet the members and friends of NODXA.

DX FORUM (and Dinner Banquet) - Jay, K4ZLE, informs OPDX that the final agenda for the DX forum for HamVention (r) is as follows:
11:00 - 11:35 - Desecheo Island (KP5) Project 2006: Presented by Kamal Sirageldin, N3KS, and David Collingham, K3LP
11:40 - 12:15 - Kure Island (K7C) 2005: Presented by John Kennon, N7CQQ
12:20 - 12:55 - The 3Y0X DXperience: Presented by Don DuBon, N6JRL with an introduction by Robert Allphin, K4UEE
1:00 - 1:35 - Sable Island (CY0AA): Presented by Joseph Pater, W8GEX, Wayne McKenzie, K8LEE, and Phil Florig, W9IXX
1:40 - 2:00 - Andaman Islands, 2006: Presented by Bernie McClenny, W3UR

ADDED NOTE: Jay also informs that the DX dinner held during HamVention weekend is sold out. He states, "We normally have last minute cancellations, and although we have a NO REFUND policy, as a courtesy, we attempt to sell previously sold tickets for those who have to cancel. If you are interested in attending, please E-mail Jay, K4ZLE, to check on availability prior to sending a check." Jay's E-mail address is:
k4zle <at> yahoo <dot> com
Thank you for your support. You may check out details on the dinner and the DX forum at: http://www.swodxa.com

RTTY FORUM - Shelby, K4WW, informs OPDX that the Dayton Hamvention 2006 RTTY forum will be held from 10:00-11:30 AM Sunday, May 21st, at Hara Arena, Room 5. He states, "No need to choose which forum to attend, as there are no other "conflicting" Contesting/DX forums scheduled, at this time! This is your chance to learn, from some of the best, everything you always wanted to know, and were afraid to ask, about RTTY contesting! Charlie, KI5XP, will have a presentation about his operations from W5WMU superstation. Ed, W0YK, will present, and explain his ability to average 100+ per hour, as P49X, during the 2006 RTTY Roundup. Both these presentations, will be 30 +/- minutes, in length, leaving some time for a Q/A session. Mike/K4GMH, Tom/WX4TM and Ed/W0YK will be available for the Q/A session."

CW PILEUP CONTEST - Mike Crabtree, AB0X, Treasurer of the Kansas City DX Club, advises that the famous CW Pileup Contest, will be conducted this year at the club's Dayton Hamvention Hospitality Suite, on Saturday, May 20th, at the Crowne Plaza Hotel in downtown Dayton, Ohio, from 7:00 pm to Midnight. Participants this year are advised that Icom America will be donating a major prize, the new IC-7000 HF Transceiver, to the winner of the event. Several other very nice prizes have been donated by Associated Radio, QRZ DX, and Lance Johnson Engineering. Additional background on the Kansas City DX Club's CW Pileup Contest can be found at the club's Web

site at: http://www.qsl.net/kcdxc/

Dave Patton, NN1N, ARRL Field & Educational Services Manager, states, "DXers working on JARL awards take note as JA1DM, Masa Ebisawa, will be present at Dayton in the JARL booth (#483). The JARL will be checking the following awards: ADXA, ADXA-HALF, AJD, JCCs, JCG, WAJA, WASA, Satellite-FUJI and other JARL awards. Ebisawa-san will also be able to answer questions on JARL activities as well as reciprocal licensing in Japan. For rules and more information see: http://www.jarl.or.jp/English/4_Library/A-4-2_Awards/Award_Main.htm Also, Masa is a DXCC card checker. Masa was elected to the CQ DX Hall of Fame in 2005."

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operation is approved for DXCC credit:
YI9LZ - Iraq; Current operation effective May 8, 2005

FM, MARTINIQUE. Jacky, F5OIU, will be active as FM/F5OIU from Martinique Island (NA-107) for a holiday between May 13th and July 1st. Activity will be mainly on CW, but also on the digital modes and SSB. He will use an IC-706 w/100 watts with FD3 and an R5. QSL via his home callsigns, Bureau preferred.

FT5X, KERGUELEN ISLAND. Gildas, TU5KG/FT5XP, is expected to be at Port aux Francais between May 15-17th. It is recommend to listen on the bands and watch clusters for QSNs. No other details were provided. Jean-Michel, F6AJA, provides a picture gallery about Kerguelen at: http://ile.kerguelen.free.fr/pafmin.htm

HI, DOMINICAN REPUBLIC. Antonio, IW2OAZ, will be as HI8/IW2OAZ from May 18-30th. Activity will be on 80-6 meters (modes not mentioned). On May 20th, he will be activating Catalina Island for 24 hours, IOTA reference NA-122.

HS, THAILAND (News). Charles, K4VUD/HS0ZCW, reports that there are changes in the works for Thai amateurs. He states, "Please stand by for the official announcement that may come in a month or two from RAST (the national club). Actual implimentation date is yet to be announced." Proposed changes that were mentioned are as follows and is good news for HS operators:
1. Opening low end of 80 meters for all HF HS stations all the time, and not just during some contests.... something like 3.5 to 3.540.... definitely for CW (maybe also voice).

2. Increase in output power limits for top grade HS ops above the current 200 watt limit.

3. Approval for all top grade HS ops to use all of the current 3 WARC bands at any time.

4. There is also the implication of conforming with existing sub-band band plans.

IOTA NEWS.....
AS-080. Han, DS2GOO, will be active as DS2GOO/3 from Nok Island (Nok Do) (WLOTA LH-0754), May 18-21st. Activity will be on 80-6 meters, SSB, RTTY and PSK31. QSL via his home callsign, by the bureau or direct. Visit his Web page at: http://myhome.naver.com/dxer2han/LH_0754

EU-113. Operators SV1HER, SV1GRM and SW1GZL plan to activate two island and lighthouses from this IOTA group using the special callsign SY8V. Look for them to activate Kythira (Gerico) Island (MIA: MG-062) between May 26-28th. They will be on the north edge of Kythira Island, operating from MOUDARI/SPATHI Lighthouse (WLOTA: L-1703, ARLHS: GRE-120, WLH: SV-084). They will then move on to Antikythira Island (MIA: MG-014) and be active between June 2-3rd. They will operate from the south edge of Antikythira Island from the APOLYTARES Lighthouse (WLOTA: L-0298, ARLHS: GRE-040, WLH: SV-011). QSL Manager for both DXpeditions is SV1HER.

EU-171. Tom, DL7UZO, will be active as OZ/DL7UZO from the Jylland North Group between now May 20th. Activity will be CW, SSB, PSK31, RTTY and WSJT on 80-10 meters, including the WARC bands, 50 MHz and 144 MHz. Skeds are possible via E-mail (dl7uzo@gmx.de). QSL via his home callsign, direct or by the bureau.

NA-019. Fred/AI3Z and Joanne/N3YYT will be active as AI3Z/KL7 from Kodiak Island (USI AK-004S, WLOTA LH-0623, 3rd South Central District), Alaska, from May 15-20th. Activity will be on 40-6 meters, with 100 watts, hamsticks/dipole for 5-15/17 meters, as weather permits. They will try to check-in on the AK Bush Net, then QSY to 7.085 MHz SSB and 50.125 / 50.135 MHz. QSL via AI3Z.

NA-027/
NA-198. Look for operators Linda/VE9GLF and Len/VE9MY to be active from Newfoundland Island (NA-027, CIsA NF-001) and Newfoundland's Coastal Islands (NA-198) starting on May 16th for about 2 weeks. This is a work trip, so their HF operations will be as time permits, evenings and weekends. Operation will be either mobile or portable with 100 watts, the Outbacker for mobile, or the R4 vertical and dipole for portable operations. QSL to home calls, bureau or direct (QRZ.com).

NA-067. Herb, WA2PIP, will be active as WA2PIP/4 from Hatteras Island (USI NC-005S, Dare County) and Ocracoke Island (USI NC-001S, WLOTA LH-0466, Hyde County), North Carolina, May 20-26th. His activity will be on 20/17/15 meters SSB. QSL via his home callsign.

JW, SVALBARD. Roger, LA4GHA, currently active as JW4GHA from Bear Island (EU-027), has extended his stay until July (He was supposed to go QRT in June). During his last month there he will focus on 6 meters. Listen to 50.110 MHz CW/SSB. If he is not on 6 meters, watch for activity on 160-2 meters on CW, SSB and the Digital modes. QSL via his home callsign, LA4GHA, by the bureau or direct to: Roger Bjoergvik, The Registry, Court of BiH,

Kraljice Jelene 88, 71 000 Sarajevo, BiH.

LIGHTHOUSE ACTIVITY. Chris, G1VDP, informs OPDX that he will be operating from the Pendean Lighthouse (ENG-101, Locator IO70ed) in Cornwall, England, Wednesday, May 31st. During his portable operation, Chris will be using a FT897 into an ATAS 120 antenna with 100W output on 40/20 meters and 10 meters if the band opens. He may also try some PSK31 on 40 meters, if the conditions will allow, and his Laptop stands up to it! Suggested frquencies are: 40m (7064 kHz +/- QRM), 20m (14265 kHz +/- QRM) and 10m (28475 kHz +/- QRM). A special QSL card will be available following the operation and will be sent via the bureau (direct QSLs are to include SAE and return postage costs using the QRZ.com address).

P40, ARUBA. John, W2GD, will be active as P40W during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band entry. QSL via N2MM. Activity prior to contest will be on the WARC bands and 160m.

PI25, THE NETHERLANDS (Special Event). During the month of May, the VERON Department, A54, ?Etten-Leur? will be celebrating its 25th jubilee year. The club station, PI4ETL, will be using the special callsign PI25ETL between June 24th and July 9th. Club members will be active with this special callsign on various HF and VHF bands during this period and PI25ETL will participate in the IARU HF Championships (July 8-9th) as a Multi-Single entry. A special ?Worked A54 Award? will become available for working PI4ETL or PI25ETL during the months of May, June and July. Details can be obtained from PA0ATG at: pa0atg@amsat.org

QSL INFO AND NEWS.....
QSL AK5Q/6Y5 to: Mickey A. Driver, 7010 Lawler Ridge, Houston, Texas 77055. Mickey was operating from Ocho Rios, Jamaica, this past weekend. He was trying to work all 50 states.

QSL STATUS OF BY4RSA/4. To see if your QSL arrived OK at BA4TB, visit the following Web page at: http://spaces.msn.com/ba4tb
Activity was from Tianheng Island (AS-150) near Qingdao city in Shandong Province. Online log is available at: http://dx.qsl.net/logs

QSL STATUS OF FO/DL5XU AND FO/DL1AWI/9AWI. Peter, DL3APO, informs OPDX that he just received the QSL cards from the printer and began to answer direct requests. You can check the log and your QSL status from all incoming direct cards here:
http://www.df3cb.com/logsearch/cgcg/logsearch.php
There you will also find a list of received requests and sample of the QSL cards.

QSL ED8OTA via IZ7FLP. Operators were Simone/IZ0BTV, Gianni/IZ7FLP, Alfredo/EC8ADS, Peter/EC8ADW and Eduardo/EC8AUA. Activity was last week from four different rocks in the Gran Canaria, Canary Islands (AF-004) group. For more details, see the ED8OTA Web site at:
http://www.strangeradioteam.com/ed8ota

Jean Michel, F6AJA, reports that you can find the log online for JW/F8DVD for his activity between March 24 to 31 on their Web site at: http://LesNouvellesDX.free.fr (follow 'logs en ligne')

Online logs for the PY0F/CT1BWW Fernando de Noronha Island DXpedition are now available at: http://www.qsl.net/s92bww/QSL.htm

QSL R50CQM via UA3DX, by the Bureau or direct. Operators were RK0AXX and UA0AZA during CQ-M Contest. Activity was to celebrate the 50th anniversary of the CQ-M Contest.

Steve, KU9C, suggests the following when sending for QSLs for the recent YX0A/YX0LIX DXpedition:
1) Please DO NOT include QSLs for other stations he manages with your YX0A/YX0LIX QSLs; this will substantially delay your QSL return.

2) Please address your envelope COMPLETELY, including your COUNTRY if not in the USA.

3) Please, if you send him more than one stamp for your SASE as a donation, affix one of the stamps to your envelope, in the event that the other stamps are lost in the shuffle.

Steve states, "I'll be posting the logs, with the team's permission, on LoTW. I anticipate this will be not in the near future, but it will happen if you're in no hurry for the QSL. I'll be doing bureau QSLs, but I tend to do bureau cards on an annual basis. It will be several months before I start that process; I get my QSL cards in LARGE boxes, so a bureau card will not come to me for some time." ADDED NOTE: The YX0A/YX0LIX logs are now available online at: http://www.qsl.net/gdxc/Logs/logbook.htm

RUSSIA NEWS. It has been reported that some changes have taken place for Russian amateurs (as of "a couple of weeks ago"). Russian amateurs can now run a KW and also operate up to 7.200 MHz, with the government there providing these new operating factors. This news is only true for the former Soviet state we now call Russia, and not necessarily the other former Soviet states.

SPECIAL EVENT. Look for special event station SN16B to be active between May 15-31st. Activity is to celebrate the first visit of Pope Benedict XVI to Poland. Activity will be on CW/SSB with operations on 80-10 meters. Also look for 6 and 2 meters activity. QSL via SP9PKZ (bureau) or direct.

SPECIAL EVENT. Look for special event station YL775TALSI to be active until July 2nd. Activity is to commemorate the anniversary of Talsi Town in Latvia. Send QSL card to either the YL Bureau or to YL2CF.

T40, CUBA. Operators Willy/CO2UG, Yulian/CM6YI and Winston/CO2WF will be active as T40C during the CQ WPX CW Contest (May 27-28th) as Multi-Single/ High-Power entry. They will use a G5RV antenna, and a FL-2100 Linear Amplifier from the east side of Habana, at the beach. QSL via N1KI.

T9, BOSNIA-HERZEGOVINA. Zrinko (Zik), VE3ZIK (also 4N1DX, DO1SKY), will once again be active as T9/VE3ZIK from Ljeb between May 27-30th. Activity

will include the CQ WPX CW Contest (May 27-28th). Look for him mostly on 40/80 meters. QSL via DL3PS ONLY, DARC Bureau is OK. Please, don't send QSL cards via the VE3 Bureau (also, no e-qsl & LoTW).

TK, CORSICA. Vasek, DL4FF, will be active again as TK/DL4FF from Corsica (EU-014) from May 15th to June 9th. He will operate on 160-10 meters CW and SSB and will be active during the CQ WPX CW Contest (May 27-28th). QSL via his home callsign, direct or by the bureau.

TO0, MARTINIQUE. Tom, KC&#65533;W, will be active as TO0O from June 6-24th. Activity will be on all HF bands CW/SSB. QSL ONLY DIRECT via KC&#65533;W. NO BUREAU QSLS.

V3, BELIZE. Art, N3DXX, will be active as V31RM during the CQ WW WPX CW Contest (May 27-28th) as Single-Op/All-Band entry. QSL route was not mentioned.

V47, ST. KITTS AND NEVIS. Reiner, DL2AAZ, plans to be active as V47/DL2AAZ from the Island of Nevis (NA-104), July 20th to August 10th. Activity will be on 40/20/15/10 meters SSB and CW, with 100 watts, dipole and groundplane antennas. QSL via his home callsign, direct or by the bureau.

V5, NAMIBIA (African Trip). Nick, G3RWF, will be active as V5/G3RWF starting September 14th for 3 weeks. From Namibia he will travel to South Africa (ZS) for another 3 weeks (possibly including 4-5 days in Lesotho - 7P). He hopes to work more RSARS members from V5 than last time (i.e. total of more than zero!). Nick will be /p from the very north - a few days first near Victoria Falls (Zambia and Botswana and therefore not QRV!). He will then drive west right along the Angolan border and then loop south to Windhoek and thereafter to South Africa (worked 30+ members last time). QSL via his home callsign.

VI9, NORFOLK ISLAND (Pitcairner landing celebrations by Jim Smith, VK9NS). "Although I have lived on Norfolk for almost 26 years and Kirsti many more years neither of us are Norfolk Islanders!! June of this year marks the 150th Anniversary of the landing of the people of Pitcairn Island, the decendants of the Bounty Mutineers, on Norfolk Island.

The discovery of Pitcairn Island with its 'lost' population is a whole saga in itself. The subsequent movement of this population was sanctioned by Queen Victoria. The Britsh government then arranged their transport to, and settlement on, the vacant possession of Norfolk Island.

(Some Pitcairners subsequently wished to return 'home' to Pitcairn. This was allowed and carried out on a one off and final basis. Hence the current Christian and Young, etc., families resident on Pitcairn Island.)

The celebration of this unique migration is special to the Norfolk Islanders (those of Pitcairn descent) and there are many things being planned. It will be an very interesting period.

To help celebrate the event the HIDXA Club has been issued with the special callsigns of VI9NL and VI9NS for the whole month of June covering

the period of the celebrations. Kirsti, VK9NL, and myself, VK9NS, will use these special callsigns and will both try to be as active as possible during the period.

For the record, the HIDXA Club was created some 23 years ago after the return from Heard Island, and is registered on Norfolk Island...."
73 Jim, VK9NS

VI9, NORFOLK ISLAND. Bill, VK4FW, informs OPDX that all equipment has now been sent to Norfolk Island in readiness for their arrival of the team on May 24th. The team consists of: Ron/VE7NS, Gary/ZL2IFB, Phil/VK2BAA, Eddie/ VK4AN, Merve/VK4DV, John/VK5PO and Bill/VK4FW. Bill states, "We have been very fortunate to have the use of our special callsign VI9NI. This has been issued to help celebrate the 150th anniversary of the landing of the "HMS Bounty Mutineers." Suggested operating frequencies are:
CW - 1822, 3523, 7023, 10103, 14023, 18073, 21023, 24893, 28023 and 50125
SSB - 1822, 3785, 7093, 14195, 18140, 21295, 24940, 28475 and 50125
RTTY - 10103, 14084, 21084 and 28084 kHz
Bill informs that they will make use of the N1MM logging program which will enable them to keep an eye on all grey line propagation. QSL via VK4FW, by the VK4 QSL Bureau or direct to: PO Box 612, Childers, 4660, Australia (w/ a with minimum of 2 USDs). The team would like to sincerely thank the following for their support: TET EMTRON, CAL-AV LABS, DANISH DX GROUP, VK3AJJ, VK4AN, VK4CY, VK4NEF, VK6NKG, VK4FW and the members of ODXG. As a reminder, the team is still in need of some donations to help offset the huge costs of freighting in the equipment. Further information can be found at: http://odxg.org/expedition.html

VU4, ANDAMAN ISLANDS (Updates/News/QSL Corrections).....
More information was announced this past week about the two new YL operators on VU4-land. These two YLs hold valid India licenses and have permission to transmit from VU4. Operators are Ms. Suraj Moli, VU3VPX, and Ms. Lizzie Dcruz, VU3VPY. No one knows why they got VU3 callsigns instead of VU4 callsigns, but they are legit. Frank, DL4KQ/VU3FRK, who recently returned (May 6th) from Port Blair, stated that "Ms. Molly, VU3VPX, and and Mrs. Lizzy, VU3VPY," are legit VU4 licenses since September of last year. However, the YLs didn't own any equipment beside an old funny straight key. He (Frank) mentioned Doug, N6TQS, immediately decided to donate his SIGMA5 antenna and Frank dropped of his own Elecraft K2/100 with seperate KAT100 antenna tuner, a power supply and a Heil headset. Thanks to Frank, their station is now set up and the YLs can now be active on 20-10 meters (SIGMA5) and on 40 meters with a dipole. (Unfortunately, the noise level at the College is extremely high and Frank recommended to them to look for a better place/building.) Bernie, W3UR, Editor of The Daily, also reported this past week that his group (that was at VU4) was was invited to the "Dr. B.R. Ambedkar Govt. Polytechnic School". They met with the Principal Shri, Utpal Sharma and several other potential hams. In fact a Amateur Radio class will be starting up very soon with 30 students, including the Principal, teachers and students of the school. A radio was promised to the club by an anonymous donor. In fact the rig is currently in Bangkok. An antenna is

also being worked on plus other accessories for the club station. Complete details will be released to the DX community soon, maybe even at Dayton.

PLEASE NOTE: The following are corrections/revisied updates to OPDX.758 under "VU4, ANDAMAN ISLANDS (Updates/News)" in the collected QSL routes. The following should read:

QSL VU4AN/VU3KIE via OH2BN. Operator Jorma, OH2KI. Online log available at: http://koti.welho.com/tlinden2/logsearch/vu4logs.html
QSL VU4AN/VU3OHB via OH2BN. Operator Martti, OH2BH. Online log available at: http://koti.welho.com/tlinden2/logsearch/vu4logs.html
QSL VU4AN/VU3PLM via IK1PMR. Operator YL Claudia, K2LEO. Online log available at: http://www.ik1pmr.com/logs/
QSL VU4AN/VU3RWO via N3ST. Operator David, K3LP. Online log available at:http://www.dx-pedition.de/andaman2006/logs.html
QSL VU4AN/VU3TLY via IK1PMR. Operator Andrea, IK1PMR. Online log available at: http://www.ik1pmr.com/logs/

There has been some confusion on the QSL routes. Martti, OH2BH, informed OPDX that OH2BN is the QSL Manager (not OH2BH) for all three stations: VU4AN/VU3KIE, VU4AN/VU3OHA and VU4AN/VU3OHB. Also, John, K1XN, of the GoList, advises that he received a note from David, K3LP, the operator of VU4AN/VU3RWO, and he assures John that N3ST is the ONLY QSL Manager for VU4AN/VU3RWO. As far as stations VU4AN/VU3PLM and VU4AN/VU3TLY, operator Andrea/IK1PMR (alias VU3TLY) announced on one of the DX mailing list that you can send QSLs direct to him for both VU3TLY and VU3PLM. He states, "We're discussing about appointing F5CWU as a group manager, but still it's not clear to me if all team members will agree." OPDX hopes that we were able to clear up some of the QSL confusion.

YO, ROMANIA. Jean Michel, F6AJA, French DX Editor of the Les Nouvelles DX, will once again be active as YO/F6AJA from May 22-28th from YO8FZ's station during my free time.

ZP0, PARAGUAY. Tomas, ZP5AZL, is planning to be active as ZP0R in the CQWW DX SSB Contest (October 28-29th) as a Single-Op entry. QSL via W3HNK. Meanwhile, Jorge, CX6VM, will be active as ZP0R in the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/High-Power entry. Also, QSL via W3HNK.

ZW2, BRAZIL (Update/Correction). Look for ZW2FEN (not ZW4FEN as first reported) to be active during the "FIRST FAIR OF RADIOAMADORISMO OF BRAZIL" (FENARCOM), July 14-16th. Activity will be on all modes and bands. QSL via PY2QI. More information via: erwin@fenarcom.com.br
The Fenarcom Web site (in Portuguese) is at: http://www.fenarcom.com.br

For those of you in the United States, (perhaps even people outside)
please consider writing or e-mailing a comment about how important the
real-time solar wind data is to our hobbies and emergency HF comms.

Please do not crosspost any replies

Solar Wind Comment Period Nears Its End

On April 3, 2006, the National Oceanic and Atmospheric Administration
(NOAA) issued a press release announcing a call for public comment on the
value of continuing real-time solar wind data, and products derived from
such data, provided by the Space Environment Center. Since that time,
NOAA has received many thoughtful, compelling comments regarding this
issue. It is obvious that people put their valuable time and effort into
expressing themselves, and their input is most appreciated.

There is still time to add your comments, but time is running short. As
stated in the April 3 press release, the comment period continues until
May 18. All input is important, so, if you haven't voiced your opinion
yet and would like to, please take the time to do so. Please send your
comments to:

solar.wind.comments@noaa.gov or contact:

NWS Contacts: Beth McNulty or Dorothy Haldeman

Yeah, I understand it was pretty tough from VK.

On the other hand, you folks had it a lot easier with VU4AN!

Can anyone help me with research for my degree.

I'm looking for information on ham radio enthusiasts who suffer from manic depression (bipolar syndrome). I'm researching the effects of RF fields on electrical activity in the brain. This particular form of mental illness may be specifically at risk.

Can you put me in contact with anyone who could help me?

Thanks

Gerry

Wanted 2 tubes sockets and chimneys for the Eimac 4CX250 series tubes. I'm building an amp and need four altogether. Have found two old military type but still in need of two more. Either version will work either military or civilian types that utilize a chimney.

email off list to ve7agw(at)shaw.ca you know what to do with the "(at)"

thanks and 73...de ve7agw,
Al

The only one I know is a guy in the Orkneys. GM3POI - his name
is Clive Penna. Apparently he has a manic episode every nine
days regular as clockwork - and that's pretty severe from what
Ive been told.

I can't see him helping you with info though. He's not the type.

Brian.

That's very interesting. Stories have been circulating about him for years.
First time I've heard the details though. Explains a few anecdotes that
do the rounds from time to time.

And I agree, a nine-day cycle of manic depression is not at all good.
Some sufferers only have an episode every few months (or even years).

Nine days - yike !!

935. Delete Scarborough Reef BS7

Newsgroup: rec.radio.amateur.dx
Date: 2006-05-24 03:33:19 UTC
From: David Thompson <thompson@mindspring.com>
Message-ID: <3uQcg.7028$y4.5298@newsread2.news.pas.earthlink.net>
Source record: 3237

came across some info from Hans Hannappel, DK9KX from the early 90's
about Scarborough Reef (now BS7H). Hans was a avid map junkie who has
identified several new DXCC entities. He had reviewed the points on a map
called Huangyan Dao (Scarborough) and passed on calling the islands a
possible
new one. Seems there is no real island just a series of rocks that appear
above low tide.
He decided a scaffold would be needed and ARRL had just deleted the
7J1RL (Okino Tori-Shima) which is a similar situation.

Well, along comes Marrti OH2BH. After a short operation there (which I
worked) he and the Chinese Radio Sports Association asked for separate
country (entity) status. DK9KX refused to go along on the OH2BH operation
and asked the operation be deemed a MM operation.

The ARRL and DXAC studied the situation and despite DK9KX's opposition and
the opposition of DXAC chairman, W4VQ (he pressed for a minimum size for an
island) the reef was added to DXCC but the initial operation was deemed MM
not land based.

One reason for the acceptance was that the nearby Philippines had made no
claim (so they thought).

Martti led another Dxpedition there and with some modification to the
paltform this one was accepted.
Few East Coast stations even heard the Dxpeditiion much less worked them. A
second Dxpedition was made several years later and on the second day lo and
behold, the Philippine Navy showed up in force and forced the Dxpedition and
Chinese navy support to leave.

It sure sounds like the ball game is over and its time to rethink the DXCC
credit. Either delete Scarborough Reef or measure the distance to the
nearest Philippine Island.

What do you think?

I personally agree with Gary K4MQG who said an island must be large enough
to at least put up a 80 meter dipole. The largest rock is only a metter of
a few feet across and 5 or 6 feet long thus the need for a platform.

73 Dave K4JRB

Well, he said that he worked it once and it didn't count.

If it's the same physical situation as Okino Tori-Shima that was deleted, then BS7 should be deleted too.

As far as I'm concerned, if there is no possible way a guy can work it because the ownership is in dispute, it's impossible to operate from there, or it's under water, it isn't a workable entity and should be deleted until those conditions change (if ever).

Otherwise, give me back current credit for A15, KZ5, 8Z4, ST0, et.al.

I haven't checked recently but I recall a while back that there were
several on the list which wouldn't qualify under the current requirements.

I'm not sure if any which once deleted, were restored (possibly S0--ex
EA9, but I don't remember for sure).

IMHO a country is a country. If the North Korean government doesn't (didn't) allow ham radio, that doesn't (didn't) mean North Korea isn't a country.

IMHO setting arbitrary minimum sizes for countries is also, well, arbitrary.

OTOH, if it's underwater at high tide, it's not a country.

If you have to build scaffolding, it might still be a country but IMHO your scaffolding is a /MM & shouldn't count for DXCC.

just worked on PSK31.

He's operating the Iraqi station by remote control from San Francisco.

Did I read somewhere that this doesn't count for DXCC?

(I do have a valid YI confirmed on CW)

I dunno, but if it does, it should count for W6.
>
>(I do have a valid YI confirmed on CW)

Mine's on SSB.

I can see it now. Some rich guy builds (okay, has built) an h-f
station remotely controlled by a satellite link. He has it dropped
via helicopter on BS7 at low tide. He works himself and makes #1 on
the Honor Roll.

I don't have 6 meter capability yet but look forward to it. I've been keeping an eye on the spot stats graph on http://propagation.hfradio.org/ and lately its been show A LOT of 6 meter activity. I was just wondering if this chart reflects real world activity. Has anybody seen any kinds of 6 meter openings lately? If so, any DX?

6 meters is always open if you use WSJT for meteor scatter. I have
been hearing e's openings here in EM75wx on most evenings. Signals
tend to be weak, but my antenna is not very high.

Although openings can occur just about anytime, May, June, and July are big
openings for sporadic E propagation
See URL:
http://home.swbell.net/pjdyer/cq/cq7208a.htm

One can work all 50 US Staes during these seasonal openings - A vertical and
100 Watts will do ya

It is starting up for this season. Have fun

Doug,

This counts for DXCC. Was reported in the ARRL letter some time ago.

The actual transmitter is in Iraq. No matter where the operator is...KH7R
is another remote control example
often run from W7 in contests.

73 Dave K4JRB

The Ohio/Penn DX PacketCluster
DX Bulletin No. 760
BID: $OPDX.760
May 29, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5RC, W5BOS, K8YSE, K0JGH, DL1EK & The DX News Letter, EA8AUW/ EC8AUA, F5NQL & UFT, GW0ANA, HA5X, HA0HW, I1JQJ/IK1ADH & 425 DX News, IZ5DIY, JI6KVR & JA IOTA News, LA0VDA, M5AAV, OH2BH, PA7FM, TA2RX, VA3RJ & ICPO, and VK4FW for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Saturday, 20th/May, through Saturday, 27th/May there were 218 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 4J, 4L, 4S, 4W, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J6, JA, JD/o, JT, JW, JX, JY, K, KG4, KH0, KH2, KH5, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V8, VE, VK, VK9L, VK9N, VP2M, VP2V, VP5, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4L, GEORGIA. Operator Vaho, 4L8A, will be active in the CQ WW WPX CW Contest (May 27-28th) as a Single-Op/Single-Band (20m) entry. QSL via DJ1CW.

4W, TIMOR-LESTE. Michael, PA5M, is now active as 4W6AAB until June 2nd. Activity will be limited to his spare time. QSL via PA7FM. For more details

and an online log, visit the following Web site at: http://www.4w.pa7fm.nl
LAST MINUTE UPDATE: QSL Manager Dennis, PA7FM, informs OPDX that Michael, 4W6AAB, had to go QRT May 27th. Michael has been evacuated from Timor Leste due to recent safety problems after just 5 days at work there (WFP - UN World Food Program). There might be a return in the future.... time will tell. 4W6AAB made some 400 QSOs. QSLs will be printed soon.

5B, CYPRUS. Jack, RW3QC, will be active as 5B/NN3AA during the CQ WW WPX CW Contest (May 27-28th) as a Single-Op/All-Band entry. QSL via RW3RN.

7W, ALGERIA. Operators Rastislav/OM3BH, Jozef/OM3GI, Jozef/OM3NA, Tibor/ OM3RM and Frantisek/7X0RY will be active as 7W2OM in the CQ WW WPX CW Contest (May 27-28th) as a Multi-Single entry. QSL route was not provided. Some of the team will be active until May 30th.

8R, GUYANA. Craig, AH8DX, will be active as 8R1EA during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band entry. Look for RTTY activity before and after the contest. QSL via AH8DX.

AM8, CANARY ISLANDS. Operator Valery, RD3AF, will be active as AM8EW during the CQ WW WPX CW Contest (May 27-28th) as a Single-Op/All-Band/ High-Power entry. QSL via RD3AF.

B1, CHINA. A group from Texas is going to be active with members of the Chinese Radio Sports Association from their club station "B1Z" during the 2006 CQWW SSB Contest. Hopefully more details will be forthcoming.

CQ HALL OF FAME.....
At the Dayton DX Dinner Banquet on Friday, May 19th, Ralph Fedor, K0IR, and Don Greenbaum, N1DG, were inducted into the CQ DX Hall of Fame.

At the Dayton Contest Dinner Banquet on Saturday, May 20th, Tim Duffy, K3LR, and Bill Fisher, W4AN (SK), were inducted into the CQ Contest Hall of Fame.

OPDX InterNet Subscribers will receive a special bulletin (with the complete press release) sent out by Richard Moseson, W2VU, Editor of CQ Amateur Radio, listing all the 2006 inductees to the CQ Hall of Fame and their achievements.

CU2, AZORES. Pertti, OH2PM, will be active as CU2A during the CQ WW WPX CW Contest (May 27-28th) as an All-Bands entry. QSL via OH2BH.

DXCC NEWS.....
Looks like a new DXCC entity is on the horizon. Montenegrins voted last week to end its union with Serbia. It would appear that Montenegro will probably be added to the DXCC List as a new entity. Stay tuned for more details.

Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operations are approved for DXCC credit:

4W6AAB - Timor-Leste; Current operation effective May 22, 2006
6O0M - Somalia; Operation from April 7-24th, 2006
A6/OD5TX - United Arab Emirates; Operation from October 5th through November 5th, 2005
HN0Z - Iraq; Operation March 27-28th, 2004
Operation May 29-30th, 2004
J5DOT - Guinea-Bissau; Operation from April 25th through May 5th, 2006
S01R - Western Sahara; Operation from April 11-21st, 2006
TT8WL - Chad; November 19th, 1996 through March 8th, 1997
YI9HU - Iraq; Operation from May 18th through June 5th, 2005
YI9NS - Iraq; Operation from January 5th through March 28th, 2006
ZV0F - Fernando de Noronha; Operation from March 30th through April 4th, 2006

DXCC FEES GOING UP! The ARRL DXCC Desk has announced DXCC program fees will rise slightly when a new awards fee schedule goes into effect July 1st. The fee for a basic DXCC application (including certificate and pin for initial applications only, 120 QSO maximum) and for first endorsement applications within a year will increase to $12 for ARRL members and to $22 for foreign nonmembers. Second and subsequent endorsements (120 QSO maximum) within a year will be $22 for ARRL members and $32 for foreign nonmembers. The $10 fee for a basic DXCC application (120-credit maximum) was established in 1990, and the current overall fee schedule has been in effect since 1998.

E51, COOK ISLANDS. Victor, ZK1CG/ZK1USA, reports that as of June 1st, (2006), the ZK1 prefix will change to a new prefix, E51. He will try and be on June 1st with his new callsign E51CG and later with E51USA from South Cooks.

ED8/EF8, CANARY ISLANDS. Operators EA8RA, EA8AVK, EA8AMY, EC8AUZ, EC8ADW, EC8ADS, EC8AUA/EA8AUW and possibly others will be active as ED8CID and EF8CID in commemoration of "Canary Islands Day" (May 30th). This activity began on May 26th and will end May 30th. Activity will be on 80-10 meters, SSB, CW, RTTY and PSK31. QSL via the Bureau to EA8AUW.

FS, SAINT MARTIN. Craig, AH8DX, will be active as FS/AH8DX during the CQWW CW Contest (November 25-26th) as a Single-Op/All-Band entry. Look for RTTY activity before and after the contest. QSL via AH8DX.

HA, HUNGARY (New Changes). Chris, HA5X, informs OPDX that "Effective May 25th, 2006, amateur radio regulations in Hungary have changed significantly, in many respects breaking with age-long traditions." Key changes that also affect the international HAM community are as follows:

- ECC REC (05)06 on the "CEPT Novice Licence" is implemented. Foreign visitors holding a "CEPT Novice Licence" can now work in Hungary using HA/home call. The CEPT Novice licence grants access to 160m, 80m, 40m, 15m, 10m, 2m, 70cm and 23cm bands with reduced power levels. Please look up rules before operating!

- Morse-code is no longer a requirement, VHF licencees can start using HF bands without changing their HG callsigns. A 6 WPM Morse proficiency exam is still necessary to make CW QSOs, unless the CW QSO is between two computers.

- Geographic call area numbers no longer exist in callsigns.

- Callsign rules are simplified, thus allowing for a wider choice of possibilities.

- A new, simplified entry level exam and licence will be introduced for youngsters and seniors later this year.

- Earlier licence levels are consolidated into two: "CEPT Novice" and "CEPT". All existing licencees get more privileges with this change.

IOTA NEWS.....
AS-008. Operators JM1VQJ, JO1IRO and JF1IZM will be active as homecall/1 from To Island (JIIA AS-008-013), JA1 North Izu Group, from June 2-5th. QSL via their home callsigns, direct or by the bureau.

EU-020. Bernd, DL8AAV, will be active as SD1B from Gotland (SM1 and WLOTA LH 2969), now through June 5th. QSL via DL8AAV (100% via the bureau).

EU-028. Operators Veronica/IZ5HSW, Roberto/IW5CZU and Silvio/IZ5DIY will be active as IA5/homecall from the Island of Rats (IIA LI-012 and MIA: MI-150), May 27-28th. Activity will be on 40-10 meters. They will try to have two stations on the air.

EU-113. Operators Sotirios/SV1HER, Theodor/SV1GRM and Likourgos/SW1GZL will be active as SY8V from Kythira (Gerico) Island (MIA: MG-062). Activity will be from the north edge of the island from Moudari/Spathi Lighthouse (WLOTA: L-1703, ARLHS: GRE-120, WLH: SV-084) until May 28th. The team will then move to Antikythira Island (MIA: MG-014), and be active between June 2-3rd. Activity will be from the south edge of the island from Apolytares Light-house (WLOTA: L-0298, ARLHS: GRE-040, WLH: SV-011). QSL Manager for both operations is SV1HER.

EU-124. Glyn, GW0ANA, informs OPDX that he will be mounting a small trip to Flatholm Island, June 3rd and 4th. He will be involved in a TV documentary on Marconi. So, he will be going live, calling CQ from Flatholm Island during the filming of the documentary on "Ham Radio". Glyn states, "So if you guys would care to call me it would be most helpfull for the documentary." His callsign on the island will be GW4BRS/P. QSL via GW0ANA.

EU-174. Operators Laci/HA0HW, Tomi/HA4DX and Ivan (Johny)/LZ1PJ will be going to Skala Rachoni (KN20HS), Thassos Island, Greece, starting on May 27th and finishing on June 5th. Activity will be on HF and 6 meters, with operations on CW, SSB, RTTY and PSK31. Their callsigns (w/QSL routes) are as follows:

J48HW and SV8/HA0HW via HA0HW; by the Bureau or direct (QRZ.com)
J48DX and SV8/HA4DX via HA4DX; by the Bureau or direct (QRZ.com)
J48PJ and SV8/LZ1PJ via LZ1PJ; by the Bureau or direct (QRZ.com)
They will be using a FT-840, IC-706 and TS-450 SAT with several
DunaX Gp and dipole antennas with 100w output.

NA-NEW. Lanny, W5BOS, will attempt to activate two new IOTA islands
in Alaska, August 16-22nd. He will activate the following:
1. Coastal Groups (o) Southern Alaska Peninsula Centre
(NA238/pr) using the callsign W5BOS/AL0.
2. Coastal Groups (p) Southern Alaska Peninsula East
(NA237/pr) using the callsign W5BOS/NL0.
The Fish & Wildlife Service advises, "This is a very remote
and storm swept part of the world". These islands are very
difficult to land on. Weather will be a major factor. QSL
via N6AWD.

NA-144. Operators Terry/W6WTG, Larry/KF6JOQ and Mark/KG6ZBL will be
active from Santa Cruz Island (USI CA-012S, Santa Barbara County,
California), between June 9-11th. They will be using the special
callsign W6C. Activity will be on 14260 kHz (+/-), 50.130 MHz
(+/-) and also 144.210 MHz SSB. QSL via N2OWL. More information
is available at: http://www.w6wtg.com

OC-270. Kardi, YB1TC, and a team of operators from the YE7P operation
are planning to operate as YE6P from Simeulue Island between
now and May 29th. QSL via YB1TC, direct preferred, bureau ok.

KH5, PALMYRA ISLAND. Mike, KH6ND, will be active as KH6ND/KH5 during the
CQ WW WPX CW Contest (May 27-28th) as a Single-Op/Single-Band (40m)/High-
Power entry. QSL via K2PF.

OH0, ALAND ISLANDS. Phil, N6ZZ, will be active as OH0ZZ for the CQ WPX
Contest. He will be accompanied by OH2BH (OH0B) and OH2MM (OH0E), and they
can be found on WARC bands. QSL OH0ZZ via N6ZZ.

OY, FAROE ISLANDS. Operators Wim/PA2AM, Steve/PA2A, Hans/PAOVHA and
Martin/PA2VMA will be on a holiday trip to Eysturoy, Faroe Islands
(EU-018) between May 29th and June 8th. Look for them to be signing
OY/homecall. Activity will be on all bands, CW, SSB, PSK31 and RTTY.
QSL all callsigns direct to PA0VHA (QRZ.com). Further information can
be found at: http://www.pi4cc.nl/personal/pa0vha/index.htm

P4, ARUBA. Andy, AE6Y, will be active as P49Y in the CQ WW WPX CW Contest
(May 27-28th) as a Single-Op/All-Band entry. QSL via AE6Y.

PJ2, NETHERLANDS ANTILLES. Members of the Caribbean Contesting Consortium
(CCC) will activate Signal Point Station on Curacao. Operators Marty/W1MD,
Scott/W4PA, Helmut/DF7ZS, Steve/N8BJQ and Geoff/W0CG will be active as PJ2T
during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry
(or possibly a Multi-2; if the team increases). QSL via N9AG.

PJ2, NETHERLANDS ANTILLES. Jim, WI9WI, will be active as PJ2T from Signal Point Station on Curacao during the CQ WW WPX CW Contest (May 27-28th) as a Single-Op/High-Power entry. QSL via N9AG.

PJ4, NETHERLANDS ANTILLES. Look for Glen, K0JGH, to be active as PJ4/K0JGH from Bonaire, May 31st to June 8th. He will be there with his XYL Pamela, N0ICF. Glen will operate SSB, CW and RTTY on a casual schedule. QSL via his home callsign K0JGH.

PW5/PT5, BRAZIL (WRTC2006 News). Atilano, PY5EG, from the WRTC2006 Steering Committee, reports that ANATEL (AG&#65533;NCIA NACIONAL DE TELECOMUNICA&#65533;&#65533;ES, their Telecom National Governmental Authority) has approved the allocation of special callsigns to be officially used by the teams during the WRTC2006 next July 2006. The callsigns approved are: PW5A to PW5Z and PT5A to PT5Z. Accordingly, by the rules, the process to assign the stations will be by a lottery the Friday prior to the contest. The callsigns will be given to the teams at the station before the contest.

QSL INFO AND NEWS.....
Graham, M5AAV, informs OPDX that effective immediately he is now the QSL Manager for 9M6XRO. This is the new callsign of John, 9M6/G3OOK.

Trond, LA9VDA, informs OPDX that he is the QSL Manager for LA3Z and LN3Z.

SPECIAL EVENT. The Texas DX Society (TDXS) and friends will be celebrating the 20th anniversary of the "Great Armadillo Run of 1986" with special event station K7A. The operation and reunion will be held in Virginia City, Nevada (Storey County), at the QTH of K5RC. Operations will be over the Field Day weekend, June 24-25th. From 1983 through 1985, TDXS sponsored "Armadillo Runs" which, over three years, activated every county in the 5th call area. In 1986, they celebrated the Texas Sesquicentennial by sponsoring the Great Armadillo Run of 1986, where they attempted to activate every county in the USA over two weekends. See the story in April's 1986 QST and CQ Magazines. They also created and activated "Armadillo County, Texas", during the Sesquicentennial celebration, which is now a deleted county. Twenty years later, over 50 of the participants, friends and supporters are gathering at the K5RC Ranch to commemorate the event and operate K7A during Field Day. QSL via W7RN. For details, visit the Web page at: http://www.consultpr.com/Armadillo.htm

SPECIAL EVENT. Bekir, TA2RX, will be running a special event station with the callsign TC150HP, between May 30th and June 30th. Activity is to celebrate the 150th anniversary of the Turkish railways and the 100th anniversary of Haydar Pasha train station. Operating frequencies will be mainly 40/20 meters SSB. However, he will try to give the other bands a try too. Bekir states, "I expect to operate mainly after 1400z, until I get tired or XYL starts shouting on the phone, whichever is earlier ;-) However, don't expect me to run the station each and everyday. This station, hopefully, will be part of a Turkish Railways award, details of which to be announced later."

SV9, CRETE. Dale, G3VMK, will be active as SV9/G3VMK from now until June 2nd. He will concentrate on 30/20/17 meters CW only. Reference numbers for this operation are: EU-015, MIA MGC-005 and WLOTA LH-1400. QSL via his home callsign, direct or by the bureau.

TK, CORSICA. Gerry, IZ1DSH, will be active as TK/IZ1DSH from Porto Vecchio, August 3-15th. Activity will be on 40/20 meters SSB. QSL via his home callsign by the ARI Bureau.

VI9, NORFOLK ISLAND. The VI9NI team is now up and active until June 21st. A press release by Bill Horner, VK4FW, states that there have been major problems with gail force winds since their arrival. However, all operators are in good health, and they do have up all the antennas. Bill also mentions that their InterNet connection there has failed them on at least 50 times. They hope to change things there to improve access/connection. He asks that no one bothers to send them E-mails at this time. For more details, visit the follwoing Web page at: http://odxg.org/expedition.html

VK4, AUSTRALIA. Csaba, HA3LN, will active as VK4ADF during the CQ WW WPX CW Contest (May 27-28th). QSL via his home callsign.

WH0, MARIANA ISLANDS. Operator JP1JFG and others will be active as WH0W from Northen Mariana during the CQ WW WPX CW Contest (May 27-28th) as a Multi-Single entry. QSL via JP1JFG, not KH0 address.

ZC4, UK SOVEREIGN BASE AREAS ON CYPRUS. Griff, G0OAB, is planning to be active as ZC4DG between May 27-31st. QSL via his home callsign.

ZF, CAYMAN ISLANDS. Terry/N6CW and John/K6AM have been active the past week as ZF2AM and ZF2BU, respectively. The two operators will end their activity with a Multi-Single entry in the CQ WW WPX CW Contest (May 27-28th) as ZF1A. QSL via W5ASP, direct, the W5 bureau or LoTW. QSL ZF2AM via K6AM, direct, W6 bureau or LoTW. QSL ZF2BU via N6CW, direct or the W6 bureau.

ZF, CAYMAN ISLANDS. Jim, W4JO, and his 13-year-old son Mike, K4MBO, will be active as ZF2JO and ZF2MO, respectively, between May 26th and June 2nd. QSL ZF2MO via K4MBO, and ZF2JO via W4YCH.

EMBARGOED FOR RELEASE: Saturday, May 20, 2006

CQ Announces Hall of Fame Inductees for 2006

(Dayton, Ohio - May 20, 2006) -- CQ Amateur Radio magazine today announced this year's inductees into the CQ Amateur Radio Hall of Fame and the CQ Contest Hall of Fame. There are 21 inductees into the Amateur Radio Hall of Fame and two new members each of the DX Hall of Fame and the Contest Hall of Fame.

CQ Amateur Radio Hall of Fame
The CQ Amateur Radio Hall of Fame honors individuals who: 1) Whether licensed hams or not, who have made significant contributions to amateur radio; and/or 2) As licensed amateurs, have made significant contributions either to amateur radio, to their professional careers or to some other aspect of life on our planet. This year's inductees are, in alphabetical order:

Bell, Art, W6OBB • Syndicated radio talk show host, regularly promotes ham radio in his broadcasts.

Burdine, Walt, W8ZCV ? Former CQ Novice editor (1955-57, 1962-66); ?elmered? thousands of new hams.

Cossiga, Francesco, I0FCG - former President of Italy.

Cushman, Les, W1BX ? Founder, Cushcraft Antennas.

Dorhoffer, Alan, K2EEK ? Editor, CQ, 1976-1999.

England, Tony, W0ORE ? Second ham to operate from space.

Ensor, Marshall, W9BSP ? Helped track down German ?Wolf Pack? submarines during WWII by refining radio direction-finding (RDF) techniques; taught code and theory to thousands of future hams via nightly ?radio by radio? course over the air, 1929-1939.

Evans, Clif, K6BX ? Inspired sub-hobby of certificate-chasing; founded Certificate Hunters? Club (CHC) and developed the USA Counties Award with CQ magazine.

Fessenden, Reginald, VP9F ? Father of radiotelephony; 2006 marks the centennial of the first wireless voice broadcasts.

Hulse, Russell A., ex-WB2LAV ? shared 1993 Nobel Prize in Physics with Joe Taylor, K1JT (inducted 2001), for discovery of binary pulsars.

Johnson, Edgar F., 9ALD ? Founder, E.F. Johnson Co., major manufacturer of ham equipment in 1950s and 60s.

Kaul, Alan, W6RCL ? Producer, NBC Nightly News; has covered many of the major news stories of the past 25 years; longtime contributor to amateur radio promotional videos.

Koerner, Wolfram ?Felix,? DL1CU ? Major player in rebirth of amateur radio in Germany after World War II; co-founder, DARC; first Editor & Publisher, DL-CQ magazine; later Editor & Publisher, independent QRV magazine.

Prasad, Bharathi, VU2RBI ? Organized and coordinated Andaman Islands DXpedition in 2004 that turned into massive emergency communications effort in the wake of the Indian Ocean tsunami.

Reeves, Hazard ?Buzz,? K2GL ? Founder, Reeves Soundcraft, one of the major manufacturers of magnetic recording tape for many years; President, Cinerama; developed method of affixing strip of magnetic oxide to movie film, making it possible to record pictures and sound simultaneously on one piece of film. (Best known in ham radio as a major contester, 1st inductee into CQ Contest Hall of Fame, 1986).

Rogers, Glynn ?Buck,? K4ABT ? Former CQ Packet Editor, helped popularize packet radio, packet networking and amateur radio digital communications.

Rutan, Dick, KB6LQS ? Aviation pioneer; completed first non-stop, non-refueled flight around the world aboard ?Voyager? in 1986.

Sando, Louisa B., W5RZJ • Longtime CQ YL Editor and proponent of women's involvement in amateur radio; also wife/widow of Clinton B. DeSoto, W1CBD (inducted 2001).

Spenceley, Dick, KV4AA • CQ DX Editor, 1952-57, provided first DX contact for thousands of hams from his station in the U.S. Virgin Islands.

Sterman, Terry, W9DIA • Founder, Amateur Electronic Supply.

Trossman, Arne, W2DTJ • Former CQ Editor, helped develop Cosmophone, early amateur SSB transceiver.

CQ DX Hall of Fame
There are two new inductees this year into the CQ DX Hall of Fame:

Ralph Fedor, K0IR, has been a driving force behind every recent major DXpedition to the Antarctic region, including VP8SSI, VK0IR, 3Y0PI and this year's 3Y0X.

Donald Greenbaum, N1DG (and previously WB2DND), is one of those "behind the scenes" people who help the DXing hobby in a variety of ways. As an executive of Commodore Computers in the 1980s, he helped bring computers into amateur radio. He also wrote one of the first popular logging programs, WB2DND Log Data Base, and has developed websites or served as webmaster for several major DXpeditions.

CQ Contest Hall of Fame
The CQ Contest Hall of Fame inducts two new members this year as well:

Tim Duffy, K3LR, regularly hosts many visiting operators at his contest "superstation" in western Pennsylvania. In addition, he was moderator of the Dayton Contesting Forum from 1980 through 1990, and has been moderator of the Dayton Antenna Forum from 1980 to the present. Tim is also the founder and host of the Dayton Contest Dinner, a member of the CQ Contest Committee and a regular competitor in the World Radio Team Championships (WRTC).

William Fisher, W4AN (SK), helped make the internet an integral part of ham radio, and of contesting in particular, as co-founder of both contesting.com - the premier contesting website - and e-ham.net, one of the major off-air gathering places for hams to exchange news and views on a variety of topics. Bill provided space at no charge for those sites, and many other ham-related websites, on his network of web servers. Bill also helped develop software for remotely controlling a ham station via the internet.

CQ DX and Contest Hall of Fame inductees were announced at the respective DX and Contest dinners in Dayton.

APRSPoint is the latest APRS implementation and it is being used in vehicle tracking, search and rescue, emergency communication and many other areas. It allows you to track persons or objects via rf or internet. It is constantly being updated with new features and improvements. We are offerring a special discount for this memorial day weekend. Please visit http://www.aprspoint.com for details and lots of helpful information about APRS. Thanks.

958. 6 meter band opening?

Newsgroup: rec.radio.amateur.dx
Date: 2006-05-31 04:45:53 UTC

I don't have any 6 meter equipment handy here, but I noticed out of
town low VHF TV reception. Namely Philly channels 3 and 6 up here in
Bergen County NJ (at the northeast corner of NJ). So there is likely a
6 meter band opening right now in the Northeast USA Tuesday night..

If you have a TV connected to an outdoor rooftop antenna, see if you get any DX out of town channels channels 2 thru 6. As we all know TV ch 2 is just above 6M. A DX ch2 or 3 can serve as a beacon of sorts for 6M band openings.

hi,

most of the time, no but that just makes it more of a challenge to get contacts.

if you want DX, you'll need horizontal polarized antenna for ssb/cw and vertical polarization for FM.

Sure, you can use vertical for ssb/cw BUT you loose 20db from polarization error.

Higher is better !

here is link for you

http://6mt.com/

good luck on 6 !

Six meters tends to be seasonal for sporadic E skip and June and July are big months. Listen in or check the packet clusters and the six meter beacons.

RE: Vertical vs Horizontal antennas. For line of sight communications, cross polarization attenuation is very apparent. Generally use vertical antennas for repeaters and horizontal for SSB and CW.

However if you are working skywave, during the height of the solar cycle, F2 skip will give tremendous distances and experts will advise that the polarization of the wave can be skewed many times, so the polarization of the antenna is not all that important. .But consensus is - 6M DXers prefer horizontal antennas. Since we are approaching the bottom of the solar cycle - forget about 6M F layer skip for another 5 or 6 years. But sporacic E skip is somewhat independant of the solar cycle

For sporadic E skip, there is some evidence that the wave tends to maintain its polarization for single hop.

But don't let that deter you from using a vertical antenna if that is all you can manage. You will work out to 1200 miles or so on single hop sporadic E and 2000 miles + on multi-hop.

From California, with a vertical antenna (10 feet above ground) and 100 Watts, I have worked 49 states including Hawaii and Alaska, several Caribbean stations and over 200 grid squares. No biggie, but it takes time and vigilance. The band can be open one day and totally dead the next day.

And six meter band privileges are open to all license classes except Novice.

That's too bad...

Part of why I like DXing is the connection between people a long
distance apart... it just doesn't seem the same if it's got to go all
the way over fiber too..

It's pretty cool technology though. I suppose it should count for
DXCC, especially if it lets more people get some of the rare ones.

I wonder what the status of doing something like the previous poster
suggested and dropping a remote station on Scarborough would be...
weatherproof shell, Iridium data link... tidal power generation....
stick a BiggIR vertical on top and some trailing wires down into the
water and it could easily QSY.... it'd be like having a resident
operator.

Not as cool as contacting some crazy guys and gals actually sitting in
the middle of nowhere on a little rock, I think.

The only issue with APRSPoint is that support and upgrades are sorely lacking. The Yahoo group he runs is censored so that any suggestions or criticisms of his product are not posted. He needs to really upgrade this program. It is one of the most expensive and also has the least amount of features. Nice start, but the author needs to really spend some time getting this program up to where all the other APRS programs are in functionality.

I could hear N4CC in Florida clearly here in Everett Washington (North of Seattle)but alas he could not hear me. He did work a local with a better antenna than I though.

I have just a dipole up that I load with a Tuner.

Scotty W7PSK.

The Ohio/Penn DX PacketCluster
DX Bulletin No. 761
BID: $OPDX.761
June 5, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K3BZ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8CX, K8YSE, 4Z4DX, DL1EK & The DX News Letter, F5NQL & UFT, F6AJA & Les Nouvelles DX, HB9CRV, I1JQJ/IK1ADH & 425 DX News, JA1BK, JA1ELY, JI6KVR & JA IOTA News, MDXC, ON4AW, PS7AB, SU1SK, TA3YJ, VA3RJ & ICPO, VK9NS and YT6A for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 28th/May, through Sunday, 4th/June there were 215 countries active. Countries available: 3A, 3B8, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5X, 5Z, 6W, 6Y, 7O, 7P, 7Q, 7X, 8P, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CM, CN, CP, CT, CT3, CU, CX, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J5, J6, J7, J8, JA, JD/o, JT, JW, JX, K, KG4, KH0, KH2, KH5, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TL, TN, TR, TT, TU, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VP2M, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

7Q, MALAWI. Look for Bill, KC4D, to be active as 7Q7WW this week. He is expected to be there June 5th and will leave the 23rd. He will be on missionary trip to Embangweni in the northern part of the country. Bill is expected to concentrate on the low bands and to operate mostly CW during his evening and morning hours. QSL via KC4D.

9N, NEPAL (Also XU). Because of the political situation in Nepal, Toshi, JA8BMK, had to cancelled his 9N DXpedition in late April. However, the situation has gotten better, and Toshi has decided to try again. Toshi, JA8BMK, will be staying at Katmandu, Nepal, for a holiday between June 11-18th. He hopes to be active as 9N7WW Activity will be mostly on 40-10 meters SSB. He will bring a 2 element beam for 40m. After his 9N7WW operation, Toshi will be active from Cambodia as XU7BMK between June 20-21st. QSL via JA8UWT (yl): Kimiko Saitoh, 4-16-2-22 Kamui, Asahikawa, 070-8014 JAPAN.

A7, QATAR. Operators Juma/A71EM, Ali/A71BX and possibly others will be active as A72OO6 (Alfa Seventy Two Oscar Oscar Six) to commemorate the 15th Asian Games 2006 to be held in Doha, Qatar. The special callsign will be activated between now and July 31st. Activity will be on all bands and modes. The special event station was heard this past weekend on 20/15 meters SSB and 17/10 meters CW. QSL via EA7FTR.

CU8, AZORES (Update/Correction). The Portugese DX Group (GPDX) is proud to announce another IOTA and Lighthouse Azores DXpedition. Activity will be from Flores Island (IOTA EU-089) during the IOTA Contest (July 29-30th) as CU8T and as a Multi-Single entry. QSL via CT1GFK (the Bureau is OK). Outside of the contest (July 29th-August 8th), the group will be active as CU8F from Farol do Albarnaz Lighthouse. Also, QSL via CT1GFK (the Bureau is OK). The team of operators are: CT1AGF, CT1EPV, CU2HJA, DJ2VO, DF6QV, DL3MK, F6HMJ, G3KHZ, HB9CRV/CT3FN, HB9FMU and VA2AM. Activity will be on 160-6 meters, CW, SSB, RTTY and PSK31. The following are reference numbers: WLOTA LH-0947, ARLHS (Ilha das Flores) AZO-016, DFP - FAZ 02, DIP AZ-008 (Portuguese Islands Award) and Grid Locator HM49JM. A beacon will be operated on 50.113 MHz with CU8F as callsign. More information can be found at: http://www.to-mk.com/azores/

DAYTON PHOTOS. Once again Tom, K8CX, has announced for DXers/Contesters to visit his famous Photo Web site and see the "Dayton 2006 Photo Gallery" at: http://hamgallery.com/dayton2006/
This year's gallery has 214 photos.

E5, NORTH/SOUTH COOK ISLANDS. It seems that the new prefix for the Cook Islands did not happen just yet. According to Bernie, W3UR, Editor of "The Daily DX": Jim Ditchburn, ZK1JD, confirms that no written notification was received from Cook authorities. He checked with the governing body and was "advised that no decision had been made on prefixes and that the changeover date was likely to be 1 July."

FO, FRENCH POLYNESIA. Alain, FO5RH, will be active again from Tatakoto in the Tuamotu Island (OC-066) group from June 6th to July 25th.

HH, HAITI (Update). Glauber, PS7EB, is now active as HH/PS7EB until November 25th. Activity will be on 80-10 meters, SSB, RTTY and CW (QRS), during the free hours of his work as a member of the Brazilian Army in the Peace Force of UN - MINUSTAH. He was heard on 20 meters SSB this past week after 1930z on various frequncies. QSL via the bureau or direct (w/SASE/SAE + 1 IRC or 1 USD) to: Glauber Fernandes, PO Box 251, 59010-970, Natal-RN, Brazil. More info and a picture is available at:

http://www.labre-rn.org.br

INTERESTING WEB PAGE TO VISIT. Willy, ON4AW, informs OPDX that at the beginning of this year 2006, he has been licenced for 52 years as a Radio Amateur. He succeeded in passing the exams in 1954. He has collected some interesting QSLs, photos of 4U1ITU and from ON4UB at the International Exhibition (1958) in Brussels. Please visit his Web page at:
http://blog.seniorennet.be/paintinghistory/archief.php?ID=40
If clicking on the Morse key (image) at the upper left of the page, you will go to a different link which will provide a lot of radio-amateur information (in English), photos of older radio-amateur receivers and transmitters, and hundreds of quite rare QSL cards.

IOTA NEWS.....
AF-019. Members of the Mediterraneo DX Club (MDXC), Gianni/IZ8CGS and Maurizio/IZ8GBH will be active as IG9Z from Lampedusa Island (MIA MI-126 and IIA AG-001), between June 26th and July 2nd. QSL via IZ8GBH: Maurizio Migliaccio, P.O.BOX 47, 80018 - MUGNANO DI NAPOLI, ITALY. For more info, visit the Web page at: http://www.mdxc.org/ig9z

AF-078. Didier, F6ELE, he will be active as 6W2/F6ELE from Carabane Island between June 9-15th (for 3-4 days). Activity will be on 40/20/15 meters. QSL via F6ELE: Didier Bas, 11 Rue des Petites Maisons, F-17230 St. Ouen D'Aunis, FRANCE.

AF-099. Said, SU1SK, will once again activate the rare IOTA White Rock (Norus) Island in the Matruh Region Group, in the Mediterranean Sea, between June 20th and July 1st. He will be using the special callsign SU8IOTA. White Rock Island was added as a qualifying island for the Matruh Region group in the IOTA Directory on August 30th, 2005. Said will use a Kenwood TS-440s with dipole antenna (Inverted Vee) and will be active on 20/17/15 meters SSB; maybe CW for the first time! He also states that camping on the White Rock Island is not easy and to look for him during the early mornings (at first light). He must go QRT and leave before sunset. More information, updated news and photos will be available at the following Web pages:
http://www.qrz.com/su8iota
http://www.qsl.net/su1sk/page2.htm
Said thanks everybody who contacted or tried to contact SU8IOTA during the DXpedition in 2005. QSL ONLY DIRECT to: Said Kamel, P.O. Box 190, New Ramsis Center, Cairo 11794 EGYPT.

AS-147. Satake/JJ8NNR and possibly others will be active as homecall/8 from Rishiri Island (JIIA AS-147-007), JA8 Hokkaido Coastal Island Group, July 15-16th. QSL to their home callsigns, direct or by the bureau.

EU-059. Gordon, G3USR, will be active as GM3USR/p from St. Kilda (IOSA OL02 and SCOTIA DI23), June 24th to July 6th. His activity will be limited since he is there visiting St. Kilda

as part of a National Trust for Scotland working party. He will operate only SSB on 40/20 meters. There is a possibility of some 6 meters. QSL via G3USR (QRZ.com).

EU-124. Twelve members of the Grantham ARC will be active as GW0GRC (or possibly GB0SK) from Skokholm Island, August 26-29th. Bands/modes of operations were not provided. QSLs will be sent out automatically, or you may QSL direct to G0RCI.

EU-175. Operators Manuel/CT1BWW, Juan/EA2RC and Joan/EA3GHZ will activate three islands from this island group during the month of July. Look for CU7X to be active from Faial Island, July 10-16th. Look for CU6X to be active from Pico Island (LH 1321), July 17-21st. Look for CU5X to be active from S. Jorge Island, July 21-25th. Activity will be on 160-6 meters CW, SSB and RTTY. They plan to have two stations on. QSL via EA3GHZ, direct or by the bureau.

NA-029. Pete, VE3IKV, will be active using the special callsign VF2X from Prince Edward Island (PE-001 for the Canadian Islands Award), July 1-4th. Activity will be on 40 meters CW and 6 meters CW/SSB. QSL via VE3IKV.

NA-038. Pete, VE3IKV, will be active using the special callsign VC2X from the Iles de la Madeleine, July 4-8th. Activity will be on 40 meters CW and 6 meters CW/SSB. QSL via VE3IKV.

NA-144. Operators Terry/W6WTG, Larry/KF6JOQ and Mark/KG6ZBL will be active as W6C from Santa Cruz Island, June 9-11th. Activity will be on 14.260, 50130 and 144.210 MHz. They will be using an Icom 706 and a Yeasu 847, and will be running off of deep cycle marine batteries. QSL via N2OWL: Sharon Godley, 2701 Fordham, Bakersfield, CA, 93305 USA. For more information, visit: http://www.w6wtg.com/

IS0, SARDINIA. Look for Gaetano, IZ8GCB, to be active as IS0/IZ8GCB between now and June 21st. Activity will be on 80/40/20/15 meters CW/SSB. QSL via his home callsign.

JW, SVALBARD. Juergen, DJ3KR, will be active as JW/DJ3KR between now June 18th. Activity will be CW only on the HF bands and 6 meters. He was spotted this past weekend on 30/20/17 meters. Activity was between 1400-1830z. QSL via his home callsign.

ONE STEP CLOSER (To Become a New One!). It was reported today in the newspaper that "Montenegro's parliament declared independence for the tiny Balkan republic Saturday, forming a new European state and dissolving what was left of the former Yugoslavia." It also mentioned that "The declaration says Montenegro's strategic national goal is integration into the European Union and NATO, and the new country will immediately apply for admission into the United Nations and other international organizations." This is good news for DXers. Once Montenegro becomes a UN member or is assigned a prefix block from the ITU, it will be added

to the "ARRL DXCC List". The official start date for DXCC purposes should be the date that Montenegro joins the UN or ITU. ADDED NOTE: Ranko, YT6A, announced late Saturday, June 3rd (edited), "As soon as we become new DXCC country, a large international team will activate a DXpedition as inaugural operation from Montenegro. More to come later..."

QSL INFO AND NEWS.....
QSL BV2B/BV50CRA via BV2KI: Bruce Yih, P.O. Box 84-609, Taipei, Taiwan. The special event stations were active to celebrate the 50th anniversary of the CRA from IOTA AS-020.

If you been wondering about were are your QSLs cards from Fran, EA7FTR, (who manages many stations) are, it was reported by Jerry, K3BZ, that QSL Manager Fran, EA7FTR, has been in the hospital recently, but is OK and may be home next week. It was also reported that his son David, EB7AEY/ EC7AGG, will be helping with the QSL duties until his father can resume normal activities.

Nilay, TA3YJ, informs OPDX that following QSL cards were sent out TA3YJ, TA3YJ/0, TA3YJ/3, TA3YJ/3 LH, TA3YJ/4, TA3YJ/4 LH, SV1/TA3YJ, LZ2/TA3YJ, TA3J, TA3J/0, TA3J/1, TA3J/3, TA3J/3 LH, TA3J/4, TA3J/4 LH, TA3J/60, HA/TA3J, OE/TA3J, OK/TA3J, SV1/TA3J, LZ1/TA3J, LZ2/TA3J, YM3BU, YM3ATA, YM3SV, YM75TA, YM21TA, YM3LZ/WPX2000, YM3LZ/WAE2000 and TC2K4J, to the QSL Bureaus of Armenia , Austria (R), Belarus, Bosnia&Herzegovina, Bulgaria, Colombia, Croatia (R), Czech Republic, Denmark, Estonia, Finland, France (R), Germany (R), Italy, (R - 2 Packet), Greece (R), Hungary, Iceland, Ireland, Israel, Japan, Kazakhstan, Kuwait, Kyrgyzstan, Lithuania, Moldova, Morocco, Norway, Oman, Poland (R), Portugal, Romania, Russia (R), Serbia&Montenegro (R), Slovakia, Slovenia, Spain (R), Tunisia, Turkey, Ukraine and United Kingdom, direct on June 3rd.
(R: Registered Mail)

SPECIAL EVENT. Look for special event station, TM7HAM, to be active until June 17th from Longlaville, France. Activity is to celebrate/promote the HamEuro Meeting to be held Sunday, June 11th. QSL via F6KWP. The HAMEURO Web page is: http://f6kwp.free.fr/hamimg2006.htm

SPECIAL EVENTS (Japan).
8J5TOSA - Special event station will be active between now and August 31st, to celebrate the Tosa (240,000-koku) Expo. Tosa is an old name of Kochi Prefecture. A koku is a unit for measuring rice that is about 180 liters, 150 kilograms or 5 bushels, which is enough to feed one person for one year. Activity will be on all bands and modes. QSL via the JARL Bureau.

8J8JTG - Special event station will be active between now and June 18th, to celebrate 2006 Joho Tsushin Gekkan (or Information Tele-communication Month). QSL via the JARL Bureau, or operator's instructions.

8N4OKI - Special event station will be active between now and July 31st to commemorate the opening of the new Oki Airport. Look for

activity on all bands, SSB, CW, FM and PSK31. QSL via the JARL Bureau.

SV5, DODECANESE. Dov, 4Z4DX, will be active as SV5/M0DOV and J45DOV from Rhodes Islands, July 15-20th. QSL via 4Z4DX.

SV5, DODECANESE. Ermanno, IK2WZD, is active as SV0XAN/5 from Lipsi Island (EU-001) until July 31st. Activity will be on all modes and bands. He was spotted on 40 meters (7053 kHz at 1555z) this past weekend. QSL via his home callsign.

T61, AGHANISTAN. Ross, EX1UN (4W6UN), who has been in Kyrgyzstan for the previous 2 years, is now in Kabul. He told Kan, JA1BK, that he was issued the first official licence of the Afghan Amateur Service, T61AA, and they will no longer be using the YA prefix. Ross is in Kabul for the Union Nations as a Project Coordinator (Customs Modernization and Trade Facilitation Project). He currenly has just set up a long wire to start operations and will hopefully be improving on antennas and a bit more power. Ross could not bring all of his equipment on deployment. However, he will bring back a FT-100 and/or IC-706 MkIIG when he goes home for a short trip in July.

VI9, NORFOLK ISLAND (A Note From VK9NS). Jim, VK9NS, reports: "As you know Kirsti and myself both applied and were issued two licences for the callsigns VI9NL and VI9NS to be used for the upcoming celebrations on Norfolk Island. HIDXA received a letter yesterday from National Licensing and Allocations Branch - basically saying in part 'it has been brought to our attention' that the ACMA does not usually allow more than one Special Event Licence to one organization for the same event. Which I suppose is a fair comment. We have relinquished the use of VI9NL basically as Kirsti will not be here for the complete month. HIDXA retains the use of VI9NS for the month of June 2005." PLEASE NOTE. June 2006 marks the 150th anniversary of the landing of the people of Pitcairn Island, the decendants of the Bounty Mutineers, on Norfolk Island (IOTA OC-005). Also, the VI9NI team continues to be active until June 21st. There has been plently of activity on the lower bands and the other bands.

VP9, BERMUDA. Jon, N0JK, will be active as VP9/N0JK from June 8-12th. He plans a serious entry in the 2006 ARRL June VHF QSO Party (June 10-12th). Look for him on 50, 144 and 432 MHz. Outside of the contest he will focus on working Europe. QSL via his home callsign (QRZ.com).

ZK1, SOUTH COOK ISLANDS. Look for Hector, EA3EKS, to be active this week as ZK1EKS from June 8-13th. Activity will be on 20/15/10 meters. Suggested frquencies are: 14275, 21275 and 28275 kHz. QSL via EA3EKS: Hector Guasch, P.O. BOX 855, 43080 Tarragona, SPAIN.

I have one of these receivers. The Front end has blown and I'm wondering if it is fixable.

971. Amateur Radio licensing change in Spain: please, read!

Newsgroup: rec.radio.amateur.dx
Date: 2006-06-09 22:50:35 UTC
From: eb5agv <eb5agv@ctv.es>

Hello!

On 10th July 2006 (local time; 9th July 22:00Z) a regulation change
related with Amateur Radio will be effective in Spain. Among other
things, it means that the three former license types (EA, EB and EC)
will be merged into a unique type with exactly same privileges.

So, please, if you hear an 'uncommon' EB or EC callsign in any amateur
radio band don't hesitate to answer.

73 JOSE - EB5AGV / EC5AAU

PS: I hope to work you on the 'new' (for me) bands :-)!

---
73 EB5AGV / EC5AAU - JOSE V. GAVILA
La Canyada - Valencia (SPAIN) - Loc: IM99SM

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL LETTER, K1XN & GoList, NC1L, K2FF, N2OO, K3BZ, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, 4Z4DX, CX3AN, DL1EK & The DX News Letter, E21EIC, F5NQL & UFT, EA7FTR, G3SXW, I1JQJ/IK1ADH & 425 DX News, JA1ELY, JI6KVR & JA IOTA News, LU9ESD, OH6NJ, TA3J, VA3RJ & ICPO and GM3WOJ/ZL1CT for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 4th/June, through Sunday, 11th/June there were 217 countries active. Countries available: 1S, 3A, 3B8, 3DA, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, CE, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J5, J6, JA, JD/o, JT, JW, JX, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T30, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

2006 WRTC (Attention All IARU Contest Participants - Lottery and Prizes). The World Radiosport Team Championship (WRTC) will be held in Brazil on July 8-9th as a part of the IARU HF Championship Contest. There will be 47 two-man WRTC teams from all around the world that will be on the air. The results of the WRTC 2006 Contest must be ready within 35 hours after the IARU Contest; therefore, they need as many IARU logs as possible and

as soon as possible to verify the logs of the WRTC2006 Competitors. Send all IARU logs direct at logs@wrtc2006.com or via iaruhf@iaru.org until they cut-off the reception of the IARU logs at the WRTC2006 Headquarters some time late Sunday/early Monday (UTC). Prizes will be available for participants of the IARU Contest who send their logs within 6 hours after the contest. For more details, please read the 2006 WRTC press release at: http://www.wrtc2006.com/release52.html

9M0, SPRATLY ISLANDS. By the time you read this, Tex, 9M2TO, will be finishing up his 9M0/9M2TO operation from Layang Layang Island, Spratly Islands (AS-051). His activity was expected to take place between 1200z, June 9th and 2200z, June 12th. Tex plans to get all the necessary documentations for this DXpedition. He was expected to be active on all bands, 80-6 meters, including the WARC bands and CW only. QSL via the JARL Bureau to JA0DMV or direct to: Tex Izumo, 2C-10-03 Mutiara Apt, Jalan Sungai Emas, 11100 Batu Ferringhi, Penang Is, Malaysia.

DXCC NEWS.....
Bill Moore, NC1L, ARRL DXCC Branch Manager, reports that the following operation is approved for DXCC credit:
T61AA - Afghanistan; Current operation effective May 23rd, 2006

"MONTENEGRO POISED TO BECOME NEWEST DXCC ENTITY" states this week's ARRL Letter. The Republic of Montenegro, which declared its independence on June 3rd, reportedly has now applied for United Nations membership. This is just one more move to pave the way for the tiny Balkan nation to join the ARRL DXCC list. "Once Montenegro is accepted into the UN or obtains a callsign prefix block, DXers will have a new DXCC entity," says ARRL Membership Services Manager Wayne Mills, N7NG. The ARRL Letter states, "The division of Serbia and Montenegro eliminates what remained of Yugoslavia. Serbia's parliament this week declared Serbia a sovereign nation as heir to the former Serbia-Montenegro union. Assuming that Serbia continues to hold its current seat in the UN, it will remain on the DXCC list as a pre-existing and continuing DXCC entity, Mills explained. A decision on whether to admit Montenegro into the UN must go before the UN Security Council and then to the UN General Assembly." The length of this process is at this time unknown.

E2/HS, THAILAND (WARC Bands - "Permission Imminent"). Tony Waltham, HS0ZDX, Editor of the Bangkok Post Database, reports that the long-awaited permission to operate on the WARC bands (30, 17 and 12 meter bands) is just around the corner, according to John (Narissara), HS1CHB, who told those present at the June 4th Radio Amateur Society of Thailand (RAST) meeting. The National Telecommunications Commission (NTC) has agreed to issue a temporary permission for those radio amateurs in Thailand who notify them of their desire to be active on these bands which also includes permission to operate on the 80 and 160 meter bands. This temporary permission will be valid until the end of the year. The RAST officials said that the yet-to-be-formed National Broadcasting Commission would need to be in place before any permanent spectrum changes could be made. To qualify for this privilege, which includes permission to operate

on the 80 and 160 meter bands, amateur radio operators should send a copy of their station licence, their equipment licence and their operator's licence to Maj Narissara Shaowanasai, HS1CHB, Post Office Box 1, Bangkok, 10900, Thailand. They should also submit logs of their operations on these bands to HS1CHB on a monthly basis as the NTC requires that these be submitted as well.
LAST MINUTE UPDATE (Provided by Champ E21EIC): John (Narissara), HS1CHB, who is the RAST liaison officer working on this permission, was informed that the NTC will approve the use of the WARC bands and the low bands during the forthcoming week. Details of the frequencies and modes for both the WARC and the low bands will be posted during the coming week on the RAST Web site at: http://www.qsl.net/rast

FW8, WALLIS AND FUTUNA ISLANDS. Toshi, JA8BMK, will be active as FW8AA from July 15-24th. Operations will be with a TS-480HX w/200w using a 5 band spider beam on CW/SSB only. QSL via JA8UWT.

GJ/MJ, JERSEY. Operator Rich, K2WR, will be active as GJ2A during the RSGB IOTA Contest (July 29-30) as a Single-Op/Mixed/24h entry. Look for operation by Rich 3 days before and 1 day after contest as MJ0AWR. He is taking E-mail for band/mode skeds. His E-mail address is: k2wr@njdxa.org QSL via K2WR (also direct from non-USA to GJ3DVC).

IOTA NEWS.....
AF-032. Dane, S57CQ, will be active as 5H1DN from Zanzibar Island between July 7-14th. Activity will include the IARU HF World Championship (July 8-9th). QSL via S57DX.

AS-008. Operators JL1OVB and 7L3ATQ will be active as homecall/1 from Mikura Island (JIIA AS-008-005), JA1 North Izu Group, June 17-19th. Activity will be on or near the usual IOTA frequencies. QSL via their home callsigns, direct or through the JARL Bureau.

EU-028. Stefano, IZ5FDE, will be active as IA5/IZ5FDE from Elba Island (Isola d'Elba) in the Tuscany Region IOTA Group (IIA LI-001, MIA MI-022, it will also count for WLOTA LH-0609), from August 13-25th. QSL via IZ5FDE, by the bureau or direct to: Stefano Tiburi, Box 65 - 50068 Rufina FI, Italy. More information can be found at: http://www.geocities.com/iz5fde

EU-064. Once again the members of the Provins ARC (F6KOP) and the Fontainebleau ARS (F8KTH) will be active as TM7C in the IOTA Contest (July 29-30th) as a Multi-Op/Mixed/24hr/Low-Power entry from Noirmoutier Island. Operators mentioned are: Bernard/F9IE, Serge/F6AML, Pascal/F5JSD, John/F5VHQ and Frank/F4AJQ. Look for activities by the operators several days before and after the contest on the WARC bands and VHF (6/2 meters). Modes will be CW, SSB and may be digitals. Team members will sign homecall/p. QSL via F4AJQ.

EU-010. The GM7V contest team (Ops. GM3WOJ, GM4YXI, GM0RLZ and MM0CCC) will be active from the Island of Benbecula (IOSA OH04, Scotia

HI08 and WAB NF75) during the RSGB IOTA Contest on July 29-30th. Please QSL via M0CMK (see QRZ.com).

EU-140. Operators OH6HJE, OH6MTG, OH6NJ and OH6UV will be active as OH6AW/5 from Kaunissaari, July 5-10th. Look for activity to be mostly CW and SSB, with some digital mode operations.

EU-189. The June 2006 IOTA DXpedition to Rockall Island has been cancelled due to the lack of financial support. See their Web page for details at: http://www.dxpedition.org/index.php

NA-055. Operators Eric/N8YC, Phil/KG8AP, Brian/K4BRI, Lynn/WD8JAW and possibly others plan to operate as K8SCH from Deer Isle (USI ME-014S, Hancock County, Maine) between September 25-29th. Activity will be on 80/40/20/15/10 meters SSB, depending on band conditions. QSL via K8SCH (QRZ.com).

NA-077. Guy, VE2QRA, will once again be active as VE2QRA/p from Anticosti Island (CISA QC-001, Grid Loc. FN89, it will also count for WLOTA LH-0042), between August 13-18th. Activity will be on 80-6 meters, mostly SSB. QSL direct (with SASE or SAE + sufficient postage) only to VE2QRZ: Guy Bouchard, 1108 Daphne, Quebec, G3K 1W6, Canada. PLEASE NOTE: 1 USD for Canada/USA and 2 USDs outside North America. More information is available via his Web at: http://pages.videotron.com/ve2qra/anticosti.html

NA-112. Kyle, W4KTF, will be active as W4KTF/p from Emerald Isle (Bogue Banks - USI NC-010S, Carteret County, North Carolina), now through June 17th. Activity will be on 75-2 meters, mainly SSB. Look for him on 20 meters around 1900-2100z and anywhere on 20-10 meters around 1300z. QSL via his home callsign.

NA-176. Dave, VA2DV, will activate two islands in this Quebec Province (St. Lawrence Gulf) Center Group between August 7-11th. He will operate holiday style as VA2DV/p from Gande Ile (CISA QC-019, for the Canadian Islands Award) and Ile Nue de Mingan (CISA New). Dave will be using a 100 watt rig and will probably operate mainly on 20/17 meters with some 80 meters activity at night. QSL via his home callsign, direct or by the bureau.

KH0/WH0, MARIANA ISLANDS. Operators Tony/JA6CNL and Asayuki/JA6AGA will operate as KH0N and WH0C respectively, from Saipan (OC-086), between June 16-20th. Activity will include the All-Asian DX CW Contest (June 17-18th). Outside the contest, operators will spend some time on the WARC bands and 160 meters CW (1820/1910 kHz). QSL via their home callsigns.

LIGHTHOUSE ACTIVITY. The International Lighthouse/Lightship Weekend (ILLW 2006) will be held on the third weekend of August (18-20th). The BAHIA BLANCA DX GROUP will once again be active from four different lighthouses simultaneously during the weekend event. Look for these lighthouses to be active on all bands and modes, including the digimodes (RTTY/PSK/SSTV):

RINCON Lighthouse (ARG-036) -- Special Prefix L36E; Lat. 39° 23' S Long. 62° 01' W; Grid Locator = FF80xo; Located in Verde Peninsula in Villarino County.

RECALADA Lighthouse (ARG-009) -- Lat. 39° 00° S Long. 61° 16° W.; Grid Locator = FF91ia; Located in Monte Hermoso. This is the tallest LH in South America and the sixth in the world. It was 100 years old last January. Operators will use their own callsigns plus "/D" because they are located in the Province of Buenos Aires.

BALIZA CHICA Lighthouse (ARG-083) -- Lat. 38° 53° S Long. 61° 58° W; Grid Locator = FF91ac; Located at 30 Km. from the Puerto Belgrano Naval Base. Operators will use their own callsigns plus "/D" because they are located in the Province of Buenos Aires.

HIPASAM Lighthouse (ARG-040) -- FIRST TIME ACTIVITY; Lat. 41° 43' S Long. 65° 02' W; Grid Locator = FE78lg; Located in Punta Colorada, 20 Km. east from Sierra Grande, Rio Negro Province. Operators will use their own callsigns plus "/V" because they are located in the Province of Rio Negro.

All contacts with the Recalada, Baliza Chica and Rincon Lighthouses will be valid for the "PROVINCE OF BUENOS AIRES LIGHTHOUSES AWARD" sponsored/ organized by Bahia Blanca DX Group: http://www.grupodxbb.com.ar
All QSLs by bureau or direct via LU7DSY: Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. If you send direct, only one envelope with all cards is OK: Up to 2 QSL = 1 IRC --- More than 2 Cards = 2 IRC. For more information, contact: lu9esd@yahoo.com

OH0, ALAND ISLAND. Ari/OH5DX and others will be active as OH0Z during the CQWW DX SSB Contest (October 28-29th) as a Multi-Multi entry. QSL via W0MM.

P2, PAPUA NEW GUINEA (IOTA Op). Johan, PA3EXX/VK4WWI, will be active as P29VV from the Witu Islands (OC-181), June 16-19th. Activity will be on 40/30/20/15/10 meters CW/SSB. If possible, Johan will operate from New Britain (OC-008), a few days before and after the expedition to OC-181. QSL info and additional information will be published on the Web page: http://home.quicknet.nl/mw/prive/willemsen/

QSL INFO AND NEWS.....
DON'T THROW AWAY THOSE OLD IRCS! Glenn, K2FF, points out to OPDX readers that the date on the current IRCs that reads "31 Dec 06 is an expiration date which simply means they can't be SOLD to customers AFTER that date. However, they can be redeemed forever. Hams simply need to be armed with the copy of the right pages from the International Mail Manual (IMM). Glenn states, "This is right out of the 2006 edition of the International Mail Manual..." Please note the last sentence in very first paragraph:
372 International Reply Coupons

372.1 Description

a. The sender of a letter may prepay a reply by purchasing reply coupons which are sold and exchangeable for postage stamps at post offices in member countries of the Universal Postal Union. The period of exchange of international reply coupons issued by the Universal Postal Union on or after January 1, 1975 is unlimited.

Glenn states, "I still redeem the little old IRCs at my post office here on the MS Gulf Coast!"

UPDATE. Last week we mentioned that Fran, EA7FTR,(who manages many stations) was to be in the hospital. Fran has informed OPDX that he is now out of the hospital and is doing fine. He wants to thank everyone (all the Hams) who were asking about him. He really appreciated it. It was also reported that Fran's son David, EB7AEY/EC7AGG, states that all direct QSL requests for the stations Fran manages have now been put in the mail.

3Y0X (XR9A and CE0Z) QSL STATUS. Bob, N2OO, has posted the following update on the QSL progress dated June 6th, 2006: "Today, we put another 50 pounds of cards in the mail which were all processed last week and at our Sunday, June 4th, SJDXA team QSL session. We also had sent about 10 pounds since our last report, so this brings us to 285 pounds of 3Y0X QSL mail sent to-date. We have now confirmed 27,477 QSO's, or 32% of ALL QSO's made by 3Y0X. I estimate that we have now answered approximately 65% of all requests received. About 95% of all 3Y0X contributor's cards have been answered. Some reasons why some contributors will not have their cards yet are:
* Received recently (approximately last 2 weeks)
* Made special request for separate cards per band, mode and/or per QSO (Too time-consuming right now) Card(s) set aside for "not in log" research
* Sent multiple calls in same envelope
* May have accidentally gotten mixed in with non-contributors (we ARE human)
* Postal service mangled the mail (a small handful came back damaged and "to address" unreadable)

This week, we will begin to "pre-process" the SWL and non-contributor cards. Another QSL session will be scheduled for June 11th and another mailing should be ready for June 12th.

CE0Z update: I understand that the cards have been ordered but they have not arrived here yet. The confirmation pre-process is complete, so once the cards arrive labels will be printed and cards should start to flow 'slowly' as they will be processed by one of our SJDXA QSL team members. When this starts, I will post a new update here.

XR9A, XR9A/8, XR9A/MM update: Log pre-processing was recently begun by another of our SJDXA team QSL members. We had been putting these off in order to better concentrate on the 3Y0X cards. We do have the XR9

cards from the printer so, once the pre-processing is complete, and we figure out how to process the /mm cards properly, we will start to get these out as well. When this starts, I will post a new update here.

PLEASE read the 'QSL PROCESS' below if you haven't done so already. It should answer any other questions you might have regarding our operation. When ALL QSLing is 'current', I will make an announcement on this web site, and there will be a press release made as well. At THAT time, I would welcome ANY and ALL inquiries and pledge to help resolve any lingering QSL issues. PLEASE DO NOT email N2OO at this time! Emails at this time will only slow the process down....."
de N2OO and the SJDXA QSL team!

SPECIAL EVENT. Members of the Michigan DX Association (MDXA) and the Amateur Radio Group Of Youth In Lowell (ARGYL) will activate special event station N8S on the USS Silversides Submarine in honor of all who served in WWII submarine radio rooms. Look for them to be on air from 1600z, July 16th to 1600z, July 17th. Activity will be on all HF and VHF bands, except the WARC bands. They plan to have one station on top side of the submarine and another station below deck. QSL via N8S (QRZ.com). For more information and frequencies, visit the following Web page at: http://mdxa1.org/silversidesspecial.html

SPECIAL EVENT. Look for special event station 8J3SEA to be active between July 15th and September 15th to commemorate the 34th SEANET (South East of Asia Amateur Radio Network) Convention (2006) in Osaka. Activity will be on all HF bands and modes. QSL via the JARL bureau.

SPECIAL EVENT (2006 World Cup).....
DL5DCL/06 - Dirk, DL5DCL, will be active during the FIFA Soccer World Cup 2006 in Germany, between now and July 9th. All QSOs will be confirmed with a special QSL Card. Dirk plans to be very active on the HF bands CW only and mainly on the WARC bands (30/17/12m). An online log will be available during the activity. For more information, visit the Web page at: http://dl5dcl.de.vu

DR06SOCCER - This special callsign will only be aired during the 2006 FIFA Soccer World Cup (June 9th - July 9th)being held in Germany. This callsign will be activated by the members of the DARC District Group A07 (Karlsruhe). A special QSL card will be sent out to confirm the contacts.

SV5, DODECANESE (Update). Dov, 4Z4DX, will be active as SV5/M0DOV and J45DOV from Rhodes Islands (EU-001, MIA MGD-028, WLOTA LH-0045), July 15-20th. Activity will be on all bands and modes; also an entry in the IOTA Contest as SX5P. QSL via 4Z4DX.

SV9, CRETE. Alain, ON6MG, will be active as SV9/ON6MG/p between now and June 23rd. Look for him on 14059 and 18079 kHz (+/- QRM), using only 5 watts and dipole antennas. QSL via his home callsign, direct or by the bureau.

SV9, CRETE. World traveler Bert, CX3AN, informs OPDX that he will be operating from Crete as SV9/CX3AN from July 6-10th. He will be running only 100 watts into a vertical antenna. QSL via his home callsign. Bert will be joining Theodooros, SV9/SV1EJD, and Fotis, SV9/SV1CIG, on the island. Bert states, "Operation was possible thanks to the kindly assistance of Theo who represents the warm welcome behaviour of the Greek people."

T6, AFGHANISTAN. Mika, OH6MKL, is now active as T66T through July. Reports indicate that he will be on 160-10 meters CW/SSB. However, he was heard this past week mainly on 30/20 meters CW between 1400-1900z. QSL via his home callsign.

VP5, TURKS AND CAICOS ISLANDS. Tom, K4ZGB, will be active as VP5/K4ZGB from Providenciales (NA-002), between July 25th and August 1st. Look for activity on all bands, CW and SSB. Tom also plans to participate in the RSGB IOTA Contest (July 29-30th). QSL via his home callsign.

YM3, TURKEY. Camille, LX1CC, will be on holiday from Pamucak-Selcuk-Izmir and plans to be active as YM3CC, between now June 28th. Activity will be on all bands. YM3CC was heard this past weekend on 40 meters SSB. QSL via Camille's home callsign, by the bureau or direct. No eQSL. SWL QSL cards OK.

Well I answered my own question! Turns out there is a lightning protection fuse that had blown. Bypassing it brought the receiver back to life!

I will probably sell it now, if I can.

975. any QSL from YV0LIX ?

Newsgroup: rec.radio.amateur.dx
Date: 2006-06-13 12:48:01 UTC

Does anyone received the QSL from YV0LIX ?
I am in the log and send it direct but no QSL yet.

--
Met vriendelijke groeten,

Hans Pluijgers

The Ohio/Penn DX PacketCluster
DX Bulletin No. 763
BID: $OPDX.763
June 19, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL W1AW Bulletins, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, WW5L, AC7DX, N7NG, K8YSE, WB8YJF, W0YG, 9A2JK, DL1EK & The DX News Letter, F5NQL & UFT, EA7FTR, G3SWH, HR2DMR, I1JQJ/ IK1ADH & 425 DX News, I2YSB, IK0DWN, JI6KVR & JA IOTA News, OH2BH, ON4CAS, OQ0A, SV1EJD, UA4WHX, VA3RJ & ICPO, YT6A and YV5AJ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 11th-June, through Sunday, 18th-June there were 204 countries active. Countries available: 1S, 3A, 3B8, 3D2, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, ER, ES, ET, EU, EX, EY, F, FG, FK, FM, FO, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J6, J8, JA, JD/o, JT, JW, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PY, PZ, S0, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T30, T7, T8, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V4, V5, V7, VE, VK, VK9N, VP2M, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZD7, ZD9, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5B, CYPRUS. Jim, WB2REM, will be active here as "*/*5B/WB2REM" starting July 7th until July 13th. Activity will be on 40-6 meters CW/SSB. QSL via his home callsign or by the bureau. Please include a SASE or SAE and sufficient return postage for your QSL card.

8Q, MALDIVES. Vangelis, SV2BFN, will be active as 8Q7/SV2BFN from June 21st to July 4th. This will be a holiday style operation, but he plans to be active on 40-10 meters SSB and RTTY, with some CW. QSL via his home callsign.

9A06, CROATIA (Special Event). Look for special event station 9A06P (Nine Alpha ZERO SIX Papa) to be active now through December 31st. Operations will be on all bands and modes. Activity is to celebrate the city of Djurdjevac. The full story will be on a special QSL card. All QSOs will be confirmed automatically via the bureau.

C9, MOZAMBIQUE (Update). A group of stateside operators will activate C91HQ as the main contest station and multiplier from Mozambique during the IARU (International Amateur Radio Union) DX Contest, July 8-9th. The C91HQ QSLs will be handled by K5LBU, Charles Frost of Missouri City, TX. The IARU Contest operation will be just one aspect of a five member team operation from June 27th until July 13th at Bilene, Mozambique. Operators include: Charles Frost/K5LBU (C91CF), Tom Anderson/WW5L (C91TL), Dr. Dave Gomberg/NE5EE (C91EE), Art Burke/N4PJ (C91JR) and Tom Kramer/NQ7R (C91TK). Each operator will handle their own QSLing, with Frost also handling QSLs for C91HQ. Daniel Hubbard, ZS6JR, is the on-scene coordinator. Webmaster is Steve Smothers, W9DX, of Cypress TX. "We will be on all bands and all modes before the contest," said Frost, who is heading up the operation. RTTY and PSK operations will also be on the air at various times. Frost, a former vice-president of the Texas DX Society, and Anderson, who is vice-president of the Lone Star DX Association, will be the main SSB operators, while Burke, Kramer, and Gomberg will be concentrating on CW. All will operate RTTY and PSK at different times. ICOM has donated two IC-7000 HF radios, while Tennadyne has donated two T8 log periodics. "We have already tested the rigs and the antennas and worked many California W6's from South Africa with excellent copy," Frost said. Other equipment includes: 4-40 meter sloper antennas, a 160/80/30m 72 foot vertical, an Icom 756 with IC-2KL amp, a Yaesu FT-1000MP with Tokyo High-Power 1 KW amp, and an Icom 746 Pro. See the DXpedition web page for additional information at: http://www.tdxs.net/C9.html
In addition to the DXpedition, several team members will be visiting the Escola Secundaria Maristas school in Bilene and presenting the school with a donation of badly needed school supplies. "A DXpedition is not always about DXing and ham radio," Anderson said, adding "the worldwide amateur radio fraternity has a duty to the local community both in times of disaster and when needs that we consider normal in developed nations, are critically needed in third world nations. We consider ourselves fortuneate to be able to help the school." Anderson is also an active Boy Scout leader and Eagle Scout advisor near Fort Worth Texas. His former ham DX calls include: 7P8TA, V31EF, and G0/WW5L, plus a guest operator at KH6BB--the Battleship Missouri permanently berthed in Honolulu, HI (KH6). He also was a staff member, volunteer examiner, merit badge counselor, and operator at K2BSA, the National Boy Scout Jamboree station in 1997. The idea to provide the school supplies was developed by Kramer, NQ7R, a school science teacher, who worked out the logistics with the American Consulate in Maputo, Mozambique and the U.S. Peace Corps. Besides basic school supplies, Kramer has arranged with team members and others to help supply the school with books in basic

English, "which are in very short supply there. Each team member will be bringing books and whatever they can to help these children's education," Kramer said. Also each team member is an accomplished DXer with all having more than 200 countries and most are members of one or more DXCC honor rolls. Frost himself holds or has operated from 16 different DX countries including Kenya, Sudan, Cameroon, Peru, Jamaica, Saudi Arabia, plus several more. Currently on-line logs are not planned, but the team hopes to have high speed internet. Their QTH in Bilene will be the Sao Martinho resort, which has excellent propagation characteristics because of its location on the Indian Ocean. "The beach is located right outside the shack," said Frost. "Please check the DXpedition's Web site often for any updates as Steve will be in daily contact with us for new information," Frost said.

CN, MOROCCO. Rich, W7ZR, will be active as CN2ZR during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (20m) entry. QSL via W7ZR. He states, "I answer 100% of SASE QSL cards. I support ARRL Logbook Of The World. I answer 0% of bureau or eqsl cards."

DU,PHILIPPINES (IOTA Ops). Operators Chris/VK3FY and Nik/VK3FNIK will be active as VK3FY/DU8 from several Philippine Islands between June 20th and July 5th. Their current plans are to activate the following islands: Bayangan Island (OC-235), Mindanao Island (OC-130), Cebu Island (OC-129), Negros (OC-129), Luzon (OC-042) and Mindanao's Coastal Islands (OC-235). No schedule was provided. Activity will be on all bands, CW and SSB. QSL via VK3FY.

DXCC NEWS (DXCC Rule Change). A press from Wayne Mills, N7NG, announces the following (dated June 14th): Upon request of the Programs and Services Committee (PSC), the DXAC has studied the impact of a change to the DXCC Rules. The DXAC, the Awards Committee and the PSC have concurred in this rule change, which will become effective June 15, 2006 at 0001Z. New text replaces the previously removed DXCC Rule, Section II, 1. Political Entities, Paragraph c). The new text shall read:

c) The Entity contains a permanent population, is administered by a local government, and is located at least 800 km from its parent. To satisfy the "permanent population" and "administered by a local government" criteria of this sub-section, an Entity must be listed on either (a) the U.S. Department of State's list of "Dependencies and Areas of Special Sovereignty" as having a local "Administrative Center," or (b) the United Nations list of "Non-Self-Governing Territories."

Rule 1c) is intended to recognize entities that are sufficiently separate from their parent for DXCC purposes but do not qualify under Rule 1a) or 1b). The new rule will cause a change to Point 1 status for certain entities. This in turn will reduce the mileage for a first separation for these entities from 800 km to 350 km.

The lists referenced in the text of the rule can be viewed at the following Web sites: the DOS list of Dependencies and Areas of Special Sovereignty at http://www.state.gov/s/inr/rls/10543.htm, and the U.N. list of Non-Self-Governing Territories at

http://www.un.org/depts/dpi/decolonization/trust3.htm
QSOs with any new entity resulting from this rule change will count for credit for the new entity only if the QSOs are made on or after the Start Date for the entity. In no case will QSOs made prior to the date of this notice be considered for credit for any new entity created under this rule. Applications for DXCC award credits resulting from this change will be accepted on or after October 1, 2006.

FIELD DAY NEWS (Next Weekend!).....
KC4AAA Amundsen-Scott Station South Pole Antarctica To Participate in 2006 Field Day: Wayne, N7NG, reports: "Robert Reynolds, N0QFQ, the Amundsen-Scott South Pole Station Antarctica on-site Satellite Communications Technician will be leading a major 2006 Field Day activity for KC4AAA. Operations will take place 1800z, 24th June through 2100z, 25th June. Experience shows that best opportunity for North and South American stations contacts appears around 2300z on the eastern seaboard and moves westward with time until the window seems to close around 0400z. There is much less certainty for other station contact times around the world. Primary operating frequency will be 14.243 MHz +/- a few hundred kHz depending on band occupancy. Other bands will be monitored for openings and may be exploited, however, 20m SSB operations will be the primary operating mode. South Pole will be operating as a "home" station with supplied power (Class 1D). Robert will have a team of up to 10 operators manning the station, most of whom he's teaching in a Ham radio licensing class on station. The team will be transmitting 1 kW and primarily be using a pair of Log-periodic antennas aimed toward the US. Given South Pole's location right under the auroral oval, radiowave propagation can make South Pole intercontinental HF radio communications a challenge, so listen carefully! Plans call for implementing a Logbook of The World (LoTW) for QSO verifications. QSL cards will come later in the year."
For more information, contact Nick Powell, NH6ON at: nick.powell@usap.gov

ISS WILL POSSIBLY BE ACTIVE DURING FIELD DAY. The W1AW Space Bulletin (ARLS004, dated June 16th) states that NASA ISS Ham Radio Project Engineer Kenneth Ransom, N5VHO, has released a list of International Space Station Field Day pass times for North and South America. See the following Web page for pass times and any updates at:
http://www.arrl.org/news/stories/2006/06/15/1/
The Amateur Radio on the International Space Station (ARISS) program has announced that the Phase 2 ham station aboard the ISS will be on the air in crossband repeater mode over Field Day weekend, Saturday and Sunday, June 24-25th. The chances of actually talking to one of the crew members appear to be minimal, however. "Keep in mind that these are not scheduled times for the crew to be active," Ransom points out. He says crew members Jeff Williams, KD5TVQ, and Pavel Vinogradov, RV3BS, may work some stations personally, but they're already booked pretty heavily during FD weekend. "They will try to participate as time permits, but the pass times for North America are not favorable," Ransom noted. The crew should be on its normal sleep schedule of 2130-0600 UTC during Field Day weekend. When they're awake, however, Williams and Vinogradov will have their hands full preparing for the arrival of the Progress 22 supply vehicle on

Monday, June 26th, when the crew will deactivate the crossband repeater. The crossband repeater uplink is 437.800 MHz. The downlink is 145.800 MHz. Ransom says the crossband repeater should be active after 1900 UTC on Thursday, June 22 to give stations time to practice working through it and to learn how best to deal with Doppler shift on the uplink, which can be considerable. The crossband repeater will be available only to low-power (QRP) stations following AMSAT criteria, Ransom said. A QRP station may run no more than 10 W to a vertical or handheld antenna. U.S. pass times are not especially ideal for contacts with the crew members. The only one on Saturday, June 24 (UTC) - over Mexico and the Eastern US - falls during the crew's sleep period. Passes on Sunday, June 24 - from 0046 to 0105 UTC and from 0708 to 0728 UTC over the Central US - may offer a better opportunity. Stations in the U.S. Southwest might look for crew activity on Sunday from 0844 to 0900 UTC, while those in Hawaii should check Sunday from 1152 to 1200 UTC and again from 1327 to 1335 UTC. If Williams or Vinogradov do find time to get on the air, Ransom says, they also will use the crossband repeater mode. Williams will give a report of "NA1SS, 1 Alpha ISS," while Vinogradov will give a report of "RS0ISS, 1 Alpha ISS." Contacts through the ISS crossband repeater count as a satellite contact for Field Day bonus points, but contacts with the crew do not count for Field Day bonus points. AMSAT is making its ECHO (AO-51) satellite available for Field Day, Ransom notes. One of AO-51's FM transponders (145.880 MHz up/435.150 MHz down, no CTCSS tone needed) will be QRP only during the Field Day period. Bob Bruninga, WB4APR, has indicated that PCSat2--which is mounted on the outside of the ISS--will be in packet mode and operating on 145.825 MHz simplex during Field Day weekend.

FP, ST. PIERRE & MIQUELON. YL Peg, KB9LIE, will be active as FP/KB9LIE from Miquelon Island (NA-032, DIFO FP-002, WLOTA LH-1417), July 28th through August 6th. Activity will be 80-10 meters, depending on conditions. QSL via her home callsign, direct preferred (SASE, SAE + sufficient postage) or by the bureau.

IOTA NEWS.....
AF-004. RSGB IOTA Webmaster Steve, G0UIH, will be active as EA8/G0UIH/P from the Isla de Fuerteventura (DIE S-006, WLOTA LH-0883), Canary Islands, June 17th to July 1st. Activity will be mainly on 20/17/15 meters, SSB only, with an Icom 706mk2g with 100w and homebrew dipoles. This will be a holiday style operation, so operating times will vary according to other activities. Suggested frequencies are: 14260, 21260 and 18145 kHz (+/-QRM). QSL is either direct or via the bureau.

EU-028. Walter, IN3XUG, will be active as IA5/IN3XUG from Capraia Island (IIA LI-020), between now and June 24th. Activity will be on the HF bands, SSB only. QSL via his home callsign (by the bureau is preferred).

EU-174. A group of Greek operators will be active as J48WT from Samothraki Island (MIA MG-100), June 22-27th. Operators mentioned are: SV2BRT, SV2CLL, SV2EWS, SV2FPU, SV2GNQ, SV2HNZ, SV2HPP and

SV2HPY. QSL via SV2HPP, direct or by the bureau.

NA-067. Jon, WB8YJF, will be active again this year from Ocracoke Island (USI-NC001S) from July 23-30th. Activity will be on 80-10 meters, CW, RTTY, and some SSB. He will be a Single-Op entry in the IOTA Contest (July 29-30th) as well. Please QSL direct for a FAST QSL; Bureau takes a lot longer. WB8YJF's address is: Jon Severt, 5586 Babbitt Rd., New Albany, OH 43054.

NA-160. Members of the Radio Club de Honduras will activate HQ3C from Chachahuate Island, Cochinos Cays, from June 23-25th. The team will consist of Javier/HR2J, Lane/KC4CD, Antonio/HR2AHC, Pedro/ HR2PAC Henry/HR2H, Daniel/HR2DMR and Carlos/HR2CG. Activity will be on 160-10 meters SSB, CW and RTTY if conditions allow it. The QSL Manager will be HR2RCH. QSL via the bureau or direct to: DXpedition Cochinos Cays - Chachahuate Island, PO Box 273, San Pedro Sula, Honduras (w/SAE and IRC). More information is available at: http://www.qsl.net/hr2rch/id28.htm

J3, GRENADA. Harry/AC8G and possibly others (TBA) will be active as J3A during the CQWW DX SSB Contest (October 28-29th) as a Multi/Multi entry. QSL via WA1S. Operating site is the EOC and adjacent Grenada Club House. Before and after the contest, operators will be using their individual callsigns on many bands and modes.

LX, LUXEMBOURG. Operators Ivo/OQ0A, Guido/OP7A, Peter/OO7A, Jan/ON6RJ and Rob/OR9Q will be active as LX/homecall from the castle of Wiltz in Luxembourg, between September 29th and October 1st. Activity will be on 80/40/20/15/10 meters on CW/SSB/RTTY. QSL via the operator's home callsign, by the Bureau or QRZ.com address.

MONTENEGRO NEWS (International Festival/DXpedition 2006). Ranko, YT6A, Team Leader, reports: "Following a national referendum on May 21, 2006, the Republic of Montenegro declared its independence on June 3, 2006. Montenegro's independence is now recognized by a growing number of countries. The very first amateur radio activity from this new DXCC entity will be managed by an International DXpedition Team, and is planned to take part very quickly after approval of the DXCC status." Crucial for DXCC credit is either acceptance of Montenegro by the UN into its membership or allocation of a callsign prefix block by the ITU. They expected this to take place during the summer of 2006. "Once Montenegro is accepted into the UN or obtains a callsign prefix block, DXers will have a new DXCC entity," says ARRL Membership Services Manager Wayne Mills, N7NG. The division of Serbia and Montenegro eliminates what remained of Yugoslavia. Serbia's parliament this week declared Serbia a sovereign nation as heir to the former Serbia-Montenegro union. Assuming that Serbia continues to hold its current seat in the UN, it will remain on the DXCC list as a pre-existing and continuing DXCC entity, Mills explained. Some of the activities that will be associated with The International DX Festival Montenegro 2006 will be a record breaking DXpedition targeting for 200,000 QSOs. The expedition will be held from three different locations using only one callsign (for the very first time) from the newly acquired ITU prefix allocation to

Montenegro. Also mentioned, activity will be on all bands and modes, simultaneously during 2-3 weeks of continual activity from several setups located at the Adriatic Coast of Mediterranean Montenegro. Operators mentioned are: Bob Grimmick/N6OX, Hans Blondeel Timmerman/PB2T, Martti Laine/OH2BH (Radio Operations Leader, Coach), David Sumner/K1ZZ, Linda Sumner/KA1ZD, Wayne Mills/N7NG, Carsten Esch/DL6LAU, Vladan Kecman/YT3T and Ranko Boca/YT6A (DXpedition Leader). Organizers are: SKY Contest Club and Radio klub BOKA. Co-Organizers and Local Supportive Comittee: Amateur-Radio Union of Montenegro, Radio klub BAR - YU6GAA, Radio klub Tivat - YU6FPQ and Radio klub Bjelo Polje - YU6GBP. More information about this event can be found on:
http://www.yu6scg.cg.yu/international-dx-festival-montenegro-2006/

QSL INFO AND NEWS.....
The Deutscher Amateur-Radio-Club (DARC) announced that the German's "Bundesnetzagentur" (FCC equivalent) has released an online German callbook. The URL address is:
http://ans.bundesnetzagentur.de/Amateurfunk/Rufzeichen.aspx

QSL Manager Silvano, I2YSB, (Manager of 5U7B, TX4PG, ZK3SB, 5W0SB, 6O0CW, 6O0N and 10 other callsigns from Niger), informs OPDX that due to the recent postage rate increase in Italy, 1 USD or 1 European IRC does not cover mail expenses to send a direct QSL outside Europe anymore. He requests that if you should want to receive a direct QSL outside Europe, please include 1 IRC + 1 USD or 2 USDs or 2 IRCs. Direct requests which do not include the mail coverage cost will be sent via the bureau.

II0ESA QSL STATUS. Marco, IK0DWN, informs OPDX that all paper logs for the 2005 special operations from the European Space Agency have now been imported electronically and all bureau QSLs have gone out. The electronic log is now available to users of the "Logbook Of The World" (LoTW) at:
http://www.arrl.org/lotw
Please address any queries to: ik0dwn@arrl.net

QSL Manager Phil Whitchurch, G3SWH, reports that he has recently acquired a copy of the log for the 2002 and 2004 operations of J6/G3XAQ. Phil states, "QSL cards are available either direct from my QRZ.com address, via E-mail for a reply via the bureau or via the bureau itself. If you choose either of the latter two routes, please remember that there may be a considerable delay in receiving your cards, as the bureau process is very slow and, due to the large volume of bureau cards that I handle, I only tend to send outgoing cards to the RSGB once per year. I hope to be able to upload the log to LoTW at some stage in the future."

NEW QSL MANAGER. Ron, AC7DX, informs that he will now handle QSL cards for T93X and T94TT.

UA4WHX QSL STATUS. World Traveler Vladimir, UA4WHX, now in Pretoria, R.S.A., informed OPDX this past weekend that he has been receiving questions about his QSL cards for his previous African operations. He tells OPDX that "ALL REQUESTS WILL BE ANSWERED AND ARE BEING CHECKED AGAINST THE LOGS NOW. ONCE THE TRIP IS OVER, WE WILL START SENDING THE

ANSWERS FOR ALL CALLSIGNS TOGETHER. I REALIZE IT IS NOT EASY TO WAIT THAT LONG BUT, THEN, IS THAT ANY EASIER BEING HERE FOR A COUPLE OF YEARS? DOING ALL THAT? WILL DO MY BEST TO GET THEM ALL ANSWERED AS SOON AS POSSIBLE."

QSL OH0AM via YV5AMH. Activity was during this past week by Reinaldo, YV5AMH, of Aves Island fame. He recently visited his old diplomatic outpost in Finland and decided to sail out to Aland Islands for the weekend. He was accompanied and assisted by Captain Jaakko/OH1TX and crew members Timo/OH1NX, Hannu/OH1XX and Martti/OH2BH .

SV9, CRETE (Update). Last week we mentioned that World traveler Bert, CX3AN, would be operating from Crete as SV9/CX3AN from July 6-10th, and would be joined by Theodooros, SV9/SV1EJD, and Fotis, SV9/SV1CIG, on the island. Theodoros, SV1EJD, contacted OPDX and informed us that he will be on Crete from July 6-20th and he plans to operate on SSB and possibly RTTY on 80-10 meters. Look for more info to appear on the following Web page at: http://www.sv1ejd.gr/crete.htm

V2, ANTIGUA. Nobby, G0VJG, will be active as V25V from June 23rd through July 6th. Activity will be on all HF bands, mainly SSB, but he will also try to work Europe on 6 meters and some digital modes. QSL via G4DFI, direct or by the bureau.

VK9C, COCOS-KEELING ISLANDS (Update). Charlie, W0YG, informs OPDX that he is indeed going back to VK9C in October. Barry/N0KV and Charlie/W0YG will be going to the island on October 30th, for a three week stay. He hopes they will have some quality time on the lower bands without QRM. He also mentioned that Bernd, VK2IA, is going out to VK9C on October 26th to set up for the CQWW SSB Contest (November 25-26th) as VK9AA (See OPDX.756). Charlie states, "He is going to return to the mainland on October 30th, on the same flight that we arrive. Bernd will leave his antennas set up for us, as well as his station will be all set to go." Barry and Charlie will operate right up until November 20th when they leave and Bernd again arrives, this time for the CQWW CW Contest. They will leave the antennas all set up for him so he can hit the ground running. Charlie states that their callsign has yet to be confirmed for this activity, but it will be forthcoming. All QSLs for Charlie's VK9C operations go direct, no bureau cards, to W0YG.

YV70/YW9, VENEZUELA. The Radio Club Venezolano (YV5AJ) informs OPDX that they will be active from the Apure State using the callsign YW9AJ, from June 29th through July 5th. Activity will include the "Venezuela's Independence Day Contest" (July 1-2nd), with operations on 160-6 meters on all modes. Also, look for satellite activity using the special callsign YV5SAT/9 (thanks to AMSAT-YV). The GRID will be FJ67hm. QSL via YV5AJ (QRZ.com address) or by the bureau. Satellite QSOs go via YV5SAT (QRZ.com address) or by the bureau. ADDED NOTE: The Radio Club Venezolano (RCV) also mentioned that they will use the special YV70IARU callsign during the upcoming IARU Contest as a HQ station signing RCV. The callsign celebrates the 70th anniversary of RCV's membership in the IARU. Operations will take place from various locations. QSL via YV5AJ (QRZ.com address)

or by the bureau.

Worked a VE2 in a badly-needed grid on 6 meters last night.

I have a book of 85-cent stamps purchased at the Iron Bridge, Ont. post office last September. At the time they were adequate to send a letter to the U.S..

Is that still the case, or has there been a postage increase since then?

The current rate is $0.89 for 0-30 grams, see:
<http://www.canadapost.ca/personal/tools/pg/manual/CPCPrices-e.asp#i22>.

Dear Mr President:

The FCC has been dumbing down ham radio for several years now. This has hurt the integrity of the service and is bad for America. They are planning to dumb it down again really soon now and their plan will make ham radio like CB and it will be bad for America. We already have one CB service on HF, we don't need two. Please pressure the FCC to endorse the following items for the good of the service and America. I wish you could run again for a third term, I would vote for you. I'm glad Al Gore wasn't able to steal the election, and John Kerry would have been a disaster, he'd be kissing terrorist butts and brown nosing them. Thanks for the fine job you're doing protecting and leading America.

Signed
(Your name & callsign)

No more automatic renewals. Individuals must retest and pass all elements required for their license class.

The passing score for written exams needs to be raised to 85%.

Code elements should be 13 wpm for General, and 20 wpm for Extra.

Make the no-code license one year non-renewable.

I'm sure this very erudite letter, full of specific facts and the
results of many studies to prove it's point will immediately cause
the President to put aside all petty concerns (like the Middle East,
energy problems, changes in Medicare, investigations of members
of his party and staff, Iran's nuclear program, North Korea's ICBM
test, etc.) and order the FCC to get rid of all no code Hams.

And please, President Bush, don't allow the FCC to issue an
amateur radio license to illiterates.

Email anyway, it can't hurt. The integrity of the service is at stake.

When the bands head further into the shitter, we can say we at least tried to
save the hobby.

Earl

Someone for whom satire is an unknown.

Having been licensed for over 40 years, all I can say is you people need to get over your sense of self importance.

Yeah! Bring back spark!

Who would be left to post to rec.radio.amateur.policy if all the
babbling idiots were no longer licensed?

I am sure Wismen would still be here flaming away and dening he lost
his license just like deinies ..well we all know what he denies

BTW the VP's staff got a good laugh out the original post and a few the
choicest replies

of course I includded my own thooughts on what the Fcc should do and wy
in the mix

I am not a HAM but my brother is. The main reason they came up with the idea of
the no code license was to spark interest in Amateur Radio. The hobbie is
getting to be near extinct in the 21st century compared to the interest of the
1950's to 2000.

ETP,

Did you ever think that there are more CB'ers
then Amateur Radio Operators {Hams} and
that just may be more CB'ers voted for Bush
then the Hams . . .

so that your request may have just the oposite
reaction in the Whitehouse then you might
expect - something to think about ~ RHF
.
.

So you're saying CB'ers have more pull because there are more of them? Hmmm.
You might be right, but we're dealing with President Bush here. He don't
listen to Lazy Stupid people. If listened to what Lazy stupid people wanted,
we'd be cutting and running from Iraq like the Democrats want and he ain't
cutting and running.

There's still hope. Send that email. Save amateur radio and shortwave.

Earl

So what is your point? Is it that CBers are stupid? Or is it that CBers vote
democrat?
If Bush didn't listen to "Lazy Stupid" people, we would not even be in Iraq.
Maybe you missed it when they never found any WMDs in Iraq, which is why we
went to begin with. He obviously listens to "Lazy Stupid" people, like
Russian intelligence. I'm sure if you try hard enough, he will even listen
to you.
Before you label me a liberal, I voted for Bush

Saddam was a paper tiger. Too bad we couldn't have waited till after we
found Bin Laden before taking on that task.

Alan

not to Kuwaits mind for the house of Saud, like bitng at folks WE can
afford to allow to get bit
>Too bad we couldn't have waited till after we
> found Bin Laden before taking on that task.
prehaps you are right

OTOH I personaly don'y know I realy want UBL caputred given the way the
media and people seems to think they might say well the war on terror
is over, we won, and thereby get an even bigger shock when AlQueda next
hits us.

Indeed I wonder if some of the boys at Langley are thinking and acting
on the same thought

Too bad, indeed. Turns out we had him cornered and apparently
deliberately let him go. The plan was to get Saddam from the beginning.
OIL again. Turf battles and internal "coups" within the White House
needlessly sacrificed American lives and dropped the ball on terrorism.

Well, we got Saddam. I feel SO MUCH safer.

Of course, if you own some stock in Halliburton and can reap some of the
profits of $45 dollar soft drinks you're not doing to poorly either....

The "boys at Langley" don't wield power to think and act anymore. Your VP has seen to it that his own boys in the Pentagon have taken over that business. Kill the messenger. Langley had it correct when they said Iraq didn't have WMD. That's what go Wilson in trouble, remember?

And your ass is a lot safer now under President Bush than it ever was with
Bill Clinton. Clinton was only interested in saving his own ass.

So email Bush. He might like to help us save ham radio as much as he likes
saving your ass from terrorists. 73

$400,000,000,000 and counting. Do you honestly feel safer? Not only do we have to deal with Iraq, but now we have to deal with N. Korea and Iran, situations that were exacerbated by lumping them into the "Axis of Evil", whatever that is.

>

He'll sell out just like all the other politicians. If the energy companies want to run roughshod over our HF with BPL, or if cell phone companies want to buy our higher frequency bands, they will. The Golden Rule: He who has the gold rules.

I would also add that you must be able to prove that you can trace your ancestry back to 1776 or earlier in order to hold an Amateur Radio License as only decedents, of real Americans around at the time of the Revolutionary War, should be allowed to possess a license.

Also, that you not be allowed to operate any tube gear. It sucks too much electricity and is helping to destroy the environment.

You must build your own equipment. Ban all manufacturers of amateur gear, unless of course, it is made in America in which case a 200% tariff should be added to help fund the FCC with all this additional testing that you would now require.

All amateur operators must also pass a spelling and grammar test. They must not be overweight and have perfect hygiene and never smell at any hamfests - especially Dayton.

Once you start riding an electric cart at Dayton or any other hamfest, your Amateur Radio license is immediately revoked.

There are probably some other items that need to be added to the list of requirements, but I will submit those to these groups later.

Another positive side of the proposal is that we could eliminate a lot
of tickets. Think how quiet the bands would be for a little
while....MUCH LESS QRM! Of course that would change when the FCC
reassigned (auctioned) those now unused freqs to the commercial users.
Heck, you could do BPL through out the old ham spectrum. There wouldn't
be enough Ham clout left to stop it. Who would even notice! Cheap
Internet! GO FOR IT ! .... IMs instead of QSOs.......Great idea.
Keep those wheels turning. You might luck into another winner of an
idea! George

Since I am of Native American ancestry, the airwaves belong to my people.
Therefore all non Native Americans must immediately surrender their license.
We will allow you to monitor transmissions as we plan to use the airwaves to
advertise our casinos.

This is obviously a joke so don't flame me.

Ohio/Penn DX Bulletin No. 764

The Ohio/Penn DX PacketCluster
DX Bulletin No. 764
BID: $OPDX.764
June 26, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, Associated Press, K1XN & GoList, N2OO, NG3K, W3HNK, W3UR & The Daily DX, W3YY, N4AA & QRZ DX, N7OU, WA7NB, K8YSE, Pete's -DX-Newsdesk, BA4RF, DL1EK & The DX News Letter, F5NQL & UFT, F6AJA & Les Nouvelles DX, G7GLW, HA0HW, I1JQJ/IK1ADH & 425 DX News, JI6KVR & JA IOTA News, M5AAV, VA3RJ & ICPO and VK4AAR for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 18th-June, through Sunday, 25th-June there were 200 countries active. Countries available: 1S, 3A, 3B8, 3B9, 3D2, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, ER, ES, ET, EU, EX, EY, F, FG, FK, FM, FO, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J6, J8, JA, JT, JW, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T5, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TZ, UA, UA2, UA9, UK, UN, UR, V4, V5, V8, VE, VK, VK9N, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

A6, UNITED ARAB EMIRATES. Bob, W3YY, will be in Dubai, from June 27th through July 2nd. He is seeking an opportunity for a guest op operation from an A6 station.

B1/B3/B4/B7, CHINA. The Chinese Radio Sports Association (CRSA) HQ stations will be on air during the 2006 IARU HF Word Championship, July 8-9th. There were four different special callsigns assigned by CRSA to be active

on 160-10 meters. Look for B1HQ (B1Z), B3HQ (B3C), B4HQ (B4R) and B7HQ (B7P). QSL all four callsigns via BA4EG. The CRSA will issue four awards to encourage QSOs with CRSA HQ stations. The following Web link provides more information about the CRSA activity, and awards eligibility and application process (includes application forms):
English Version operation announcement: http://www.crsa.org/2006_BnHQ/e.htm
Chinese Version operation announcement: http://www.crsa.org/2006_BnHQ/c.htm
For CRSA HQ Award application form download (Basic award and Extra award):
http://www.crsa.org/2006_BnHQ/form1.doc
For CRSA HQ SWL Award application form download:
http://www.crsa.org/2006_BnHQ/form2.doc

HS0, THAILAND. Look for Tony, G4UZN, to be active from here for three weeks starting on June 23rd. He hopes that the WARC bands should be available by then and expects to be on the air as HS0ZGH (CW only) as time permits. QSL via home call (QRZ.com).

IOTA NEWS.....
AS-043. Operators Noboru/JR1WEB, Youichi/JO1IRO and Yasuko/JF1IZM will be active as homecall/1 from Aoga Island (JIIA AS-043-001), from the JA1 South Izu Group between June 30th and July 3rd. Activity will be on HF and 6 meters SSB only. QSL to their home calls, direct or by the bureau.

AS-129. Look for Vange (Wenjun), BD7KLO, to be active from Sanmen Island, July 27-30th. Activity will include an entry in the IOTA Contest. QSL via BD7KLO.

EU-011. Members of the Cray Valley Team will activate St. Mary's Island during the IOTA Contest (July 29-30th). They will travel to St. Mary's on July 26th, and return on August 2nd. Operators mentioned are: G4BUO, G4TSH, G0FDZ, G0VJG, G7GLW and M3CVN. They will operate on the WARC bands and 6m prior to the contest either using their callsigns above /P or the club callsign of G3RCV/P. During the contest they will be active as M8C and after until they leave the Islands under the callsigns above. QSL via G4DFI, the QSL Manager of M8C and the Club callsign.

EU-047. Reinhard, DH6DAO, will be active as DH6DAO/p from Spiekeroog Island between July and August 4th. Activity will include an entry in the IOTA Contest but SSB only. QSL via the Bureau.

EU-049. Marcel/PA9M and George/SV8GXC will be active as SV8/PA9M/p from Chios Island between July 29th and August 10th. Activity will include an entry in the IOTA Contest. QSL via PA9M.

EU-059. Remember to look for Gordon, G3USR, to be active as GM3USR/p from St. Kilda (IOSA OL02 and SCOTIA DI23), June 24th to July 6th. His activity will be limited since he is there visiting St. Kilda as part of a National Trust for Scotland working party. He will operate only SSB on 40/20 meters. There is a possibility of some 6 meters. QSL via G3USR (QRZ.com).

EU-068. Operators Danny/ON4ON, Harvey/ON5SY, Andre/ON6CX, Eddy/ON7PO and Pat/ON7PQ will be active as F/ON4ON/p from Ile de Sein during the IOTA Contest. QSL via ON4ON.

EU-077. Operators Gerard/EA4ST, Amadeo/EA1CA, Manuel/EA1HP, Jose/EA1OS, Jesus/EA1DAV, Domingo/EA1DAX, Javier/EA1FDI and Jose/EA1DKV will take part in next IOTA Contest from Sisarga Grande Island as a Mixed-Mode/Low-Power entry. QSL via EA1CA.

EU-090. Look for Neno (9A5AN), Tami (9A/OM5MF), Rudi (9A/OM3PC) and Lubo (9A/OM5ZW) to be active from Palagruza Island (IOCA CI-084, ACIA IC-901, CIA-33, MIA MC-284), September 2-9th. Activity will also count toward the following lighthouse reference numbers: ARLHS CRO-012, WLH 9A-046, WLOTA LH-0057, CLH-100 and WW Loc. JN82DA. Activity will be on all bands and modes. QSL via the operator's home callsign, direct or through the bureau. More information and a log search is available at: http://www.palagruza.net/

EU-131. Matteo, IZ3HER, was expected to be active as IZ3HER/P from Crevan Island (IIA VE-037 and MIA MI-306) on June 24th (0800-1600z). Crevan (Ex-Ridotto di Crevan) is a private area and very hard to get permission, so it is a very rare one to activate. QSL via IK3GES.

NA-034. Operators Jim/N4AAC, Mike/N4MAA, Kyle/N4NSS and Chris/K8QV were expected to be active as W4Z from Mullet Key (USI FL-132S, Pinellas County, Florida), June 24th and 25th. Activity was to include Field Day using SSB, SSTV, PSK31, CW and RTTY. QSL via K8CXM, SASE please.

OC-295P. Steve Telenius-Lowe, 9M6DXX, reports: "Following the RSGB IOTA Committee's recent announcement that Pulau Sebatik (Sebatik Island, 9M6, YB7) would count as a new IOTA group (OC-295P), a DXpedition is to be mounted to activate this island for the first time. Members of the Borneo Amateur Radio Club including Steve, 9M6DXX (ex-G4JVG, P29DX etc) and John, 9M6XRO (ex-9M6/G3OOK), will be active as 9M4SEB (callsign applied for) from approximately 1100 UTC on 14th July until about 0300 UTC on 17th July 2006. Activity will be on 10 to 80m, CW and SSB, using up to three stations simultaneously. One station will use a beam antenna and two will use 400W amplifiers. QSL direct or via the bureau to M5AAV, Graham Ridgeway, 6 Pilgrim Street, Nelson, Lancs BB9 0JQ, England."

J6, ST. LUCIA. Dave/KC2HO and Lauren/KC2LR will be active as J6/KC2HO and J6/KC2LR, respectivelly, now through July 4th. Most activity will be during their evening hours on 40-10 meters, on CW, SSB and RTTY. QSL via their home callsigns.

LX, LUXEMBOURG (Date Change). Operators Ivo/OQ0A, Guido/OP7A, Peter/OO7A, Jan/ON6RJ and Rob/OR9Q will be active as LX/homecall from the castle of Wiltz in Luxembourg (QTH LX5A) between September 8-10th. Activity will

be on 80/40/20/15/10 meters on CW/SSB/RTTY. QSL via the operator's home callsign, by the Bureau or QRZ.com address.

MONTENEGRO (One Step Closer - New DXCC Entity). The UN Web site and the Associated Press reported the U.N. Security Council unanimously recommended Thursday, June 22nd, that the newly independent Balkan nation of Montenegro become the 192nd member of the United Nations. The General Assembly is expected to approve the council recommendation on June 28th. That means on June 28th DXers will have a new DXCC entity to work. The latest country to join the UN was Timor-Leste, which became the 191st UN Member State on 27th September 2002. For more details, visit it the following Web sites:
http://www.un.org/apps/news/story.asp?NewsID=18969&Cr=montenegro&Cr1=
http://news.yahoo.com/s/ap/20060622/ap_on_re_eu/un_montenegro_2
http://www.yu6scg.cg.yu/international-dx-festival-montenegro-2006/

Remember, the DXpedition MONTENEGRO 2006 is expected to start July 20th through August 12th and will be on the air on all HF bands/modes.

OX, GREENLAND. Dwayne, KD4POJ, will be here for eleven months starting on July 30th. He plans to operate as OX3PG on most bands and modes. He also plans to participate in contests as work and propagation permit. QSL direct only via WA0SMQ.

QSL INFO AND NEWS.....
Jean-Michel, F6AJA, announced after a very long delay, the CE0Z cards have arrived. All QSL requests for Europe have been answered except for some requests without SAE and some with multiple QSL requests. He is still waiting for the CE9/F2JD cards... be patient!

MORE ON CE0Z QSLS. Bob, N2OO, reports: "The CE0Z QSL cards have been printed AND are in the USA, and enroute to me at this moment. We have pre-processed the log so the cards will start to go out 'steadily' once they arrive here. I don't expect that to happen for another couple of weeks. So, please be patient everyone! Since we have more cards to deal with, we will not be quite as quick as Jean-Michel! (good job J-M)"

QSL ROUTE CHANGE. Gary, K7ZD, reports that "Due to increasing serious health problems (XYL) I will no longer be managing any activities by Tony, HK1AR,...etc/W4OI, from this date forward (18th, June 2006). Please send ALL further HK QSL requests to Tony, W4OI. I can and will answer all requests for 5K5Z, HK0/HK1AR and HK1AR for QSOS made BEFORE 09 FEB 2006. Reminder - QSOs made with HK1AR between February 10-21st, 2006, go to Girts, YL2KL, who was the guest operator there and has his own logs." Gary still has logs/cards for 3B9R (APR 1999) and C56V (1993) operations: 3B9R 10-160M Direct Only (NO BUREAU) to K7ZD
3B9R Bureau to AH0W
3B9R 6M to Ned, AA7A
C56V 1993 - Direct or Bureau
For more infor/updates, visit: http://qrz.com/k7zd

QSL Manager Alan, VK4AAR, advises OPDX readers that "they should be VERY CAREFUL when QSLing and sending IRCs for return postage costs. The

large IRCs have an expiry date printed on them and won't be accepted if they are past that date, but my local PO (post office) has been lenient with me up to now. I would imagine that, in view of this, the older (small) ones will no longer be accepted by the post office, and they will be of no use to me either. I suggest that DXers send U.S. dollars, if possible. A new IRC in USA costs more than a dollar in the post office, anyway." Alan is the QSL Manager for: 9V�A, 9V1DX, C21RH, KH2VM, P29RH, V63PD, VI�ANARE, VK�MM (Macquarie), VK6AN (OC-266), VK6BM (OC-234), VK6BSI (OC-243), VK6DHI (OC-206), VK6LI (OC-071), VK8AN/6 (OC-154), VK8AN/8 (OC-229), VK8AV/3 (OC-136), VK8DP, VK8MI (OC-173), VU3RSB, VP2V/W3HQ and (YJ8AA, ZK2JJ, ZK2PJ logs are now closed). If YOU need a QSL Manager, just E-mail Alan at: al-mee@aapt.net.au

SV9, CRETE. Mick, G8VHB, will be active as SV9/G8VHB from Crete (EU-015) from September 27th until October 9th. Look for activity on all bands 20-10 meters using only 100 watts and a rotary dipole antenna.

T6, AFGHANISTAN (Update). Mika, OH6MKL, is now active as T66T until the end of July. Suggested frequencies are:
CW - 1820, 3520, 7020, 10120, 14020, 18090, 21020, 24900 and 28020 kHz
SSB - 1880, 3680, 7080, 14180, 18150, 21250, 24980 and 28495 kHz.
He was heard this past week on 30 meters between 1700-2100z and on 20 meters CW between 1400-1700z. QSL via OH6MKL.

VP2, MONTSERRAT. Graham, M0AEP, will be active as VP2MDD between July 1-14th. Activity will be on 80-6 meters with 200 watts into a windom antenna, on SSB and CW. His main focus will be on 6 meters on SSB and CW with 350 watts plus a 5 element yagi. QSL via M0ARP (QRZ.com).

VP2, MONTSERRAT. Art, WA7NB (formarly N2NB), will be active as VP2MDY, October 25-31st. He will be participating in this year's CQWW SSB Contest. Outside of the contest, look for Art to be active on 160-6 meters CW, SSB and PSK31. QSL via WA7NB.

YJ, VANUATU. Tommy, VK2IR, will be active as YJ0IR from July 3-15th. QSL via W3HNK.

Z3, MACEDONIA. Laci, HA1RS, will visits Zoli, Z38C/HA1CA, in Scopje between June 24th and July 14th. He will use the Z38R callsign on HF and 6 meters; also VHF/UHF bands. Dime/Z35Z and Szabi/HA1DRJ will join Laci and Zoli during the upcoming VHF/UHF Contests from Grid KN12DC on Mnt. Podrzi Konj (1400m ASL). QSLs for Z38R and Z38C go to HA1RS via the HA QSL Bureau or to his QRZ.com address. Full colored QSL cards are expected to be ready at the end of August.

ZD8, ASCENSION ISLAND. Andy, G0JLX, is expected to operate from Ascension Island (AF-003) as ZD8AD between July 1-23rd (dates are approximate at this stage). Activity will be on all HF bands, SSB and CW. QSL via G0JLX, direct or by the bureau.

ZK1, NORTH AND SOUTH COOK ISLANDS. In November, Bill/N7OU and Bob/W7YAQ will be operating from both the North and South Cook Islands. From November 4-18th, they will be on Penrhyn Atoll, North Cooks, and from November 18-28th, they will be on Rarotonga, South Cooks, and be an entry in the CQ WW CW Contest. Like their DXpedition to the South Pacific earlier this year, they will be operating mostly CW with some RTTY and SSB, on 80-10 meters, and using lightweight rigs, low power, and vertical antennas.

ZL8, KERMADEC ISLANDS. Look for Jacky, ZL3CW, to be active from Raoul Island (OC-039) starting around June 27-28th. He plans to be there for about one week as ZM8CW. Activity will be limited to his spare time. He will concentrate on the lower bands. QSL via ZL1AMO.

Sure seems like a lot of work but a gin-pole should work OK. One thing is for sure, the higher that you can pull from the better when the tower on the ground. I have had mine up and down quite a few times. It is Rohn 25 with a lot of weight up top, mainly because I moved the rotor down about half-way and used a big piece of steel water pipe for the mast. I used the neighbor and his John Deere tractor with the cable hooked to the raised front loader. I only hook the cable about a third of the way up the tower and when the tower is laying down the tractor is right up to the base. Needless to say that good brakes are critical. HI! My neighbor isn't able to do those things anymore. I probably will hire a wrecker next time.

hi ham radiogroups, im after the internal power control or alc inside of a icom725 hf transceiver the radio is doing way to much power for the power supply, it currently is doing 150 watts it needs to be turned back down to around 100 watts .thanks in advance david from nsw australia .

==========
If the current RF power output itself is not a problem ,but the max
current which can be supplied by the power supply unit (presumably
13.8V) I would suggest to put a sealed (car) battery in parallel.

The quoted 150W RF power is highly likely PEP ,so when operating SSB the
average current consumption is possibly half the peak current or less
even with some speech compression .
The battery will happily supply some of the current during peak demand.

Since the battery is permanently 'on the charger ' being in parallel
with the power supply unit , you don't need a deep cycle battery ; a
cheap and cheerful 40 -60Ah sealed car battery will do the job well.
It is essential to put a 25-30 A fuse in series with the battery .

Note : I recommend anybody to use a (sealed) battery and a low power PSU
to feed a transceiver requiring (13.5 -13.8 V-DC) external power.
During rx periods the PSU output could be (automatically) disconnected .
Receiving on battery power alone is often beneficial eg less noise and
mains borne interference. Although the low impedance of the battery
will cause it to 'kill' most external mains borne interference already.

A local ham uses a FT857 with a 110Ah sealed battery, without a mains
fed PSU . When not operating the battery is connected to an automatic
car battery charger ,which is only disconnected during operation.

Frank GM0CSZ / KN6WH

How do you interpret "No QSL Required"? Does that mean the station is going to QSL all stations worked 100% whether they send a card or not?

I see this on cards I receive from the buro but I wonder had I not QSL'd would I have received a card in return.

Were these cards from rare countries or from very active contest stations?

I've always figured this meant the station was "preemptively QSLing" -
that they were sending cards through the bureau to *everyone* in their
log, and that they didn't want to *receive* any cards at all.
(presumably they already have every award they want, or in the case of
an expedition, don't plan to apply for awards)

So yes, I think you would have received these cards even if you hadn't
sent QSLs to those stations.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL DX Bulletin, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N4THW, AC7DX, N7NG, K8YSE, Pete Rayer, Pete's -DX-Newsdesk, CN8NK, DL1EK & The DX News Letter, E51CG, F5CVI, F5NQL & UFT, GM3YOR, I1JQJ/IK1ADH & 425 DX News, IK4MGP, IW5EDI, IZ8EDJ, TA3YJ, VA3RJ & ICPO and YO3APJ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 25th/June, through Sunday, 2nd/July there were 197 countries active. Countries available: 3A, 3B8, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5R, 5V, 5Z, 6W, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, EU, EX, EZ, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J6, J8, JA, JD/o, JT, JW, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TR, TU, TZ, UA, UA2, UA9, UK, UN, UR, V2, V5, V7, V8, VE, VK, VP2M, VP2V, VP5, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZK1/s, ZL, ZL8, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5A7, LIBYA (Update). After some years of silence, an international team will activate Libya between November 14-28th. The callsign will be 5A7A. Activity will be on all bands with CW and SSB, and for the first time ever, digital modes on RTTY, SSTV and PSK plus another first will be FM. The goals of the Dxpedition are:
* To support the development of ham radio in Libya
* To activate a rare country on all bands and modes including the

digital modes and FM
* To provide more than 50,000 QSOs
* To take part in CQWW DX CW Contest as a Multi/Multi entry
* To activate a new prefix - 5A7
* To set the focus on "long distance DX" like W6/7, JA, VK, etc.
* To provide lowbands contacts
The international team operators are: Andy/DJ7IK (Team Coordinator), Mustapha/DL1BDF, Dominik/DL5EBE, Gunter/DJ9CB, Ruth/IT9ESZ (YL-operations), David/K3LP, Manfred/DK1BT, Volkmar/DF2SS, Andy/DL5CW, Andi/DL9USA, Markus/DJ7EO, Jan/DJ8NK, Franz/DF6QV, Rein/PA0R, Willy/HB9AHL, Franz/DK1II, Pirmin/HB9DTE, Jurgen/DJ2VO, Dieter/DL3KDV, Frank/DL8YHR, Andy/DL5CW, Rudi/DK7PE, Mitch/VE6OH, Krassy/K1LZ and their local friends Haytem/5A1HA (ASSAKR Club Coordinator) and Tarek/5A1TA. Current suggested frequncies are (still under development):
CW - 1827, 3507, 7017, 10107, 14007, 18077, 21027, 24893 and 28027
SSB - 1847, 3777, 7087, 14197, 18147, 21277, 24977 and 28477
RTTY - 14087, 18107, 24928 and 28087 kHz
Frequencies for 2m, 6m, SSTV and PSK have not been chosen yet. Send direct QSL requests to their QSL Manager DL9USA ONLY: Andreas Glaeser, PF 100 246, D-03122 Spremberg, Germany. The Bureau QSL cards will be processed very last after the direct requests are processed. For updates and more info, please see the following Web page at: http://5a7a.gmxhome.de

5C, MORROCCO. M'hamed, CN8NK, will be active in the IARU Radiosport World Championship Contest (July 8-9th) using the special callsign 5C8A. He will also represent Morrocco as a headquarter station.

DXCC NEWS.....
New DXCC Entity -- ARLD026 Montenegro is the newest ARRL DXCC entity:
"A new ARRL DXCC entity has come into being! As expected, the United Nations admitted the Republic of Montenegro as its 192nd member June 28, and that action automatically makes the tiny Balkan nation the 336th current DXCC entity.
'According to the ARRL DXCC List criteria, entities on the UN list of member-states qualify as political entities,' said ARRL Membership Services Manager Wayne Mills, N7NG. 'Therefore, effective June 28, 2006 (UTC), ARRL has added The Republic of Montenegro to the DXCC List. Claims for DXCC credit will be accepted immediately.'
Current Montenegrin radio amateurs reportedly may continue using their YU/YT/YZ/4O/4N-prefix callsigns until the International Telecommunication Union designates a new callsign block for the new country.
In anticipation of Montenegro's new nation status, the International DX Festival Montenegro, with information on the web at, http://www.yu6scg.cg.yu/international-dx-festival.html, has been set for July 20 until August 12. That's when several international operators will join forces with Montenegrin Amateur Radio operators from at least three different stations using a common callsign in an effort to meet the DX community's need to work the newest DXCC Entity. Festival organizers have set the ambitious goal of 200,000 contacts for the event, which will use all HF bands.
Montenegro declared its independence on June 3 following a national

referendum May 21."

ARRL Membership Services Manager Wayne Mills, N7NG, reports that the ARRL "DXCC Dialog" blog debuted on June 26th. He mentions that the "DXCC Dialog Weblog" -- contains news and notes about the ARRL DXCC program. "This page will have up-to-date information about the DXCC program," says Wayne Mills, N7NG. "It does not provide for users to post responses, but authors and e-mail addresses are listed." The blog will be updated as needed to inform and update the DXing community regarding news of interest. DXCC Dialog Weblog is available at: http://www.arrl.org/blog/DXCC%20Dialog

DXCC Fee Increase Reminder! ARRL Membership Services Manager Wayne Mills, N7NG, wants to remind everone: "The new DXCC fee schedule will go into effect on July first. Applications received at the DXCC Desk by Friday afternoon, June 30th, will be processed under the existing fee schedule. Applications which have not reached the DXCC Desk by June 30th will be processed under the new fee schedule." The new DXCC fee schedule is available at: http://www.arrl.org/news/stories/2006/05/23/3/fees-06Jul.html

E5, NORTH AND SOUTH COOK ISLANDS. Victor, ZK1CG/ZK1USA (now as of July 1st E51CG and E51USA), reports that the callsign change from ZK1 for the North and South Cook Islands was officially announced in the local newspaper "Cook Islands News Daily" on Monday, June 28th: "Please be advised that as of 1, July 2006 UTC the International Cook Islands Radio Callsign prefix ZK (Zulu Kilo) will be replaced with E5 (Echo Five). This will mean that if your callsign is currently ZKR (Zulu Kilo Romeo) it will now be E5R (Echo Romeo). Please note that only the first two characters will change, the remainder will remain as is. If you require further clarification please contact radio licensing division at 29680 during working hours." Paper's Web page is: http://www.cookislandsnews.com So, current callsigns ZK1CG and ZK1USA and ZK1JD will now change to E51CG, E51USA and E51JD. Victor mentions that the local amateur radio operators normally get a 2 letter suffix callsign, while visiting Ham operators get a 3 letter suffix callsigns. Over the past weekend, Jim, E51JD, was heard on 20/15 meters SSB, while Victor, E51CG, was heard on 10 meters SSB.

FM, MARTINIQUE. Sido, F4CKP, will be here for 2 months from July 3rd and until end of August. His activity will be on 80-10 meters including the WARC bands on RTTY and SSB. He will use a FT-897 into a Cushcraft vertical and a G5RV antenna. QSL direct via his home callsign or by the bureau.

FR5/E, EUROPA. Luc, FR5IZ, will be active as FR5IZ/E from Europa (AF-009, DIFO FR-003) from July 4-6th. He will be using a FT-897 (w/100w) into a doublet antenna. QSL via the French Bureau (REF-Union du Ref) or direct to FR5IZ address via QRZ.com. LAST NOTE: "The DAILY DX" reports that Luc is here on a work assignment, and will be active only during his free time. Look for him mainly on 20/12/10/6 meters and possibly 17 meters.

GB5, ENGLAND. The RSGB HQ station GB5HQ will be active in the IARU Contest (July 8-9th). This year, look for ten GB5HQ stations (with 30+ operators) to be active and located around the country. There is a series of free GB5HQ Awards for the 2006 event available, and they are managed by John, G3LZQ. More details about the awards and station locations can be found at the following Web site: http://www.gb5hq.com
QSL via G3TXF direct (QRZ.com) or through the RSGB bureau to GB5HQ.

HC8, GALAPAGOS ISLANDS. Trey, N5KO, and other operators will be active as HC8N during the CQWW DX CW Contest (November 25-26th) as Multi/Multi entry. QSL via W5UE.

HI3, DOMINICAN REPUBLIC. Mark, KB2MS, will be active as HI3/KB2MS from Puerto Plata, starting July 28th until about August 23rd. Activity will be on all bands except 160m. QSL via his home callsign.

IOTA NEWS.....
AS-076. Koyo, JA5BEX, was expected to be active as JA5BEX/5 this past weekend from Oshima Island (JIIA AS-076-003), JA5 Shikoku Island group, Kagawa Pref. QSL via his home callsign, direct or by the bureau.

EU-011. Dom, M1KTA, will activate St. Agnes Island as M1KTA/p between July 28th and August 4th. His activity will include an entry in the RSGB IOTA Contest on all bands CW/SSB. There is also the possibility that Dom might activate St. Mary's, Tresco or Bryher islands during the same weekend. QSL via his home callsign, direct or by the bureau.

EU-016. Branko/9A7YY and Antonio, 9A/K6LKH, will activate (depending on sea condition) Brusnik Island, July 8-9th. Other reference numbers are: All Croatian Island Award ACIA-800 and Mediterranian Island Award MC-047.

EU-030. Klaus, DJ4JI, will be active as OZ/DJ4JI from Bornholm Island (BO-001 for the Danish Islands Award, WLOTA LH-2203), September 3-13th. Activity will be on 80/40/20 meters, SSB only with a Swan 350 (400 watts). QSL via his home callsign, direct or by the bureau.

EU-031. Operators John/IK8LIU, Franco/IK8WEJ, Enzino/IK8YTG, Giovanni/IW7DOL, Luigi/IW8EQS, Orlando/IW8FCA, Simone/IZ0BTV, Marco/IZ7DOK, Oreste/IZ8EDJ and Francesco/IZ8EQF will activate Licosa Island (I.I.A. SA 001, D.C.I. SA 028 and ARLHS ITA 089) on July 9th. Operators will sign homecall/P. QSL via their home callsigns. Watch for more info at:
http://www.strangeradioteam.com

EU-034. Frank, DL1FT, will be active as ES0FTZ from Saaremaa Island (WLOTA LH-1401), July 4-14th. Activity will be on 40/20/10 meters SSB. QSL via DL1FT. More information is available at:
http://www.funkexpedition.de/estland/index.html

NA-144. Six operators will activate Santa Cruz Island July 27-30th. Their activity will include the IOTA Contest (July 29-30th). Operators mentioned are: Ray/N6VR, Jim/N6KZ, Fred/N6AWD, Jim/ WB9AWX, Vic/KI6VC and Sreven/WA6SC. They will use the callsign N6VR/P for the IOTA Contest and their home callsigns at other times. They will have three stations active: one on the WARC bands and two for the other bands. During the contest they will use a tri-band yagi for SSB and amplifier and a vertical on CW. QSLs for N6VR and N6AWD go to N6AWD; all others go directly to the operator's home address.

OC-130. Peter, DK2PR, reports he will operate as DU9/DK2PR from the Island of Mindanao, between July 28th and August 15th. This will be a holiday style operation. A side trip to islands in the OC-235 group are possible, but it depends on the local situation.

SA-055. Members of the Radio Club Argentino will be operating as LR4D from Martin Garcia Island, July 6-9th. They will take part in the IARU HF World Championship as HQ station for Argentina. QSL via LU4AA.

IS0, SARDINIA. Simone, IW5EDI, will be active as IS0/IW5EDI from the northeastern part of Sardinia Island (EU-024), now through July 7th. Activity will be on HF bands (mainly of 20 meters). QSL via the Bureau. For more info, visit: http://www.iw5edi.com

KH0, MARIANA ISLANDS. Operators Nao/JK1FNL, Jim/7K4QOK and Takky/JE1KUC will be active from Saipan, Nothern Mariana Islands (OC-086), July 7-10th. They will operate as NA8O/KH0 (JK1FNL), KG8RP/KH0 (7K4QOK) and N1KU/KH0 (JE1KUC), and be active on 80-6 meters. Also, look for them to participate in the IARU HF World Championship. QSL via their JA home callsigns, direct or by the bureau.

OP0, BELGIUM (Attention Prefix Hunters!). Look for members of the Royal Union of Belgian Amateur Radio (UBA) to participate in the IARU Contest (July 8-9th). Look for HQ station OP0HQ to be active on all 6 bands and on both modes. This will be the first time that the "OP0" prefix has ever been used. All QSOs will be confirmed with a QSL via the bureau. However, direct QSLs can be sent to ON5ZO (UBA HF Manager). The address is OK on QRZ.com.

QSL INFO AND NEWS.....
NEW IRCS AVAILABLE. New IRCs are now available as of July 1st. The Universal Postal Union (UPU) has redesigned the International Reply Coupon (IRC) again. The new design, known as "Beijing Model No. 2," was submitted by Volodymyr Taran, a graphic artist from Ukraine. Taran's design was inspired by Michelangelo's painting on the ceiling of the Sistine Chapel -- "two fingers about to touch framed in a postage stamp, representing the notions of communication and exchange." The newly designed IRC will be valid until December 31, 2009. However, the current IRC is valid through December 31, 2006 (ed. Depending on who you talk to...). ADDED NOTE: The IRC will celebrate its centenary in 2007. It

was October 1st, 1907, that the International Bureau issued the first International Reply Coupon. To mark this event, countries can ask the International Bureau to include a special overprint that reads "1907-2007: 100 years of IRCs"! Collectors, philatelists and future buyers will appreciate this added feature. The coupon is certain to be a popular collector's item at post offices next year.

Charles, S9SS, informs OPDX that his QSL Manager Gerard, N4JR, will be out of country. He will return home in the latter part of July and will catch up on the backlog of QSLs as soon as possible.

Nilay, TA3YJ, informs OPDX that she sent out QSL cards for TA3YJ, TA3YJ/4 LH, TA3J, TA3J/4 LH, TA3J/60, YM3ATA, YM3SV, YM75TA, YM21TA, YM3LZ/WPX2000, YM3LZ/WAE2000 and TC2K4J to the QSL Bureaus of Germany, Russia, Serbia&Montenegro and Ukraine by registered mail on June 27th, 2006.

SPECIAL EVENT. The International Shortwave League (ISWL), continues with their 60th (Diamond) Anniversary celebrations throughout the month of July. Look for the following special station to be active:
July 5th - GB6SWL will be active for 1 day from Dagenham, Essex. John, M0HEM, will be the operator.
July 8-9th
and 12th - GB6SWL will be active for 3 days from Walton on the Naze, Essex. Herbie, G6XOU, will be the main operator.
July 15-16th - GB6SWL will be active for 2 days from Bagulay, Manchester. Ron, G6BMY, will be the main operator.
July 22-23rd - GB6SWL will be active for 2 days from RAF Macrihanish, Argyllshire, Scotland. Andy, MM0CXA, will be the main operator.
July 29-30th - GB6SWL will be active for 2 days from Walton on the Naze, Essex. Herbie, G6XOU, will be the main operator.
ADDED NOTE: The ISWL Club callsigns GS4BJC/P and MX1SWL/P will also be active throughout July. The ISWL Awards Program is open to non members for a very small fee to cover postage to any country in the world. Please see the following Web page for all details, including QSL information and Special Diamond Anniversay Awards etc... at: http://www.iswl.org.uk

SV5, DODECANESE. Drew, GM3YOR, will be on holiday on the Island of Halki (EU-001) and will be active as SV5/GM3YOR from September 21st to October 4th. Activity will be CW only during his stay; bands will depend on conditions and the times he is available. He will be taking his TS-50s transciever and wire antennas. QSL via his home callsign.

T7, SAN MARINO. A mixed team of San Marino and Italian operators will be active from the ARRSM Headquarters (Associazione Radioamatori Repubblica San Marino) during the next IARU HF World Championship (July 8-9th), with the special callsign T70HQ. Activity will be on all bands, both CW and SSB. Operators will be: I4FYF, I4TJE, IK3QAR, IK4DCW, IK4GNI, IK4HVR, IK4MGP, IK4MGX, IK4SXJ, IK4UNH, IK4WMH, IZ4AKS, T77C, T77CD, T77EB and T77GO. Also, expect some activity by operators before the contest as T70A. QSL via T70A, via Bureau or direct. A special QSL for the event

will be printed. Further information can be found at:
http://www.ir4m.it/english/index.htm

VE1, CANADA (IOTA Ops). Len/VE9MY and Linda/VE9GLF will be vacationing in Nova Scotia during the week of July 16th. They plan to activate a few IOTAs in the Nova Scotia Island groups (NA-081, NA-126, NA-127 and NA-154) during their week stay, but have not determined at this time the sequence of activation. They will also try to activate new Canadian Islands whenever possible and any lighthouses that are accessible. Operations will be mobile or portable with 100 watts, on 20 and 40 meters. QSL via their home callsign, by the bureau or direct.

XX9, MACAO. Members of the Associacao dos Radioamadores de Macau (ARM) will be active as XX9A as a HQ station during the IARU HF World Championship. There will be four stations operating from Taipa Island (AS-075). QSL via XX9BB.

YI, IRAQ. Carlos, N4THW, informs OPDX that he is in Iraq for the next four months on a military air base. He states that he has already applied for YI license and is expected to be on the air soon. He may sign YI/N4THW if the military gives him approval. Carlos plans to be on all bands 80-10 meters including the WARC bands. He currently is looking (for help) to find a good radio and antenna. Right now all he has is an old military HF radio w/100 watts into a G5RV dipole.

YJ, VANUATU. Remember to look for Tommy, VK2IR, to be active as YJ0IR from New Hebrides (OC-035) between July 3-15th. His activity will be on 80/40/20/17/15/12/10 meters SSB depending on conditions. QSL via W3HNK.

YR0, ROMANIA. Look for YR0HQ to participate in the 2006 IARU World Wide Championship Contest (July 8-9th) as an IARU Member Society HQ Station representing the Romanian Amateur Radio Federation (FRR). All the contacts will be confimed by eQSL and LoTW. Please note, an award, free of charge, will be issued to all those who will prove at least 3 contacts with YR0HQ during the contest. For 6, 9 or 12 contacts, the award could be printed for different classes (3rd, 2nd, 1st or Extra Class) in accordance with the number of contacts, but only one single award is given. The application, along with the log extract, should be sent to one of the following addresses. By mail to: FRR, YR0HQ Award, BOX 22-50, RO-014780 BUCURESTI 22, ROMANIA. By e-mail to: adrian.sinitaru@electricaserv.ro

Z2, ZIMBABWE. World-wide traveler Vladimir, UA4WHX, continues to be active as Z2/UA4WHX. He was heard this past weekend on 80/40/30/20/17 meters CW. There were a few SSB QSNs on 20/17 meters. The length of his stay or where he goes next is unknown. QSL via UA4WHX.

ZA, ALBANIA (LH, WW Loc. and IOTA Ops). A group of four Italian operators will be here between July 7-17th. Activity will be on all bands HF and VHF, CW, SSB, PSK31 and RTTY. They also plan to activate lighthouses, WW Loc.'s and be in the upcoming contests for HF/VHF (IARU HF World, Six Club Contest and CQ World-Wide VHF Contest). Operators mentioned are: Giuseppe/I2AZ, Pino/I8YGZ, Alfredo/IK7JWX and Giancarlo/IK7QMJ. All plan to sign

ZA*/homecall. The group is currently waiting for permission to activate
Sazan Island (EU-169) plus the lighthouses on the island. QSL via their
home callsigns (via the ARI Bureau or direct using the QRZ.com address).

Since he is in a new country (which might not have a well-defined
license/operational policy yet) the rules of the previous country may not
apply! He is certainly working hard at handing out QSOs -- I hope letters
(with GSs) make it there and that he responds.

Ohio/Penn DX Bulletin No. 766

The Ohio/Penn DX PacketCluster
DX Bulletin No. 766
BID: $OPDX.766
July 10, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, WV2B, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N4JF, K8YSE, Pete Rayer, Pete's-DX-Newsdesk, DL1EK & The DX News Letter, EA4ATI, EA5RM, EA8AUW, EI5DI, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, RSGBIOTA and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 2nd/July, through Sunday, 9th/July there were 208 countries active. Countries available: 3A, 3B8, 3V, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5Z, 6W, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9U, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CM, CN, CP, CT, CT3, CU, CX, D2, D6, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EZ, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J6, JA, JT, JW, JX, JY, K, KG4, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V2, V5, V7, V8, VE, VK, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZK3, ZL, ZL8, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4W, TIMOR LESTE. Michael, PA5M (4W6AAB), will be returning here for about one month to finish his work there for the United Nations World Food Programme. He is expected to arrive on July 14th. Activity will be limited to his free time. QSL via PA7FM. For updates, logs and pictures, visit the following Web page at: http://www.4w.pa7fm.nl/

CY9, ST. PAUL ISLAND (Operators Wanted). Duane, WV2B (VA1ZZZ), is once again putting together an operation to CY9. He states, "Hi folks, we are

looking for a VE1 ham interested in joining a minimalist Dxpedition to
CY9, and/or helping arrange the various permits/permissions required.
If interested please contact me for more detailed information ASAP."
Duane's E-mail address is: wv2b@juno.com
ADDED NOTE: Just a reminder that Duane, WV2B, has created an on-line
CY9 QSL Museum for expedition QSL cards from St. Paul Island (CY9).
Please visit the Web page at: http://www.stpaulisland.net/cy9qslmuseum.html

ED8, CANARY ISLANDS. Several members of URE (Las Palmas Section) will be
active as ED8URL between July 19-21st to celebrate the 44th anniversary
of URE (Las Palmas Section). Activity will be on all bands and modes.
QSL via the Bureau to EA8URL (section callsign).

F, FRANCE (Castle Activity). Members of the Radio Club de Saverne (F6KNJ)
will activate Griffon Castle (DFCF 67056), July 16th. Watch on 7067 kHz.
Members will sign as homecall/p. QSL via F6KNJ.

GJ, JERSEY. Russell, G5XW, will be active as GJ5XW/p from the Channel
Islands (EU-013) between August 26th and September 1st. Activity will
be on all HF bands, SSB only. QSL via G5XW.

HC8, GALAPAGOS ISLANDS. Operators Glenn/W6OTC, Steve/K6AW, Jeff/WK6I
and Ramon/XE1KK will be active as HC8N during the CQ WW DX RTTY Contest
(September 23-24th) as a Multi-2 entry. QSL via W5UE.

HQ9, HONDURAS. Ray, WQ7R, will be active as HQ9R during the CQ World
Wide DX SSB Contest (October 28-29th) as Single-Op/All-Band entry. QSL
via N6FF. Look for Ray to be active as HR9/WQ7R before and after the
contest.

IOTA NEWS.....
AF-045. Dani, 6W/EA4ATI, finally got on the air from Goore Island this
past weekend (July 8-9th). His callsign was 6W1EA. QSL via
EA4ATI.

AS-131. Look for Vange, BD7KLO, to be active as BD7KLO/7 from Shangchuan
Island, July 21-25th. Activity will be on 40-10 meters SSB or
RTTY. QSL via BD7KLO, direct only. ADDED REMINDER: Vange is
also expected to go to Sanmen Island (AS-129), July 27-30th.
Activity will include an entry in the IOTA Contest.

AS-137. Vange, BD7KLO, will be active as BD7KLO/5 from Shengshan Island,
August 13-17th. Activity will be on 40-10 meters SSB or RTTY.
QSL via BD7KLO, direct only.

AS-141. Vange, BD7KLO, will be active as BD7KLO/5 from Dongtou Island,
August 5-9th. Activity will be on 40-10 meters SSB or RTTY.
QSL via BD7KLO, direct only.

EU-003. Pedro, CU2CR, will be active from Sao Miguel Island during the
IOTA Contest (July 29-30th). QSL via CU2CR.

EU-008. Members of the Scottish-Russian ARS and West of Scotland ARS
will be activating the Isle of Eigg (IOSA: NH03, SCOTIA: DI19)

during the RSGB IOTA Contest (July 29-30th). The team of operators will be using two different callsigns and will enter the contest as two different contest groups - GM2Z (operator MM0DFV) is a CW station, and GM4A (operators GM0WRR, GM4TOQ, MM0GDL, GM7WED and MM3LKV) is a SSB station. They report: "Locator information can't be more precise at this point until we know where on the island we will be operating from. There is no arranged accomodation on Eigg. Nor is there mains electricity on the island. We are taking all our camping and portable equipment, such as tents, diesel generator, poles, sleeping bags and so on. We are leaving Airsaig on Friday at 11 a.m. and arriving in Eigg at 12 p.m. There will be opportunities to explore the island on foot between setting up station on Friday and the start of the contest on Saturday. During this time we will be operating digital modes, especially PSK by using our special DXpedition callsign MS0DGR." QSL cards for all callsigns should be sent via MM0DFV.

EU-031. Gian, IC8WIC, will be active from the Isle of Capri during the IOTA Contest (July 29-30th). QSL via IC8WIC.

EU-038. Operators Jan/PG7V and Jack/PD2J will be active as PC6IOTA from Texel Island during the IOTA Contest (July 29-30th). QSL via PG7V.

EU-040. Operators Jose/CT1END, Arlindo/CT1EGW, Luis/CT1EEQ, Jose/CT1DIZ, David/CT1DRB, Antonio/CT1EGH and Antonio/CT1EDX will be active as CT6B from Bugio Island during the IOTA Contest (July 29-30th). QSL via CS1GDX.

EU-043. Operators Boleslaw/SP4AAZ and Surdziel/SP4TKR will be active as SM6/SP4AAZ/p and SM6/SP4TKR/p from Orust Island between July 25th and August 2nd. QSL via their home callsigns. Look for them to be in the IOTA Contest (July 29-30th) as SM6/SP4AAZ/p and as a Multi-OP/Multi-Band/Mix-Mode/100w entry. QSL is "OK" via the Bureau or direct.

EU-061. Members of the Norwegian Expedition Club will be active as LA1NEC from Jomfruland (Norwegian Virgin Island)(WLOTA LH-08321), August 19-21st. They will focus on the International Lighthouse/ Lightship Weekend (August 19-20th) with 6 operators and 3 stations. QSL via the bureau. For more information, check their Web site at: http://www.la1nec.no

EU-096. Joern, DG5XJ, will activate Houtskar/Mossala Island, one of the most wanted islands in Europe, from July 29th to August 4th. He will use the callsign OH1/DG5XJ and will be active on 80/40/20/15/10 meters SSB only. He will use a Yaesu FT-897 (w/100 watts) to a Force 12 Sigma 40XK and double-dipole for 80 and 40 meters. QSL via his home callsign. More information can be found at: http://managementpsychologie.de/dg5xjiota.htm

EU-122. Members of the Kilmarnock and Loudoun ARC will be active as GN0ADX/p from Rathlin Island (WLOTA LH-0039), July 28-31st. This is the eighth year in a row for this group to be active in the RSGB IOTA Contest. Operators mentioned are: Allan/GM3OZB, Barry/GM3YEH, Steve/GM4OSS, John/GM0DJG, Gordon/MM0BIM and John/MM0BQN. QSL via GM0ADX (QRZ.com).

EU-129. Operators Peter/DM5DX and Ulf/DL5AXX will be active as DR6IOTA from Usedom Island during the IOTA Contest (July 29-30th). QSL route TBA.

EU-136. Operator Okko, PH2CV, will be active as 9A/PH2CV/P from Krk Island between July 22nd and August 12th. Activity will be on all bands SSB. QSL via PH2CV (QRZ.com).

EU-146. Operators Will/PE1OPM, Manfred/PE1OXV and Jeroen/NL12339 will will be active as PE1OPM/p from Schouwen Duiveland during the IOTA Contest (July 29-30th). Activity will be on all bands from the City of Zonnemaire. QSL via NL12339 (QRZ.com).

EU-171. Hans, OZ7BQ, will be active as OZ7BQ/p from Fur Island (NJ-003 for the Danish Islands Award), July 27-31st. Operations will include an entry in the RSGB IOTA Contest. Activity will be on all HF bands, QRP, with a K1 and vertical. QSL via his home callsign, direct or by the bureau.

EU-172. Operator Chris, DL4FO, will be active as OZ/DL4FO from Tuno (TUN) Island between July 22nd and August 5th. Activity will be mostly CW, QRP and all HF bands. He will also be active in the IOTA Contest (July 19-30th), and plans to activate a lighthouse (DEN-071). QSL via DL4FO (QRZ.com). Visit his Web page at: http://www.qslnet.de/dl4fo

NA-046. Alec, W2JU, is currently active as W2JU/1 from Martha's Vineyard (USI MA-005S, WLOTA LH-2804, Dukes County, Massachusetts), until September 2nd. Activity will be on all bands, mostly CW; this will include an entry in the RSGB IOTA Contest (July 29-30th). QSL via his home callsign.

NA-083. Members of the Dominion DX Group will activate Tangier Island (USI VA-001S, Accomack County, Virginia), as K4VAC during the IOTA Contest (July 29-30th). Operators mentioned are: Tony/ KC4AUF, Becky/KS4RX, Guy/K4CNF, Mike/K4AUR, Robert/W4BNO, Dave/N4DWK, Jim/W4THU, Bruce/WD4LBR, Sheila/K4WNW, Parke/N4KFT, Andrew/K4PUF, Ron/KG4QIV and Warren/KO4XB. Activity will be on 80-10 meters CW/SSB, near the IOTA frequencies. QSL via K4VAC.

NA-092. Operators Nelson/KI5JF and Carl/KA5GUD, will be active as homecall/p from Matagorda Island (USI TX-010S, Calhoun County, Texas), during IOTA Contest (July 29-30th). Activity will be on 40/20 meters CW/SSB. QSL via their home callsigns.

NA-112. Kyle, W4KTF, will be active as W4KTF/p from Bald Head Island (USI NC-003S, Brunswick County, North Carolina), from July 28th

to August 4th. Look for activity on all bands, IOTA Contest included. QSL via his home callsign, direct or by the bureau.

NA-112. Members of the Tennessee Valley DX Association will be active as W4PL from Emerald Isle (USI NC-010S, Carteret County, North Carolina), between September 27th and October 7th. Operators mentioned are: Tony/W4FOA, Nancy/K2NAN, Greg/WA4NFO, Barbarra/ WA4RMC, Howard/KE4MBP, Tom/K4VCM, Lynn/K0MAI, Alan/N4HL, Charles/AD4F, Larry/WA4IVO, Paul/N4LCD, Kathy/W4KRY and Kenny/AB4GG. Activity will be on 80-10 meters CW, SSB and RTTY, including the WARC bands. QSL via K4KWK (QRZ.com).

NA-112. Steve, W3HF, will be active as W3HF/4 from Bogue Banks Island (USI NC-010S, Grid Loc. FM14, Carteret County, North Carolina), August 6-12th. Activity will be QRP on 40-15 meters. Primary mode will be PSK, with some SSB possible. Steve requests that stations who want SSB QSOs to contact him before the trip via E-mail at: w3hf@arrl.net
His equipment will be a vertical and a Yaesu FT-817. This operation qualifies for the APE (August PSK Expedition) endorsement from the PODXS 070 Club. See the following Web page at: http://www.podxs.com/html/070_club.html
There is also a possibility of 6 meter PSK and/or SSB operation, from either Steve or his twelve-year-old son Matthew (KB3JJV). QSL via his home callsign, direct or by the bureau, or via W3HF/4 on eQSL.

FREE IOTA LOGGER. Paul, EI5DI, reminds everyone that the 14th IOTA (Islands On The Air) Contest takes place on July 29-30th. The SDI program by EI5DI is the only contest logger dedicated to this event. SDI is recommended for stations that will be in the IOTA Contest as a Single-Operator entry. Since SDI is optimised for IOTA, it offers many unique features. SDI runs on any Windows PC, and is free from:
http://www.ei5di.com/sd/sdisetup.exe
It is intended for SO-unassisted entries. It supports ESM (Enter Sends Message) in both Run and S&P modes, with internal serial or parallel keying - or external keying via WinKeyer USB (recommended) - see: http://www.k1el.com
Any problems, just send E-mails to: sd-user@contesting.com

OJ0, MARKET REEF. Members of the QLF DX-Team will be active as OJ0LA from September 8-14th. Activity will be on all bands from 160-10 meters and on modes CW, SSB and RTTY. Operators mentioned are: Bjorn/LA5UKA , Andy/LA8AJA, Morten/LA9DFA, Trond/LA9VDA and Olav/LB8IB. QSL Manager is LA9VDA. For updates and more info, visit their Web page at:
http://www.la8aja.com/expeditions/oj0la_2006/

OA, PERU. Just a reminder to start looking for Ulli, DL2AH, to be active from a few different areas in Peru. His holiday style operation will be on 40-10 meters on SSB and possibly RTTY using a FT897 + Windom + Sigma5/Force antennas. Look for him to use the following callsigns during his purposed

schedule:
July 13-17th - OA3/DL2AH from Caraz/Huaraz
July 19-21st - OA2/DL2AH from Trujillo
July 23-25th - OA1/DL2AH from Mancora/Tumbes
July 26-31st - Perhaps Iquitos/OA8 or Puno/OA7
QSL direct to DL2AH or via the DL Bureau.

QSL INFO AND NEWS.....
Joe, W3HNK, is now the QSL Manager for the following stations:
*/FS5KA - All contacts after March 2006
PJ7A - All contacts starting 2006

HL0HQ QSLS. Look for QSLs to be sent out automatically via the bureau.
Activity by HL0HQ was during the IARU Contest.

QSL PP5WRTC via PP5VB: Barbosa, P.O. Box 13, Imbituba, Santa Catarina,
88.780-000, BRAZIL. Activity from Santa Catarina Island [Ilha de Santa
Catarina, (SC)] (SA-026, DIB 05 for the Brazil Islands Award, WLOTA
LH-2981).

Toni, EA5RM, reports that the S01R Web page has been updated with the
late news about QSL card. You can see the S01R QSL card at:
http://www.s01r.com
S01R QSL will be ready around July 15th, so direct confirmations will
start very soon.

QSL YT6ML via DL3ML: Dr. Reinhard Bollmann Am Wildpfad 19, D-53797 Lohmar,
Germany.

Jerry, N4JF, received a note from Andy, ZD9BV, stating that IRCs are
NOT exchangeable at his post office or bank and requests to please send
only currency for return QSL.

T8, PALAU. Operators Taka/JO2JDJ, Ryo/JG3DOR and Hide/JM1LJS will be active
as T88DJ, T88OR and T80W, respectively, between 1300z, July 14th and 1500z,
July 18th. Activity will be from the "IMAPC Palau Rental Shack" on 40-6
meters CW/SSB. QSL via their home callsigns. Visit Hide's Web page at:
http://radio-dream.com/t80w/

TX1, NEW CALEDONIA (Lighthouse Activation). Members of the Association
Radio Amateur en Nouvelle Caledonie (A.R.A.N.C) will sponsor the activation
of the Amedee Lighthouse (FK-0147), to celebrate the 140th anniversary
of this lighthouse. Operator Sam, FK8DD, will be using the callsign TX1A
from July 21-31st. The equipment will be 2 transceivers, dipoles for 80-40
meters, multiband T2FD and a vertical Cushcraft antenna R7 with 100 watts
of power. Activity will be mainly on CW with some SSB if conditions are
good, on 160-10 meters (no 6m). QSL via LZ1JZ: Tony Stefanov, P.O Box 43,
HARMANLI -6450, BULGARIA.

VU7, LAKSHADWEEP ISLANDS. There has been a report that David, K3LP, is
planning to be active from here as VU7/VU3RWO between January 15-25th.
Activity will be mainly CW and SSB, with limited RTTY. He will use 2
SteppIR beams with 2 amps. No other details were provided. Stay tuned!

XX9, MACAO. Hide, JM1LJS, will be here between August 10-16th. He is trying to renew his XX9TJS license. He states that his activity will start around 0700z on August 11th. QSL XX9TJS via JM1LJS.

YI, IRAQ (Update/Correction). Carlos, N4THW, informs OPDX that he is currently in Fallujah and should be back in Al Asad around July 20th. He reports that he received an E-mail from Baghdad, and his license is being processed, and he should have it about the same time he is back from Fallujah. We misunderstood Carlos last week about his stay in Iraq. He has been in Iraq for four months already on a military air base. However, he expects to be in Iraq for the next 8 months until his contract expires. Stay tuned.

Hello YLs/OMs from US!

I am Ron, dl7ba from germany, Bad Sï¿½leze near Rostock.

For my Award "Worked All States" i need some contacts with
stations from the US states. I am missing stations that using
the LoTW and comes from the states:

Alabama, Colorado, Idaho, Kentucky, Mississippi, Montana,
Nevada, North Dakota, South Dakota, West Virginia and
Wyoming. Other contacts are also welcome!

Now i have entrys from 39 states in the LoTW ARRL logbook.

Who can make a sked on the 20m in cw or ssb.
Running here with 700 Watt and 2element Yagi.

If you can help, pleace send a Mail to make a sked.
sked@funkwesen.de

Had a QSO w/ this station during the IARU Contest. Gave his zone as 29
although OY is the Faroe Islands; which is 18. Ant help would be
appreciated. Tnx.

He gave you a ITU zone number (different from WAZ).

OY9R, Otto, has zone 14 on his cards. Map shows zone 14. Maybe
Andre was giving you a contact numjber?

OY is Faroe Isl, you are right, and he should give 18 (ITU zone); 29 is
wrong, it isn't his ITU zone or his CQ zone (14).

Yeah, but 18 *is* the right ITU zone for the Faroes. (I want to say it's
WAZ Zone 40) ITU Zone 29 is western Russia & adjoining countries.
(Ukraine, Baltic States, etc.)

I'm thinking Terry busted the call but am having trouble figuring out
who he really worked. Maybe UY1A?

why do many hams cheat in contests?

a classic is the guy who operates from him home qth,
then claims he operated on "battery power" the whole
time.

for those with substandard reading comprehension, this
does not imply *all* hams who operate from their home
on battery power are contest cheats.

how is this a policy issue ?

do you want the FCC to punish contest cheats? don't hold your breath

how is this related to dx as well

frankly you look like you are just troling or at best felling though
somebody cheated on YOU in the latest contest

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

Have I missed anything?

I could do that. All my home equipment is directly
connected to a deep discharge marine battery that
keeps delivering power when the AC fails. It is
charged by a solar panel.

> why do many hams cheat in contests?

Because they have very small dics and will do
anything just to get their name in print in the contest
results in either QST or CQ. It's no different than
the 52 year old almost-geezer driving around in
his Mustang GT or 3000Z because it makes up for
the absence of something inside of his trousers....

> a classic is the guy who operates from him home qth,
> then claims he operated on "battery power" the whole

Or the clubs who operate Field Day running an extension cord into the
nearby buildings to power the SB-220 or Alpha Amplifier. (I've seen
a club which placed 2nd and 1st in their section for the past 6 years
who have done this little trick every damm year. This year the bastard
who did it tried to hide the cord with grass clippings because some
had camera phones and he didn't want to have his club check-logged)

> for those with substandard reading comprehension, this
> does not imply *all* hams who operate from their home

No, but a damm lot of contesters break the rules every year
just so they can get that dumb certificate on their wall. If they
don't it's like they were denied their Viagra at the Pharmacy
or something similar....

Indeed if came to that myself I wouldlikely call my op batery or emgncy
power after my home prodcues more more on and day to day basis than it
cumsumes

DX Bulletin No. 767
BID: $OPDX.767
July 17, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, KC2NMZ, N2OO, K3TRM, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, N0VD, Pete's-DX-Newsdesk, HAM Radio Association, CE6TBN, DL1EK & The DX News Letter, EA8AUW, F5NQL & UFT, HA0HW, I1JQJ/IK1ADH & 425 DX News, RSGB IOTA, TA3J, VA3RJ & ICPO, VE3EXY and YT7AW for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 9th/July, through Sunday, 16th/July there were 198 countries active. Countries available: 3A, 3B8, 3D2, 3V, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5W, 5Z, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9U, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, ET, EU, EX, F, FG, FJ, FK, FM, FO, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HZ, I, IS, J6, JA, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TU, TZ, UA, UA2, UA9, UK, UN, UR, V4, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP5, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4O7, SERBIA. As of July 1st, the "World Wide Young Contesters" group has activated the special callsign 4O7WWYC (Four Oscar Seven) through August 31st to celebrate the 7th anniversary of establishing the WWYC club. Their special activity will be during the third meeting of WWYC members in Novi Sad, Serbia, between August 9-14th. Activities will include HF and maybe 6 meters, both CW/SSB, and an entry in WAE CW Contest. They were spotted this past week on 160/40/20/10 meters CW. QSL via YT7AW. Please note that

this activity will be from SERBIA (not Montenegro as many may suspect). Information about the WWYC's club and upcoming meeting can be found at:
http://wwyc2006.atspace.com
http://www.wwyc.net

5W, SAMOA. Operators Ted/K8AQM (5W0TR), Jeff/N8CC (5W0JB), Dennis/KT8X (5W0DW) and Kirk/JF3MYU (5W0KI) will be active from Upolu Island (OC-097) from July 27th to August 10th. Activity will be on 160-6 meters CW, SSB and RTTY. They plan to have three stations active, and will participate in the IOTA Contest (possibly as 5W0XX). More details, schedule and their operating frequencies are available via the following Web page at:
http://www.geocities.jp/jm3uml/samoa2006/index.html
QSL 5W0DW, 5W0JB, 5W0TR via KT8X; QSL 5W0KI and their IOTA Contest callsign via JF3MYU.

9A, CROATIA (Island Op). Look for Aniko/HA5TAA (ex-9M2/HA5TAA) and Feri/HA5AZZ to be active as 9A/homecall from Murter Island (Not a IOTA, ACIA IC-318, CIA-28, IOCA CI-074), through July 30th. They will try to visit as many Croatian islands as possible for the CI award. Activity will be SSB on their prefered bands 40/20 meters. QSL via HA Bureau.

C6, BAHAMAS. Gary/W2VQ and his son Paul/KC2NMZ will be heading to Treasure Cay, Abaco Island (NA-080), July 23-31st. Their activity will likely include a entry in the RSGB IOTA Contest (July 29-30th) that week. Paul tells OPDX that they will have 1 or 2 stations setup (100w and 50w). Operation will be on all modes by both of them. Activity will be on 80-6 meters, with an emphasis on RTTY, PSK31, CW, SSB and maybe some SSTV. They will using dipoles and verticals. QSL via KC2NMZ, by the bureau or direct.

C6, BAHAMAS. Peter/W2GJ and Jim/K4QO will be active as C6APR from Crooked Island (NA-113) between July 26-31st. Activity will include an entry in the IOTA Contest (July 29-30th). QSL via K3IXD.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, reports that the following operation is approved for DXCC credit:
YU6AO - Montenegro; Operation beginning July 4, 2006

ADDED NOTE: From the "DXCC Dialog Weblog" - YU6AO is setting up an HF contest station and will be active starting July 20th with numerous operators for 10 to 20 days. Interestingly, this is the same date that YT6A has chosen for the start of the the Montenegro DX Festival (http://www.yu6scg.cg.yu/international-dx-festival.html). With so much activity, this should be a great opportunity to work a new one and even fill out many band-country slots.

FP, ST. PIERRE AND MIQUELON (Update). Paul/K9OT and Peg/KB9LIE will be making their sixth annual trip to Miquelon Island (NA-032), July 28th-August 6th. They will sign FP/K9OT (prefers CW on 40/30m) and FP/KB9LIE (strictly SSB, mostly 17/20/40m unless higher bands are open). They will try to run a breakable 6M beacon on 50.120. Both will be in the IOTA Contest as Single-Ops, and Paul will also be in the CW North American QSO

Party. Note: he just needs to confirm Alaska for his FP/WAS. QSL to their home callsigns, same address, either direct with return postage/IRC or via the bureau. Logs will eventually be uploaded to LOTW. No eQSLs. Visit the following Web page at: http://www.mhtc.net/~k9ot/

FR, REUNION ISLAND. Stewart, GM4AFF, will be active as FR/GM4AFF for one day (July 30th) during the upcoming RSGB IOTA Contest (July 29-30th). QSL via M0CMK.

GD, ISLE OF MAN. The "Worked All Britain Awards Group" (WAB) is pleased to announce that they will be holding a joint event with the "Isle of Man Amateur Radio Society" (IOMARS) and "The British Amateur Radio Lighthouse Society" (BARLS) between August 19-26th. This activity week was mutually arranged with the IOMARS to encourage new licensees to gain experience in portable, mobile and net activity. They hope that it will provide publicity for the Island and increase activity around the bands and generally promote an interest within our hobby. The Activity Week will coincide with the International Lighthouse/LightShip Weekend (ILLW) and a visit by two of the WAB Committee members, Dave and Judith Brooks (G4IAR and G4IAQ), plus members of the "British Amateur Radio Lighthouse Society" (BARLS). The "plan' for the week is as follows:
All three lighthouses on the Calf of Man will be activated on both days of ILLW event (August 19-20th) by members of WAB and BARLS.

Chicken Rock will be activated (Sea State permitting) on August 19th. All the major lighthouses on the island will be activated on the afternoon of the 19th; by both WAB and BARLS jointly. Callsigns of those taking part - GD0SGB/P, GD0VML/P or /M , GT4LAB/P/M (IAR and IAQ in disguise).

ALL 14 areas on the island will be activated during the week. Members of the IOMARS will position themselves around the island. More details will be posted on the Worked All Britain Web site at:
http://www.worked-all-britain.co.uk
Two new certificates have been produced especially for the event. There will be a "Basic Activity Week Certificate" stating how many areas have been worked and a "Premier Class Certificate" for all 14 IOM areas.

They all hope that the event will prove to be a great success and encourage newcomers to come forward to join in the fun. Please give all concerned your support by calling them. This may well become an Annual Event.

IOTA NEWS.....
AS-115. Berkin, TA3J, will participate in the IOTA Contest (July 29-30th), as TA3J/0 from Antalya - Sican Adasi (Rat Island, MIA MTC-099 and KM56JU). QSL via Nilay, TA3YJ, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. No eQSL. SWL QSL cards are "OK".

AS-117. Operator Kenji, JA4GXS, will be active as JA4GXS/4, from Kasado Island (JIIA AS-117-096), JA4 Yamaguchi Prefecture, starting July 29th, including the IOTA Contest (July 29-30th).

Activity will be on all HF bands CW and SSB. QSL via his home callsign, by the bureau or direct to: Kenji Sasaki, 2-15 Ishikannon-cyo, Yamaguchi-City, 753-0038 JAPAN.

EU-014. Vittorio, IK1RAC, will be active as TK/IK1RAC from the Island of Corsica (DIFM TK-001, MIA MCO-001, WLOTA LH-1390) between August 19th and September 1st. Look for activity from between 1200-1400z and from 2000-2200z, on QRP HF + 6 meters. QSL via his home callsign, direct or by the bureau.

EU-034. Rolf, DK2ZF, will be active as ES/DK2ZF from the Island of Saaremaa, Estonia, between July 21st and August 3rd. Activity will be mostly CW on HF, 6 meters and 144/432 MHz. QSL via home call (QRZ.com).

EU-052. Massimiliano, IK2XYG, will be active as SV8/IK2XYG from Corfu Island, between July 24th and August 12th. Activity will include an entry in the IOTA Contest (July 29-30th). QSL via IK2XYG.

EU-057. Jan, PC2T (ex-PA1TT) will be active as DL/PC2T from Rugen Island during the IOTA Contest (July 29-30th). Look for activity before and after the contest. QSL via PA1TT, by the Bureau.

EU-088. Ric, DL2VFR, will be active as OZ/DL2VFR from Laeso Island July 23-30th. Activity will be mostly on CW. He will also participate in the IOTA Contest (July 29-30th) as Single-Op on CW for 12 hours. Laeso Island is NK-003 for the Danish Island Award. Ric is also planning to visit Hornfiskroen (NK-005 - same IOTA group) with QRP/CW-gear for some hours. QSL via his home callsign/bureau.

EU-092. Members of the Summer Isles Radio Club will be active as MM0Q from Tanera Mor during the IOTA Contest (July 29-30th). QSL via MM0BQI.

EU-122. Loook for GN0ADX/p to be active from Rathlin Island during the IOTA Contest (July 29-30th). QSL via GM0ADX.

EU-125. Michael, DL3FCG, will be active as OZ/DL3FCG from Bolilmark, Romo Island (NS-001 for the Danish Islands Award), August 5-19th. Activity will be on all bands, CW and SSB. QSL via his home callsign, direct, through the bureau, or LoTW.

EU-143. Operators Manuel/EA7HY, Antonio/EA7HW, Juan/EA7AVW, Martin/EC7AEJ, Jose Manuel/EC7ALT, Oscar/EA4TD, Alfonso/EA4ATA, Javi/EC4DX, David, Pepe and Jeronimo will be active as ED7SPI from Sancti-Petri's Island in Chiclana de la Frontera (Cadiz - Spain), July 28-30th. Other reference numbers for this activity are: DIE S-002, FEA D-2388, DCE CCA-007, DMHE MCA-195, and DME-11015. The group will be active in the IOTA Contest. They also plan/try to activate different Farallones with other different references numbers: DIE S-225 Sancti-Petri's Farallon Grande, S-235 Farallon Chico de Sancti-Petri and S-236 Los

Farallones de Sancti-Petri. They plan to have three stations on 80-10 meters on SSB, CW and Digi modes. QSL via the Bureau to EC7AEJ.

EU-170. Norbi, HA3FIN, will be active as 9A/HA3FIN from Pasman Island (ACIA IC-348, CIA-34, IOCA CI-085 and MIA MC-291), July 25-31st. Activity will be on HF bands. Look for him to use the callsign 9A/HG3X during the IOTA Contest (July 29-30th). QSL via his home callsign for both callsigns.

EU-170. Peter/HA9MDP and Tamas/HG9MET will operate as 9A/homecall from August 3-13th, from Pasman Island (CI-085), and than Ugljan Island (CI-134) and some others island in the EU-170 group depending on the weather and other "local things". They will be operating on 80-6 meters, and also on 2 meters. They will take part in the Alps Adriatic VHF Contest as 9A/HG9VHF from JN73QW. The equipment is a FT-897, FT-736, multiband dipole for 80-40m, Gp for 20-10m, 6 element Yagi for 6m, and 14 element DJ9BV and 9 element F9FT Yagi for 2m. QSL via their home callsigns, via the HA QSL bureau is "OK".

EU-171. Hans, OZ7BQ, will be active as OZ7BQ/p from Fur Island during the IOTA Contest (July 29-30th). He will use a vertical antenna. QSL via OZ7BQ.

EU-174. A group of Hungarian operators will activate Thassos Island during the end of July. They plan to be active from 3 different locations on the island. Some will be in the IOTA Contest. Look for the following callsigns and locations (Grid Squares):
J48NAR - Operator Laci, HA0NAR, from Skala Rachoni (KN20HS)
J48IM - Operator Endi, HA0IM, from Pothos (KN20HO)
J48PL - Operator Laci, HA7PL, from Astris (KN20IN). IOTA entry: 12HR/SSB/HP/Islands expedition.
J48NL - Operator Laci, HA6NL, from Astris (KN20IN). IOTA entry: 12HR/CW/HP/Islands expedition.
J48PS - Operator Zsolti, HA6PS, Astris (KN20IN). IOTA entry: 12HR/CW/LP/Islands expedition.
J48JJ - Operator Sanyi, HA7JJS, Astris (KN20IN). IOTA entry: QRP/24HR/Islands expedition.
All stations will be active as SV8/homecall outside of the contest (few days before and after) on all the HF bands plus 6m and 2m, CW/SSB with some digital modes too. QSL via the HA QSL Bureau or direct to addresses on QRZ.com.

EU-179. Operators Tom/UT3IB, Medvedev/UT9IO, Alex/UX2IQ and UR8IR will be active as UX2IQ/p from Berezan Island during the IOTA Contest (July 29-30th). QSL via UX2IQ, by the bureau or direct.

NA-038. Heinz, VA7AQ, will be active from Madeleine Island during the IOTA Contest (July 29-30th). QSL via VA7AQ.

NA-038. Operators Fred/VE1FA, Helen/VA1YL, Alphonse/VO1NO, Reginald/
VE2AYU, William/VE1MR, Howard/VE1DHD, Rich/VA1CHP and Gary/
VE1RGB will be active as VC2W from Ile aux Meules during the
IOTA Contest (July 29-30th). Activity will be on 80-10 meters
CW/SSB. QSL via VE1RGB.

NA-034. Operators Fred/VE1FA, Helen/VA1YL, Bill/VE2MR, Lynn/VE2ENT,
Al/VO1NO, Shelley/VE1NOS, Rich/VE1CHP, Reg/VE2AYU and Howard/
VE1DHD will be active as VC2W from Ile du Cap aux Meules (QC-004
for the Canadian Islands Award), in the Magdalen Islands Group
from July 26th to August 1st. They will also participate in the
RSGB IOTA Contest as a Multi-Op/Expedition entry. Look for
activity on 80-6 meters, CW and SSB. The Magdalens Group includes
6 Canadian Islands (which are not separate IOTAs) and three
lighthouses which they will try to visit and activate briefly.
QSL via VE1RGB (QRZ.com).

NA-046. Alec, W2JU, will be active as W2JU/p from Martha's Vineyard
during the IOTA Contest (July 29-30th). QSL via W2JU.

NA-067. Nathan, N4YDU, will be active from Ocracoke Island during the
IOTA Contest (July 29-30th) as a Single-Op/Mixed/Low-Power
entry. QSL via N4YDU direct.

NA-091. Operators John/VE7JOH and Rick/VE7ADN will be active from the
Malcolm Island Amateur Radio Club, on Malcolm Island (BC-019
for the Canadian Islands Award, Grid Loc. CO60), located in the
Queen Charlotte Strait, British Columbia, July 29-30th. John
will use the club callsign VE7MIV. Activity will be on 80, 40
and 20 meters. QSL both VE7MIV and VE7ADN via VE7JOH.

NA-112. Stephen, W3HF, will be active as W3HF/4 from Bogue Banks during
the IOTA Contest (July 29-30th). QSL via W3HF.

NA-112. Kyle, W4KTF, will be active as W4KTF/p from Bald Head Island
during the IOTA Contest (July 29-30th). QSL via W4KTF.

OC-022. Adhi, YC3MM, will be active as YC3MM/9 from Bali Island during
the IOTA Contest (July 29-30th) on 15 meters only (CW/SSB)
using 100 watts into a 3 element yagi. QSL via YC3MM.

SA-070. Danilo/XQ4CW and Marco/CE6TBN will be on the air as CE5S from
Santa Maria Island (WLOTA LH-543) for the next IOTA Contest
(July 29-30th). Before and after the contest, they will be on
the air on 30/40 meters CW and 20 meters CW/SSB. QSL via HA1AG.

ISLAND NEWS. During the weekend of July 8-9th, Nenad, VE3EXY, was operating
from the Island of Bonaventure (NA-177). Nenad informs OPDX: "The island
itself is easily accessible by regularly operating boat lines, but the
stay is strictly limited to the tourist season, and only during daylight
operating hours of the National Park. I was allowed to operate for 5 hours
each day. There is no electricity on the island, and I was allowed to use
battery only. The reason is that the Island of Bonaventure is a bird
sanctuary (Ganets colony), and they do not want them upset. I was not

even sure if they will allow me to operate during daylight, and I did not announce my operation before. The island has IOTA designation NA-177, and CISA designation QC002. The call used was VE2/VE3EXY/p. In early evening (on Sunday) I activated the Rock itself (QC012) using VX2/VE3EXY call. The rock is connected to the mainland by tiny strip of land, but only during low tide (abt 2 hours). It is submerged otherwise. Even during the low tide, the waves may swipe the tiny strip of land which may put any operation in danger. 250 stations made QSOs with NA-177, and about 30 QSOs from the Rock (Pierced Rock)."

LIGHTHOUSE ACTIVITY. The Old Barney Amateur Radio Club will be operating from the Barnegat Lighthouse (nicknamed "Old Barney") in Barnegat Light, New Jersey, on Saturday, August 5th (rain date is Sunday August 6th). This counts for ARLHS lighthouse #USA-039, Long Beach Island NJ: IOTA NA-111, USI NJ-001S. Operation will be primarily on 20 and 40 meters SSB from about 1300-2200z. Visitors are welcome. A nice full color photo QSL of the lighthouse is available. QSL via N2OB.

MD, ISLE OF MAN (EU-116). Members of the MD4K Contest Group will be active as MD4K during the RSGB IOTA Contest (July 29-30th) as a Multi-Op entry. Operators mentioned are: Dave/G3NKC, Fred/G4BWP, Peter/G4MJS, Martin/G4XUM, Tim/M0BEW and Royce/M0RHI. QSL direct to G3NKC: David Sharred, Chestnut House, 510 Crewe Rd., Wistaston, Crewe CW2 6PS, U.K.. QSLs can be requested by the bureau on their Web site at: http://www.md4k.com/

OH0, ALAND ISLANDS (EU-002). Juha, OH9MM, will be active as OH0Z during the RSGB IOTA Contest (July 29-30th) as a Single-Op/24-HRS/SSB/Island entry. QSL via W0MM.

OY, FAROE ISLANDS (EU-018). Tom/DL2RMC and Katrin/DO3MSH will be active as OY/homecall from here August 21-23rd. Activity will be limited to their spare time but look for them on all HF bands on CW, SSB and digital modes, with 400 watts and a vertical antenna. QSL via DL2RCM, bureau preferred.

RUSSIA CALLBOOK. The HAM Radio Association distributes a Russian CallBook (English Version) containing detailed and updated information on all Russian HAM radio operators. It also contains:
1. Detailed information about the DX Expeditions which will take place in the nearest future.
2. Information about the diplomas.
3. List with names and addresses of Russian collectors of HAM equipment.
Should you be interested in ordering this directory, please write to:
zakaz@poste.ru
The price is 52 USDs, including the shipping to your country.

SPECIAL EVENT. On July 22nd, the Union de Radioaficionados de Estella (URDE) is organizing jointly with the City Council of the town of Lerin (50 KM South of Pampelona, Navarra) some ham activities, part of the Twin Cities partnership Lerin/Pompignac (Near Bordeaux) festivities. Among the Ham activities will be a flea market and the airing of the special callsign ED2HLP (HLP = Hermanamiento Lerin Pompignac = Jumelage Lerin Pompignac= Twin cities partnership Lerin Pompignac). QSL via the operator's

instructions. More information is available at: http://ea2ccg.blogspot.com

SPECIAL EVENT. Members of the Club RadioAmateurs de Lanester (F6KPQ) will activate the special callsign TM0FIL from July 24th to August 6th, during the Inter Celtic Festival of Lorient (French Brittany) activities. Activity will be on all bands and modes. QSL via F6KPQ.

TF, ICELAND (EU-021). Tom/DL2RMC and Katrin/DO3MSH will be active as TF/homecall between August 24th and September 6th. Their activity will be limited to their spare time but will include an entry in the SSB Field Day Contest. Operations will be on all HF bands on CW, SSB and digital modes, with 400 watts and a vertical antenna. QSL via DL2RCM, bureau preferred.

V47, ST. KITTS AND NEVIS. Remember to look for Reiner, DL2AAZ, to be active as V47/DL2AAZ from the Island of Nevis (NA-104), July 20th to August 10th. Activity will be on 40/20/15/10 meters SSB and CW, with 100 watts, dipole and groundplane antennas. QSL via his home callsign, direct or by the bureau.

VP5, TURKS AND CAICOS ISLANDS. Look for Kelly/N0VD and Alan/WB9JTK to be active as VP5/homecall between August 1-6th. They will be there primarily for business but plan to be active during their spare time. N0VD will make a special effort on the low bands with attention given to the EU and JA sunrise. This, of course, will depend on the noise level. Both operators will be concentrating on CW with some operations in the U.S. general bands. QSL to their homecalls.

VP9, BERMUDA. Frank, K3TRM, will be returning to Hamilton Parish, Bermuda, again this summer for a short vacation from from August 3-8th. He will be operating as VP9/K3TRM. Activity will be on 160-6 meters, including the WARC bands using SSB, RTTY and CW. QSL via his home callsign, direct or by the bureau. Additional information will be available on his Web site at: http://www.k3trm.com/

VQ9, CHAGOS (Top-bander Take Note!). Larry, VQ9LA (aka WD0HSP), on Diego Garcia, announced this past weekend that he will be on the Island for one more year. He is now scheduled to leave December 2007. The company he works for won their contact and will be staying. During Larry's stay, he plans to get several things fixed (Alpha 99, FT-1000, VQ9X K9AY loop, etc..) and really clean up the shack (a makeover).

VU3, INDIA. Rene, DL2JRM, is now active as VU3RYO from New Delhi, until July 24th. Activity is on 160-10 meters CW with 100 watts, wires and a vertical. He was heard this past weekend on 80/40/30 meters CW between 1630-2130z. QSL via DL2JRM.

VY0, CANADA (IOTA Activity). Operators Mike/K9AJ and Bruce/KD6WW will be active as K9AJ/VY0 and KD6WW/VY0 from Nunavut (Hudson Bay - Quebec Coast) Centre Group (NA-195), July 19-23rd, and from Nunavut (Hudson Bay - Quebec Coast) North West Group (NA-156), July 23-26th. QSL to their respective home callsign.

Mainly Markie leeches off of welfare and neglects the needs of his
dying daddy. That poor bastard has to wait until Markie gets off the
computer to even get a meal.

I made contact with this station on 17 meters but have read several hams describing this as a Hoax or a pirate.

Can anyone shed any light on this?

Is there a dx-pedtion in Guinea right now ?

Greetings from Denmark

Hi friends,

I recently created the 425 toolbar and thought you might also find it interesting. It has lots of useful features and seems to be well-liked by a large number of users (including my self).
Amont the features you can quickly search a string in the 425 bulletins, a callsign in the QRZ.com or DXWatch.com, fast links to 425 calendars, bulletins, magazine, old dx spots and links to DXWatch spots (last 50 HF, 50 ANN, by band) and several HAM RSS feed for news. There is also a chat feature and audio amateur newsline.

To find out more about this toolbar and download it, go to:
http://425.ourtoolbar.com/

I have heard this station on both 17 and 20 SSB. If he is in France why is he not signing 3X2YA/F or the reverse F/3X2YA? IN any case he is not in 3X!

The ARRL has made their first new one under the latest rule change. Swain's Island is added as of 22 July 2006. If you worked the KH8SI operation last year then you must work the next one to get credit for anything but IOTA.

Bet there will be more new ones with DXers scanning detailed charts at this very moment. How about Ebon Atoll that Don Miller tried to get counted in the early 1960's. Look at detail Pacific maps!

Now if we can get ARRL to delete the latest platform operation (BS7H) which is just as bad as the 7J1 folly of the late 1970's!

Dave K4JRB

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, AA1AC, K1XN & GoList, NC1L, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, N7NG, K8YSE, Pete's-DX-Newsdesk, 6W/EA4ATI, 9A6AA, DL1EK & The DX News Letter, F5NQL & UFT, HK6DOS, I1JQJ/IK1ADH & 425 DX News, IT9DAA, IZ8EDJ, OH2BH, OH2BN, RSGB IOTA, UX0FF, VA3RJ & ICPO and YT1AD for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 16th/July, through Sunday, 23rd/July there were 199 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4W, 4X, 5B, 5H, 5R, 5T, 5U, 5V, 5W, 5X, 5Z, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C2, C3, C9, CE, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, ET, EU, EX, EY, F, FG, FJ, FM, FO, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, JA, JT, JW, JX, K, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TL, TR, TU, UA, UA2, UA9, UK, UN, UR, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

*** ANOTHER NEW DXCC ENTITY TO HIT THE AIRWAVES! ****
Well known DXer Kan, JA1BK/KH6BK, and a group of operators will activate another new DXCC entity. The team of 6 operators will travel to Swains Island some time this week. Swains Island was recently added to the DXCC's entity this past weekend due to the recent DXCC rule change (ed. See DXCC News below). The team of operators who have been in Pago Pago, American Samoa, since Thursday, July 20th, have been delayed in going to Swains

Island due to some transportation problems. The list of operators are Kan/JA1BK/KH6BK (team leader), Uti/KS6FO, Paul/F6EXV/WH7S, John/K1ER, Tets/AH7C and John/K8YSE. Larry, AH8LG, President of the American Samoa Amateur Radio Association (ASARA), has been helping in planning/organizing and has provided the team with lots of resources and logistics to make this operation happen. Larry will not be going with the team but will be a pilot station for the operation. However, Larry's wife, Uti, KS6FO, is expected to travel with the team to Swains Island and will do the cooking for the team. The callsign will be KH8SI once again. Activity will be on HF bands CW/SSB. However, the team will utilize the best bands to work as many as possible during this short operation (possibly 3-4 days). The start date is unsure at this time due to the transportation to the island. QSL via JA1BK. More details will be forthcoming.

ADDED NOTE: Those who use propagation and bearing programs may be interested in the following coordinates (Lat/Long) to use. Some of the following agencies have a slight vary in their coordinates, but all are very close.
U.S. Department of Interior -- Latitude 11 degrees 3 minutes South
Longitude 170 degrees 55 minutes West
U.S. Coast Guard ------------- Latitude 11 degrees 4 minutes South
Longitude 171 degrees 5 minutes West
U.S. Census Bureau ----------- Latitude 11.08207 South
Longitude 171.04813 West
CIA FACT Book ---------------- Latitude 11 degrees 3 minutes South
Longitude 171 degrees 15 minutes West

3XY, GUINEA. Dani, 6W/EA4ATI, informs OPDX that he will be active from Conakry as 3XY9B, August 1-8th. He states that he will use a 3 element yagi beam antenna (three bands), dipole antennas and work all HF bands (occasionaly 6m band too). QSL via direct to EA4ATI.

CORRECTION DEPARTMENT. Last week in OPDX.767, we mentioned that Tom/DL2RMC and Katrin/DO3MSH were going to Faroe Islands and Iceland. The QSL route mentioned was incorrect. QSL via DL2RMC (NOT DL2RCM as mentioned) and Tom prefers the bureau.

DXCC NEWS.....
* The following was received from Wayne Mills, N7NG, ARRL Membership Service Department Manager, dated July 22nd, from Newington, Connecticut:
For Immediate Release
With the addition of Section II, Criteria Rule 1c) to the Political Entity criteria, certain former separation entities may now qualify as Political Entities. One such entity has been determined to be American Samoa. American Samoa is now a Political Entity for DXCC purposes.

As a result of the reclassification of American Samoa, and upon the filing of a request and substantiating evidence, and with the concurrence of the DXAC and the Awards Committee, Swain&#65533;s Island has been added to the DXCC List.

Swain&#65533;s Island, entity number 337, qualifies as the first separation entity from American Samoa, now a Political Entity. The distance between

American Samoa and Swain's Island has been determined to be in excess of
350 km as required by DXCC Rules Section II, Paragraph 2, Section b).
QSOs made with Swain's Island on or after 0001Z, July 22, 2006 will
count for DXCC credit.

For additional information, including the DXCC Reference Number for
Swain's Island, contact Bill Moore at the DXCC Desk, dxcc@arrl.org.

* Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX: "Due to
a problem with the DXCC software a few callsigns were not shown
in the DXCC Honor Roll list that was published in August 2006 QST.
Although there were some errors in this computer-generated list, the
on-line Honor Roll listing produced from the same database is correct.
If you were on the Honor Roll between April 1, 2005 and March 31, 2006
and your callsign did not show in the QST list, contact DXCC Branch
Manager Bill Moore, NC1L, at (860)594-0234 or dxcc@arrl.org. We will
publish a correction in October 2006 QST."

EA8, CANARY ISLANDS (AF-004). Chris, DJ2CK, is expected to be active as
EA8/DJ2CK/p from Isla de Lanzarote (DIE S-007 for the Spanish Islands
Award) and the Punta Pechiguera lighthouse (FEA D-2782, ARLHS CAI-047,
WLOTA LH-0099, WW Loc. IL38BU) until August 4th. Activity will be on
80-10 meters SSB and the RSGB IOTA Contest included. QSL via his home
callsign, direct or by the bureau.

EY8, TAJIKISTAN. Nodir, EY8MM, expects to be busy this year during
contests. Look for him to be active during the following contest:
CQWW DX RTTY Contest(September 23-24th);Sinlge-Op/Single-Band (20m)/
High-Power entry. Activity will be limited. QSL vua K1BV.
CQWW DX SSB Contest (October 28-29th); Single-OP/Single-Band (80m)/
High-Power entry. He will use a 4-square and beverages
for receiving. QSL via K1BV.
CQWW DX CW Contest (November 25-26th); Single-OP/Single-Band (160m)/
High-Power entry. QSL via K1BV.

FG, GUADELOUPE. Kanichi (Kan), JJ2RCJ (AB2RF), will be active as FG/AB2RF
from August 3-7th. Activity will be focused on the digital and CW modes.
QSL via AB2RF.

FR, REUNION ISLAND (Cancelled). Stewart, GM4AFF, who was expected to be
active as FR/GM4AFF for the upcoming RSGB IOTA Contest has cancelled his
operation. He states, "I have decided to cancel my operation from Reunion
in the IOTA Contest. It was always going to be hard, but when I found out
that conditions are also really awful, I decided to pull the plug. I'll
have less luggage to carry now!"

IOTA NEWS.....
EU-006. David, EJ3GKB, will be active as EJ3GKB/p from Inisheer Island
(WLOTA LH-2314) during the IOTA Contest (July 29-30th). Look
for activity before and after the contest on 80-6 meters. QSL
via EJ3GKB.

EU-010. Rick, G4BYB/G3PPG, will be active as GM3PPG/p from his portable QTH on South Uist (IOSA OH-03, SCOTIA HI-06) in the Outer Hebrides, now through August 13th. Activity will include the RSGB IOTA Contest (July 29-30th) as a Single-Op/All-Band/SSB entry. Before and after the contest look for Rick to be active mainly on 80 meters SSB, looking for DX with his 80m phased vertical arrays. QSL via GM3PPG: Rick Penman, 9 Southall Avenue, Worcester, England - U.K.

EU-049. George/SV8GXC and Marcel/PA9M will be active from Chios Island (KM38BJ), Greece. Marcel will be active as SV8/PA9M/P from July 29th to August 10th on various bands and modes. QSL via PA9M. George will be active as SV8GXC from July 25th to August 10th on 160/80/40/20/15/10/6 meters on PSK31, RTTY, CW and SSB. The majority of SV8GXC activity will take place on 20/40/80 meters on the digital modes PSK31 and RTTY. George's activity (freq. and mode) will be published ON-LINE in "REAL-TIME" on the Web page at:
http://www.vastianos.com/sv8gxc-expedition
Also, in some cases on DX-Cluster. Scheds may alo be arranged via E-mail at: 6972414304@mycosmos.gr
QSL via SV8GXC direct, bureau, eQSL and LoTW.

EU-088. (Update) Operators Ole/OZ2TF, Jan/OZ5JR, Klaus/OZ7KDJ and Erik/OZ9V will be active as OZ8MW/p from Anholt Island (NK-001 for the Danish Islands Award) between July 27th and August 1st. Activity will include the IOTA Contest (July 29-30th). Look for them to be active on 80/40/20/15/10 meters CW/SSB. QSL via their home callsign, direct or by the bureau.

EU-120. OPerators G3ZGC, G4FON, M0DDT, 2E0KOP and G6FOP will be active as G7N from Isle of Wight (WLOTA LH-2985) during the IOTA Contest (July 29-30th). QSL via G6FOP, direct or by the bureau.

EU-128. Juergen, DJ7YT, will be active as DJ7YT/p from Fehmarn Island during the IOTA Contest (July 29-30th). QSL via DJ7YT.

EU-144. Some Strange Radio Team members will operate as IC8S from Dino Island (IIA CS-002)for the IOTA Contest, July 29-30th. QSL via IK8WEJ. After the IOTA Contest, the Team will be active from Serpenti Island (IIA CS-007). Operators mentioned are: Simone/IZ0BTV, Giovanni/IW7DOL, Marco/IZ7DOK, Gianni/IZ7FLP, Giovanni/IK8LIU, Francesco/IK8WEJ, Vicedomimi/IW8EQS, Oreste/IZ8EDJ, Francesco/IZ8EQF, Mario/IZ8EZP and Salvatore/IZ8GGF.
Photos and info will be publish at:
http://www.strangeradioteam.com

EU-174. Geza/HA4XG and Gabi/HA1YA will be active from Thasos Island as J48XG and J48YA, respectively, between August 5-19th. Activity will be on HF, 50 MHz and 144 MHz. Callsigns for 50 MHz will be SV8/HA4XG and SV8/HA1YA. On 144 MHz, they will use WSJT MS with IC-746 + GSZ35B + 10 element DK7ZB yagi. On 50 MHz, operations will be on JT6M, CW, SSB with IC-706 +

3 element yagi.

EU-182. A group of Ukrainian operators will activate EM5F in the IOTA Contest (July 29-30th) from Ankudinov Island (URDA - OD022, UIA - DU03, GRID - KN45QJ). Operators mentioned are: Alex/UR5FAV, Vlad/UT0FT, Nick/UT2UZ, Vitali/UR5FGW, Boris/UT7UT, Nick/UX0FF (Team Leader), Pavel/UX2HO and Patrick/F6IRF. QSL via UX0FF. All QSL cards from their EM5F 2005 DXpedition were already sent via the Bureau. If somebody still needs it confirmed via the Bureau - send your request (no QSL!) by E-mail to: ux0ff1@izmail.uptel.net
Direct request to: Nick Lavreka, P.O.Box 320, IZMAIL, 68609, UKRAINE.

NA-010. Bryan, K2BW, will be active as K2BW/VE1 from Cape Breton Island (CIsA NS-001 for the Canadian Islands Award) from now until July 26th. Activity will be on 80-10 meters. QSL via his home callsign, direct or by the bureau.

NA-031. Mark, AA1AC, will be activating Aquidneck Island in the Rhode Island State Group during the upcoming IOTA Contest (July 29-30th). Activity will be SSB only. QSL via his home callsign.

NA-112. Sherman, W4ATL, will be active as W4ATL/p from Sunset Beach (USI NC-012S, Brunswick County, North Carolina) during the IOTA Contest (July 29-30th). QSL via W4ATL.

SA-044. The 4M5DX Group, in collaboration with MDXC, plans to activate La Tortuga Island from September 24-30th. Callsign will be YX5IOTA. Operators mentioned are: YV5ANT, YV5KAJ, YV5WW (OH0XX), YV5TX, YV5MSG, YY5RED, YY1RDX, YV1FM, YV5SSB, YY5HBO, YY1ALE, YV1CTE, YV5OHW and YY4MP. Activity will be on all bands and modes. QSL Manager is IT9DAA (QRZ.com). For more information visit the following Web page at:
http://www.4m5dx.org/html/yx5iota.html

MEDITERRANEAN OPERATION. Paolo, F8ENY, is expected to be active now as TK/F8ENY/p from the Island of Corsica (EU-014, DIFM TK-001, MIA MCO-001, WLOTA LH-1390) until August 6th. Activity will be on the HF bands, mainly CW, with an IC-746 and vertical. From August 7-11th (or 12th), he will sign IS0/F8ENY/p from the Island of Sardinia (EU-024, IIA SD-001, MIA MIS-035, WLOTA LH-1608). Activity will also be on the HF bands and 6 meters. From August 13-20th, Paolo he will be signing I1/F8ENY/p from mainland Italy. Activity here will also be on the HF bands and 6 meters. UFT members are requested to please give your membership number when you contact Paolo. QSL via his home callsign, via the French REF-Bureau or direct to: Paravagna Paolo, 267 Avenue Jean Rieux, F-31500 Toulouse, FRANCE. Please nothing via ARI.

MONTENEGRO NEWS.................
* Martti, OH2BH, sent out the following press releases this past week: (July 17th)

MONTENEGRO INTERNATIONAL DX FESTIVAL READY TO PROCEED. "Several vehicles have left various European locations, such as Bulgaria, Poland, Germany and Holland bringing radio equipment and additional antennas to an already impressive multi-multi site on the Adriatic coast, the latest addition - the Republic of Montenegro - to the DXCC List. Operations will commence July 20th and will run until August 13, 2006. The callsign will be 4O3NT. While the DX activation is the most visible part of the festival the group will conduct meetings with the local telecom authorities and also help the Amateur Radio Union of Montenegro toward a membership in the International Amateur Union (IARU). The following operator roster is released: 9A6AA, A61M, DJ7EO, DJ9ZB, DL3DXX, DL6LAU, DL8OBQ, DL5NAM, DL3PS, DL7AJA, DF3TJ, G3TXF, G3UML, I8NHJ, IK1PMR, IZ0BTV, K1ZZ, KA1ZD, K2LEO, K2WR, N6OX, W6OSP, LZ1JY, LZ1UQ, LZ2UU, OH2BH, OH2RF, OH2TA, ON4IA, ON4ATW, ON5TN, PA0R, PB2T, S50R, SM0W, SP5XVY, T95A, UA3AB, UA4HBW, YL2KF, YU1AA, YT3T, YT6A, YT6Y and Z35G plus several others. Participation is still open specifically for the second and third weeks. Please email yt6a@cg.yu cc: oh2bh@sral.fi
The 4O3NT operation will launch Yaesu's new FT2000 transceiver and will also employ several SteppIR beams, courtesy of the Northern California DX Foundation (NCDXF) and SteppIR. Also Acom is providing several amps for this operation. 4O3NT QSL via YT6A." Suggested frequencies are:
CW - 1826.5, 3522, 7022, 10106, 14022, 18072, 21022, 24892 and 28022 kHz
SSB - 3795, 7055, 14190, 18145, 21290, 24945 and 28490 kHz
RTTY - 7035, 10135, 14085, 18105, 21085 and 28085 kHz
6 Meters - 50106 kHz CW/SSB
ADDED NOTE: Online log is available at:
http://www.yu6scg.cg.yu/log-book-search.html

July 21st
AMATEUR RADIO HITS NEW HEIGHTS IN NEW MONTENEGRO: "Today, Thursday, at noon an international amateur radio delegation saluted Montenegrin hams, the local Amateur Radio Union folks as well as representatives of the Telecom and the Military of Montenegro to kick off a three-week program to assist the local people in many areas of Amateur Radio as well as to help make Montenegro visible on the bands in a big way. Totally some seven 4O3T stations will hit the airwaves over this weekend. Veso Babic, YU6A, the Association President and Ranko Boca, YT6A, the Project Organizer, welcomed the foreign visitors to sunny Montenegro and promised all possible help. Martti, OH2BH discussed some of ham radio's current challenges and opportunities to form a schedule for further talks with the local administration. Hans, PB2T of the International Amateur Radio Union (IARU) promised every possible help to get Montenegro soon into the IARU family of national societies. Veso, YU6A, reminded those present of the valuable efforts made during a 1979 earthquake when Amateur Radio secured a permanent place in the hearts of people saved through emergency communication efforts by local amateurs. Mr. Peter Cupic, Deputy Director of Telecom, invited all delegates to a cruise at Boka Bay later on in the program, organized by his Agency. People were in tears when 19-year old Nikola, YZ6AMD called the first CQ to provide the first QSO under the 4O3T program. The German station DF3IU was there at 1020 UTC to win

the honors. Now amateurs around the world are turning their antennas
to the newly born Republic of Montenegro to salute 4O3T operators from
three different continents, representing more than ten nations."

* Hrane, YT1AD-YT5A, informs OPDX that a team of operators will activate
Montenegro with the callsign YU6AO from July 20th to August 15th. He
mentions the location will be Podgorica, Montenegro. The host is Gojko,
YU6AO. Hrane states, "Accomadation and food is free. All of our team
is welcome. We will operate with 4 working station's at the same time."
Activity will be on all bands and modes (CW, SSB, RTTY, PSK, SSTV, FM).
Operators mentioned are: Gojko/YU6AO, Hrane/YT1AD, Milovan/YU1AU,
Ratko/YU1NR, Mladen/YU7NU, Zoran/YU7KW, Marko/4N1JA, Goran/YT7AW,
Igor/RA3AUU, Jack/RW3QC, Eugene/RK3AD(?), Srecko/YU1DX, Trajko/Z35A,
Dragan/Z32AU, Marijan/S56A, Simone/IZ0BTV, Dragan/YZ1EW, Zeljko/YU6ST
and YZ6DCT. Suggested frequencies are:
CW - 1830, 3530, 7010, 10115, 14015, 18080, 21015, 24900 and 28010
SSB - 1850, 3790, 7080, 14232/14250, 18130, 21250, 24930 and 28450
RTTY - 3585, 7040, 10130, 14085, 18110, 21085, 24910 and 28085 kHz
6m - 50.102 and 50.130 MHz
2m - 144.050 and 144.310 MHz
QSL via YU6AO, via the YU Bureau or direct to: Gojko Mitrovic,
Crnojevica 4, 81000 Podgorica, Montenegro.

* During International DX Festival in Montenegro (July 20th-August 12th),
Emir, 9A6AA, informs OPDX that he will try to get a license (4O3/9A6AA)
for activity from Sv Nikola (IOTA EU-163, MIA MY-003). Depending on his
free time (and license, of course), Emir plans to be active a few hours
on SSB on 40 and 20 meters.

OH0, ALAND ISLANDS. Ralph/DL1SVA and Frank/DG0GA are now active as
OH0/homecall/p until July 28th. Look for activity on all HF bands, CW
and SSB. QSL via their home callsigns, direct or by the bureau.

P40, ARUBA. John, KK9A, will be active as P40A in the CQWW DX CW Contest
(November 25-26th) as Single-Op/All-Band entry. QSL via WD9DZV.

QSL INFO AND NEWS.................
Oscar, HK6DOS, reports: "The Liga Colombiana de Radioaficionados (LCRA)
was established in 1935, and for many years was an important and
respectful organization with a good number of members. Its bureau service
worked well for decades, providing an excellent service for all its
associates. For the last 5 years now, it has been losing importance,
that is members, activity and management. Today, nobody really knows
the whereabouts of their QSLs, inbound or out. For this reason many
Colombian amateurs currently have a QSL manager. Please be informed
that the Colombian Bureau service is out of service for hams outside
of the 3rd Colombian zone (HK3) who have not had information on the
bureau status for many years now, and you should not waste your money
or time, as the LCRA has cancelled this service to its members and
international bureaus. We are; therefore, regretfully advising the DX
community to refrain from sending QSLs via our LCRA bureau."

CORRECT QSL ROUTE FOR VQ9LA. QSL VQ9LA to: Larry Arneson, DG-21 Anx 30, PSC 466 Box 24, FPO AP 96595-0024, USA (or by QRZ.com). SASE is required for direct QSLs. QSL via the Bureau is fine (Also by VQ9 Bureau or USA Bureau). Logs will be uploaded to LoTW once he leaves the Island. N0QM and WD0HSP ARE "NOT" HIS MANAGERS. The callsign N0QM is his stateside callsign, and WD0HSP is his former callsign. Larry mentions that some people still send to N0QM, and his parents hold on to the envelopes and send them to him about every 6 months or when he goes home on vacation. If you send to N0QM, there will be a big delay in getting the cards direct.

TK, CORSICA. Andrea, IW0HK, will be active as TK/IW0HK until July 30th. He is expected to be in the IOTA Contest on 20 and 15 meters. QSL via his home callsign, direct or by the bureau.

TZ, MALI. Members of the VooDoo Contest Group will be active as TZ5A for the second year in a row during the 2006 CQWW CW Contest (November 25-26th) as a Multi/Multi entry. QSL via G3SXW. Operators mentioned are: Ed/AA7A, Roger/G3SXW, Fred/G4BWP, John/G4IRN, Robert/GM3YTS, Vince/K5VT, Mike/KC7V and Lee/KY7M.

V4, ST. KITTS AND NEVIS. Kanichi (Kan), JJ2RCJ (AB2RF), will be active from Nevis as V47/AB2RF from August 8-12th. Activity will be focused on the digital and CW modes. QSL via AB2RF.

Incidentally, unless the radio authorities in Guinea have changed
things, I've only ever heard 3XY calls out of Guinea.

I've worked 3XY2A some years ago. And yes, it was for sure, three
x-ray yankee two alfa.

Anyone ever work one that wasn't like this? Now that I come to think
of it, 3XY2A might be the ONLY 3X I've worked, and maybe that's a
fluke?

73,
Dan

Currently the situation is that he owes the FCC a boat load of cash as the fines have been affirmed. His renewal application has been set aside, but until it's fully rejected he retains his privilages to operate.

We are waiting for the pending dismissal of his renewal aplication that will end K1MAN's operating privilages and the collection of the fines by the DOJ.

The rejection of his license renewal could happen at any time. In fact I expected it to happen before now. I'm starting to wonder if he's not trying to make a deal with the FCC and it's holding up final actions.

I did, but it was in late 1991-early 1992. Over a 3-month period I
worked 3X0HNU on three bands.

My only more recent 3X QSO was with 3XA8DX in 1997. I think I remember
other letters besides Y following the "3X" in recent years, but I don't
remember any recent Guinea calls having a number in the 3rd position.

I had three QSOs with 3XDQZ/P in 2004, one with 3XY1L in 2003, one with
3XY6A in 2002, and one with 3X1SG in 1990.

Hello YLs/OMs from US!

I am Ron, dl7ba from germany, Bad Sï¿½leze near Rostock.

For my Award "Worked All States" i need some contacts with
stations from the US states. I am missing stations that using
the LoTW and comes from the states:

Alabama, Colorado, Idaho, Mississippi, Nevada,
North Dakota, South Dakota, West Virginia and Wyoming.

Other contacts also welcome!

Now i have entrys from 41 states in the LoTW ARRL logbook.

Who can make a sked on the 20m in cw or ssb.
Running here with 700 Watt and 2element Yagi.

If you can help, pleace send a Mail to make a sked.

I really don't think the FCC is at a loss with how to deal with this guy, but that's a possible reason for the delay.

The most likely reason is that they are waiting on the DOJ case to get started and use that pressure to get him to agree to withdraw his renewal application and agree to stay away from transmitting equipment.

Either way, time is on their side and he's being rather well behaived lately.

Now it's the crazy up north that needs to be dealt with next...

hard to believe the DoJ will bother with the case anything K1MAN seems
to be accused of is pretty minor in view of the outer world the most
troubling to me is the charge he interferesed emergency trafic

>
> Either way, time is on their side and he's being rather well behaived

Hello Roland,

I am going for WAS on LOTW also. I am up to 39 confirmed on 20m.
Here are my latest LOTW QSL's from the states you need. I hope they
have e-mail addresses that you can look up on QRZ.com.

Alabama
K4HAL KE4KWE WX4TM

Idaho
N7UVH

Mississippi
KC5LK N4OGW

South Dakota
K0HW

I've worked several Colorado LOTW users, but no QSL's yet!

Many of the above were either on RTTY or in contests.

I hope this help. Happy state hunting!

Ohio/Penn DX Bulletin No. 769

The Ohio/Penn DX PacketCluster
DX Bulletin No. 769
BID: $OPDX.769
July 31, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1VV, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5XK, WW5L, K8YSE, NE8Z/HC1MD, W9DX, N0HJZ, Pete's-DX-Newsdesk, CX5BW, DL1EK & The DX News Letter, F5NQL & UFT, HA5BWW, I1JQJ/IK1ADH & 425 DX News, LU6EF, M0RNR, OH2BH, OH2BN, PT7WA, RSGB IOTA, UT5UGR, VA3RJ & ICPO, YO3JW and YU1AB for the following DX information.

** SPECIAL NOTE FROM EDITOR (Tedd, KB8NW): This week's bulletin was sent out earlier than normal to provide the latest update on the Swains Island DXpedition and to accommodate the late RSGB IOTA Contest announcements. Also, we advise readers to visit NG3K Amateur Radio Contest/DX Web Page which will provide a consolidated listing of the RSGB IOTA Contest participants at: http://www.ng3k.com/Misc/iota2006.html

*** KH8S, SWAINS ISLAND (News/Update). Operators Kan/JA1BK (Team Leader), Uti/KS6FO, Paul/F6EXV, John/K1ER, Tets/AH7C and John/K8YSE are on their way to activate the new DXCC entity (#337) under the callsign KH8SI. According to a press release by Larry Gandy, AH8LG, the team set sail for Swains Island on the "MV Tokelau" from Pago Pago harbor on Thursday, July 27th, at 12:30 local Samoan time which is 2330z. The trip will take about 24 hours to get to Swains Island (OC-200) and should be operational about 6 hours after landing. This means they should be on landing around 0000z Saturday and possibly be on the air around 0600z. The team would have liked to have been there earlier but transportation availability in American Samoa has been the reason for their delay. This will be a short operation. The team will leave Swains Island on Tuesday, August 1st. They need to be back in Pago Pago on August 3rd to catch their flights. The team will be concentrating on 160-17 meters CW/SSB because of expected propagation conditions. They are also taking plenty of equipment with them. This list was released earlier in the week:
1 EA FT-2000 TXR Many other dipoles for other bands.
1 EA FT-1000MP TXR A pushup mast and other types.
1 EA ALPHA 87A AMP Lots of rope and a slingshot for

1 EA PL-922A AMP getting rope in the coconut trees.
1 EA VL-1000 AMP Plus all the other stuff like food,
1 EA FT-900 water, coax cable, computers for
2 EA HB9CV BEAMS ONE FOR 18 AND 14 logging, gas for generators, tents
1 EA 3EL SPIDERBEAM 15-17-20 and nets for bugs.
1 EA 5500 WATT GENERATOR
1 EA 4500 WATT GENERATOR
1 EA FOLDED DIPOLE 3-30 MHZ

OPDX and its readers would like to wish the team the best of luck and a safe operation. The KH8SI team is calling this a "FRIENDLY DXPEDITION IS!" operation.
PLEASE NOTE: The team "WILL NOT" be in the IOTA Contest, so please DO NOT ask for a contest report. If you need OC-200 for a new island, PLEASE JUST MAKE A NORMAL QSO CONTACT. QSL this KH8SI operation via JA1BK.

ONE LAST NOTE: A couple of the team members were active this past week from American Samoa. John, K8YSE, informed your editor on Wednesday that he made 900 QSOs as KH8/K8YSE. QSL via K8YSE. Paul, F6EXV, was also active as WH8/WH7S. QSL via F6EXV.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 21st/July, through Friday, 28th/July there were 196 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3W, 4J, 4L, 4S, 4W, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5W, 5Z, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, JA, JD/o, JT, JW, K, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TN, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4O3/YU6, MONTENEGRO. Operators Toma/YU1AB and Emin/T91S will be active as YU6/YU1AB and YU6/DK4ES, respectively, from August 1-10th. Activity will be focused on the SSB and CW modes. QSL via YU1AB.

4O3T AND YU6AO, MONTENEGRO NEWS. Both 4O3T and YU6AO operations are still very active all over the bands (CW/SSB/RTTY). Activity will continue through August 13-15th. There are no press releases or updates to report on from the YU6AO team. However, the YU6AO team now has a Web page with an online log search at: http://www.yu6ao.info/
As this was being typed, the log was only updated through July 25th.
Martti Laine, OH2BH, (one of the operators of the 4O3T team) has put

out a few press releases over the past week with some pictures. On Thursday, July 27th, Martti informs that the first wave of operators have done a mammoth job and 50k QSOs have been made. The first team of operators are preparing to leave as the second team is beginning to arrive. Martti states, "DXpedition leader Ranko Boca, YT6A, indicates that everything is on track for the next 50K QSOs with a new and fresh operator fleet." OPDX InterNet Subscribers will receive all of Martti's press releases (minus the picture) as an additional bulletin.
JUST A REMINDER: The 4O3T online log is available at:
http://www.yu6scg.cg.yu/log-book-search.html

C9, MOZAMBIQUE (IOTA Op). Ken/G3OCA and Rei/DL6DQW will be in C9-land from August 5-14th. During their stay, they plan to activate the Island of Inhacamba (AF-103) the last unactivated IOTA group in Mozambique. The callsign may be C94KF. QSL via G3OCA. Activity will be on 40-10 meters, CW and SSB. Also, look for them to be active from the mainland using the callsign C94RF or C93RF.

COULD THERE BE A 338? There have been several reports in the media that Kosovo Representatives have formally made a pitch for independence face-to-face with Serbia. Kosovo's ethnic Albanian President Fatmir Sejdiu said independence was "the beginning and end of our position." Could this be DXCC entity 338 in the close future?

CT3, MADEIRA ISLANDS. Zoltan, HA5PP, will be active as CT3/HA5PP during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band entry (band not mentioned). QSL via HA5PP.

IOTA NEWS (RSGB IOTA Contest this weekend, July 29-30th).....
AS-122. Operators HL2UOK, HL2AEJ, HL2IFR, HL2ADO and HL2IYI will be active as D7C from Daecheong Island, July 28-30th. Activity will include the IOTA Contest. QSL via HL2IFR.

EU-006. Dave, EI3IO, will be active as EJ3IO from the Aran Islands from July 27th to August 1st. QSL via his home callsign.

EU-008. Members of the Cockenzie and Port Seton Amateur Radio Club (CPSARC) will once again operate from the Isle of Tiree (IOSA NH04, WAB NM04), the most westernly of Scotland's Inner Hebridean Islands, during the RSGB IOTA (Islands on the Air) Contest which runs from 1200z, July 29th until 1200z, July 30th, using the club's special contest callsign GM2T. This year's team consists of : Cambell/MM0DXC, Bob/GM4UYZ, John/MM0JXI, Brian/M0RNR, Landles/GM4XZZ, Norman/GM4IUS, Willie/MM0WZZ, Gareth/M3INO, Derek/MM3PYX, Colin/2M0CRR, Moe/MM0MRM, Ellis/GM4GZW and Geoff/MM5AHO. For QSL information visit http://www.qrz.com/gm2t or QSL via GM4UYZ Bob. For details about CPSARC, visit their Web page at: http://www.cpsarc.com

EU-030. Look for Jens, DL8WOW, to be active as OZ/DL8WOW from Bornholm Island (BO-001 for the Danish Islands Award, WLOTA LH-2203), August 7-17th. Activity will be on 40-10 meters, mainly QRP CW

at 5 watts. QSL via his home callsign, direct or by the bureau.

EU-064. Members of the RC de Provins ARC will be active as TM7C from Ile de Noirmoutier, July 27th through August 8th. Operators mentioned are: Frank/F4AJQ (SSB), John/F5VHQ (SSB), Jean-Paul/F8BJI (SSB), Pascal/F5JSD (CW), Flo/F5CWU (CW) and Bernard/F9IE (CW). Activity will include the IOTA Contest as a Multi-Op/Mixed-Mode/24-HR/Low-Power entry. Look for activity outside of the contest on the HF bands, including the WARC bands and 6m. Modes will be CW, SSB and digitals. QSL via F6KOP, bureau preferred.

EU-091. Operators IK6CAC, IK7JWX, 9A3A, IK7QMJ, IK7FPX, IK7LMX and I7PXV will be active as IK6CAC/7 in the IOTA Contest as a Multi-Op/Mixed-Mode/Low-Power/DXpedition entry from Grande Island of Porto Cesareo (LE)(IIA LE-02). Outside the contest, look for activity on 6m (WW. Locator JN80WG). QSL via the home callsign, by the bureau or QRZ.com.

EU-127. Operators Andy/DL7AT, Olaf/DL4HG, Dirk/DJ1LD, Andy/DG3XA and Thorsten/DG7TG will be active as DF0TX and DA0T from Helgoland Island (N-14 for the German Islands Award, WLOTA LH-0518), July 28-30th. Activity will include the IOTA Contest. The operators might use homecall/p prior to the contest. QSL via their home callsign. QSL DF0TX via the information on QRZ.com.

EU-149. Operators ES1AN, ES1LS, ES1QV, ES1LSR, ES2EZ, ES2DJ and ES2NJ will be active as ES2U from Rammu Island from July 27th to August 1st. Activity will include the IOTA Contest.

EU-183. A group of Romanian hams will try to activate Sacalinu Mare Island in the Black Sea. They will be active in the IOTA Contest and after with the callsign YP1W. The group will be on the island between July 26 and August 6th. If possible, they will try to activate some of the lighthouses in the area: ROM 007 and ROM 008 (using homecall/p). Operators mentioned are: YO3JW, YO8RIJ, YO9GJX, YO9WF and YO9XC. QSL via YO3JW.

NA-026. Andrei, EW1AR-NP3D, will be active as NP3D/W2 in the IOTA Contest.

NA-096. Mark, KB2MS, will be active as HI3/KB2MS from Puerto Plata, Dominican Republic between July 28th to about August 23rd. Activity will be on all bands, except 160 meters. QSL only direct via his home callsign.

KH0, MARIANA ISLANDS. Skip, JE2HCJ, is expected to be active as KH0/JE2HCJ from Saipan, Northern Mariana Islands (OC-086), July 27-31st. Activity will be on 160-6 meters using CW, SSB and RTTY. QSL via his home callsign, direct or by the bureau.

LIGHTHOUSE ACTIVITY. Peter, SP5PB, will be active as SP5PB/2 from Stilo Lighthouse (POL-017) to commemorate 100th anniversary of the lighthouse's

establishment. Activity will be on HF both CW and SSB between August 17-20th. A special award will be issued for all who make contact with SP5PB/2 from Stilo Lighthouse. Details on the award is available at: http://www.qsl.net/sp5pb/STILO.htm

NATIONAL LIGHTHOUSE-LIGHTSHIP WEEKEND QSO PARTY (NLLW-2006). The NLLW QSO Party will be held August 5th, 0001z to August 6th, on through 2359z. The activity is to promote public awareness of ham radio and lighthouses; to contribute to the recognition that lighthouses, lightships, and their keepers deserve; to foster camaraderie within the ham fraternity; and to provide fellowship amongst the members of the Amateur Radio Lighthouse Society. Awards are available. Please visit:
http://arlhs.com/NLLW-2006-guidelines.html
Also, visit: http://arlhs.com/

P3, CYPRUS (AS-004). Denis, 5B4AHI, will be active as P3B during the RSGB IOTA Contest (July 29-30th). QSL via RX3RC.

P40, ARUBA (SA-036). John, W2GD, will be active as P40W during both the CQWW DX SSB Contest (October 28-29th) and the CQWW CW Contest (November 25-26th) as a Single-Op/All-Band entry. Activity outside the contest will be on the WARC bands and 160m. QSL via N2MM.

QSL INFO AND NEWS.....
Effective, July 1st, QSL 3B8FQ direct or via K5XK--not via RW6HS or the RB5 routes listed in some databases. Rachid's direct address is now updated on QRZ.com and QSLs are being printed for distribution by Ron, K5XK. Rachid now has an updated rig and is spending more time on the WARC bands as time and propogation allow.

C91TL QSL STATUS. Tom, WW5L/C91TL, reports that all 200+ cards for his C91TL Mozambique operation received direct as of Monday, July 24th, have been answered. Approximately 2,100 contacts are in the log. He also mentions that the QSL routes for other stations on their Mozambique DXpedition go via the following QSL routes:
C91CF & C91HQ--K5LBU--Frosty C91TK-NQ7R--Tom
C91TL--WW5L--Tom C91H-ZS6JR--Daniel
C91JR--N4PJ--Art
ADDED NOTE: An online log search for the K5LBU Mozambique DXpedition (June 29th-July 13th) is now available for callsigns C91CF, C91HQ, C91TL, C91JR, C91EE, and C91TK at: http://www.tdxs.net/C9.html

Luke, PT7WA, reports that QSLs for all WRTC2006 stations will be managed by PP5VB. You may QSL via Bureau or direct to PP5VB. He also provided a list of SA-026 and SA-027 WRTC stations:
SA-026 (13 stations) SA-027 (5 stations)
---------- ----------
PT5G by N9RV and K3LR PT5P by DL6FBL and DL2CC
PT5I by YL2KL and YL1ZF PT5Q by W2SC and K5ZD
PT5J by N6BV and AG9A PT5X by PY2NY and PY2EMC
PT5O by HP1WW and N5ZO PW5N by JK2VOC and JA2BNN
PT5T by PY2YU and PY1NX PW5W by RA3AUU and RV1AW

PT5V by 9A6XX and DJ1YFK
PT5W by LY2TA and LY2CY
PW5C by N6MJ and N2NL
PW5D by K1ZM and K1KI PP5WRTC was also from SA-026.
PW5E by BA4RF and BA7NQ The other PT5 and PW5 stations
PW5J by P43E and WA1S (YL's) were operating from the Santa
PW5T by UA9DM and RZ3AA Catarina State mainland.
PW5U by XE1KK and XE1NTT

SILENT KEYS (SK).....
N4BQW - Chuck Brady, DXer and retired space shuttle astronaut, became "SK" on July 23rd. His age was 54. Many may remember him by his 3Y0C Bouvet Island operation and his work on the SAREX (Shuttle Amateur Radio Experiment) program.

CW7BY - Raul Roji, a very enthusiastic DXer and Contester became a "SK" on July 25th. His age was 84.

HA5HR - Alex (Szilard Kerekes), a known Hungarian HAM, old timer - became a "SK" on July 19th. His age was 84. His previous callsign at the age of 35 was YR5BP.

OPDX and its reader would like to send out our deepest sympathy to the families and friends of the above individuals.

SPECIAL EVENTS. The International Shortwave League (ISWL) still continues with their 60th (Diamond) Anniversary celebrations this coming weekend: July 29-30th. Look for GB6SWL to be active for 2 days from Walton on the Naze, Essex. Herbie, G6XOU, will be the main operator. PLEASE NOTE: The ISWL QSL information has been changed. Herbie Yeldham, G6XOU, has taken over as the QSL Manager for ALL ISWL Club and Special Event Callsigns. Herbie has also become the ISWL's QSL Bureau Manager. All cards and logs sent to the old address WILL be forwarded to Herbie, so there is no need to resend cards to the new address. The NEW address for the Bureau and QSL Manager, is: The ISWL QSL Bureau, Belle Fleurs, 18 Wade Reach, Walton on the Naze, Essex, CO14 8RG England. Also, see QRZ.com for further details. Direct Cards are welcomed, also via the ISWL Bureau, or the RSGB Bureau, or Electronic cards via, www.eqsl.cc (They do not currently use LOTW). OTHER NOTE: The ISWL Club callsigns - "GS4BJC /P" and "MX1SWL /P" will also be active until the end of July. The ISWL Awards Program is open to non members for a very small fee to cover postage to any country in the world. For all details, including QSL information and the Special Diamond Anniversary Awards, etc....., please visit: http://www.iswl.org.uk

SV5, DODECANESE. Giannis, SV5FRI, will be active from Symi Island (MIA MGD-030), August 6-19th. Activity will be on 80/40/20/17/15/12/10 meters CW/SSB. QSL direct to SV5FRI via address on QRZ.com.

T8, PALAU. Hide, JM1LJS/T88LJ/T80W, plans to be active as T80W from the Rental Shack of West Plaza by the Sea Hotel, Koror, Republic of Palau (OC-009), October 6-10th. If he can not use the special callsign T80W, he will be signing T88LJ. QSL via JM1LJS, direct or by the bureau. More

information is available at: http://radio-dream.com/t80w/

TX5, MAYOTTE. Operators Tom/DL2RUM and Jan/DJ8NK will be active as TX5T and TX5NK, respectively, between August 31st and September 11th. Activity will be on 160-6 meters, CW, SSB, RTTY and PSK. QSL via their home callsigns.

VB4, CANADA (Attention Prefix Hunters!). Rich, N0HJZ, will be operating from Canada from October 26-30th as VB4MWA. He believes this is the first time in 15 years that the VB4 prefix has been used. Rich will also be operating in the CQWW DX Phone Contest using the VB4MWA callsign. He will enter in the contest as a Single-Operator/High-Power/Assisted category. QSL via his home callsign with an SASE.

WRTC NEWS. Some pictures of "Team Ukraine" at WRTC 2006 in Florianopolis, Brazil are available at: http://www.ut5ugr.com/wrtc.htm

Subject: 4O3T --- Montenegro --- 75M SSB
From The Beautiful Coastal City of Bar
Date: Tue, 25 Jul 2006 16:31:01 +0300

The following message is from Martti, OH2BH now in Montenegro:

4O3T --- MONTENEGRO

75M SSB From The Beautiful Coastal City of Bar

During the first weekend, with more than 30.000 QSOs in the books, the 160/80M emphases were on cw with low-band powerhouse Ditmar, DL3DXX and the likes of him at the helm. In spite of the summer season, they were able to get their signals deep into the Midwest of the U.S. on 160M using a Titanex vertical. On Monday, first steps were taken to prepare 75M SSB activity for the coming weekend from Ocas near the coastal city of Bar. Trial operations will be conducted tonight by Dragan, YT6Y.

The location is part of a navy radio station utilizing large commercial wide-band conical antennas with a gain of 5dBi. It's a low-band dream location with a large sloping plateau next to the Adriatic Sea with an open shot toward the United States, Japan and Europe. While the place looks like a paradise, it hides an extensive radial field buried into the ground. We heard stories about 200-watt ship radios relaying messages with S9 telephone-like signals below 2MHz from Cuba and other long distance maritime locations.

In the evening, sipping the best local wines during a planning session, Nick, LZ1JY was heard making a rock solid commitment to put three-thousand 75M QSOs into the books from this marvelous QTH. "I'm not gonna leave the country before the job gets done", Nick affirmed. Nick will be operating with his personal low-band gear while Acom Bulgaria has lined up their best amplifiers for this activation.

On the regular 4O3T sites, plans were made to boost the second weekend run for an even stronger performance than the first because the sites are now built up and fully stabilized. Latest on July 27, RTTY will added when the IK1PMR and K2LEO duo arrives. Also the first 6M QSOs were made yesterday, and soon the magic band will be up and running.

From: "Jarmo J. Jaakola, OH2BN" <oh2bn@kolumbus.fi>

Subject: OH2BH: WHAT DO YOU DO IF ONE MORNING YOU WAKE UP IN A NEW DXCC COUNTER?
Date: Thu, 27 Jul 2006 12:36:51 +0300

The following report is from Martti, OH2BH, now in Montenegro:

WHAT DO YOU DO IF ONE MORNING YOU WAKE UP IN A NEW DXCC COUNTER?

While in Montenegro, one thing is a must. Find Rajko, YU6DZ who has been a most productive local operator in the Republic of Montenegro since its birth and who has delighted the bands with his solid presence.

Driving to his house through and under climbing gravevines and honeybee hives shows immediately that there is a ham there spelled with a capital H --- a 4-element quad overlooks the property and the man himself with Mama Margarita are there to welcome us.

Over an expresso and cookies we talk, and we talk some more over some homemade brandy. Ugh, gulping the stuff down, it is strong like the signals on 20M this morning.

"Life will never be the same again now that QSOs are coming in left and right", says Rajko, a 65-year old retired Chief Naval Security Officer. "My days have got a new routine. Yes, there's breakfast and lunch and dinner, but nowadays there are QSOs in between them. It's only some twenty days and I have more than 6500 of them", Rajko muses.

He is considering on updating his current Yaesu FT101B to more modern gear but Mama Margarita objects. "If Rajko gets into this changing mode, he may update everything - and I may have to go as well". Margarita is full of happy life and humor and nowadays even more so. "I have started to collect stamps and I get a full bag every day. We are now seen as popular favorites by our mailman". And then we open some of the letters that have arrived today.

"It only took a few days until I realized that it would not work on my own frequency but I saw that the tubes of my separate VFO would still light up, and I gave them some rock and roll", Rajko continues.

But I find many people not in the log - and we start leafing through the pages of Rajko's logbook filled with handwritten entries that look like objects of art. The QSOs go fine all the way, but then in the final stage people do not understand that the confirmation phase is equally important. It's a matter of not leaving a good affair halfway through. "I cross them out - look at these... there was a QSO but no more. They should make a solid one and not run away", Rajko points out. He tunes up the trustworthy FT101B and lets his old electronic key sing, and sure it does. We realize that he wants to be perfect on the end part - maybe even throw in a CQ before starting the next QSO. Do we all remember that CQ means "I seek you"? Surely Rajko does that and then some more.

That gives us a chance to review his logbooks and find out the first ten that got him during his first days.

USA: W7CB, W6LZ, W3UR, W3LPL, NG8Z, W3BGN, N4OA, N6AR, K2VV, W5UN
JA: JJ2LPV, JA4DND, JA3FGJ, JE2LUN, JA1EOD, JA2XKM, JG3FPD, JJ2LPV, JA2FMW, JR2JLO
EU: YZ7AA, I2ZBX, HB9AFI, DL6KVN, LA6CF, LX1NO, SM5DJZ, OK1TM, SP8AJR, OH2BU

But we find a treasure there as well: with his transverter and 7 watts Rajko has added HI3TEJ, NL7AU/4, N4IS and W1JR to his book on 6M!

Mamma Margarita is packing up something for us to take home, as they do in those friendly corners of the world. We get two jars of honey and two bottles of brandy made by YU6DZ from their own berries. We are hugging and hoping to see again. It's a warm feeling to have met Rajko and Margarita in their own element - under the climbing grapevines and and the 4-element cubical quad.

As we back out, my cell phone sends a text message - it's from Bernie, W3UR. "I am just working Rajko on RTTY". But Rajko is still standing on the driveway and waving us goodbye. We did not see anything looking like RTTY in the house. But I just answer Bernie: "DX Is".

From: "Jarmo J. Jaakola, OH2BN" <oh2bn@kolumbus.fi>

Subject: OH2BH: 4O3T OPERATION HITS THE 50.000 QSO MARK AFTER FIRST WEEK
Date: Thu, 27 Jul 2006 15:38:54 +0300

The following story is from Martti, OH2BH:

4O3T OPERATION HITS THE 50.000 QSO MARK AFTER FIRST WEEK

It is Thursday with 50K QSOs under the belt and the first wave of operators having done a mammoth job, coupled with building the camp in temperatures often reaching 45 degrees C (115 F). They have not seen clouds or rain during the entire week. The home going ops will be saying goodbye on tonight's dinner cruise while welcoming many of the second week people to Montenegro.

DXpedition leader Ranko Boca, YT6A indicates that everything is on track for the next 50K QSOs with a new and fresh operator fleet. He also wants to recognize Hans, PB2T for acting as site manager in Klinci and other members of the Organizing Committee for their valuable contributions as well as all the guest operators for giving their best effort and time out of their summer schedules.

The 4O3T powerhouses, Ranko, YT6A and Dragan, YT6Y were heading home yesterday to see their families after ten days away, only to return today to lead the dinner cruise. Ranko's message to the world is: "Allow us to celebrate on Thursday night, we will be back on duty on Friday".

Many people have commented on the huge signals emanating from 4O3T. Here is the lineup: the Obosnik site is located on top of a 600m mountain overseeing the beautiful Boka Bay with the following antennas: 10M: 5-L, 15M: 3-L & 4-L, 20M: 3-L and 5-L beams fed together, 40M: 5-L beaming to USA, 80/160M: slopers from a 45m tower plus NE and NW beverages; on the Klinci site a TB36 tribander is used plus a Titanex vertical and a variety of other vertical and wire antennas. On both locations they use 2-L SteppIR beams on WARC bands donated by SteppIR and the Northern California DX Foundation (NCDXF).

Five (5) Yaesu FT1000 transceivers with a range of amplifiers are employed while a new FT2000 has undergone severe field testing, driving a huge Henry amplifier to provide Yaesu with a complete field report. Other smaller radios are used for a number of special tasks.

SODOMY IS AN ABOMINABLE SIN, WORTHY OF DEATH.
"If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination: they shall surely be put to death; their blood shall be upon them." Leviticus 20:13. "Who knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them." Romans 1:32.

See also Leviticus 18:22, Genesis 19, Romans 1:18-32, I Corinthians 6:9-11, I Timothy 1:10, and Jude 7.

GOD HATES ALL WORKERS OF INIQUITY.
"The foolish shall not stand in thy sight, thou hatest all workers of iniquity." Psalm 5:5.
See also Leviticus 20:23, Leviticus 26:30, Deuteronomy 32:19, Psalm 5:6, Psalm 11:5, Malachi 1:3, Matthew 7:23, and Romans 9:13.
JESUS CHRIST DIED ONLY FOR THOSE WHO BELIEVE.
"For God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life." John 3:16.
See also John 13:1, John 17:9, Ephesians 5:25, etc.
ONLY GOD'S ELECT HAVE THE CAPABILITY TO BELIEVE.
"Therefore they could not believe, because that Esaias said again, He hath blinded their eyes, and hardened their heart; that they should not see with their eyes, nor understand with their heart, and be converted, and I should heal them." John 12:39,40.
See also John 10:11,26, Matthew 11:25,26, Acts 13:48, Romans 9:19-24, etc.
SODOMITES ARE PROUD OF THEIR SIN ("GAY PRIDE"), AND IN THAT PRIDEFUL STATE THEY CANNOT REPENT - YOU CANNOT REPENT OF SOMETHING YOU'RE PROUD OF.
"Were they ashamed when they had committed abomination? nay, they were not at all ashamed, neither could they blush: therefore they shall fall among them that fall: at the time that I visit them they shall be cast down, saith the LORD." Jeremiah 6:15.
See also Jeremiah 13:23, Romans 1:24-32, Ezekiel 16:49-50, etc.
THE SODOMITES' ONLY HOPE IS TO HAVE THE UNAMBIGUOUS TRUTH PREACHED TO THEM, AND PERHAPS GOD WILL SOFTEN THEIR HEARTS AND GRANT THEM REPENTANCE TO DEPART FROM THEIR SIN AND NAME THE NAME OF CHRIST. NOT VERY LIKELY, THOUGH, SINCE GOD HAS GIVEN THEM UP.
"Nevertheless the foundation of God standeth sure, having this seal, The Lord knoweth them that are his. And, Let every one that nameth the name of Christ depart from iniquity." II Timothy 2:19. "Wherefore God also gave them up to uncleanness...unto vile affections...to a reprobate mind." Romans 1:24-28.

See also II Timothy 2:24-26, Psalm 5:5, I Corinthians 6:9-11, Acts 17:30, Jude 22,23, etc.
THERE IS A HELL WHERE ALL IMPENITENT SINNERS WILL RESIDE FOR ALL ETERNITY. THAT INCLUDES SODOMITES (CALLED "DOGS").
"And they shall go forth, and look upon the carcasses of the men that have transgressed against me: for their worm shall not die, neither shall their fire be quenched; and they shall be an abhorring unto all flesh." Isaiah 66:24. "For without are dogs..." Revelation 22:15.
See also Mark 9:44, Luke 16:23, Revelation 20:15.
In summary, sodomites are wicked and sinners before the Lord exceedingly (Gen. 13:13), are violent and doom nations (Gen. 19:1-25; Jgs. 19), are abominable to God (Lev. 18:22), are worthy of death for their vile, depraved, unnatural sex practices (Lev. 20:13; Rom. 1:32), are called dogs because they are filthy, impudent and libidinous (Deut. 23:17,18; Mat. 7:6; Phil. 3:2), produce by their very presence in society a kind of mass intoxication from their wine made from grapes of gall from the vine of Sodom and the fields of Gomorrah which poisons society's mores with the poison of dragons and the cruel venom of asps (Deut. 32:32,33), declare their sin and shame on their countenance (Isa. 3:9), are shameless and unable to blush (Jer. 6:15), are workers of iniquity and hated by God (Psa. 5:5), are liars and murderers (Jn. 8:44), are filthy and lawless (2 Pet. 2:7,8), are natural brute beasts (2 Pet. 2:12), are dogs eating their own vomit and sows wallowing in their own feces (2 Pet. 2:22), will proliferate at the end of the world bringing final judgment on mankind (Lk. 17:28-30), have been finally given up by God to uncleanness dishonoring their own bodies among themselves, to vile affections, and to a reprobate mind such that they cannot think straight about anything (Rom. 1:23-28), have wholly given themselves over to fornication and gone after strange flesh (Jude 7), must be pulled as faggots from the fire (Jude 23), and have no hope of Heaven unless they repent (Rev. 22:15), which they can't do in their prideful state (Jer. 6:15). They need to hear this truth if they are to have any hope of penitence, faith in Jesus Christ and salvation (I Timothy 4:2-4).

For North Dakota try KD4POJ

Do you have any suggestions for LOTW users in Vermont, Delaware and
Maine?

73

Tim K6GEP

You know you can use a mix of LOTW confirmations and card confirmations.
Some of those states have very low populations and thus low populations of
hams and probably an even lower number that are on LOTW.

i have in my LOTW qsl from K1IB for Vermont and W3PP for Delaware.

If you need, i send a longer list with LOTW-Calls from this states.

I have now with my RadioAmateruCallbook, the LOTW-List from the
VE7CC-Software and a little work with ACCESS the missing calls...

Thanks. The ARRL web site says to email for the number for Swain's.
One would think that this sentence could just have easily said, "The
number is XXX."

On HF, if the two operators have successfully exchanged callsigns,
that's generally considered enough to constitute a QSO.

I don't guarantee that the same practice is observed on EME, some things
are done differently on VHF.

Same thing with the first VU4 operation -- but you use the modes for which you have operators. It's my understanding this operation was planned relatively quickly & may not have had the chance to recruit as much CW help as they might have liked.

I am hearing them now on 20 CW (and heard them yesterday on 30) but the pileup is ridiculous. I've got 'em worked on 17 SSB, and I figure there will be more expeditions to Swain's in the future so if I don't get them on CW in the next week there'll be a chance again later.

Been having a lot more luck with 4O3T. And the 5W0's, one of whom called me in the IOTA contest last night on 40 CW...

Ummm.. That's not on the list of charges I've seen in the NAL for
K1MAN..

Perhaps you are confused with the guy in CA who interfered with a coast
guard operation?

You have been taken in by the oldest scam in ham radio. Your logs
mean nothing because you never did moonbounce after all and just
talked to a guy with a 100 mw qrp rig somewheres nearby. We are all
laughing at you.

are ham realy sick enough to do shit like this?

In as much as there are not any countries or political entities by
those "names", how could one "trak" them?

As for where to find QSL routing information, look in QST and CQ
magazines. There are tons of QSL routes and refrences to QSL managers
and QSL information services tehrein.

Message-ID: <MVeBg.4580$xp2.1703@newsread1.news.pas.earthlink.net>
Source record: 3051

I read where Ranko YT6A says it requires $3 USD for a return card for 4O3T.
How about the new IRC's? Is he going to follow that all of a amateur's
QSO will be verified on one card?

Regarding YU6AO. IRC's accepted? All QSOs on one card or separate.

many are asking.

Hi,
Just talked to Ranko and he confirms the US$3, all QSO's on one card and
can't use the new IRC.
QSL's via the bureau will be confirmed (via the bureau), but it will
take some time before that pile is processed ;-)

Have not been able to get hold of Gojko/YU6AO yet, I'll come back later.

Countries available: 3A, 3B8, 3DA, 3W, 3X, 4J, 4L, 4S, 4W, 4X, 5B, 5H, 5N, 5V, 5W, 5X, 5Z, 6W, 6Y, 7O, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, F, FG, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J6, JA, JT, JW, K, KG4, KH0, KH2, KH6, KH8/S, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TY, UA, UA2, UA9, UK, UN, UR, V4, V5, V7, V8, VE, VK, VK9N, VP2V, VP5, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD8, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2 and 3D2/R, FIJI AND ROTUMA (Op Cancelled!). Operators Didier/F4ELJ, Andre/F0ELK and Christophe/F0ELI had to cancel their operations to Fiji and Rotuma due to transportation problems. More information is available at: http://3d2bd.free.fr

4O6, MONTENEGRO. It was reported today by Joe, W8GEX, that he and four other members from the SouthWest Ohio DX Association are going to Montenegro on August 13th for a 7 day operation at the Sky Contest station. Check out the Sky Contest Club at: http://www.yt6a.com/?page=3Dskycc
YT6A owns the club station, and they will be operating from on top of a mountain. The location is about 1000 ft high with a very nice station and building. They should arrive at the station late on August 13th. By the time they get up the hill (a very rocky road that will take a hour to climb the 1000 ft. in a 4x4 Land Rover), they should be on the air on the 14th, GMT. Their callsign will be 4O6DX. Team members are Wayne/K8LEE, Janet/W8CAA, John/ KP2A, Jim/W9VNE and Joe/W8GEX. The group will be on 160-6 meters, CW, SSB and PSK. The group would like to thank their sponsors, ICOM for the Pro III radios; N3FJP for their logging program; Dave/W5BXX and SEDCO for their support. They would like to give a special thanks to Ranko, YT6A, who has coordinated the trip since shortly after Montenegro became a new DXCC entity. QSL to K8LEE - SASE PLEASE.

5Z, KENYA. Nick, G3RWF, is planning to return to activate 5Z4LS again next November for the CQWW Contest. He is expected to probably stay a few more days than last year. Nick is planning to use the Radio Society of Kenya clubhouse in Nairobi again.

6V, SENEGAL. Paul, K1XM, will be active as 6V7D during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/Low-Power entry. His activity will start November 19th. QSL via KQ1F.

9G, GHANA. Scott, AC3A, will be active as 9G5SE from Accra, August 5-12th. Activity will be on 40-6 mters.

ANTARCTICA ACTIVITY. Oleg, R1ANF, is active for about 2 weeks from Priroda Refuge (RUS-15, new WAP reference). This refuge was installed during the 32nd Russian Antarctic Expedition, February 18th, 1987, and is located at King George Island (South Shetlands), NW of Fildes peninsula, 8 km from Bellingshausen station, at 62°09' 00" S, 58° 56' 35" W. His callsign will be R1ANF/p. QSL via RK1PWA (QRZ.com). Check 14023 kHz starting from 1800z and ahead. More info and pictures on WAP Web site at: http://www.ddxc.net/wap

CQ NEWS RELEASE. Richard Moseson, W2VU, Editor of CQ Amateur Radio, sent out the following on August 1st:
STEVE BOLIA, N8BJQ, NAMED CQ WPX AWARD MANAGER
(Hicksville, New York - August 1, 2006) - Steve Bolia, N8BJQ, has been named the new manager of the CQ WPX Award program, following the retirement of Norm Koch, WN5N (ex-K6ZDL), CQ Publisher and President Dick Ross, K2MGA, announced today. The WPX Awards are issued for confirmed contacts with stations having different callsign prefixes. Norm held the reins of the WPX Award program for 25 years, taking over the job late in 1981. "We thank Norm for his many years of devoted service to the WPX program, to CQ and to amateur radio," said Ross, "We wish him all the best in the future." Steve Bolia, N8BJQ, served as CQ WPX Contest Director from 1982 to 2003, is a member of the CQ Contest Committee and of the CQ Contesting Hall of Fame. His DXing credentials are even more impressive, as he holds CW, SSB and Mixed Worked All Zones (WAZ) awards, is on the DXCC Honor Roll

for Mixed and CW, and holds 5-Band DXCC, RTTY DXCC and 160-Meter DXCC. He has also made several DXpeditions, to KH9 (Wake Is.), J6 (St. Lucia) and the rare CQ zone 2 (northeastern Canada). Professionally, Steve works as a defense contractor after retiring from a 22-year career in the U.S. Air Force. WPX Award applications and updates previously filed with WN5N have been transferred to N8BJQ and will be processed as quickly as possible. See the September issue of CQ for updated address information for award submissions.

IOTA NEWS.....
AF-103. Just a reminder that Ken/G3OCA and Rei/DL6DQW will be in Mozambique (C9) from August 5-14th. During their stay, they plan to activate the Island of Inhacamba (AF-103) the last unactivated IOTA group in Mozambique. The callsign may be C94KF. QSL via G3OCA. Activity will be on 40-10 meters, CW and SSB. Also, look for them to be active from the mainland using the callsign C94RF or C93RF.

EU-013. Russell, G5XW, will be active as GJ5XW/p from Jersey's Channel Islands between August 26th and September 1st. Activity will be on all HF bands, SSB only. QSL via G5XW.

EU-014. Gerry, IZ1DSH, will be active as TK/IZ1DSH from Porto Vecchio, South Corsica (IIA TK-001, MIA MCO-001, WLOTA LH-1390), now through August 15th. Activity will be on 40 and 20 meters SSB. QSL via his home callsign through the ARI Bureau.

EU-038. (Satellite Op!) Andre, PH7AT, will be active as PH7AT/p from Texel Island (WLOTA LH-0003) between September 4-8th. He will be operating mainly with a QRP handheld (5w) on satellites (AO-27, SO-50, AO-51, AO-7, FO-29 and VO-52). There may be some HF activity if his schedule permits. QSL via his home callsign, direct or by the bureau.

EU-042. Ten operators from the radio club station "Fachhochschule Wolfenbuttel (AFu-AG)" will use their club callsign DF0WFB, August 17-20th, from Hallig Oland Island (WLOTA LH-0712). Look for activity on all bands and modes. QSL DF0WFB via the bureau or direct with SAE + sufficient postage.

EU-054. Giovanni, IK1WEG, will be active as IF9/IK1WEG/p from Isola Favignana (IIA TP-011, MIA MI-025, WLOTA LH-1545), now through August 19th. Activity will be on the HF bands. QSL via his home callsign, direct or by the bureau.

EU-090. Operators Neno/9A5AN, Gita/OM5MF, Lubo/OM5ZW, Steve/OM5AA and Martin/OM4ATW will activate Palagruza Island, Croatia, (IOCA CI-084, WLOTA LH-0057, CLH -100) between September 2-9th. Last operation was in 2003. Activity will be on all bands, HF and VHF. Neno will sign 9A5AN/P and all others will sign 9A/homecall. More information about the operation, operators and island is available at: http://www.palagruza.net

Palagruza Island is situated in the middle of the Adriatic Sea,
between the Italian and Croatian coasts. The island itself is
1400 m long, 300 m wide and 90 m high. The lighthouse is old,
and was built in 1875.

EU-125. Michael, DL3FCG, will be active as OZ/DL3FCG from Bolilmark,
Romo Island (NS-001 for the Danish Islands Award), August
5-19th. Activity will be on all bands, CW and SSB. QSL via
his home callsign, direct, by the bureau, or LoTW.

EU-145. Operators Luis/CT1EEQ, Arlindo/CT1EGW and Carlos/CT1END will
be active from Culatra Island (DIP AL-001), August 12-13th.
Activity will be on 80-10 meters SSB. QSL via their home
callsigns. Further information will be available at:
http://ahrap.no.sapo.pt
If you have a serious need for a EU-145 QSO let them know.
Send an E-mail at: carlosnora.ct1end@gmail.com

GREEK ISLANDS TOUR IN NORTH AEGEAN SEA. Operators Nicos/SV2AYT, Bill/SV2AOB,
Bill/SV2BET, Alex/SV0EG and Kostas/SW2IPK will use the special callsign
SX8AYT to activate the following Greek islands, in the EU-049 IOTA group,
between August 16-30th: Lemnos Island (MIA MG-065, WLOTA LH-1740),
Agios Efstratios Island (MIA MG-002), Sergitsi Island (MIA MG-106,
uninhabitable) and Kompi Rockisland. Activity will be on 80-2 meters,
mainly SSB. SV8CRL is a local operator on Lemnos Island and SV8BUZ is a
local operator on Agios Efstratios Island. QSL via SV2AYT, direct (QRZ.com)
or via the bureau. Further information can be found at:
http://www.sx8ayt.com/
Or with mobile phone on WAP (via GPRS) setup at: http://wappy.to/sx8ayt/

J3, GRENADA (Ops Needed!). Harry, AC8G, informs that five team members
are confirmed for a visit to Grenada between October 25th and November
2nd. Besides being an entry in the CQ WW SSB Contest, there will be activity
before and after the contest using various bands and modes. Openings exist
for several more operators. If interested please contact AC8G using the
following E-mail address and giving a phone number for contact and good
times to call at: hflasher@dayton.net
Harry states, "American Airlines has a promotion for a short time with
fares the best I have seen in many years."

KH8SI NOW QRT. The KH8SI operation went QRT around 1900z, August 2nd.
Some interesting details about the operation should be forthcoming.
According to KH8SI pilot station JA2JSF: QSL via JA1BK: Kan Mizoguchi,
5-3 Sakuragaoka 4 Chome, Tama City, Tokyo 206-0013, JAPAN. Please send
all QSL data (multi QSOs) on one QSL. There has not been an announcement
about online logs. LAST MINUTE UPDATE. Visit Kan's, JA1BK, Web page
to see some of pictures of the KH8SI operation and information about
how hard it was to get transportation to Swains Island. His Web page
is at: http://www.iijnet.or.jp/JA1BK/

LIGHTHOUSE/LIGHTSHIP ACTIVITIES.....
The Nieuwpoort Lighthouse (BEL-004) will be activated during the coming

International Lighthouse and Lightship (ILLW) weekend (August 19-20th) by members of the UBA sections DST, KSD and RCO. Activity will be on all bands (80-2 meters) mainly on SSB, CW and PSK31. At regular intervals the operators may be seen on ATV as well (live via the ON0OS ATV output on 1255 MHz or screen captures on http://www.on4aim.com). QSL via ON5RKN, either direct or through the UBA bureau. There will be a special multi-color QSL card. All direct requests for QSLs will be mailed from Nieuwpoort and will bear the special "Nieuwpoort Lighthouse" postmark which can be considered a real collector's item.

Don, VP8ON, along with several other operators, will activate the Cape Pembroke Lighthouse (ARLHS FAL-009, WW Loc. GD18DH), located in the Falkland Islands (SA-002), for the International Lighthouse-Lightship Weekend (ILLW), August 19-20th. QSL via VP8ON (QRZ.com).

Hector/CE3FZL and Ricardo/CE3HDI will be active as CE2P (SSB) and CE2F (CW), respectively, from Punta Panul Lighthouuse (ARLHS-073), in San Antonio Port in CHILE, during the ILLW. Activity will be on all bands. QSL CE2P via EA5KB and CE2F via CE3HDI. Addresses can be obtained on QRZ.com.

Members of the Bahia Blanca DX Group will transmit for the first time from 5 different lighthouses at the same time during the International Lighthouse/Lightship Weekend (ILLW) which will be held on the third weekend of August. Look for the following lighthouses:
Rincon Lighthouse (ARG-036) -- Special Prefix/Callsign LR3DX will be used. Located in Verde Peninsula in Villarino County.
Lat. 39° 23' S Long. 62° 01' W / Grid Locator = FF80xo

Recalada Lighthouse (ARG-009) -- Each operator will use their own callsign plus /D because they are located in the Province of Buenos Aires, located in Monte Hermoso, the tallest LH in South America and the sixth in the world. It was 100 years old last January. Lat. 39° 00° S Long. 61° 16° W / Grid Locator = FF91ia

Baliza Chica Lighthouse (ARG-083) -- Each operator will use their own callsign plus /D because they are located in the Province of Buenos Aires. Lat. 38° 53° S Long. 61° 58° W / Grid Locator = FF91ac

Punta Tejada Lighthouse (Ref. to confirm) -- FIRST TIME ACTIVITY. No callsign provided. Lat. 38° 59 S Long. 61° 49' W / Grid Locator = FF91ca

Hipasam Lighthouse (ARG-040) -- FIRST TIME ACTIVITY. Each operator will use their own callsign plus /V because they are located in the Province of Rio Negro. Located in Punta Colorada, 20 Km. east from Sierra Grande, Rio Negro Province. Lat. 41° 43' S Long. 65° 02' W / Grid Locator = FE78lg

Look for activity from the above LH on all bands and modes, including digimodes (RTTY, PSK, SSTV). Contacts with Recalada, Baliza Chica, Punta Tejada and Rincon Lighthouses will be valid for the "PROVINCE OF BUENOS AIRES LIGHTHOUSES Award" organized by Bahia Blanca DX Group. All QSLs are via the bureau or direct via LU7DSY: Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. If you want send only one envelope with all cards, it's "OK": Up to 2 QSL = 1 IRC --- More than 2 Cards = 2 IRCs. Bahia Blanca DX Group Web site: http://www.grupodxbb.com.ar

The Panama Canal Amateur Radio Association will activate Panama Canal Miraflores Lighthouse (PAN-030) on August 19-20th as HO1L. Activity will be on all bands and modes including some PSK31. QSL via HP1IBF.

MICROLITE BALTIC TOUR 2006. Vincenzo, IZ0FKE, informs OPDX that he will be active from the Baltic area. His schedule is as follows:
August 9-11th - He will team up Markus/OH1MN and be a guest member of OH1AA on Parainen (EU-096) - Turku Group (one of the most wanted EU IOTAs). QSL via Andrea, IZ0EHO.

August 12-23rd - Vincenzo will be active as OH0/IZ0FKE from Odkarby (EU-002) - Aland Main Island. He states that activity will be on the WARC bands and PSK31. QSL via Alberto, IZ0FMA. He will also be with Peter/OH0JFB in the SSB QSO party on 20m from the famous Scandinavian Club Stations OH0Z/OH0AZ.

All the OH/IZ0FKE contacts will be registered with ARRL "Log of the World" (LoTW) as a valid and quick DXCC credit for Aland Islands and Finland. Vincenzo will try to give some media coverage by uploading frames to a MMS gallery at: http://www.iz0fke.com

OH0, ALAND ISLAND. Four Finnish operators will be active from here during the CQWW DX RTTY Contest (September 23-24th). Look for Raimo, OH3BHL, to be active as OH0Z as a Single-Op/Single-Band (80m) entry. QSL via W0MM. Look for Juhani, OH8JT, to be active as OH0I as a Single-Op/Single-Band (40m) entry. QSL via OH3BHL. Look for Juha, OH9MM, to be active as OH0M as a Single-Op/Single-Band (20m) entry. QSL via OH1MM. Look for Kimmo, OH9MDV, to be active as OH0KAG as a Single-Op/Single-Band (15m) entry. QSL via OH1KAG.

QRP MOUNTAIN DXPEDITION. Operators Michele/F5MKX (YL), Alain/F6ENO and Jean-Jacques/F5NKX will be active as F8UFT/p from the French Alps as follows:
Weather permitting, the team will be active on August 17th starting at the end of their afternoon (around 1600z) and night from the Adele Planchard hut (3200m ASL).

On August 18th, morning, some activity by F5NKX, before climbing to the Grande Ruine hut (3765m ASL).
Their equipment is a battery powered 3w transceiver and dipole (7 MHz), only on CW. QSL via F6ICG. PLEASE NOTE: This expedition is a non SOTA one, for there's no French SOTA committee yet. ADDITIONAL NOTE: The callsign

F8UFT is the official callsign of the Union Francaise des Telegraphistes (UFT), the French CW Society. This callsign has been activate in the past from: FS, TI, FO0, TK, FK8, J2, LA, OZ, ON, SM, and also from the Mont Blanc summit (4807m ASL).

QSL INFO AND NEWS.....
Phil, G3SWH, has recently acquired the paper logs for G3XAQ/6Y5 and a small number of cards for Alan's operations from NA-097 in December 1992, November/December 1995, December 1996 and November/December 1999. As the logs are on paper; they will *NOT* be uploaded to LoTW. As always, Phil's QSL policy is: direct preferred, bureau is OK or E-mail for a bureau card. Please include adequate postage and a C6 sized SAE for the return of any direct QSLs. U.S. dollars are *MUCH* preferred to IRCs, but please remember that 1 USD is *NOT* sufficient postage for an airmail reply outside Europe. Mint stamps (except those supplied loose) and other currencies are *NOT* welcome.

EG7CC QSL STATUS. John, EA7EUF, Secretary of the URE Huelva, informs OPDX that anyone who made a contact with the special callsign EG7CC over the weekend of May 20-21st, the QSL cards have been sent to URE HQ in Madrid for forwarding via the bureau.

NO BUREAU QSLS! Len, VK8DK, from the VK8 Bureau, informs that "whoever works Alan, VK8AV, please note that he does NOT accept QSL cards via the Bureau. He has a manager, Andy, UA9XC, who will accept all cards, provided it contain an SASE and 2 IRCs. The VK8 Bureau is 'drowning' in QSL cards for VK8AV. Please pass on this message."

SPECIAL EVENT. Members of the Strange Radio Team (SRT) will be celebrating their 3rd anniversary (birthday/founding) between August 2-10th, using the following special callsigns:
ED8SRT QSL via IZ8EDJ IO7SRT QSL via IZ7FLT
EF8SRT QSL via IZ8EDJ IO8SRT QSL via IK8WEJ
IO0SRT QSL via IZ0BTV IR3SRT QSL via IN3JJI
IO1SRT QSL via IZ1GJK IR0SRT QSL via IS0LFZ (Sardinia Island)
IO2SRT QSL via I2JJR IU8SRT QSL via IZ8GGF
IO3SRT QSL via IV3ZXQ L30BST QSL via IZ8EDJ
IO5SRT QSL via IZ5BTC V55SRT QSL via IZ8EDJ
IO6SRT QSL via IZ6FZS YI0SRT QSL via IZ8EDJ
For this event, they will be printing a special QSL card. For more info, visit the following Web Page at: http://www.strangeradioteam.com

SPECIAL EVENTS (Japan). Look for the following JA operations to take place during the month of August:
8J1A - Activity will take place between August 1-20th to celebrate the 2006 Amateur Radio Festival. Look for activity on all HF bands and modes. QSL via the JARL Bureau.

8J120JAS - Activity will take place between August 1-31st to celebrate the 20th anniversary of the Fuji amateur radio satellite. Look for activity on all HF bands and modes. QSL via the JARL Bureau.

8J620JAS - Activity will take place between August 1-31st to celebrate the 20th anniversary of the Fuji amateur radio satellite - Tanegashima. Look for activity on all HF bands and modes. QSL via the JARL Bureau.

8J2ARDF - Activity will take place between August 6th to October 15th, to celebrate the All Japan ARDF Athetic Meeting. Operations will be on all bands and modes. QSL via the JARL Bureau.

8J7JAZZ - Activity will take place between August 10th to September 10th to celebrate the 16th Johzenji Streetjazz Festival in Sendai. Operations will be on all HF bands and modes. QSL via the JARL Bureau.

TK, CORSICA. Laurent, F1JKJ, will be active as TK1KJ during the CQWW DX SSB Contest (October 28-29th) as Single-Op/Low-Power entry. QSL via F1JKJ.

TX6, MAYOTTE (AF-027). Sam, F6AML, a member of F6KOP Team, will be active as TX8A from October 5-17th. Activity will be on CW and SSB on the following suggested frequencies:
CW - 3514, 7014, 10115, 14014, 18071, 21014, 24892 and 28014 kHz
SSB - 3785, 7057, 14266, 18140, 21266, 24966 and 28444 kHz
He will pay special attention for North America and Japan stations. QSL is "OK" via the bureau. For direct QSL, please send 1 IRC, or 1 USD for Europe or 2 USDs for the rests of the world.

USI NEWS.....
MI-NEW. Look for special event callsign K8G to be active from Granite Island (ARLHS USA-333) during the ILLW, August 19-20th. Activity will be on most HF bands, SSB, CW, and PSK31. QSL via K8PT, w/SASE, SAE and IRC or GS, or by the bureau. Operations will start at 0001z Saturday and end 2359z Sunday.

TN-NEW. Jeff, WB5WAJ, plans to activate Hole in the Wall Island, Tennessee, August 18-19th. Look for activity around the usual IOTA frequencies (14260 kHz main). QSL via his home callsign, direct or by the bureau.

TX-001S. John, KL7JR, is active most weekends from Galveston Island (NA-143).

ADDED NOTE: Remember the U.S. Island W/VE QSO Party is October 21-22nd from 1600z Saturday to 2359z Sunday.

VP9, BERMUDA. Paul, K1XM, will be here between October 25-30th and active as VP9/K1XM (outside the contest). His activity will include the CQWW DX SSB Contest (October 28-29th) as VP9I and as a Single-Op/All-Band entry. Look for activity outside of the contest mainly on CW, on 160-10 meters including the WARC bands.

VQ9, CHAGOS ISLANDS. Jim, ND9M (VQ9JC and KG4JC), will be returning to Diego Garcia (AF-006) this week for another four month tour. He is a Radio Officer on the M/V Sgt. William R Button for the Military Sealift Command (MSC). He informs OPDX that his previous tour over last winter

produced nearly 15,000 QSOs (84% CW, 11% SSB, 5% digital) despite lousy band conditions, and he is hoping for another productive time on the island. QSL either direct or via the bureau by his home callsign, ND9M. (He also handles QSLs for his other alter-ego, KG4JC.) PLEASE NOTE that direct requests will be forwarded to him by his XYL only on a 2 or 3 week basis, and it takes about two weeks for first-class mail to reach him on the ship. Jim will answer QSL requests ASAP, but IRC users should be very careful as any requests received after the IRCs have expired at the end of this year will be answered via the bureau.

VU13, INDIA (Special Event). Look for special event station VU13IARU to be active until August 11th. Activity is in connection with the 13th IARU R3 Conference in Bangalore. This station will be operating on HF and VHF. The station will be operational from the Hotel Hari International in Bangalore. The person in charge of the station is Mr. A.R. Prathap Kumar, VU2POP.

WRTC2006 NEWS. Oms, PY5EG, informs that the WRTC2006 is pleased to announce the prize winners for the "Worked - WRTC 2006". They kindly invite you to take a look at their PRESS RELEASE 064/06 on the following Web page at:
http://www.wrtc2006.com/release64.html
Please contact Thomas, SM0CXU, to inform him of your address to so they can send the prizes at: thomascarl@gmail.com
All the prizes are going to be sent to your address with no charges or costs.

XX9, MACAO (Update). Look for Hide, JM1LJS, to be here between August 10-15th. He is trying to renew his XX9TJS license. He states that his activity will start around 1000z on August 11th. Activity will be on 30/17/12/6/2 meters SSB, CW and FM (No Digital modes.) He knows there is a high demand for 30 meters, so look for him there. Satellite operations will be 2m uplink / 430 MHz downlink only (No 430 MHz uplink). He will have two sets of FT-100D (HF/6m: 100W, 2m: 50W) plus AT-130 (Antenna tuner). Antennas will be fullsize dioples for 30/17/12 meters. For the 6m band, he will use a 2 element V beam type HB9CV. For the 2m band, a 430 MHz 3 element / 6 element cross yagi for the satellites. QSL XX9TJS via JM1LJS.

YC0, INDONESIA. Hotang (Hot), YC0IEM, will be active as YC0IEM/7 from Borneo Island (OC-088), August 7-24th. His bands/modes of activity were not provided. QSL via IZ8CCW, by the bureau or direct.

YI, IRAQ. Richard, SP8HKT, will once again be in Iraq as YI9KT. He will be in Diwaniyah from now until January 2007. He is going to use an IC-735 w/100 watts into a 7 band vertical antenna (GP-7, 40-10m) and a Delta Loop at 85m for 80m. Richard will be active during his free time: 0800-1000z, 1300-1430z, 1700-2000z, sometimes on low band only with North America between 0200-0330z and 0500-0630 local time. His activity on 160 and 80 meters depends on the possibility of assembling his antenna. QSL via SP8HKT, only direct.

Thanks Hans. That helps me with 4O3T.
I also found out that JA1BK wants all QSLs on one card SAE and IRC or $$
for KH8SI Swain's Island.
You might ask YT6A and YU6AO about LOTW per barry W2UP's request. I really
want cards in hand right now as I would move to 372.

1161. Exel DXCC Spreadsheet updated

Newsgroup: rec.radio.amateur.dx
Date: 2006-08-08 13:13:06 UTC
From: PG7V <noreply@pg7v.net>
Message-ID: <hhdk258btza8$.zycyctlxldnc.dlg@40tude.net>
Source record: 3063

My free Excel DXCC spreadsheet is updated.
Changes:
ZK1 (North and South Cook) changed to E5
Added:
YU6 Montenegro
KH8 Swains Island

When a new prefix is assigned to Montenegro, you can edit change YU6 to the new prefix yourself and sort the list again.

Based on the DXCC spreadsheet I also made a WAS-WAZ spreadsheet, which can be used to keep record of your WAS and WAZ sores.

Use of all the spreadsheets is free.
The spreadsheet can be found here: www.pg7v.net

Especially with the complications.

I moved computers but kept my TQSL directory on my data drive, everything for TQSL was kept there including the EXE.

Well when I reinstalled it would try to go back to my C drive for my public Key. It wasn't there. So I downloaded my Certs and tried to install but no public key. I found a copy but it said it was old and would not accept it. SO I asked lotw and found I had to send a for a new Card and then send an EMAIL to some lady who would fix it. She then sent me A NEW LOG IN and password meaning all my old stuff is lost. I asked here and an N7. She said it was new and Id have to reload he says no your old data is there. so they cant even agree on what you have. Now she says I have to start over yet again.

I've 1500 contacts in there and 200 returns. Its not worth it.

Too complicated = not using.

I have been thinking about doing this Lotw,

Can I use any type of logbook, for example can I just enter in my logbook info into any spreadsheet program like Works, and then convert it to the proper format (ADIF).

What info needs to be in the logbook that I convert and send to Lotw.

Thank You,

Craig

So long as it's in proper ADIF format, it shouldn't be a problem. Most computer logging programs, if you use one, can produce and ADIF automatically.

For most ARRL awards, you'll need the following (but check their website for the definitive requirements)
Call sign
Date & time
Band
Mode

You do not need RST. The mode has to be in the form that they recognize. Again, check their website.

Dee, N8UZE

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 6th/August, through Sunday, 13th/August there were 201 countries active. Countries available: 3A, 3B8, 3DA, 3W, 3X, 4J, 4L, 4S, 4W, 4X, 5B, 5H, 5R, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9U, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, ET, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J5, JA, JD/o, JT, JW, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ7, PY, PZ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TT, TU, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2V, VP5, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YL, YO, YS, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4O3T, MONTENEGRO. The 4O3T DXpedition Montenegro was expected to come to an end on August 13th this past weekend. Martti, OH2BH, sent out a press release before the weekend on Thursday August 10th, called "4O3T APPROACHING THE LAST WEEKEND OF OPERATIONS". He mentions that the 4O3T team has made over 120,000 QSOs. OPDX InterNet Subscribers will receive the complete press release as an additional bulletin (minus the photos).

4O3/YU6, MONTENEGRO. Operators Toma/YU1AB, Emin/DK4ES and Branko/YZ1DZ will be back in Montenegro again August 15-22nd. They will have a new license and will operate as 4O3AB on CW/SSB/RTTY/PSK and 4O3ES on SSB only. They just recently received the licenses from the Montenegrian Agency for Telecomunications. QSL via QRZ.com.

6Y, JAMAICA. Operators Ken/K2KW, Tom/N6BT and possibly others will be active between November 19-27th. Activity will include the CQ WW CW Contest (November 25-26th) with entry class TBD. QSL via WA4WTG. Operations outside of the contest will focus on the low bands.

CT3, MEDEIRA. Operator Richard, PA0RRS, will be active as CT3/PA0RRS, August 17-31st. No bands/modes of activity were provided. QSL via his home callsign, direct or by the bureau.

DXCC NEWS.....
* Reminder -- October 1, 2006, Submission Date for Swains Island QSLs (August 13, 2006, by Bill Moore, NC1L): The DXCC rule change announced on June 14th, 2006, (Please refer to OPDX.763) noted that credits for any new entities created by the rule change would be accepted on or after October 1, 2006. Since Swains Island was added to the DXCC list as a result of rule change, credits for Swains Island will not be accepted until that date. This criteria appies to either paper QSLs or LoTW submissions.

* Bill Moore, NC1L, ARRL DXCC Branch Manager, informs that the following operation is approved for DXCC credit:
KH8SI - Swains Island; From July 28th, 2006, through August 2nd, 2006. This also includes the callsigns K1ER/KH8, KS6FO/KH8, WH7S/KH8, K8YSE/KH8, AH7C/KH8 and KH6BK/KH8.

* ADDITION TO THE DXCC ACCREDITATION CRITERIA (August 11th, 2006). ARRL Membership Services Manager Wayne Mills, N7NG, informs: For a number of years, it has been accepted practice to post DXpedition QSO information on a DXpedition Web site. Although this information is generally limited to callsign, band and mode, it has been useful in reducing the number of duplicate contacts in the DXpedition log. Publishing complete QSO information, or information from which full QSO information can be derived, on the other hand, threatens the integrity of the QSLing process, and is unacceptable. There must be some information that the station claiming the QSO provides based solely on actually being there when the QSO was made. If complete QSO information can be derived from information based on the DXpedition log, the QSL manager's job can be much more difficult if busted calls are involved. To help minimize potential difficulties, therefore, the following restriction has been approved by the Programs and Services Committee, and added to the DXCC Accreditation Criteria, Section III.
"The presentation in any public forum of logs or other representations of station operation showing details of station activity or other information from which all essential QSO elements (time, date, band, mode and callsign) for individual contacts can be derived creates a question as to the integrity of the claimed QSOs with that station during the period encompassed by the log. Presentation of such informa-

tion in any public forum by the station operator, operators or associated parties is not allowed and may be considered sufficient reason to deny ARRL award credit for contacts with any station for which such presentations have been made. Persistent violation of this provision may result in disqualification from the DXCC program."

EX15, KYRGYZSTAN (Special Event). Look for memers of the Amateur Radio Union of Kyrgyzstan to be active as EX15ID from August 25th to September 5th to celebrate the 15th anniversary of Kyrgyzstan's independence. QSL via EX8AB.

IOTA NEWS.....
AF-064. (LH Activity) Operators Matt/ZS1MJJ and Derrick/ZS1DUP will be active as ZS1RBI during the International Lighthouse/Lightship Weekend (ILLW) from Robbin Island (WLOTA 0025, ARLHS SAF-023 and TWLHF ZS-004).

EU-028. Max, IZ5BTC, will be active as IA5/IZ5BTC/P from Elba Island (IIA LI-001), August 29th to September 9th. QSL via his home callsign. See photos and info on: http://www.strangeradioteam.com

EU-028. Fabio, IW1DFU, will be active as IA5/IW1DFU from Elba Island (IIA LI-001, MIA MI-022, WLOTA LH-0609), between August 14th and September 1st. Activity will be mainly CW on 40/30/20/15 meters. QSL via his home callsign, direct or by the bureau.

EU-091. Operators Giovanni/IW7DOL, Marco/IZ7DOK, Luigi/IW8EQS, Oreste/IZ8EDJ, Salvatore/IZ8GGF and other friends will be active as homeCall/p from some of Lecce Islands (several IIA references). QSL via their home callsigns. See photos and info on: http://www.strangeradioteam.com

EU-129. Members of the South Flanders DX Activity Group will be active as DL/ON6JUN/p from Usedom Island (O-13 for the German Islands Award), August 21-26th. Activity will be on all major HF bands, with special attention to the WARC bands. Operations will be on CW, SSB and RTTY. Operators mentioned are ON4AFU, ON4LBV, ON8RB, ON6UF, ON6YN and ON5SD. QSL via ON5SD. Visit their Web page at: http://www.qsl.net/ON6JUN/

EU-170. Milan, OK3AA, will be active as 9A5DJ from Pasman Island (CI-085), now through August 16th. He prefers CW and was heard 40/30 meters. QSL via OK3AA.

NA-077. Guy, VE2QRA, will be active as VE2QRA/P from Anticosti Island (Grid: FN89) in the Gulf of St. Lawrence, August 12-18th. Activity will be holiday style, mostly SSB, with just wire antennas for 80-6 meters. QSL via his home callsign.

NA-NEW. Lanny, W5BOS, will attempt to activate two new IOTA islands in Alaska between August 16-22nd. The new IOTAs are:
1) Coastal Groups (o) Southern Alaska Peninsula Centre
NA-238/pr using the callsign W5BOS/AL0.

2) Coastal Groups (p) Southern Alaska Peninsula East NA-237/pr
using W5BOS/NL0.
The Fish & Wildlife Service advises "This is a very remote and
storm swept part of the world". These islands are very difficult
to land on. Weather will be a major factor. QSL via N6AWD.

IS0, SARDINIA (EU-024). Look for YL Josiane/F5MVT and Paul/F2YT to be
vacationing here between August 15-30th. Activity will be on the HF bands,
CW and SSB, every morning, and sometimes in the evening. QSL via their
home callsigns, direct or via the French Bureau. Please nothing via the
ARI Bureau.

J7, DOMINICA. Operators Karl/N1DL and George/W4LFK will be operating from
the Commonwealth of Dominica from September 21-27th. They will operate on
all modes with their callsigns J79DL and J79MD but during the RTTY Contest
they will use the special callsign J7R from IOTA NA-101. QSL to N1DL:
Karl Geng, 285 Grande Way #1803, Naples, FL 34110, USA.

LIGHTHOUSE/LIGHTSHIP ACTIVITIES (Remember, ILLW is August 19-20th).....
Members of the El Centro de Radioaficionados de Rocha will be active
as CV8T in the ILLW on August 19-20th. The Team will be active from
Faro Cabo Santa Maria lighthouse (URU-004) and will operate on all
bands and modes including BPSK31. QSL via CX1TA: P. box.29, Rocha,
CP.27000, Uruguay.

Operators Tony/G0GFL and Nicky/M5YLO will be active as GB2SLH from the
Sumburgh Lighthouse (BARLS A3766, ARLHS SCO-232, WLOTA LH-0867, WAB HU40,
WW Loc. IO99IU) located on Shetland (mainland) (IOSA SH-01, SCOTIA SI-11),
Shetland Islands (EU-012), August 12-26th. Look for activity on all HF
bands, around the usual IOTA and lighthouse frequencies. QSL via G0GFL,
by the bureau or direct.

Operators IK7JWX, IK2PZG/7, IW7DOL, IW7EGK, IW7DKS, IZ7FMQ and I7PXV (CW)
will be active as homecall/p during the ILLW (and possibly August 17-18th)
from Saint Andrea Island (Gallipoli). Reference numbers are: IIA LE-001,
IOTA EU-091, WAIL PU-023, ARLHS ITA-084 and WLOTA L-0075. QSL via their
home callsigns, by the bureau or QRZ.com addresses.

From Eagle Harbor, Michigan, look for the Eagle Harbor Lighthouse
(USA-253) to be activated during the ILLW August 19-20th, using the
special 1x1 callsign K8E. Modes of operation include HF/VHF, CW/SSB,
FM Satellite and possibly HF digital. Collectors of ARLHS numbers can
get credit for three upon request: Eagle Harbor Lighthouse USA-253,
Front Range Light USA-254 and Rear Range Light USA-255. QSL via N8MR,
direct with #10 SASE or via the bureau. Visit the special Web page at:
http://www.kc8nah.com/Interests/EagleHarbor/illw06.htm

Members of the Norwegian Expedition Club will be active as LA1NEC from
Jomfruland (Norwegian Virgin Island, EU-006 and WLOTA LH-0832), August
19-21st. They will focus on the International Lighthouse/Lightship
Weekend (August 19-20th) with 6 operators and 3 stations. QSL via the
bureau. For more information, check their Web site at:

http://www.la1nec.no

During the coming International Lighthouse/Lightship Weekend (ILLW) (August 19-20th), Belgian amateurs of the OSA section of the UBA will activate the museum lightship Westhinder 3 with the special callsign ON9BD. Activity will be on all HF bands. QSL through the Bureau (UBA). More info is available at: http://www.osa.uba.be

Look for radio station SN2NP to be operating from the historical lighthouse in Gdansk New Harbour during August 18-20th. Bands/modes of activity were not provided. QSL via SP2BIK.

Eugene, UX3MR, will be active as 4L/UX3MR from Georgia, now through August 31st. He will try to activate the lighthouse (GEO-004). Look for activity on 80-10 meters CW, SSB and RTTY. QSL via his home callsign, direct or by the bureau.

Members of the LABRE/RN will be active as ZX7NTL from the Natal Lighthouse in Natal City, August 18-20th. Activity will be on 160-10 meters on SSB, CW and digital modes. QSL via PS7DX: PO BOX 251, 59010-970, NATAL - RN, Brazil.

LX, LUXEMBOURG. Operators PA1TK/Theo, PA5WT/Kees and PA3GVI/Rob will be active from JN39AX (Grid Sq.) starting August 30th until September 3rd. Their main goal will be the VHF Contest on September 2-3rd, but there will be HF activity as well in the early morning and evening hours on 30 and 40 meters, CW/SSB. Large Yagi antenna systems will be built for 144 MHz and simple dipoles for 30 and 40 meters. Look for LX/PA1TK in the VHF Contest and LX/homecalls the days before the weekend contest. Contest QSLs for LX/PA1TK go via PA1TK, all others go via their home callsigns (PA5WT, PA3GVI). Pictures and the story can be found on: http://www.sitekreator.com/pa3gvi

QSL INFO AND NEWS.....
QSL VK8AV via Andrey "Andy", UA9XC. He will answer QSL cards direct and through the bureau (100%). Bureau QSL requests or E-mail inquiries can be sent to: ua9xc@komi.ru
Also, QSL RG9A, VK8AV, RP61XX, RI1PI and RI1PXC via UA9XC. Please visit Andy's Web page at: http://www.qsy.ru

VQ9LA AND IRCS. After September 1st, 2006, Larry, VQ9LA, will no longer accept IRCs. Diego Garcia has no place to cash them, and Larry's contact in the states no longer will buy his IRCs. All QSL cards received after September 1st, 2006, with IRCs for VQ9LA, VQ9X and VQ9IO, will be placed in the outgoing QSL Bureau. Larry states, "Hams are dumping them like bad stocks on VQ9LA."

LOG CLOSINGS. Harry, AC8G, informs OPDX that he will be closing the following logs at the end of August: All the various W8KKF and /W8KKF plus various J3 and other callsigns for the 80's, with the exception of W8KKF/KP5 (Desecheo) from 1989, also the W8KKF/WP5 log which was only on 10 meters in the ARRL contest that year. Furthermore, during September, Harry will close other logs through 1995. After the next couple of bureau

mailings, he will then close logs to the end of 1999. QSL W8KKF via AC8G.

WRTC2006 QSL CARDS. Oms, PY5EG, WRTC2006 Steering Committee, informed that "we are printing special QSL cards for all WRTC2006 stations with some beautiful pictures of the event. Our friend Vantuil Barbosa, PP5VB, will be the manager for all QSL cards including PP5WRTC. So QSL cards for all WRTC 2006 stations should be sent to PP5VB: VANTUIL BARBOSA DIAS, P.O.BOX 13, IMBITUBA - SC CEP 88.780-000, BRASIL. Please send SAE and IRCs to cover the mail expenses. Some of the WRTC2006 stations will also have their own commemorative QSLs, and in those cases you should send the cards directly to the address indicated by the corresponding Team. We will reciprocate all QSLs received via BUREAU also. The QSLs referring to QSOs with the MN MS stations should use the QRZ.COM addresses. Thanks for supporting WRTC2006."

SPECIAL EVENT. The 28th Clipperton DX Club (CDXC) Convention will be held in Arcachon (SW of France), September 16-17th. Members of the CDXC will activate special event callsign TM8CDX once again in celebration between September 2-16th. Activity will be on HF and VHF, CW, SSB and Digital modes. TM8CDX will enter the IARU VHF Contest, from the WWGS: JN94ut. All QSOs will automatically be confirmed via the bureau by Rafik, F5CQ (QSL Manager). For those who prefer the direct way, please send a SAE+IRC or 1 USD for EU and 2 USDs elsewhere. The old TM8CDX logbooks are available for search at:
http://www.cdxc.org/dxp/tm8cdx2001/tm8cdx2001.htm
http://www.cdxc.org/dxp/tm8cdx2002/tm8cdx2002-e.htm
http://www.cdxc.org/dxp/tm8cdx2003/tm8cdx2003-e.htm
http://www.cdxc.org/dxp/tm8cdx2004/tm8cdx2004-e.htm
http://www.cdxc.org/dxp/tm8cdx2005/tm8cdx2005-e.htm

SX5, DODECANESE. Operators Bill/SV5AZP, Michalis/SV5DDP, Efstathios/SV5DKL, Giota/SV5FRB and Denis/SV5FRD will be active as SX5P from the Island of Rhodes during the CQWW DX SSB Contest (October 28-29th) as a Multi-2 entry. QSL route is via E-mail for bureau QSL: sv5frd@hotmail.com

TK, CORSICA (Update). Laurent, F1JKJ, will be active as TK1KJ from October 26th to November 2nd. Activity will be limited because he is on a family holiday, however, he will be active mostly during the whole 48 hours of the CQWW DX SSB Contest (October 28-29th) as Single-Op/Single-Band (possibly 20m)/Low-Power entry. Outside of the contest, Laurent will be on the bands he has antennas for on SSB and RTTY. QSL via F1JKJ.

TX6, MAYOTTE (AF-027). F6KOP ARS member Sam, F6AML, will be active as TX6A from October 5-17th. Look for activity on CW and SSB on the following suggested frequencies (+/- QRM):
CW - 3514, 7014, 10115, 14014, 18071, 21014, 24892 and 28014 kHz
SSB - 3785, 7057, 14266, 18140, 21266, 24966 and 28444 kHz
QSL via the bureau or direct w/SAE + 1 IRC or 1 USD for Europe or 2 USDs elswhere.

VE, CANADA (IOTAs Op). Jean Pierre/F5AHO and Joel/F5PAC will be active from various IOTAs and lighthouses in Canada, but mostly from Nova Scotia,

between September 1-23rd. Activity will be mainly on 20 and 17 meters SSB.
Watch 14260 and 18128 kHz between 1200&#65533;1900z. Scheduled IOTAs are:
NA-010 - September 10th; Cap Breton Island
NA-029 - September 5th; Prince Edward Island
NA-068 - September 3rd
NA-081 - September 14th
NA-126 - September 17th
NA-127 - September 19th
NA-154 - September 9th
Callsigns were not provided. QSL direct or by the bureau. More information
is available on: http://perso.orange.fr/f5aho

VK, AUSTRALIA (IOTA/Lighthouse Ops). Wade/AA8LL and Liz/K8LIZ are planning to be operate "holiday style" from the following islands and lighthouses:
September 1-4th - Look for VK7AAH/5 and VK7AED/5 from the Cape du Couedic Lighthouse (AUS-030) on Kangaroo Island (OC-139).
September 5-6th - Look for VK7AAH and VK7AED from the Cape Bruny Lighthouse (AUS-254) on South Bruny Island (OC-233).
September 7-10th - Look for VK7AAH and VK7AED from Tasmania (OC-006, main island).
Casual operations will be with 100 watts and wire antennas on SSB and CW (possibly RTTY) on 40-15 meters; IOTA frequencies. QSL direct or by the Bureau: VK7AAH via AA8LL and VK7AED via K8LIZ. The address is correct on QRZ.com and cards for both may go in the same envelope.

VY0, CANADA. Kevin, WD0AAV, will be active as WD0AVV/VYO from Iqaluit, Nunavut, between August 14-18th. Activity will be on 40-10 meters using primarily CW. QSL via his home callsign.

VY2, CANADA. George, K3GV, will be active as K3GV/VY2 from Prince Edward Island (IOTA NA-029, CIA PE-001) between September 3-17th. Activity will be on 15 and 20 meters around the usual IOTA frequencies. QSL via his home callsign, direct or by the bureau.

XV, VIETNAM. Operators Higashi/JA1DHY and Eiji/JA1EKK will be active as XV3DHY and XV3EKK, respectively, from August 31st to September 6th. Their activity will be on 80-6 meters, CW, SSB and SSTV. QSL is OK via the JARL Bureau or direct to their home callsigns.

It's in your post archives, stupid.

> I am sure the staion was licensed just not
> with the calls you used

I didn't contact you, stupid. You claimed you made all these contacts
and you lied. Just like with everything else you claim.

1190. Add money to your Paypal account with OPRAH @\,gw

Newsgroup: rec.radio.amateur.dx
Date: 2006-08-15 22:52:43 UTC
From: NSI <af.irani@afyhpami.com>
Message-ID: <GUyEg.57514$vj1.34587@bignews5.bellsouth.net>
Source record: 3097

Read this message until the end, and you will find out how the money flows in easy !!!!.
Follow the steps and it WILL work. Trust me !!!!!.

It's NOT illegal and it is NOT a scam !!!!!.

PROVEN ON OPRAH! Reported in the Wall Street Journal!!!!

The only thing you need is : - E-MAIL ACCOUNT
- PREMIER (FREE) or BUSINESS PAYPAL ACCOUNT
- $6 on this account (The only investment)
- 30 minutes of your time

There is no limit on how much money you can recieve, and you haven't got anything to lose with this Business program. I will explain how it works !!!!!.

Follow these 4 easy steps and it WILL work !!!!!.

STEP 1 : SIGN UP FOR A FREE PAYPAL ACCOUNT !!!!!.

Paypal is a free and safe way to pay and receive money on the Internet.
Creating a account is as easy as creating a MSN account.
Copy and paste the next line in your Internet browser and sign up.
HTTP://WWW.PAYPAL.COM

Be sure to sign up for a FREE Premier or Business account and not for a Personal account. You cannot receive CREDITCARD payments with a Personal account and we can't have that. Do we !!!!!.

STEP 2 : SENT $6 TO YOUR PAYPAL ACCOUNT

This is your only investment to receive the money with ease.

With your Paypal account, send $1 to each e-mailadres listed below.
!!!!! IMPORTANT !!!!! Be sure to use this SUBJECT : *PLEASE PUT ME ON YOUR EMAIL LIST* when you send the money.

1) martine@pilote.net
2) dexxatol@netcourrier.com
3) armygirl8568@hotmail.com
4) comjii@starband.net
5) sinnek@bellsouth.net
6) nsi@nelasat.com

STEP 3 : PUT YOUR E-MAIL ADDRESS ON THE BOTTOM OF THE LIST

After you have send $1 to each e-mail address, put your e-mail address on the 6th place.
Remove e-mail address number 1, and move each e-mail address 1 step up the ladder.
!!!!! IMPORTANT !!!!! BE SURE THAT THE E-MAIL ADDRESS YOU USE IS THE SAME AS YOU USED TO SIGN UP AT PAYPAL.

Remember that this is LEGAL. You are creating a service : an e-mail servicelist.

STEP 4 : UPLOAD OR COPY THIS MESSAGE TO NEWSGROUPS, FORUMS ETC AND EMAIL IT TO ALL YOUR FRIENDS!

There are 32,000 newsgroups. Upload or copy this message to at least 200 newsgroups or forums etc, but ..... remember that the more your upload the more people will see your message and the MORE MONEY WILL FLOW IN.

How to upload to newsgroups and forums? :

After you have followed step 1,2,3 and 4, save this message (and copy so you can use it again).
Use your Internet browser and Outlook Express or another newsreader and try to find FORUMS, NEWSGROUPS,
BULLETIN BOARDS, DISCUSSION GROUPS, CHAT SITES and ONLINE COMMUNITIES. Use GOOGLE or use a NEWSERVER.
Use every option to post this message. Download PostXpert to send 1 message to more NEWSGROUPS at the
same time.

!!!!! REMEMBER !!!!! The more you post this message the more MONEY WILL FLOW IN.

Why does this Business program work so well !!!!!.

Lets asume that from the 200 (or more) messages that you have posted, only 5 people respond, you will have your
$6 back that you have invested. Those 5 people will each send at least 200 messages with your e-mailadres on
number 4. That's 6 x 6 x $1 = $36. The next 25 people will also send 200 messages with your adres on number 3. That's 36 x 6 x $1 = $216. The next 216 people also send 200 messages with your name on number 2. That's 216 x 6
x $1 = $1296!. Those 1296 people again also send 200 messages with your name on number 1. That will give us a total of 1296 x 6 x $1 = $7,776.

Now the last tier! 7776 x 6 x $1 = $46,656!!!!!!

This is only a EXAMPLE with 6 reactions. You WILL get MORE responses than that.

Remember that most newsservers will leave the posted messages on there servers for about 2 weeks. If you will post your message again, it WILL again start from the beginning. So you can repeat this over and over again.

Everyday MILLIONS of people are ONLINE and reading these messages, JUST LIKE YOU RIGHT NOW. I also was sceptical in the beginning and have read a lot of these messages. I also thought that it was bullshit.
Until I thought : What the hell!, only $6. What's $6 and a couple of minutes of my time to solve my money problems.

!!!!! REMEMBER !!!!! Follow every step, and IT WILL WORK, TRUST ME. !!!!!

!!!!! BEST WISHES AND GOOD LUCK !!!!!

w)O>+;)<9UVS;F>qaGL<Uq#v`V6(F]- rM;$g+!4IIQ*827?H4

Didn't see that in the NAL.. Didn't that happen years ago? (Trying to sweep off the dust on the Mexico City Quake..) If so, it is not what the NAL was charging him with.

They are dealing only with the offences on Nov 27, 2004; Dec 3, 2004; and March 31, 2005 which where directly observed by FCC agents.

Cease and desist your whining. Such net.KKKoppery as this only makes you a killfilable twit to the rest of usenet. There _ain't_ no justice, and if you file a lawsuit, you will lose, badly and with immense humiliation. "Harassment", the real kind, includes phone calls to you personally, at home, at work, on your cell, and to your friends, family members, co-workers, bosses, and anyone who knows you IRL. You're just being flamed, lamed, and trolled by a bunch of brain-dead CB radio fuckwads. Get over it.

<groan> Oh, by Cthulhu, Eris, and the Great White Handkerchief. No one is harassing you *unless* they are: 1) forging posts in your name and with your IP address; 2) making phone calls to you, your family, etc.; 3) sending you/your family/etc snail mail or messages in various other ways; 4) outright stalking you/your family/etc IRL or (in the workplace) making unwelcome advances upon you. If none of these things are happening, and you are just being flamed, lamed, and trolled (with sockpuppets being created in your honour), then you have no possible case for harassment. However, each unique sockpuppet is worth one UV point, and once you have ten points, you can turn them in for your very own Sombrero! As for what that's worth, nothing much, just entertainment value. If people are going to show you their rectums, you may as well take the opportunity to stick daisies, roses (with or w/o thorns), and other flowering plants in said holes.

Yes, I know, that's kind of fuckheaded, but I'm kind of a net.fuckhead. Ask anyone... There is, at any rate, no "other path", excepting the careful use of a killfile. "Cease and desist" Does Not Work, and Will Never Work. ISPs will ignore you. Everyone will ignore you.

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your
moon bounce some more.

It's a change from his "gte help" posts. And yes, he spelled it that way.

Mark, Just ignore them.

They only tease you because of the stupid things you say when you
follow up. Just ignore them and they'll give up.

Stop giving them reasons to tease you. It only makes you look
more stupid.

Take a break from the radio groups for a while, Maybe work on your
moon bounce some more.

SB DX @ WW < KB8NW $OPDX.772
Ohio/Penn DX Bulletin No. 772

The Ohio/Penn DX PacketCluster
DX Bulletin No. 772
BID: $OPDX.772
August 21, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, KA7KUZ, N7MQ, N7NG, K8YSE, Pete's-DX-Newsdesk, DH5JG, DL1EK & The DX News Letter, DL6KAC, DL7JAN, F5NQL & UFT, HA0HW, I1HYW, I1JQJ/ IK1ADH & 425 DX News, LZ1BJ, PA7FM, RSGB IOTA, TA3YJ, UX0FF, VA3RJ & ICPO, VE3EXY, VK4AAR, VK6CQ and YT1HA for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 13th/August, through Sunday, 20th/August there were 201 countries active. Countries available: 3A, 3B8, 3V, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E4, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J7, JA, JD/o, JT, JW, JY, K, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XX9, YA, YB, YI, YL, YN, YO, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3V8, TUNISIA (IOTA Op!). Look for Francois, F8DVD, to be active as 3V8SM from the facilities of the Scout Houm Souk ARC on Djerba Island (AF-083), August 28-31st. He intends to be active on both CW and SSB, on all bands, from 80-10 meters, propagation permitting. Francois will use a FT-767 w/100w into beam and dipoles. QSL this activity ONLY to F8DVD, either direct (SAE + IRC or 1 USD for Europe, and 2 USDs for Africa and elsewhere) or via the French REF-Union Bureau. Please nothing via 3V Bureau. F8DVD's

address is: FRANCOIS BERGEZ, 6 RUE DE LA LIBERTE, F-71000 MACON (FRANCE).

4TH AAW. Dates have been announced for the next and 4th Antarctic Activity Week (AAW). Gianni, I1HYW, informs OPDX that Worldwide Antarctic Program's (WAP) Antarctic Activity Week 2007 will be held February 19-25th. If you go to the WAP's Web site, you will find a new banner with the name "Antarctic Activity Week". By clicking on it, you will be moved to the AAW callsigns history list from the first AAW (2004) through the 4th event of 2007. Several stations have already announced/booked for next year's event, and you can see their callsigns listed in the 2007 session. AAW is an unique world-wide event where Hams are "celebrating and working to improve Worldwide interest around the Antarctic Continent and its related matters, to understand and share what the Nations and Organizations are doing to study and protect this still non contaminated corner of the world and share from there, a message of peace." Apply for your ANT special callsign, and let them know about it in order to issue your WAP reference and be ready on time to join them. For Award collectors, the WAP-ASEA (Antarctic Special Event Award), managed by ARI Cassino, is sponsoring this particular event: http://www.aricassino.it/diplomi.htm
WAP states, "Antarctica is much more than an amusement, Antarctica is passion and culture!" Visit their Web page at: http://www.ddxc.net/wap

4W, TIMOR-LESTE. QSL Manager, Dennis, PA7FM, informs OPDX that 4W6AAB went QRT on the 12th of August after almost 4 weeks in Timor-Leste. Almost 3000 QSOs were made on 40-10 meters on SSB/CW/RTTY and PSK31. Dennis mentions that for those who missed him again.... it was probably due to the very limited operation hours. He will most likely go back, maybe at the end of this year. QSL cards will be printed soon, while the log is online at: http://www.pa7fm.nl
QSL via PA7FM: Dennis Robbemond, Loggerhof 11, 3181 NS Rozenburg, The Netherlands.

4X, ISRAEL. Look for Hal/W8HC, Randall/K8OQL and four 4X operators to be active as 4X0WV during the CQWW DX SSB Contest (October 28-29th) as a Multi-? entry. QSL via W8HC.

5Z, KENYA. Nick, G3RWF, is planning to return to activate 5Z4LS again in November for the CQWW DX CW Contest. He is expected to probably stay a few more days than last year. Nick is planning to use the Radio Society of Kenya clubhouse in Nairobi again.

7P, LESOTHO. Operators Wolf/DH3WO, Mathias/DJ2HD and Jan/DL7JAN will be active as 7P8WO, 7P8DJ and 7P8JF, respectively, from Roma between September 3-12th. Activity will be on 80-10 meters on CW/SSB/RTTY and PSK31. They will have two stations on the air. QSL all callsigns via DL7JAN only, either direct (QRZ.com) or via the bureau. Visit the following Web page at: http://www.qsl.net/dl7jan/

AFRICAN TOUR. Miki, YT1CS, is planning another trip to Africa during the month of October. He plans to activate a couple of IOTAs and countries during his travels. So far his list of destinations include the following Tanzania (5H), Kenya (5Z), Burundi (9U), Ethiopia (ET), Comoros (D6) and

Mayotte (FH). During his 5H and 5Z trips, Miki will activate the following IOTAs: Lamu Island (AF-040; 5Z4), Wasini Island (AF-067; 5Z4), Zanzibar (AF-032; 5H3) and Pemba (AF-063; 5H3). The duration of his stay is dependent on sponsor's support. Miki is looking for sponsors and can be reached at: yt1cs@ptt.yu

ANTARCTIC RADIO OPERATOR NEEDED. Alan, VK6CQ/VK0LD/VP8PJ/9V1DX, reports: "I am looking for someone for a temporary position as a radio/communications operator at Patriot Hills, Antarctica, this coming season. The job involves maintaining voice communications with Twin Otter aircraft and mountaineering parties on HF, VHF and Iridium satellite. This would suit an experienced HF amateur radio operator and is a paid position with airfares to/from Punta Arenas provided. Patriot Hills is located at 80 degrees South, at the southern end of the Ellsworth Mountains and is serviced by a weekly 5 hour flight on an Ilyushin 76 cargo jet from Punta Arenas, Chile. Accommodation, food etc. at Patriot Hills is provided free of charge. Dates are approximately mid October 2006 to end of January 2007, but a shorter period may be negotiated for suitable candidates. The position requires very good English language skills and a reasonable level of fitness." If you are interested, contact Alan at: vk0ld@yahoo.com To see pictures and info on Patriot Hills, visit Alan's Web page at: http://www.geocities.com/vk0ld/home.html

CN, MORROCCO. M'hamed, CN8NK, is expected to be active on RTTY 30 meters very soon.

DXCC NEWS.....
Followup -- DXCC Accreditation Criteria Change (August 14th, 2006). Wayne Mills, N7NG, ARRL Membership Services Manager, reports: "It has become commonplace for DXpeditions to publish the band and mode for selected callsigns. While this reduces the overall integrity of the QSLing process slightly, it's a reasonable compromise. In almost every case, the new accreditation rule will change nothing. Publishing band and mode information for each callsign (as is now done) is perfectly acceptable. It is only the rare case where complete QSO information is published or can be derived for the published data that we are concerned about. Understand that were a DXpedition log (or any log for that matter) to be inviolable, that is never to be changed, these matters would be moot. In fact, it would be better to publish the logs. But logs are changed, and most times for good reason. Can you imaging the grousing if a DXpedition were to refuse to make any changes to the log? Let's face it, then. Logs are changed. The existance of a complete log (including time, date, band, mode and callsign, or enough information to derive those parameters), available to all interested parties can create difficulties for QSL managers, and in the end call into question the integrity of the QSLing processes. What's a manager to do when two or more DXers with very similar calls claim a single QSO? This situation can and does happen much more frequently when a complete log is published. The ARRL DXCC Branch has spent many thousands of man-hours over the years checking cards and making every effort to maintain the integrity of the DXCC program. Most DXers would have it no other way. When we were considering rule changes

back in the late nineties, many DXers went out of their way to comment to the effect that we should never compromise on integrity. Publishing complete logs on the Internet can and will impair the integrity of the program. We intend to resist."

EA8, CANARY ISLANDS. Frank, DH5JG, will be operating as EA8/DH5JG from Lanzarote Island (AF-004, DIE S-007) from August 30th until September 12th. Activity will be on 40-10 meters including the WARC bands. Modes will be CW, SSB and RTTY/PSK31. He will also participate in the upcoming IARU Region 1 SSB Field Day and WAEDC SSB Contest. QSL via DH5JG by the bureau (DARC).

IOTA NEWS.....
AS-093. Kang, DS4DRE, will be active as DS4DRE/4 from Hong Island now through the end of the year. Activity will be on 80-10 meters CW/SSB. QSL to his home callsign, direct or by the bureau.

EU-048. Chris, F8EUK, will be active as F8EUK/p from Houat Island, September 10-17th. Activity will be mainly CW on 30/20/17/15 meters. He will use a FT-857D w/100w into a multi-doublet and HM vertical. Operation will be limited because he is on holiday. QSL via the bureau.

EU-064. Operators Gilles/F5JPG, Michel/F5UTL, Dominique/F1CNB, Luis/ F5THW and Juan/F5IRC will be active as TM2P from Pilier Island (AT-30 and Lighthouse DPLF: PB032, WLOTA: LH 622 and ARLHS: FRA 396), between September 8-10th. Activity will be on 80-10 meters (no 160m), CW, SSB and PSK31. QSL via F5IRC.

EU-095. Several members of the F5KDK ARS will be active as TM5F from Frioul Island, August 25-27th. Activity will be on 160-10 meters CW/SSB. Operators mentioned are: Odette/F1IKA, Yannick/ F1NSR, Alexandre/F4CJV, Florent/F4CWN, Michel/F5IVP and Jean Michel/F5SDD. QSL via F1IKA. More information is available at: http://www.f5kdk.com/

SA-044. Members of the 4M5DX Group and the Mediterranean DX Club will be activating La Tortuga Island in Venezuela as YX5IOTA between September 26th and October 1st. Activity will be on all bands and modes. QSL Manager is IT9DAA. Please check their Web page for list of operators and suggested frequencies at: http://yx5iota.4m5dx.org

IRCS. Alan, VK4AAR, has received important information direct from the Universal Postal Union (in Switzerland) in response to his inquiry regarding the expiry dates for IRCs. Here is what he received from the IRC and Philately Programme Assistant: "Since 2002, the validity date for exchange is printed on each international reply coupon.
The new international reply coupon (Beijing model 2), on sale from 1 July 2006, is valid for exchange until 31 December 2009.
The international reply coupons (Beijing model 1), on sale from 1 January 2002, must be exchanged before 31 December 2006. They will have no value

after this date.
I would like to inform you that International Reply Coupons (IRCs) issued from 1906 to 1974 (in blue colour) do not have any value for exchange, but maybe they have a historical value. You may wish to consult a collector of IRCs to know if the coupon has any financial value.
You should understand that currently the IRCs issued from 1975 to 2001 (in yellow colour) are exchangeable indefinitely according to the current UPU rules. However, this kind of IRC cannot be anymore exchangeable, in term of finances, between the postal administrations since 30 June 2006. Therefore, it means that some of them do not accept anymore this coupon for exchange.
The exchange of IRC (after the customer's exchange) between the postal administrations is managed by a bilateral agreement, and if there's no bilateral agreement, the postal administrations loses money."
Readers are suggested to visit a Web page that Jim, AD1C, has put up about the above IRC information (from the Universal Postal Union). On the Web site, readers will see the different IRCs as mentioned above. Go to: http://www.ad1c.us/upu_rules_irc.htm

KH8SI SUMMARY REPORT. A QSOs summary sheet on the KH8SI DXpedition became available this past week. The KH8SI team made some 16,390 QSOs from Swains Island. The first QSO was on July 28th (2006) at 2219z with AH8LG on 20m SSB. Last QSO was on August 2nd (2006) at 1600z with VK1XP on 20m SSB.
The following are more numbers on the operation.

Band	Mode	QSO	Continental	QSOs
160m	CW	227	NA	8,810
75m	PH	266	SA	137
40m	PH	1,595	EU	1,655
30m	CW	2,426	AS	5,132
20m	PH	5,987	OC	603
20m	CW	1,084	AF	53
20m	RTTY	25		-----
17m	PH	3,644		16,390
17m	CW	13		
15m	PH	800	JA	4,723
12m	PH	323	USA	8,268

		16,390		

Activity took place during 6 days with the solar flux around 73 and the K at 1. QSL via JA1BK. For the story, log search and pictures visit: http://www.iijnet.or.jp/JA1BK/home_e.html

LZ1900, BULGARIA (Special Event). Several members of the Bulgarian Federation of Radio Amateurs (BFRA) will activate the special event callsign LZ1900K (LIMA ZULU ONE NINE ZERO ZERO KILO) through the end of 2006. Activity is to commemorate the 1900th anniversary of the proclamation the of ancient city of Pautalia (modern Kyustendil) by Roman Emperor Mark Ulpiy Trayan for Municipia (Province center), including the right of the city to issue coins. QSL preferably via the LZ QSL Bureau to LZ1BJ.

NP2, U.S. VIRGIN ISLANDS. Members of the Flordia Contest Group will be active as NP2B during the CQWW DX SSB Contest (October 28-29th) as a Multi-? entry. Operators mentioned are George/K5KG, John/NP2B, Esteban/ W4DTA, Julio/WD4R and Fred/K9VV. QSL via NP2B.

PIRATE ALERT. Reports indicate that the activity of a 9A/TA3J back in July was a PIRATE. Berkin, TA3J, states that he didn't operate from Croatia. Save your green stamps!

QSL INFO AND NEWS.....
4O8O via YT1HA. Zik, YT1HA/4O8O, informs OPDX that he is still waiting for QSL cards from the printer and the QSLs will be sent out when he receives them. QSL is "OK" direct via YT1HA or e-QAL via eqsl.cc. This QSL counts for Serbia.

QSL DA2006LH via the Bureau or direct to DG0UFA (QRZ.com address). Activity was from Staberhuk Lighthouse (ARLHS FED-226, WW Loc. JO54PJ) located on Fehmarn Island (EU-128, O-01 for the German Islands Award) during the International Lighthouse/Lightship Weekend.

QSLs for DF0HC will go out automatically via the DARC Bureau or (if you really need a direct card) via DJ5KP (address is good on QRZ.com or actual callbooks). Activity was during the International Lighthouse Weekend from Helios Tower (FED-107) in Cologne. More info at: http://www.mydarc.de/dn1kav/

Direct QSLs for T96Q go via T93Y: Boris Knezovic, P.O. Box 59, Sarajevo BA-71000, Bosnia and Herzegovina (w/SAE and 1 IRC or 2 USDs). Bureau cards will be forwarded to Boris. QSL requests sent to T96Q's address will be forwarded to Boris every month or two, so if you want a quick answer, please do not send your cards there. All questions regarding QSL traffic for T96Q can be sent to: boris@t93y.com

Nilay, TA3YJ, QSL Manager for the following callsigns states you can find out the status of your QSL for sending (incoming/outgoing) direct and via the Bureau QSL cards at the TA3YJ QSL Service. She is the QSL Manager for: TA3J, TA3J/0 (AS-099), TA3J/0 (AS-115), TA3J/1, TA3J/3, TA3J/3 (TUR 006), TA3J/4, TA3J/4 (TUR 065), TA3J/60, TC2K4J, YM125ATA, TA3PI, HA/TA3J, LZ1/TA3J, LZ2/TA3J, OE/TA3J, OK/TA3J, SV1/TA3J, SV4/TA3J, TA3YJ, TA3YJ (AS-099), TA3YJ/3, TA3YJ/3 (TUR 006), TA3YJ/4, TA3YJ/4 (TUR 065), TA3YPI, LZ2/TA3YJ, SV1/TA3YJ, YM3BU, YM3ATA, YM3SV, YM75TA, YM21TA, YM3LZ (WPX2000SSB) and YM3LZ (WAE2000SSB). To see the status of your QSL, visit the Web page at: http://www.geocities.com/qslservice/ta3yj

SPECIAL EVENT (911). Robert, W2IK, will again be operating special event station W2IK/WTC911 on September 11th, from 1300-0300z (9 AM-11 PM EST). He states that activity is "IN HONOR OF THOSE WHO LOST THEIR LIVES DURING THE WORLD TRADE CENTER DISASTER. I WILL BE USING MY PERSONAL CALL BECAUSE IT WAS THE FIRST CALL THAT WAS SENT FROM 'GROUND ZERO'." Look for activity on the upper portions of 40/20/15 meters SSB. QSL by sending a 9x12 SASE to the QRZ.com address of W2IK: PO BOX 6731, San Antonio, TX 78209. A special QSL certificate has been printed. Visit the following Web to see

last year's event: http://hometown.aol.com/alonestaryank/W2IKWTC911.html

SPECIAL EVENTS (Ukraine). Look for the following special event stations
to be active from the Ukraine between August 24-28th. Activity is to
celebrate Ukraine's 15th anniversary of independence. Operations will
be on all HF bands. Special event stations are:
EO15FF - QSL via UX0FF, direct or by the bureau.
EO15FW - QSL via UT3FW, direct or by the bureau.
EM15FA - QSL via UT2FA, direct or by the bureau.

USI NEWS.................
TN036. Operators Ralph/WA3YFQ, Joe/WA3WMB and Loren/WA3WZR will activate
Goat Island (Not IOTA, but a USI new one!) located in Dale Hollow
Lake, Pickett county, Tennessee, between August 21-25th. They
will use the callsign WA3YFQ for this operation. Activity will
start around 1600z on 7250 kHz, then they will QSY to 14260 kHz.
QSL via WA3YFQ (QRZ.com).

VE, CANADA. Laci, HA0HW, will once again be in Canada between August 20th
and September 17th. He informs that he will try to operate as VE3/HA0HW
from VE3NE's QTH as he did last winter. Laci states that this isn't a
"DXpedition" it is a work-trip (on the job training). QSL via HA QSL
Bureau or direct to QRZ.com address.

VP5, TURKS AND CAICOS ISLANDS. Operators Frank/WA2VYA, Tony/W2WAS and
John/N2VW will be active as VP5T during the CQWW DX SSB Contest (October
28-29th) as a Multi/Multi or Multi-2 entry. QSL via N2VW or LoTW. Their
activity will be from VP5JM on Providenciales (NA-003). Look for CW and
operations on the WARC bands before and after the contest. Operators will
sign using VP5/homecall. QSL to their home callsigns. No eQSLS.

W7, UNITED STATES (RTTY from MT!). Three members of Cinco Nueve Contest
Group from Oregon/Southwest Washington, will participate in CQ WW RTTY
Contest (September 23-24th) from Montana. The trio will be active from
W7LR's QTH and use his callsign for the contest. QSL via W7LR. Outside
of the contest, operators will be active a bit using homecalls/7 -- for
those QSOs, the QSLs go to either Al/K7AR, Mark/N7MQ or Ron/WJ7R.
If there are special RTTY WAS needs, Email to N7MQ [n7mq@arrl.net], and
they will see what they can do. No promises on skeds.

ZL, NEW ZEALAND (Ops Needed!). Brian/KA7KUZ and Brian/ZL1AZE are assembling
an international team entry in the 2006 CQ WW SSB Contest from the Quartz
Hill (ZL6QH) superstation. Transportation will be provided to and from
Wellington Airport with accommodation provided at the station. With the
assortment of Vee beams, yagi beams, rhombic and low band sloper antennas
available at this site, there will be no shortage of operating opportunities
before, during and after the contest. This may be the last CQ WW SSB Contest
from ZL6QH for some time; it is likely that the antennas will be removed
in 2007 for the construction of a wind farm. If interested, please contact
KA7KUZ at: ka7kuz@arrl.net
Visit the Quartz Hill's Web page at: http://www.zl6qh.com

My fancy electronic logbook is an Excel spreadsheet. This makes it easy to asve in any format. I also have an Excel template in which I can paste my basic data to create an adif file. Very easy to do. LOTW needs the callsign, date, time, band, and mode. Paste the raw data to the template, grab and paste the results to a text file, save as text and give it a .adi suffix.

> commission may be a way to stop them.

It's very simple. The Google funded technology is set to use only frequencies that will not interfere with ham bands. Ed Hare (W1RFI) has tested these systems and found no interference on ham bands. He has found interference on other bands, but users of those frequencies have shown no interest in his findings.

In Australia, operators of costal radio stations (marine mobile service) have complained, but no one in the U.S. has.

The current of the FCC has come out 100% in support of BPL.

Geoff.

EI7.0 is out. If you use many screens at once while looking for DX, EI7.0 may be of interest to you. I keep three WEB spots up at once plus several other WEB tools. EI7.0 allow these windows to stay open and current, plus provides tabs for instant access, or all in one window for selection. There are also other features, most of which I have yet to explored.

August 28, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, AA3B, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K6RIM, KX7YT, K8YSE, Pete's-DX-Newsdesk, 9A6JYL, DK8JB, DL4OK, F5NQL & UFT, F6AJA & Les Nouvelles DX, G4EDG, I1JQJ/IK1ADH & 425 DX News, IN3VZE, LA9VDA, RSGB IOTA, SM5DJZ, TA3YJ and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Monday, 21st/August, through Monday, 28th/August there were 191 countries active. Countries available: 3A, 3B8, 3W, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, EU, EX, EY, EZ, F, FG, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J6, JA, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PY, PZ, S5, S9, SM, SP, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V5, V8, VE, VK, VK9N, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YL, YN, YO, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3A, MONACO. Patrice, F5RBB, will be active as 3A/F5RBB from September 2-10th. Activity will be on 40/20/15/10 meters SSB. QSL via his home callsign.

3XM, GUINEA (Possible IOTA Ops). Serge/UA6JR and Alex/RW3AZ will be active again from Boke as 3XM6JR and 3XD2Z, respectively, starting August 29th "for the next few years". Activity will be on 160-6 meters CW, SSB and RTTY, plus PSK and SSTV (3XM6JR). Serge also plans to activate IOTA groups

AF-096 and AF-051 during his stay. He will also use the special callsign 3XY3AZ during contest activities. QSL via UA6JR, direct or by the bureau.

5B, CYPRUS (Possibly ZC4!). Colin, G3VCQ, will be active as 5B/G3VCQ from August 28th to September 6th. Activity will be on all HF bands. Colin may also be active from the U.K. Sov. Base Areas on Cyprus (ZC4) from time to time if a callsign is allocated. QSL via G3VCQ.

5V, TOGO. Robert, 5V7BR, can sometimes be found on 14114 kHz after 0600z. As of June 1st (2006), the QSL Manager for 5V7BR is Gerard, F2VX. QSL cards are "OK" via the bureau or direct.

6W, SENRGAL. Albert, NH7A, will be active as 6W1RY during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band/High-Power entry. QSL via F5VHJ.

7Q, MALAWI. Ely, IN3VZE, informs OPDX that he will be active as 7Q7CE from the southwest of Lake Malawi starting September 18th and ending October 5th. Activity will be on 80-10 meters. QSL via IN3VZE, direct or via bureau. His address is: Ely Camin, Corso 3 Novembre 136/2, 38100 - Trento - Italy.

9A, CROATIA. Gery, HB9TQF, will be active as 9A8TQF from August 28th to September 6th. Activity will be from Grid Square JN83, probably the exact locator will be JN83BB. Bands of activity were not provided, but he will be CW, SSB and FSK.

CT3, MADEIRA ISLANDS. Kresimir, 9A7K, will stay at Funchal between August 28th and September 4th. During his free time he will visit radio club stations CS3MAD and Jose CT3HG, and will be active as CT3/9A7K from IOTA AF-014. This is the first Croatian amateur radio station active from DXCC entity Madeira and from IOTA AF-014. QSL CT3/9A7K via his home callsign. Visit Kresimir's Web page at: http://www.9a7k.com

CU, AZORES. Jean-Pierre, F8AYU, will be active as CU8/F8AYU from Flores Island (EU-089), September 3-10th. Activity will be 40/20 meters CW/SSB.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, sent out the following announcement.
DXCC Accreditation Clarification: Several QSLs for ZL7/KH0PR - Chatham Island (May 2, 2005 - May 5, 2005) were inadvertently rejected. If you have had QSOs rejected at DXCC, you can claim credit by contacting Bill Moore at dxcc@arrl.org. <mailto:dxcc@arrl.org>

EA8, CANARY ISLANDS. Operators Valery/RD3AF, Valery/RX3DU and Alexandr/RZ3AZ will be active as EA8AH during the CQWW DX RTTY Contest (September 23-24th) as Multi-2 entry. QSL via RD3A.

EA8, CANARY ISLANDS. Nicolas, F5TGR, will be active as EA8/F5TGR/p from Fuerteventura (AF-004), September 2-16th. Activity will be on 40-10 meters CW/SSB. QSL via his home callsign, direct or by the bureau.

FT/W and FT/X, CROZET AND KERGUELEN ISLANDS (Also 3B8). By the time you read this, Gildas, TU5KG, may be active (August 27th) for 48 hours (maximum)

from Mauritius Island (AF-049) as 3B8/TU5KG during his spare time. Gildas will then travel south for 7 days, but at the moment does not know if his destination will be Crozet Island (FT/W, AF-008) or Kerguelen Island (FT/X, AF-048, DIFO FT-011). Further information should be received in about a week. Note that Gildas returns to France in December. QSL via F4EFI, direct or by the bureau.

GD6, ISLE OF MAN. Chris, GM3WOJ (ZL1CT), will be active as GD6IA during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/High-Power entry. QSL via GD6IA: GD6IA, PO BOX 1, PEEL CITY, ISLE OF MAN.

HB0, LIECHSTENSTEIN. Operators Andy/DG3XA, Joachim/DH9JK and DL1TX will be active as HB0/DG3XA, HB0/DH9JK and HB0/DL1TX from Augstenberg (2349m ASL and GS JN47), between September 2-9th. Activity will be on HF, 6 and 2 meters. The crew will enter the September IARU-Region 1 Contest. More info is forthcoming.

IOTA NEWS.....
EU-013. Russell, G5XW, will be active as GJ5XW/p from the Jersey Channel Islands between now and September 1st. Activity will be on all HF bands, SSB only. QSL via G5XW.

EU-017. Walter, IZ3ALU, will be active as ID9/IZ3ALU from Isola Vulcano (IIA ME-018, MIA MI-122, WLOTA LH-1001, WW Loc. JM78MI) between now and September 2nd. Activity will be on 40/20/15 meters SSB, PSK and RTTY. QSL via his home callsign, direct or by the bureau.

EU-038. Holger, DH1AD, will be active as PA/DH1AD from Texel Island (WLOTA LH-0003) from October 9-19th. This will be a holiday-style operation with 100 watts and wire antennas. QSL via his home callsign, the bureau is preferred or direct.

EU-052. Ilario, IV3CGJ, will be active as SV8/IV3CGJ/p from Kefallonia (MIA MG-054, WLOTA LH-0452) between now and September 3rd. Activity will be on 40-10 meters CW. QSL via his home callsign.

EU-055. Yogi, DB5YB, will be active as LA/DB5YB from Halsnoy Island between September 1-11th. Activity will limited because he is on holiday, but it will be mostly on 20 meters SSB. QSL via his home callsign, direct or by the bureau.

EU-120. Members of the Chippenham and District Amateur Radio Club will be active as GB2LI from Lundy Island off the coast of Devon, September 16-21st. They will operate SSB, CW and FM on HF and 2 meters (the generator will be off between 2300 to 0700 local time). Visit their Web page at: http://g3vre.org.uk/

EU-124. Members of the Grantham ARC will be active as GC0GRC/p and GC7GRC/p from Skokholm Island and lighthouse (ARLHS WAL-022, TWLHD WLH GW-013, WLOTA LH-1179, WW Loc. IO71IQ), now through August 29th. Activity will be on 80-10 meters all modes. They plan to have 10-12 operators involved in this activity. All contacts will be confirmed automatically via the bureau. The

QSL Manager for direct QSL cards is G0RCI. Visit the Grantham
ARC Web page at: http://www.garc.org.uk/

EU-125. Andy, DL4OK, will be active as OZ/NX1S from Roemoe Island,
September 9-16th. Activity will be mostly on 40 and 20 meters
(mode was not provided). QSL via DL4OK, via bureau is okay.
(no e-cards!)

NA-112. Members of Tennessee Valley DX Association (TVDXA) will be
active again on yet another mini DXpedition to Emerald Isle
(North Carolina) as W4PL between September 27th and October
7th. Activity will be on 80-6 meters including the WARC bands,
CW, SSB, RTTY and PSK31. Operators mentioned are: Kenny/AB4GG,
Kathy/W4KRY, Greg/WA4NFO, Barbarra/WA4RMC, Tony/W4FOA, Nancy/
K2NAN, Tom/K4VCM, Lynn/K0MAI, Alan/N4HL (and XYL Janet),
Charlie/AD4F, Larry/WA4IVO, Howard/KE4MBP (and XYL Carol),
Paul/N4LCD (and XYL Lydia), Tommie/K4KWK and Kay/KI4GYS.
They will arrive on the Island September 27th and at least
have some stations going that evening. QSL via K4KWK: Tommie
Wright, 2344 Violette Drive • Soddy Daisy, TN 37379. Visit
the Web page at: http://www.tvdxa.com/W4PL%20Emerald%20Isle.htm

NA-168. Dennis, WA2USA, will be active as WA2USA/5 from Grand Isle (USI
LA-003S), located in Caminada Bay, Jefferson County, Louisiana,
between October 19-30th. He will be active during the CQWW SSB
DX Contest (October 28-29th), no category given. Activity will
be on all bands 80-10 meters before and after the contest.
Emphasis will be on 20 meters during the day and 80/40 meters
in the evenings. There will be some operations on 30 meters.
QSL via his home callsign (QRZ.com).

LN, NORWAY. Look for LN3Z to be active in the 2006 Scandinavian Activity CW
Contest (SAC) (September 16-17th) as a Multi-Single entry. QSL via LA9VDA.
Details on the contest are available at:
http://www.sk3bg.se/contest/sacnsc.htm

MD0, ISLE OF MAN (EU-116). Operators Lars/DF1LON and Georg/DL1ECG will be
active as MD0LON and MD0ECG, respectively, between September 7-11th.
Activity will be on all HF bands, CW and SSB. QSL via their home callsigns.

NCDXF PRESS RELEASE (NCDXF ELECTION). Al Burnham, K6RIM, VP Northern
California DX Foundation (NCDXF), reports: At its Board of Directors
meeting on August 26, 2006, in Corte Madera, CA, the Northern California
DX Foundation re-elected the following officers and directors:
President Len Geraldi K6ANP
Vice President Al Burnham K6RIM
Secretary Tom McShane NW6P
Treasurer Bruce Butler W6OSP
Director Rusty Epps W6OAT
Director Dave Pugatch KI6WF
Director Chuck Ternes N6OJ
Director Glenn Vinson W6OTC

Director Steve Merchant K6AW
Director Ken Anderson K6TA
Director Tim Totten N4GN

Information pertaining to the Northern California DX Foundation is
available at: http://www.ncdxf.org

QSL INFO AND NEWS.....
ER15MD via ER1DA YR50A via YO5KAI OK1A via OK1FM
F8EML via F6KUQ XM2CBF via VE2CKC

NOT THE QSL MANAGER. John, KX7YT, informed OPDX that the June 17, 2002, OPDX Bulletin lists him (KX7YT) as the QSL Manager for S21DM. This is incorrect and he not the QSL Manager. He has unfortunately been getting many of his QSL cards. John was active as S21YV (as well as KX7YT) and has met S21DM while on business in Bangladesh. He tells John that he only QSLs direct. He has NO MANAGER. John is however, the QSL Manager for S21B.

GW3KHZ/P QSL STATUS. Steve, G4EDG, informs OPDX that all direct QSLs sent to G4EDG for the GW3KHZ/P St. Tudwal's Island (EU-106) operation on May 6th have been replied to and sent out August 22nd.

NEW QSL ROUTE. A new QSL Manager has been announced for Morokulien, SJ9WL/LG5LG. For more than 10 years, John, SM5DJZ, has taken care of all the QSLing chores for SJ9WL/LG5LG after the late SM0HUK, who became a Silent Key in 1995. The new QSL Manager for both SJ9WL and LG5LG is now Svenn-Erik Spigseth, LA4EKA, and his address is "OK" on QRZ.com. Cards are welcome via direct and also via the Norwegian QSL Bureau (NRRL). QSL cards that arrive in Sweden will automatically be transfered to LA4EKA. Svenn-Erik will also handle the Morokulien Award. For more info, please visit the WEB page at:
http://www.east.no/priv/la7tia/arim/engarim.htm

Nilay, TA3YJ, informs OPDX that she sent out QSL cards for TA3J, TA3J/0 (AS-115), TA3J/3, TA3J/4 LH, TA3J/60, TC2K4J, TA3YJ, TA3YJ/4 LH, YM75TA, YM3LZ (WPX2000SSB) and YM3LZ (WAE2000SSB) to the QSL Bureaus of Croatia, Denmark, Germany (R), Greece (R), Italy (R), Netherlands, Russia, Spain (R), Ukraine and United Kingdom (R) direct August 22nd. (R: Registered Mail). She has also sent out all direct QSL cards for TA3J/0 (AS-115) on August 22nd. PLEASE NOTE: TA3J didn't operate from Croatia. 9A/TA3J is a pirate station.

S7, SEYCHELLES. Claudio, IZ0KRC, will be on holiday and will be active as S79RC from September 3-16th. He plans to activate a few islands in the Seychelles group (AF-024). Islands mentioned are: Mahe, Praslin and La Digue. QSL via IK0PRP, direct or by the bureau.

SPECIAL EVENT (IOTA Op). As part of the 2006 Orkney International Science Festiva, special event station GB1H will be active from September 7-10th from the Isle of Stronsay (IOSA OR-08, SCOTIA OI-18), Orkney Islands (EU-009). Members of the Orkney Amateur Radio Club will be assisting with a special event station powered entirely by hydrogen gas. This amateur

radio station is believed to be one of the first ever to use this form of power, certainly within the United Kingdom. To celebrate the fact that this is the first known station to use hydrogen power (from the UK), OFCOM has kindly agreed for them to use the abbreviated callsign GB1H ("H"; being the chemical symbol for hydrogen). QSL direct to MM3LQK: William Caithness, Bayview, Stronsay, Orkney Islands, United Kingdom. The logs will be uploaded to LoTW and also e-QSL.

SPECIAL EVENTS (Japan). Look for the following special event stations to be active during the next two months on all bands and modes. QSL via the JARL Bureau.
8J1H - Activity will be between September 1st and October 10th to celebrate the 90th anniversary of Hachioji City.

8J3R - Activity will be between September 1st and October 31st to celebrate the 5th Anniversary of Ritto City.

8J4HAM - Activity will be between September 1st and October 1st to celebrate the Hamfesta Kasaoka.

8N1I - Activity will be between September 1st and October 9th to celebrate the 18th All Japan Shogai (or Lifetime) Gakushu (or Learning) Festival in Ibaraki

TM4, FRANCE. Operators Jean-Paul/F6FYA, Jean/F6EKS, Marc/F6EMT, Florent/F5CWU, Beatrice/F5MYT, Genevieve/F5SQM, Rafik/F5CQ, Thierry/F5MOO and Sylvain/F4EGD will use the special contest callsign TM4Q during the CQWW DX CW Contest (November 25-26th) as a Multi-Single entry. QSL via F6FYA.

V2, ANTIGUA. Bud, AA3B, will be active as V26K between November 22-27th. His activity includes the CQ WW CW Contest (November 25-26th) as a Single-Op/All-Band/Low-Power entry. This will be an all CW operation on the contest HF bands only. Please QSL via AA3B.

VK, AUSTRALIA (IOTA/Lighthouse Ops). Just a reminder that Wade/AA8LL and Liz/K8LIZ are planning to be operating "holiday style" later this week rom the following islands and lighthouses:
September 1-4th - Look for VK7AAH/5 and VK7AED/5 from the Cape du Couedic Lighthouse (AUS-030) on Kangaroo Island (OC-139).
September 5-6th - Look for VK7AAH and VK7AED from the Cape Bruny Lighthouse (AUS-254) on South Bruny Island (OC-233).
September 7-10th - Look for VK7AAH and VK7AED from Tasmania (OC-006, main island).
Casual operations will be with 100 watts and wire antennas on SSB and CW (possibly RTTY) on 40-15 meters; IOTA frequencies. QSL direct or by the Bureau: VK7AAH via AA8LL and VK7AED via K8LIZ. The address is correct on QRZ.com and cards for both may go in the same envelope.

WP3, PUERTO RICO. Alfredo (Al), WP3C, will be active during the CQWW DX RTTY Contest (September 23-24th) as a Single-Op/All-Band/Low-Power entry. QSL via W3HNK. Visit the Web page at: http://www.wp3c.qth.com

1247. FREEWARE - WinCAP Wizard - VOACAP

Newsgroup: rec.radio.amateur.dx
Date: 2006-09-03 20:18:30 UTC
From: J Tabor <denews@taborsoft.com>
Message-ID: <12fme4porecqs69@corp.supernews.com>
Source record: 2949

Greetings,

Our last invitation post was 14 Feb 2006. This one is similar but includes new information and an extra-special offer.

What is WinCAP Wizard? WinCAP Wizard is the most powerful HF Communications Analysis Prediction package ever developed.

Please understand I'm typically a humble type fellow. Unfortunately, if this message isn't compelling, you will likely ignore the tool and miss the offer. Good products do indeed sell themselves. But obviously, folks must first try the product. In a vast sea of amateur radio related products and tools, here is a tool you will probably like and, find very useful. Sure, you have product X, have used it for years and know it well, plus you are busy and don't have time to learn a new tool. But, does this logic keep you from acquiring new hardware, like radios, antennas and computers? Of course not.

You want free software; all of our software now defaults to freeware and provides basic functionality, sufficient for many users. The default WinCAP Wizard v4 download is known as QSL-ware. QSL-ware basically means freeware. <G>. We do appreciate an email acknowledgement and comments - thus our term QSL-ware.

This QSL-ware version provides unlimited point-to point and NCDXF beacon predictions. The extensive "Location Browser" provides a prefix search along with other useful information. The unique "Beacon SmartChart" and the Smart-Map-Geographic View are in this basic feature set. There are 2 point-to point charts and 3 beacon charts, each with numerous options, 4 point-to point reports and 4 beacon reports - all free.

The registered version adds a lot of tools and functionality. The "Coverage-Analysis View", is an elaborate map with the ability to plot any of 7 parameters, for up to 9 frequencies and all 24 hours. View any hour and frequency for each predicted parameter with a mouse click. More? A DX-list plot and search are provided. The Coverage-Analysis View provides several additional unique features.

Also included in the registered version is the "User Batch" prediction type. With the ability to analyze up to 18 unique circuits and present the results with 5 charts and 3 reports our user batch mode is both powerful and flexible.

Special user-batch prediction "views" provide definite advantages for the contest-oriented op. The Contest-Plan SmartChart and Contest-Plan SmartReport deliver incredible insight into "when to be where" during the contest. These could also be useful to the savvy DXer.

Sorry - I can't list all the advantages here - this is already too long. But if all this isn't enough, the registered WinCAP Wizard package includes GeoAlert-Extreme Wizard and Beacon Time Wizard, as a free bonus.

A 60-day full trial key is available upon request. Try the software tools. If you don't think them worthy of being paid for, they revert back to the default QSL-ware/freeware mode and functionality, without time limit.

Is there any question WinCAP Wizard is the leader in the HF propagation prediction category? If so, that thought should soon be wiped away. The next major version, v5, is due for release very soon. As we say, the best keeps getting better. <VBG>

Before a brief introduction on the main features of the new version, the special offer. Register v4 now and qualify for a free upgrade to v5.

WinCAP Wizard v5 provides a "Contest-Log Manager" and imports Cabrillo format logs from 55 different HF contests; more contests can be added easily, upon request. The logs can then be plotted to the "area coverage" map view - with or without predictions. The logs can, of course, be filtered and plotted by day, band, hour and any combination of these.

To my knowledge no other software exists to geocode calls for stations worldwide. There may be software that plots US, and even Canadian, calls. Do you know of any? Are you interested in this functionality? Can you imagine the possibilities?

The v5 prefix search features are among the finest available. The QSL-ware version also benefits - through the Location Browser.

Both USA and Canadian call lookup is provided. The primary purpose is log station geocoding but the ability is "way cool" and proving interesting. <G> For example, using the prefix/call search on the area-coverage view, you can begin typing a call and the great-circle path is plotted; as you continue typing, the great-circle plot changes to show the prefix and - as you complete the call - the actual location is plotted.

There are other minor enhancements over v4. The new WinCAP Wizard v5 provides an extensive set of powerful tools. Hopefully users will be able to easily do complex and interesting comparisons -that previously were too labor intense and time consuming.

Still, if you use a competing tool, not to worry, they can surely add a few of our choice features. <VBG> But it's doubtful they can add them all.

In any case, you are invited to download and use WinCAP Wizard version 4 in the QSL-ware mode without time limit. You will also find several other useful amateur-radio related software products at www.taborsoft.com

Don't miss the ID Wizard freeware. It provides a rich set of useful "tools".

Thanks for reading this far. Hope to work you in a contest.

Cheers,
KU5S

Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, KA2AEV, N2OO, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, KM6HB, W6IZT, KA7KUZ, K8YSE, WO0Z, Pete's-DX-Newsdesk, DE1DXX/DO1DXX, DJ7IK, EA4BT, F5NQL & UFT, G0YLM, I1JQJ/IK1ADH & 425 DX News, PH2M, RSGB IOTA, VA3RJ & ICPO and YU1AB for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 27th/August, through Sunday, 3rd/September there were 207 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, ET, EU, EX, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J6, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S5, S9, SM, SP, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TR, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V8, VE, VK, VK9N, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

100 POUND DXPEDITION (VP2M). Members of the "Buddipole Users on Montserrat" (BUMS) will mount a DXpedition to the island of Montserrat (NA-103) from January 29th to Feburary 6th, 2007. It seems DXpeditions have now moved from Microlite to Ultralite. DXpedition team members will pack light for this DXpedition taking only lightweight transceivers and portable antennas. The maximum equipment weight taken to the island will be 100 pounds per person. With this lightweight equipment, the team plans many on island

portable operations in the hills, on the beach, and from the volcano observatory on the southern part of the island. The team members mentioned are: Budd/W3FF, Chris/W6HFP, Dan/WZ1P, Paul/KB9AVO, Mike/KC4VG and Scott/NE1RD. All VP2M callsigns for the team members, QSL information, operating frequencies, and operating schedules will be released prior to the team's departure in January 2007. Check their Web site for more information and updates at: http://dxpedition-vp2m.com/
Also, you can follow along with the planning, preparation, execution, and follow through on this DXpedition through NE1RD's blog, "The 100 Pound DXpedition", at: http://100pounddxpedition.blogspot.com

5A, LIBYA (Update OPDX.765). Andy, DJ7IK, Team Coordinator for the DX-pedition to Libya, informs OPDX that there is an appeal for funds/hardware and equipment for setting up a club station in Tripoli. In addition to funds, the team needs transceiver(s), microphone, headphones (or headset), morse key, GP-vertical, coax cables and antenna wire. An international team will activate Libya between November 15-29th. The callsign will be 5A7A. Activity will be on all bands with CW and SSB, and for the first time ever, digital modes on RTTY, SSTV and PSK plus another first will be FM. Club and personal sponsors are welcome. If you can help out with a donation, please contact the 5A7A team at: 5a7a@gmx.de
Please visit their Web page and see their sponsors page at: http://5a7a.gmxhome.de

9H, MALTA. Several members of the Dutch Vereniging van Radio Zend Amateurs (VRZA) will be active from Qawra (JM75fw) on Malta (EU-023), starting the evening of September 9th through the morning of October 3rd. The callsign for the group will once again be 9H0VRZ. However, group members will also use their individual 9H3 callsigns, activity will be on all bands from 80-6 meters, CW, SSB and Digital modes. They will try to activate their special callsign 9H0VRZ for the whole period and hope for good conditions. Also, they will try to be active during the WAE-SSB Contest with their VERY special callsign 9H9PA on 20 meters ONLY for stations outside Europe on September 9-10th. DX stations are asked to show some patience since many of the operators are inexperienced in working/giving QTCs. QSL via the Bureau is "OK", also direct via their managers is "OK", but please NO IRC coupons, ONLY Green Stamp(s). Here are the individual callsigns with the QSL route:
9H3AB via PA1SL 9H3YL via PA0XYL
9H3HS via PE2HSB 9H3YM via PE1OFJ
9H3IE via PA0BEA 9H3YN via PA3CUZ
9H3ON via PG9W 9H3X via PE1NGF
9H3QH via PH2M 9H3ZR via PB9ZR
9H0VRZ via PB9ZR: Ruben v.d. Zwet, Barentszstraat 1, 2161 TJ LISSE, The Netherlands.
9H9PA (for 2006) via PH2M: Frank de Wilde, Zuidegge 4, 2391 DA Hazerswoude-Dorp, The Netherlands

DO, GERMANY (Novices now on the air!). As of of September 1st, 2006, German "DO" prefix stations (CEPT Novice class E) are allowed to transmit on some HF bands. Look for them on the following bands:

1810-1850 kHz with 100 W PEP 80/15/10 meters band with 100 W PEP
1850-1890 kHz with 75 W PEP 2m/70cm with 75 W PEP
1890-2000 kHz with 10 W PEP 10 GHZ with 5 W PEP
Germam class A's are allowed to transmit now even on 7100-7200 kHz with
250 W PEP and on 50 MHz.

DX MAGAZINE'S 2006 MOST WANTED SURVEY is now posted on the Web at:
http://www.dxpub.com
DX Magazine's Editor Carl, N4AA, states, "Just click on '2006 SURVEY'
and you will see the form. PLEASE be careful to select the correct CONTINENT
and/or NA TIME ZONE. If you make a mistake, submit it again correctly. I
will delete any surveys that are improperly marked for these two items.
Thanks for your cooperation in taking the survey. Please spread the word
to all your DXing friends so they can participate." PLEASE NOTE: Swains
Island is not listed. Carl states, "My apologies for that. The form was
already in print, for the magazine, before it became a reality. To simplify
compiling the results, I left it off the web list as well. I am going to
assume that the majority of you need KH8/S. However, if you wish, you can
add it in the ADDITIONS & COMMENTS box at the end of the survey form."

DXCC NEWS. Toma, YU1AB, informs OPDX that Bill Moore, NC1L, ARRL DXCC
Branch Manager, reports that the 4O3AB and 4O3ES operations from Montenegro
are approved for DXCC credit effective August 15th, 2006.

EA8, CANARY ISLANDS (AF-004). Stephan, DK3TNA, will be active as EA8/DK3TNA
from the Island of Tenerife (S-012 for the Spanish Islands Award, WLOTA
LH-1276), October 7-12th. Activity will be in the evening hours on 80-15
meters SSB, using a FT-897 w/100 watts and a vertical antenna. QSL via
his home callsign, direct or by the bureau.

FY, FRENCH GUIANA. Gregg, W6IZT, will be active as FY/W6IZT from September
12-20th. Activity will be on 80-10 meters CW and SSB. QSL via his home
callsign.

IOTA NEWS.....
EU-008. The Sands Contest Group will activate the Isle of Mull from
September 24-29th. They hope to be operational on most modes
and most HF bands. The callsign to be used will be the club
call MS0SCG.

EU-049/
EU-174. Dimitrios, SV2BWC, will be active as J48LEK from Lesvos Island
(EU-049, MIA MG-064) and other satellite islands such as Panagia
(EU-174, MIA MG-080), now through September 7th. This activation
is by the Hellenic Commando Association Radio Club. Activity
will be on 80/40/20 meters CW/SSB. QSL via SV2BWC (QRZ.com).

EU-088. Operators Frank/DL2SWW and Gabi/DF9TM will be active as
homecall/p from Laesoe Island from now until September 15th.
Activity will be on 80-10 meters CW/SSB. Possible operations
will take place on 160 meters on CW and 6 meters. QSL via
their home callsigns (QRZ.com).

EU-129. Helmut, DL7VOX, will be active as DL7VOX/p from Usedom Island (O-013 for the German Islands Award) now through September 15th. Activity will be CW on 160-10 meters. QSL via his home callsign, by the bureau or direct.

EU-159. (Lighthouse Op!) On Sepember 14th, weather permitting, look for operators Jacques/F5JY, Daniel/F5LGQ and Alain/F6BFH, to be active from Cordouan Island's lighthouse (DIFM AT-032, and lighthouse references: DPLF PB 018, WLOTA 0271, ARLHS FRA-007 and WLH F-012) starting around 1600z and ending on September 15th, around 1200z, Activity will be on 40/30/20/17/15 meters on CW and SSB. Operators will sign homecall/p. QSL via their home callsigns; and bureau is 100%.

NA-029. George, K3GV, will be active as K3GV/VY2 from Prince Edward Island (CIsA PE-001) between now and September 17th. Activity will be on 20/15 meters around the usual IOTA frequencies. QSL via his home callsign, direct or by the bureau.

J2, DJIBOUTI. Jean-Claude, J28JA, who will be here for about the next two years, has been very active mainly on 20/17 meters CW between 1330-1400z and again afte 1800z. He has done some SSB. QSL via F5JFU: Pierre Desseneux, Le Bourg, 58140 ST. Martin du Puy, FRANCE.

KP4, PUERTO RICO. James, KH2RU, will be active as KH2RU/KP4 during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (10m) entry. He mentions that "I will be operating continuosly on 10 meters if propagation permits, if not 20 meters or 15 meters." QSL direct to his home callsign.

NEW OFFICERS FOR 2006-2007. The new officers for the Central Texas DX and Contest Club (CTDXCC) are as follows for September 2006 through August 2007: President Jay Sewell, W5SL Secretary Jim George, N3BB
Vice-Pres. Larry Hammel, K5OT Treasurer Jim Wallgren, K5WWT

Ken Harker, WM5R, continues as Internet Web-master and reflector support person.

OH0, ALAND ISLANDS. Hadi, DJ2PJ, will be active as OH0JWH again from Eckeroe Island (EU-002), September 26th until October 8th. His focus will be on the low bands, especially 160 meters. Modes will be CW and everything except SSB (Hadi states he is microphone allergic!), even OLIVIA, CONTESTIA etc. QSL via DJ2PJ, by the bureau or direct using the QRZ.COM address. E-mail bureau requests with log extract are also welcome and go to: oh0@dj2pj.de
This is a holiday operation with plenty of ham radio. Visit Hadi's Web page for more details and pictures at: http://www.dj2pj.de

P4, ARUBA. Larry, WO0Z, will operate as P40LL from September 30th through October 6th. Activity will be on 80-10 meters, CW, SSB, and perhaps RTTY. QSL via WO0Z.

P4, ARUBA. John, KK9A, will be active as P40A during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band entry. QSL via WD9DZV.

QSL INFO AND NEWS.................
NOT THE QSL MANAGER. Mike, KA2AEV, reports that someone has posted some info on various sites that he is the QSL Manager for A51DX. He states he is NOT the manager and please DO NOT QSL A51DX via KA2AEV. Mike will attempt to return any direct QSLs that he receives direct if they have return postage. He will not return any A51DX QSLs received via the bureau for the obvious reasons.

Bob, N2OO, reports that he has IRCs for sale. Reduced price. Sales support 3Y0X. For details, visit: http://www.peterone.com/ircs.htm

SPECIAL EVENT. Look for special event station SN100SZ to be active throughout the month of September to celebrate the 100th anniversary of the Babiogorski Park Narodowy. No other details were provided. QSL via SP9PGB, by the Bureau or direct. Picture of the QSL and probably more details about the operation are available at the following Web (but in Polish) at: http://www.sbgk.qtc.pl/ramki/sbgk.htm

SPECIAL EVENT. The W6APD Anaheim Police ARC will operate as K6P from September 10-17th. This special event will commemorate POW-MIA Rememberance Day. Suggested frequencies will be 14253, 18150, 21350, 24950 and 28450 kHz as propagation permits. QSL via KM6HB: Mark McMullen, P.O.Box 27271, Santa Ana, Calif 92799 U.S.A. (w/SASE for picture QSL card).

SPECIAL EVENT (ISWL). The International Shortwave League (ISWL), continue with their 60th (Diamond) anniversary celebrations throughout the month of September. Look for the following activities:
GB6SWL - Will be active for 2 days, September 9-10th, from Great Missenden, Buckinghamshire. John, G8XTJ (ISWL President), will be the main operator.

GB60SWL - Will be active for 1 day, Sunday, September 24th, from the Thornton Abbey, in Lincolnshire. The station is being run by the Grimsby ARS. (A Club Affiliated to the ISWL).

GB6SWL - Will be active for 2 days, September 16-17th, from Belfast, Northern Ireland. The Station is being run by the City of Belfast Radio Amateur Society - COBRAS. (A Club Affiliated to the ISWL).

GB6SWL - Will be active for 2 days, September 23-24th, from the Thornton Abbey, in Lincolnshire. The Station is being run by the Grimsby ARS (A Club Affiliated to the ISWL).

GB6SWL - Will be active for 2 days, September 30th and 1st October, from Ivybridge, in Devonshire. Peter, G4VFG, will be the main operator.

MX1SWL/p - Look for the International Shortwave League (ISWL) callsign MX1SWL/p to be used by Chris, M0DOL (ISWL G-21106), during the month of September. Chris will be mainly active from various castles. There will be some special QSL cards made for this callsign used in September, so listen out for MX1SWL/p. QSL via G6XOU. More information is available on QRZ.com.

ADDED NOTE: The ISWL Awards Program is open to non members for a very small fee, to cover postage to any country in the world. Please see the following Web page for all details, including QSL information and the Special Diamond Anniversay Awards etc.... at: http://www.iswl.org.uk

SV9, CRETE (EU-015). Operators Roberto/I2WIJ, Salvatore/IK8UND, Cortesi/ IZ4DPV and Giorgio/IZ4AKS will be active as J49Z from Heraklio during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via IK8UND, direct ONLY. Visit their Web page at:
http://www.qsl.net/i2wij/j49z/j49z.html

TA4, TURKEY. Sei, JF1SQC/KH0DQ, will active as TA4/KH0DQ from September 9-15th. Activity will be on all HF bands with 100w on SSB, CW, and possibly RTTY. He will also participate in WAE SSB Contest. QSL via JF1SQC.

TK, CORSICA (EU-014). Members of the "Dx4Dx Team" will operate from here between September 28th and October 5th. Callsign(s) have not yet been announced. Activity will be on 160-10 meters including the WARC bands, SSB, CW, RTTY and PSK. Operators mentioned are: Pere/EA3CUU, Paco/EA4BT, Emilio/EA7AAW, Julio/EA7JB, Jose/EA7LS and Ramon/EB4EPJ. QSL via EA4BT, direct or by the bureau. Visit the Dx4Dx Web page at: http://www.dx4dx.com

V3, BELIZE. Larry, WO0Z, will be active as V31LL from October 7-21th. Activity will be on 80-10 meters, CW, SSB, and perhaps RTTY. QSL via WO0Z.

XE, MEXICO. Fernando, EA1CNF, will be active as XE1/EA1CNF between now and September 9th. He will be using an Icom 706 and a Buddistick vertical antenna. QSL via EA1CNF, direct or bureau (QRZ.com).

XF4, REVILLAGIGEDO. A Mexican and German team of operators are planning a DXpedition to Socorro Island (NA-030), in the Revillagigedo Islands group, to take place between October 17th and November 3rd. The announced callsign will be XF4DL, and the team members mentioned are: Joe/DF7TH, Gerhard/DJ5IW, Franz/DJ9ZB, Karl/DK2WV, Dietmar/DL3DXX, Juergen/DL8LE, Markus/DL9RCF, Ismael/XE1AY, Fabian/XE1FRF, Daniel/XE1FXF, Saul/XE1FXM, Victor/XE1FXZ, Rafael/XE1GRR, Parcival/XE1HBU, Margarito/ XE1MMB, Yuri/XE1UN and Hector/ XE2K. Activity will be on all bands, CW, SSB, Digital, EME and the satellites. QSL via N6AWD for North-America, and DL9NDS for the rest of the world. Visit their Web page at: http://www.xf4dl.xedx.org/

ZL, NEW ZEALAND (Update/A Few Ops Still Needed!). Brian/KA7KUZ and Brian/ZL1AZE continue (still looking) to assemble an international team entry in the 2006 CQ WW SSB Contest from the Quartz Hill (ZL6QH) super-station. Transportation will be provided to and from Wellington Airport with accommodation provided at the station. With the assortment of Vee beams, yagi beams, rhombic and low band sloper antennas available at this site, there will be no shortage of operating opportunities before, during and after the contest. This may be the last CQ WW SSB Contest from ZL6QH for some time; it is likely that the antennas will be removed in 2007 for the construction of a wind farm. If interested, please contact KA7KUZ at:
ka7kuz@arrl.net
Visit the Quartz Hill's Web page at: http://www.zl6qh.com

Hi everyone

Five members of Le Havre Radio Club (F6KOH) will be on Ile du Pilier on
the 8, 9 and 10th of september, at a short distance of Noirmoutier
Island (IN87TB 47°02,6N 002°21,6W) on the french Atlantic Ocean coast.

The "five magnificents"(operators) : F5IRC F1CNB F5UTL F5THW F5JPG :-P

This event will be valid for :

LH-0622 (Light Houses), EU-064 (IOTA), PB-032 (DPLF) and DFCF 85032
(French Castle and Forts).

The team will work on HF (80 to 10m) in phone, cw, PSK31.

Transmissions will begin after camp and station install on the 8th of
september.

QSL manager : F6KOH via buro or direct.

More informations on : http://perso.orange.fr/shtsf.com/SHTSF/index.htm

Hope to meet you on the air.

1252. Bio-TERROR in America: The Government of Torture!

Newsgroup: rec.radio.amateur.dx
Date: 2006-09-08 16:36:08 UTC
From: poetry4justice@yahoo.com
Message-ID: <1157733356.936599.98630@e3g2000cwe.googlegroups.com>
Source record: 2854

AMERICA IN DANGER of its own out-of-control Bio-Terror:
Is 1984 here? Or cripping... God help us,
blinded!
Originally Secret Bio-Aerosols are misused to HARM and Torture in
U.S.A.

Our government needs TORTURE in U.S.? See details
below...
It has your VOTE, support? Abused...

CRITICS (political/social/cultural) are harassed and secretly
persecuted
along with their KIDS in schools/colleges, especially, during
tests/exams
(Think: Guantanamo "stress-positions" in the context of
1984-technologies)

Bio-Aerosols and aerosolized chemicals are used to cause:
- severe colds/coughs turning into bronchitis, eye irritation
- bacterial pneumonia/other pneumonia, shortness of breath
- surges of severe headaches, migraines, dizziness, etc.
- fainting collapses by symptoms-mimicking aerosols
- severe stomach pains (sharp, burning, nausea, etc)
- chest-wall pains, heart-muscle inflammations/trauma, etc.
WORSE:
- heart attacks under cover of second-hand smocking
- car crashes/accidents by Vertigo-causing aerosols
- liver/organ failure by small-dose toxins (trace-less?)
- cancer-causing/facilitating - months-long assasinations
This "Yushchenko syndrom" CAN destabilize NATIONs
Waste, Fraud, Cronism and Abuse in HomeSec/FBI
Fabrication of Believable Info/Manufacturing of accidents

U.S. mail IS polluted in "anthrax-like" manner to HARM critics
Libraries, airplanes, hotels, offices, buses, trains - all polluted!

A network of Secret Gas-Aerosol Rooms operated in US
(in Philadelphia, Narberth, Lower Merion, PA)
(in Wilmington and Newark, DE)
(in Hampton, Williamsburg and Richmond, VA)
AND ELSEWHERE.... details below...
Bio-aerosols used to hurt and simulate panic attacks, etc.!
Soviets locked critics into nut-houses, now WE do the same!
Symptoms-mimicking aerosols do HARM, weak or ill people.

Say "Stop, I care" - call Senate (202) 224-3121
House of Representatives (202) 225-3121
What IS going on in America? *Print and
Post*
Manufacturing of FEAR to grab more Power and Money, of course.

Big Brother spins protection...
And fear is used to clamp.
Democracy needs action!
On which side do you stand?

Looked at this?!! Go to Google/Yahoo newsGroups:

TORTURE IN USA: Secret Aerosol Rooms

US Scientist needs legal help dealing with the secret aerosols rooms
(SARs) operated illegally in Philadelphia area, Newark (DE), Hampton
and Williamsburg (VA) and other places. Highly volatile aerosols with
and without bacterial content cause dry cough, airways a...

Full text was at:
http://buyit.philly.com/findit/search/results.jsp?catId=krd_philenqda...

This was a new on-line ad placed in Philadelphia Inquirer and
Philadelphia Daily News on www.philly.com (see full text below)
It was about the secret aerosols rooms in US. One could find it by
searching "secret", say, in the ad section of philly.com.

Democracy can not function effectively without the informed public. As
a former NASA Langley scientist working in the area of nanotechnology
and nanoscale particles, I have been recently exposed to the
establishment of secret gas-aerosol rooms inside of United States, at
least in the Mid-Atlantic region (from Philadelphia to Virginia).
First, the highly irritant aerosols have surfaced at the NASA Langley
Research Center in several safety accidents. Investigations were
blocked, probably, because of lack of Congressional approval for such
financially-lucrative research at NASA. Later, these aerosols had been
encountered outside of NASA in Virginia, Delaware and Pennsylvania
.
This points out to yet another proliferation of originally-sensitive
technologies into domestic American life to hurt and harass people
without a proper oversight and much control. This amounts to torture,
extra-judicial prosecution and authoritarian intimidation tactics. The
use of such irritants and the operations of the secret gas-aerosol
rooms are gross violations of human and constitutional rights of
American citizens and various domestic and international laws.

----------Full text of an ad from Philadelphia's
philly.com----------
TORTURE IN USA: Secret Aerosol Rooms
US Scientist needs legal help dealing with the secret aerosols rooms
(SARs) operated illegally in Philadelphia area, Newark (DE), Hampton
and Williamsburg (VA). Highly volatile aerosols with and without

bacterial content cause dry cough, airways and eyes irritation, chest pain and inflammation. FBI and Homeland Security associates are likely operators of SARs, while collaborators may be hotel staff and landlords, who get financial/material or other incentives. US citizens and kids are victims.

Torture is any act by which severe pain, whether physical or psychological, is intentionally inflicted on a person as a means of intimidation, deterrence, revenge, punishment, sadism, or information gathering. At times, medicine and medical practitioners have been drawn into the ranks of torturers, either to judge what victims can endure, to apply treatments which will enhance torture, or as torturers in their own right. http://en.wikipedia.org/wiki/Torture

America in Danger!

America in danger -
The vice is NOT impeached.
America in danger -
The public trust is breached.

Big Brother spins protection
And fear is used to clamp.
Democracy needs action!
On which side do you stand?

Which side are you on, boys?
Which side moves you on?
Which side are you on, girls?
Which side did you wrong?
(Chorus after F. Reece)

Your church is burned by haters.
The priests to go to jail?
Your dreams are cheyned by traitors,
But hope still shines through veil.

Dust rooms came back to gas us
With neo-Naz (or Con) embrace...
New immigrants do make US!
And not the SSuper-race...

***

The Government of Torture

Our government needs TORTURE?!
It has your VOTE, and, now, support?
But peace (not vice) needs steady nurture
And trustful words of calm rapport.

Beware of loud, but FALSE, ideas
That flame a thirsty hellish torch.

Protect the old and true ideals
And Constitution's civic urge.

Yes, torture IS a hellish torch -
In bloody hands, a blinded sword,
With Constitution used to forge
All laws on rights as mere absurd!

Remember victim's silent cry
And SEE the Christ in all of us.
Don't let your government to spy
And torture with some bio-dust.

There is NO good use for evil torture!
No matter how the need is spinned
By Nixon's men, as bloody sergeants,
While truth is painfully re-skinned.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 3rd/September, through Sunday, 10th/September there were 206 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5V, 5W, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, DL, DU, E3, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, JA, JD/o, JT, JY, K, KG4, KH0, KH2, KH6, KL, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V8, VE, VK, VK9N, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4X4/4X70/4Z70, ISRAEL (Special Event). Members of the Israel Amateur Radio Club (I.A.R.C) are hosting a special event museum station honoring 70 years of radio in Israel. The special event station, 4X4IRS, is located in the Holon Gallery of Design & Arts which presents a wide collection of old radios (broadcast), along with a modern FM local radio station. The activity started on August 15th, but will run until September 30th. Most of the operations have been on 20 meters CW, SSB and RTTY. QSL via 4X6ZK.

ADDED NOTE: Also, look for the I.A.R.C to activate 4X70R and 4Z70R to commemorate 70 years of Israeli broadcast ("Kol Israel"-Voice of Israel). The activity will last 2 weeks during mid October 2006 (1600z, October 7th to 2400z, October 21st). Activity will be on 160-10 meters including the WARC bands, CW, SSB and digital modes. QSL via 4Z4TL.

5H, TANZANIA. By the time you read this, John, K1JD, will be on an African Safari in Arusha, through September 19th. He hopes to be active as 5H2JD in his spare time. Activity will be limited to mostly his late afternoons around 14025, 10120 and 7025 kHz. QSL via his home callsign.

9H, MALTA (IOTA/Lighthouse Op). Jo, DL5AUA, will be active as 9H3JC from the Island of Gozo (EU-023), October 23rd to November 2nd. This will be a vacation. Activity will be on all bands and on CW/SSB using 100w and wire antennas. Operations will be close to the Lighthouse-Street of Ghasri (Giordan Lighthouse, ARLHS MLT 003). QSL via DL5AUA.

9M0, SPRATLY ISLANDS. Members of the Malaysian Amateur Radio Transmitter's Society (MARTS) are going to Layang Layang Island betweem March 9-20th (2007). They plan to be active on all bands and modes, with 2-4 stations active 24 hours a day. A total of 20 operators will be there. Operators mentioned are Phoa/9M2KT, Chow/9M2CF, Tex/9M2TO and some JA operators. More info will be forthcoming.

C6, BAHAMAS. Art, N3DXX, will be active (callsign not provided) during the CQWW DX CW Contest (November 25-26th) as Single-Op/All-Band entry. QSL via KN5H.

C9, MOZAMBIQUE (IOTA Op). Marq, CT1BWW, will be active as C91BWW from Maputo, between October 3-7th. He is expected to fly to Bazaruto Island (AF-072, WLOTA LH-0816), in the Inhambane Province, for a one week vacation as C98BWW between October 7-14th. Marq will be using a TS-480SAT, Spiderbeam (5 bands) and a Force12 vertical XK40. QSL via his home callsign. More information can be found at: http://www.geocities.com/c98bww/

E5, SOUTH COOK ISLANDS. Ken, ZL4HU, is now active as E51KH from Rarotonga (OC-013) until September 22nd. Activity will be mainly 20 meters SSB. He was heard this past week on 14201 kHz after 0630z. Ken stated he was using only 60 watts into a dipole.

FO, FRENCH POLYNESIA (IOTA Op). Pierre, F5JFU, wil be active as FO/F5JFU from the French Polynesia between October 21st and November 19th. He plans to visit three IOTA islands while there: Tahiti (IOTA: OC-042, DIFO FO-002), Moorea (IOTA OC-046, DIFO FO-010) and Bora-Bora (IOTA OC-067, DIFO FO-003). Planned activity will be on 20/15/10 meters (possibly 40m) with 100w into a vertical and wires, on CW/SSB and maybe RTTY. Pierre will pay special attention to Europe and French station needs. This will be a holiday style DXpedition (tourism oriented), so don't expect too much activity during his daytime hours. QSL via his home callsign, either by the Ref-Union Bureau or direct (w/SASE + IRC) to F5JFU at: Pierre Desseneux, Le Bourg, 58140 ST. Martin du Puy, FRANCE.

IOTA NEWS.....
EU-008. Members of the Workington and District Amateur Radio & IT Group (MX0WRC) will be active as MS0WRC/P from the Edinbane Cottages, Isle Of Skye (IOSA NH-07, SCOTIA CN-14, WW Loc. IO67SL, WAB NG35), Inner Hebrides), between September 30th and October 7th. Operators mentioned are Steve/G0MTD, Mark/2E0MAX, Brian/G0OMB and Paul/M1PAF. Activity will be mainly on the HF bands, 80-10 meters CW, SSB and digital modes. QSL via G0MTD, by the RSGB Bureau or direct to: Stephen Topping, 7 Beckstone Close, Harrington, Workington, Cumbria CA14 5QR, England - U.K.

EU-048. Chris, F8EUK, will be active as F8EUK/p from Houat Island (AT-016 for the French Islands Award) sometime between September 10-17th. He is on holiday, and radio will be at the bottom of his list. He states, "The beginning and the end of activation are not sure; listen for me between these two dates on 30m, 20m, 17m and 15m essentialy on CW. May be a little SSB on 20m. RTX FT 857D Power 100w with multi doublet and vertical antennas, made home. All QSOs will receive a QSL, which will be edited specially for this activation."

EU-052. Marco, IK1RAE, will be active as SV8/IK1RAE/p from Corfu and Paxoi Islands between now and September 16th. The suggested frequencies are: 7045, 14245, 18145 and 21245 kHz.

EU-088. Bernd, DL8AAV, will be active as OZ/DL8AAV/p from Laeso Island (NK-003 for the Danish Islands Award), September 17-30th. His activity will be on 80-10 meters CW and SSB. QSL via his home callsign.

EU-120. Just a reminder! Members of the Chippenham and District Amateur Radio Club will be active next weekend as GB2LI from Lundy Island off the coast of Devon, September 16-21st. They will operate SSB, CW and FM on HF and 2 meters (the generator will be off between 2300 to 0700 local time). Visit their Web page at: http://g3vre.org.uk/

EU-123. Michael, GM0PHW, will be active as GM0PHW/p from Inchcolm Island (IOSA FF-06, SCOTIA CS-07), Firth of Forth, October 7-8th. Activity will be on 40-10 meters SSB only. A special QSL card will be printed for this operation. QSL is direct only to GM0PHW: Michael Whitehead, 185 Allanton Road, Allanton Shotts ML7 5AX, Scotland, UK. More information can be found at: http://www.hamcall.co.uk/

NA-066. Members of the Palos Verdes Amateur Radio Club (K6PV) will be active from Two Harbors on Santa Catalina Island (USI CA-016S, Los Angeles County, California), the afternoon of November 12th through the morning of November 15th. Activity will be on 40/20 meters SSB, on the usual IOTA frequencies (mainly 14260 kHz). QSL direct to K6PV (w/SASE) at: Palos Verdes Amateur Radio Club, PO Box 2316, Palos Verdes Peninsu, CA 90274. Visit their Web page at: http://www.palosverdes.com/pvarc/index.htm

J2, DJIBOUTI (Update). Last week we mentioned that Jean-Claude, J28JA, who will be here for about the next two years, has been very active mainly on 20/17 meters CW (with some SSB) between 1330-1400z and again after 1800z. He is expected over the next few months to be active on the lower bands (160/80m). Jean Claude regrets the poor propagation at this time from Djibouti, but he is trying to be on the other bands as often as possible. QSL via F5JFU: Pierre Desseneux, Le Bourg, 58140 ST. Martin du Puy, FRANCE.

JT, MONGOLIA. Czech operators Zdenek/OK1CCK, Josef/OK1ES, Milan/OK1FM and Josef/OK1XC will be active as JT800OK from Ulaan Baatar, now through October 8th. Activity is planned for 160-10 meters CW, SSB, RTTY, PSK31 and SSTV. QSL via OK1XC. Over the past weekend the team was heard on 20/17 meters. Visit their Web page for pictures and online logs at: http://www.shop73.com/jt800ok

KP4, PUERTO RICO (NA-099). Heiko, DL3VFN, is currenltly planning to be active as KP4/DL3VFN from Vieques Island, between December 28th and January 1st. No other details are available at the present time. QSL via DL3VFN, bureau preferred (no e-QSL) or direct to: Heiko Meier, Rittergutsweg 5, Zwoenitz, D-08297, GERMANY.

LX, LUXEMBOURG. Members of the Dutch Amateur Radio DX & Contest Group will be active as LX/PA6Z from Wiltz between September 30th and October 7th. Activity will be on all bands from 160-10 meters on CW, SSB and PSK31. Special attention will be payed to the WARC bands, 160m, 136 kHz and PSK31. They will try to be active on as many bands as possible for 24 hours a day. This year they will also activate the 136 kHz amateur band on CW, DFCW and QRSS (3-5 sec/dot). The suggested frequencies are around 136.5 kHz ±QRM for CW and 137.7 kHz for DFCW/QRSS with RX ±60Hz from TX QRG. The callsign on DFCW and QRSS will be LXPA6Z (so without /). Operation will be pure random, so no skeds in advance! QSL is via PA1K. Operators mentioned are: Herman/PA0TEN, Arend/PA2AWU, Frans/PA5CA, Jelmer/PA5R, Peter/PA2PKZ, Dick/PA4VHF, Marcel/PA9M and Harry/PA1H. For further information, visit their Web site at: http://www.pa6z.nl
During the activation there will be an online log running that will be updated once per day.

PJ2, NETHERLANDS ANTILLES (Ops Wanted!). Geoff, W0CG/PJ2DX, is looking for operators for the CQ WW SSB Contest (October 28-29th). The callsign will be PJ2T and they plan to be a Multi-Single (possibly Mult-2) entry in the contest. The station is located on Curacao. Information about the station is available at: http://www.pj2t.org
If interested, contact Geoff at: ghoward@kent.edu

Tom, WW5L, announced that anyone who has QSLed direct to him for his June and July C91TL operation, all cards received direct have been answered. He states, "So far no bureau cards have been received."

The CZECH HAM RADIO DX FOUNDATION (OKDXF) is the QSL Manager for the following stations: 3D2KT, 3D2TN, 3V8BB (April 1996), 3W50K, 5W0VD, 5W0VV, 5W0SZ, 9K2/OK1TYM, AH8K, AT0VLH, E4/OK5DX, FO0/OK1KT, FO0/OK1TN, FO0/OK1VD, FO0/OK5DX, IH9/OK5DX, IH9/OL7N, IH9/OK1TN, IT9/OK1TN, J41YM, J8OK, J8OB, KP2/OK1CW, KP2/OK5DX, KP2/OK1DXB, KP2/OK1TN, KP2AD (November, December 1998), M0/OK1TN, OD5/OK1MU, OH/OK5DX, OZ/OK5DX, S21/OK1FWC, SM/OK5DX, SO7TN/1, SO7TN, SV/OK1YM, T00TN, TA2ZW, YM2ZW, ZA/OK5DX, ZA/OK1TN, ZA9A, ZK1KTT, ZK1TNN and ZS/OK1TN. The OKDXF Web page is available at: http://www.okdxf.cz/e_index.php

KH8SI QSL STATUS. Many reported last week that they have received their KH8SI. A very quick turn around.

QSL ROUTES FOR YZ6AMD. QSOs with Nikola, YZ6AMD, from the Republic of Montenegro, can now be QSLed to QSL Manager EA7FTR for contacts after September 1st, 2006. QSOs before that date or all contacts on UHF and VHF bands must be QSLed direct to YZ6AMD at: Nikola Ilic, Branka Copica 16, 85340 Herceg-Novi, Republic of MONTENEGRO.

SPECIAL EVENT. The French Ham Expo will be held once again in Auxerre, Burgundy, from September 23rd to October 6th. French Ham Expo is said to be one of the most important ham meetings in Europe other than Friedrichshaffen. This year's special callsign, TM3NV, will be aired by the Yonne area hams, to remember Antoine, F3NV, former past President of the 89th Yonne Division of the National REF-Union. Activity will be on 160m-70cm, WARC and 6m included, using CW, SSB and digital modes. QSL via F2WS, direct or by the bureau.

TK, CORSICA ISLAND. Operators Tom/HA4DX and Laci/HA0HW, will be active from here between November 2-10th. Activity will be on all bands (also 160m), CW, SSB, RTTY and PSK31.

TP20, FRANCE (Special Event). The Council of Europe Radio Amateur Club (CERAC) will be active between September 29th and October 1st, using the callsign TP20CE. Activity is to celebrate the 20th anniversary of the creation of the Radio Club. QSL via F5LGF. Visit the CERAC Web site at: http://www.coe.int/t/e/tp2ce

TU2, COTE D'LVOIRE. Jean Luc, F5LDY, is now active as TU2/F5LDY from Republic of Ivory Coast until about September 2007. He reports that the authorities of the Ivory Coast do not allow a full TU callsign unless your stay is longer than 2 years, so they authorized him to use the callsign TU2/F5LDY. According to the Web page listed below, Jean Luc's station is composed of a FT1000 MP with a vertical Cuschcraft R7, a G5RV full size, and a long wire for the 160m. Here are his suggested frequencies (if propagation permits):

CW - 1818, 3508, 7008, 10108, 14008, 18078, 21008, 24908 and 28008 kHz
SSB - 1848, 3748, 7048, 14248, 18148, 21248, 24948 and 28448 kHz
6m - No activity.
RTTY - An interface made by F5KEE, Jean Luc will be active from time to time. No frquencies provided.
Visit the following Web page for update, logs and pictures, at:
http://f5kee.free.fr/tu2-f5ldy/tu2ldy.htm
QSL Manager is F1CGN; by the Bureau or direct: Plet Fabrice, 58 Avenue Rene Lebail, 91210 Draveil, FRANCE.

V3, BELIZE. You still have a few days to work "The Glass Arm DXpedition" from Placencia, Belize, until September 13th. Operators will be using straight keys for the entire operation. Look for: Nancy WZ8C/V31AN, Cal WF5W/V31EA, Eddy K5WQG/V31MR and Bill WB5IUU/V31UU. QSL via the FISTS QSL Bureau.

V5, NAMIBIA. Pierre, HB9QQ, will once again visit Namibia and be active as V5/HB9QQ between now and September 30th. He plans to activate the WARC bands (30/17/12 meters). His mode of activity was not mentioned. Equipment to be used: FT-897D, Dipole by "Kelemen" for 30/17/12m. QSL via HB9QQ.

VP2M, MONTSERRAT (NA-103). Gordon, G3USR, will be active as VP2MSR between October 26th and November 2nd. His activity will be limited because Gordon will be on a holiday and not a DXpedition. Using only 100w and a modest antenna, look for him mostly on 40 and 20 meters SSB only; normal IOTA frequencies preferred. QSL via G3USR, by the RSGB Bureau or direct to: Gordon Rolland, The Lodge, 3B Reeves Lane, Wing, OAKHAM, Rutland, LE15 8SD, England - U.K.

VU, INDIA. Bill, W4ZV, reports that Kumar, VU2BGS, was heard this past weekend (Saturday) on 160 meters (Topband) again. He is still running 70 watts but has improved the radial system for his 10m vertical. Watch for him Saturdays beginning at 2100z.

VU7, LAKSHADWEEP ISLANDS. The National Institute of Amateur Radio (NIAR) sent out the following press release: HAMFEST - VU7, January 15-25 2007.
"NIAR is pleased to announce activities of the #2 Most Wanted Entity, VU7-Lakshadweep, in January 2007. The Government of India conducted a meeting of Inter-ministerial representatives with NIAR in New Delhi and gave in-principal approval for VU7 operations. However formal approval will come later by November 2006.
We are planning to operate as VU7RG (Subject to WPC of DOT Govt. of India agencies to this call) from 3 excellent equipped and well organized sites from 15-25 January 2007. Late Mr. Rajiv Gandhi VU2RG former Prime Minister of India had encouraged Amateur Radio in India. His wife Mrs. Sonia Gandhi VU2SON is now the leader of UPA in Government in India. It is appropriate this call sign is used.
A group of approximately 70 multinational and 30 Indian Hams are expected to travel from Kochin, India, by boat to Lakshadweep on or about January 12th.
An International Advisory Committe (IAC) is constituted under the

Chairmanship of Mr.S.Suri, VU2MY to organise the event successfully. The IAC has broughtout an Memorandum of Understanding to be agreed by participants for better coordination during VU7 operations. (A copy of the same is enclosed.)
A Sub-Committee is constituted by International Advisory Committee with Mr. Frank Rosenkranz DL4KQ, as Chairman, Ms. Kyoko Miyoshi JR3MVF, Mr. Martti Laine OH2BH, Dr. Glenn Johnson W0GJ as members, Mr. S. Ram Mohan VU2MYH as convenor. This Committee will deal with requirements/coordination of all international participants of VU7 operations.
More details will be released exclusively by NIAR as plans and details firm up (www.niar.org) and an official webpage will be set up soon.
We request your kind support and participation to make VU7 activity a successful event. Regards, S.Ram Mohan, VU2MYH"

WP4, PUERTO RICO. Members of the "Trujillo Alto Contest Club WP4WW", will operate as WP4BH during this CQWW DX SSB Contest (October 28-29th) as a Multi-Multi entry. Operators mentioned are: Tomas/WP4BH, Nestor/WP4BL and Jose/KP4JRS. QSL via WP4BH direct, Bureau and LoTW.

It's like real estate. Location, location, location, and of course the brand, if it is in direct sunlight, buried, or what have you. The coax might go anywhere from 10 to 25 years. Not much of an answer, but it is in the ballpark..Big ballpark there.

1257. QSL YV0LIX ?

1260. Getting response to old QSL requests

Newsgroup: rec.radio.amateur.dx
Date: 2006-09-13 22:38:20 UTC
From: redfox39 <twalters@netins.net>
Message-ID: <eea18m$6mc$1@news.netins.net>
Source record: 2862

Recently I sent E-mails to foreign hams about responses to 80 meter QSL's that I sent out 6 to 12 months ago. The responses were good. Most didn't receive my QSL and one said that he had not sent out any yet but was going to soon. These included no DX-peditions.

I have in my mind that this would be a good thing to do on a regular basis (again, big DX-peditions excluded). It looks to me like 6 months is a good point to do this but I wonder what some of you think???

Trav, WX0Y

If you sent direct, 6 months is probably long enough wait. If you had sent
via the bureau, that is way too soon to make a query.

Six months is probably good for individuals. I would wait a little
longer for Dexpeditions. Perhaps nine months. I only have one
Dexpedition out more than nine month.

I sent a QSL thru the buro 9-7-1995 - RA3QSY. I got his card
1-5-2006.
No bull!
Save the books, the terminal providers
will soon control all knowledge.

1264. Anything from J20VB?

Newsgroup: rec.radio.amateur.dx

Has anyone received a QSL from J20VB in the last few months. We had a QSO about a year ago. By email he indicated he would be back home this summer and begin working on his QSL backlog.

the QSL bureau can be very slow as can some stations before they reply. I routinely receive bureaucards which have been travelling up to 4 years but sometimes roundtrip takes only a few weeks. It depens wethere the bureau uses burro service or not. Be patient and carefull what you write, your card may not arrive for another few years. Longest a card for me took is 25 (twentyfive) years and looking at the writing and discoloring it was written 25yrs ago.

From: redfox39 <twalters@netins.net>
Message-ID: <eeib43$3ft$1@news.netins.net>
Source record: 2868

Many thanks for the replies to my post. I wanted a few other opinions and I had hoped for some from DX stations also but that didn't happen.

I believe that I will follow the 6 month elapsed time for a follow-up query. I am mainly concerned right now with 80 meter DX contacts. (very hard to get from the Midwest - every one is gold) and of course new countries. DXpeditions take longer and should be allowed longer time before a query. I just did some calculations and find that I get over 92% replies within 6 months. The other 8 percent are received within a year or never come.

Bureau is an entirely different matter and I never use it if I really need something but I do respond to any bureau requests. Over the last 20 years I have lost a lot of confidence in QSL'ing through the bureau. I don't do E-QSL's yet but do use LOTW. I can see that by using the combination one could get the QSL from one and the credit through the other. Hopefully they will both continue to grow. I don't even want to know how much money I have given to the mail thieves over the years. I sure welcome the new methods of QSL'ing though.

Again, tnx for your inputs, Trav, WX0Y

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 10th/September, through Sunday, 17th/September there were 215 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9N, 9U, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, JA, JD/o, JT, JW, JX, JY, K, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OJ0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, S5, S7, S9, SM, SP, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V8, VE, VK, VK9N, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4O3, MONTENEGRO. During this past weekend you may have heard Martti, OH2BH/4O3B active on a variety of bands, including an entry in the Scandinavian Activity Contest. This activity will continue through Monday morning. QSL 4O3B via OH2BH.

4U1UN, UNITED NATIONS HQ. As this was being typed Sunday morning, 4U1UN was active on 20 meters RTTY. According to "The Daily DX", the operators are LA5IIA, JR3EDE and JJ2RCJ. Activity is to be on CW, SSB and RTTY on the HF bands. Length of their activities is unknown.

5R8, MADAGASCAR (AF-057). Willi, DJ7RJ, will be operating from 5R8-land from October 1-27th. No callsign has been assigned yet, but he plans to be using all bands 160-10 meters CW and SSB. QSL via his home callsign.

9A, CROATIA. Zrinko (Zik), VE3ZIK, will be once again active from here between September 15th and October 1st with callsign 9A/VE3ZIK. He will use all HF bands, CW, SSB and possibly PSK31. Also, he will try to be at least one day active from some of IOTA Islands in the EU-170 group (in that case, he will use callsign 9A/VE3ZIK/p). QSL via DL3PS (don't send QSL via VE3 bureau because he will receive those QSL cards with very big delay). No e-qsl, no LotW. Also, you can request your QSL card at his E-mail address at: zik@tiscali.de

9A, CROATIA (IOCA Ops). Operators Chris (9A/DL9CHR), Georg (9A/DL1GEO), Heli (9A/DH1ABC), Wolfgang (9A/DJ3MWB), Wolf (9A/DG0DE) and Emir (9A6AA/p) will activate various Croatian islands in the EU-170 IOTA group between October 7-14th. Activity will be on 20 and 40 meters SSB. More information about IOCA activities can be found at: http://www.inet.hr/9a6aa/iocaplan.htm

ANTARCTICA ACTIVITIES.....
Look for Adam, K2ARB, to be active as KC4/K2ARB, from Patriot Hills Base starting from November 3rd through January 28th, 2007.

Alex, R1ANC/UA1ZCK, from the Vostok Base, is active for Europe every day from 0600-1000z on 14146 or 14152 kHz beaming over the North Pole. QSL via RU1ZC.

Oleg, R1ANF/UA1PBA, will depart for Jubany this upcoming Wednesday. Please listen for LU/R1ANF. More details are forthcoming. QSL via RK1PWA.

CX, URUGUAY. Pedro, CX5BW, informs OPDX that he and a couple of friends will activate the special callsign CX0TTY from his station during the CQWW DX RTTY Contest (September 23-24th). QSL Manager is CX5BW (QRZ.com).

EA1, SPAIN (Attention Police Award Hunters). Ben, OZ5AAH, will activate another International Police Association Radio Club (IPAC) country. Look for him to be active as EA1/OZ5IPA from Vigo September 28-30th. Activity will be on CW and SSB. QSL direct to his home callsign only. Visit the IPARC Web page at: http://www.iparc.nl/

EF8, CANARY ISLANDS. Edu, EA8AUW/EC8AUA is expected to be active as EF8A in the CQWW DX RTTY Contest (September 23-24th) as a Single-Op/Single-Band (20M)/High-Power entry. QSL via EA8AUW, by the Bureau or direct.

EY, TAJIKISTAN. Nodir, EY8MM, will be active in the CQWW DX RTTY Contest (September 23-24th), as a Single-Op/Single-Band (20m)/High-Power entry. QSL via K1BV.

FT5X, KERGUELEN ISLANDS. Gildas (Gil), TU5KG, who has been active as FT5XP/mm in the Austral Sea (in Southern Indian Ocean) on a fishing boat near/around the Kerguelen Islands. He is expected to be active for two days from Kerguelen Islands as FT5XP during the first week of November. QSL via F4EFI.

HA100, HUNGARY (Special Event). Look for special event station HA100RADIO to be active until September 30th. Activity will be from Budapest on all HF bands, mostly on the CW mode. QSNs show this station was on 40/30 meters this past week. Operations are to celebrate the first telegraph connection in 1906. It was established by the means of spark telegraphs between a land station installed in Fiume Bay (today called Rijeka Bay) and a station built on a ship in Ancona, Italy. QSL cards are available via the Hungarian QSL Bureau (HA5KHC) only.

IOTA NEWS.....
AS-158. Operartors Fan/BA1RB, ChenXi/BD1WC and BD1NNI will lead a team to Guang Lu Island and be active as BY1TX/2 between October 1-5th. Activity will be on 80-10 meters. They will focus on the low bands especially 80m and 30m. It's expected 50% CW, 35% SSB and 15% RTTY on the operating mode. QSL via EA7FTR.

EU-170. If you heard and worked 9A1C this past week, it was members of the radio clubs "Karlovac" and "Duga Resa" that were activating Zut Island (CI-154). They were also planning to activate some of the islands around Zut Island (for the first time the Islands of Babuljas Mali, CI-605, and Ravna Sika, CI-606).

EU-176. Operators Anders/SM3XGV, Classe/SM3GSK, Jorgen/SM3CXS and Staffan/SM3JGG will be active as SG3U from Grimskar Island starting at 1600z on September 22nd to 1100z September 24th. Activity will be on CW/SSB. QSL preferably via the Bureau.

J7, DOMINICA. Just a reminder that operators Karl/N1DL and George/W4LFK will be operating from the Commonwealth of Dominica from September 21-27th. They will operate on all modes with their callsigns J79DL and J79MD but during the RTTY Contest they will use the special callsign J7R from IOTA NA-101. QSL to N1DL: Karl Geng, 285 Grande Way #1803, Naples, FL 34110, USA.

LZ26, BULGARIA (Special Event). Members of the Balkan Contest Club (LZ1KZA and LZ5A) will once again activate the special callsign LZ26ZA between October 1-31st. LZ26ZA counts 10 points for "St. Teodosii Tyrnovski Award" (http://www.balkanclub.8m.com). QSL via the bureau or direct to LZ1KZA: Balkan Contest Club, P.O. Box 36, 4300 Karlovo, BULGARIA.

QSL INFO AND NEWS.....
BY4XSL/4 via BA4XA RK9XYZ via RA9XY
ED8OTA via IZ7FLP S50FIRAC via S59DZL
EF8CID via EA8AUW SC6C via SM6DEC
ED8SFD via EA8AUW SQ9SVA via SV0XBB
LZ5HST via LZ1PJ VY0ICE direct via VE2AWR

4O3T QSL STATUS. Ranko, YT6A, 4O3T QSL Manager, reports [edited]:
"As you all know, 4O3T did about 120,000 QSOs. After the festival, we needed some time for collecting photos and designing 9 different QSL cards. Now QSLs are in the printing process. As our QSL policy demands absolutely ONLY EXPERIENCED HAMs are in our QSLing process, it means that we will need hundreds and hundreds of hours for carefully checking of each QSL received and replaying. 4O3T QSL team will make it on highest level possible.
Delivering of all QSLs will start from beginning of October and will take some time. We will display on WEB all information about callsigns, whom and when we send QSLs, and from whom we received QSLs. All bureau QSLs will be sent in two months, too. Thanks to all of you for working us and for understanding. I understand that QSL card is what you only need, but hope you understand that it has to take some time.....73."

FP/WV2B AND FP/VE1AAO QSL STATUS. Duane, WV2B, informs that any who has sent requests, the QSLs are currently being printed. As soon as they are received, requests will start being answered. The cards will be nice, Billy, VE1AAO is a good photographer. QSL FP/WV2B via QSL Manager KA3QLF, Scott. QSL FP/VE1AAO direct to Billy's home address. He is mainly a casual op and doesn't receive cards from the bureau. This was mainly a sightseeing trip for him, but he will answer the requests received direct. Duane has put a few pictures of their FP operation on the following Web site at: http://www.stpaulisland.net/fp2006.html

NEW HA BUREAU ADDRESS. Please note that the address of the Hungarian Bureau has been changed. The new address is: MRASZ QSL BUREAU, P.O. BOX: 144, H-1476 BUDAPEST, HUNGARY. This change was necessary due to the changes in the operational regulations of the Hungarian Post Offices. Please DO NOT send any shipment to the old address (MRASZ QSL Bureau, Box 214, H-1368 Budapest 5, Hungary).

NEW QSL ROUTE. Nenad, VE3EXY, is now the new QSL Manager for C31LJ (including his other prefixes). His old QSL Manager VE3GEJ became a "Silent Key" in May 2006.

QSL SA3C via SM3CZS. Operator was Christer, SM3CZS, using his new vanity callsign during this past weekend's SAC Contest.

VU4AN/VU3CHE QSL STATUS. Charles, K4VUD (VU3CHE/HS0ZCW), reports that his QSL cards are printed, and his dear wife is filling out replies to the incoming mail card requests this week. He mentioned that he received a batch from his son and his Texas address and those will be bulk mailed to his son for remailing in USA. Most incoming arrived in Thailand and those, of course, will be responded to via air mail.

WRTC2006 QSL CARDS. Oms, PY5EG, is pleased to inform that the QSL card for the WRTC2006 stations are printed and ready to be mailed. If you are interested to get a QSL card confirmation for any of the WRTC2006 stations please take a look at their Press Release 070/06 at: http://www.wrtc2006.com/release70.html

S50, SLOVENIA (Special Event). The 45th International Federation of Railway Radio Amateurs (FIRAC) congress will take place in Ljubljana, September 21-25th. Look for special event station S50FIRAC to be active during the whole month of September. Activity this past weekend has been on 40/20/17 meters. QSL via S59DZL.

SILENT KEY. OPDX was informed that Gene Nadolny, W2FXA, became a "Silent Key" (SK) on September 10th, after a brief battle with cancer. A veteran DXer for over 50 years, he was a #1 DXCC Honor Roll member including the latest KH8 and 406 operations. He was also WPX Honor Roll CW and SSB, IOTA Honor Roll, WPX Honor Roll (#9 in the world) and 5 time Worked All USA County Hunter. He also operated from Bermuda as W2FXA/VP9 and was a Lighthouse enthusiast. He is survived by his wife Marie. His son is Bob, WB2YQH, also #1 DXCC Honor Roll member and DXer who said he taught me everything about the DX game. OPDX and its readers would like to send out our deepest sympathy to Gene's family and friends.

T8, PALAU. Operators Toshikazu/JE1SYN and Toshio/JP1IOF will be active as T88YN and T88AS, respectively, from Koror (OC-009), September 21-24th. They plan to have two stations on 80-6 meters CW, SSB, RTTY and FM. QSL via their home callsigns.

TM, FRANCE (Special Event). The French Naval Air Force air show will be held next weekend at Nimes-Garons. Look for special event station TM8ANG to be active during this event, September 22-23rd. QSL via F6KQK, bureau preferred.

VK6, AUSTRALIA. Operators John/VK6NU, Aleksandar/VK6APK, John/VK6HZ, Keith/VK6XH and Wayne/VK6EH will be active as VK6ANC in the CQWW DX SSB Contest (October 28-29th) as a Multi/Multi or Multi/2 entry. QSL via VK6NE.

VU7, LAKSHADWEEP ISLANDS. The official VU7 Web page is now available online at: http://www.vu7.in
Web site has interesting facts about the islands, but also information about the upcoming VU7RG operation.

XF4, REVILLAGIGEDO (Update). A Mexican and German team of operators are planning a DXpedition to Socorro Island (NA-030), in the Revillagigedo Islands group, to take place between October 17th and November 3rd. The announced callsign will be XF4DL. For a list of operators refer to OPDX.774. Activity will be on all bands, CW, SSB, Digital, EME and the satellites. The team is planning to operate with up to 5 stations with 3 of those 5 for 24 hours a day. Equipment to be used is mainly ICOM and YAESU trans-ceivers, ALPHA 99 for amplifiers plus two FL2100B and transistor amps as spare. Antennas to be installed are Titanex Verticals for the low-bands, Spider-Beams and Cushcraft A3S as well as Phased Arrays for all others. K9AY loops and / or beverages are planned as low-band receiving antennas. Besides their low-band activity the main focus will be on RTTY (digital modes) and WARC bands. The planned operation site is near the air strip and will be optimum for North/South America, Europe and Japan. QSL via N6AWD for North-America, and DL9NDS for the rest of the world. Visit their Web page at: http://www.xf4dl.xedx.org/

As of to date, the landing and transportation permits from the Mexican Navy has already been sent to them (departure date from Manzanillo will be either Oct 14th or 15th, 2006). The COFETEL has already assigned the callsigns XF4DL and XF4K, and the permits from the Environmental Agency and the Immigration Authority are ok as well. To help cover the high costs of nearly 10,000 USDs for this operation in addition to the air fares of the participants, air freight fees and the equipment they have to buy, they are depending on donation from clubs, companies, organizations and private persons. If interested in helping the team, send an E-mail to Juergen, DL8LE, at dl8le@darc.de or jsturhahn@vogt-electronic.com , or just phone at +49 8591 937110 (office) or +49 8546 973783 (home).

ZONE 2. Steve, VE2TKH, informs OPDX that he will be active as VY0ICE from September 9th, 2006, until May 30th, 2007, on Baffin Island (NA-047, CISA NT001) in the heart of CQ Zone 2. His QTH is Iqaluit, Nunavut. Activity will be on 80-6 meters depending on the conditions there in the Arctic. Modes will be SSB/CW for now. Antennas will be verticals and wire dipoles, with ACOM 1010 amplifier. Most of his activity so far as been on 20 meters CW/SSB at various times. QSL Manager is VIA DIRECT to VE2AWR.

ZV100, BRAZIL (Special Event). Look for special event station ZV100SD to be active from October 1-30th. Activity is to celebrate the 100th anniversary of the first flight in an airplane by the Brazilian Alberto Santos Dumont in Bagatelle, France. Activity will be on all bands. QSL via PS7AHR, direct or by the Bureau. Alberto was a gifted engineer who made valuable contributions to aviation. The airplane (designated 14 Bis) he flew was considered to be the first independent flight, self-propelled to take off, fly, and land without the use of catapults, high winds, launch rails, or other external assistance. This flight was the first public and officially observed from Aero-Club de France and took place on October 26th, 1906. For some more interesting information, please visit the following Web pages at:
http://www.aerospaceweb.org/question/history/q0189.shtml (english)
http://www.aeroclub.com/santos_dumont_14bis_14bis.htm (French)

The Ohio/Penn DX PacketCluster
DX Bulletin No. 777
BID: $OPDX.777
September 25, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, ARRL DX Bulletins, K1XN & GoList, KA1ZFE, K2FF, N2OO, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, W4MPY, K8YSE, KU9C, Pete's-DX-Newsdesk, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, JA1XGI, ON5KL, ON5NT, RSGB IOTA, TF3AO, TA3YJ and VA3RJ & ICPO for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX RTTY Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX RTTY Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 15th/September, through Friday, 22nd/September there were 219 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J5, J6, J8, JA, JT, JW, JX, JY, K, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V8, VE, VK, VK9N, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B8, MAURITIUS. Members of a Slovak Contest Team will be active as 3B8/OM0C during the CQWW DX CW Contest (November 25-26th) as Multi-Single entry. QSL via OM2FY. Operators will be active before and after the contest between November 17-30th. Look for activity on the low bands, especially 160m and RTTY!

3DA, SWAZILAND. Operators Rhy/ZS6DXB, Daniel/ZS6JR and Toni/ZS6GF will be active as 3DA0WW during the CQWW DX SSB Contest (October 28-29th) as a Multi entry. QSL via ZS6DXB. More information will be released closer to their travelling date. Look for info on the following Web sites:
http://www.qrz.com
http://www.zs6dxb.bravehost.com

3XM6, GUINEA. Operator Serge, 3XM6JR, will be active in the CQWW DX RTTY Contest (September 23-24th). Operation class is not known. QSL via UA6JR.

4L, GEORGIA. Operator David, 4L1DA, will be active in the CQWW DX RTTY Contest (September 23-24th) as a Single-Op/Single-Band (20m) entry. QSL via W7LPF.

4O, MONTENEGRO. A group of Montenegrin operators will be active as YT6A during the CQWW DX RTTY Contest (September 23-24th) as a Multi/Multi entry. QSL via operator's instructions or use the address on QRZ.com.

8P2, BARBADOS. Dean, 8P6SH, will be active as 8P2K in the CQWW DX RTTY Contest (September 23-24th) as a Single-Op/Single-Band (20m)/High-Power entry. He will be running a KW to a 2-stack F12 C3E's and a 2-vertical array. QSL via KU9C, direct+SASE or by the Bureau. ADDED NOTE: Dean will also be active as 8P2K in the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (20m)/High-Power entry.

9Q, DEM. REP. OF CONGO. Just before going to press (1855z, September 22nd), Ghis, ON5NT, informed OPDX that he and others just received their official licenses from the Ministry of PTT in the Democratic Republic of Congo. Look for the following operators and callsigns sometime this weekend:
9Q1D - Gus, SM5DIC 9Q1TB - Phil, F5LTB
9Q1EK - George, VE2EK 9Q1NT - Ghis, ON5NT
All operators are all in Kinshasa (9Q1 area). More details will be forthcoming. Ghis tells OPDX, "Unfortunately, after having been here for 10 months I will be leaving the DRC next week Thursday. This came very much unexpected. We did not believe anymore it would happen. Will put up some antennas tonight."

AH2, GUAM. Aki, JR1VAY, will be active as AH2J between October 6-10th. He plans to take part in the Oceania DX Phone Contest (October 7-8th) as Single-Op/All-Band entry. QSL via JR1VAY (JARL Bureau).

AT0, INDIA. Operator Ram, VU3DJQ, will be active as AT0D during CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band entry. QSL via EA7FTR.

C6, BAHAMAS. Operators Peter/W2GJ, Edwin/K3IXD and Jim/K4QO will be active as C6APR during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via K3IXD. Operations will be from Crooked Island

(IOTA NA-113, Light House BAH-005). After the contest, operators will sign homecall/C6A and be active on 80-6 meters, including the WARC Bands, CW, SSB, RTTY and PSK. If conditions permit, they will try for the first time ever to activate Lighthouse BAH-001, on October 30th or 31st.

CU2, AZORES. Operator Toni, OH2UA, will be active as CU2A during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/High-Power entry. QSL via OH2BH.

FG, GUADELOUPE (Special Event). Members of the Radio Club A.C.R.A of Guadeloupe from St. Claude will do their 8th "The Road of the Rum" starting October 29th. They will activate the special callsign TO8RR on all strips of the road for 15 days through November 12th. Activity will be on SSB/PSK31/RTTY. Operators mentioned are: FG5DN, FG5BC, FG5GG, FG5GK, FG5IM, FG5AZ, FG1GW and FG1JD. Look for updates and QSL info on the ACRA club news Web page at: http://acra-radioclub.site.voila.fr

FS, SAINT MARTIN. Operators Nathan/W3ADX, Mike/N3VOP, Rob/K1RH and Clint/W3ARS will be active from here between October 25-31st. Look for the team to be active as FS/WY3P during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via W3ADC. Operators will be active before and after the contest probably signing FS/homecall on 160-6 meters, especially on the WARC Bands and RTTY.

HB0, LIECHTENSTEIN. Operators Rainer/DL1ZBO, Tilman/DJ5BX, Thomas/DK9FEC and Ekki/DF4OR will be active from the Principality of Liechtenstein from Thursday, September 21st until Sunday, September 24th. Their main goal is to participate in the CQWW DX RTTY Contest. The callsign during the contest will be HB0/DL1ZBO, and the category will be Multi-Single/High-Power. Before the contest they will operate on CW (mostly) and SSB (if it cannot be avoided).

HK, COLOMBIA. Siso, HK3SGP, will be active in the CQWW DX RTTY Contest (September 23-24th) as a Single-Op/Single-Band (40m)/Low-Power entry. QSL via HK3SGP.

IOTA NEWS.....
AF-019. Operators Davide/IW9GUR, Angelo/IW9HLM , Andrea/IW9HQP, Riccardo/IT9CVO and Andrea/IT9RKR will be active as IG9/homecall from Linosa Island (IIA AG-003, MIA MI-128, WLOTA LH-0820), October 12-15th. They plan to have three stations active on 160-10 meters CW and SSB. QSL all callsigns via IW9HLM, direct or by the bureau. More information can be found at: http://www.095dxteam.org

EU-025. Members of the 095 DX Team will be active as IR9K in the CQWW DX SSB Contest (October 28-29th) and CQWW DX CW Contest (November 25-26th) from the Island of Sicily (IIA SC-001, MIA MI-107, WLOTA LH-1362). Operation class is not known. QSL via IW9HLM, by the Bureau or direct to: Angelo Mai, Via Carlo Pisacane 18/a, 95030 Mascalucia Catania, ITALY.

NA-055. Operators Eric/N8YC, Phil/KG8AP, Brian/K4BRI, Lynn/WD8JAW and possibly others plan to operate as K8SCH from Deer Isle (USI ME-014S, Hancock County, Maine), between September 25-29th. Activity will be on 80/40/20/15/10 meters SSB, depending on band conditions. QSL via K8SCH (QRZ.com).

NA-154. Dana, VE1VOX, will be active as VE1OTA from Pictou Island (CISA NS-005, WLOTA LH-0682), between October 12-14th. Activity will be SSB on 80/40/20/15 meters. QSL via his home callsign, by the bureau is "OK" or direct (preferred) to: Dana Rushton, P.O. Box 1862, Truro, NS B2N 6C7, Canada.

IQ, ITALY. Mario, IK1HXN, member of the Associazione Radioamatori Italiani - Sezione di BRA will be active as IQ1RY in the CQWW DX RTTY Contest (September 23-24th) as a Single-Op/Single-Band (80m) entry. QSL via IK1HXN.

LU1/LR5/LR50, ARGENTINA (Special Event). This December look for special event stations LR50U and LR5U to be activated. This activity is to commemorate the 50th anniversary of the first operation from South Sandwich Islands by an Argentine Ham (LU3ZY). The activity will be on CW and SSB. Members of the Radio Club Pampeano in the city of General Pico (LU1DZ), La Pampa Province, will celebrate this event during various days throughout December. Three operators from GACW will join the locals during this event between December 7-12th. Operators mentioned are: Alberto/LU1DZ, Tito/LU7EE and Fernando/LW2DX. QSL direct only to EA5NI (w/SAE + IRC). For more information, please visit the GACW Web site at: http://gacw.no-ip.org/

KH2, GUAM. Phil, KH2X, will be active during the CQ WW DX SSB Contest (October 28-29th) as a Single-Op/All-Band/High-Power entry. Phil will arrive in Hafa Adai, Guam, on the 26th and "usually" will operate primarily on 80/40 meters before and after the contest. QSL via KH2X to: Phil Witherspoon, PSC 473 Box 13, FPO AP 96349-0013. On QRZ.com, Phil states that he uploads his logs to LoTW frequently.

MD4, ISLE OF MAN. Operators David/G3NKC, Peter/G4MJS, Martin/G4XUM, Tim/M0BEW, Royce/M0RHI, Phil/GJ4CBQ and possibly others will be active as MD4K during the CQWW DX SSB Contest (October 28-29th) as a Multi/? entry. QSL via G3NKC.

NP2, U.S. VIRGIN ISLANDS. Manny, NP2KW, plans to be active as a portable camper at 1045 ft during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band/Low-Power entry. He will use a FT847 w/100w into a 6BTV Vertical antenna and a long wire for 160m. QSL via the address on QRZ.com.

P4, ARUBA. Nick, W4GKM, will be active as P40KM for the CQWW DX RTTY Contest (September 23-24th) as a Single-Op/All-Band entry.

QSL INFO AND NEWS.....
3Y0X QSL UPDATE. Bob, N2OO, reports on the 3Y0X Web page that "All DIRECT QSLs ARE IN THE MAIL (52,342 QSOs -- September 18, 2006)!" The SJDXA QSL TEAM held another weekend QSL session on Sunday, September 17th. They processed ALL remaining direct QSL cards (3Y[illegible]X, XR9A, CE[illegible]Z) received

through September 16th. For more details, please visit the 3Y0X Web page at: http://www.peterone.com/qsl.htm

QSL L55D direct only via LW1EXU: P.O.Box 907, La Plata 1900, Buenos Aires, Argentina.

NOT A QSL MANAGER! Wayne, W4MPY, aka "QSLman - W4MPY" and printer, wants it to be known that "W4MPY is NOT a QSL Manager for any station." He is getting a number of cards each bureau mailing for stations he has PRINTED QSL cards for. In the past Wayne has forwarded them at his expense to the customers but will no longer be doing that.

Nilay, TA3YJ, informs OPDX that besides receiving the QSL cards for YM125ATA, some individuals will get a CD representing Mustafa Kemal ATATURK and modern, contemporary Turkey. This CD will be sent to radio amateurs who have made QSOs with YM125ATA on 3 different bands or 3 different modes and also have their QSL cards sent direct. Inside the YM125ATA's special CD: *FILMS: Mustafa Kemal ATATURK, Wonders of Turkey, Turkey, Gallipoli, Fire of Anatolia - *PHOTOS: Mustafa Kemal ATATURK - *eBOOK: Who are the Turks? - *INFORMATON: Operating and licence conditions for foreign radio amateurs (CEPT members only) visiting Turkey - *ETC. All the CDs (for direct QSL cards) will be sent after November 10, 2006.

NEW YI9DXX QSL MANAGER. Adam, KA1ZFE, has announced that he is now the new QSL Manager for YI9DXX. Station YI9DXX is an internet remote HF base station by W7DXX. Cards should be sent to KA1ZFE with a Self Addressed Stamped Envelope (SASE) in order to receive a QSL card in return. QSL KA1ZFE either direct or via the Bureau. You can also find information about the YI9DXX station at: http://www.w7dxx.com/
-or-
http://www.ka1zfe.com/portal

YX0A/YX0LIX QSL UPDATE. Steve, KU9C, provided the following short update this week: "I'm still waiting QSL cards from the printer, which was organized by the DXpedition. I've printed most of the labels, and as soon as the cards arrive, I'll begin the next level of fun. I have yet to do a number of log searches for the gaps in the logs, and as soon as the DX team provides these I'll start that process. I do plan to send out partial cards if there was two SASEs sent or enough to send two mailings. Please be patient (I know it's not easy, but the situation is a bit out of my control). I'll do what I can to get these cards out as soon as practical given the arrival of the cards, logs and my work schedule..... 73"

RK2, KALININGRAD. Members of the UA2 Contest Club will be active as RK2FWA during the CQWW DX RTTY Contest (September 23-24th) as a Multi/Multi entry. QSL via DK4VW.

TF, ICELAND. Operators Thor/TF4M, Seli/TF3AO and Jon/TF3PPN will operate as TF4M in the CQWW DX RTTY Contest (September 23-24th) as a Multi-Single/ High-Power entry. See Thor's Web page for more info at: http://www.otradalur.com/tf4m/

TT8, CHAD. Philippe, F4EGS, will once again be active as TT8PK, from September 20th through November 20th. Activity is planned for 40-10 meters, SSB and Digital modes. QSL via Phil's instructions. Skeds are possible via E-mail at: cocheese.cocheese@laposte.net

V3, BELIZE. Operator Hartwig, DL7BC, will be active as V31HK between October 17-31st. His activities will include the Worked All Germany Contest (WAG) (October 21-22nd) and the CQWW DX SSB Contest (October 28-29th) as a Sinle-Op/Low-Power entries. QSL via DL7BC.

VP2V, BRITISH VIRGIN ISLANDS. Dave, AH6HY, will be active as VP2V/AH6HY from Tortola, between September 26th and October 3rd. Activity will be SSB only on 15/17/20 meters. QSL direct or via the bureau to his home callsign. Visit his home Web page at: http://ah6hy.htohananet.com/

VP5, TURKS AND CAICOS ISLANDS. Haru, JA1XGI, will be active as VP5/W8XGI from November 4-7th. Activity will be on all bands, CW, SSB, RTTY and SSTV. QSL via his home callsign JA1XGI.

WEB PAGE. Glenn, K2FF, would like everyone to visit the Magnolia DX Association (MDXA) Web page at: http://www.mdxa.org

Z3, MACEDONIA. Operators Zorance/Z31GX, Milosev/Z31MM, Igor/Z32ID, Tone/Z32PT, Ozren/Z32XA, Zoran/Z33F, Goran/Z35KG and Venco/Z36W will be active as Z37M during the CQWW DX RTTY Contest (September 23-24th) as a Multi/? entry. QSL via the address on QRZ.com.

The following stations are expected to be active in the
CQ World Wide DX RTTY Contest (September 23-24th, 2006)

Thanks to Bill, NG3K, for providing OPDX readers the following consolidated listing of the participants in the 2006 CQWW DX RTTY Contest. For a more detailed listing (and up-to-date changes/corrections) in HTML format, please visit Bill's Web page at:

Source record: 2874

I need to get QSLs for these two for 160 Meters DXCC
credit.

Does anyone have working QSL routes for either UA4WAE
(Otto) or EU6AF?

73, Jeff K8ND

My log shows that I have sent and received a QSL from EU6AF by sending
direct to his callbook address (i.e. on QRZ.com or hamcall.net/call.

Dee, N8UZE

1274. QSL Info For MI0LLL

Newsgroup: rec.radio.amateur.dx
Date: 2006-09-23 20:17:19 UTC

Message-ID: <jDgRg.1650$o71.981@newsread3.news.pas.earthlink.net>
Source record: 2876

Anyone have any QSL information for MI0LLL? I worked him last Spring and sent a couple of green stamps his way. Haven't seen anything yet. Also his email address MI0LLL@YAHOO.CO.UK as found in QRZ.COM is invalid so I can't follow-up directly.

1275. Sask. ham radio operator speaks with space station

Sask. ham radio operator speaks with space station
http://www.canada.com/nationalpost/news/story.html

Published: Saturday, September 23, 2006

SASKATOON - Ned Carroll's amateur radio has connected him with people all over the globe, but now it's given him an experience that's out of this world.

Mr. Carroll spoke on Thursday with Anousheh Ansari, an Iranian-American space tourist aboard the International Space Station (ISS).

The small radio inside Mr. Carroll's farmhouse, west of Davidson, Sask., was tuned to the space station's frequency and picked up its signal at around noon. He heard a slightly accented woman's voice coming through the speakers of his ham radio.

"I heard her say, 'C-Q, C-Q, C-Q,' and of course that means she wants to talk to someone, anyone who is listening," Mr. Carroll said. "And I thought: What the heck, you can't lose by trying."

He rushed over to his radio, grabbed the microphone and said, "V-E-5-N-E-D," his call sign, and anxiously awaited a response. He didn't have to wait long, as the voice responded immediately, repeating, "This is R-S-0-I-S-F," which is the Russian Space Station call sign, and then the voice revealed her name, "Anousheh Ansari."

When Ms. Ansari, co-founder and chairwoman of Prodea System, Inc., lifted off on the Soyuz TMA-9 mission from the Baikonur Cosmodrome in Kazakhstan on Sept. 18, she became the fourth, and first female, space tourist. She reportedly paid US$20-million for an eight-day visit aboard the ISS and was already trying to make contact with Earth.

"I was pretty excited," Mr. Carroll said. "And the next thing I was so excited about was when she said, 'You are the first amateur radio operator that I have contacted from the International Space Station,' and I said, 'Wow!' "

There are thousands of ham radio operators worldwide, but Mr. Carroll is one of a small number of people who have made contact with the space station, said Bjarne Madsen, midwest regional director of Radio Amateurs of Canada.

"It's quite rare," Mr. Madsen said. "There are a great
many people who want to [make contact with the ISS] and
only a few that succeed because there is, after all,
only one ISS and it's only there for a few minutes at
any given time and the opportunity to actually make contact
with it is very slim."

Mr. Madsen said the space station creates a line a few
hundred kilometres wide at best, moving across the Earth
as it orbits. A radio operator who happens to fall within
that line as it passes by, within an eight- to 10-minute
window of opportunity, can communicate with the ISS, he said.

"Not only is it possible to do, but it doesn't take any
sophisticated equipment particularly," Mr. Madsen said.
"It's really a question of knowing where to listen and when to listen."

Within the small window of time, Mr. Carroll said he
and Ms. Ansari were able to give only their locations,
comment on how well they could hear each other and then
exchange goodbyes. Afterwards, he said, many questions
came to his head that he wished he had had time to ask her.
But he said he is going to keep his radio turned on in
the hope of speaking with her again, even though he knows
his chances are slim.

"[Amateur radio] is a wonderful hobby, and every once in
a while something like this comes along and you really enjoy it,"
Mr. Carroll said.

Dee:

When was the QSL sent/received?

I've tried his published address three times in the past
six years without success, trying both IRCs and $$.

I see that I made an error. It was a different station that I worked in
Belarus. My apologies.

Perhaps the letter just isn't getting there. Have you tried sending via the
bureau? If you don't belong to the ARRL, you can send it directly to the
Belarus bureau (see http://www.iaru.org/iaruqsl.html for bureau addresses).
Or some people report success with registered letters. If they have to sign
for it, you will at least know if it arrived there.

Davis "Bury Flex" 9914 (direct bury coax) has a 20 year service life and has very low loss figures nearly the same as 9913. It can be buried directly into the earth and is very abrasion resistant, non-contaminating and requires no further protective conduit, pvc pipe etc.

1. http://www.davisrf.com/ham1/coax.htm#buryflex

I was listening on 20M a few nights ago and heard a station with the call "GE"...no numeral at all (unless I just didn't copy it).

The op said it was an expedition.

Are special calls assigned without numerals?

Thanks,

John

SY8GE?

I suppose it's possible the British authorities have issued a two-letter callsign, though that would be contrary to the international Radio Regulations and while some countries wouldn't care, the British do seem to observe them. It's also possible it was a pirate but I'd think a pirate would use a callsign that wouldn't stand out quite so much!

I spoke to a YO a week ago and he mentioned that they don't have
an outgoing QSL-buro, only incoming. Those who want to send cards
via the buro, have to send them to the foreign QSL-bureaus
themselves. I am not sure how well direct QSLs to YO work..

> See below for a list of QSO's........
[...]
> 99-12-17,13:21,YQ0TM,17m,CW,,

RXed via buro (manager YO2BP), 17/20/30m.

Another very safe source for QSLs from YO is Arno, YO2/DL1CW.
Maybe you can set up a sked with him, he will stay in YO until
the end of this year.

Just FYI, I have so far received Buro-QSLs from the following
YO-Stations: YO9GJX, YO3/DL4AAZ, YO9KPP, YO9FJW, YQ0TM, YO7LHN, YO3YF,
YQ0KAR, YO7BGA, YO9FJW, YO9AGI, YO9DEF, YO4ASG, YP4O, YO3GRE, YO8YF,
YO2IS/P, YO8CF, YO2/DL1CW, YO7ARY

V55SRT QSL via Oreste, IZ8EDJ IO8SRT QSL via Franco, IK8WEJ
YI0SRT QSL via Oreste, IZ8EDJ IR0SRT (Sardinia Island) QSL via
IO0SRT QSL via Simone, IZ0BTV Franco, IS0LFZ
IO1SRT QSL via Maurizio, IZ1GJK IR3SRT QSL via Stefano, IN3JJI
IO2SRT QSL via Augusto, I2JJR IU8SRT QSL via Salvatore, IZ8GGF
IO3SRT QSL via Maurizio, IV3ZXQ * The special station will be
* IQ0OS (A.R.I. Ostia)
Use the following Web pages for updated info/news and a list of SRT members at:
Official Strange Radio Team Web page: http://www.strangeradioteam.com
Published S.R.T. Members List: http://www.strangeradioteam.com/team.asp

4L, GEORGIA. Operator Vaho, 4L8A, will be active in the CQ WW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (20m) entry. QSL via DJ1CW.

4Z0, ISRAEL (Special Event). The Holyland DX Group will operate as 4Z0J from the "Jesus Boat" located near the Sea of Galilee in Yigal Alon's Center on November 3-4th starting at 0700z and ending on Saturday at 1500z. Operators will be Shalom/4Z4BS, Mark/4Z4KX, Ilya/4Z1UF, Ros/4Z5LA, Ruben/4Z5FI, Yuli/4X6HP and Jan/4X1VF. Activity will be CW/SSB on all bands 80-10 meters. The square for the Holyland Award is M05KT. The group also plans to operate mobile from several squares around the main location for the HOLYLAND AWARD program. QSL Manager is Shalom, 4Z4BS. For more info on the "Jesus Boat", visit the Web page at:
http://www.jesusboat.com/imgs/site/site/boat.html

5B4, CYPRUS. Sigi, DL7DF, will be active as 5B4/DL7DF from October 5-12th. This will be a holiday style operation, but look for activity on CW, SSB, RTTY and SSTV. QSL via his home callsign.

600M BAND. The FCC Office of Engineering and Technology has recently granted a Part 5 experimental license to the ARRL on behalf of a group of radio amateurs interested in investigating the spectrum in the vicinity of 500 kHz. Rudy, N6LF, is one of several who has now begun experimental operations on 600m (505-510) kHz. He reported this past week that he is on the air at 506 kHz operating in the beacon mode. The message is:
VVV VVV VVV VVV VVV DE WD2XSH/20 WD2XSH/20 K.
After each transmission there is a 40 second pause and then the message repeats. Rudy's planned operating times will be from 0100-0430z every day if possible. He states, "No doubt there will be some exceptions, but I will do my best to be regular for the next 3-4 weeks." Rudy is using a 130 ft. vertical with a 300 ft. top loading wire running the maximum allowed power, so he should be audible over much of the western USA. Rudy would appreciate

any signal reports. Please send them to him at: rudys@ordata.com
Rudy believes this will be a very interesting experiment and hopes it will result in a new MF band for hams. He states, "That of course is very much for the future. Right now we need to see what we can accomplish with this experimental license." For more information about 600m, visit the ARRL Web Page at: http://www.arrl.org/news/stories/2006/09/15/104/?nc=1

8Q, MALDIVES. Andy, G7COD, will be active as 8Q7AK from Embudu Island, South Male Atoll, Maldives, between October 3-15th. Activity will be on 80-10 meters mostly SSB with some CW. He will use an Icom IC-7000 w/100w into a MFJ Auto Atu and G5RV antenna 15 meters high. QSL direct to G7COD or by the bureau with cards marked via "G7COD". Cards will be returned via the bureau, or if you do not have access to the bureau, then he will send you an EQSL.

AT6, INDIA (Special Event). Look for special event station AT6MYL to be active during the 2006 World Wide YL Meeting in Mumbai between October 15-29th. QSL only via VU2SWS. Visit the following Web page for more info at: http://www.geocities.com/mumbaiylmeet

C6, BAHAMAS (Change of Plans!). Operators Ken/K2KW, Tom/N6BT and Fredrick/KE7X will be active from Eleuthera Island between November 19-27th. The original plans were to go to Jamaica (See OPDX.771). Activity will include the CQWW DX CW Contest (November 25-26th) as Single-Op/Single-Band entries. QSL via WA4WTG. Operations outside of the contest will be on 160-20 meters, but they will focus on the low bands. More details are forthcoming (such as individual contest callsigns).

CT3, MADEIRA ISLAND. Operator Jose, CT1BOH, will be active as CT3NT during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band entry. QSL via LoTW. Visit CT1BOH Web page at: http://www.qsl.net/ct1boh

CT9, MADEIRA ISLAND. Operators Stefan/DL5XX, Detlef/DK3QZ, Nicolas/DK5DQ, Kai/DL3HAH, Marus/DL1EKC and Hans/DL1EMH will be active as CT9L during the CQWW DX CW Contest (November 25-26th) as Multi/2 entry. QSL via DJ6QT.

CU2, AZORES. Operator Toni, OH2UA, will be active as CU2A during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band/High-Power entry. QSL via OH2BH. ADDED NOTE: He will also be in the CQWW DX CW Contest (See OPDX.777).

DX6, PHILIPPINES. Operators Roberto/DU6BG, Joel/WJ1P, Billy/WE6DX, Leo/WA6LOS, EnriqueUE/WB6RJP, Vhodick/W6BOO, Ramon/DU1KBE, Marlon/DU1KXR and DU7RJA will be active as DX6M during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via W6PDX.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager reports:
Reminder -- Applications containing Swains Island credits are not being accepted until October 1, 2006. We are receiving many applications with Swains cards. These applications cannot be logged into the DXCC system and placed in the processing queue (or appear in the DXCC "Applications Received: list on the Web site) until October 1. Note: This will not affect anyone's DXCC Challenge numbers since the cutoff date for the

Challenge is now December 31, 2006. Send questions to dxcc@arrl.org

HI, DOMINICAN REPUBLIC. Antonio, IW2OAZ, will be active as HI8/IW2AOZ between October 2-28th. Activity will be on 20/17 meters RTTY and SSB. From October 26-27th, he will be on from Catalina Island (NA-122) using the HI8 prefix. QSL via the bureau.

HR, HONDURAS. A team of Russian speaking hams from New York will be going here between October 22-30th. Operators mentioned are: Andrei/EW1AR/NP3D (team leader), Boris/UU5SY/N3SY, Alex/K2PAL (ex-UB5XAZ) and Joel/KB2PDW. The group will activate Tigre Island (NA-060) together with Javier/HR2J and other HR operators from October 22-25th. The callsign (HQ4?) is TBA. QSL via W3HNK. Activity will be on 80-6 meters, RTTY, CW and SSB. During the CQ WW DX SSB Contest they will be active and on as Single-Band entries. The callsigns and bands are to be announced later.

IOTA NEWS.....
AS-151. Operators BD1DRJ, BG2QMP and BD2RI will be signing homecall/2 from ChangXing Island between October 1-6th. This will be a holiday style operation while visiting with friends and family. Planned activity is for 40/20/15 meters CW/SSB. QSL all callsigns via BD1DRJ (QRZ.com).

EU-028. Operators Valeriano/IK5ABG, Giovanni/IK5BCM, Oliviero/IK5BQW, Giuseppe/IK5CBE and Giovanni/IK5CRH will be active from the Island of Montecristo (I.I.A. LI-015), October 1-5th. The team has asked for a special callsign, but at moment they may use IA5/homecall since the special callsign has not been issued yet. This island is rather rare, and the last solid operation took place 15 years ago. It is a protected island in the Northern Thyrrenic Sea in the Tuscanian Archipelago. It is impossible to land without permission and usually it is only for 24 hours. It is not allowed to be close to the island (500 meters) with a boat floating. However, the team has received permission to camp on the island for 7 days (September 30th to October 6th). A Web page is under construction at: http://xommer.virgilio.it/gmiross

EU-055. Operators Tom/DL1DVE and Mike/DL3VTA will be active from Sotra Island as LA/homecall, October 9-14th. Activity will be on the HF bands CW, SSB, RTTY and PSK31, maybe also SSTV. He will use only 100 watts and several wire antennas. Tom will also activate JP20 on 2m WSJT. QSL via his home callsign.

NA-112. Remember that some Tennessee Valley DX Association members will be active this week as W4PL from Emerald Island between now and October 6th. Activity will be on 80-6 meters, CW, SSB, RTTY and PSK31. QSL via K4KWK.

OC-115/
OC-153. Operators Derek/G3KHZ, Vincent/G0LMX and Hans/SM6CVX will be active on all bands on the IOTA frequencies from two planned

IOTA locations. Look for them on the following:
OC-115 - Signing P29NI from Trobriand Islands between October 2-10th. QSL via G3KHZ.
OC-153 - Signing P29CVX from PNG Coastal Islands South Island Group between October 11-14th. QSL via SM6CVX.

J3, GRENADA. Bill, VE3EBN, will be active from here between October 19th and November 26th. Callsigns to be used are J37LR and J37T. Activity will be on the HF bands, CW, SSB and PSK31. QSL via the address on QRZ.com.

JERSEY SHORE DXPO. Bob Schenck, N2OO, President SJDXA, announces that the South Jersey DX Association and the Old Barney ARC are co-sponsoring "The Jersey Shore DXPO and Dinner" on Saturday, November 11th. This "show" will be held at the Ocean Acres Community Center in Manahawkin, NJ. Doors will open at 11:00 AM. Seating is limited. First come, first served. There will be an assortment of presentations and forums all afternoon starting at 12:00 noon. They have also arranged for DXCC card checking at the show. So, gather up your QSL cards for DXCC and bring them along. Food and beverages will be available throughout the afternoon. There will be a DX Dinner Buffet in the evening after which K4UEE will give the 3Y0X DX Experience Show. There will be door prizes, and you must be present to win. A separate raffle for a special 3Y0X world map autographed by the entire 3Y0X TEAM. Proceeds benefit "DX Expeditions, LLC" for future DXpeditions. Tickets cost 20 USDs each and cover the entire show and the evening buffet dinner. Contact Bob Pantazes, W2ARP, for tickets at: w2arp@arrl.net
"Day Passes" will be available at the door for 5 USD per person. These passes (good from 11:00 AM until 5:00 PM) give admission to those who can not stay for the evening dinner and show. Please go to the following Web page for full details and current updates on the program at: http://www.sjdxa.org

KH8S, SWAINS ISLAND. At the end of last week there was an announcement stating that Hrane, YT1AD, with a team operators (K1LZ, K3LP, N6TQS, RA3AUU, RZ3AA, UA3AB, RK3AD, YZ7AA, YU1EA, KD7RCD and other potential members of the team: YU7NU, YZ1BX, YU1DX and YZ1EW), will be head of a DXpedition to Swains Island between September 12th to October 3rd, 2007. Team will stay on Swains Island 10 days and will operate with 6 stations on the air at the same time. The announcement also stated that more info will be available soon on a WEB site. HOWEVER, Larry, AH8LG, President of the American Samoa Amateur Radio Association (ASARA) and friend of the family that owns the island, states, "There is no planned trip to Swains Island by anyone at this time. I do not know where this info came from but they had better check with me before they give out any info on going to Swains Island." As President of the ASARA, Larry was asked (by the Jennings Family) to screen all Amateurs that apply to go to Swains Island.

OH0, ALAND ISLANDS. Ari/OH5DX, and others will once again be active as OH0Z during the CQWW DX SSB Contest (October 28-29th) as a Multi/Multi entry. QSL via W0MM.

P4, ARUBA. Tim, WD9DZV, will be active as P40D from October 30th through November 9th. Activity will be on 160-10 meters CW/SSB. QSL via his home callsign WD9DZV.

PACIFIC TRIP. Rick, AI5P, will be finishing his activity as E51APX this week from from Rarotonga, South Cook Islands. Look for him next from Niue as ZK2PX between October 6-20th. From Niue, he will travel to New Zealand and be active as ZL/AI5P between October 25th and November 2nd. Rick has been working mostly on CW on 40-17 meters running an IC-706 into wire antennas. This past weekend he was really active on 40/30 meters CW. QSL via AI5P.

PJ4, NETHERLANDS ANTILLES. Peter, PA3CNX, will be active as PJ4/PA3CNX from Bonaire (SA-006) between now and November 3rd. Activity will be on all bands 80-6 meters CW/SSB. However, his operating times will be limited due to his holiday activities and wife (mainly between 2000-0200z). Look for him to be an entry in the CQ WW DX SSB Contest. QSL via the bureau or direct (QRZ.com).

Barry, WC5N, informs OPDX that he has recently received the LoTW certificates for his VK9WB (1990; Cocos-Keeling) and V63BW (1992) operations. He states that he would be glad to check the log and confirm QSOs through the LoTW for anyone that may still desire a confirmation from those operations. Send and E-mail to wc5n@arrl.net requesting LoTW confirmation. Barry also would be glad to send a bureau card for those DX stations who would like a "paper" confirmation. Again, just send him an E-mail with the contact info so he can check the log.

YU6AO QSL UPDATE. Team YU6AO, with team leader Hrane, YT1AD, finished their activities with 75000 QSOs. They had 35 hams participate and operators from 9 different countries. As of September 29th, they received 8000 requests and confirmed more than 25000 QSOs for all QSOs between June 28th (2006) and August 15th (2006). All info with photos and on-line logs can be found at: http://www.yu6ao.info

SPECIAL EVENT (ISWL). The International Shortwave League (ISWL), continues with their 60th (Diamond) anniversary celebrations throughout the month of October. Look for the following to be active this month:
GB6SWL - Activity will be October 7-8th from Towcester, in Northamptonshire. Phil, G4DMS, will be the main operator.

GB6SWL - Activity will be October 14-15th from Braintree, in Essex. Keith, M0CLO, will be the main operator.

GB6SWL - Activity will be October 21-22nd from Dagenham, in Essex. John, M0HEM, will be the main operator.

GB60SWL - Activity will be on Sunday, October 22nd, for 1 day from the Cudmore Grove, Country Park in Essex. The Station is being run by the Colchester ARS. (A Club Affiliated to the ISWL).

GB6SWL - Activity will be October 28-29th from Walton on the Naze, in Essex. Herbie, G6XOU, will be the main operator.

The ISWL Club's callsigns GX4BJC/P and MX1SWL/P will also be active throughout October. The ISWL Awards Program is open to non members for a very small fee to cover postage to any country in the world. Please visit the following Web page for all the details, including QSL information and the Special Diamond Anniversay Awards etc... at: http://www.iswl.org.uk

ST2, SUDAN. QSL Manager, Boris, T93Y, reports that after ST0RM license expired, Jovica, T98A (ex. T94FC), will continue his activity from Sudan with his new callsign ST2A. Jovica will continue to operate mostly CW (with some SSB, RTTY and PSK31) on all bands and will do his best to be active on 160m during the coming winter season. Over the past week, Jovica was very active on 40 meters CW between 1900-0200z. QSL via T93Y: Boris Knezovic, P.O. Box 59, BA-71000 Sarajevo, Bosnia and Herzegovina. Visit the Web Page at: http://www.t93y.com/st2a

TIME FOR A REMINDER (Only 3 months left!). Alan, VK4AAR, states, "ATTENTION ALL DXers!! This is a reminder about IRCs. The Universal Postal Union (UPU) has decided that the current style of IRCs will NOT be exchanged for stamps after the expiry date, 31-12-2006 (31st December 2006). I can not accept this type of IRC after that date because the post office will not give stamps in exchange. YOU CAN SEE THAT DATE ON THE RIGHT HAND SIDE, ABOUT HALFWAY DOWN. The new style of IRC looks similar but shows two hands with fingers touching and these are already on sale ... valid until 31-12-2009. Please use THIS type or U.S. dollars. Time to use up these older ones and stock up with the newer ones."

V2, ANTIGUA. Team Antigua, V26B, will once again be in action for the Fall 2006 running in the CQWW SSB Contest. Most of their operators will be arriving the week before and will be active on any and all modes using their own callsign listed below until a few days after the contest. The Team Antigua will be activating V26B for the 13th consecutive year and would love to thank everyone for their continued support over the past years and looks forward to many more years of operating from the fun in the sun from their Island Paradise in the Caribbean Sea, Antigua. The 2006 V26B operator lineup and QSL routes are as follows:
V26B QSL via KA2AEV V26MH QSL via HB9OCR
V26BZR QSL via W2BZR V26OC QSL via N3OC
V26G QSL via N2ED V26R QSL via KA2AEV
Also WX3B will be active, but his Antiguian callsign is unknown at this time.

VP2M, MONTSERRAT. Look for Bill/W4WX and Jan/K4QD to be active as VP2MHX and VP2MQD, repsectively, between October 23-31st. Both operators will enter the CQWW DX SSB Contest (October 28-29th) as a Single-Band entry. Look for activity before and after the contest on 80-10 meters, CW, PSK-31,

RTTY and SSB. QSL VP2MHX direct to W4WX and VP2MQD by the Bureau or direct to K4QD. Bill informs OPDX that baggage limits via WinAir between Antigua and Montserrat is only one check-in at 44 pounds, so antennas will be limited.

VU7, LAKSHADWEEP ISLANDS. Pai, VU2PAI, informs OPDX that he is part of an Amateur Radio Society of India (ARSI) group that has obtained permission to operate from Lakshadweep Islands in December 2006. The DXpediton will consist of Pai/VU2PAI, Sarla/VU2SWS, Basappa/VU2NXM, Manohar/VU2UR, Milind/VU2IZO, Gopal/VU2GMN and Rajaram/VU3KKZ. Operators will be signing with the callsign VU7LD. The team will operate on SSB/CW and the Digital modes. More details will be forthcoming. The group is looking for funding and equipment. ADDED NOTE: Pai also mentioned to OPDX that he has been extrememly busy with his office duties and has not been active on the air for more than 1 year. He does have some pending outgoing QSLs but will send them out soon. He states that if anybody needs a QSL from him for any of his previous activations (such as AS-096 and AS-161) or for a regular contact, please E-mail him at: ananthpai@hotmail.com
Pai will be happy to send you a card via direct if you provide him with your QSO details and mailing address.

WORKED ALL BRITAIN (Special Event Station Award). Chris, G1VDP, WAB Awards Publicity Officer, reports: "The intention of this award, apart from that of giving members something to aim for, is to raise awareness of WAB amongst those who activate special event stations. This award will run from 1st January until 31st December each year, commencing 2007. In common with all WAB awards, this is open to SWL�s also. Only contacts with special event stations using a �GB� prefix will be valid. The WAB area of the Event Station should be ascertained during the contact with them. Certificates may be endorsed for any band/mode. A station may only be claimed once during each 12 month period for any particular endorsement. A certificate will be awarded for working/hearing 10 stations, with endorsements for each subsequent 10. On working/hearing 100 stations, a further certificate will be awarded. A claim sheet is available for this award, but if using your own or any logging program, the WAB area of the station should be recorded. The usual cost of WAB awards applies � i.e. only �1 per certificate and 50p for each endorsement." Further details and sample certificate may be viewed on the WAB web site at:
http://www.worked-all-britain.co.uk

XU, CAMBODIA. Tony, KM0O, will be active as XU7MWA during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band entry. QSL route will be announced later.

XX9, MACAU. Members of the Macao Amateur Radio Association will be active as XX9C during the CQWW DX SSB Contest (October 28-29th) as a Multi/Multi entry. Activity will be on 160-10 meters. Please QSL via the Macau Bureau: Macao Amateur Radio Association, P.O. Box 6018, Macao SAR, CHINA.

YU3, MONTENEGRO. Hrane, YT1AD, will be active from here during the month of October with his Montenegrin callsign YU3AD. QSLs for this operation

is via YT1AD.

ZONE 2 (Operation Cut Short!). Steve, VE2TKH, informs OPDX that his
VY0ICE activity from Baffin Island (NA-047, CISA NT001) in the heart of
CQ Zone 2 (Iqaluit, Nunavut), will be cut short. His VY0ICE operations
will end on October 11th for many personal reasons. "Steve his going back
home south to reunite with the love of is life, and is so missing his
girlfriend Lyna." However, he also reports that the 2000 QSLs cards from
UX5UO are in the hands of his QSL Manager VE2AWR and Serge is replying
fast to all direct requests he receives each day. They accept BUREAU cards,
but please be aware to send your VY0ICE request to the VE2AWR manager
(via the VE2 BUREAU only). To see what the front of the QSL card looks
like, visit: http://www.qrz.com/vy0ice

1288. High Voltage 161-kV line from the local Electric Co. QRN? QRM? SK?

Newsgroup: rec.radio.amateur.dx

Source record: 2890

I have no experience being close to these lines.
The local elect. company is downing trees now right behind my house.
So this means this dang thing will be about 100 feet from any thing I use.

I was about to buy a new rig and antennas but looks like it may be a
waste of money with this going next door.

Mom passed away Nov. and I have the house now but may be a
waste of time to put up anything.

Have they killed my ham hobby? WHAAAAA!!! Thanks TVA!
http://www.tva.com/power/projects/500kv_line/index.htm
They could bump this up to a 500-kV line later I suppose.

OT but never been close to this kind a crap. Any real inputs appreciated.

Last of retirement entertainment turn to crap, I guess.
Wasn't looking for "challenges", wanted relaxation.

Gary K4TWO Clarksville TN @arrl.net too.

I bought my FT-857 when I was just a no-code Tech. I feel it was a factor in motivating me to learn code so I could upgrade to a General class license. I wanted to have access to ALL those bands on which it was capable of operating. I have been very pleased with the purchase.

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NJ1Q, N2OO, NG3K, W3UR & The Daily DX, K4MQG, N4AA & QRZ DX, K8YSE, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DK8JB, EA3BT, EA5RM, F5NOD, F5NQL & UFT, HA0HW, HK3JJH, HL1VAU, HR2DMR, I1JQJ/IK1ADH & 425 DX News, IZ2DPX, JA1ELY, LU1AEE, LX2A, RSGB IOTA, T93Y, VE2EK, VA3RJ & ICPO and VU2MYH for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 1st/October, through Sunday, 8th/October there were 212 countries active. Countries available: 3A, 3B8, 3B9, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5V, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FH, FJ, FK, FM, FO, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J6, J7, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T8, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V5, V7, V8, VE, VK, VK9N, VP2V, VP8, VP8/g, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, Z7, ZA, ZC4, ZD7, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3C0, ANNOBON ISLAND. Elmo, EA5BYP, informs OPDX that his next DXpedition is to the Island of Annobon (Pagalu). He will arrive via Malabo-Bata-Annobon on October 20th, and will remain on the island for 15 days and be activate as 3C0M. His equipment will be a line amplifier, two HF equipment, a yagi antenna and dipoles. Elmo will be on air on SSB (80-10m), RTTY (20-15m)

and CW (160m). He reports that making a radio DXpedition to Annobon Island has been a very difficult and complicated enterprise. Elmo has been talking to different Ministries of the Republic of Equatorial Guinea since 2004 to explain to them that ham radio enthusiasts are interested neither in politics nor religious differences, but to just practice ham radio without paying attention to the frontiers. He hopes with all his efforts that in the future he may launch a multinational ham radio DXpeditions there soon. This DXpedition is costly for only one operator, and he is looking for help in funding his operation.

3W, VIETNAM. Reports indicate that Shim, XV3AA/3W3A, is expected to be active for a couple of weeks starting October 11th. It is suggested to look for him between 2330-0030z on 20 meters. QSL via JA6UHG.

6W, SENEGAL. Jacques, F6BEE, will be active as 6W1RW during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/High-Power entry. QSL via F6BEE.

9M0, SPRATLY ISLANDS (Update). Tex, 9M2TO, sent out a press release this week titled "Project 2007 Spratly Island 9M0 DXpedition by Team Blue Marlin Ventures". It reports that the Malaysian Communication and Multimedia Commission has approved Ham Radio operations from Pulau Layang Layang (AS-051) in the Spratly Island group. Operation is scheduled to take place between March 9-20th. Operators will include members of the Malaysian Amateur Radio Transmitter's Society (MARTS) and a group of JA operators. Malaysian operators mentioned are: Chow/9M2CF, Phoa/9M2KT, Tex/9M2TO and Yasumasa/9M8YY. JA operators mentioned are: Yoshiaki/JA1OCZ, Tack/JE1CKA, Harumi/JF1PJK, Naoyuki/JK1FNL, Yasuyuki/JR1AIB, Kazuyuki/JR1VMX, Miho/JJ2VLY, Yutaka/JQ2GYU, Takashi/JR7TEQ and Kiyohiro/9M2/JH3GCN. The team plans to have a total of 20 operators. They also plan to have 2-4 stations up and running for 24 hours on all bands and modes. The 9M0 callsign and QSL route has not been announced yet.

9N, NEPAL. Tohru, JA0UMV, will be active from Katmandu as 9N7MV between October 26-30th. This is his second DXpedition from Nepal. Activity this time will be on 40/30/20/17/15 meters only, SSB, CW and possibly RTTY. He will participate in the CQ WWDX SSB Contest as a Single-Op/All-band/Low-Power entry. Tohru will operate CW outside of the contest, so look for him on the following suggested frequencies: 7017, 10117, 14027, 18077 and 21027 kHz. QSL via his home callsign: Tohru Kataoka, 15-9 Sakae, Kamo, Niigata 959-1382 JAPAN.

ANTARCTIC NEWS.....
The French Polar Team is proud to announce the "ANTARCTICA CHALLENGE". The goal of the "Antarctica Challenge" is to promote the Antarctica Hamradio traffic; it should reflect the global and coherent hamradio traffic with the Antarctica. Another main goal of the Challenge is to gather funds to help Antarctica's stations (QSL printing, Materials supply and so on..). The "Antarctica Challenge" is not an Award, but a Challenge. As you will see in the rules it's not simply to count bases and confirm the QSOs, but you must find the exact and accurate

Antarctica station positions (on the island). Your Geographic skill and documentations will help you achieve this goal. Visit the Antarctica Challenge Web site at: http://f6kdf.ath.cx/f5nod/

B7, CHINA. A group of hams from BY7-land will be active as B7P during the CQWW DX SSB Contest (October 28-29th) as a Multi-2 entry. Operators mentioned are: Terry/BA7NQ, Junxiang/BD7IN, Jinquan/BD7JLR, Yang/BG7IXG, Xijiang/BG7MCE, Guanqiu/BG7KTA, BG7IBV and BG7KSF.

CT3, MADEIRA ISLANDS. Operators CT1BOH, CT1BOP, CT4NH, CT3BD, CT3DL, CT3DZ, CT3EE, CT3EN, CT3HK, CT3IA, CT3IQ, CT3KU and CT3KY will be active as CT3IA during the CQWW DX SSB Contest (October 28-29th) as a Multi-2 entry. QSL via CQ9K.

DXCC NEWS.....
Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operation is approved for DXCC credit:
TT8LN - Chad; Operation from February 12th through June 5th, 2006

YU6AO CREDITS ON HOLD! On October 4th, 2006, Bill Moore, NC1L, ARRL DXCC Branch Manager, reports: "A number of DXers have had their YU6AO credits rejected by the DXCC Desk. Although we are entering these confirmations, we are currently not allowing DXCC credit because of possible irregularities in the QSLing process. We have received several independent reports relating to the QSO dates, some QSOs made prior to July 4th, 2006, being post-dated to dates July 4th and later. We take this very seriously, and we are seeking clarification, but our latest attempt to communicate with YU6AO has not been acknowledged. Once this matter is cleared, credits already submitted can be claimed with a note to the DXCC Branch Manager, Bill Moore at dxcc@arrl.org."

EF8, CANARY ISLANDS. A team of EA and EA8 operators will activate EF8A during the CQWW DX SSB Contest (October 28-29th) as a Multi-? or possibly a Multi-2 entry. QSL via EA8URL.

FT5X, KERGUELEN ISLANDS. As this was being written, Gildas (Gil), TU5KG, who has been active as FT5XP/mm in the Austral Sea (in Southern Indian Ocean) on a fishing boat near/around the Kerguelen Islands, was expected to be active from Kerguelen Islands. The reports states, "Gildas is 'full ahead' to Kerguelen Island, he will be FT5XP from 'Port aux Francais' this weekend October 7th (He should arrive this evening) untill 8th. He will also be on Kerguelen the weekend of November 26th (for fuel refill)." QSL via F4EFI.

HR, HONDURAS (Topband). Dan, HR2DMR, is now active on the topband. He will be trying out a new set of antennas on 160 meters during October and November to be ready for the ARRL 160 Contest and CQ 160 Contest. Dan states that this is a good chance to work HR on 160 on CW, SSB and maybe RTTY between 0000-0500z. Suggested frequencies are: 1835, 1830 and 1825 kHz. He was also heard this past week on 40 meters SSB.

IOTA NEWS.....
AF-018. Raf, IH9YMC, is currently a resident of Pantelleria Island

(IIA TP-001, MIA MI-124, WLOTA LH-0041). He plans to be active on the bands through January 31st. He has also been active on 160 meters. QSL direct or by the bureau.

AS-093. Operators Han/DS2GOO, Son/DS3HWS, Lee/6K2CEW and maybe a few others will be active from Hong Island (WLOTA 1528, Grid Loc PM24OQ and Korean Districtions Number H32) during October 13-15th. They will sign homecall/4 and D90HE/4. They will concentrate on 80-10 meters SSB but some digital modes like FSK or PSK31 are preferred. QSLs for D90HE/4 go to DS2GOO and all others via their home callsigns. More information and a log search will be available at:
http://myhome.naver.com/dxer2han/as_093/

EU-004. Operator Tom, DK3DUA, will be active as EA6/DK3DUA from the Island of Mallorca (DIE E-021, MIA MB-004, WLOTA LH-1902), Balearic Islands, from October 15-22nd. Activity will be on CW on 80-10 meters with a FD3 and 6 meters with a dipole. QSL via his home callsign, direct or by the bureau.

LIGHTHOUSE ACTIVITY. A team of 8 LU operators will be active from Claromeco Lighthouse (ARG-014) as LU4AAO/D between October 14-15th. Activity will be on all HF bands, on SSB and CW. QSL only via LU4AAO (Radio Club QRM Belgrano). The Claromeco Lighthouse is located in the south of the Buenos Aires Province. More information is available at: http://www.lu4aao.org.ar/ Or you can contact via E-mail at: lu4aao@yahoo.com.ar

LX, LUXEMBOURG. Philippe, LX2A, will be active as LX7I during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band entry. He informs OPDX that "If you work me on 3 bands you can request 1 direct QSL." QSL is OK via his new callsign LX2A (ex-LX2AJ) by the Bureau, direct and LoTW (no EQSL). His new Web page is: http://www.lx2a.com

NEW OFFICERS FOR 2006-2007. Gary, K4MQG, informs OPDX that the results of the 2006-2007 INDEXA election which ended September 30th are now official and is being distributed for publication. The results are as follows: President: Ron, ZL1AMO
Vice President: Gary, K4MQG
Secretary-Treasurer: William, W4UNP
Director: Bob, K4UEE
Director: Nellie, XE1CI
Director: Franz, DJ9ZB
Director: Rich, W9RG
Newsletter Editor: John, K8YC

P40, ARUBA. Operators Dave/K9UK, John/W9KXQ, Bill/WW9WW, Dave/WG9J and Tom/W9AEB will be active as P40Z between November 28th and December 5th. QSL via K9UK.

P40, ARUBA (Update/Change). Ken/K6TA and Kay/K6KO will be active from here as P40TA and P40K, respectively, from November 30th to December 21st. Kay plans to be active in the ARRL 10 Meter Contest (December 11-12th)

as a Single-Op/High-Power/Phone entry. Also, look for P40TA in the ARRL 160m Contest (December 1-3rd) as a Single-Op/High-Power entry. QSL both callsigns via WM6A.

PJ2, NETHERLAND ANTILLES. Operators Dan/K1TO, John/K4BAI and Vic/N4TO will be active as PJ4A from Bonaire during the CQWW DX CW Contest (November 25-26th) as a Multi-Single/High-Power entry. Before and after the contest, they will use PJ4/homecalls between November 21-28th. QSL all callsigns via K4BAI. The team of operators set the North American Multi/Single record for CQWW DX CW Contest as 8P9Z in 1999. The operation will be from the K2NG/PJ4G "Radio House" on Bonaire. John/K4BAI and Jeff/KU8E, won the Multi/Single category in the ARRL DX CW Contest in February of this year from the same QTH. IOTA is SA-006. Grid is FK52.

QSL 9Q1EK only to the adress mentioned on QRZ.com and NOT to the VE2EK. This is from an E-mail received by Georges, 9Q1EK/VE2EK/ZS1II. The address is: Georges SCHLEGER, UNITED NATIONS-MONUC- RADIO OKAPI, KINSHASA 12 Av. des Aviateurs B.P. 8811, DEMOCRATIC REPUBLIC OF CONGO.

QSL D44TD only direct to CT1EKF: Antonio Jose Xara' Costa, R:Centro Vidreiro 917 Bustelo 3720 262, Oliveira Azemeis, PORTUGAL.

Antonio, EA5RM, announced that the S01R log was uploaded to ARRL's LoTW. Also, bureau cards are starting to go out.

Pedro, HK3JJH, has a new mailing address: PEDRO J ALLINA Cod 9906, PO Box 02-5242, MIAMI FL 33102-5242, U.S.A.

REDUCED "CLOSEOUT" PRICE FOR IRCS: Bob, N2OO, has a limited number of IRCs for sale. All are large-sized IRCs which expire December 31st, 2006. Sale price 1.05 USD each. Minimum quantity: 10. IRCs will be sent postpaid USA (regular mail). PayPal accepted. Contact Bob, N2OO, for more information at: n2oo@arrl.net

Nilay, TA3YJ, reports: "Dear Radio Amateur Friends, Some radio amateurs are complaining about not receiving any reply for the QSL cards they had sent via bureau. TRAC QSL Bureau is doing the distribution in Turkey for the QSL cards that had come for me. Because of different reasons, which do not originated by me, I have not received any QSL cards from TRAC QSL Bureau since April 21, 2006. I recommend my radio amateur friends to send me the QSL cards directly if they need the cards urgently. Best regards from TAnatolia. 73 & 88, Nilay Mine AYDOGMUS, TA3YJ"
TA3YJ QSL Service: http://www.geocities.com/qslservice/ta3yj

VU4AN/VU3CHE QSL STATUS. Charles, K4VUD, reports: "All incoming QSL card requests for VU4AN/VU3CHE are now answered and in the mail. New incoming will be answered fast now and the HS bureau cards will be answered ASAP."

S2, BANGLADESH. An announcement was sent out this past week releasing details of the "Bangladesh 2007 DXpedition" which has been in the planning stages for 2 years. This operation will be carried out by the same group that activated D68BT/D68WL (2001) and TN3B/TN3W (2002). The team will be on the air as S21EA for 7 days between January 10-16th. Activity will be on 160-6 meters including the WARC bands, CW, SSB and RTTY. They plan to have 3 stations on the air. Operators mentioned are: Josep/EA3BT (Team Leader/SSB/Digital), Tony/EA2PA (CW), Nuria/EA3WL (YL/SSB/Digital), Fernando/EA5FX (CW) and Juan/EA8CAC (CW/SSB). QSL via EA3BT, by the Bureau or direct. A Web page is currently under construction for this operation and its URL address will be: http://www.ea3bt.com/s21ea.html

ST2, SUDAN (Bird Activities). Nader, HZ1NH, is back in the Sudan as ST2NH. He will be active on satellites trying to work Europe. His stay in Sudan is unkown. QSL via EA7FTR: Francisco Lianez Suero, Asturias 23, 21110 Aljaraque, HUELVA, SPAIN.

SX1, GREECE (Special Event). Look for special event station SX1VAR to be activated during the JOTA from October 21-22nd. Also, look for special event station SX100VAR to be active during the year 2007 (January 1st to December 31st) to celebrate the 100th anniversary of the Boy Scouts. QSL info will be available on QRZ.com. Look for details to become available soon on how to earn a award for working SX100VAR.

TI8, COSTA RICA. Operators Carlos/TI2KAC, Eddie/K4UN, Bob/W4BW, Keith/W4KTR and Alexis/W4XO will be active as TI8M during the CQWW DX SSB Contest (October 28-29th) as a Multi-2 entry. QSL via TI2KAC, direct or by the Bureau. Look for activity before the contest on 160-10 meters.

TK, CORSICA. Operators Kazik/DL2SBY, Tomi/HA4DX and Laci/HA0HW will be active as TK/homecall between November 2-11th. Their QTH will be on the north part of Corsica (EU-014) near a small village called Sisco. Activity will be on all HF bands (CW, SSB, and Digital modes) but they will focus on the lower bands. On 160m, they will use an Inverted L for transmitting and 2 lambda long beverages for reception, on 80m an Inverted Vee, on 40m a monoband Gp. On the higher bands, they will be using DunaX GPN4B and DunaX GPW3B multi-band Gp antennas. They will use two radios and a small amplifier with 500 watts output. QSL via the operator's home callsign, by his national QSL Bureau, or via the QRZ.com address.

TZ, MALI. Eric, ON4LN, has announced that a team of 4 operators will be active from Bamako, Mali, between April 1-8th next year. No other details were released other than a Web site will be online soon with more info.

V6, MICRONESIA (Also KH2). Four members of the Yamato Club (JA1ZEK) will be active from three different islands of Micronesia between November 1-13th. Look for the following operators: Sasi/JA1KJW (V63JQ), Mat/JA1JQY (V63JY), Hiro/JI1FOP (V63OP) and Kuni/JA8VE (V63VE). Their planned schedule and destination is as follows:

November 1-6th - Kosrae Island (OC-059)
November 7-8th - Pohnpei Island (OC-010)
November 9-13th - Chuuk Island (OC-011)
November 14-15th - Guam Island (OC-026)
They will set up two stations and operate on 160-10 meters, SSB, CW and RTTY. QSL V63JQ via JA1KJW, V63JY via JA1JQY, V63OP via JI1FOP and V63VE via JF1OCQ.

VP2V, BRITISH VIRGIN ISLANDS. Steve, AK0M, will be active from here next year between February 12-19th. His VP2V callsign is unknown as of yet. Operation will be from the Island of Anegada (NA-023), and he plans to be a casual entry in the ARRL DX CW Contest. QSL via AK0M. Look for updates in the future as plans finalize.

VU7, LAKSHADWEEP ISLANDS. NIAR PRESS RELEASE (dated October 6th, 2006):
"We are happy to inform you that the Hon�ble Minister for Communications and IT has approved the NIAR proposal for holding Hamfest � a convention of International amateur radio operators in Lakshadweep Islands (VU7).
The event will be held during December 1-3rd, 2006. The event also coincides the year of Golden Jubilee celebrations of Union Territory of Lakshadweep.
Another major attraction for the event is that Indian and Foreign hams can obtain permission from Government of India to operate their Amateur Radio stations during the HAMFEST being held at Lakshadweep Islands during December 1-10th, 2006.
Several agencies of the Government of India have come together to support Amateur Radio activity in our country, particularly the Department of Information Technology, Ministry of Tourism, Lakshadweep Administration, Ministry of Home Affairs, Ministry of Defence, Ministry of HRD and Department of Telecommunications. This was made possible with encouragement we received from DX agencies like GDXF, Germany and DERA, USA etc.
Hamfest is likely to attract a large number of operators. It has been decided to spread amateur radio stations to different islands to ensure most efficient operations with their physical separation of 10-60 km.
The operations will take place at least from: Agatti Island, Bangaram Island and Kadmat Island.
Lots of attention will be put in the organisation of each island operation site: Experienced operators, carefully selected equipments, large antenna farms, and awareness of conditions to all continents on all bands
In addition NIAR has assigned reliable QSL Managers to ensure quickest and most efficient QSL handling for each of the 3 ITU Regions:
Region 1: German DX Foundation (GDXF)
Region 2: N2OO, Bob Scheck
Region 3: The I-House Radio Club
Your contribution, in any amount, will make you a valued member of our VU7 operation. We need your support! We plan a special acknowledgement for Individual Donators. Further details will follow in due time. More details will be released on the official webpage www.vu7.in as plans and details firm up. Regards... Mohan, VU2MYH"

WRTC 2010. The World Radiosport Team Championship Sanctioning Committee (WRTC-SC) have announced that the 2010 WRTC will be held in Russia. The Soyuz Radiolyubitelei Rossii (SRR) will sponsor the event under the leadership of their SRR President, Roman Thomas, RZ3AA, who will be the host Committee Chairman. The WRTC and the IARU Championship will be held next July 2010.

XU, CAMBODIA. Retu, OH4MDY, reports that the members of the Finnish radio group called the "Pieksamaen Radioamatoorit ry." (OH4AB) will be active in XU with the callsigns XU7MDY and XU7JGE between October 20th and November 5th. Activity will be on 160-10 meters CW. Suggested frequencies are: 1825, 3507, 7003, 10104, 14007, 21007, 24897 and 28020 kHz. There will be an emphasis on the lower bands. Also, look for XU7MDY to be active in the CQWW DX SSB Contest (October 28-29th) as a Single-Band entry (band not provided). QSL only direct and QSL info is available on QRZ.com.

YN2, NICARAGUA. Operators Ed/W5GCX, Mike/K5UO and Frosty/K5LBU will be active as YN2EJ from Granada during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via K5LBU.

hi people ,im looking for a guy a good friend of mine he lives in the hague in the netherlands in europe he used to live in a small apartment not far from the hague. i sent him dvd videos from korea which at the time he was looking for as richard is a korean language teacher, i sent him 4 vhs cassetes on korean and from korean tv channels i have here still. i was wondering does anyone from around the hague know a richard scmitz please email me i need to contact him i was supposed to send him some more stuff he required i have lost his mailing address and email .if anyone from the hague or around that area im david from newcastle nsw australia .

1297. Looking for QSL card CE0AC (Easter Island- 1953-54)

Newsgroup: rec.radio.amateur.dx
Date: 2006-10-09 07:40:20 UTC
From: Jennifer Palonus <jpalonus@graph-intron-ical-intron-dy-intron-namics.com>
Message-ID: <95vji2ps9bs67nlkgi8bk2b72a20pngkqo@4ax.com>
Source record: 2899

I'm editing a memoir that my sister's father-in-law has written about his experience as the sole doctor stationed at Easter Island in 1953-54. In his book he mentions that he set up a ham radio station, CE-0-AC, and that he had QSL cards printed up.

But now he hasn't been able to find any to put into the book! If anyone has a copy of a CE-0-AC card, I'd love to get a good scan to include in the book.

He's Dr. Dario Verdugo-Binimelis, a 90 year old retired Chilean doctor. At the time he was in his late 30s. He, his wife, & 4 young sons up and left for Easter Island for 2 years - no electricity, water from rainbarrels, a leper colony to manage... It's a fascinating story!

Here's what he says about his experiences as a ham:

==========
As we approached our second year in the island, I decided to become an amateur radio operator to be able to communicate with our family back in Santiago, so I ordered the equipment from Chile for the next annual shipment. I was proudly granted a ham radio operator's license-my ID was CE-0-AC and I had cards printed with a moai [the big statues], which became very desirable . The Navy base on the island lent me a small electrical generator and some fuel, which allowed me to use the radio equipment on limited occasions. After overcoming many difficulties, especially with setting up the electric power with the generator (for which my son Pedro was the 'expert mechanic') and the installation of the antenna supported by a tall mast erected by my children, I was able to make it work. To my surprise however, a couple of days following the proud launch of our radio station, the Naval Governor showed up at my home with his lieutenant to order me to lower the height of the antenna. In his view, it was inappropriate to have a structure on the island that would be higher than the tallest mast where the Chilean flag flew at the Governor's house. I was unsuccessful in convincing him that I was not being disrespectful to the Chilean flag, nor was I challenging the Chilean sovereign or his authority over the island; I even suggested flying the Chilean flag on our antenna.

As a result of this unsuccessful negotiation with the Governor, we ended up lowering the antenna a few feet after making careful measurements. While it was a good engineering lesson for my four sons, I suspect that it degraded the capability of my ham radio equipment which needed all the help it could get to reach far away distances. (But Pedro did end up studying engineering.)

I was disappointed to realize that in spite of all my effort to connect with Chile, it was either very difficult, or simply impossible. The first and one of the few times that I could talk with my parents I was so overwhelmed by emotions that my words drowned in my throat. A different story was with the U.S., especially California, where I was able to establish many contacts. When I turned on the equipment and started calling , many ham operators tried to reach me, since it was very unique to contact someone from a place so remote and exotic. The reality is that the ham equipment became more of an entertainment and not the tool that I had envisioned for connecting with our loved ones back in Chile.

Having a ham radio as our entertainment, we decided that it would be nice to share some of the music that we could receive from far away stations with the Pascuenses [natives], so we organized occasional musical gatherings by placing speakers in front of our porch. We had just paved the 100-foot walkway from the gate entrance to the front porch. Many Pascuenses came that first Sunday afternoon for our get-together. While they enjoyed the music, especially German marches that they had heard during warship visits during WWII, they were most impressed by the paved walkway. They had never seen such "soft large flat rock", and for them it was a pleasure just to walk on it , to the point of asking if they could come back some other day with their families for a promenade. ...
==========

The book, "Life and Solitude in Easter Island", should be available on Amazon by mid-December (hopefully), and this week we're starting to decide where to place the illustrations.

TIA!

1304. USA 75 & 40m phone bands to be expanded

Newsgroup: rec.radio.amateur.dx
Date: 2006-10-12 05:34:07 UTC
From: Doug Smith W9WI <w9wi@invalid.invalid>
Message-ID: <452DD3C8.7000404@invalid.invalid>
Source record: 2806

http://hraunfoss.fcc.gov/edocs_public/attachmatch/FCC-06-149A1.pdf
http://www.arrl.org/news/stories/2006/10/11/100/?nc=1

Effective sometime in November (probably), the 75 and 40-meter phone bands will be expanded to 3600-4000 and 7125-7300KHz respectively for stations on the U.S. mainland.

(for Extra Class licensees. The expansions will be somewhat less for General and Advanced Class but they will still see expansion. General Class licensees will also get an extra 25KHz of phone spectrum on 15 meters but this will be entirely within the existing Advanced/Extra phone band)

There are (many) other changes to the USA rules but this is probably the one change that will be obvious to DX operators working the USA.

I must not have read that right. Only the first 25 khz of the forty
meter band will be reserved for cw, and that's it? What no-coder thought
this up?

I read it as CW-only for the first 125 KHz, instead of the current
first 150 KHz.

7100-7125 is Novice CW.

7000-7150 is currently CW, so they drop it to 7125, that means you still
have 7000-7125 for CW ... Most DX is
on 7000-7050 anyway, so it wont effect you much will it.

Or are you just looking to harp on no-coders again

My fault totally. Somehow I read 7125 and my aging brain registered
7025. Now that I know that phone won't start at 7025, I'm satisfied. :)

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7, ST. BRANDON. Don Field, G3XTT, FSDXA Publicity Officer, reported on October 10th that the Five Star DXers Association (FSDXA) has announced that their next DXpedition will be St. Brandon (3B7), and it is to take place in September 2007. FSDXA, closely linked to CDXC (Chiltern DX Club), the UK DX Foundation, is noted for their D68C (2001), 9M0C (1998) and 3B9C (2004) operations. FSDXA plans to have up to twelve stations on the

air, many using amplifiers and monoband beams, 24 hours a day, for almost three weeks, including three weekends, around the autumn equinox when DX propagation on all bands is typically at its best. They also plan to exceed 100,000 QSOs during this DXpedition using twelve FT-2000 transceivers along with six Quadra VL-1000 linears provided by Yaesu (principal sponsor). The team will be based on Isle du Sud, approximately 250 miles north-east of Mauritius. They have already received agreement in principle from the radio licensing authorities in Mauritius, and have now to finalize all the details of their permits. The last two expeditions to 3B6/7 were 3B7RF (53,533 QSOs) in 1998 and 3B6RF (64,239 QSOs) in 2001. The multinational team is already close to being complete, with the following having signed up to take part: 9M6DXX (Steve), DK7YY (Falk), DL7AKC (Jens), EI5DI (Paul), G0OPB (Tony), G3BJ (Don), G3IZD (Ivan), G3NHL (Chris), G3NUG (Neville), G3SVL (Chris), G3XTT (Don), G4KIU (Nigel), G4TSH (Justin), K3NA (Eric), N6HC (Arnie), SM5AQD (Hawk), W3WL (Wes) and WF5T (Paul). At this time they are seeking contributions from sponsors to help defray the very significant logistics costs of this DXpedition. There are several ways to donate funds (including PayPal). Visit the FSDXA Web sites for more details at: http://www.3b7c.com
http://www.fsdxa.com
All donations will be acknowledged. The logos of all DX clubs etc.. which have helped to sponsor the DXpedition will be shown on the QSL card, as will the names and callsigns of those who make an individual contribution in advance of the DXpedition (subject, in each case, to a certain minimum amount). OPDX InterNet Subscribers will receive the first complete FSDXA Bulletin as an additional bulletin. G3NUG and G3BJ will be visiting St. Brandon later this month to conduct a detailed site survey. More information will be forthcoming once that survey is complete.

3X, GUINEA. Serge, UA6JR, will be active as 3XM6JR during the CQWW DX SSB Contest (October 28-29th). Operating class is unknown. QSL via UA6JR.

4N, MONTENEGRO. Toby, DD5FZ, plans to be active as 4N6FZ possibly from the YT6A location between October 15-27th. Activity will be SSB and include entries in the WAG and CQWW DX SSB Contests. QSL via DD5FZ, by the bureau.

5B, CYPRUS. Operators Tony/RX9TL, Igor/UA2FZ, Sandy/RW4WR, Oleg/UA9CDV, Jack/RW3QC and Harry/RA3AUU will be active as 5B/AJ2O during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via RA3AUU.

5R8, MADAGASCAR (AF-057). Willi, DJ7RJ, is now active as 5R8RJ until October 31st. Activity will be on all bands 160-10 meters CW and SSB. Emphasis will be on the lower bands. QSL via his home callsign.

7Q, MALAWI. Harry, G0JMU, will once again be active as 7Q7HB between now and mid January. Activity will be on 80/40/20/15/10 meters CW/SSB. He will use a 2 element Quad and a dipole for 20/15/10m and an Inverted "V" for 80/40m. There may be a chance he will also work on 160 and 6 meters. QSL via G0IAS.

A35, TONGA (OC-049). Mark, VK2GND, will be active as A35GN from December 25th to January 3rd. Suggested frequencies are: 7050, 14195 and 14273 kHz. QSL via VK2GND.

AH2, GUAM. Members of the Guam Contest Club will be active as AH2R during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via JH7QXJ. Operators mentioned are: Kuzamasa/JG3RPL, Toshinobu/JI3ERV, Sato/JH7QXJ and Mikawa/JR7OMD. They suggest to "Please listen to 7075-7100 carefuly."

BX3, TAIWAN. Juergen, DJ3KR, will be active as BX3/DJ3KR from October 18th to November 5th. Activity should be on all bands and modes. QSL via his home callsigns.

CN, MOROCCO. Patrick, F6IRF, will be active as CN2WW between November 22-29th. His activity will include the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (20m) entry. QSL via EA7FTR.

DXCC NEWS.....
* Bill Moore, NC1L, ARRL DXCC Branch Manager, reports that the following operation is approved for DXCC credit:
9Q1D (Also, 9Q1TB and 9Q1EK) - Democratic Republic of the Congo
Current operation beginning September 22, 2006

* YU6AO Cards Again Counting For QSOs On Or after July 4, 2006:
Bill Moore, NC1L, ARRL DXCC Branch Manager, announced on October 11th: "Reference our recent comments about YU6AO credits, we have decided to continue crediting any YU6AO QSOs made on or after July 4, 2006. While we are still concerned that for some reason there are apparent date errors on certain YU6AO QSL cards, we will continue to count these credits pending further investigation. If you have received a YU6AO QSL card showing a date of July 4 or later which actually represents a QSO made prior to July 4, 2006, please let us know in an email to dxcc@arrl.org."

E21, THAILAND. Champ, E21EIC, will be active in the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (20m)/Low-Power entry. QSL via E21EIC.

EUROPEAN TOUR. A few different sources are reporting that Dr. Rick, NE8Z, will be touring Europe between October 19th and November 5th. He is expected to operate QRP from 3A, 9H, CT, EA, G, HB9, I, SV1 and TA4. QSL via NE8Z.

HI, DOMINICAN REPUBLIC. Miguel, CT1EHX, will be active as HI/CT1EHX, October 24-31st. Activity will be on SSB and RTTY on 80-10 meters. QSL via CT1EHX, direct or by the bureau.

HR, HONDURAS. Members of the Radio Club of Honduras will be active as HR2RCH during the CQWW DX SSB Contest (October 28-29th) as a Multi-2 entry. The group plans on be active on 160-10 meters with amps. There will be some activity before the contest. QSL via HR2RCH. Operators mentioned are: Antonio/HR2AHC, Pedro/HR2PAC, Jorge/HR2JGG and Dan/HR2DMR.

IOTA NEWS.....
AS-099. Operators Milan/OK3AA and Josef/OK1XV will be active as
TA0/homecall from Lale Island, October 20-25th. Activity will
be mainly CW on the HF bands. QSL via their home callsigns.

EU-176. Operators Anders/SM3XGV, Jorgen/SM3CXS, Staffan/SM3JGG and
Sten/SM3NXS will be working with a VHF/UHF installation on
Grimskar Island between October 20-22nd. During their stay
they will be active as SD3N and SG3U on 80-15 meters CW/SSB.
QSL preferably via the bureau.

OC-244. Eddie/DU1EV and Jin/DU1IST will be active from Romblon Island,
October 17-18th. Both will be on business on the island and
this will be a holiday style operation. Operators will use
their own personal callsigns.

J7, DOMINICA. John, K3TEJ, will be active as J79Z between November 22-29th.
His activities will include the CQWW DX CW Contest (November 25-26th) as
a Single-Op/All-Band entry. Look for him before and after the contest on
the WARC bands and 160m. QSL via K3TEJ.

KH7, HAWAII. Mike, KH6ND, will be active as KH7X during the CQWW DX SSB
Contest (October 28-29th) as a Single-Op/Single-Band (80m) entry. QSL
via K2PF.

KH7, HAWAII. Kimo, KH7U, will be active during the CQWW DX SSB Contest
(October 28-29th) as a Single-Op/Single-Band (15m) entry. QSL via AH6NF.

LR2, ARGENTINA. Operators Hugo/LU1FRZ, Roberto/LU2FA, Jesus/LU5FC, Javier/
LU5FF, Arturo/LU6ETB and Horacio/LW7DX will be active as LR2F during the
CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via
LU2FA.

PACIFIC TOUR (A3, 5W, KH8 and ZL). Willy/ON5AX and his wife Magda/ON3AX
plan to visit a few different locations in the Pacific during the next
several weeks. To start, look for Willy to be active as 5W0AX from Samoa
(OC-097) between October 17-22nd. Activity will be on 40/30/20 meters CW,
SSB and PSK. Their next planned stops will be American Samoa (KH8/ON5AX,
October 24-29th, CQ WW DX SSB Contest included), Tonga (A35AX, November
2-14th) and New Zealand (ZL/ON5AX, from November 16th to December 14th).

PACIFIC TOUR (KH0 and V6). Operators Roman/RZ3AA, Andy/UA3AB and Harry/
RA3AUU will be active from Mariana Islands and Micronesia during the
first part of November. Their schedule is as follows:
November 5-9th - From KH0 as KH0/NP2KY, KH0/KB7YHQ and KH0/K3UY.
November 10-16th - From V6 as V63RZ, V63UA and V63RQ.
Their main target will be the low bands for Europe and North America.
QSL via UA3DX.

PACIFIC VOYAGE (CE0, FO and VP6/D). Larry, N0UU, and his wife Jo Ann are
currently touring the South Pacific with the Lindblad Expeditions between
October 14-27th. Although amateur radio is not his primary reason for
these cruises, Larry plans to operate from several locations. When active,
he will be on 20/17/15 meters SSB. Callsigns will be FO/N0UU (from French

Polynesia), VP6UU and possibly a CE0 callsign if he gets the licence. QSL via his home callsign. He will QSL all contacts through the ARRL Outgoing QSL Bureau. Larry's current schedule is as follows:
October 14th Bora Bora - No operation; planned recovery from flight and relax with XYL, Jo Ann.
October 15th Makatea (OC-066, DIFO FO-051)
October 16th Fakarava Atoll (OC-066, DIFO FO-040)
October 17th Raroia Atoll (OC-066, DIFO FO-075)
October 18th - At sea
October 19th Pukarua Atoll (OC-238, DIFO FO-072)
October 20th Mangareva (OC-063, DIFO FO-108)
October 21st - At sea
October 22nd Pitcairn Island - No operation planned..Sight seeing and plenty of hams on this island.
October 23rd Henderson Island (OC-056)
October 24th Ducie Island (OC-182)
October 25-26th - At sea
October 27th Easter Island (SA-001)
Larry has a Web page at: http://www.tri.net/n0uu
Daily ship reports will be posted at:
http://www.expeditions.com/dersearch/dailyexpeditionreports.asp

PJ2, NETHERLANDS ANTILLES (Update). Operators Marty/W1MD, Scott/W4PA, Helmut/DF7ZS, Steve/N8BJQ, Geoff/W0CG and Cindy will be active as PJ2T from Signal Point, Curacao (SA-006, WLOTA LH-0942), in the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. If they can get enough operators they might go for a M/2 entry. QSL via N9AG.
Operators Mal/NP2L, Jim/W0NB, Jeff/K8ND, Geoff/W0CG and Jim/W8WTS will be active as PJ2T during the CQWW DX CW Contest (November 25-26th) as a Multi-Single entry. QSL via N9AG.

QSL INFO AND NEWS.....
R1FJT via UA4RC, direct 2-IRC or equivalent
RN4HAT via UA0LQJ
RW0SM direct to: P.O.Box 2595, Irkutsk 664074 Russia
YV1RDX via IT9DAA
ZL8R via VE3XN

RK2, KALININGRAD. Members of the UA2 Contest Club will be active as RK2FWA during the CQWW DX SSB Contest (October 28-29th) as a Multi-Multi entry. QSL via DK4VW.

SPECIAL EVENT. Look for special event station SN0JP to be active between October 15-17th. Activity is to celebrate 28th anniversary of Pope John Paul II election. Activity will be on CW/SSB with operations on 80-10 meters. Also look for 6 and 2 meters activity. QSL via SP9PKZ (bureau) or direct.

TG, GUATEMALA. Operators Mario/TG9ADQ, Julio/TG9ATG, Edgar/TG9AXF, Christian/TG9AVU and Sergio/TG9SM will be active as TG0AA from Pacaya Volcano during the CQWW DX SSB Contest (October 28-29th) as a Multi-Op/ All-Band entry. QSL via TG9ANF.

TM5, FRANCE. Operators Jean-Philippe/F5GKW, Bernie/F6HQY, Mark/F6JSZ, Jean/F4CXW, Claude/F8DJV, Emmanuel/F5TEF, Norbert/F4EFG, Jean/F4DJT, Serge/F5HX and Eric/F5NSL will be active as TM5HV during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single/Low-Power entry. QSL via F8KFZ, direct or by the bureau.

V6, MICRONESIA. Shoji, JA7HMZ, will once again visit Pohnpei and be active as V63DX between November 13-18th. Activity will be on all HF bands and all modes (including 160m, WARC and RTTY). He will especially focus on 160m for NA and EU stations. QSL via his home callsign JA7HMZ.

VU, INDIA. After his activities as BX3/DJ3KR, look for Juergen to be active from here between November 22nd to December 16th as VU3JRA. He is expected to enter the CQWW DX CW Contest as Single-Op/Single-Band (80m) entry. QSL via DJ3KR.

VU7, LAKSHEDWEEP ISLANDS. The VU7LD operation that will be active during December will have a stateside QSL Manager. QSLs for this operation will go to W3HNK; direct with return SAE/postage is preferred.

XT2, BURKINA FASO. The Provins ARS (F6KOP) has announced their next DXpedition will be to Ouagadougou, Burkina Faso, between January 6-20th. Operators mentioned are Bob/N6OX, Bill/N2WB, Gerard/F2JD, Alain/ F5LMJ, Frank/F5TVG, Dieter/OE8KDK, Jean Paul/F8BJI, Bernard/F9IE and Frank/F4AJQ (Team leader). Their XT2 callsign will be announced at a later date. Activity will be on all HF bands CW, SSB, RTTY, PSK31, PSK63 and SSTV. There may be some WSJT on 6 meters. QSL via F9IE, direct (Bernard Chereau, PO Box 211, F-85330, Noirmoutier En L'Ile, FRANCE) or by the REF Bureau (at the attention of Bernard/F9IE, Vendee Department). Pascal, F5JSD, is currently designing the Burkina Faso DXpedition Web page. More information will be forthcoming.

XU, CAMBODIA. Champ, E21EIC, will once again be active from here. Look for him to sign XU7ADE during the CQWW DX CW Contest (November 25-26th) as Single-Op/Low-Power entry. He plans to use a TS-50s and dipole antenna. QSL via E21EIC.

XU, CAMBODIA (Update). Last week we reported that Reijo (Retu), OH4MDY, and members of the Finnish radio group called the "Pieksamaen Radioamatoorit ry." (OH4AB) would be active in XU with the callsigns XU7MDY and XU7JGE between October 20th and November 5th. Other team members include Anni/ OH4JGE (XU7JGE), Jack/ON4AJV (XU7AJV) and Wim/XU7TZG. Activity will be on 160-10 meters CW. Suggested frequencies are: 1825, 3507, 7003, 10104, 14007, 21007, 24897 and 28020 kHz. There will be an emphasis on the lower bands. Also, look for XU7MDY to be active in the CQWW DX SSB Contest (October 28-29th) as a Single-Band entry (band not provided). QSL only direct and QSL info is available on QRZ.com.

ZL8, KERMADEC ISLANDS. The DX community was surprised this past week when ZL8R showed up on the air without much of an advance notice of an operation to take place. Word leaked out on Monday, October 9th, that nine operators left Tauranga, New Zealand, on October 7th, on the famous "Bravehart" for a three day voyage to Raoul Island in the Kermadec group. No callsign, QSL

route or other details were reported at that time. The official announcement was released on October 10th stating: "The Microlite Penguins DXpedition team is now active from Raoul Island in the Kermadecs using the callsign ZL8R. Activity will last for about 8 or 9 days, and will cover as many bands and modes as possible. The expedition team is: EI6FR, HB9ASZ, K9ZO, N6MZ, N0TT, VK6DXI, W7EW and 9V1YC. QSL manager is VE3XN. Many thanks to Icom America for sponsoring six IC-7000's for this DXpedition. Thanks also to the New Zealand Department of Conservation (DoC) and the crew of the R/V Braveheart. The DXpedition team would also like to say thanks in advance to all those individuals and clubs who sent in donations with their QSLs. Your generous and continued support of expeditions like this helps keep the magic of DX alive."

ZM2, NEW ZEALAND. Members of the East Coast Contesters will be active as ZM2M during the CQWW DX SSB Contest (October 28-29th) from the East Coast North Island Zone 32 as a Multi-2/All-Band entry. Operators mentioned are: Lee/ZL2AL, Stan/ZL2ST, Mike/ZL2CC, Chris/ZL2DX, Peter/ZL2LF and possibly others. QSL via ZL2AL.

I QSO'd 2B8CF listed as in England last night. QRZ.com did not locate more specifically.

What's up with this unusual call for the UK?

Yes, I thought of that...Mauritius? on 40M? That would be cool.
However, it took a long time to copy this station...over and over I
copied 2B not 3B. And QRZ.com does list the 2B8 call as located in
England...near London on the MacLoggerDX map.

Is it possible to have a 2B8 call in the UK? or is it certain that it
was 3B8 in the Indian Ocean?

Thanks for helping a "newbie" ham

John

Never worked a 2B8, 2E at the most.

> was 3B8 in the Indian Ocean?

Did you compare your QSO date/time with spots on the cluster?

7005.0 3B8CF 18-Oct-2006 0259Z <WB7OJV>
7005.1 3B8CF 18-Oct-2006 0236Z <N4QS>
7005.0 3B8CF 18-Oct-2006 0231Z cq <DK2AI>
7010.5 3B8CF 17-Oct-2006 0220Z <RA3SL>

I'm pretty convinced you worked 3B8CF.

That's not too important to me right now. Could someone explain
clusters to me and where to find them? I have MacLoggerDX if that helps.

http://oh2aq.kolumbus.com/dxs is one of a number of places to look, you can use your regular web browser. It's a gateway to a network where people can report what DX they're hearing on what frequency.

By the way, I concur with the other posters - I'd be pretty sure it was in fact 3B8CF you were hearing. He's really got a fantastic signal, showing up in places & at times where nobody else from that part of the world is around.

October 23, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N2OO, W2YR, KA3QLF, NG3K, W3UR & The Daily DX, KP4JRS, N4AA & QRZ DX, K5TR, AC8G, K8YSE, K9NW, ARSI, NIAR, Pete's-DX-Newsdesk, DH7WW, DJ5AV & The DX News Letter, DK8JB, DL5AUA, E21EIC, F5NQL & UFT, F6FVY, HA0HW, I1JQJ/IK1ADH & 425 DX News, JI6KVR IOTA-JA, ON4IA, RSGB IOTA, RA3AUU, TA3J, VA3RJ & ICPO, VK6HZ, VO1MX/VO2ZZ, YU1AB, YU1EA and ZS5BBO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 15th/October, through Sunday, 22nd/October there were 225 countries active. Countries available: 3A, 3B8, 3C0, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5B, 5H, 5N, 5R, 5U, 5V, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9V, 9Y, A2, A4, A5, A6, A7, AP, BV, BY, C2, C3, C5, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, ER, ES, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, J8, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S2, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T32, T5, T7, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP8/o, VP9, VQ9, VR, VU, XE, XF4, XU, XW, XZ, YA, YB, YI, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZK2, ZL, ZL8, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3C0, ANNOBON ISLAND. Elmo, EA5BYP, is now active as 3C0M from the Island of Annobon (Pagalu) and will remain on the island for 15 days. Elmo will be on air on SSB (80-10m), RTTY (20-15m) and CW (only on 160m). QSL via EA5BYP. Please remember that this DXpedition is very costly for only one

operator, and he is looking for help in funding his operation. Two Web pages are now active for this DXpedition. The Elmo's log will be available after his operation over at:
http://www.tabarca.es.mn
http://personal.telefonica.terra.es/web/ea5yn

4N8, SERBIA. Operator Dule, YU1EA, will be using the contest callsign 4N8A during the CQWW DX SSB Contest as a Single-Op/Single-Band (40m)/ High-Power entry. QSL via the QRZ.com address.

4O3, MONTENEGRO. Operators Toma/YU1AB and Emin/T91S will be active as 4O3AB and 4O3ES, respectively, between October 27th and November 3rd. Activity will be on CW, SSB and PSK. QSL via their home callsigns.

4X0, ISRAEL. For the second year in row, operators Burt/W3GG, Dov/4Z4DX, Meir/4X6KX and Mony/4X6ZK will be active as 4X0G in the CQWW DX CW Contest November 25-26th) as a Multi-Single entry. QSL via W3GG.

6Y1, JAMAICA. Operators David/KY1V and Kari/OH3RB will be active as 6Y1V in the CQWW DX CW Contest(November 25-26th) as a Multi-Single entry. QSL via OH3RB. David states that they are looking for operators. If interested, contact him ASAP at: david.kopacz@ky1v.com
He states, "This is a contesters dream station. Come and have fun with us!"

9H, MALTA (Cancelled!). Jo, DL5AUA, who was to be active as 9H3JC from the Island of Gozo (EU-023), October 23rd to November 2nd, had to cancel his trip due to a sudden death in the family. He hopes to go there next year.

DR1, GERMANY. Look for the German DF0CG Contest Station to participate again in the CQWW DX SSB Contest (October 28-29th) as a Multi/Multi entry. However, this year they will be using their new callsign DR1A. They will also have a multi-national team consisting of: Stavos/5B4AFM, Peter/DB6JG, Jorg/DF6JC, Thomas/DH1NFL, Markus/DJ7EO, Wolfgang/DK1FW, Oliver/DL1EJA, Maik/DL2AA, Axel/DL5SDK, Ben/DL6FBL, Carsten/DL6LAU, Mike/DL8NCR, Thorsten/ DO1ET, Zoli/HA1AG and Jan/PA1TT. They are hoping to do better than in 2005 where they won 5th place in the World, 1st in Europe and 1st in Germany. Visit the DF0CG Web site at: http://www.df0cg.de/en/

E21, THAILAND (Update and More!). Champ, E21EIC, will be active in the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (20m)/ Low-Power entry. JA stations QSL via JR5XPG and all others via E21EIC.
ADDED NOTE: Champ informs OPDX readers to also look for the following Thai stations to be active in the CQWW DX SSB Contest:
E20PFE SOAB LP QSL via E20PFE
E20WXA SOSB 15M QSL via E20WXA
E21YDP SOSB 40M QSL via E21YDP
HS6MYW/1 SOAB LP QSL via HS6MYW
HS8KAY SOSB 20M QSL via HS8KAY
HS0AC M/S QSL via HS0ZFZ (See HS0 below)

EA8, CANARY ISLANDS. Operators Girt/YL2KL, Kaspars/YL1ZF, Arvis/YL2LY, Oleg/YL3DW and Gunars/YL2GD will be active as EA8EW during the CQWW DX CW Contest (November 25-26th) as a Multi-2 entry. QSL via YL2KL.

FM, MARTINIQUE. Mike, K9NW, will be active as FM/K9NW in the CQWW DX Phone Contest (October 28-29th) as a Single-Op/All-Band entry. He will be active on the island between October 25-30th. QSL via K9NW.

FY, FRENCH GUIANA. Operators Marc/F1HAR, Herve/F5HRY, Olivier/F5MZN, Gerard/F6FGZ, Laurent/F6FVY and Didier/FY5FY will be active as FY5KE (Zone 9) in the CQWW DX SSB Contest as a Multi-Single entry. QSL via the bureau or direct.

HI9, DOMINICAN REPUBLIC. Operators Udo/DL2AQI, Ingolf/DL4JS, Sigi/DL8AKI and Rich/DK8YY will be active as homecall/HI9 from October 21st to November 3rd. Activity will be on SSB, CW and Digital modes. They will also be active in the CQWW DX SSB Contest (October 28-29th) as HI9L. QSL Manager for all these callsign go to DH7WW via the bureau or direct to: Ulrich Moeckel, Muldenstrasse 1, 08304 Schoenheide, Germany. He does not accept IRCs with expiry-date, 31st December 2006, as return postage!

HR, HONDURAS (Update). A team of Russian speaking hams from New York will be going here between October 22-30th. Operators mentioned are: Andrei/EW1AR/NP3D (team leader), Boris/UU5SY/N3SY, Alex/K2PAL (ex-UB5XAZ) and Joel/KB2PDW. The group will activate Tigre Island (NA-060) together with Javier/HR2J and other HR operators from October 22-25th. The callsign will be HQ4D. Andrei, EW1AR/NP3D, reports that for those who make the most QSOs, there will be special prizes like T-Shirts from Tigre Island that will be sent out. QSL via W3HNK. Activity will be on 80-6 meters, RTTY, CW and SSB. During the CQ WW DX SSB Contest they will be active and on as Single-Band entries.

HS0, THAILAND. Operators John/W2YR/HS0ZDJ, Winit/HS0CKC, Charly/K4VUD/HS0ZCW and Bob/KL7ENY/HS0ZCG will be active as HS0AC during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via HS0ZFZ. John, W2YR, informs OPDX that due to restricted band allocations in Thailand, the 160 meter operations will be about 1.824 MHz and on 80 meters they will transmit about 3.539 MHz and listen up the band for contacts.

IOTA NEWS.....
AF-018. Operator Raffaele, IH9YMC, will be active from Pantelleria Island (Zone 33) during the CQWW DX SSB Contest (October 28-29th) as a Single-Band entry (possibly 15 or 10 meters). QSL via direct.

AF-019. Operator Giuseppe, IV3ORM, will be active as IG9B from Lampedusa Island during the CQWW DX SSB Contest (October 28-29th) as a Single-Band entry (80m). QSL via operator's instructions.

AS-099. CORRECTION. Last week we mentioned that operators Milan/OK3AA and Josef/OK1XV would be active as TA0/homecall from Lale Island, October 20-25th. It was pointed out to us by Berkin, TA3J, that Lale Island is NOT an IOTA. He sends the following:

From: http://www.rsgbiota.org/members/searchref.php4?getref=as099
"(Note: not Alibey [*], Gokceada) [* - In the Directory 2000
revision the following island/s were found not to qualify for
the IOTA group shown. The Committee has decided to withdraw
credits from members' records on 1 February 2005 for all contacts
made with these islands. With regard to QSLs not yet submitted,
the position is as follows: Credit will continue to be allowed
up to 1 February 2005 for operations from the following islands
that took place before 1 February 2001. ALIBEY ISLAND)" AND
LALE ISLAND is connected to the Ayvalik mainland by road. It
is not considered as an island like ALIBEY ISLAND.

AS-117. Operator JN4MBO was expected to be active as JN4MBO/4 from
Kosagi Island (AS-117-020), JA4 Hiroshima Prefecture, October
19th. Activity was to be on the HF bands. QSL via his home
callsign, direct or by the bureau.

J3, GRENADA. Harry, AC8G, informs OPDX that Grenada will have lots of
activity from October 25-31st. The contest station J3A (QSL via WA1S)
will be active as a Multi-Multi entry in the CQWW DX SSB Contest (Ootober
28-29th). Team members Diane/K2DO, George/N2GA, Tim/KU4J and Ulf/DL5AXX
will use J3/homecall with Ann/WA1S and Harry/AC8G using J38AA and J37K,
respectively, outside the contest. Bill, VE3EBN, will provide logistic
support and will use J37LR outside the contest and be a separate Single-Op
entry in the contest using J37T. Unless advised differently, QSL to their
home callsigns. Outside of the contest, expect various other modes and
operations on the WARC bands. The team has arranged for antenna and power
improvements including assistance by Cushcraft in replacing of the 40
meter beam destroyed in the hurricane IVAN.

J48/SV8, GREECE (Contest/IOTA Op). A group of Hungarian operators will
once again be active from Astris, Thassos Island (EU-174), Greece, between
October 26th and November 8th. They plan to participate and be active as
J48RT in the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry.
QSL via HA6NL. The group will also be active in the 33rd HA QRP Contest
(see http://www.radiovilag.hu/haqrp2.htm) using the same callsign, but
on 80 meters CW with only 7 watts output. Outside of the contests, the
operators will use their home callsign on all bands, mainly on CW and SSB
during the two week period. Operators and callsigns are as follows:
Gyuszi/HA2VR - SV8/HA2VR Al/HA7JJS - SV8/HA7JJS and J48JJ
Laci/HA6NL - SV8/HA6NL and J48NL Laci/HA7PL - SV8/HA7PL and J48PL
ZSolt/HA6PS - SV8/HA6PS and J48PS
QSL via operators home callsigns, by the bureau or via QRZ.COM addresses.

JERSEY SHORE DXPO! The Jersey Shore DXPO will take place November 11th
in Manahawkin, NJ. Full details can be found at: http://www.sjdxa.org
They announced this week that YAESU is co-sponsoring the Jersey Shore
DXPO by donating a new FT897D for the grand prize! Also, Yaesu's Dennis
Motschenbacher, K7BV, will be in attendance and will have an FT-2000 on
display! There will also be a nice assortment of presentations lined up
for the event. TICKETS ARE STILL AVAILABLE!!!!!!!!

KH2, GUAM (Change). Look for Matsuda, JM3PIT, to be active December 20-22nd (not 22-26th). His callsign and bands of activity were still not provided. QSL via JM3PIT.

OA7, PERU. Arno, DL1CW, will be active as OA7/DL1CW from October 20-30th. He will travel throughout Peru and will operate four days from Puerto Maldonado, three days from Cuzco, and one day from Lake Titicaca. His activity will be on 80-10 meters CW using only 100 watts and a dipole. QSL via DL1CW, by the DARC Bureau only.

PACIFIC TOUR (Correction). Harry, RA3AUU, informs OPDX and its readers that he is sorry for providing the wrong dates for the team's operation. The schedule on the islands was reversed. V6 will be the first stop and KH0 will be the second one. So, look for operators Roman/RZ3AA, Andy/UA3AB and Harry/RA3AUU to be active from Mariana Islands and Micronesia during the first part of November. Their schedule is as follows:
November 5-9th - From V6 as V63RZ, V63UA and V63RQ.
November 10-16th - From KH0 as KH0/NP2KY, KH0/KB7YHQ and KH0/K3UY.
Their main target will be the low bands for Europe and North America. QSL via UA3DX.

PJ2, NETHERLANDS ANTILLES. Operator Jeff, K8ND, will be active as PJ2T from Signal Point, Curacao (SA-006, WLOTA LH-0942), in the ARRL 160 Meter Contest (December 1-3rd) as Single-Op/High-Power entry. Also, look for Jeff/K8ND and Jim/W8WTS to be active as PJ2T during the CQ 160-Meter CW Contest (January 27-28th) as a Multi-Op entry. QSL both operations via N9AG.

QSL INFO AND NEWS.....
HA506OI via HA6OI
PE2SWL no QSL
TF60IRA via TF3IRA

Scott, KA3QLF, informs OPDX that the QSLs for FP/WV2B are in, and that the direct requests received will be in the mail early next week. He states that he may contacted by E-mail if anyone has any questions. His E-mail is: petty@teisprint.net

XW1A QSL requests must be sent to E21EIC only. Don't send QSL requests to Laos.

SPECIAL EVENT. Members of the "Radio Officers Association" (ROASS) will air the special event callsign GB500KCS for three days starting November 2nd. Activity is to celebrate the centenary of the Berlin International Wireless Telegraphy Convention. The convention established 500 kHz as the maritime calling and distress frequency and SOS as the distress signal. The association is also using the special event to launch its campaign for 500 kHz to be recognised internationally as a heritage frequency. For more details about ROASS and the special event station, please visit the ROASS Web page at: http://www.anything-it.biz/roass/default.htm
ADDED NOTE: The Italians will also air a special event station on November 2-4th. Look for IY1SP/500KCS to be active.

VK6, AUSTRALIA. A team from the Northern Corridor Radio Group will be active as VK6ANC from the club rooms just north of Perth (Zone 29) during the CQWW DX SSB Contest (October 28-29th) as a Multi-2 entry. Activity will be on 80-10 meters. Operators mentioned are: John/VK6NU, Andrew/VK6ARA, Steve/VK6DXA, John/VK6HZ and possibly others.

VK9C, COCOS-KEELING ISLANDS. Just a reminder that Bernd, VK2IA, will be active as VK9AA from here this week (October 27-30th) and again between November 20-27th. Look for him to team up with David, VK2CZ and possibly others during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via DL8YR.

VO2, CANADA (Zone 2). Ken, VO2MK, will be active from the southeast coast of Labrador in Zone 2 during the upcoming CQWW DX SSB Contest (October 28-29th). He will be operating from the Point Amour Lighthouse (CAN-665) during his stay. This will be a portable operation with antennas consisting of wires for 80-20 meters. He will also try 6 meters mobile if the band conditions exist during his stay in Labrador. QSL via his home callsign VO1KVT.

VP9,BERMUDA. Kurt, W6PH, will be active as VP9/W6PH again for the 2007 ARRL DX CW Contest (February 17-18th) and ARRL DX Phone Contest (March 3-4th). Operating class was not provided. QSL direct to his home callsign W6PH.

VU7, LAKSHADWEEP ISLANDS (Update and News).....
* Members of the Amateur Radio Society of India (ARSI) have announced that the VU7LD DXpedition team will be active during the entire month of December. Members of ARSI will be active from Kavaratti Island during this period. An all Indian operator team will be operational on all bands, including the low and WARC bands, and on all modes - SSB, CW and Digital. This will give the amateur radio operators around the world their first chance to work this rare entity after so many years. They also plan to have 8 stations on the air at the start of their operation. However, the ARSI is looking for support and funds. A Web site is now available online with details on how to show your support, up-to-date press releases, list of operators and online logs (when available), at: http://www.arsi.info/vu7/index.html
Remember to QSL this operation via W3HNK.

* The National Institute of Amateur Radio (NIAR) plans to organize an International Hamfest with approximately 50 multi-national and Indian operators to activate VU7RG from the Laksheedweep Islands group. The activity will take place between December 1-10th from at least three different islands. Islands mentioned are: Agatti, Bangaram and Kadmat. There will be three reliable QSL Managers from each ITU Region:
Region 1 - The German DX Foundation (GDXF)
Region 2 - Bob Schenck, N2OO
Region 3 - The I-House Radio Club
The NIAR is also look for support. More details about this operation, hamfest, announced operators and how to support/donate to this operation are available on the VU7RG NIAR Web page at: http://www.vu7.in/

WP4, PUERTO RICO. Members of the "Trujillo Alto Contest Club WP4WW", will operate as WP4BH during this CQWW DX SSB Contest (October 28-29th) as a Multi-Multi entry. Operators mentioned are: Tomas/WP4BH, Nestor/WP4BL and Jose/KP4JRS. QSL via WP4BH direct, by the Bureau and LoTW.

XF4, REVILLAGIGEDO. The German-Mexican Team are now active as XF4DL from Socorro Island until November 3rd. Activity and their arrival was delayed for about 24 hours this past week due to tropical storms. QSL via N6AWD for North-America, and DL9NDS for the rest of the world. Visit their Web page at: http://www.xf4dl.xedx.org/
ADDED NOTE BEFORE GOING TO PRINT: Word has it that Tropical Storm PAUL may come very close to the island in the next 24 hours. Visit NOAA Web page at:
http://www.nhc.noaa.gov/refresh/graphics_ep2+shtml/110226.shtml?tswind120

XU, CAMBODIA. Champ, E21EIC, informs OPDX that a Thai group will be in XU for DXpedition and CQ WW CW Contest. They are waiting for XU7xxx callsigns. Details are forthcoming.

YE0, INDONESIA. Operators Wisnu/YB0AZ, Suryadi/YB0JS, Dudy/YB0DPO, Pri/YB0ECT, Adyatma/YB0GOF, Karsono/YB0NDT and Yadi/YB0YAD from Jakarta will be active as YE0X during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via YB0ZZ.

YT6, MONTENEGRO. Luc, ON4IA, informs OPDX that he will be at YT6A's contest location in Montenegro again from October 23-31st. He will enter the CQWW DX SSB Contest (October 28-29th), probably as a Single-Op/Single-Band entry. He informs OPDX that he is not sure which band yet but he hopes to be active on 80 and/or 160 meters before and after the contest. He also mentions that YT6A has finished installing his 2 element yagi for 80 meters, so Luc will be looking forward to his stay.

ZL8, KERMADEC ISLANDS. A ZL8R press release was sent out on October 20th. OPDX InterNet Subscribers will receive the complete press release as an additional bulletin. In short, the press release states that the Microlite Penguins Dxpedition to Raoul Island in the Kermadecs went QRT at 2200 UTC on October 17th with over 40,000 QSOs in the log. Operators were EI6FR, HB9ASZ, K9ZO, N0TT, N6MZ, VK6DXI, W7EW and 9V1YC. Total on-air operating time was just over 7 days. Landing on Raoul Island involves a rather dangerous jump from a zodiac onto a rock face, but thankfully the seas were cooperative and none of the team slipped or was injured in the process. Transceivers consisted of six, brand new Icom IC-7000's kindly sponsored by Icom America, and antennas were all simple wire dipoles strung up in the surrounding pine trees. Given the weak worldwide propagation at this point in the solar cycle, they still made every effort to work as many European stations as possible. The final ZL8R QSO statistics are: North America 39%, South America 1%, Europe 26%, Asia 30%, Africa 1% and Oceania 3%. Most of the QSOs were on 40m (15%), 30m (13%), 20m (22%), 17m (13%) and 15m (20%). PLEASE NOTE! Almost all of the expenses for this trip were paid by the team members themselves. But given the extraordinary expense it takes to charter a ship to a remote island in the Pacific for two weeks, they hope that each and every DXer will help contribute to this endeavor, either by donations with your QSL cards to their QSL Manager VE3XN, or

by joining the NCDXF - the Northern California DX Foundation.

ZS9, SOUTH AFRICA. Members of the Bloemfontein Defence Amateur Radio Club
will use the callsign ZS9X during the CQWW DX SSB Contest (October 28-29th)
as a Multi-Operator entry. Operators will be John/ZS4S, Barney/ZS4U,
Bernie/ZS4TX, Jan/ZS4JAN, Edwin/ZS5BBO and Dennis/ZS4BS, members of the
full-time and Reserve Force of the SANDF. The ZS9X station is situated
approximately 20 km west of Bloemfontein on a hill overlooking a military
training area. The station has an impressive antenna system comprising
of three Log Periodic antennas covering 3 - 30 MHz fixed in northwest,
a north and a northeast directions to be used mainly on 80-40 meters.
Each Log Periodic has 30 elements and occupies about an acre of ground.
They will use a rotatable Optibeam OB17/4, at a height of 20m (approx
60 ft), covering 40-10 meters; one 5 element 10 meter monobander up at
a height of 30m (approx 100 ft) fixed north; and one 5 element 15 meter
monobander up at a height of 20m (approx 60 ft) fixed north. In addition,
there will be one HF Discone antenna mounted on a 40m mast covering
1.5 - 30 MHz, which will be used mainly on 160 meters and two shunt
loaded towers for use on 80 and 160 meters. The equipment is a mixture
of Yaesu and Icom transceivers with valve type amplifiers. QSL information
is available on QRZ.com. Pictures, a web site and more information will
be added as the station progresses.

Worked 'em every where you wanted to yet? Are they hearing Europeans
and Asians as well as they're hearing us in the USA?

(judging from the number of JA calls I hear them working, I don't
think anyone in Asia has any complaints coming!)

I didn't even know about them. <sigh> I've been inactive
the last 3 years; just started playing on HF again. Are
they working PSK31 or RTTY on the expedition? (I dragged
the 706 out but haven't found the microphone, and I think
my paddles are still in the garage.)

Don't know how they are doing,but in my area they are hardly audible on any
of the HF bands, do not do 40m or 80m or 160m.
Mainly interested in RTTY tried 17m for two days but the conditions appear
to favour the Southern countries so had no luck. Will keep trying, glad I
got the XF4 the last time on a couple of bands on SSB.

73 de Charlie GM4UZY.

I worked them on PSK31 on 30 meters yesterday morning. DX Summit said
they were on 17 RTTY at the time too, but I couldn't find them there.

If you can find the microphone, you can use the up/down buttons as a
paddle<grin>...

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, K3LP, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5TR, K5UN, AH8LG, K8YSE, K0NR, Pete's-DX-Newsdesk, 4X1VF, 4X6KJ, DJ5AV & The DX News Letter, DL6KAC, DK8JB, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, IZ8EDJ, RSGB IOTA, TF3AO, VA3RJ & ICPO, VE2TKH, XE1YJS and YT1AD for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX SSB Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX SSB Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 20th/October, through Friday, 27th/Oct there were 224 countries active. Countries available: 3A, 3B8, 3C0, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5V, 5W, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A6, A7, A9, AP, BV, BY, C3, C5, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, H4, HA, HB, HB0, HC, HH, HI, HK, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J6, JA, JT, JW, JY, K, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S2, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP6, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XF4, XU, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3V, TUNISIA. Hrane, YT1AD, informs OPDX that he will be joining a team of operators from 3V8BB and will be active in the CQWW DX SSB Contest (October 28-29th) as 3V6T as a Multi-2 or Multi-Single entry. QSL via YT1AD.

4Z0, ISRAEL (Special Event). Just a reminder that the Holyland DX Group will operate as 4Z0J from the "Jesus Boat" located near the Sea of Galilee in Yigal Alon's Center on November 3-4th starting at 0700z and ending on Saturday at 1500z. Operators will be Shalom/4Z4BS, Mark/4Z4KX, Ilya/4Z1UF, Ros/4Z5LA, Ruben/4Z5FI, Yuli/4X6HP and Jan/4X1VF. Activity will be CW/SSB on all bands 80-10 meters. The square for the Holyland Award is M05KT. The group also plans to operate mobile from several squares around the main location for the HOLYLAND AWARD program. QSL Manager is Shalom, 4Z4BS. For more info on the "Jesus Boat", visit the Web page at: http://www.jesusboat.com/imgs/site/site/boat.html

5H, TANZANIA (IOTA Op). Giovanni (John), I5JHW, will be active as 5H1HW on Zanzibar Island (AF-032) between November 7-22th. Activity will be on SSB and RTTY, using an IC-7000 with a SGC 500 and verticals. QSL via I5JHW, direct or by the bureau.

5H, TANZANIA (IOTA Op). Sam, F6AML (TX6A), a member of "F6KOP TEAM" will be active from Zanzibar Island (AF-032) between January 18-29th. Activity will be on 80-10 meters CW/SSB with 400 watts and verticals. The callsign will be known later. Sam will pay special attention for west coast NA and JA (Asia) stations. QSL is OK via the bureau or direct with SAE + 1 IRC or with 1 USD for Europe or 2 USDs for the rest of the world.

5Z, KENYA. Alex, 5Z4DZ (PA3DZN), will be active as 5Z1A during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (20m)/High-Power entry. QSl via PA1AW.

7W, ALGERIA. Ondrej, OK1CDJ, will be active as 7W2W from 7X0RY's QTH during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band entry. QSL via his home callsign.

C3, ANDORRA. Mike, C33IU (K9MW), announced that he will be active on November 4-5th. Suggested frequencies are: 2m for the IARU Contest, 3050-3060 and 7000-7035 kHz. On the November 19th, look for between 1300-1500z on 80/40/17/15 meters. QSL via G0OYH. Visit his Web page at: http://www.c33iu.eu

CN3, MOROCCO. Operators Matteo/IK2SGC, Stefano/IK2QEI, Roberto/I2WIJ, Luca/IZ2FFK, Cortesi/IZ4DPV and Salvatore/IK8UND will be active as CN3A during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via I2WIJ.

CE0Y, EASTER ISLAND. Larry, N0UU, who is on a Pacific voyage (see OPDX.780), will be active as CE0Y/N0UU in the CQWW DX SSB Contest (October 28-29th) during the first night only. QSL via N0UU.

EA8, CANARY ISLANDS. Operators Manuel/EA8ZS, Juan/EA8CAC, Pekka/OH1RY (EA8AH), Ville/OH2MM (EA8EA) and Jorma/OH2KI will be active as EA8AH during the CQWW DX SSB Contest (October 28-29th) as Multi-2 entry. QSL

via OH1RY.

EF8, CANARY ISLANDS. Edu, EA8AUW, will be active from URE Las Palmas Section as EF8A during the ARRL 10 Meters Contest (December 9-10th) as a Single-Op/High-Power entry. QSL via EA8AUW.

EY7, TAJIKISTAN. Eduard, EY7AF, will be active in the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (40m) entry. QSL via the address on QRZ.com.

FT5X, KERGUELEN ISLANDS. Gildas (Gil), TU5KG, has been active as FT5XP/mm in the Austral Sea (in Southern Indian Ocean) on a fishing boat near/around the Kerguelen Islands. He is expected to be active from Port aux Francais, Kerguelen Islands, as FT5XP during the CQWW DX SSB Contest weekend. No accurate dates or times were specified. He will also be on Kerguelen the weekend of November 25-26th (for fuel refill). QSL via F4EFI.

GJ, JERSEY. Rich, K2WR, will be active as GJ2A during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/High-Power entry. QSL via K2WR (also direct for non-USA to GJ3DVC). Rich should be on the air before the contest starting November 21st.

HB0, LIECHTENSTEIN. Christian, DL6KAC, and some other German operators will be active as HB0/HB9AON during the CQWW DX SSB Contest (October 28-29th) as a Multi-Multi entry. They will have 5 stations on the air. QSL BB0/HB9AON via DJ2YE, direct or by the bureau. Pictures from past operations can be found here: http://www.rn-soft.de/hb0_jump.htm ADDED NOTE: If you were lucky to work Christian before the contest as HB0/DL6KAC, QSLs go via DL6KAC direct or by the bureau. If you send a direct card, make sure you use the new IRCs which are valid until 2009.

HI, DOMINICAN REPUBLIC. Members of the Lomadeltoro Contest Team will be active as HI3CCP in the CQ WW DX SSB Contest (October 28-29th). QSL via ON4IQ. Visit the Lomadeltoro Contest Team's Web page at: http://www.lomadeltoro.com

HK0, SAN ANDRES AND PROVIDENCIA. Look for Gerd, DL7VOG, to be active as HK0GU from Providencia Island (IOTA NA-049), November 15th through December 1st. Activity will be on 160-10 meters CW, RTTY and SSB, using an IC-706 MKIIG and vertical Butternut HF9V. For 160 meters, he will set up a vertical (fishing rod style). QSL via the bureau or direct to: Gerd Uhlig, P. O. Box 700332, D-10323 Berlin, Germany.

JT1, MONGOLIA. Harry, WX8C, will be active as JT1/WX8C during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/All-Band entry. QSL via WX8C.

KH6, HAWAII. Kurt, W6PH, will be active from "Sea Q Maui" as KH6/W6PH during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/Lower-Power entry. QSL direct only via W6PH.

KH8S, SWAINS ISLAND (Update). An international team of twelve experienced operators lead by Hrane Milosevic, YT1AD, and co-lead by David Collingham, K3LP, will activate Swains Island, April 3-16th, 2007, using the callsign N8S (November Eight Sugar). Hrane and David have been in direct contact with Larry Gandy, AH8LG, to gain a clear understanding of the island's requirements for permission to operate. The Swains Island permission to operate was confirmed via E-mail from Larry Gandy on October 23rd. Their team has reached an agreement that meets the specified Swain Island requirements. The N8S DXpedition team includes: Hrane/YT1AD, David/K3LP, Krassimir/K1LZ, Kamal/N3KS, Doug/N6TQS, Eugene/RK3AD, Harry/RA3AUU, Vangelis/SV2BFN, Andrew/UA3AB, Roman/RZ3AA, Stevan/YZ7AA and Vel/YZ1BX. The team will depart to Swains Island on the morning of Monday, April 2, 2007. The boat ride from American Samoa will take approximately 24 hours with the team arriving and setting up camps on Tuesday, April 3, 2007. The operation will begin late Tuesday, April 3, 2007, and will end late Monday, April 16, 2007, providing 14 days of active operation. There will be a CW Camp, SSB Camp and Digital/6 Meter Camp each supplied with three ICOM radios, ACOM amplifiers and required antennas. The team will depart Swains Island around noon on Tuesday, April 17, 2007, and arrive back in American Samoa on the morning of Wednesday, April 18, 2007. The QSL Manager and Web site information will be provided at a later date. At this time there is no plan for daily on-line logging. The logs will be posted on-line after April 27, 2007.

PACIFIC TRIP. Hrane, YT1AD, informs OPDX that he will be making a couple of stops in the Pacific during the first part of the new year. Look for him to be active as KH8/N9YU from American Samoa between January 24-29th. Also, look for him to be active as 3D2AD from Fiji between January 30th and February 3rd. QSL via YT1AD.

PJ4, NETHERLANDS ANTILLES. Bob, K0NR, will be active as PJ4/K0NR from Bonaire (IOTA SA-006) from October 28th to November 9th. Activity will be on SSB and PSK31 on 30-6 meters. Also, he will be active on FM OSCAR satellites (Grid FK52). QSL to his home callsign.

VY0ICE QSLS. Steve, VE2TKH, reports that he had a safe trip back in VE2 land on October 11th from Iqaluit, Nunavut and Baffin Island (NA-047) after 5 weeks there and a final total of 6877 QSOs in VY0ICE log. The QSL cards are coming each day into VE2AWR's (QSL Manager) mailbox. Serge has replied to more than 500 cards so far, so he still has 1500 cards at home to send to DXer's requests (nice card from UX5UO that you can see under VY0ICE on QRZ.com). QSL card is also available via the VE2 bureau. Steve states, "I had a great time on radio from this part of the World and CQ Zone 2. Also, I want to thank DXers for their collaboration. Very best regards es 73 from Quebec, Canada.....
Steve Toupin, VE2TKH"

RK2, KALININGRAD (Change). Members of the UA2 Contest Club will be active as RK2FWA during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via DK4VW.

SRT IN THE CQWW CONTEST. Look for some members of the Strange Radio Team (S.R.T.) to be active during the CQWW DX SSB Contest (October 28-29th). Members mentioned are:
CN3A - QSL via I2WIJ IO3Z - QSL via IV3ZXQ IR8Z - QSL via IZ8EZP
EF8A - QSL via EA8AUW IR8C - QSL via IZ8EDJ
II3G - QSL via IV3RJT IR8E - QSL via IK8PLE
Look for photos and info: http://www.strangeradioteam.com

T70, SAN MARINO. Members of the Amateur Radio Republic of San Mario (ARRSM) will be active as T70A during the CQWW DX SSB Contest (October 28-29th) as a Multi-Single entry. QSL via the address on QRZ.com.

TA2/YM2, TURKEY. Pavel, OK1MU, will be active as TA2ZAF (or possibly YM2W) during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (10m) entry. He states that he will use a 4 element Yagi and 500 watts. QSL via OK1TN, by the Bureau or direct.

TF60, ICELAND. Icelandic Radio Amateurs will continue to celebrate 60 years of the club and will use the callsign TF60IRA in the CQWW DX SSB Contest. Operation will be in the Multi/Single/High-Power category. This will be the 1st contest that they will use their new 3 element SteppIR antenna.

TO5, MARTINIQUE. Lee, K5UN, will be active as TO5X from November 21-30th. He will operate in the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band entry. QSL to K5UN.

VK8, AUSTRALIA. Stuie, VK8NSB, will be active during both CQWW DX SSB Contest (October 28-29th) and CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band entry. QSL both activities via VK6NE.

VK9C, COCOS-KEELING. Remember to look for Charlie/W0YG and Barry/N0KV to be activee as VK9CGG between October 30th and November 20th. QSL via W0YG (direct only).

XW, LASOS. Champ, E21EIC, will be active from Vientiane as XW1A in the CQWW DX SSB Contest (October 28-29th) as Single-Op/Low-Power entry. QSL via E21EIC.

XX9, MACAO. Ramon, XE1KK, informs OPDX that he will be joining a multi-national team (BY, VR2 and XX9) of operators to be active as XX9C (from Zone 24) during the CQWW SSB DX Contest (October 28-29th) as a Multi-Multi entry. QSL via the address on QRZ.com. Before the contest Ramon expects to be on the air as XX9TKK from Taipa Island (IOTA AS-075) as time permits. QSL for XX9TKK via XE1KK.

Z35, MACEDONIA. Ozren, Z32XA, will be active as Z35T during the CQWW DX SSB Contest (October 28-29th) as a Single-Op/Single-Band (20m) entry. QSL via Z32XA.

ZC4, UK SOV. BASE AREAS ON CYPRUS. Andy, G3AB, will be active as ZC4VJ during the CQWW DX SSB Contest (October 28-29th) as a Single-Op (possibly as Single-Band 20m) entry. QSL ZC4VJ via the QRZ.com address.

The following stations are expected to be active in the
CQ World Wide DX SSB Contest (October 28-29th, 2006)

Thanks to Bill, NG3K, for providing OPDX readers the following consolidated listing of the participants in the 2006 CQWW SSB Contest. For a more detailed listing in HTML format, please visit the Web page at:
http://www.ng3k.com/Misc/cqs2006.html (in alphabetical order by callsign)
http://www.ng3k.com/Misc/cqsd2006.html (in order by CQWW entity)
http://www.ng3k.com/Misc/cqsz2006.html (in order by CQ Zone)

Well I got them on 20 SSB and 20 CW. The OM got them on 15, 17, and 40 SSB.

He probably did, but he also probably copied the call correctly.
I have worked many guys whom I have copied as 2 or 3 different calls.
Sometimes a fellow gets in a hurry, even with a machine-it got recorded
wrong and they keep sending it.

Especially if they are using a bug...they run the letters together a
lot it seems.

(Oh, oh, I am in trouble now)

Bottom line, if you send a mistake, fix it.

I found the mike, and caught one of the ops on 21295 simplex;
that's number 191 worked for me. It was my first phone ops
in 3 years, and I think a general dislike for SSB pileups
is part of why I went inactive for a while. I've been in
some RTTY pileups and even a few PSK pileups, but for some
reason the digital pileups seem much less frantic, and much
easier on my system.

Not so many "cops" yelling "HE's working UP, you LID!" for
one thing. :-) I've really enjoyed PSK; hope more
expeditions to exotic places will be including it when
they plan their modes/bands.

That's why I prefer working DX on CW.

Congrats!

BTW I wasn't being facetous when I said you could use the up/down buttons as a paddle... At least on the MKIIG there's a menu option that allows that. I've made dozens (probably about 200) CW contacts on mine that way. It does take some practice.

It was my first phone ops

Don't worry, the lids will get there eventually<G> (or <f>, as in frown...)

I was having REAL FUN with the CLOWNtesters this weekend all
on HF. Set the rig's tx output to about 10 watts and loaded up
into the 75m carolina windom with DX callsigns and the occasional
rare ITU section. Give em a call and these DX CLOWNTESTERS
would fall all over each other thinkin they just worked a needed
section an they now will be pinchin a loaf waiting for a card to
arrive in the mail to hang on their wall and impress their fatassed ham
club blokes! Baaaaaaaaaaaaaaaa hahahahahahhahaha!!! what a bunch of fools.

1341. 3C0M on 40

Newsgroup: rec.radio.amateur.dx
Date: 2006-10-31 02:50:13 UTC
From: David Thompson <thompson@mindspring.com>
Message-ID: <FRy1h.71$0r.53@newsread1.news.pas.earthlink.net>
Source record: 2843

After working Europe up 5 for almost 3 hours 3C0M started litening up for North America/USA. Europeans kept calling on his frequency and some sent CW that caused QRM for USA stations trying to work him.

3C0M is only strong from 2200Z to say 0600Z in most Of Eastern USA whereas Europe get him from say 1830Z to after 0600Z.

He was run off 40 SSB today (Oct 30) with hundreds of USA still waiting. At least NT5C did get to work him.

Please have patience when we finally get a chance to work stations such as 3C0M.

73 Dave K4JRB

1342. Looking for good AM DX chat

Newsgroup: rec.radio.amateur.dx
Date: 2006-10-31 21:51:35 UTC

Hi, I'm new to the group. Last year I bought a Superadio III and from my little house in RI, I started receiving a lot of stations. Since now sunset is early because of daylight savings ending, I'd like to get back into it. Are a lot of people here into the AM band or is there anywhere else where I can read up on it. I always like learning when it comes to the AM band and antennas. I currently use a Terk AM Advantage and it helps quite a bit but the more stations I pick up, the better.

Don't know if anybody's reading this "realtime" but
the XF4DL guys are on 18100, RTTY, listening 2-8 up
at 1650Z 01 Nov 2006.

I'm no expert but these guys seem to run a VERY nice
expedition. I haven't worked RTTY since I hooked
the radio back up; wish I could recall what RTTY
software I was using 3 years ago when I went inactive.
I used MMTTY 1.65 just now--had to set it up on the
fly, AND remember how to set the 706 for split ops--
definitely NOT a slick operation on my part but the
XF4DL op was tolerant about my fumbling. :-)

What RTTY software do you like, folks? (MMTTY is
nice enough but whatever I was using 3 years ago seemed
to have a few more amenities.)

Unless you do CW and live in a European city without a huge antenna for
160/80m.

So far they have totally ignored every mornig and afternoon opening to
central EU on 15,17 and 20m CW and their morning appearance is infrequent at
best.

Frustrating.

Ohio/Penn DX Bulletin No. 783

The Ohio/Penn DX PacketCluster
DX Bulletin No. 783
BID: $OPDX.783
November 6, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1KI, NC1L, N2OO, NG3K, W3UR & The Daily DX, AA4NN, N4AA & QRZ DX, K8YSE, W0RAA, Sharon Taratula, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DJ6OV, DK7PE, DK8JB, DL5YWM, EA7FTR, F5NQL & UFT, F6AJA & Les Nouvelles DX, I1JQJ/IK1ADH & 425 DX News, IZ8CCW, RSGB IOTA, SV1HER, TA3J, VA3RJ & ICPO, and ZS2DL for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 29th/October, through Sunday, 5th/November there were 231 countries active. Countries available: 3A, 3B8, 3C0, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1U, 4X, 5B, 5H, 5N, 5R, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE0Y, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FT5X, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J6, J7, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, VE, VK, VK9C, VK9N, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XF4, XT, XU, XW, XX9, XZ, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/n, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5A, LIBYA (Topband Activity). An international team of operators will activate Libya between November 15-29th, using the callsign 5A7A (See OPDX.765 and OPDX.774). Rudi, DK7PE, one of the 5A7A operators, announced this past week the following frequency combination will be used during

their 160m operations:
* During JA openings - TX frequency will be 1.821 MHz (QSX 1.825 MHz).
* After the JA window is closed they may change to 1.824.5 MHz (QSX
up 5) for North America in case 1.821 is covered there with QRM.
They will use a TITANEX V160E vertical for transmitting, but their major challenge will be the reception side. They expect a beverage not to perform very well over the high conducting soil directly on the beach, let alone the space limitations. Therefore, they will use a Pre-Amp/FES (KD9SV) in connection with a Pennant receiving antenna and also with a K9AY system. Rudi states that he will also bring his well proved Coax loop with him. For more info and updates, visit: http://5a7a.gmxhome.de

8Q, MALDIVES. Michele, IK5ZUI, is now reportedly working on Maldive Islands for next 12 months. He is expected to be active as 8Q7IM. More details are forthcoming on: http://www.mdxc.org

A7, QATAR. Some operators from Qatar will activate the special callsign A70RRY from now until December 15th to celebrate the 15th Asian Games 2006 which is going to start in Doha on December 1st. Activity this past week has been on 160/20/15/10 meters CW/SSB. QSL via EA7FTR. Please see EA7FTR on QRZ.com for details on QSLing.

D4, CAPE VERDE. Operator Luca, IK2NCJ, will be active as D44AC during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band entry.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, informs OPDX that the following operations are approved for DXCC credit:
3V6T - Tunisia; Operation from July 5-15th, 2006
Operation from October 22-31st, 2006
Operation from November 22-30th, 2006
3V7A - Tunisia; Operation from May 22-31st, 2006
9G5UR - Ghana; Current operation effective September 22nd, 2006
9M0/9M2TO - Spratly Islands; June 9-12th, 2006
9Q1NT - Democratic Republic of the Congo; Current operation effective September 22nd, 2006
C91TL - Mozambique; Operation from June 29th-July 13th, 2006
FO/F8UFT - Clipperton Island; Operation from March 1-31st, 2005
OJ0LA - Market Reef; September 9-15th, 2006
ZA/IK7JWX - Albania; Operation from July 10-30th, 2006
ZL9BSJ - Auckland & Campbell Island; Operation on September 12th, 2002

E51, NORTH COOK ISLANDS. Operators Bill/N7OU and Bob/W7YAQ are now active from Penrhyn Atoll (OC-082) as E51PEN and E51PDX, respectively, until November 18th. Activity will be on 160-10 meters, mostly on CW, but with some SSB and RTTY. They will be running 100 watts and verticals. QSL via their home callsigns. ADDED NOTE: Operators Mike/KM9D and Jan/KF4TUG, who have been active as E51QMA from Penrhyn Atoll (OC-082) this past week, are expected to be QRT by the time you read this. They plan to set sail towards Christmas Island (T32). QSL via OM2SA.

FT1, CROZET ISLAND (On the Birds!). Nicolas, F4EGX (ex-FT1WK), will be again in Crozet as FT1WM. He was expected to leave Reunion Island on November 3rd and head to Crozet. He is expected to head back to France on December 31st. Unfortunately, Nicolas will not be active on HF bands, but he will be on the satellites only.

IOTA NEWS.....
AS-115. Berkin, TA3J, will be active as TA3J/0 from Antalya - Sican Adasi (Rat Island, MIA MTC-099, Grid: KM56JU), between November 11-26th (weather permitting). Activity will be on 160, 80, 40, 20, 15, 10, 2 meters and the WARC bands; on all modes. QSL via Nilay, TA3YJ, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. No eQSL. SWL QSL cards are OK. The TA3J/0 Web Page is: http://www.geocities.com/ta3j0/1

EU-113. A team of Greek operators, all members of the Radio Amateur Association of Greece (http://www.raag.org), are planning a DXpedition to the rocky islet of Falkonera (MIA MG-087) from the Lighthouse there (ARLHS: GRE 012, WLOTA: L0740 and TWLHD-WLH: SV-029) between November 15-19th. They will use the special callsign SX8F. Operators mentioned are: Cliff/SV1JG, Nikiforos/ SV1EEX, Theodor/SV1GRM, Lykourgos/SW1GZL, Sotirios/SV1HER, Dionisios/SV1HHC and Makis/SV1IZR. The team believes this will be the first activation of the rocky islet of Falkonera and of the Lighthouse too. There are not any inhabitants on the island. Activity will be on 160-6 meters plus VHF, UHF and SHF. They plan to bring plenty of equipment and antennas. Operations will include CW/SSB/PSK/FSK441/FM. QSL Manager is SV1HER. For more details about Falkonera DXpedition and the Lighthouse, visit the web page at: http://users.sch.gr/nkontopoul/sx8f

EU-172. Operator Norbert, DL1HTW, will be active as OZ/DL1HTW from Langeland Island (FY-019 for the Danish Islands Award), now through November 11th. Activity will be on 80-10 meters SSB and SSTV. QSL via his home callsign, direct or by the bureau.

NA-219. A group of German operators will be active from Elbow Cay which belongs to Cay Sal Bank Cays Group in the Bahamas early in 2007. The ARLHS Lighthouse is BAH 018. IOTA NA-219 is on the most wanted IOTA lists in North America. The callsign will be announced later. The team, consisting of Bodo/DL3OCH, Rene/ DL2JRM, Dan/DL5SE and Daniel/DL5YWM, will leave Key Largo, Florida, around the 3rd of January and plans to be active until January 9th. The date can vary because of the weather. They will have two stations on the air and will operate on 160-10 meters CW/SSB on the suggested IOTA frequencies. Bodo/DL3OCH will take EME equipment which is good for 70cm and 23cm contacts. It will be the first time that the C6A prefix will be on the air on 23cm. Skeds are very welcome. Due to the high costs (7000 USDs just for the transportation) any donations are welcome. The QSL Manager is DL3OCH. For more updates and information, please check the following Web site at:

http://www.qslnet.de/member/na219/english/index.htm

OC-146. Operator Pele, YB8TAF, will be active from Celebes [Sulawesi] Island (WLOTA LH-2246) as YB8TAF/p from November 9-14th. His activity will also include an entry in the JIDX Contest (November 11-12th). QSL via EA5KB (QRZ.com).

ML0, JERSEY. Mat, F5SHQ, will be active as MJ0ASP during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (20m) entry. QSL via F5SHQ.

OA, PERU. Martijn, PA3GFE, will be active as OA#/homecall from now until December 10th. Activity will be on 40-10 meters. He is expected to be active as OA4O during the CQWW DX CW Contest (November 25-26th). QSL via his homecall.

ON60, BELGIUM. Members of the UBA Radio Club in Belgium may use the "ON60" prefix until February 10, 2007, to celebrate the 60th annivesary of the UBA, the IARU Society for Belgium.

QSL INFO AND NEWS.....
SO9Q via SP9QMP
UK8ACO direct via 700000, Tashkent, PO Box 0
UA9JMB via RA9JR
V25JK via W4BCX
YT5J via YU1JW

Bob, N2OO, announced that he is now handling the QSLs for 3B8FP (1987-1989) and S79KMB (1991-1999). These will no longer be handled by KN2N. Only QSL for these dates mentioned.

BUREAU CLOSINGS. The following Bureaus are now closed for the ARRL Outgoing Bureau Service:
4J - Azerbaijan HV - Vatican City State
C2 - Nauru ST - Sudan
C6 - Bahamas V4 - Saint Kitts & Nevis

Martin, V51W (ex-V51WM, also DJ7KP), will forward QSLs for all QSOs in the 2006 CQWW DX SSB Contest via the the German DARC QSL-office. No need to send cards in advance. QSL Manager is DJ7SX.

As you know, there will be plenty of activity from the Laccadives Islands next month (#2 on the top ten for DXCC). Jean Michel, F6AJA, suggests to visit the following Web page to see the complete (possibly) set of QSLs from previous Laccadives activities. Please visit:
http://LesNouvellesDX.free.fr
Just follow "galerie de QSL" and then "les dix contrees les plus recherchees"... and you will find a set of cards for the 10 most wanted, including the Laccadives....

XF4DL LOGS. The online logs for XF4DL can be found at:
http://www.logsearch.de/
They reportedly have over 56k QSOs in the log. QSL information is as

follows:
- only North America - all QSLs via the bureau or direct to N6AWD
- all others - QSL via the bureau or direct to DL9NDS

QSL ZT2V via ZS2DL. Activity was during the CQWW SSB Contest from Port Elizabeth, South Africa. This is the first activation of the ZT2 prefix since 1939. Operator was Donovan, ZS2DL. Look for him with this callsign again in the next CQWW DX CW Contest (November 25-26th).

SPECIAL EVENT (ISWL). The International Shortwave League (ISWL), continues with their 60th (Diamond) anniversary celebrations throughout the month of November. Look for the following to be active this month:

GB6SWL - Activity between November 11-12th, from Colchester in Essex. The station is being run by the Colchester ARS. (A Club Affiliated to the ISWL).

GB6SWL - Activity between November 18-19th, from Annan in Dumfrieshire, Scotland. John, GM6LYJ, will be the main operator.

GB6SWL - Activity between November 25-26th, from Tewkesbury in Gloucestershire. Walt, G3NYY, will be the main operator.

The ISWL Club's callsigns GX4BJC/P and MX1SWL/P will also be active throughout October. With only 2 months left for these celebrations, the ISWL Awards Program is open to non members for a very small fee to cover postage to any country in the world. Please visit the following Web page for all the details, including QSL information and the Special Diamond Anniversay Awards etc... at: http://www.iswl.org.uk

T40, CUBA. Operators Winston/CO2WF, Willy/CO2MHZ (ex-CO2UG) and Juan Carlos/CO2JD will be active as T40C during the CQWW DX CW Contest (November 25-26th) as a Multi-Single entry. QSL Manager is Phil, N1KI. Activity will be from Bocaciega, at Habana West Beach's.

TI, COSTA RICA. Dick, W0RAA, reports that he will be leaving on November 21st for Costa Rica as a member of a team for the CQWW DX CW Contest. He is expected to be active before the contest signing as TI5/W0RAA, and will operate RTTY on 14085 kHz (+/-) and PSK31 on 14070 kHz (+/-). Dick may also be active on some SSB and will try to operate split (listening UP). He hopes to hand out Costa Rica on PSK31 and RTTY, which he believes is needed by many. QSL via W0RAA with a SASE.

TZ, MALI (Update). Everything is a go for the members of the VooDoo Contest Group which will be active as TZ5A for the second year in a row during the 2006 CQWW CW Contest (November 25-26th) as a Multi/Multi entry. QSL via G3SXW. Operators mentioned are: Ed/AA7A, Roger/G3SXW, Fred/G4BWP, John/ G4IRN, Robert/GM3YTS, Vince/K5VT, Mike/KC7V and Lee/KY7M. The callsign TZ5A will be used only during the contest. During precontest activity, operators will operate with their own callsign, and each operator will handle their own QSLs. Look for the following callsigns to be active outside of the contest:
November 18-24th and November 27-30th

TZ6NS via AA7A (also QRV RTTY and 2m EME)
TZ6MF via KC7V (also QRV 160m and 2m EME)

November 18-24th November 21-24th
TZ6WP via G4BWP TZ6RN via G4IRN
TZ6RF via GM3YTS (also QRV 160m)
TZ6VT via K5VT
TZ6LF via KY7M

VK9C, COCOS-KEELING (Update). Charlie/W0YG and Barry/N0KV are now active as VK9CGG until November 20th. They were heard this past week on various bands CW/SSB. Seems to be plently of CW activity on 40/12/10 meters, and on SSB, watch 15 meters. QSL via W0YG (direct only).

VP8, ANTARCTICA. Alan, VK6CQ (aka VK0LD, VP8PJ anf 9V1DX), will be active again from the summer Base Camp at Patriot Hills, Ellsworth Land, until December 10th. He suggests the following frequencies on CW: 7003, 10103 and 14003 kHz. His equipment will be a Yaesu FT-897D w/100 watts into an unterminated Vee beam orientated at 011/191 degrees. Alan states, "Please bear in mind that this is not a DXpedition - I am on a work assignment and my free time is rather limited, but I will try to be operational every day for an hour or so subject to work load." He will be signing VP8PJ from Patriot Hills base. He mentions that the Chile Telecomm Authority has also issued him a reciprocal licence CE/VK0LD (the XQ prefix is issued to Chilean residents only). Alan will use CE8/VK0LD from Punta Arenas and CE9/VK0LD from the Chilean refuge Arturo Parodi (near Patriot Hills Base Camp) or Vinson Base Camp (120 miles North West of Patriot Hills). QSL Manger is Dominik, DL5EBE. For more details and updates, visit his Web site at: http://www.geocities.com/vk0ld/home.html
ADDED NOTE: By the time you read this, Adam, K2ARB, will be finishing his activity from Punta Arenas as CE8/K2ARB and will be heading to Patriot Hills. His activity will between November 15th and January 27th. His callsign is not known yet. Adam states that he plans to operate on his days off on 40/30/20 meters CW and will check in, when possible, on the Antarctic SSB nets. He will also be keeping a blog about his journey at: http://www.k2arb.blogspot.com
Alan will try to put an entry in about his operating frequencies and times once he gets going and will talk about what is happening at the base.

WP2, U.S. VIRGIN ISLANDS. Kenji (Ken), JH3AIU/K2AJ (ex-JR3EDE), will be active as WP2AIU from November 20-24th. Activity will be on 160-10 meters, CW, SSB, RTTY and PSK. He will be mainly on 160/80 meters, the WARC bands and the Digital mode. QSL via JH3AIU.

XT2, BURKINA FASO (Update). The Provins ARS (F6KOP) has announced their next DXpedition will be to Ouagadougou, Burkina Faso, between January 6-20th (See OPDX.780). The F6KOP group announced this past week that the Bukinabe authorities have issued the following callsigns for their DXpedition. The DXpedition's callsign will be XT2C. Each operator was also isssued a personal callsign as follows:
Bob/N6OX: XT2CI Gerard/F2JD: XT2JD
Bill/N2WB: XT2CJ Franck/F5TVG: XT2CD

Dieter/OE8KDK: XT2CK Alain/F5LMJ: XT2CE
Frank/F4AJQ: XT2CC Jean Paul/F8BJI: XT2BJ
Gerard/F2VX: XT2CA Bernard/F9IE: XT2IE
Their web page will be operational very soon.

XU, CAMBODIA. Operator Bruce, AA4XR, will be active as XU7ADF between November 23-29th. Activity will include the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (band not provided)/Low-Power entry. QSL via AA4XR.

ZA, ALBANIA. Operators Tom/DL2RMC and Heiko/DL1RTL will be on a holiday expedition to here between November 8-13th. They plan to sign ZA/homecall and be active on 160-10 meters on all modes. Also, look for them in the WAE RTTY Contest. They will have two stations w/100 watts using yagis and verticals. QSL via their home callsigns, by the bureau or direct.

ZD9, TRISTAN DA CUNHA. Operator Brian, ZD9BCB, is expected to be active sometime this week from Gough Island (IOTA AF-030) until September 2007. No QSL route or bands/modes of activity were provided. Meanwhile, Andy, ZD9BV, continues to be active from the same island, especialy on 20 and 17 meters SSB. There have been some QSNs reported on 10 meters. QSL only direct.

ZS3, SOUTH AFRICA. Joe, AA4NN, will be active as ZS3NN from the Northern Cape of South Africa two days prior to CQ WW CW Contest (November 25-26th). Activity will be on CW only 160-10 meters, plus the WARC bands. His location is on the beach south of Port Nolloth. During the CQWW DX CW Contest, he will be a Single-Op/All-Band/High-Power entry. QSL via AA4NN.

1354. 2007 Special XE prefixes

Newsgroup: rec.radio.amateur.dx
Date: 2006-11-12 02:51:00 UTC
From: Caveat Lector <CL@nowhere.com>
Message-ID: <l_v5h.16893$%f4.8462@newsfe09.phx>
Source record: 2706

Got this info from Pepe XE2MX

Amigos:

In 2007 Mexico's FMRE will celebrate 75th anniversary (LMRE, FMRE)

and XE stations will use new prefixes:

6G1LM from Jan. 1 till Dec. 31 2007

6F75A Jan.1th to Dec 31th for contests for FMRE

6H1 for XE1 and suffix

6I2 for XE2 and suffix XE2MX as 6I2MX

6J3 for XE3 and suffix working foreign stations

6E4 for XF4 Revillagigedo

XE2MX need qsl cards during 2007 as 6I2MX

In a future M&#xfffd;xico will use 10 zones XE1, XE2, XE3, XE4 XE5, XE6, XE7,
XE8, XE9 AND XE0

XE2MX May be XE7MX (hi) around May 1 2007

73, Pepe XE2MX

November 13, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K8YSE, K8IW, KU9C, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DK8JB, DL5EBE, DL5YWM, E21EIC, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, IZ8CCW, OH2BN, RSGB IOTA, VA3RJ & ICPO, VK4AAR and VU2GMN for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 5th/November, through Sunday, 12th/November there were 210 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J3, J5, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OE, OH, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V3, V5, V6, V7, V8, VE, VK, VK9C, VK9N, VP2E, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/n, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5A, LIBYA (Update/Reminder). Just a reminder that an international team of operators will activate Libya between November 15-29th, using the callsign 5A7A (See OPDX.765 and OPDX.774). Mustapha, DL1BDF, member of the 5A7A team, reported this past week that the team will leave Frankfurt/M on the morning November 15th for Tripoli. They expect to send the first "CQ de 5A7A" the same day during the evening or on the morning of November

16th at the latest. Mustapha mentions that part of the DXpedition is to setup a settlement for a permanent 5A station for some Lybian newcomers. For more info and updates, visit: http://5a7a.gmxhome.de

6E/6F/6G/6H/6I/6J, MEXICO. In 2007 the Federacion Mexicana de Radio-experimentadores A.C. (FMRE) will celebrate its 75th anniversary (LMRE and FMRE), and XE stations will be using new prefixes during this special event. Look for the following prefixes/callsigns in 2007:
6G1LM - From January 1st through December 31st, 2007
6F75A - From January 1st through December 31st for contests for FMRE
6H1 for XE1 stations
6I2 for XE2 stations
6J3 for XE3 stations (foreign stations)
6E4 for XF4 Revillagigedo stations

8J, JAPAN (Special Event). Look for special event station 8J1ANT to be active between now and March 31st to celebrate the 50th anniversary of the Japanese Scientific Research Expeditions (JARE) in Antarctica. The 8J1ANT special station will be active from the JARL building in Tokyo, operated by JA Hams. QSL via JARL Bureau. The JARE Web page is available at: http://www.nipr.ac.jp/jare/
The World-Wide Antarctic Program (WAP) staff has issued a WAP reference number for 8J1ANT and/or 8J1ANT/1; which is WAP-76. These stations will count for the WAP AWARDS: WAP-WACA &/or WAP-ASEA according to the rules.

8Q, MALDIVES. Gianluca, IK0XIH, will be active as 8Q7GL and will be on holiday between November 21-27th. Activity will be on 80-10 meters SSB only. QSL via his home callsign. His official Web page is at: http://www.mdxc.org/8q7gl

9M6, EAST MALAYSIA (IOTA and Contest Op). Saty, JE1JKL, will be active as 9M6NA from Labuan Island (OC-133) during the CQWW DX CW Contest November 25-26th as a Single-Op/Single-Band (20m) entry. QSL via JE1JKL (E-mail requests for QSL Bureau cards are welcome at: 9m6na@jsfc.org). See Saty's station at 9M6NA on: http://jsfc.org/je1jkl/9m6na.html

C6, BAHAMAS. Brian, ND3F, will be active as C6AQQ during the CQWW DX CW Contest (November 25-26th) as Single-Op/All-Band/Low-Power entry. He is also expected to be active in the ARRL 160 Meter Contest (December 1-3rd) as a Low-Power/DX entry. QSL via ND3F, direct preferred.

CANADIAN SPECIAL PREFIXES. To celebrate the 100th anniversary of Reginald Fessenden's first AM voice broadcast on December 24, 1906, all Canadian Amateur Radio operators may use a special prefix during the period of December 1, 2006, to January 31, 2007. For example, the special callsign CG1 could be use by all callsigns with the VE1 prefix.
CF1 = VA1 CG1 = VE1 CG8 = VE8
CF2 = VA2 CG2 = VE2 CG9 = VE9
CF3 = VA3 CG3 = VE3 CH1 = VO1
CF4 = VA4 CG4 = VE4 CH2 = VO2
CF5 = VA5 CG5 = VE5 CI1 = VY1
CF6 = VA6 CG6 = VE6 CI2 = VY2

CF7 = VA7 CG7 = VE7 CI0 = VY0
QSL via the individual operator's own personal callsign.

CX, URUGUAY. Operators CX3AL, CX5AO, CX5BW, CX9AU, CX7CO and CX9BT will be active as CX7BY during the CQWW DX CW Contest (November 25-26th) as a Multi/Single entry. QSL via CX5BW. Activity is to pay hommage to their late friend Raul, CX7BY. Operations will be from CX5BW's station.

DP0, ANTARCTICA. A new radio operator will be active from the Neumayer Base (WAP-DEU-02) starting in December through February 2008. Look for Mirko, DG9BHQ, to be active using the club's callsign DP0GVN and a Yaesu FT-897D (100W) and wire antennas. QSLs for this operation will be handled by DL5EBE.

IOTA NEWS.....
AF-018. Members of the Tikirriki Contest Club will be active as IH9P from Pantelleria Island (African Italy - CQ Zone: 33, IIA: TP-01, WAIP: TP, WLOTA: LH-0041) in the CQWW DX CW Contest (November 25-26th) as Multi-Multi entry. This is the group's ninth effort in the CQWW DX Contest and second time in the CW leg. QSL via KR7X and LoTW. Operators mentioned are: I1HJT, I1NVU, I2YSB, IK1QBT, IK2AHB, IK2ANI, IK2CIO, IK2HKT, IK2RZP, IK7JWY, IK8ETA, IT9BLB, IT9VDQ, IT9ZGY, IT9ZMX, IV3SKB and IZ1GAR. Expect some activity before the contest, starting around November 20th by operators as IH9/homecall on SSB and the digital modes. Visit the Tikirriki Contest Club Web page at: http://www.ih9p.com

NA-219. (Update to OPDX.783) A group of German operators will be active from Elbow Cay which belongs to Cay Sal Bank Cays Group in the Bahamas early in 2007. The ARLHS Lighthouse is BAH 018. IOTA NA-219 is on the most wanted IOTA lists in North America. Daniel, DL5YWM, informed OPDX that the group was issued the callsign C6ARI. The QSL Manager is DL3OCH. For more updates and information, please check the following Web site at: http://www.qslnet.de/member/na219/english/index.htm

IS0, SARDINIA. Martin, OL5Y, will be active as IS0N (possibly IS0/OL5Y) during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (40m, possibly 80m) entry. QSL via OK1MG.

J20, DJIBOUTI (IOTA Op). Operators Alfeo/I1HJT, Vinicio/IK2CIO, Angelo/IK2CKR, Carlo/IK1AOD, Marcello/IK2DIA and Silvano/I2YSB will be active from Moucha Island (AF-053), February 1-15th. Callsigns will be J20M and J20R. Activity will be on all bands 160-10 meters including the WARC bands, CW, SSB and RTTY. They plan to have three stations on the air. QSL is via I2YSB. Their Web page is available at: http://www.i2ysb.com/j2/

JOIN OH2BH 60TH BIRTHDAY ON THE AIR! Jarmo, OH2BN, informs OPDX readers in a press release: "Martti J. Laine, OH2BH, has provided an abundance of on-the-air pleasure to Amateur Radio operators the world over by serving rare countries and exciting prefixes for several decades. He is up to

celebrating his 60th birthday among his friends. Since his friends are scattered in every corner of the world, this new unique concept is presented.
You just dress up for the occasion, switch on your radio, and you will find yourself at the most thrilling birthday party ever. Welcome on board!
The event will commence November 18th at 0000 UTC and run for 48 hours until November 19th, 2006, 2359 UTC - the 19th being the actual birthday. It will run on CW and SSB simultaneously, on frequencies .025 and .225, such as 14.025 and 14.225 with powerful 4O60BH stations from a 600-meter high mountain perch overlooking the beautiful Kotor Bay in the fledgling Republic of Montenegro. The radio operations are led by Ranko, YT6A, and Dragan, YT6Y and others from near and far.
But that's not all; you can pass your birthday wishes personally on radio since you may get an appointment at the time of your choice for 14.225 kHz by sending a request to sked-60@oh2bh.fi <mailto:sked60@oh2bh.fi> The birthday party station will then call you at that exact minute. You can also send your birthday greetings through msg-60@oh2bh.fi <mailto:msg60@oh2bh.fi>
But even better - following the procedures of any Asian flavoured birthday party, you can obtain a lottery number for a lucky draw from any of the 4O60BH stations. A lucky draw number can be requested by a new one-time Q-code, QBH. The prizes for the lucky draw will be published next week.
The actual draw will take place at the Monday Dinner Party and the winning number will be published the following day in The Daily DX and other DX publications.
The actual Birthday Reception will be held on Monday, November 20th at 1800 hours at Hotel Vila Aleksandar, Herceg Novi, Montenegro.
QSLs will be via OH2BN and each direct request will be honored by a special stamp released for the occasion.
Just join this new way of partying - making the internet work back-to-back with Amateur Radio - all on the air - and be part of BH - Birthday Happiness. See: www.kolumbus.fi/oh2bn/bhday
--- DX IS! 73 de Jarmo OH2BN"

JW, SVARLBARD. Members of the Svalbardgruppen av NRRL will be active as JW5E during the CQWW DX CW Contest (November 25-26th) as Multi-Op/All-Band entry. Operators mentioned are Stellander/LA1CCA/JW1CCA, Math/LA5NM/JW5NM and Trond/LA9VDA/JW9VDA.

MZ5, SCOTLAND. Operator Ian, G3WVG, will be active from the Scottish Shetland Island (IOTA EU-012) as MZ5A during the CQWW DX CW Contest (November 25-26th) as Single-OP/All-Band entry. QSL via Nigel, G3TXF.

OX3, GREENLAND. Dwayne, KD4POJ, has been active as OX3PG from Thule (FQ56, NA-018) since July 7th and will be here until July 30th. He mentions that he is active on most bands and modes mainly during his spare time and weekends. This past week Dwayne was heard on 20 meters SSB after 2000z, 40 meters after 2100z and 80 meters after 2200z. QSL is direct via his QSL Manager WA0SMQ. NO e-QSL or LoTW.

PACIFIC ISLAND HOPPING. Susan, W7KFI, will once again be heading out to sea. This 70 year old Grandmother be leaving Majuro Atoll (V73, OC-029), Republic of Marshall Islands in January. She is expected to head towards Tarawa Atoll (T30, OC-017), Gilbert Islands, Kiribati. Keep listening for her to activate other IOTA references while en route. Her departure will also include Kwajalein Atoll (V73, OC-028), Republic of Marshall Islands. QSL via K6FAF, direct only with the required SASE. This amazing lady has an interesting story. It is highly recommend to visit the following Web pages to see where she has been, and there is a Real Audio recording of her radio interview with Art Bell. Visit the Web pages at:
http://ussvdharma.net
http://www.qrz.com/callsign/W7KFI

LAST REMINDER!!! Alan, VK4AAR, states, "I am desperately trying to help DXers by reminding them of the nearness of the cut-off date for the current style of IRC (expires 31/12/2006). I have not managed to get a reminder published on any bulletin since the first information a couple of months ago (ed. that is not actually true Alan; read OPDX.778, October 2nd). I have not yet received a NEW style IRC ... and that worries me! Seven weeks to go and the post office will not accept the present one ... so the DXer loses. DXers can E-mail me for FULL and GENUINE details which I received from the Universal Postal Union in Switzerland." His E-mail address is: al-mee@aapt.net.au
ADDED NOTE: Alan also states that if anyone can use some IRCs (due to expire 31/12/2006) he can supply them at a good rate. He receives 1.85 (AU dollars) in value for each at his post office (that's 1.50 USD). Alan can supply at the same price ... 10 for 16.00 USDs (that is ... 15.00 USDs plus 1.00 USD for postage). "E-MAIL HIM FIRST!"

Vasilij, RW6HS, informs OPDX that he is the QSL Manager for the following stations: 3DA0BL, 4J4KM, 4K2BY, 4K2OX, 4K4BCU, 4K4CDE, 4K6CM, 4L1FP, 4L1QX, 4L1RK, 4L1UN, 4L4KA, 4L6FU, 4L6QL, 4L6QQ, 4Z5BZ, 4Z5FL, 4Z5FW, 9H1ED, CE2EZE, CT3FF, DU1EIB, EK60DZ, EK6DZ, EK60LX, EK6LX, EK60SB, ER2OG, ER5AL, EX2F, EX7ML, EX8NC, EX8NK, EX8NP, EX8NR, EX8NV, EX8NX, EX8VAB, EX8VI, EY8VV, EZ14V, EZ25V, EZ5AR, EZ6DB, EZ6DM, EZ6DK, EZ60V, EZ7AD, EZ7AI, EZ7AL, EZ7AV, EZ7AW, EZ7V, EZ8AI, FP5EK, GM0SDV, GM0WRR, JL8GFB, JT1FDD, KP3EM, LY2ER, OD5EH, OD5NO, OD5SE, R0/UT1EO, R1FJC, RA1WL, RA1WP, RA6QA, RA6QAS, RA6QD, RA9FHW, RA0BU/A, RA0BY, RA0CAH, RA0FAC, RA0FAN, RK6QWA, RN4CA, RU0LX/mm, RV0AM, RW0BM, RW0LIA, RX3DQN, RX6LMQ/0, RX9CEV, RZ6LL/0, RZ9DX/0, TA1AZ, UA2FBR, UA2FGU, UA2FFM, UA3QJC/VR2, UA6QL, UA6QR, UA6WIL, UA9CDE/UA0B, UA9ZBN, UA0BC, UA0BCU,

YV5DEH. Send QSL direct ONLY to RW6HS. NO bureau cards please. He requests
that you PLEASE use "sticky" tape on your envelope to prevent postal
pilferage. Vasilij also states that he can help get any QSL card hard
to obtain in Russia and the other CIS. Send your request to RW6HS direct,
with your address (a label) + an IRC. Never send USDs. His address is:
Vasilij M. Kasyanenko, Stavropolskiy kr., 357300, g. NOVOPAVLOVSK,
P.O. BOX "0"(zero), RUSSIA. His E-mail address is: rw6hs@narod.ru
His Web page is: http://www.rw6hs.narod.ru

YX0A/YX0LIX QSL STATUS. Steve, KU9C, is still waiting for the QSLs
to show up. He states that he should have them shortly and is sorry
for the delay. Once Steve receives them he will begin to send them
out.

V4, NEVIS. Mark, K0EJ, will be active as V49A during the ARRL International
DX CW Contest (February 17-18th) as a Single-Op/All-Band/Low-Power entry.
Look for activity outside of the contest (signing V44/K0EJ). QSL via K0EJ.

V51, NAMIBIA. Klaus, DJ4SO, will be active as V51/DJ4SO between now and
December 1st. Activity will be on 160-6 meters, CW, RTTY and PSK31. There
will be an emphasis on the low bands. Klaus will also be in the CQWW DX
CW Contest (November 25-26th). QSL via DJ4SO, direct or by the bureau.

V7, MARSHALL ISLANDS (Kwajalein Atoll, OC-028). Neil, WD8CRT, will once
again be active as V73NS around January 5th and remain there for at least
two years on the Island of Roi-Namur. Activity will be mostly CW on 160-6
meters. QSL by the Bureau or direct to: Neil Schwanitz, Box 8341, APO,
AP 96557 (USA). QSLs for his 2003 to 2005 QSOs are "OK" to the same address.
Visit his Web site at: http://www.qsl.net/v73ns

VU7, LAKSHADWEEP ISLANDS (edited VU7LD PRESS RELEASE - 4; November 11 2006):
"In an earlier press release we had given the name of Franz Langner, DJ9ZB,
who had kindly agreed to be our collection point for European contributions.
Franz has now indicated to us his inability to continue doing this and so
we would request that contributions be only sent to our Indian address or
to the one in USA. Japanese contributors may kindly use our Japan hub.
Our webpage http://www.arsi.info/vu7 has been updated. It has a new look
and readability has been improved.
All contributions received so far have been acknowledged under the

sponsors/donations page. This will be updated weekly as more information
is received from our different collection hubs. When we have the
contributors e-mail addresses we will acknowledge the contributions
immediately as they are received.....Stay tuned... 73, de Gopal VU2GMN"

XT2, BURKINA FASO. Michael, F1IQH, is expected to stay here for one month
starting on November 13th and will be active as XT2WC (from WW Grid IK71).
His activity will be mainly on 40 and 20 meters using only 100 watts and
dipoles. Possible skeds could be managed using the following Internet
address: XT2WC@AOL.COM
Michael also thinks he will be able to go to XT2 several times next year.
QSL via his home callsign.

XU7, CAMBODIA (Update/Micro-DXpedition). A group of Thai amateurs from the
TAMSAT Group and SIAM DX Group plan to be active in Sihanouk Ville (aka:
Kampong Som), Southern Cambodia, between November 23-29th. Activity will
be on 160-10 meters plus the WARC bands, 6m, 2m and 70cm. Modes will include
CW, SSB, RTTY, PSK-31, FM and Satellite. Some team members will be active
in the CQWW DX CW Contest (November 25-26th). Look for the following
operators:
Champ/E21EIC - Active as XU7ADE on HF and the CQWW CW Contest as SOLP
Bruce/AA4XR/HS0ZCY- Active as XU7ADF on HF and the CQWW CW as SOSB(?)LP
Narongdej/E21YDP - Active as XU7ADK on HF RTTY/PSK-31 and CQWW CW as
SOSB(40m)LP
Part/E20PFE - Active as XU7ADL on HF and the CQWW CW as SOSB(?)LP
Supong/E21QEB - Active as XU7ADM on UHF and Satellites
Tanan/HS1JAN - Active as XU7ADN on VHF, Satellites and 6m
Noppadol/HS5IGY - Active as XU7ADP on VHF, Satellites and 6m.
QSL via operator's home callsign or per operators' instructions. Updates
and more information are on their Web site at: http://www.tamsat.org/xu7
XU7 Micro-DXpedition will have souvenir T-shirts available to help fund
this DXpedition. They are "Yellow T-Shirts (100% cotton)":
B.Width A.Length
size: L 21" 28"
size: XL 22" 29"
size: XXL 24" 30" (Man's European)
Price : 150 Baht/each (Pse +25 Baht for postage fee)
For Oversea: 17 USD/each (include postage fee)
For T-Shirts, please contact: Champ, E21EIC, via:
Tel: 081-4967611 or E-mail: e21eic@arrl.net

XU7, CAMBODIA. Peter, NO2R, will be active as XU7ACY from Sihanouk Ville
between January 7-30th. He will be concentrating on the lowbands, CW and
SSB. Peter will also be active in the CQ 160-Meter CW Contest (January
27-28th). Doug, W2EN, will act as his pilot station. QSL via K2NJ.

Z3, MACEDONIA. A group of Hungarian operators will join members of the
"Nikola Tesla" Radio Club (Z38M) to be active as Z38N during the CQWW DX
CW Contest (November 25-26th) as Multi-Multi entry. QSL via HA6KNB.

Source record: 2708

Hi, I'm looking for a Collins 30L-1 Round Emblem, High Frequency, Linear Amplifer. Not looking for any junk, actually I want one in excellent condition, Must be Round Emblem... Prefer one that has already been refurbished, things such as power supply, caps , etc...So as I do not have to do it...Although I've restored a few of them...I just want one in Excellent to Mint Condition...
If anyone out there has one of these amps, please feel free to e-mail me and if you like call 718-331-7427

Thanks a Lot
Carl

Special OPDX News Flash.....

The following press release was received by Martti Laine, OH2BH.
He wants to remind everyone about his special on the air birthday
party.

THIS WEEKEND ON RADIO - OH2BH 60th BIRTHDAY PARTY

Just turn on your radio and join the first
on-the-air birthday party.

Time:
Saturday, Nov.18 0000 UTC to Sunday, Nov.19
2359 UTC

Callsign:
4O60BH

Operating Team:
OH2BH, YT6A, YT6Y, YZ7DX (team doctor)

Patron:
Telecom of Montenegro Director Mr. Zoran Sekulic

Operating Location:
Herceg Novi, Adriatic Coast, Montenegro

Modes & Frequencies:
two stations operational)
CW & SSB, 25 kHz point frequencies
3525, 7025, 14025, 21025 kHz
3775, 7075, 14225, 21325 kHz

You can ask for a sked through sked-60@oh2bh.fi
Send an email and specify the time when you would like
to pass your wishes to Martti on 14.225 kHz - you have
two bullets and the only appointment frequency is
14.225 kHz. Lead time can be a maximum of three hours.

QBH Number:
By asking QBH you will get a lucky draw number and you
will then participate in a lottery. Only one number -
keep the number handy. Prizes and more information can
be found at www.kolumbus.fi/oh2bn/bhday

QSL Card:
4O60BH QSL via OH2BN

Hosting Organization:
Sky Contest Club, SCC
Ranko, YT6A & Dragan, YT6Y with Jarmo, OH2BN

1358. Problems with ARRL Incoming buro?

Newsgroup: rec.radio.amateur.dx
Date: 2006-11-19 16:25:41 UTC
From: Dave WB4IUY <support@scootworks.com>
Message-ID: <1163953541.387452.117590@k70g2000cwa.googlegroups.com>
Source record: 2710

I've been wrestling with the incoming W4 two-letter prefix buro for over two years. Have sent out hundreds and hundreds of cards, have sent multiple batches of stamped envelopes and extra postage (just in case), but have received only 7 cards in the last 2 years. I've done the legwork to find out where the problems are, and loads of DX stations tell me they've sent a card via buro. Maybe some of them are pulling my leg, but I doubt that a few hundred are.

I've been an ARRL member since the mid-70's, and the buro worked well until sometime around '03. At this point, I can't even get a reply to emails to check on the problem. I posted this question on my local club reflector (120-ish members), and got several replies from people with the same exact experience, some who simply gave up and only QSL direct now, as a result. I find it hard to believe the problem is localized, but perhaps it is...hence this question.

Over the last year I've written to several other ARRL officials' email addresses from the ARRL website, in hopes of getting someone to look into the problem, but I've never received a reply from ANYONE else at the league. Please reply if you are also having problems. You may email me direct at wb4iuy@TEARA.org , if you don't want to post in a public forum. I'd like to get to the bottom of this problem, or just quit giving the ARRL money (after 30+ years!), if the league has no interest in taking corrective action on behalf of it's membership.

Dave Hockaday

I have tried contacting the 9 buro and received no rsponse at all from
them wether this is a change is something I can't say since I
contacted them for some advice since I have (or had) some hopes I
might start receieving some cards by this means

1360. Re: Problems with ARRL Incoming buro?

Newsgroup: rec.radio.amateur.dx
Date: 2006-11-19 20:48:13 UTC
From: Doug Smith W9WI <w9wi@invalid.invalid>
Message-ID: <4560C30B.7020304@invalid.invalid>
Source record: 2712

W9 bureau is working fine - I've received two stuffed envelopes in the last few weeks.

Didn't the W4 2-letter-prefix bureau just recently change hands? (or am I imagining things?) Are you sure you're writing the right WB4 bureau?

Can't say I've ever had a problem getting answers from Newington, though the DXCC desk and the Contest Branch are the only parts of HQ I've really dealt with. My director has also been quite responsive though I usually write him via USPS.

1361. NOT the manager for J79WI

Newsgroup: rec.radio.amateur.dx
Date: 2006-11-19 20:53:28 UTC
From: Doug Smith W9WI <w9wi@invalid.invalid>
Message-ID: <4560C446.60608@invalid.invalid>
Source record: 2713

FYI, in the last few weeks I've recieved via the bureau two cards for J79WI, specifying "via W9WI". I am NOT the manager for J79WI.

(I'm pretty sure this is Jim, WI9WI who's operated from a number of Caribbean QTHs, and I did forward the two cards to him.)

In fact, I am not the QSL manager for *anyone* (except myself!) and the only two countries I've ever operated from are the USA and Canada.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/November, through Sunday, 19th/November there were 216 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3X, 4J, 4L, 4S, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5W, 5X, 5Z, 6W, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E3, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GM, GU, GW, HA, HB, HC, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, J5, J6, JA, JD/o, JT, JW, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PZ, R1FJ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TL, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V5, V6, V7, V8, VE, VK, VK9C, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

12th CCF & OHDXF MEETING. It is time to book yourself and friends for the 12th Contest Club Finland and OH DXFoundation Contest and DX Meeting on the Baltic Sea. Event will take place January 19-21st, 2007. Booking should take place before December 18th, 2006. You can find information about the

event and the booking on CCF's Web site at:
http://www.contestclubfinland.com/

3B6, AGALEGA. Members of Polski Zwiazek Krotkofalowcow (PZK)(the Polish Amateur Radio Union) and SP-DX-Club are organizing a DXpedition to the Island of Agalega to take place in March of 2007. The group has received a license and access to visit the island. Operators mentioned are Witek/ SP9MRO (co-leader), Wojtek/SP9PT (co-leader), Marek/SP9BQJ, Bogdan/SP3IQ, Wojciech/SP5BFX and Jozek/SP9-31029. Activity will last for 12-14 days. They are planning to be active on all bands from 160-6 meters, on the modes CW, SSB, RTTY, PSK31 and JT6M on 50 MHz. Also, activity is possible from Seychelles (S7), Mauritius (3B8) and /MM operations from the Indian Ocean. The team is looking for sponsors to help off-set the huge expenses of this DXpedition. More details should be forthcoming.

4L, GEORGIA. Mamuka, 4L2M, will be active during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (40m) entry. QSL via K3PD only; "OK" direct or by the Bureau.

4L, GEORGIA. Vaho, 4L8A, will be active during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (20m)/High-Power entry. QSL via DJ1CW, by the Bureau or direct.

4O60BH BIRTHDAY PARTY PRESS RELEASES (from Jarmo, OH2BN):
1 LOG SEARCH FOR YOUR 4O60BH QSOs. Dragan, YT6Y, from the on-the-air birthday party for Martti, OH2BH, in Montenegro, reports that a log search facility for 4O60BH, the station now active in connection with Martti's 60th birthday celebrations on the Adriatic coast, will be available starting today, Sunday. The first 3500 QSOs will be uploaded by Dragan later this morning (19-Nov), with the rest of the log to be uploaded by Ranko, YT6A, on Monday morning. The online log can be found at: http://www.skycc.info/4o60bh

#2 (November 19, 2006). The 4O60BH on-the-air birthday party has passed the halfway mark as far as its radio part is concerned. This happened at 0000 UTC on November 19 when the total reached 4000 QSOs, and the party switched into a true birthday mode. High bands have caused something of a disappointment, but 75/80M has compensated a great deal. The 80M band saw 4O60BH penetrate both Japan and USA with several hundred QSOs into each of the two major regions.
This activity will continue for another 24 hours and move into party time mode on Monday with a Reception and a Birthday Dinner. Some 200 Lucky Draw (QBH) numbers are given out, but you still have time to get yours. The Lucky Draw will take place at the Monday Dinner, and the winners will be announced at the same time.

5A, LIBYA. The international team is up and active now as 5A7A with 8 stations on various modes on all bands through November 29th. QSL via DL9USA. Check also their Web site at: http://5a7a.gmxhome.de

8P, BARBADOS. Tom, W2SC, will be active as 8P5A during the CQWW DX CW Contest (November 25-26th) as Single-Op/All-Band/High-Power entry. QSL

via NN1N.

8Q, MALDIVES. Operators Igor/RA9CMO, Willy/RN4WA, Vladimir/UN9LW, Igor/
RA3AUU and Igor/UA9CDC will be active as 8Q7DV during the CQWW DX CW
Contest (November 25-26th) as a Multi/2 entry. QSL via UA9CLB.

A6, UNITED ARAB EMIRATES. Michel, OD5TX, who has operated from the UAE as
A6/OD5TX until late July 2006, has now been issued authorization to now
operate as A61TX. The license was issued on November 14th and is valid
for one year. His QSL Manager, as in the past, will be Jack, W4JS.

AH2, GUAM. Operators Toshinobu/JI3ERV, Mikawa/JR7OMD and Nozumu/JE8KKX
will be active as AH2R for the CQWW DX CW Contest (November 25-26th) as
a Multi-Single entry. QSL via JH7QXJ.

CARIBBEAN TOUR. It seems Karl, N1DL, will be very active through the end
of the year from various Caribbean locations. QSL via his home callsign,
direct or by the bureau. Look for him to use the following callsigns from
the following islands:
FJ/N1DL - St. Barthelemy Island (NA-146); November 29th only.
9Y4/N1DL - Island of Tobago (SA-009); November 30th to December 1st.
FY/N1DL - French Guiana from the Isle Diablo (Devils Island; SA-020);
December 11-12th.
8P6/N1DL - Barbados (NA-021); December 14th only.
J7R & J79DL - Island of Dominica (NA-101); December 15th only.
VP2V/N1DL - British Virgin Island from the Island of Tortola (NA-023);
December 17th only.
N1DL/HI9 - Dominican Republic (NA-096); December 18-19th.

DXCC NEWS. Mark, K3MSB, informs OPDX that the ARRL DXCC Desk is not
crediting QSOs for his December 2005 contact with 5X1RI. Reason given
is "Documents Pending".

E51, SOUTH COOK ISLANDS. Bob/W7YAQ/E51PDX and Bill/N7OU/E51PEN inform
OPDX just before going to print that they are back in Rarotonga after
2 weeks on Penrhyn. They mention that they will be on during CQWW from
Rarotonga, South Cooks Islands, as E51YAQ. QSL via W7YAQ. Here are
their E51PDX/E51PEN QSO totals:
Total QSOs = 14912 By Band: Distribution by continent:
Total DXCC = 121 160m 10 NA 63.0%
80m 1402 AS 20.6%
By Mode: 40m 4726 EU 10.7%
CW 13721 30m 3785 SA 3.5%
RTTY 1013 20m 1671 OC 1.9%
SSB 178 17m 2261 AF 0.3%
15m 694
12m 291
10m 72

Rigs: TS570, FT897. Antennas: HF6V, 40M, 20M Verticals on edge of
lagoon (water 180 degrees, north-to-east-to-south). They state, "Great
condx all bands to North/South America. European openings were

disappointing. Some days grey line openings hardly materialized. Very
FB QTH, support, and accommodations from Warwick, E51WL....."
73, Bob/E51PDX and Bill/E51PEN

EA8, CANARY ISLANDS. Leppala, OH2BYS, will be active as EA8/OH4NL during
the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (80m)
entry (possibly 160m). QSL via OH2BYS.

EI, IREALAND. Wieslaw, SP4Z, will active as EI/SP4Z again in the CQWW
DX CW Contest (November 25-26th) as a Single-Op/All-Band/Lower-Power
entry. He will use IC7000 and a rotary Spiderbeam, inverted VEE and
dipole. Read about his effort two years ago described at:
http://www.hamradio.biaman.pl/sp4z/ireland_eng.htm

FO, French POLYNESIA. Alain, F2HE, is once again active as FO5RH, and
will stay on the Tatakoto Atoll (IOTA OC-066) until December 4th. He
will also return there again starting January 10th.

GD/MD, ISLE OF MAN. Members of the Manx Kippers will be making another
trip to GD-land for the CQWW DX CW Contest:
MD6V - Operator Dave, G3NKC, will be active on 160m as a Single-Band
entry. He will be looking for JA's before the contest using
GD3NKC/P; since there is a big demand from there. QSL via G3NKC.

MD4K - Operator Martin, G4XUM, will be active on 80m as a Single-Band
entry. QSL via G3NKC.

GD8T - Operator Peter, G4MJS, will be active on 40m as a Single-Band
entry. QSL via G4SHF.

Please be sure to include sufficient postage for all direct QSL requests
- 1 USD is now not enough for outside of EU (but 1 IRC is !!)

HH, HAITI. Jean-Marc, F1ABQ, will be active as HH2FJM as of November 18th.
He will be on every day between 0500-0700z and 1800-2200z around 14126,
18126 and 21226 kHz. QSL via F5RPB.

IOTA NEWS.....
AS-041. Operators JG4PYJ, JI4IPB, JJ4KME and JM4FGW were expected to
be active as homecall/4 from Chburi Island (JIIA AS-041-002)
in the Oki Island Group, JA4 Shimane Pref, this past weekend.
QSL to their home callsigns, direct or by the bureau.

OC-150. Hotang, YC0IEM, will be active as YC0IEM/9 from Lombok Island
between November 20th and December 6th. QSL via IZ8CCW, direct
or by the bureau.

J2, DJIBOUTI. Eric, ON7SAT, will be active as J20SA from November 20th
through December 16th. His activity will be limited since he is there
on a work assignment. Eric hopes to have the possibility of putting an
antenna on the hotel there (nothing is sure at this time). Activity will
be SSB on 40/20/15/10 meters (if his QTH permits). The equipment is a half
size G5RV antenna and a Yaesu FT100 transceiver running 100 watts barefoot.
Eric states, "Please understand that I'm there on business, so I might

have to stop operating abruptly and get back to work." QSL via ON7SAT, direct or by the Bureau.

J4/SV1, GREECE. Tomas, LY1F, will be active as J41A during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (160m) entry. Look for him before and after the contest as SV1/LY1F. QSL via LY1DF. Visit his Web page at: http://www.qrz.lt/ly1df/

J5, GUINEA BISSAU. Father Gianfranco, J59OFM, operates from the Catholic mission at Caboxangue, Guinea Bissau. He is active only on Sundays and Wednesdays between 1615-1645z on 14321 kHz (+/-). Father Gianfranco does not speak English, but answers to calls in Italian, Spanish and Portuguese languages. QSL via I3LDP: Lucio Bresciani, Via Locchi 29, 37124 Verona - VR, Italy.

J7, DOMINICA (NA-101). Operators Michel/F6COW and Dominique/F6EPY will be active as J79CO and J79EP, respectively, between November 20th and December 5th. Activity will include the CQWW DX CW Contest (November 25-26th). Precontest activities will be on 160-15 meters, CW, SSB and some Digital. QSL via their French callsigns, direct or by the bureau.

KH2, GUAM (OC-026). Operators Masanori/JA1OZK/AA9WZ, Masao/JA1OHP, Tadao/JF1TAB, Ken/JH1FUD, Hiroshi/JL1LOW and JK1DRM will be active from here using the callsign K2G between November 25-28th. Activity will be on the HF bands including the WARC bands, SSB, CW and the digital modes. They will not participate in a CQWW DX CW Contest. If operators use the homecall/KH2, QSL via the bureau (or direct) to each operator's home callsign. QSL K2G via JA1OZK.

KP3, PUERTO RICO. Operators Al/WP3C, Felipe/NP4Z and Eric/NP3A will be active as KP3Z during the CQWW DX CW Contest (November 25-26th) as a Multi-Single entry. QSL via WC4E.

LZ0/VP8, ANTARCTICA. Two members of the Bulgarian Contest Club (LZ9W) will be leaving Sofia very soon to be active from Livingston Island. Operators Mitko/LZ1UQ and Danny/LZ2UU will be active as LZ0A from the Bulgarian Antarctic Base "St.Kliment Ohridski" starting December 1st. Mitko will stay until March 1st, and is expected to be active as VP8/LZ1UQ in some HF contests. Danny will stay until December 20th.

NEW OFFICERS FOR 2007. Members of the National Capitol DX Association (NCDXA) elected the following officers during their October meeting for the year 2007:
President Dick Mayott, W2YE Treasurer Brian Bayus, N1KC
Vice President Bernie McClenny, W3UR Secretary George Vincent, K3GV

More information about the NCDXA is available at: http://www.qsl.net/ncdxa/

NEW OFFICERS FOR 2007. Members of the Redwood Empire DX Association (REDXA) Petaluma, CA, elected the following officers and directors during a meeting on November 9th for the year 2007:

President Al Burnham, K6RIM BOD Fred Leoni, N6YEU
Vice President Len Geraldi, K6ANP BOD Chuck Ternes, N6OJ
Secretary Doug Bender, WW6D BOD Rich Carbine, W6UDS
Treasurer Gordon Kiefer, K6PT

More information about the REDXA is available at: http://www.redxa.com/

P3, CYPRUS. Operators Bob/5B4AGN, George/5B4AGC, Stephen/G3VMW and Andy/ ZC4VJ/G3AB will be active as P3F during the CQWW DX CW Contest (November 25-26th) as a Multi/2 entry. QSL via 5B4AGN.

PJ2, NETHERLANDS ANTILLES (Update). Members of the Caribbean Contesting Consortium (CCC) will operate as PJ2T from Signal Point, Curacao (SA-006, WLOTA LH-0942)in the CQWW CW Contest (November 25-26th). Operator Jeff, K8ND, (Station Manager for PJ2T) will stick around after the contest and be active as PJ2T in the ARRL 160 Meter Contest (December 1-3rd) as Single-Op/High-Power entry. Also, look for Jeff/K8ND and Jim/W8WTS to be active as PJ2T during the CQ 160-Meter CW Contest (January 27-28th) as a Multi-Op entry. QSL both operations via N9AG. ADDED NOTE: COBRAS member Gerry, G0RTN/GI0RTN, will be active as PJ2T during the CQWW DX CW Contest with the contest team PJ2T. Outside of the contest, he will be active as PJ2/G0RTN.

Vic, EA5YN, (Pilot for 3C0M) reports that the log for 3C0M can be now found at: http://personal.telefonica.terra.es/web/ea5yn/

QSL 4U1UN via HB9BOU. There was activity on November 18th.

FT4WD QSLS. Norbert, F6AXX, still has the logs and the QSLs for the FT4WD (1993) operation by Christian, FD1NOG (now F5NOG), from Crozet Island.

KH8SI QSL STATUS. Kan, JA1BK, advises that over 4000 envelopes have been mailed out. There were about 8000 unique callsigns in the log. Kan asks that you QSL for "ALL" of your contacts since he is using pre-printed labels with all contacts listed. Requesting confirmation for all of your QSOs will insure that all log entries are legitimate two-way contacts. If you only sent for some of your QSOs, simply send the rest in an envelope with no SAE or postage; and you will receive your card. If you have not yet requested your cards, please include "ALL" contacts in one envelope along with an SAE and postage.

Nilay, TA3YJ, informs OPDX that the YM125ATA QSL cards have been sent direct on November 18th. Special postal stamp for the memory of ATATURK's 125th birthday and its information have been sent with the direct QSL cards. You can find the sample stamps on:
http://www.ptt.gov.tr/tr/pul/show/html/06-8.html
Nilay states, "Beside the QSL cards for YM125ATA a CD representing

Mustafa Kemal ATATURK and modern, contemporary Turkey will be sent to the radio amateurs who have made QSOs on 3 different bands or 3 different modes and also have sent their QSL cards direct. They should send me their QSL cards direct until December 31, 2006. YM125ATA's special CDs will be sent in January 2007." Inside the YM125ATA's special CD: *FILMS: Mustafa Kemal ATATURK, Wonders of Turkey, Turkey, Gallipoli, Fire of Anatolia - *PHOTOS: Mustafa Kemal ATATURK - *eBOOK: Who are the Turks? - *INFORMATON: Operating and licence conditions for foreign radio amateurs (CEPT members only) visiting Turkey - *ETC. YM125ATA's special CD is free.

S9SS GOING QRT FEBRUARY 2007! Charles Lewis will retire in February 2007, and finish his work as IBB VOA station manager on the Island of Sao Tome where he is known as S9SS (aka A22AA, S92SS, SV0LM, SV5/SV0LM, A25/KY4P, KY4P). In his deserved retirement, he and Lesley, S9YL (aka S92YL, SV0LN, N3TIA), will live in the mountains of the northwestern region of North Carolina in the USA. His S9SS LOG is uploaded to LoTW. Paper QSLs can be confirmed by his QSL manager N4JR. S9SS log on-line can be seen on Danilo's home page at: http://s50u.s50e.si
By the end of February, more than 80000 QSOs will be sent to: http://logsearch.de/
All of his logs for callsigns prior to S9SS exist only on paper; however, he plans to create files of at least some of them for submission, little by little, to the LoTW over the next few years. It will require typing the data for about 100000 QSOs, so he perhaps will never finish the work. He will do the A25/KY4P log first.

SPECIAL EVENTS (French).....
TM8T - Activity will be from November 27th to December 10th, on 80/40/20 meters CW/SSB, possibly 2m/F3E. Operators mentioned are F0FGG, F4DEA, F5TBE, F6HSQ and F6BDM, from the city of Croix. The main activity will be during the "The Telethon" from 1400z, December 8th to 1700z, December 10th. QSL direct with a SASE and 2 Euros which will be given for the fight. An award will be issued for 2 QSOs on 2 bands for 3 Euros, same destination. QSL managing address: GCNF, 87 Avenue Roger SALENGRO 59170 CROIX, before December 23rd imperative deadline.
TM5DIA - Activity through November 25th. Activity to celebrate/help the "DIABET'ALLO" (Young Diabetic in Burgundy). QSL via F5LRL or see info for TM5DIA on QRZ.com.

TM5AIR - Activity by the F5KEK ARS between December 2-16th, to celebrate the 70th anniversary of the first Air Base in the French Auvergne Atea in Varennes Sur Allier. All bands and modes. QSL direct or via the bureau.

ST, SUDAN. Operators Jovica/ST2A and Fernando/ST2BF will be active as ST2A during the CQWW DX CW Contest (November 25-26th) as a Multi-Single entry. Activity will be on 40/20/15/10 meters only. There will be more activity on Saturday than on Sunday (which is a work day). QSL via T93Y.

SV9, CRETE. Dimitrios, SV9COL, will be active in the CQWW CW Contest (November 25-26th) as a Single-Op/All-Band/High-Power entry.

T8, PALAU. Mike, K9NW, will be active as T88MR during the CQWW DX CW Contest (Novemer 25-26th) as Single-Op/All-Band entry. QSL via K9NW. Mike will be here between November 20-28th, and will try to pay special attention to the low bands outside of the contest.

TN, CONGO. Well known German DXers Baldur/DJ6SI and Franz/DJ9ZG will be on a DXpedition to Congo in late November and early December. Baldur will use the callsign TN6X on CW and Franz will use TN0Z on SSB and RTTY. Activity will be on 160-10 meters with two stations on the air. QSL to their home callsigns via bureau.

V3, BELIZE. Joe, K8JP, informs OPDX that he will be operating back home in Belize as V31JP from mid-November through early April 2007. Activity will be mostly CW on 160-6 meters. He mentions that he will try to get into some contests this year. QSL via his QSL Manager KA9WON.

VK, AUSTRALIA (SSTV). Peter, VK6AAL, reports that there is a very active SSTV group on HF on 14230 kHz with SSTV Live Webcams, and they are monitoring the frequency around the clock. He states, "Stateside stations are heard on occasions, and if they are aware of our presence, good DX contacts are possible both on the LP between 23:00 to 00:00 UTC and some times on the SP between 11:00 to 14:00 UTC. Our problem down under is breaking into local traffic in the U.S. as we are often beaming into the sides of the stations in the U.S. who are sending pictures North and South in their transactions. On the odd occassions when we have been able to make our presence known, then signals of 5/7 with good picture quality is possible. All that is required is a 3 element beam with about 70 watts pointing down under:-)". Peter wants to let more SSTV operators in the U.S. know the stations in VK-land are there and eager to work stations LP or SP. They have an elaborate array of SSTV Live Wecams to monitor DX; some on fixed antennas others on Beams that track the propagation. Visit his SSTV Live Webcam at: http://users.tpg.com.au/adslsymb/VK6AAL/

VP2M, MONTSERRAT. George, K2DM, will be active as VP2MDG during the CQWW DX CW Contest (November 25-26th) as a Single-Op/All-Band/High-Power entry. QSL via K2DM.

VP2M, MONTSERRAT. Operators Phil/G3SWH and Jim/G3RTE will be active from the Island of Montserrat between February 21-28th, 2007. Callsign will be announced later. Activity will be primarily on CW with some possibly RTTY and PSK31 on all bands 160-10 meters. Propagation permitting, they plan to have two stations on the air for as many hours every day as is possible. Their main objective is to work as many European, North American and ROTW stations on as many bands as possible. QSL via G3SWH, either direct with SAE and adequate return postage or via E-mail for a bureau reply or via the bureau. Phil's E-mail address is: phil@g3swh.demon.co.uk

VU7RG NEWS (Lakshadweep Islands). Press releases from the past week: November 15th - The WPC, Govt. of India, has initiated the process of issuing reciprocal licences to the applicants of VU7 HAMFEST

participants. The first batch of 10 reciprocal licences are
received today. More are expected to be issued in due course.

November 17th - We are pleased to inform that the Ministry of Communi-
cations and Information Technology, Department of Telecommuni-
cations, WPC wing has released the first list of Special permission
issued to foreign hams holding Indian amateur radio license to
operate amateur radio stations from Bangaram, Kadmat and Agathi
in Lakshadweep Islands.
VU7RG - The special callsign for hams participating in Hamfest.
Amateur Radio Operations will start on January 15th, 2007.
Regards, Mohan, VU2MYH

For more details please check the official VU7 webpage (http://www.vu7.in)
on regular basis since from now on more interesting information regarding
dates, callsign(s), planning status will get published there.

YI9, IRAQ. Carlos, N4THW, is now active as YI9HW. In addition, he also
has a MARS license, AEM3BD. Carlos informs OPDX that he will be active
on all bands from 80-10 meters.

Dave WB4IUY <support@scootworks.com> wrote:
> I've been wrestling with the incoming W4 two-letter prefix buro for
> over two years. Have sent out hundreds and hundreds of cards,

I've been inactive the last 3 years, but started playing
on HF again recently. When I did, I emailed the Sterling
Park ARC, the people who do the xx4 incoming cards. I
sent an email to RWMaylott@aol.com, Dick Maylott, W2YE,
asking if there was anything new I needed to know before
I sent some new envelopes. I got a very helpful reply
very quickly. If you haven't tried talking to Dick direct,
maybe that would be a good first step.

FWIW, I wasn't paying much attention but I have received
a few envelopes over the last few years when I was inactive.

I hope your problem isn't typical; I'm going to be depending
on the bureaus more now than previously. I just sent a couple
of direct requests and in addition to the increased costs
for the DX station's postage, I see an airmail stamp is
now $0.84 here. Lucky for me I work so few new countries--
I can't AFFORD much direct QSLing! :-)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, KF2TI, NC1L, N2OO, K3TEJ, NG3K, W3UR & The Daily DX, K4ZLE, N4AA & QRZ DX, K8YSE, W9WI, W0YG, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DK8JB, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, OH2BN, RSGB IOTA, UT5UY and VA3RJ & ICPO for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX CW Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX CW Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Friday, 17th/November, through Friday, 24th/November there were 223 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3X, 4J, 4L, 4S, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5W, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, J5, J6, J7, JA, JD/o, JT, JW, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T8, T9, TA, TF, TG, TI, TK, TL, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V6, V7, VE, VK, VK9C, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, YB, YI, YK, YL, YN, YO, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZD9, ZF, ZK1/n, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4O6/YT6, MONTENEGRO. Operators Martti/OH2BH, Pertti/OH2PM and Ranko/YT6A are making plans for this weekend's CQWW DX CW Contest (November 25-26th). Look for the following possible lineup:
4O3B by OH2BH; Single-Op/Single-Band (80m). QSL via OH2BH.
4O3M by OH2PM; Single-Op/Single-Band (160m). QSL via OH2PM.
YT6A by YT6A; Single-Op/Single-Band (20m). QSL via YU1FW.

4O60BH BIRTHDAY PARTY PRESS RELEASE #3 (Tuesday, November 21st, by Jarmo, OH2BN). "N2NT AND VK3EW WIN GRAND PRIZES: At the Monday night dinner in connection with the 4O60BH birthday on-the-air activity, a number of Lucky Draw prizes were given out to wrap up this special event which produced 5000 Montenegro QSOs by those who participated. The proceedings were led by Tine, S50A and two Lady Fortunas. The lucky winners are:
Heil Classic Pro Microphone: N2NT
MicroHAM Band Decoder: VK3EW
African Mystique Mask: AD1C
9V1YC DXpedition Videos: K0GY UU4JMG N1RK OH2BEJ K3ZXL
Danny Weil and Colvin Radio Expedition Books: W3LPL VE3EJ
MicroHAM USB Interface II: NC1L
Daily DX & Weekly DX Subscriptions: VK3SX N9JV CT1CJJ ZL3WW
YAESU T-Shirts and Caps: N4KG N5ZM OH2VZ YU1SL IK4WMH K8MN UT7EZZ LZ1ZJ 9A4NA SM5DJZ
Montenegro Souvenirs: ON4TT
OH2BH Birthday Coffee Mugs: I1JQJ SM5CZQ YU1AOT OH2LU W3NJ

While many of the 4O60BH participants are heading home today, OH2PM, OH1TX and OH2BH will remain active on a variety of bands. Our sincre congratulations to the winners and thanks to all who participated in the QBH activity."

5A, LIBYA. The international team is up and active now as 5A7A with 8 stations on various modes on all bands through November 29th. QSL via DL9USA. For updates, check their Web site at: http://5a7a.gmxhome.de
An online log search is now available at:
http://www.df3cb.com/logsearch/5a7a/
PLEASE NOTE: As of 2008z, Friday, November 24th, the Web site states: "Most 20m QSOs of Nov 16 are still missing in the online log and others as well. There are also some 1,000 QSOs on 160m which were logged on paper during the first days of operation and that are not yet here in the online log. If you had a good QSO do not work us again. Thanks for your under-standing. 73's from the team..."

9K, KUWAIT. Faisal, 9K2RR, will be active as 9K2HN during the CQWW DX CW Contest (November 25-26th) as Single-Op/Single-Band (40m) entry. QSL via the address on QRZ.com.

B1, CHINA. Operators BA1RB, BA1AAX, BD1BNV, BD1WC, BD1VF, BD1HP, BD1NNI and possibly others will be active as B1Z during the CQWW DX CW Contest (November 25-26th) as a Multi-Single entry. QSL via EA7FTR.

B3, CHINA. Several Chinese operators (along with a ZL1 operator and possibly others), will be active as B3C during the CQWW DX CW Contest

(November 25-26th) as a Multi-Single entry. QSL via BA4EG.

DXCC NEWS. "How Do I Qualify to Receive the 2006 DXCC Yearbook?" by Bill Moore, NC1L, ARRL DXCC Branch Manager (dated November 15th):
End of the Calendar Year - Reminder...
"In order to receive a copy of the 2006 DXCC Yearbook at no cost, you must have made at least one DXCC submission for the year 2006, and it must be/have been postmarked by December 31, 2006. This is also the date on which the DXCC Challenge standings will be based for the Yearbook. In order to receive the free copy of the Yearbook you must be an ARRL member and have made a DXCC submission during the 2006 calendar year,
-- OR --
You must be an ARRL member and be current on the DXCC Honor Roll. If you are an ARRL member and current on the DXCC Honor Roll, you will receive a copy of the Yearbook even if you did not make a DXCC submission during the year.

In either case, you must be an ARRL member to receive a free copy of the DXCC Year book. The 2006 DXCC Yearbook will be available in the Spring of 2007. Copies of past editions are still available to anyone for $5 plus postage......."
73 es DX! Bill Moore, NC1L, DXCC Branch Manager - www.arrl.org/awards/dxcc

FY, FRENCH GUIANA. Didier, FY5FY, will be active in the CQWW CW Contest (November 25-26th) as a Single-Op/All-Band/QRP entry. QSL via FY5FY.

HP, PANAMA. Operator Wil, DJ7AA, will be active as HP1/DJ7AA during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (20m) entry. QSL via DJ7AA by the Bureau.

IOTA NEWS.....
AS-126. An International group of operators, namely Champ/E21EIC (Team leader), Dej/E21YDP, Bruce/AA4XR/HS0ZCY and Alex/UT5UY will operate mainly as E21EIC/P from one of the most wanted Thailand IOTAs - Lipe Island, in the Malay Peninsula South West Group, between December 5-12th. Also, operators will use their own Thai callsigns. Activity will be on 160-10 meters, CW, SSB and the digital modes. QSL via their home callsigns.

AS-150. Look for operators Kevin/BA4XA, Roy/BA4VE, Zhang/BD3APX, Zhang/BD4IXA, BG4VES and Chang/BG6IQD to be active as BI4N from Linshan Island, December 6-10th. Activity will be on all HF bands, using a Kenwood TS480HX, TS450s, 2 element 40m yagi, 4 element triband yagi and 30m vertical. QSL via BA4XA, driect only.

NA-034. Operators Chris/K8QV, Jim/N4AAC, Rick/KG4MRH, Tracy/KG4MRG, Mike/N4MAA and Mike/AI4JD will active as W4A for the first activation of the Terria Verde lighthouse (ARLHS USA-1335) located on Cunningham Key (USi FL-284S, Pinellas County), Florida. Activity will be between December 8-11th on the

following suggested SSB frequencies: 3875, 7235, 14310 and
21330 kHz. QSL via K8CXM (QRZ.com).

NA-110. Rich, K4FCP, willl be active as K4FCP/p from Hunting Island,
December 27-30th. Activity will be on 20/15 meters. QSL via
K4BMS (QRZ.com).

SA-023. Cris, PY7GK, will be active as ZY6GK from Itaparica Island,
December 27-30th. Activity will be mainly 20/15/10 meters
CW/SSB, and possibly 40/30 meters. QSL via the bureau or
direct. Please, no eQSL.

SA-050. Oscar, LU1XS, has received authorizations by the Chilean
government to go Navarino Islands between December 8-10th.
He will sign CE8/LU1XS and be active on 40/20/15/10 meters
CW. QSL via LU1XS or LoTW.

J7, DOMINICA. John, K3TEJ, will be active as J79Z from November 22-29th.
Activity will be on 160-10 meters including the WARC bands and as a
Single-Op/All-Band entry in the CQWW CW Contest (November 25-26th). QSL
via K3TEJ.

KH8, AMERICAN SAMOA. Look for KH8Q to be active starting December 1st,
and finishing on December 14th. The operators are Pete/N0FW, Jay/K4ZLE,
Charlie/W6KK and Mike/N9NS. They will be active on 160-10 meters, CW and
SSB, including efforts in the ARRL 160m and 10m Contests. QSL via W8QID
only. If you use the KH8Q mailing address your card could be delayed as
long as forever!

LX, LUXEMBOURG. Operators Lars/DF1LON, Juergen/DL4SDW, Ralf/DL5SEJ,
Bernd/DL8SCG and Philippe/LX2A will be active as LX7I during the CQWW
DX CW Contest (November 25-26th) as a Multi/2 or Multi-Single entry.
QSL via LX2A. Visit the following Web page for more details about the
station and online logs: http://www.lx2a.com

NEW OFFICERS FOR 2007. Members of the North Jersey DX Association (NJDXA)
has elected the following officers for the 2007 term:
President - Stephen Mendelsohn, W2ML
Vice-President - Les Kalmus, W2LK
Treasurer - Gene Ingraham, N2BIM
Secretary - Rich Gelber, K2WR

PJ4, NETHERLANDS ANTILLES. Kelly, N0VD, will be active as PJ4/N0VD from
Bonaire between January 6-13th. This is a business trip, so Kelly will be
active as time allows. QSL to his home callsign.

QSL INFO AND NEWS.....
GB3CCX via G6AWT ON8SUB via ON6PQ
LZ7X via LZ1UQ OT7H via ON7HE

NOT THE QSL MANAGER. Doug, W9WI, reports in the last few weeks he has
received via the bureau two cards for J79WI, specifying "via W9WI".
Doug states, "I am NOT the manager for J79WI. In fact, I am not the

QSL Manager for *anyone* (except myself!) and the only two countries I've ever operated from are the USA and Canada." The correct QSL route for J79WI is via WI9WI.

MIS-INFORMATION ON VK9CGG QSLING. Charlie, W0YG, reports, "I have seen many spots on DX Summit that state N0KV for bureau cards. There are no bureau cards for this operation. We will not use one. All cards go direct only to W0YG."

RK0, ASIATIC RUSSIA. Members of the Vladivostok ARC will be active as RK0LWW during the CQWW DX CW Contest (November 25-26th) as a Multi/? entry. Operators mentioned are: Oleg/RA0LSO, Vitaly/RU0LAX, John/RW0MM and Pavel/UA0LSK. QSL via: Vladivostok A.R.C., P.O.Box 101, Vladivostok 690090, RUSSIA.

SPECIAL EVENT. The International Shortwave League (ISWL) continues to celebrate their 60th Diamond Anniversary. Look for GB6SWL to be active from Tewkesbury in Gloucestershire, November 25-26th. Walt, G3NYY, will be the main operator. QSL via G6XOU: The ISWL QSL Bureau, Belle Fleurs, 18 Wade Reach, Walton on the Naze, Essex, CO14 8RG England.

UA9, ASIATIC RUSSIA. Vladimir, UA9BA, will be active as UA9AYA during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Single-Band (40m) entry. QSL via UA9BA.

VP2V, BRITISH VIRGIN ISLANDS. Operators Fred/K9VV, Cal/K6CT and Tom/CX7TT will be active as VP2VVV during the CQWW DX CW Contest (November 25-26th) as a Multi-Single/All-Band entry. QSL via K9VV.

VP5, TURKS AND CAICOS ISLANDS (NA-002). Look for Kelly, N0VD, to be operating from here December 2-12th, with an entry in the ARRL 10m Contest as VP5D. Before and after the contest, Kelly will be signing VP5/N0VD with a concentration on the lower bands. A special effort will also be made to activate various digital modes on all bands outside of the 10m contest. QSL both VP5D and VP5/N0VD direct, via the bureau or LoTW.

VR2, HONG KONG. Martin, AA1ON, will be active as VR2/AA1ON during the CQWW DX CW Contest (November 25-26th) as a Single-Op/Low-Power entry. Look for him on 20/15/10 meters. QSL via AA1ON, direct or by the bureau.

VU7LD DXPEDITION, LAKSHADWEEP ISLAND UPDATE. Gopal, VU2GMN, on November 18th reports (in VU7LD PRESS RELEASE # 5): "All heavy equipment and supplies were loaded onto MSV Abbas from Mangalore and has sailed this morning to Kavaratti. Pictures of the boat that is carrying the stuff being loaded and sailing away are on our newly introduced photo gallery on the webpage http://arsi.info/vu7. We will add more pictures as they become available. More information is also now on the webpage regarding support received etc. We are very happy to have received confirmation of support from NCDXF. Their logo is now on our webpage. This will go a long way for our operation. Our thanks to the NCDXF and others who are supporting us.
Tickets on the ship to Lakshadweep are very difficult now as it is the Hajj season and Hajj travelers get priority. However tickets are in hand for the first batch of operators and the setup team and they leave by the

MV Bharat Seema which departs from Kochi port on the 29th November AM. It will reach Kavaratti on the 30th morning giving just a day to get all stations QRV. The second batch will leave around the 12th December, the exact date depending on the ship sailing schedule and a third batch around the 22nd December 2006. Stay tuned... 73, de Gopal, VU2GMN"

VU7RG DXPEDITION/HAMFEST, LAKSHADWEEP ISLAND UPDATE. Mohan, VU2MYH, reports on November 22nd: "We are pleased to inform that the Ministry of Communications and Information Technology, Department of Telecommunications, WPC wing has released the first list of Special permission issued to foreign hams holding Indian amateur radio license to operate amateur radio stations from Bangaram, Kadmat and Agathi in Lakshadweep Islands.
VU7RG - The special callsign for hams participating in Hamfest.
Amateur Radio Operations will start on January 15th, 2007. Until today a total of 33 DX Hams have been officially approved for the VU7RG operation!"

XT2, BURKINA FASO (Update). The Provins ARS (F6KOP) announced their next DXpedition will be to Ouagadougou, Burkina Faso, and will be active as XT2C between January 6-20th (See OPDX.780 and OPDX.783). The F6KOP group announced this past week that their XT2C Web page is up and running at: http://xt2c.free.fr/home_uk.html

YI, IRAQ. Bob, N2OO, informs OPDX that his friend Mitch Gill, K7TUT, who is serving in Iraq, has finally received his license after a very long wait. Mitch will be signing YI9TU and will be operating out of Tallil AB, Iraq, just outside of UR, location of the Ziggurat of UR and birthplace of Abraham whose home is there as well. Look for him to be on 40/20/17/10 meters, SSB, CW and PSK31 to start. His hours will be sporadic between 1500-1800z (because he gets no days off). Also, look on Sundays between 0400-0600z. Mitch will be on R&R in the states from approximately between December 13-30th. He will be back on the air between January and February until he is moved into Tent City as he prepares to come home sometime in March. ALL QSLs go to N2OO. Mitch states, "... be patient with me as I am a rookie at being a DX station ,but I want to give out as many QSOs as possible."

ZF, CAYMAN ISLANDS. Operators John/K6AM, David/N5DO, Jim/K6ZH and Robert/K5PI will be active as ZF1A during the CQWW DX CW Contest (November 25-26th) as a Multi-2 entry. QSL via W5ASP, LoTW, direct or by the bureau.

The following stations are expected to be active in the
CQ World Wide DX CW Contest (November 25-26th, 2006)

Thanks to Bill, NG3K, for providing OPDX readers the following consolidated listing of the participants in the 2006 CQWW CW Contest. For a more detailed listing in HTML format, please visit the Web page at:
http://www.ng3k.com/Misc/cqc2006.html (in alphabetical order by callsign)
http://www.ng3k.com/Misc/cqcd2006.html (in order by CQWW entity)
http://www.ng3k.com/Misc/cqcz2006.html (in order by CQ Zone)

Hey Ken, I recognized your call right away :-). I've been emailing Dick and messing with this for the last 2+ years. I sent batches of SASE's to them 3 different times over the last 2 years, and they seem to be loosing them. After sending out over 1100 cards in the last two years and receiving only 7 back, I started emailing hams I'd worked. I gots lots of replies from people who said they'd replied via the buro. I was recently sending emails to Dick and my particular handler shown on their website, but was getting no response. I was getting pretty frustrated and I emailed a PILE of folks at the ARRL, and got 1 response. Like magic, an envelope with 21 cards was postmarked to me the very next day. Magic.

I realize the buro isn't a paid position, but it is supposedly a 'benefit' of being an ARRL member. It's really the only reason I join the ARRL anymore, so I'd like to have it work.

Hopefully, it'll work for you...

Dave WB4IUY

Agreed on the DX Summit site.
It's excellent, DX Summit uses the WorldIRC IRC (Internet Relay Chat)
servers that are located in various locations thoughout the US and EU. (AU
server coming soon).
Of course, I have a vested interest in promoting DX Summit and indeed,
WorldIRC.org, I am the WorldIRC.org Network Administrator :)

After researching this subject it seems there is no clear licensing statutes in place nor is ham radio prohibited there. Are any of the recent operations from there considered legal and accepted by the DXCC and the DX community at large? My only QSL from there is from the mid-60's of XW8AX, Bill Mitchell of the American Embassy at the time. I am waiting to hear from K4VUD about his operation there and how it was pulled off.

Many Thanks,
K4JDP-John

Please don't generalize this to the entire ARRL incoming bureau.
There may be a few isolated folks in the bureau who don't keep up with
things as they should, but I can assure you that in the 8th area bureau,
things run smoothly And Especially I can assure you that the 8E
callsigns (which I handle) are handled very quickly and carefully.

HI Bob,

I know there's lots of folks in the buro, but I guess the "proof is in the pudding". Maybe it's time for the ARRL to hold the buro accountable, and do a little field survey. I've been dealing with crappy service, unansered emails, and a less than a 1% return rate since '03. I've taken the time to email a few HUNDRED hams I've worked, most of whom responded said they replied via the buro (yet the cards never made it to me). When I asked a similar question on our local reflector of only 140 uses, several people spoke up with similar problems. I posted the message on this forum and got 41 negative replies in less than 48 hours. Seems strange that little old me can cause all this trouble all by myself. Darn, this muct be all my fault, what the heck am I thinking...

I've sent three batches of envelopes and additional postage to my incoming buro over the last 2 years (just to make sure that wasn't the problem), yet when I _do_ get a reply from the buro it's as if they've lost my envelopes as well as my incoming cards.

I didn't just fall off the tater truck, yesterday. I've been an ARRL member since 1974, and have used the buro for decades. Everything went well until recent years. When I posted my question locally, the same expecience as mine was described by folks with different handlers, so it's not isolated to that. These responses were from old-timers and greenies alike, so there's no commonality there. I sent emails to MANY MANY MANY ARRL addresses (right off of the ARRL website), and only got one reply..and it said "I'll be back in touch with you" ... NOT! That was it, another dead end. What's with that? Maybe no one at the league wants to deal with a problem...dunno, just my experience. Must be my email account, spam filter, etc...can't possibly a real problem.

I'm tired of trying to save the world with Ham radio. I've taught classes, started and ran the local VE team, built and maintained loads of repeaters, held positions with ham radio clubs, run club contest stations, managed many field day operations, held code practice sessions on the air, etc. I've done my time. Yet, when I tire of having to fight for 3+ plus years to get some little piece of the ARRL "benefit" package, some want to point out that my dues help to get some oddball sliver of spectrum, fight off BPL, etc. I only want to get my cards handled as promised in exchange for my dues. That's all...

Maybe there's no problem at all... I'd love for someone to point out how this is my problem or fault. Personaly, I'm pretty sure this can't be done.

Hey, a slightly bright side of this... after sitting up half the night and emailing every email address I could find (AGAIN), a small envelope of cards was magically dropped into the USPS and postmarked to me. The very next day. Why should an ARRL member have to make so much noise to get something working? It simply should be. If I ran my own business in this way, I'd have been out of business many years ago.

Hello Mark... Despite what those who wear rose colored glasses think/say, the problem is surely widespread. I've got a mailbox full of messages from folks like youself to prove there is certainly something gone wrong with the buro. Thanks for the reply, maybe someone who gives a flip about the ARRL buro will step up and get the system back on track, before those of us who promarily send them our $$ for this purpose quit and keep our money in the bank. Otherwise, the ARRL's printed statement about the Buro being a benefit of membership is simply hot air.

I read about the buro being a benefit of the league, but if I am not
mistaken, the incoming buro(s) do not require ARRL membership for their
services, on the out-going does.

And to those who work 100's per month and get little back...hang in
there. I mail out cards from the mid-90's that just arrived via really
REALLY slow boat

Dave, there's room for one other "bright spot" in this
cloudy situation: I know usenet groups are falling out of
use, and a lot of the ones that ARE still active are full
of obscene morons shouting abuse at each other.

So it's not good that you got 41 negative responses about
the incoming bureau service--but it IS good that that many
people are still reading rec.radio.amateur.dx! :-)

Speaking of QSLs, when I started playing on HF again the
other week, I queried my logging database. I've got around
190 worked, and around 180 actually confirmed. Maybe one
of these days I'll actually get around to applying for
DXCC .. :-/

Glad the 5B sorters have done fine for ya. I'm sure there are lots of them who are doing fine...I'm not saying the whole buro is defunct, I'm saying there are some portions of it that are. Heck, most of the ARRL officers on their own website won't even answer emails about this. I don't know if they "don't want to get involved", "are tired", or what. In fact, the only ARRL official who would reply was Sharon Taratula on Mon, 20 Nov. Her exact comment was "I will get back in touch with you." It's now Dec 1, and nothing else has come from her. This is the typical type of responses I've been getting since 2003.

I don't doubt that I'd tire of it, Derek. Maybe, the handlers who are tired of their jobs, should turn it over to someone else (if there is someone else who would take it). I've done lots of volunteer jobs over the years that became tiring, but I didn't just lay down on the job. I kept doing them until someone else could take over. Like I said in an earlier comment...I've been around the lock a few times. I'm just burning out on trying to get the issue fixed.

I bought this set about 2 years ago and loved it ever since.
I am a Novice-license HAM in the Netherlands.
At this moment only allowed to use 2m and 70cm bands.
At the moment I bought the set it was already an issue here that
Novice-HAM's would get permission to use (parts of certain) HF bands. All
the paperwork (governement) did cause this to be postponed until now.
When everything goes as it should be (and it seems that way) then I can use
my FT-857D for HF with 25 Watts. I am looking forward to this moment.

December 4, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, K5DX, W5AZN, K8YSE, ND9M, Pete's-DX-Newsdesk, DJ5AV & The DX News Letter, DK8JB, DL5YWM, EA8AUW, F5NQL & UFT, F6FQK, G4EDG, I1JQJ/IK1ADH & 425 DX News, I1HYW, OH5DX, OK1DOT, RSGB IOTA, TA3YJ, UR5WCW, UT5UY, VA3RJ & ICPO and VE3HO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 26th/November, through Sunday, 3rd/December there were 231 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5W, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9X, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, J7, JA, JD/o, JT, JW, JY, K, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, R1FJ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T8, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9C, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, VU7, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

5A7A NOW QRT. The 5A7A DXpedition went QRT early November 29th. According to the online log (December 3rd), this operation netted just over 112k QSOs. A complete band/mode breakdowns of QSOs are available at: http://www.df3cb.com/logsearch/5a7a/

8P, BARBADOS. Dean, 8P6SH, will be active in the ARRL 10 Meter Contest (December 9-10th) as a Single-Op/SSB/High-Power entry. He is also expected to be active in the CQWW RTTY WPX Contest (February 10-11th) as a Single-Op/Single-Band (20m) entry. QSL both activites via KU9C.

ANTARTIC TRIPS PLANNED. A group of four American hams are planning a few deep south expeditions which includes stops in the Antarctica, South Georgia and the Falklands. Operators Marc/K9PET (VP8DJU), Jim/W3ASA (VP8DJV), Bill/W3WKO (VP8DKD) and David/W3WKP (VP8DKG) are scheduled to be at the following locations:
February 11th - Depart Ushuaia, Argentina
February 14-17th - Antarctica (KC4)
February 19th - South Orkney (VP8)
February 22-25th - South Georgia (VP8)
February 28th-March 2nd - Port Stanley, Falkland Islands (VP8)
March 4th - Return to Ushuaia.
The operators, when in the Antarctica, will use their homecall/KC4.
Activity will be on 40/20/15 meters, CW, SSB and PSK from all locations.
For updates, check the Casual DX Web page at: http://www.casualdx.com/

C6, BAHAMAS. Operators Janet/W8CAA, Jim/K8FL, Phil/W9IXX/C6AXX and Joe/W8GEX/C6DX will be active from Eleuthera (NA-001), December 5-13th. Activity will be on all bands and modes with two stations (one HF and the other on 50125 kHz). QSL C6DX via W8GEX and C6AXX via W9IXX.

EF8, CANARY ISLANDS. Operators Edu/EA8AUW and Juha/OH9MM will be active from URE Las Palmas Section as EF8A during the ARRL 10 Meters Contest (December 9-10th) as a Multi-Op/Mixed-Mode/High-Power entry. Edu informs OPDX that the special EF8 prefix is NOT "usually" used on the CW mode. Also, the callsign EF8A is a special callsign from EA8, and a single letter suffix is NOT "usually" used. QSL via EA8AUW.

"HELLO"....100 YEARS OF VOICE OVER RADIO WORLDWIDE. To commemorate Canadian experimenter Reginald Fessenden's Christmas Eve broadcast of 1906 - Patty Martin, W5AZO, is making available a free music download of "O Holy Night". Holding the distinction of being the very first carol to be played over the radio, Fessenden himself played this song on the violin and then sang the last verse during the historic radio program. "O Holy Night" (written by Placide Cappeau in 1847) performed by Patty Martin can be found at: http://www.w5azn.com/christmas_lights.htm
For more details about "Hello... Celebrating 100 years of Voice Over Radio Worldwide", visit the Web pages: http://www.hello-radio.org/
Special event stations will be active during December 29-30th (2000-2000z).
Details and list of stations available at: http://www.hello-radio.org/event/

IOTA NEWS.....
AS-126. (Update) An International group of operators, namely Champ/E21EIC (Team leader), Dej/E21YDP, Nopporn/HS0EHF, Bruce/AA4XR/HS0ZCY and Alex/UT5UY will operate mainly as E21EIC/P from one of the most wanted Thailand IOTAs - Lipe Island, in the Malay Peninsula South West Group, between December 8-13th. Also, operators will use their own Thai callsigns. Activity will be on 160-10

meters, CW, SSB and the digital modes. QSL via their home
callsigns.

EU-075. Operators Steve/G4EDG and Jeff/G4ELZ will be active as
SV8/G4EDG/P and SV8/G4ELZ/P, respectively, from Aegina Island,
December 4-10th. Activity will be CW only. QSL direct only
with return postage. Logs will also be uploaded to LoTW ASAP.
QSL via G4ELZ (QRZ.com).

NA-062. Operators from the C6ARI team (see OPDX.783 and OPDX.784) will
activate Key West as W4/homecall between December 29th and
January 2nd (2007), before their Cay Sal Bank (NA-219), Bahamas,
operation, January 3-9th (2007). Operators are Rene/DL2JRM,
Bodo/DL3OCH, Dan/DL5SE and Daniel/DL5YWM. It is also planned
to activate some lighthouses for the ARLHS and islands which
counts for the U.S. Island Award (USI). QSL via their home
callsigns.

SA-050. Oscar, LU1XS, will be active as CE8/LU1XS from Navarino Islands,
December 8-10th. Activity will be on 40/20/15/10 meters CW only.
QSL via LU1XS (QRZ.com) or LoTW.

J6, ST. LUCIA (NA-118). Oleh, KD7WPJ, will be active as J6/KD7WPJ between
December 21-27th. Activity will probably be on 160-6 meters CW/SSB. QSL
via his home callsign.

LIGHTHOUSE ACTIVITY/NEWS.....
Lighthouse Christmas Lights QSO Party will be held between December
16th and January 1st (2007). More details about awards, certificates,
prizes and rules for the ARLHS 2006 Lighhouse Christmas Lights QSO
Party (LCL 2006) are available on the following Web page at:
http://arlhs.com/LCL-2006-guidelines.html

Members of the Texas Lighthouse Radio Society will activate their
club station W5TLH from the Kemah Texas Lighthouse (ARLHS Number Pending;
Texas' Newest Lighthouse!) on December 27th (1900&#65533;2300z) and December
28th (1500&#65533;2100z). Suggested SSB frequencies are: 21240, 14260 and 7260
kHz. The Kemah Lighthouse, completed earlier this year, stands at 144
feet (the tallest in Texas) and is topped by a 3rd order rotating lens.
It is reported that the 1000 watt light can be seen for 23 miles. QSL
direct to W5TLH, c/o Jim Martin, 637 Newberry Dr., Richardson, TX
75080-5622. For a QSL card use a #10 business size return envelope
(SASE). For a QSL card and an unfolded certificate send a 9" x 12"
return envelope (SASE). More details available at: http://www.w5azn.com
E-mail: w5azn@arrl.net

In conjunction with the "Hello... Celebrating 100 years of Voice Over
Radio Worldwide&#65533;, the Texas Lighthouse Radio Society (W5TLH) will also
be activating the Lydia Ann Channel Lighthouse (USA 018) near Port
Aransas, Texas, December 30th (1500-2000z). Suggested SSB frequencies
are: 21240, 14260 and 7260 kHz. The U.S. Lighthouse Service established
a radio beacon at this location in 1928. Built in 1857, it is now

privately owned by the family of HEB grocery fame. Web link at:
http://www.lighthousefriends.com/light.asp?ID=158
QSL direct to W5TLH (see details above).

Operators Chris/K8QV, Jim/N4AAC, Rick/KG4MRH, Tracy/KG4MRG, Mike/N4MAA
and Mike/AI4JD will activate W4A for the first activation of the Terria
Verde Lighthouse (ARLHS USA-1335) located on Cunningham Key (NA-034,
USI FL-284S, Pinellas County), Florida, December 8-11th. Suggested
SSB frequencies are: 3875, 7235, 14310 and 21330 kHz. QSL via K8CXM
(QRZ.com).

NEW OFFICERS FOR 2007. The members of the Texas DX Society are pleased
to announce its officers for 2007:
President: Mike Davidson - N5MT
Vice President, Membership: Steve Smothers - W9DX
Vice President, Programs: Madison Jones - W5MJ
Secretary/Treasurer: Keith Dutson - NM5G

OA, PERU. After finshing the C6ARI (NA-219) DXpedition (see OPDX.783 and
OPDX.784), Daniel, DL5YWM, will travel to Lima, Peru, on the 12th January.
He will be active during his freetime as OA4/DL5YWM until the January 31st.
Activity will be on 160-10 meters CW/SSB. He hopes to activate some IOTAs
during his stay there (ed. Did not mention which IOTAs.). QSL via DL5YWM
(QRZ.com).

OH0, ALAND ISLANDS. Operators Juha/OH1JT, Jouko/OH1RX, Mika/OH2JA and
Ari/OH5DX will be active as OH0Z during the CQ 160M CW Contest (January
27-28th) as a Multi-Single entry. QSL via W0MM.

QSL INFO AND NEWS.....
JE7YSS via 7N4TEN VP2VVV via K5WW
SA2T via SM2YIZ YR8B via YO8KGA

7X2EB. Fran, EA7FTR, is now the QSL Manager.

Garth, VE3HO, informs OPDX that he will be handling QSLs for KH6BK
(Op JA1BK) and 9Y4AA (Op N6TJ) for the recent November 2006 CQWW DX
CW Contest. Visit his Web page for QSLing details at:
http://www.ve3ho.ca/ve3ho/ve3ho-qslmgr.htm

NH6P. Petr, OK1DOT, informs OPDX that as of January 1, 2007, he will
become the QSL Manager.

TG9AKH. Petr, OK1DOT, informs OPDX that he is now the QSL Manager.

XV1X. QSL Manager is Petr, OK1DOT, as of December 1, 2006. More details
about this station and how to QSL are available at:
http://www.qrz.com/xv1x

Nilay, TA3YJ, informs OPDX that she has sent out the QSL cards for TA3J,
TA3J/0 (AS115), TA3J/3, TA3J/4 (LH), TA3J/60, TC2K4J, YM125ATA, TA3YJ,
TA3YJ/4 (LH), YM3ATA, YM3LZ (WPX2000) and YM3LZ (WAE2000) to the QSL
Bureaus of Austria, Belgium, Czech Republic, Finland, France, Germany,
Greece, Holland, Hungary, Ireland, Israel, Italy, Japan, Luxemburg,

Poland, Portugal, Romania, Serbia, Slovakia, Spain, Turkey, Ukraine and United Kingdom direct November 29, 2006.

SPECIAL EVENT (ISWL). The International Shortwave League (ISWL) continues with their 60th (Diamond) anniversary celebrations throughout the month of December. December is the "final month" of celebrations. ISWL Life Vice President Pete Rayer states, "We would like to thank everyone who participated in our events throughout 2006, or had QSO's with the special event callsigns. We have had a very successful year. Our thanks also to all the DX Editors around the world, for carrying the news for us. It is very much appreciated." Look for the following to be active this month:
GB60SWL - Saturday, December 16th, the final operation of this callsign will be active for 1 day from "The Naze" at Walton on the Naze, in Essex. Herbie, G6XOU, and the "Essex team" - will be the main operators.

GB6SWL - December 9t-10th. Activity for 2 days from Northampton, in Northamptonshire. David, M0DUU, will be the main operator.

GB6SWL - December 16-17th. Activity for 2 days from Braintree, in Essex. Keith, M0CLO, will be the main operator.

GB6SWL - December 23-25th. Activity for 3 days from Bagulay, in Manchester. Ron, G6BMY, will be the main operator.

GB6SWL - December 26-27th. Activity for 2 days from St. Sampson, in Guernsey. (Channel Islands). Lionel, MU0GSY, will be the main operator.

GB6SWL - December 30-31st. The final operation of this callsign and activity will be for 2 days from Walton on the Naze, in Essex. Herbie, G6XOU, will be the main operator.

The ISWL club callsigns - GX4BJC/A and MX1SWL/A will also be active throughout December. Please note that /A suffixes have been reintroduced in the UK.
The ISWL Awards Program is open to non members for a very small fee to cover postage to any country in the world. Please visit the following Web page for all the details, including QSL information and the Special Diamond Anniversay Awards etc... at: http://www.iswl.org.uk

TP, FRANCE. Francis, F6FQK, TP2CE Station's Director, informs OPDX that to commemorate the 20th anniversary of the creation of the Council of Europe Radio Amateur Club (TP2CE), look for special activity to take place between December 8-10th, using the callsign TP20CE. QSL via F5LGF. This will be the last activity with this special callsign. Also, during this activity, a special "20th Anniversary Cup of the Council of Europe" can be won by 5 individuals. More details and rules are available (in 6 languages) at: http://ewwa.free.fr
Visit the Council of Europe Radio Amateur Club (CERAC) Web site at: http://www.coe.int/t/e/tp2ce

UARL-15 AWARD. The Ukrainian Amateur Radio League (UARL) will be celebrating their 15 anniversary with a special commemorative "UARL-15 Award". Having QSOs with stations using the prefixes EM15, EN15 and EO15 during the period between December 15-25th are valid for the award. To earn the award, applicants must complete the following rules:
- European ARS must have QSOs with 15 different EM15, EN15 and EO15 stations (duplicate QSOs are valid ONLY on different bands).
- ARS from other continents must have 15 QSOs with EM15, EN15 and EO15 stations (for this category duplicate contacts are valid on different bands and modes).
QSO with EM15UARL counts as 3 QSOs for European ARS and 5 QSOs for other continents. Award is free of charge and will be sent via the national amateur radio organizations. Those who want to receive the award to home address must enclose postage - C.I.S. and European countries 2 USDs, others - 3 USDs. Applications and postage must be sent before February 15, 2007, to the following address: Vlad Ageyev (UR5WCW), P.O.Box 1856, LVIV 79040, Ukraine. E-mail applications must be send to: LRU_award@ukr.net
The stations that will be active during this activity are: EM15F, EM15FHY, EM15P, EM15Q, EM15UARL, EM15UD, EM15UN, EM15V, EM15W, EM15X, EM15Y, EM15Z, EN15U, EO15EK, EO15FA, EO15FF, EO15FT, EO15FW, EO15FY, EO15FAL, EO15IGF, EO15II, EO15IN, EO15IT, EO15MID, EO15NK, EO15NT , EO15PWC, EO15QA, EO15QWX, EO15QYY, EO15UA, EO15UAP, EO15UN, EO15UQ, EO15UV, EO15WCW, EO15WZ, EO15WZA, EO15YA and EO15YW.

VP9, BERMUDA. Mark, AA1AC, will be operating from the Hamilton Parish, Bermuda, as AA1AC/VP9 from December 9-13th. QSL via to his home callsign, direct or via the bureau.

VQ9, CHAGOS ISLANDS. By the time you read this, Jim, VQ9JC/ND9M/KG4JC, will be going QRT and finishing his ship's tour as Radio Officer. He expects to leave Diego Garcia on December 5th for a four month holiday with his XYL in Florida. However, Jim expects to return to VQ9-land in April 2007 for another four-month tour. Jim provides the following to OPDX about his QSLing and his operation for VQ9-land: "All direct mail QSLs received at my Florida QTH as of November 10th have been answered. My XYL is holding the mail received after that date, and those requests will be answered after I get home. Bureau cards received as of November 10th have also been processed and will be mailed to the Outgoing Bureau prior to leaving the island. (All QSL requests go via the home callsign, ND9M.) Ops need to remember that IRCs referred to as 'Beijing Model 1' will expire at the end of December 2006. QSL requests containing those IRCs that are received too late will be answered by the bureau. (The new design is easily identified by the shiny hologram label on the front and is valid through 2009.) I've been active from VQ9 for eight months out of the past year, and so far logged 26,000 QSOs. CW accounts for 85%, with SSB at 13%, and 2% were using digital modes. About 40% have been on 20m, 20% were on 15m, and another 20% were split between 30 & 40m. Considering what propagation conditions have been like, I'm quite pleased with the results..... 73, Jim, VQ9JC / ND9M / KG4JC"

VU7, LAKSHADWEEP ISLANDS. Members of the ARSI (Amateur Radio Society of India) have begun their VU7LD activity around 1830z, November 30th, from

Kavaratti Island. This operation is expected to be an all Indian national team. According to the press release on their Web page, the first batch of operators consists of: VU2DMP, VU2IZO, VU2GGM, VU2MTT, VU2NKS, VU2NXM, VU2PAI VU2PJP, VU2RCR, VU2RDQ, VU2SWS, VU2VKU, VU3ENB, VU3KKZ and VU3SGS. Operators will sign LU7LD/homecall during this activity. The following are "suggested" frequencies for VU7LD operations:
CW - 1822, 3502, 7002, 10102, 14022, 18072, 21022, 24892 and 28022
SSB - 1845, 3795, 7060, 14260, 18150, 21260, 24940 and 28495
RTTY - 3570, 7035, 10137, 14085, 18100, 21085, 24920 and 28080
PSK - 3580, 7037, 10140, 14071, 18100, 21085, 24920 and 28120
SSTV - 14230 kHz
"The Daily DX" reported on early Sunday morning that there are "three (3) stations up and running. A fourth (4) station will be QRV after 1530Z each day to avoid QRMing the local port. The main three stations all have SteppIR beams. The fourth station has the SteppIR vertical." QSL via W3HNK. For more details and updates, the ARSI Web page is available at:
http://www.arsi.info/vu7/
Online logs will be available soon at:
http://www.arsi.info/vu7/onlinelog.shtml
Also, DXers are suggested to view the K9LA propagation forecast chart for the Lakshadweep Island DXpedition on the VU7LD Web page at:
http://arsi.info/vu7/propagation.html

Who has worked them so far, and when/what band?

I tossed a 40-meter dipole up this weekend--hadn't had the
ability to get on 40 and thought 40 might be my best shot
at working them. I saw them spotted on the cluster now and
again, over the weekend, but I never heard any of the VU7 ops
clearly, much less had a shot at working them. :-(

Glad they'll be there for a while.

Careful listening with a 4 El phased vertical array in Central Texas across both my sunset and their sunrise last night on 7005.2 on 04-Dec-2006 did let me hear them absolutely way down into the noise level. With an A/K level of 2 and 0 and a Miniprop figure of 27 or so that is far too low a signal even under that wonderful skip conditions for even a fair chance of me working them under 'normal' pileup conditions. Sadly.

The really high signal reports of the 80 CW efforts across some of this same timeline would sure suggest that what was there couldn't really be a good one, unless the station that was there was using the StepIR vertical for it and they had a really decent radial array under it or were using it elevated somewhat with four full length tuned radials under it for 80 meters.

It would be interesting to know what the group was using for their antenna on 40CW at the time and if the 80CW was a for real session and what the antenna was for that band.

In that they were willing to work 40CW -- low band -- across the really critical timeline(s) for possible QSO's with the mid-USA, it appears that the group has both a sincere wish to accomplish this very difficult path for a very prized QSO for the central USA CW low band crew. And it also appears that whomever is making the decisions to support this effort there really does know

the propagation mechanics!

The only thing I might add is that actual grayline efforts at a say ten or twenty minutes either side of their sunrise and sunset with specific careful listening for the Central USA by the crew there might well turn out to be the best real chance for the folks here who would very badly like to have this one in the logs.

So far, it is looking good for low band CW chances on this one! Here's hoping that the efforts all work out for as many as possible for this unique low band CW effort.

I had the form.htm file decoded. Nothing in it looks malicious at all and it diplays the same submission form as the original HTML page only it is humanly readable.

It appears that this is a False Positive declarartion.

If anyone wants to see the decoded HTML, I posted it in news:alt.binaries.comp.virus under the same named subject "virus on I1WQR webiste ?"

Strange results using Google. I cut and pasted the result
Email-Worm.VBS.Lee in Google (while on the group search page) and just
got one hit. I then clicked on the Web button and got:
==========
We're sorry...

... but your query looks similar to automated requests from a
computer virus or spyware application. To protect our users, we can't
process your request right now.

We'll restore your access as quickly as possible, so try again
soon. In the meantime, if you suspect that your computer or network has
been infected, you might want to run a virus checker or spyware remover
to make sure that your systems are free of viruses and other spurious
software.

We apologize for the inconvenience, and hope we'll see you again on
Google.
==========

If I am on the Google web search page I can cut and paste it in (or
type it I guess) and it returns the hits, and I can flip back from
groups search to web search. If I cut and paste on the group search
first, I cannot use the web search as I get the above error. Bug in
Google I guess.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 3rd/December, through Sunday, 10th/December there were 216 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3W, 3X, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J7, JA, JD/o, JT, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T7, T9, TA, TF, TG, TI, TJ, TK, TL, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, VU7, XE, XU, YB, YI, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZK3, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B7, ST. BRANDON (DXpedition Update/Press Release). Don Field, G3XTT, FSDXA Publicity Officer, sent out the following "FSDXA St. Brandon DXpedition • Bulletin No.2" on December 6th:
"The Five Star DXers Association (FSDXA) expedition to St. Brandon (3B7) is still on course for September 2007. The plan is to be QRV from Friday 7th September to Monday 24th September, ensuring two full weeks and three

weekends of activity. This Press Release is by way of an interim progress report, in response to a number of enquiries we have received.
The team is aware that a Polish expedition to Agalega has been announced for April 2007, but considers that demand for this rare one is such that an FSDXA-scale operation is fully justified. For example, our D68C operation netted in excess of 160,000 contacts, despite a Spanish operation the previous month which handed out almost 30,000 D6 contacts. Similarly, our 3B9C operation netted over 150,000 contacts, despite Robert 3B9FR, a resident of Rodrigues, being reasonably QRV over several years. 3B6/7 is much higher in the Wanted Lists than either of these entities.
An advance team of two will visit Mauritius early in the New Year to finalise many of the arrangements, and we will have more information following that visit. This visit was postponed from October due to illness, but all plans are now back on track and we are confident that we will be able to mount a successful large-scale (12 stations, 3 weekends, 100k+ QSOs) operation from St.Brandon in September 2007.
3B7C will have Joint Leaders by way of Neville Cheadle, G3NUG, and Don Beattie, G3BJ. We have received a number of enquiries about joining the expedition. As detailed in our previous announcement, we do have a full team in place. However, we will maintain a file of those who have expressed interest in case vacancies occur.
An early note about QSL arrangements. Neville G3NUG will be the lead QSL manager and will coordinate the QSL manager team using the very successful StarLog programme. Send direct QSLs to: Neville Cheadle G3NUG, Lower Withers Barns, Middleton on the Hill, LEOMINSTER, Herefordshire, United Kingdom HR6 0HY. Bureau cards to the RSGB bureau marked "G3NUG". There will be a facility for email requests via the website.
Last but by no means least, we welcome Martin Lynch and Sons and Nevada Communications, both major UK dealers, as sponsors. We also welcome Northern Illinois DX Association as our first cub sponsor.
As a reminder, our website will be accessible via both www.3b7c.com and www.fsdxa.com <http://www.fsdxa.com/3b9c>/3b7c where information will be posted as it becomes available."

C9, MOZAMBIQUE. Vladimir, UA4WHX, is once again in Mozambique this past week and was active as C91VB/4. His length of stay is currently unknown. QSNs throughout the past week show he was active at various times on 40/30/17/15/12 meters CW and 20 meters SSB. QSL via UA4WHX.

CE2, CHILE (Lighthouse Op). Look for Hector, CE3FZL, to be active as CE2P from Panul Lighthouse (CHI-073) during the weekends of December, January and February. Activity will be on 40/20/15/10 meters SSB only. QSL CE2P via EA5KB, Jose in Spain.

DX MARATHON UPDATE: John Sweeney, K9EL, Manager of the new CQ DX Marathon program, informs OPDX readers: "CQ Magazine's first annual DX Marathon will soon come to a close. It is now time to start gathering your country and zone contacts made in 2006 and enter them onto the official DX Marathon score sheet available at: http://www.dxmarathon.com
This year's contest ends December 31, 2006, at 2359Z, but the 2007 contest

starts immediately at 0000Z on January 1, 2007!
Submission information is available on the Web site, but all logs must be
received no later than February 28, 2007. Thanks to everyone who has
submitted their scores so far - good luck! John, K9EL"

HQ9, HONDURAS. Ray, WQ7R, will be active as HQ9R during the CQWW RTTY
WPX Contest (February 10-11th) as Single-Op/All-Band entry. QSL via N6FF.

IOTA NEWS.....
AS-013. Andrea, IZ6GJO, will be active as 8Q7AN from Kihaad Island,
December 11-22nd. Activity will be on 40/30/20/15 meters, CW
only. QSL direct to his home callsign.

AS-126. (Update) The international group of operators, namely Champ/
E21EIC (Team leader), Dej/E21YDP, Nopporn/HS0EHF, Bruce/AA4XR/
HS0ZCY and Alex/UT5UY are now active as E21EIC/P and E21YDP/P
from one of the most wanted Thailand IOTAs - Lipe Island, in
the Malay Peninsula South West Group, until December 12th. Also,
operators may use their own Thai callsigns. Activity will be
on 160-10 meters, CW, SSB and the digital modes. JA stations
QSL to JR5XPG and all others via E21EIC.

NA-0096. Serge, ON4AA, is expected to be active as HI8/ON4AA from
Hispaniola between December 2nd and January 14th. However,
no QSNs have been reported as of yet. He was also to be in
this past weekend's ARRL 10m Contest but was not spotted.
Activity is planned for 40/20 meters, SSB, RTTY and PSK31.
Also, look for him to be in the UBA Low Band Winter-Contest,
OK DX RTTY Contest, DARC XMAS-Contest, RAC Canada Winter
Contest, SARTG New Year RTTY Contest and ARRL RTTY Round-Up.
He may also attempt to activate Catalina Island (NA-122) as
HI2/ON4AA during the above time frame. QSL via ON4AA, direct
(QRZ.com) or by the bureau. Visit his Web page at:
http://www.HAMwaves.com

SA-023. Operators Cristovao/PY7GK, Ren/PY7RP and Benedito/PY7VI will
be active as ZY6T from Itaparica Island, December 26-30th.
Activity will be on 40/20/30/15 meters CW/SSB. QSL direct to
PY7GK.

OLD INFORMATION. Some how old information (from 2005) about LR5U and
LR50U, which was listed in OPDX.777 (in September), got redistributed
through various DX news sources. Activity was supposed to take place in
December. Please disregard the 2006 info.

NH8S, SWAINS ISLAND (DXpedition Update). Hrane/YT1AD, with the team of
Krassimir/K1LZ, David/K3LP, Doug/N6TQS, Harry/RA3AUU, Andrew/UA3AB,
Eugene/RK3AD, Stevan/YZ7AA, Jordan/KD7RCD and possibly Mladen/YU7NU,
Vel/YZ1BX, Srecko/YU1DX and Dragan/YZ1EW, will be head of DXpedition to
Swains Island between March 29th to April 21st, 2007, using the callsign
N8S (November Eight Sugar). They will stay on Swains Island 10 days and
will operate with 6 stations on the air at the same time. Activity will be

on 160-2 meters using CW/SSB/RTTY/SSTV/PSK31. A new NH8S Web site is up and running at: http://www.yt1ad.info/nh8s/index.html
The Web page may be called NH8S, but the callsign of the operation will be "N8S". The site is still under construction, but their tentative schedule, operating frequencies, pictures of the operators and information about the island are listed.

P40, ARUBA. Martin, W2CG, is expected to be active from here between December 11-18th. He has requested the callsign P40CG. Activity will be during his early mornings and late evenings. QSL via W2CG.

PIRATE ALERT. Jean-Louis, F5UJK, informs OPDX that someone has been pirating his callsign on 40 meters CW, especially on top of the VU7LD operation. He states that he is not equipped for 40m, so it is not him on that band.

PJ4, NETHERLANDS ANTILLES. Operator John, K4BAI, will be active as PJ4A from Bonaire (IOTA SA-006) during the ARRL International DX CW Contest (Febraury 17-18th) as a Single-Op/All-Band/High-Power entry. QSL via K4BAI.

PJ4, NETHERLANDS ANTILLES. Operator Jeff, KU8E, will be active as PJ4/KU8E from Bonaire (IOTA SA-006) during the ARRL International DX CW Contest (Febraury 17-18th) as a Single-Op/All-Band/Low-Power entry. QSL via K4BAI.

QSL INFO AND NEWS.....
HA508LTQ via HA8LTQ
RP65DZA via RZ3DZA
RP65FWW via RZ3FR
RP65MB sends automatically, no QSL needed
UK9AV direct via 700000, Tashkent, PO Box 0, UZBEKISTAN
VK1CXX via VK1TX
VU7LD via W3HNK
YI9SM via W5CSM direct
YU60BPQ via YU7BPQ

QSL 9Y4AA via VE3HO. Operators were Jim, N6TJ, and some others in a Multi/Multi Op from Tobago in the CQWW CW Contest in November 2006. QSL Manager Garth, VE3HO, informs OPDX that he does not yet have the logs.

QSL P40T via VE3HO. Operator was Richard, N6AA, from Aruba using Jim's, N6TJ, callsign P40T in the CQWW CW Contest in November 2006. QSL Manager Garth, VE3HO, informs OPDX that he does not yet have the logs.

QSL TG0AA via TG9ANF. Activity was during this past weekend's ARRL 10 Meter Contest. Operators were: TG9ATG, TG9ANF, TG9ADQ and TG9AVU.

S21, BANGLADESH (DXpedition Update). Josep, EA3BT, Team Leader of the 2007 Bangladesh operation, informs that the Bangladesh Telecommunications Authority "has finally changed their callsign - The callsign that will be used during te operation will be: S21XA. The logo and Web page has already been adapted, so please note that the new URL address of the Web page is: http://www.ea3bt.com/s21xa.htm

(The old links are still are still in place, for preventing errors.)
Josep mentions that they are working hard during these last days before their operation. The dates continue to be the same: January 10-16th. He also adds that they have included in their Web page a survey for finding out the real needs (bands/modes) of the ham radio community. Please visit the Web page and provide your needs.

SPECIAL CANADIAN PREFIX TO CELEBRATE "HELLO"....100 YEARS OF VOICE OVER RADIO WORLDWIDE". From: "Radio Amateurs of Canada HQ" <rachq@rac.ca>:
At the request of Radio Amateurs of Canada, Industry Canada has authorized all Canadian radio amateurs to use special event prefixes for the months of December 2006 and January 2007, to mark the 100th anniversary of the first AM voice broadcast by Reginald Fessenden on Decemebr 24, 1906. Reginald Fessenden, who was born in East Bolton, Quebec, on October 6, 1866, and lived until July 22, 1932, was the holder of more than 500 patents on a wide variety of subjects, and the inventor of radio as we know it today. He is particularly known for: the first voice transmission by radio in 1900, the first transatlantic two-way radio communications in January 1906, and the first radio broadcasts of entertainment and music in December 1906. On Christmas Eve, 1906, from a transmitting station in Brant Rock, Massachussetts, he sent a short program which included the song "O Holy Night" played on the violin and a reading from the Bible. A second short program was broadcast on December 31, 1906. Canadian radio amateurs are authorized to use the following special event prefixes during the period of December 1st (2006) to January 31st (2007) inclusive:
CF for VA stations CI0 for VY0 stations
CG for VE stations CI1 for VY1 stations
CH for VO stations CI2 for VY2 stations

THERE IS MORE TO REPORT! We received the following: "Exotic QSL collectors and other armchair adventurers will certainly be happy to hear that Sylvain, VE2FET, will be at it again on December 16-17th, this time under the tantalizing call CG2FET. Along with Pierre, VE2ICI, the bold Gatineau, Quebec, DX man will be staging a CW, SSB, RTTY, PSK31, non-stop extravaganza on 80-10m plus 6m, propagation permitting. In the footsteps of the successful VX2FET episode, the CG2FET slick commemorative QSL is already at the printers. All this, of course, to mark the 100th anniversary of Reginald Fessenden's first AM voice and music broadcast on December 24, 1906. And no, Pierre won't play Xmas carols on the piano on 3725 khz AM..."

SPECIAL EVENT (World Scouting Centenary). Celebrations of the Scouting Movement founding 100 years ago will first happen via amateur radio at the Scout's Australia Jamboree, January 2-13th, with the special event callsign VI3JAM being activated. The Australian Jamboree is expecting 13,000 to attend. ICOM Australia is providing an amateur radio station that will be heavily used on the HF bands. QTH is Elmore about 150 kms north of Melbourne. Also throughout the scout centenary year 2007, a second special event station VI3SAA will be active from a number of scout centenary events. Two commemorative QSLs will be issued • VI3SAA reflecting the Scouting Centenary theme 'One World One Promise', and VI3JAM in celebration of the 21st Australian Jamboree.

TF, ICELAND (IOTA Op). Members of the Russian Robinson Club (RRC) will be active here this coming weekend. The team of Sergey/RA3NAN, Eugene/RZ3EC and Andy/RZ3EM will operate as TF7RRC from the Westman Islands (EU-071) on December 15-16th, and as TF4RRC from Flatey Island (EU-168) on December 18-19th, "weather permitting". QSL both operations via RZ3EC (or QSL RA3NAN/TF, RZ3EC/TF and RZ3EM/TF via their home callsigns). Visit their Web site at: http://www.qso.ru/tf7rrc

TM8, FRANCE (AAW Station). Operators Monique/F5MLE, John/F5VHQ and Jean Pierre/F5XL will participate in the "4th Antarctic Activity Week" (AAW), February 19-25th, 2007, as TM8WAP. This special requested callsign issued by French Authorities will be good from February 13-27th, 2007. The special (double folded) QSL will be available via F5XL, direct or by the bureau. The TM8WAP callsign will qualify for the WAP-ASEA and WAP-WACA Awards as WAP-80.

VE2, CANADA (CISA Op). Igor, VE2IDX (aka-VA3YDX, J79DX, VB3M, US1IDX etc...) will be going to Bizard Island (CISA: QC-027), and hopes to be on the air using his new callsign VE2IDX before the sun sets on December 28th. He will stay on Bizard Island for a couple of days, and his main goal is to participate in "The Canada Winter Contest 2006" which will be held on December 29th-30th. His main frequencies will be 14260 kHz (daytime) and 3795/7260 kHz (during the night). SKEDs are welcomed at: Igor.Slakva@smithsdetection.com
His equipment is: Transceiver Kenwood TS-570DG, PA Kenwood TL-922a, antennas Cushcraft AP8A, Inverted Vee for 40/80, GP for 50 MHz and Yagi for 144 MHz. This is a good chance to work for the Canadian Islands Trophy (CISA Award program). Rules concerning the CISA Award program can be found at: http://www.qsl.net/ve3tpz/cisa/
QSL direct only to: Igor Slakva, 105 La Rose Avenue, #803, Etobicoke, Ontario, M9P 1A9 Canada.

VP5, TURKS AND CAICOS ISLANDS. Look for Olav, LA9VFA, to be active as VP5/LA9VFA from Jody's, VP5JM, "Hamlet" QTH on Providenciales, Caicos Islands (NA-002), December 13-29th. QSL via his home callsign, direct or by the bureau.

VQ9, CHAGOS ISLANDS. Ash/WY8Q and Sonja/KD4DZJ just received their VQ9 licenses and are operating in Diego Garcia as VQ9IE and VQ9BW respectively. Look for them on 14253 kHz SSB around 1600z. QSL VQ9IE to WY8Q and VQ9BW to KD4DZJ. Length of stay is unknown.

VU7, LAKSHADWEEP ISLANDS (VU7RG News). Press release, December 4th: "Today another 5 VU7 permits and 3 reciprocal licenses were granted by WPC (Gov. of India) to VU7RG team members.
The field tests of our VU7 scouts confirmed that internet access on the islands will allow the team to upload online logs on daily base.
VU7RG will make use of Pilot Stations, to be announced soon, which will receive and forward public observations so that the team can react accordingly in a timely manner."
Frank, DL4KQ, (on behalf of VU7RG and NIAR) reports: "We are glad to have Klaus, DL1XX, and Don, N1DG, as proofen pilots, a third one will be announced soon. You now have a comparison from the area we are going to

and this gives us the opportunity to benefit from your monitored band openings. Hence provide us with your observations so that we can analyze and consider for best service! Please visit our webpage www.vu7.in, get part of the team and provide us with your observations."

VU7, LAKSHADWEEP ISLANDS (VU2LD News). The following press release is from the VU7LD Web site date December 9th : (edited) "A second batch of 6 operators containing Gopal/VU2GMN, Lakshman/VU2LX, Sunny/VU3SPQ, Sara/ VU3RSB, Sashi/VU3ELR and Sanjay/VU2SJD set sail to Kavaratti to join the other operators who have been there since the 30th of November.
We are aware of issues with the published online logs where the mode and band have in some cases been wrong, also a couple of logs from a few sessions were not published on the Web. We are working to rectify that in the next log update expected the latest around the 20th of December.
A number of constructive suggestions have been received from the international DX community and we have taken note of the suggestions and information has already been passed on to the operators who are working to implement as many of them as is feasible.
Stay tuned 73, de Gopal VU2GMN"
Currently, the online logs are available for the period between December 1st through part of December 5th, at the following URL address:
http://www.arsi.info/vu7/onlinelog.shtml
Remember to QSL via W3HNK. For more details and updates, the ARSI Web page is available at: http://www.arsi.info/vu7/

WRTC 2006 CERTIFICATES. Atilano de Oms, PY5EG, informs OPDX that they are mailing certificates and prizes for WRTC2006 participants as following:
1) To the winners KA9FOX, PY0FF (Worked all 46 WRTC2006 Stations CW & SSB) certificate, Plaque, and shirt.

2) To all the stations who worked all 46 competitors any mode (72 winners) Certificates and shirts.

3) To the stations who worked minimum of 25 WRTC2006 stations - any mode (212 winners)
Certificates.

4) To all Officials (members of Committees) Certificates

5) To all participants of the MN/MS stations - Certificates.

They kindly ask you to confirm when you receive the envelope. They are also preparing some more information and videos, and they will keep us informed.

YW0, AVES ISLAND. After the great success of the YX5IOTA (SA-044) operation, the 4M5DX Group announces that a team of 15 experienced operators lead by Alex, YV5SSB, will be active as YW0DX from Aves Island (NA-020) beginning the second week of February 2007, for 10 days,. Activity will be on all bands 160-6 meters including the WARC bands and all modes. Suggested frequencies are as follows:
CW - 1822-1825, 3523, 7020, 10103, 14020, 18075, 21020, 24893, 28020 and 50110 kHz

SSB - 1842, 3790, 7055, 14190, 14260, 18145, 21190, 21295, 24950, 28490
and 50110 kHz
RTTY - 7040, 10140, 14090, 18100, 21080, 24920, 28090 and 50290 kHz
BPSK - 7038, 10137, 14071, 21070, 28120 and 50290 kHz
SSTV - 14232 kHz
Operators mentioned are: Alex/YV5SSB (Team Leader), Jose/YV5TX, Julio/
YV1RDX, Rafael/YV5RED, Martti/OH2BH (foreign guest), Tomas/YV1CTE, Jesus/
YV5MSG, Jose/YV5ANT, Olli/YV5WW (OH0XX), Greg/YV5OHW, Ray/YV5EU (DL2GG),
Pasquale/YV5KAJ, Franco/YV1FM, Felo/YV5GRV, Jig/AD6TF and Conrad/IT9DAA
(YV1CD). QSL via IT9DAA. They are looking for sponsors/donors. More details
are available on their Web page at: http://yw0dx.4m5dx.org/

ZA, ALBANIA. Vlado, Z35M, informs OPDX (edited): "After four and a half
years of activity as ZA/Z35M from Tirana, Albania, on November 29th, the
QSO with the German station DL7AU was QSO number 100,000. The first QSO
under this callsign was on June 3rd, 2002, with the Swedish station SK0TM.
The largest number of the QSOs are made using low power 100w and multiband
dipole G5RV at 30m. My activities from Albania will continue. I'm active
on HF bands mostly on CW, but I also use some phone. QSL please direct to
my home address: Vladimir Kovaceski, Box 10, Struga 6330, Macedonia."
Look at the QSNs from the Cluster Network, ZA/Z35M as been active on
40/30/17 meters CW between 1100-1700z.

Managed to work them this morning (VU7LD/VU2NXM) on 20 CW, long path.
(heading 120deg from Nashville)

They were pretty weak but solid copy. Pileup wasn't too bad - and
surprisingly well-behaved. Didn't have any trouble finding the guys
they were working, which made it easy to slide just above the previous
QSO.

It's going to be a real challenge to work them anywhere else, unless
conditions improve a LOT!

From central Ohio, I worked one on SSB then one on CW
within two minutes December 8, 1524Z and 1526Z)! Good,
clear confirmation on each QSO, and good copy on their full
callsigns.

Short path, 1300 watts to KT34XA tribander at 70 feet. I
listened until I found a station they were working, then called
on that frequency.

I've listened a bit since then, and have heard them often
by long path on 20 meters in the morning here.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 10th-December, through Sunday, 17th-December there were 222 countries active. Countries available: 3A, 3B6, 3B8, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1I, 4U1U, 4X, 5B, 5H, 5N, 5R, 5T, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FR, FY, G, GD, GI, GM, GU, GW, HA, HB, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J5, JA, JD/o, JT, JX, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T32, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9L, VK9N, VP2E, VP2V, VP5, VP6, VP8, VP8/h, VP9, VQ9, VR, VU, VU7, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

100 POUND DXPEDITION (VP2M - Update). Members of the "Buddipole Users on Montserrat" (BUMS) will mount a DXpedition to the island of Montserrat (NA-103) from January 29th to Feburary 6th, 2007. It seems DXpeditions have now moved from Microlite to Ultralite. DXpedition team members will pack light for this DXpedition taking only lightweight transceivers and

portable antennas. The maximum equipment weight taken to the island will be 100 pounds per person. With this lightweight equipment, the team plans many on island portable operations in the hills, on the beach, and from the volcano observatory on the southern part of the island. The team members mentioned are: Budd/W3FF/VP2MFF, Chris/W6HFP/VP2MHF, Paul/KB9AVO/VP2MVO, Mike/KC4VG/VP2MVG, Fred/W4OKW/VP2MTC, Robert/AB7ST/VP2MST, Dan/WZ1P (No VP2 callsign yet) and Scott/NE1RD/VP2MRD. Activity will be on all bands 160-6 meters, CW, SSB, PSK31, RTTY and SSTV. QSL via NE1RD. Check their Web site for more information and updates at:
http://dxpedition-vp2m.com/
Also, you can follow along with the planning, preparation, execution, and follow through on this DXpedition through NE1RD's blog, "The 100 Pound DXpedition", at: http://100pounddxpedition.blogspot.com

1A4, SMOM (New Prefix!). An E-mail from Amateur Radio Station of S.M.O.M. informs OPDX that starting January 2007 a new Amateur Radio Station license has been issued from "The Sovereign Military Order of Malta" (SMOM). The license 1A4A was issued by the S.M.O.M. and Giorgio, IZ4AKS, will be in charge of managing the station. The first activity of this station will take place between January 2-8th, 2007, from the extraterritorial zone of the Magistral Villa on the Aventine Hill in Rome. Operators will be Giorgio/IZ4AKS, Cortesi/IZ4DPV, Fabio/I4UFH, Gabriele/IK4UPB and Luca/IW0DJB (HV5PUL). Activity will be on 160-2 meters, SSB/CW/RTTY mode. Three stations will be active at same time, especially looking for DX areas such as Japan, South America and West coast. Emphasis will be on the low bands. QSL Manager is IZ4DPV.
The press release also mentions (edited): "The license has been granted into a fundraising program to support the worldwide relief activities of "The Order of Malta". The Order follows its historical hospital mission by providing help to the needy and the sick. Today the Order of Malta is a major global, professional organisation in terms of the humanitarian aid, medical care and emergency medicine it provides, in its management of hospitals, specialized homes for dependent elderly people, socio-medical care centers, the collection and transporting of medicines and the training of workers and ambulance staff. The Order currently has medical and humanitarian programs in more than 120 countries.
The first activity of 1A4A (One Aid 4 Africa) was set up to help collect funds to build a school for young girls, and as part of a support plan for the rebirth of South Sudan, coordinated by the Order of Malta, together with the Italian government."
For updated information and details about the DXpedition and "The Order Of Malta", please visit the following Web pages:
http://www.1a4a.org
http://www.orderofmalta.org

4TH AAW NEWS. Members of Radio Amateur Club Swissair will participate in the "4th Antarctica Activity Week" (AAW), February 19-25th, using the special callsign HB9ICE from Switzerland. QSL via HB9BHY. Operators mentioned are Walter/HB9BHY (WAP Honor Roll), Hansruedi/HB9BHW, Peter/HB9CET and Roland/HB9DPO. The WAP number for the HB9ICE operation is WAP-81.

5A7A VIDEO. Rudi, DK7PE, informs that a short video sequence (3 mins) about 5A7A can be seen on "You Tube". The link is available on his Web page at: http://www.rooody.de
He still needs some time to complete a 30 minute version.

7W0, ALGERIA. Operators Mike/DB1JAW and Michael/DK5MH will be active from the northern part of the Sahara using the special callsign 7W0JAW and 7W0MH, respectively, between February 2-10th. Activity will be on 24 hours a day on 80-10 meters, mainly on SSB with a little bit of PSK31 and RTTY (maybe). The mainly activity will be on the following suggested frequencies: 14185, 14290, 18120, 18150, 24950 and 24980 kHz. All QSLs are to be sent direct only to DB1JAW (SAE is not required, return postage is appreciated): Mike Weiler, Stormstr.126, 47445 Moers, Germany. NO BUREAU QSLS ACCEPTED!

8Q, MALDIVES. Andy, G7COD, will once again operate from Embudu Island, South Male Atoll, Maldives, for the second time as 8Q7AK between Sunday, January 21st and February 2nd. Activity will be on 30/20/17/15/12 meters mostly SSB with some CW. QSL cards direct to his home callsign G7COD. Alternatively, if you have access to the bureau, you can send them marked "via G7COD." Andy will return all QSL cards via the bureau; however, if you do not have access to a QSL Manager or the bureau, please inform him on your card, and instead he will send an EQSL. For more information about the activation, please check 8Q7AK on QRZ.com.

9M0, SPRATLY ISLANDS (Update). Tex, 9M2TO, informs OPDX this past week that the "Project 2007 Spratly Island 9M0 DXpedition by Team Blue Marlin Ventures" now has a callsign. The Malaysian Communication and Multimedia Commission has issued the callsign 9M2SDX. Look for activity from Pulau Layang Layang (AS-051) in the Spratly Island group to take place between March 9-19th. Operators will include members of the Malaysian Amateur Radio Transmitter's Society (MARTS) and a group of JA operators. Malaysian operators mentioned are: Chow/9M2CF, Phoa/9M2KT, Tex/9M2TO and Yasumasa/9M8YY. JA operators mentioned are: Yoshiaki/JA1OCZ, Tack/JE1CKA, Harumi/JF1PJK, Naoyuki/JK1FNL, Yasuyuki/JR1AIB, Kazuyuki/JR1VMX, Miho/JJ2VLY, Yutaka/JQ2GYU, Takashi/JR7TEQ and Kiyohiro/9M2/JH3GCN. The team plans to have a total of 20 operators. They also plan to have 2-4 stations up and running for 24 hours on all bands 160-6 meters, and on CW, SSB, RTTY and PSK modes. QSL via 9M2TO, by the bureau or direct to: Tex Izumo, 2C-10-03 Mutiara APT., JLN. SG. EMAS 11100 Batu Ferringhi, Penang, MALAYSIA. Visit the DXpedition's Web page at: http://island.geocities.jp/layang9m4sdx/

AFRICAN ACTIVITY (6W & J5 Ops). German operators Sid/DM2AYO, Mel/DL6CT and Hans/DL7CM will be active as 6W/DM2AYO, 6W/DL6CT and 6W/DL7CM from a hotel in Cap Skirring (GL:IK12pi), Senegal, between March 3-23rd. The trio will also find time to be active as J5UAR from a camp north of the Varela village (GL: IK12qh) in Guinea-Bissau, possibly between March 4-22nd. Activity from both places will be on 160-6 meters, CW, SSB, RTTY and PSK. Equipment will be an IC-706 with amp, a GP for lowbands, 5 band 2 element Yagi for the high bands and a 4 element Yagi for 6m. SR/SS for both locations are: 0655/1847z. QSL 6W/DM2AYO, 6W/DL6CT and 6W/DL7CM via their home callsigns. QSL J5UAR via DL7CM. More info/details are available at:

http://www.qsl.net/dl7cm/6W/6W.htm

BX0, TAIWAN. Operators Steve/N8BJQ, George/W8UVZ and Randy/W9ZR, along with several BV operators will be active as BX0ZR from January 8-21st. There will be activity on all bands with an emphasis on 160 and 80 meters. They will be using a Titanex vertical, beverages, and amplifiers from a rural(quiet) location. Operating frequencies will be announced after their arrival. QSL via W8UVZ.

CF3, CANADA (CISA and Contest Op). Members of the local Ottawa Amateur Radio Club will activate Bate Island on December 30th (0000z) for a 24 hour period as CF3RCS (Canadians Freezing - 3 - Real Cold Spot). Bate Island is located in the Ottawa River (Island Park Drive north of the Parkway) and is considered part of the City of Ottawa. Operators mentioned at press time are Bob/VA3QV, Terry/VE3TWC, Steve/VE3SBC, Mark/VA3UMP and Martin/VA3SIE. This will be a new activation for the Canadian Islands Awards Program (CISA), and they hope to earn the island an island number in that program. Visit the CISA Web site at: http://www.qsl.net/ve3tpz/cisa/ The group also hopes to take part in the RAC Canada Winter Contest. Details at: http://www.rac.ca/service/infocont.htm
Activity will be on VHF and 6m (FM/SSB/CW) as well as 160-10 meters HF, SSB and CW. Operating modes and contest class will depend on the operator's personal preferences and band conditions at the time. A special QSL card will be sent out for this event, and they would appreciate if you QSL direct to the callbook addresses for VA3SIE, VA3UMP or VA3QV. A SASE would be appreciated.

CN, MOROCCO. Operators Nick/F5VIH/SV3SJ, Philippe/F6IFY and Patrick/F6IRF are in the early stages of planning to be active as CN2WW in the ARRL International DX CW Contest (February 17-18th) as a Multi-Op/Single-Transmitter entry. QSL via EA7FTR or LoTW.

DXCC NEWS (Notes on 4O3T QSLs). Bill Moore, NC1L, ARRL DXCC Branch Manager, on December 13th, reports: "Several U.S. operators have reported that the 4O3T QSL cards began to arrive Monday and Tuesday. Unfortunately, the first batch contained only the month and year and not the specific day of the QSO. Cards now being sent have the complete date. 4O3T cards that show July 2006 or later, with or without the actual day being shown on the card, will be credited for Montenegro. QSLs for QSOs in May 2006 or earlier will count for Serbia (Serbia and Montenegro). Cards for QSOs in June 2006 will not be accepted for any credit. Montenegro was added to the DXCC list on June 28, 2006. Those who received a 4O3T QSL card with no date number and wish to obtain a corrected QSL can send a self addressed envelope directly to N7CQQ, John Kennon, who is sending out cards for all of the Americas." EDITOR'S NOTE: Please also read below under QSL INFO AND NEWS... "4O3T QSLS".

HNY 2007 PARTY. Sylwester, SP2FAP, MK QTC Editor, informs OPDX that the "Happy New Year Party 2007", will take place from 1800z, December 31st to 1800z, January 1st. The event is sponsored by Polish Radio Amateurs' Journal MK QTC. Results of the event and its participants will be published in the February edition of the Polish Radio Amteurs' Journal MK QTC and

available under: http://qtc.radio.org.pl
For more details on this event, and the avaialble awards,
please E-mail Sylwester, SP2FAP at: qtc@post.pl

HOLYLAND 2006 CONTEST. Mark, 4Z4KX, informs OPDX that the results of the "Holyland DX Contest 2006" can be now found on the IARC Web site at: http://www.iarc.org
The upcoming "Holyland DX Contest 2007" will be held on April 21st with a new digital mode category!

IOTA NEWS.....
SA-023. (Update) Jim, PY7XC, has been added to the group of operators Cristovao/PY7GK, Ren/PY7RP and Benedito/PY7VI that will be active as ZY6T from Itaparica Island, December 26-30th. Activity will be on 80-10 meters CW/SSB. They intend to put two stations on the air using amplifiers and vertical+dipole antennas. QSL direct to PY7GK.

J2, DJIBOUTI (Update). By the time you read this, Eric, ON7SAT, who was active as J20SA, has departed from Djibouti. OPDX was informed he would be leaving on December 17th. However, the good news is Eric is due back in Djibouti on January 4th, 2007, for about 3 weeks (exact date to be confirmed), and his license has been extended for another 2 months. Eric's log is now available online at: http://users.telenet.be/on4knp/
Eric tries to update his log +/- weekly. QSL via ON7SAT, direct or by the Bureau.

J6, ST. LUCIA (NA-118). Remember to look for Oleh, KD7WPJ, to be active this week as J6/KD7WPJ between December 21-27th. Activity will probably be on 160-6 meters CW/SSB. QSL via his home callsign.

NEW OFFICERS FOR 2007. At its Annual Meeting/Holiday Party held on Thursday, December 14th, the Carolina DX Association (CDXA) elected its officers for 2007. Elected were:
President: Ted Goldthorpe, W4VHF
Vice President: Thomas Wright, N4HN
Secretary-Treasurer: Cliff Wagoner, W3ZL
Newsletter Editor: John Scott, K8YC
Cluster Manager: Joe Simpkins, K4MD
Cluster Manager (Northern Area): Paul Sturpe, W3GQ
Contest Manager: Dick Williams, W3OA
Webmaster: Wayne Setzer, WB4BXW

More information on CDXA can be found on its Web site at: http://www.cdxa.org

P40, ARUBA (SA-036). John, W2GD, will be active as P40W during the ARRL International DX CW Contest (February 17-18th) as a Single-Op/All-Band/High-Power entry. Look for some activity before the contest on 160 meters. QSL via N2MM.

P4, ARUBA. John, KK9A, will be active as P40A during the ARRL International DX SSB Contest (March 3-4th) as a Single-Op/All-Band entry. QSL via WD9DZV.

PIRATE ALERT. Len, ZL1BYA, New Zealand Association of Radio Transmitters (NZART) Monitoring Service Officer, has issued the following: "There is a pirate station using the callsign ZK3DX. He has been operating since the 16th of September and was last heard on the 3rd of December 2006, he is usually around 7000 to 7010 kHz between 0500 and 0700 NZDT. He appears to be an experienced CW operator and claims to be operating from Nukunonu Atol in the Tokelau Is. The Tokelau Administration has not issued this callsign nor have they heard of any amateur operating from these Islands. This callsign is being used illegally."

UA0IDZ via RW0IZ
ZM3R via ZL3RG

4O3T QSLS. Bob, N6OX, with the 4O3T DXpedition, informs OPDX readers: "I wanted to apologize for some of the recent confusion with the 4O3T QSL cards. First of all many people are wondering how the cards ended up getting back to the states?? As part of the team I agreed to process the cards for NA/SA and collected the cards from YT6A on a recent trip back to Europe. As you can imagine this was a good size box and was heavy, which Air France quickly charged extra for. Due to the large volume of cards I had to process, we volunteered John, N7CQQ, to help us. This explains why the cards are now being mailed from Las Vegas. Our first group of QSL cards were printed just fine and mailed out. So we continued processing the cards and then discovered that the program had dropped the day off. We were able to identify some of the people that rec'd these cards and quickly resent revised QSL cards out explaining the problem, but unfortunately we could not identify everyone, so then the confusion set in. The printing glitch has been corrected, and we are back on track mailing out the QSL cards. For anyone that has one of these 'unique' cards, we will replace it with a properly dated card just contact either John at n7cqq@msn.com or me at n6ox@yahoo.com. Thanks for your understanding. Best Wishes for a Happy Holiday Season.... 73 Bob N6OX"

Joe, VA6JWT, who operated as 6O0JT last year, has been away from Canada for sometime. He indicates that upon his return he will continue to process cards. Joe will do direct cards first, then bureau cards but all cards will be responded to.

Graham, M5AAV, informs OPDX that effective immediately, he is now the QSL Manager for Steve, 9M6DXX. QSL direct or by the Bureau.

QSL VIA DL5EBE. Even though QSL Manager Dominik, DL5EBE, is now living in Russia, he states that direct QSL cards for any of the stations he is the manager for can still be requested from the following address: Dominik Weiel, Wintershall Holding AG, Abt. EV, Friedrich-Ebert-Str. 160, D-34119 Kassel, Germany. QSLs sent via the DARC QSL Bureau will be forwarded to Dominik.

ST2A QSL STATUS. Boris, T93Y, reports, "I am pleased to inform you that ST2A QSL cards are received from the printer and that all direct QSL

requests received as of Saturday, 9th December are in the mail. You can see the card design in "QSL Info" and check status of your request in the "LOG Search" section of the ST2A Web page at: http://www.t93y.com/st2a As BHP (Bosnia and Herzegovina Post) can take up to two weeks to deliver a air mail letter (maybe even longer in these pre-holiday days) please give them some time before you start asking questions. Once again I would like to remind the DX community that 1 USD is not enough to send a letter anywhere in the world, while 1 IRC is fine. Full details are available in "QSL Info": section of the ST2A WEB Page...."

Nilay, TA3YJ, reports: "On December 11, 2006, I received the QSL cards for TA3J, TA3J/0 (AS099), TA3J/0 (AS115), TA3J/3, TA3J/4LH, TA3J/60, TA3YJ, TA3YJ/4 LH, TC2K4J, YM125ATA, YM3ATA, YM3BU, YM3LZ (WAE2000SSB), YM3LZ (WPX2000SSB), YM3SV and YM75TA callsigns that had been sent from Australia, Austria, Belgium, Brazil, Canada (VE3), Denmark, Estonia, United Kingdom, Finland, France,Germany, Greece, Hungary, Iceland, Israel, Italy, Japan, USA (W1, W2, W3, K4, W8, W9, KL), Lithuania, Luxemburg, Mexico, Netherlands, Norway, Poland, Romania, South Korea, Spain, Sweden, Switzerland and Turkey and Ukraine QSL bureaus via TRAC QSL Bureau. I send my QSL cards myself directly to the QSL bureaus with regular intervals.... Thanks for your QSL cards. HNY, 73&88"

YX0A/YX0LIX QSL STATUS. Steve, KU9C, reports, "The YX0A/YX0LIX cards have arrived, and I'm in the process of preparing the first mailings. The process will be a bit slower than I'd like, due to the holidays and a few business and family commitments. Please do not resubmit; I'll use the DX bulletins to advise when I've finished mailing what I've got and status updates along the way. I do apologize for the delay in getting the cards out."

SPECIAL EVENT. The Straight Key Century Club (SKCC) invites you to celebrate their first anniversary with special event station K1Y. Stations will be operating in all call areas on all HF bands from January 1-31st. All special event operators will be using straight keys and bugs. Operators are free to use any part of the bands but will probably concentrate around the SKCC frequencies (listed on the SKCC Web page). Special event QSL cards are available for working stations in each call area. Certificates will be awarded for contacts with all call areas. Send an appropriately sized SASE for QSL cards and certificates (8-1/2x11 if you don't want folds) to K4VD: Kevin der Kinderen, 3967D Oldtown Road, Shawsville, VA 24162-2045. Questions can be sent to K4VD at: kevin@k4vd.net
The SKCC Web is available at: http://skccgroup.com

T30, WESTERN KIRIBATI. Toshi, JA8BMK, will active as T30XX during his spare time from December 27th to January 8th. Activity will be on 160-10 meters CW/SSB. He will be using a TS-480 and a FT-897 with Linear Amp. Antennas will be: 3 element yagi for 20/15/10 meters, Rotary dipole for 40/30/17/12 meters and an Inverted "V" for 160/80/75 meters. QSL via JA8UWT, direct only.

VK9N, NORFOLK ISLAND. Members of the Bavarian Contest Club (BCC) will once again be on tour. Look for operators Markus/DJ7EO, Heye/DJ9RR,

Christian/DL1MGB, Dietmar/DL3DXX, Tom/DL5LYM and Dieter/DL8OH to be active from Norfolk Island (OC-005) between February 15th and March 3rd, 2007. Activity is planned for 160-10 meters on CW, SSB and RTTY, with a focus on the lower bands. QSL Manager is Mario, DJ2MX. More information is expected to be available on the DXpedition's Web site at: http://www.df3cb.com/vk9n

VU4, ANDAMAN ISLANDS. OPDX has received several inquires from readers "Where are the operators/stations on the island?" The DX community was told that equipment was supposely left on the island and "two permanent stations are now on the Andaman Islands. Station's callsigns are VU3VPX and VU3VPY. They will be operated by two lectures from the Politechinic College."

VU7, LAKSHADWEEP ISLANDS (VU2LD News).The following press release is from the VU7LD Web site date December 14th (edited): "On 13th December a presentation was made at the Lakshadweep Secretariat conference center. Over 26 staff members from the island administration attended the present-ation. The presentation showcased HAM radio and its many facets and included a live demonstration of HAM station operations with voice and CW. The attendees also visited one of the operational stations from the DXpedition to get a first hand experience of what we are doing on the island. In addition the use of HAM Radio in an emergency scenario was highlighted and this was appreciated by the attendees.
The island administration is in discussion with ARSI as to how training for their staff could be administered and ARSI has offered to organize training and coordinate with the examiners to conduct HAM license tests on the island itself. We could soon see a club station on LD!....
Stay tuned 73, de Gopal VU2GMN"
Currently, the online logs are available for the period between December 1st through part of December 14th, at the following URL address:
http://www.arsi.info/vu7/onlinelog.shtml
Next log update is expected on December 18th. Remember to QSL via W3HNK.
For more details and updates, the ARSI Web page is available at:
http://www.arsi.info/vu7/

DX Bulletin No. 790
BID: $OPDX.790
December 25, 2006
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, NJ1Q, W1BYH, KF2TI, W2IRT, K3PD, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, K8YSE, Pete's-DX-Newsdesk, CT1EAT, DJ5AV & The DX News Letter, DK8JB, DL4KQ, DL7JAN, F5NQL & UFT, F5PFP, I1JQJ/IK1ADH & 425 DX News, LZ1BJ, PA3GIO, PY7RP, RSGB IOTA, SP9MRO, UA9LP, UX0FF and VA3RJ & ICPO for the following DX information.

*** SPECIAL NOTE FROM EDITOR (Tedd, KB8NW): My family (wife/OPDX's chief proof-reader Linda, son Teddy [TJ] and his wife Jessi, daughter Katie) and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy Holiday and Season's Greetings". Thanks to the individuals who sent holiday wishes to my family and me. I tried to answer all of them this time around..... 73 and Have a Great Holiday de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 17th-December, through Sunday, 24th-December there were 214 countries active. Countries available: 3A, 3B8, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5V, 5X, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E5/s, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, F, FG, FJ, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HH, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J6, J7, JA, JT, JX, JY, K, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, R1FJ, S0, S5, S7, SM, SP, ST, SU, SV, SV/A, SV5, SV9, T32, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, VE, VK, VK9L, VK9N, VP2E, VP2V, VP6, VP8, VP8/h, VP9, VQ9, VR, VU, VU7, XE, XU, XW, YA, YB, YI, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3B6, AGALEGA (DXpedition Update). Witek, SP9MRO, informs OPDX that members of Polski Zwiazek Krotkofalowcow (PZK)(the Polish Amateur Radio Union) and SP-DX-Club will NOT be active on 6 meters during their planned March 2007 Agalega Dxpedition. They have recently learned that 6 meters is not allowed because of the regulations (since October 2002) by the local telecommunic-ation authority.

3 STEVES & W1AW. Here is your chance to work the "3 Steve's" again. The trio will be guest op'ing at the ARRL station, W1AW, Wednesday, December 27th, from 1700-2045z. Operators are Steve/KF2TI, Steve/N2IFA, Steve/KB2ENF and Kurt/W2MW (aka Steve). This is the group's 14th annual WAS (Worked All Steve's) DXpedition to Newington and they will be operating the following bands: 30m CW (Kurt/W2MW aka Steve)
15/20/40m SSB (Steve, Steve and Steve)
6m SSB The 4th operator Andrew-N2IFB will try his hand on this band. Depending on conditions, they will try 10 meters SSB as well and listening for contacts outside the U.S. Packet spots will be posted. ADDED NOTE: If you work any 3 operators, they will send you a beautiful, full color WAS (Worked All Steve's) certificate (suitable for framing). No QSL is needed, as they will have copies of the log and send out a certificate to all those who qualify. The logs will be posted after January 1st on their Web site: http://3stevesandkurt.dynu.com/
This is not an officially sanctioned ARRL event. It is run for fun by the 3 Steve's and a Kurt Amateur Radio Association - WK3SS (all rights reserved), and they are responsible for the printing and sending of the 3 Steve's and a Kurt Worked All Steve's certificate (suitable for framing). ANOTHER NOTE: They hope to have the 3 Steves/KP2 certificates and cards out very soon. They apologize for the delay.

3V, TUNISIA. Alex, GM0DHZ, will be active as 3V8SS for five weeks starting January 7th. This will be a holiday-style operation with activity on 80-10 meters and possibly 160m, CW and SSB.

4S, SRI LANKA. Ben, DL7UCX, will be active (possibly as) 4S7UCG from December 26th and January 5th. This will be a holiday style operation with activity being focused on 160-30 meters CW. QSL via DL7UCX, by the bureau or direct.

5H, TANZANIA (Update/IOTA Op). Serge "Sam", F6AML (TX6A), a member of the "F6KOP Provins ARS Team", will be active as 5H1Z from Zanzibar Island (AF-032) between January 18-29th. Activity will be on 80-10 meters CW/SSB with 400 watts and verticals. Sam will pay special attention for west coast NA and JA (Asia) stations. QSL is OK via the French REF Bureau (only this bureau) or direct with SAE + 1 IRC or with 1 USD for Europe or 2 USDs for the rest of the world.

5U, NIGER. Christian (ex-TZ9A and other African calls) has had a 5U licence since December 5th. Look for him to sign 5U5U during a one month activity starting January 3rd, and he intends to repeat this several times during the coming year. Operations will be on all bands and SSB. QSL direct to: Christian Saint-Arroman, Chemin de Mousteguy, F-64990 Urcuit, France.

6W, SENEGAL. Bert, PA3GIO, will be active as PA3GIO/6W between January 3-10th, from the 6W7RV DX Shack in Somone, Senegal: http://www.le-calao.com/ Activity will be on 160-10 meters SSB only, using 100w, V80 Titanex for low bands, 3 element monobanders for 10/15/20m and a Doublet for 12/17m. Bureau QSLs can be confirmed by using the QSL request form on his Web site, and for direct QSL, please use the info on his Web site, PA3GIO DXpeditions: http://www.pa3gio.nl/

9Q, DEM. REPUBLIC OF CONGO. Georges, VE2EK, who works for the United Nations as a Senior Broadcast Technology Officer, continues to be active as 9Q1EK. He has been very active on 40 and 30 meters CW usually beginning around 2130z. Georges states that 80% of his activity is mainly CW. It was announced this past week that he now has a QSL Manager - Osten, SM5DQC. See details at: http://www.qrz.com/callsign/9q1ek
Also, visit Georges's interesting blog Web page at: http://ve2ek.blogspot.com/

A3, TONGA (OC-049). Just a reminder that Mark, VK2GND, will be active as A35GN from December 25th to January 3rd. Suggested frequencies are: 7050, 14195 and 14273 kHz. QSL via VK2GND.

A3, TONGA. Nag, JA7GAX, is currently active as A35TN from Tongatapu Island (OC-049), the main island of Tonga. Activity has been mainly CW on 40/30/20/17 meters. He is expected to leave the main island on December 26th, and operate as A35TN/N from the rare Island of Niuatoputapu (OC-191). It has been reported that he will be there until January 2nd before moving on to the Island of Vava'u (OC-064) for a few days and operate as A35TN/V. Nag will leave for Fiji on January 4th and once again be active as 3D2CX. QSL via JA7GAX, direct only (QRZ.com).

ANTARTIC NEWS. Henry, LU4DXU, announced this past week that the base "Almirante Brown" on Graham Land will be open between January 12th and March 10th. This very rare base is located 64.5°South, 62.5°West. No details were provided about a ham operator on base but more details are forthcoming.

C6, BAHAMAS. Operators Peter/W2IRT and Tom/N2YTF will be active as W2IRT/C6A and N2YTF/C6A, respectively, from Nassau (NA-001) between February 24th and March 2nd. Look for activity on SSB/CW/RTTY, mostly on 17/20/40 meters, but they will try the higher bands if propagation allows. N2YTF may be doing some satellite and HF-QRP work as well. This is a part-time vacation-style operation. QSL via W2IRT (see QRZ.com). Their logs will also be uploaded to LoTW upon their return.

HI3, DOMINICAN REPUBLIC. Norm. W1BYH, will be active from here between January 6-12th. His activities, which will include the ARRL RTTY Roundup Contest, will be on all bands including the WARC bands, but emphasizing RTTY and PSK31. Operations will be limited since this is a vacation/mini-DXpedition. QSL by LoTW, e-QSL, DIRECT or by the Bureau to W1BYH.

IOTA NEWS.....
AS-079. Operator Take, JS6RRR, will be active as JS6RRR/JS6 from Miyako Island (WLOTA LH-0249), December 28th through January 9th.

Activity will be on CW, SSB and RTTY, on the HF bands. QSL
via his home callsign, direct or by the bureau.

EU-048. Operator Fred, F5OZK, will be active as TM0ZK from Belle Ile
en Mer (DIFM AT-015) between December 26-30th. Look for activity
on all bands with an emphasis on the digitals modes. He will
use a FT1000 and G5RV antenna. QSL via F5OZK (CBA).

NA-061. Operator John, VE7JZ, will be active as VE7JZ/p from Kaien
Island (BC-005 for the Canadian Islands Award), January 7-20th.
Activity will be on 40/20 meters only, on the usual IOTA
frequencies (+/-10 kHz). QSL via his home callsign, direct
is preferred, but the bureau is "OK".

NA-110. Operator Rich, K4FCP, will be active as K4FCP/p from Hunting
Island (USI SC-003S, Beaufort County, South Carolina), December
27-30th. Activity will be on 20 and 15 meters throughout the
day. QSL via K4BMS (QRZ.com).

OC-244. Francisco, CT1EAT, will be active as DU1/CT1EAT from Romblon
Island, January 1-17th. Activity will be on 80-10 meters, SSB
and RTTY. QSL via his home callsign, direct or LoTW only.
More info available at: http://www.qsl.net/ct1eat

SA-023. (Update/Reminder) Just a reminder that a group of operators
will activate Itaparica Island between December 27-30th, as
as ZY6T. Operators are: PY7GK, PY7RP, PY7VI and PY7XC. For more
details see: http://zy6t.atspace.com
QSL via PY7GK.

IS0, SARDINIA (50/144 & EME Op). Look for Giancarlo, I0JU, to be active
as IS0/I0JU between December 27th and January 2nd. From Grid Square JN40DN,
he will have two stations with sufficient power (600 and 1k watts on 6 and
2 meters) on the air. Main activity will be focused on EME and MS.

LZ2007, BULGARIA. On January 1st, 2007, Bulgaria will become a full member
of the European Union, and to commemorate this event, look for the HQ
of the Bulgarian Federation of Radio Amateurs to air the special event
callsign LZ2007EU between January 1st and April 30th, 2007. QSL (preferably)
via the LZ QSL Bureau to LZ1BJ.

QSL INFO AND NEWS.....
EO15YW via US0YW
TA1HZ direct Dr T A Kazancioglu,
Cilekli Caddesi No.24 Levent
34330, Istanbul, Turkey
TM3WRC via F4ELU
YV1RDX via IT9DAA
ZA1UT via OH2BH

QSL STATUS OF 7P8JF, 7P8DJ and 7P8WO. Jan, DL7JAN (aka 7P8JF), informs
that all direct cards that were received as of December 16th, have been
mailed out as of December 18th. You should get your cards within the next

few days.

QSL ROUTE CHANGES for Georgian stations effective immediately:
QSLs for 4L0G, 4L0HQ and 4L2M now go via UA9LP (for European and
Asia radio amateurs..
QSLs for 4L4BBC and 4L0ABC are now direct only, and they will not
accept bureau cards.
PLEASE NOTE: K3PD is no longer manager for any Georgian stations.

NEW PERMANENT ADDRESS. Charly, K4VUD/HS0ZCW, states that the following
QSL address is now permanent for HS0ZCW, VU4AN/VU3CHE, 9N7UD and A52UD:
Charly Harpole, P. O. Box 1, Nakhon Chaisi, Nakhon Pathom, THAILAND 73120.
He adds, "All previous addresses you may have are still operational...
good... for at least the next year, so if you mailed to me prior to
today, I will still get your letter. Only my K4VUD Florida address is
NO good now."

QSL special event station EO15FF via UX0FF, direct or by the bureau.
QSLs (new version) are already printed. Activity is to celebrate the
15th anniversary of UARL (Ukrainian Amateur Radio Leagaue). Activity
will end December 25th. QSOs are good towards the special commemorative
"UARL-15 Award" (See OPDX.787 for details).

SOLAR CYCLE 24 (Good News for DXers!). Scientists are predicting that
the next solar cycle (24) will be BIG. Solar Physicist David Hathaway
of the Marshall Space Flight Center states solar cycle 24 is due to peak
in 2010 or 2011, and "looks like its going to be one of the most intense
cycles since record-keeping began almost 400 years ago." He also states
that the geomagnetic storms may be so extreme, it could "cause power outages
and make compass needles swing in the wrong direction." Their analysis
shows the next Solar Maximum should peak around 2010 with a sunspot number
of 160 plus or minus 25 making this the strongest solar cycle in the past
fifty years possibly one of the strongest in recorded history. For the
complete story, please visit the founding Web page at:
http://science.nasa.gov/headlines/y2006/21dec_cycle24.htm?list50675

SV/A, MOUNT ATHOS. Monk Apollo, SV2ASP/A, was active early Sunday morning
on 20 meters (14250 kHz) SSB around/after 0900z. He is expected to be
active over the next two weeks. QSL direct.

V2, ANTIGUA. Operators Mark/W9OP and Bob/W4OWY will again be on from
here possibly as V25WY (W4OWY) and V25OP (W9OP), March 19-25th. Activity
will be on 160-10 meters, CW, SSB and RTTY.

VU7, LAKSHADWEEP ISLANDS (VU2LD News).....
* The following press release is from the VU7LD Web site dated December
22nd (edited): "VU7LD PRESS RELEASE - 11: Just a few days left for VU7LD
to complete their work on Kavaratti Island in Lakshadweep. After VU2LX,
VU3ELR, VU3SPQ and VU2GMN returned to the mainland yesterday, there are
VU2NKS, VU3IZO, VU3RGP, VU3RSB, VU2PJP and VU2RCR left to work the
remaining days, wind up and transport the equipment back to the mainland.
In spite of propagation not being at its best, several solar flares

and multiple power outages, the team has managed almost 50K QSO's and we hope to up the number during the last few sessions, especially in digital modes. There was also a huge lightning strike on the island a few days ago that destroyed several television sets, refrigerators etc and the team is very fortunate that we were not affected and no damage to equipment took place.
The transfer of logs to the mainland for updating the webpage has been a problem but VU2ZAP and VU2SJD have been working very hard to sort out the many errors and partials that have been brought to our notice and updating the online logs. VU2ZAP has also been diligently answering all mail regarding errors and we expect that most of the issues will be sorted out completely. There will be more releases later.
Stay tuned...." 73, de Gopal VU2GMN

* VU7LD PRESS RELEASE 12 (dated December 23rd): "We have found that several times when one of our operators, especially CW operators go QRT, some other station starts operating with the same call sign and gives reports. These are obviously pirates and so the QRG station thinks it has worked VU7LD when in fact it was a pirate. Obviously then the contact will not reflect on the on line logs. Please bear this in mind."
Stay tuned, de Gopal VU2GMN

* Currently, the online logs are available for the period between December 1st through part of December 14th, at the following URL address:
http://www.arsi.info/vu7/onlinelog.shtml
Next log update is expected on December 26th. Remember to QSL via W3HNK.
For more details and updates, the ARSI Web page is available at:
http://www.arsi.info/vu7/

VU7, LAKSHADWEEP ISLANDS (VU2RG News).....
* The following press release is from the VU7RG Web site and Frank/DL4KQ dated December 22nd (edited): "VU7RG permitted to operate on 30m Band!!!
Today special permit was granted by WPC (Indian Govt.) thanks to relentless efforts of the National Institute of Amateur Radio (NIAR), namely well known Mrs. Bharathi VU2RBI. Due to the current poor conditions 30m will have high priority for the VU7RG operations since it will be one of the few bands to serve the most difficult regions, especially North America.
First freights, including efficient 30m antennas, has already been shipped a few days ago. The first advance teams will enter the islands on January 9th to start with the setups so that the public can expect the start of operations on time.
More details can be found on www.vu7.in which should be visited from now on on regular base since there might be more breaking news possible within the next days! VU7RG will be a full-fledged operation of experienced Hams with good equipment taking care of your needs! We need your support!"
ADDED NOTE:"You now have a comparison from the area we are going to, and this gives us the opportunity to benefit from your monitored band-openings; hence providing us with your observations and valuable suggestions so that we can analyze and consider them for a well-planned

operation of 15 stations! Get part of the team and use the VU7RG Blog Log to tell us your observations."

* SPECIAL NOTE: Dov, 4Z4DX/M0DOV, will be active from VU7RG on 160m, 80m and RTTY on 17m from January 18-25th. SKEDS ARE WELCOME BEFORE JANUARY 15th via: 4z4dx@iarc.org

* As this bulletin was being written, the VU7RG Web site released the following suggested operating frequencies and modes for the three islands to be activated:

```
Band Agatti Bangaram Kadmat
----- ------- -------- ------

1412. QSL Cards

Newsgroup: rec.radio.amateur.dx
Date: 2006-12-26 19:34:02 UTC
From: "qslcanadagroups@gmail.com" <qslcanadagroups@gmail.com>
Message-ID: <1167161642.567206.125930@48g2000cwx.googlegroups.com>
Source record: 2764

Name: Kirill
Call: VE3AXC

Merry Christmas and Happy New Year everyone! I will be a subscriber of this forum from now on, so nice meeting everybody!

On this note, please allow me to stray a bit off this forum's topic but my info might still be relevant for some. I myself have been a ham for 8 years; also run a small QSL card printing business (my printishop is located in Toronto, Canada) and have a web site specifically dedicated to that www.qslcanada.com

Reason I would like to post this message on this forum is to let your group know that I have a pretty good group referral discount program.

The idea is quite simple and there is no catch.... For each HAM who is referred by you and who wishes to place an minimum order of 500 cards, you would receive 100 (custom designed) cards of the same type free of charge. The offer is transferable, so if for example you let me know that you don't need any more cards, I will be happy to print additional 100 cards for your friend free of charge (or charge for 100 cards less)

This offer may be ideal for your group or a club you belong to. For example, if you
refer say 3 HAMs who would like to print a minimum 500 cards for themselves, you would receive 300 cards as appreciation for spreading the word about qslcanada
; you could transfer it to someone as a gift ; or each of 3 Hams would only pay
for 400 cards, since each one will get 100 cards free. To sum it up, each of the referral counts as 100 free cards in any shape or form. Pse let me know if you have any questions.

So if bunch of Hams in this group who are into QSLing might be interested to giving someone a free gift or getting a good deal on the next batch, pse let me know. The offer is valid any time in future. www.qslcanada.com has quite a bit of samples, more info and e-ham reviews

PS Have got to mention this, since it did happen before, where some folks took this posting too personally. I just wanted to get this info out there ONE TIME ONLY! Please don't call me any spammer names or hate mail me. I believe this to be a fair group offer any hams by hams enterprise deserves a little exposure to start out with.

I will try to participate in this group from now on, so best 73 to everyone! Happy New Year!

Ohio/Penn DX Bulletin No. 791

The Ohio/Penn DX PacketCluster
DX Bulletin No. 791
BID: $OPDX.791
January 1, 2007
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NJ1Q, N2OO, K3MD, NG3K, W3UR & The Daily DX, N4AA & QRZ DX, WB6RSE, N7NG, K8YSE, Pete's-DX-Newsdesk, CE6AMN, DJ5AV & The DX News Letter, DK8JB, E21EIC, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, IZ2DPX, IZ8CCW, RSGB IOTA, SM5DQC, VA3RJ & ICPO and YO3JW for the following DX information.

*** SPECIAL NOTE FROM EDITOR (Tedd, KB8NW): My family (wife/OPDX's chief proof-reader Linda, son Teddy [TJ] and his wife Jessi, daughter Katie) and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy New Year". Thanks to the many individuals who have provided DX information over the past year. Without them there would not be an OPDX Bulletin. Also, thanks to the individuals who sent holiday wishes to my family and me.....
73 and Have a Great/Safe/Health New Year de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 24th/December, through Sunday, 31st/December there were 224 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4X, 5A, 5B, 5H, 5N, 5R, 5U, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, D6, DL, DU, E4, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, F, FG, FJ, FK, FM, FO, FP, FR, FW, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J2, J3, J6, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0F, PZ, R1FJ, S5, S9, SM, SP, ST, SU, SV, SV/a, SV5, SV9, T30, T32, T7, T8, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V7, V8, VE, VK, VK9N, VP2E, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, VU7, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YU6, YV, Z2, Z3, Z7, ZA, ZB,ZC4, ZD7, ZF, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

1A4, SMOM (Reminder/Update). Just a reminder that the Amateur Radio Station of S.M.O.M. (Sovereign Military Order of Malta) will be active this week with a new prefix. Look for 1A4A to be active between January 2-8th. The operators will be Giorgio/IZ4AKS, Cortesi/IZ4DPV, Fabio/I4UFH, Gabriele/ IK4UPB and Luca/IW0DJB (HV5PUL). Activity will be on 160-2 meters, SSB/ CW/RTTY mode. Three stations will be active at same time, especially looking for DX areas such as Japan, South America and West Coast. Emphasis will be on the low bands. An interesting activities chart is available on the Web at: http://www.1a4a.org/mappe/pagine/1a4a_activity_planning.html It was also announced this past week that "Due to numerous requests of MS activity", the team is arranging a 2 meter station for WSJT. Activity will start on January 6th through the 7th. More details will be announced later so please check their web site for more news. Also, for sked requests for this meteor scatter (MS) activity, send a message to: ms@1a4a.org QSL Manager is IZ4DPV. For updated information and details about the DXpedition and "The Order Of Malta", please visit the following Web pages: http://www.1a4a.org
http://www.orderofmalta.org

3W/XV, VIETNAM. Champ, E21EIC, is expected to be in Hanoi December 31st and stay until January 7th. Watch the bands.... You never know.

3Y9, ANTARCTICA. Dag, LA9SDA, from Tromso, northern Norway, is now active as 3Y9SDA from the Troll Station in the Antarctica. His activity will last until sometime in January 2007. Operations will be mostly on 20 meters, SSB and PSK.

5H, TANZANIA. Vlad, UA4WHX, is currently active as 5H3VMB/5 from the Lindi/MTWARA Region Group (AF-074). This is a rare IOTA and as usual, the length of stay is not known. He has been active on 80/40/30/20 meters CW, and on Sunday he was on 17 meters SSB. QSL via UA4WHX, direct or by the bureau.

6W, SENEGAL. Giovanni, IZ2DPX, informs OPDX that he will be active in the month of May. Callsign and specific dates are forthcoming. Activity will be on 160/80/40/20/17/15/12/10 meters. He will use a Kenwood TS-870 with 3 element monobands for 20, 15 and 10 meters, and a Titanex for the low bands. Giovanni will continue his African tour after this operation and head to the Island of Santiago and the city Praia. More later.

9N, NEPAL. Stig, LA7JO, Regional Telecoms Officer for the UNICEF Regional Office for South Asia (ROSA), continues to be very active from Kathmandu as 9N7JO. He has been active on 80/40/30/12 meters CW as well as 20/17/15 meters PSK. A few reports indicate that he will be "active from Nepal 'on and off' at various periods during 2007." Look for activity to be on SSB/CW/RTTY on 160-12 meters. QSL direct to: Stig Lindblom, Jum Changphimai, 147/1 Moo 3, Tambon Boot, Ban Ta Bong, Phimai, TH-30110 Nakhon Ratchashima, Thailand.

AAW NEWS. The French EUCW Society and the Union Francaise des Telegraphistes (UFT) will be active during the "4th Antarctic Activity Week" (AAW) as TM5TAF from February 12-25th. The WAP reference issued is WAP-79. Operators will include Norbert/F6AXX, Patrick/F5MQW, Michel/F6DKV, Pierre/F6FXS and Bernard/F5HEW. Activity will be on HF and CW only. QSL via F6AXX, either direct (SAE+IRC/2007) or by the French REF Bureau (Please only this bureau).

ARRL NEWS. Your editor received the following surprising E-mail from ARRL Membership Services Manager Wayne Mills, N7NG, late Saturday afternoon, December 30th: "On Thursday, December 14, 2006, much to my regret, I delivered a letter of resignation to David Sumner, K1ZZ. Such an early departure had not been my plan but had become necessary. On Friday, in a meeting with Dave and Mr. Harold Kramer, ARRL Chief Operating Officer (COO), I made it clear, when asked, that my resignation was in no way a retirement. I also conveyed that it did not indicate any fundamental differences with ARRL outside of the jurisdiction of Mr. Kramer. I offered them the opportunity to release information about my resignation, but Mr. Kramer could send only a terse two-line message, and then only to the HQ Staff and the closed reflector of the ARRL Officers, Directors and Vice Directors, hence this message.
All in all, it's been a fun six and one-half years. The League has been a great place to work, and I'd do all but the last 22 months over again. I thank all of you around the World for your great support. In particular, I offer special thanks to our volunteers - advisory committee members, log checkers and advisors. I also urge all of you to support the ARRL financially. Be sure to tell them what you want, though - they don't always ask. I hope to regenerate an active interest in Ham Radio back in Wyoming. Maybe there'll be another DXpedition or two as well, and look for N7NG - Jackson Hole - to be an active Wyoming contributor to LoTW as long as it's in business..... 73, Wayne, N7NG Jackson Hole, Wyoming"

DX0, SPRATLY ISLANDS. Members of the Philippine Amateur Radio Association (PARA) will be active as DX0JP from the Kalayaan Island Group (AS-051), Philippines, February 1-14th. Activity will be on 160-2 meters with a special emphasis on the low bands. Operations will also be on EME on 2 and 6 meters. QSL via JA1HGY. Look for more info to appear nearer to the date on the PARA Web page at: http://www.para.org.ph/news

EI100, IRELAND (Special Event). To celebrate the centenary of World Scouting in 2007 and the 100th anniversary (in 2008) for Scouting in Ireland, look for the following special event stations to be on the air: EI100S (Echo India One Hundred Sierra) and EI100SI (Echo India One hundred Sierra India). Scout Groups wishing to use these callsigns should apply/contact Sean, EI3IP, by E-mail at: jota@scouts.ie

FM, MARTINIQUE. Eric, F5LOW, will be active as FM/F5LOW/p from Saint Pierre, Martinique (NA-107, also count for WLOTA LH-1041), January 17-26th. This will be a holiday style operation, but look for him on all HF bands on SSB and PSK. He will use an Icom IC-706 and a vertical antenna. QSL via his home callsign, direct or by the bureau.

GJ2/MJ0, JERSEY. Rich, K2WR, will be active as MJ0AWR beginning January 23rd. His activity will include a Single-Op/High-Power entry in the CQ

160-Meter CW Contest (January 27-28th) as GJ2A. QSL via K2WR (also direct for non-USA to GJ3DVC).

IOTA NEWS.....
NA-168. Look for Dennis, WA2USA, to be active as WA2USA/5 from Grand Isle (USI LA-003S, Jefferson County, Louisiana) between February 8-19th. He plans to be active before the ARRL CW DX Contest (February 17-18th) on 80-20 meters CW/SSB. However, he will be active during the contest on all bands 80-10 meters. QSL via his home callsign, direct or by the bureau.

OC-133. Saty, JE1JKL, will be active as 9M6NA from Labuan Island, East Malaysia, January 4-7th. Activity will be on 80m and 160m. Sunrise/Sunset: 2230z/1010z. QSL via JE1JKL. E-mail requests for Bureau return are welcome at: 9m6na@jsfc.org Visit the Web page at: http://jsfc.org/je1jkl/9m6na.html

OC-244. (Update) Francisco, CT1EAT, will be active as DU1/CT1EAT from Romblon Island, January 1-17th. His activity will be limited because he is on holiday. Activity will be on 80-10 meters, SSB and RTTY. QSL via his home callsign, direct or LoTW only. More info is available at the following two Web pages: http://www.qsl.net/ct1eat
http://ct1eat.no.sapo.pt (direct link)

SA-018. Operators CE6AMN, XQ3SA, CE6UZL, CE6UFF, CE6UFY, CE3HDI and LU1EJ will activate Corona Lighthouse (ARHLS CHI 013) and Chiloe Island as XR7C between January 29th and February 5th. Activity will be CW and SSB.

JT, MONGOLIA. Ken, K4ZW, will be active as JT1/K4ZW from January 15-25th. Activity will place an emphasis on the lowbands and in particular 160 meters. QSL go to K4ZW.

KP2, U.S. VIRGIN ISLANDS. John, K3MD, will be active as KP2/K3MD from February 13-20th. His activity will include the ARRL DX CW Contest (February 17-18th). QSL via K3MD. John will be a portable operation from the north shore of St. John's for a few days before the contest using a vertical and 100w.

NEW OFFICERS FOR 2007. The South Jersey DX Association has announced the following officers for 2007. They are:
President: Bob Schenck, N2OO
Vice President: Bob Tomkovich, K2RET
Secretary: Arnie Oberson, W2OB
Treasurer: Bob Pantazes, W2ARP

OH5, FINLAND. Look for a team of operators (not provided) to be active as OH5Z in the CQ 160-Meter CW Contest (January 27-28th) as a Multi-Op entry. QSL via the Bureau.

PIRATE ALERT. Champ, E21EIC, informs that activity by a station signing HS0/UX2IO (Op Ron) was not legal. Thailand no longer issues HS0/callsigns.

The only 2 legal stations are HS0/EA4BKA and HS0/IK4MRH (AS-053).

QSL INFO AND NEWS.....
GS0ADX via GM0ADX M0BUL via MM0BHX
IW0GVG direct or eQSL YR0UE via YO3KAA
J79DI via F1BCS

Osten, SM5DQCI, informs that he is now the QSL Manager for 9Q1EK and 9Q1TB, and has the logs up to December 27th, 2006. He mentions that the QSLs will be colored pictures (different cards for the two stations). However, it will take some time before he gets them from the printer. PLEASE NOTE: Osten states, "I will only answer DIRECT QSLs with SAE and postage, 2 USDs or one 'new type' IRC. If anything more is included to cover printing costs it's appreciated but of course that is voluntary." If you need/want a "log check", please E-mail Osten at: sm5dqc@areteadsl.se

QSL MANAGER F6FNU. It is being reported on http://www.qslinfo.de by F5CWU that "Antoine, F6FNU, has stopped ALL his management activity !!!!" It is suggested not to send any cards to his address or through the bureau.

QSL Manager Vasilij, RW6HS, reminds OPDX readers to only QSL direct to him and not to the SSR and Tambov QSL Bureaus. He states the cards will never get to him. See OPDX.784 for the list of stations and details on how to send for cards that he is manager for, or visit his Web page at: http://www.rw6hs.narod.ru

V7, MARSHALL ISLANDS (Kwajalein Atoll, OC-028). Just a reminder that Neil, WD8CRT, will once again be active as V73NS after January 4th and remain there for at least two years on the Island of Roi-Namur. Activity will be mostly CW on 160-6 meters. QSL by the Bureau or direct to: Neil Schwanitz, Box 8341, APO, AP 96557 (USA). QSLs for his 2003 to 2005 QSOs are "OK" to the same address. Visit his Web site at: http://www.qsl.net/v73ns

VK9N, NORFOLK ISLAND (Update). Members of the Bavarian Contest Club (BCC) will once again be on tour. Look for operators Markus/DJ7EO, Heye/DJ9RR, Christian/DL1MGB, Dietmar/DL3DXX, Tom/DL5LYM and Dieter/DL8OH to be active as VK9DNX from Norfolk Island (OC-005) between February 15th and March 3rd, 2007. Activity is planned for 160-10 meters on CW, SSB and RTTY, with a focus on the lower bands. QSL Manager is Mario, DJ2MX. More information is expected to be available on the DXpedition's Web site at: http://www.df3cb.com/vk9n

VU7, LAKSHADWEEP ISLANDS (VU2LD News).....
* The VU7LD activity went QRT at 1300z on Dec 27th. Reports indicate that the team made about 56,700 QSOs during their operation.

* The following press release is from the VU7LD Web site dated December 27th (edited): "VU7LD PRESS RELEASE - 12: After 27 days of operation, VU7LD went QRT at 1300z on Dec 27th. Stations are being dismantled and operators will be off the island in a couple of days.
We thank the entire Amateur radio community for their support and

enthusiasm for this DXpedition as well as the people of Kavaratti who have been extremely helpful to the entire team.
We hope our efforts at raising awareness of Amateur Radio in the region will pay off, with hopefully a club station and a few permanent operators on the island..... 73, de Gopal VU2GMN"

* Online logs are currently available for the entire period of the DXpedition between the period of December 1st and 1300z, December 27th, at the following URL address: http://www.arsi.info/vu7/onlinelog.shtml
If you do not find your callsign in the log and believe you have had a valid QSO please send an E-mail with your detailed log entry including the VU7LD/Operator you worked to: vu7ld@arsi.info
They will do their best to verify if a mistake was made while entering the log. Remember that all direct QSLs go via W3HNK and not the operators of the operation. Some of the operators have been receiving cards directly and these will be dealt with by ARSI and not directly by the ops themselves. QSL via the Bureau is "OK". Any QSL cards received via any IARU recognized QSL Bureau will be answered via their QSL Bureau.
For more details and updates, the ARSI Web page is available at: http://www.arsi.info/vu7/

VU7, LAKSHADWEEP ISLANDS (VU2RG News).....
* The countdown begins for the second VU7 operation. Activity should begin in about two weeks. For up-to-date details, visit the VU7RG Web page at: http://www.vu7.in/

* It was announced this past week that a "Limited Edition QSL" will be issued as a special "thank you" for those valuable supporters. The individual donators will get their QSL card (limited edition) already shipped from the islands (airmail letter) if they make contact (and can be found in the log)!

* It was announced that Toshikazu Kusano, JA1ELY, has joined the team of pilots for the VU7RG operation. They now have 3 pilots. One for each of the IARU zone. They are as follows:
IARU Region 1: Klaus Wagner/DL1XX (Europe, Africa, Middle East and Northern Asia)
IARU Region 2: Donald Greenbaum/N1DG (The Americas)
IARU Region 3: Toshikazu Kusano/JA1ELY (Asia-Pacific)

(Their E-mail addresses will be received soon.)

* UPDATE: Dov, 4Z4DX/M0DOV, who plans to be active from VU7RG on 160m, 80m and RTTY on 17m from January 18-25th, informs OPDX that YT1AD, VA7DX, A61M and himself still have not received their licenses/papers yet. He hopes they will get them soon, as they were promised. Dov states that he has only received a few skeds for the operation. SKEDS ARE WELCOME BEFORE JANUARY 15th via: 4z4dx@iarc.org

WP3, PUERTO RICO. Alfredo, WP3C, will be active in both the CQ WW RTTY WPX Contest (February 10-11th) and ARRL DX CW Contest (February 17-18th) as a Single-Op/All-Band/Low-Power entry. His activity will also count

for the WLOTA as LH-2802. QSL via W3HNK.

XT, BURKINA FASO (Update). The F6KOP ARS of Provins group will be gathering this week in Paris before heading to Burkina Faso for their XT2C operation, January 6-20th. John, F5VHQ, who was a member of the past F6KOP's DX-peditions (5H, 5V, TO7C), will join the group in Ouagadougou, the second week of the DXpedition, January 15-20th. He was issued XT2HQ as a personal callsign. Operators F4AJQ (leader), F9IE, F2VX, OE8KDK, N2WB and N6OX will depart for XT-land from Charles de Gaulle airport the morning of January 6th. The first signals are expected in the evening. Visit the XT2C Web page at: http://xt2c.free.fr/

YR0, ROMANIA. On January 1st, 2007, Romania will become a full member of the European Union, and to commemorate this event, look for members of the Romania Federation of Radio Amateurs to be on the air with the special event callsign YR0UE between December 25th and January 10th. Please QSL (preferably) via the YO QSL Bureau (see QRZ.COM) to YO3KAA.
